ONLY ONE-HALF AMOUNT NECESSARY TO MEET TERRELL COUNTY WAR FUND QUOTA IS RAISED; CAMPAIGN ENDS 31

CHAIRMAN URGES CONTRIBUTIONS BE MAILED IN

R. E. Corder, chairman of the Terrell County War Fund drive, announced that only about half enough contributions had been received to meet the quota of \$3,000 set for the county up to noon Thursday.

Mr. Corder stressed the importance of these funds which are so badly needed by the Red Cross to carry on their work with the armed forces both at home and abroad—in the fighting lines and in the Jap and German prison camps—and requested that all persons who had not used the self-addressed and stamped envelope which they received please mail in their contributions at once. If there are those whose names were overlooked when the letters were mailed out, they are requested to simply make out their checks to the Red Cross War Fund, for twice the amount that was contributed last year, and mail it to J. M. Hayre or to Mr. Corder.

No one will deny the good that is being done by the American Red Cross and the lives its workers are saving on the battlefronts; the comfort they bring servicemen in cases of illness or death of loved ones at home, and in many other duties performed everywhere. Nor would hesitate to go all the way

in postage instead of six after that date.

The advance from six to eight cents on air-mail postage applies only to domestic mail in the United States, and as stated, letters to persons in the armed forces abroad or coming from the personnel of the armed forces abroad, may be sent by air at the old rate of six cents.

Parcel post rates received a three percent increase, with a minimum one cent increase on any one package.

Money order fees are boosted from a minimum of six cents to 10 cents, and from 22 cents to a 37 cent maximum. Registry fees will be raised from a 15 cent minimum to 20 cents, and from \$1.00 to a \$1.35 maximum. Parcel post insurance fees from 12 cents to 24 cents minimum.

Also stated that he was the only Texan in his crew. No two men in the crew are from the same state. In speaking of the weather at his post, he says everything is frozen over with snow and ice as far as you can see.

Word has been received here by Mr. and Mrs. W. B. Burleson that their son, Staff Sergeant Jesse S. Burleson, has completed his fifty missions over Germany as a gunner on a B-17. Sergeant Burleson advised his parents that it was probable that he would be able to come home sometime in the near future, and that for the present he was a gun inspector.

Navy, who is here for a visit with his mother, Mrs. Pearl Babb, is eligible to qualify for the petty officer rating of electrician's mate third class, according to information received by the Times from the Headquarters Ninth Naval District, Great Lakes, Ill. The first word received from Sgt. J. C. Roark, stationed somewhere in England, for some time comes in a letter to his father, Bud Roark. Seems Cliff has been on a furlough with friends, a Stillwell and Waddy Burnham, both former acquaintances of Brewster County. He says: "I enjoyed my leave very much. Went from here to where Stillwell is stationed and spent two days there. Then he and I went to London where we met Waddy Burnham, so you can imagine what a time we had together. I also saw a Mexican boy from Alpine who knew of a Spanish cafe, so we went there for supper. Tamales and all, a real Mexican dinner. The first I've had over here. In all I had an enjoyable time but I was glad to get back in camp. There are so many Yanks in this country now that one town is about the same as another."

"I suppose that lambing is well under way now and the range is beginning to green up."

OIL CHOKER
America's shortage of gasoline for civilian use is becoming especially in the East a serious problem also. The motor fuel demands are increasing, and the only apparent way to meet them is by cutting into uses at home.

In 1943, oil fields of the United States yielded 1.5 billion barrels of crude oil, and new fields discovered will furnish only about six percent of that much.

Relief is in sight; 350,000 barrels daily came out of storage in January. Oil producers earned more than two years ago when government authorities just what is happening now. At that time the calamity could have been avoided with a fair price in the crude oil price. It was not allowed. Here is the rub: When oil prices were set in 1941, the national average was \$1.17 a barrel, and it is \$1.20.

Counting all puny, scattered advances in two years, the price has amounted to 3c a barrel. The country needs oil even in 1941. Exploratory work should have been drilled—fields found. But men can't dig more than they receive.

Winners of the prizes were Mrs. Mary Lou Kellar with high score prize and Mrs. Ted Baker with second high. Mrs. James Kerr received the consolation prize.

The hostess served a salad plate to Mesdames Bustin Canon, Mary Lou Kellar, C. P. Peavy, Hugh Rose, Herbert Brown, Tol Murrah, Ted Baker, W. H. Buchanan, Horace Fletcher, James Kerr, Roy Bogusch and S. H. Underwood.

Mrs. S. J. Lovell and Miss Nina Barger were called to Robert Lee Monday because of the illness of their father, M. C. Barger. They accompanied a brother Claude Barger, who resides at Alpine.

in doing their part to help in this work if they have heard someone they know well, express their appreciation for the services Red Cross brings them. To further stress this point we are taking the liberty of using, without his knowledge or permission, words expressed to the editor by Pfc. Durwood Hartsfield during his last visit to Sanderson.

He was, and still is, serving with the armed forces in the Aleutians fighting the Japs. His mother became seriously ill and death claimed her before he could reach her side. He was contacted through the American Red Cross. When he walked into the Times office he saw a volunteer campaign worker card laying on the desk. Turning to the editor, he pointed to the red cross on the card and remarked: "Boy, that is really a good thing."

HAVE FAITH IN CONGRESS

When the founders of our country established a Constitutional form of government, they sought a system of checks and balances which would prevent usurpation of political power. The executive, legislative, and judicial branches were made independent of each other.

Our country has twice during the past decade witnessed the wisdom of the founding fathers. It has seen the legislative branch of government reject a bill urged by the executive branch to dominate the judicial branch, when the phrase, "nine old men," was coined to discredit the U. S. Supreme Court. It has now witnessed an attempt by the executive branch of government to discredit the legislative branch, by referring to its recent taxation as a measure to "relieve the greedy and impoverish the needy."

If the latest tax bill passed by Congress is insufficient to meet the needs of the nation, the executive branch of government should go to Congress with an intelligently worked out, non-partisan plan for additional wartime taxes. Instead of using language toward Congress intended to shake public confidence in that body.

Our citizens must never forget that their duly elected represen-

tatives in Congress are the greatest safeguard that stands between their personal liberties and the subjugation of their rights from whatever source. We may have our differences of opinion with Congress, but we must not for an instant relax our vigilance in upholding that body as essential to American Constitutional government.

THE OLD JUDGE SAYS . . .

"Sorry Judge, my shipment of suspenders still hasn't come in. Some articles are mighty scarce these days. I don't get anywhere near as much as I could sell."

"With the war going on, Frank, we've got to expect those things. It's true of luxuries just as it is of necessities. Take whiskey, for example. There's a real shortage in that. It's to be expected when you realize there hasn't been a drop of it distilled in this country since way back in October, 1942.

"The only thing distillers have been making during that time is war-alcohol for the Government. So, I wasn't surprised a bit to read how bootlegging and black markets have sprung up around the country as a result of the dwindling supply. Our 13 years of prohibition proved that if folks can't get legal whiskey, they'll get illicit whiskey. Sure hope the shortage doesn't last too long. I'd hate to see this country turned over to the bootleggers again."

C.P.S. CO. POWER HELPS "BACK THE ATTACK!"

52% Of Our Electricity Goes to Essential War Industries and Military Establishments

MORE than one-half of all the electricity distributed by Community Public Service Company goes to industries essential to the war effort and to military establishments. One kilowatt-hour out of every two we deliver helps "back the attack."

Like the men on the firing lines, electricity is on the job 'round the clock working for Victory. And in spite of unprecedented demands, there has been no shortage either on the production front or the home front. The electric power that helps build fighting power has never been "too little or too late."

Although I am, to say the least, very poor at this sort of thing, I would like to take this opportunity to express my sincere thanks for remembering me with such a nice Christmas card as that nice Christmas card with all its pleasant memories as that nice Christmas card that keeps a guy going here. However, right at the moment I am at a standstill, as I am in the hospital with a broken jaw. I must confess, the pain had no hand in it. We have had quite a bit of action over here and expect to see a "hell" a lot more.

Trusting this finds everything "dinkum" over there and sending you all again... I remain,

SEEING THE SENIORS

It gives me great pleasure to present to you this week, Bland Gates. Bland was born on August 22, 1927, in Houston, Texas. He is the son of Mr. and Mrs. A. B. Gates. Bland has brown hair and big grey eyes. His ambition is to become a flyer, and here's to you Bland.

Bland started his education in Houston, coming to Sanderson during his fifth year in grammar school and has been with us all this time. It has really been a pleasure having him with us, too.

Bland's hobby is chemistry and radio. It seems his favorite pastime is chemistry also, so maybe he'll really accomplish something someday. Bland could eat fried chicken any day or time with lemon pie for dessert. He especially likes to read books like "The Bounty Trilogy" and he'd prefer Gary Cooper on the screen any day. Bland says his favorite song is Anything but "Mayzie Doats" and I can't say that I blame him. Far sports Bland says he'd rather see a good football game any day, than anything else. Along with his hobby comes his favorite subject, physics. Blue is his choice in colors. He says he can take almost anything but people who try to boss everyone else.

After graduation Bland plans to get in the Marine Air Force, if it is at all possible.

During his years in school Bland has been with the band every year and I dare say I don't know what we'd have done without him in the clarinet section. He has also been in the radio club and the auto mechanics club.

Bland, it's really ment a lot to us, having you with us all these years and when you leave high school in the spring you can always remember that the best wishes of Dear O'l Sanderson High will always be with you. Good Luck.

The pictures are back and some of the kids were disappointed. Who wouldn't be?

Frank and Joan finally got back together again. Good luck, kids.

Maurine C. has been seen quite often with Dan Murrah. Not bad, Maurine.

THE AMERICAN RED CROSS

Josie May Klassen
The Red Cross is an organization made up of volunteers which brings relief to the sick and wounded of the armies in time of war. In time of peace the Red Cross relieves the suffering of the people in case of natural calamities such as floods and earthquakes. It knows no race, color, or creed, and helps enemy and friend alike.

The first beginning of the Red Cross was when the British War Department asked for volunteer nurses to relieve the suffering of the wounded of the battlefields in the war between the Allies and the Russians. Florence Nightingale and thirty-eight other women volunteered and were immediately sent to the Crimea. There they did great work. Several years later Henri Dunant, a Swiss physician, organized workers at Solferino, Italy. These workers cared for enemy and friend alike.

At Geneva, Switzerland in 1864 a meeting was held and the Red Cross was organized. In honor of Switzerland the Swiss flag with its colors reversed was used as the emblem of the new organization. A Red Cross on a white background is known as a symbol of mercy.

In 1881 Clara Barton organized a Red Cross in the United States. And in 1882 the United States joined the International Red Cross.

Today the Red Cross is doing great work. It helps the sick and wounded men on the battlefields. The Red Cross helps a soldier's family by seeing that the family is getting their government allotment and has the food and clothing that is needed. Through the Red Cross letters are sent to and from War Prisoners. The Red Cross organizes clubs overseas to entertain the soldiers away from home. The Red Cross provides kit bags for men when they start overseas, surgical dressings, packages for War Prisoners, sweaters, socks, helmets, and many other articles. The Red Cross has collected 5,000,000,000 pints of blood this past year and has collected 77,000,000,000 dollars for Foreign Relief. The Red Cross trains nurses aids and gives first aid courses to civilians on the home front.

The Red Cross in Terrell County has a share in the work of the International Red Cross. It has made 550 kit bags. The Red Cross here knits sweaters and socks, makes pajamas and night shirts for hospitals, and many other things.

The quota for Terrell County for this coming year is 3,000 dollars. If everyone will give twice as much as they did last year to the Red Cross, Terrell County will fulfill its quota.

Mr. Holley, in assembly last Friday, asked that the school children cooperate one-hundred per cent with the Local Red Cross Chapter in the drive for its quota this year. Mr. Holley emphasized the great work being done by the Red Cross and the even greater need for funds to keep this wonderful work going.

Each home room sponsor will prepare a place to receive funds from her students. All these donations will be combined and given in the name of the school.

Students we have never failed to do more than was expected of us. This is no time to break that record!

PICTURES

A large number of rogue's was started in high school this week when the stamp pictures came in. As a whole the pictures were rather good and most students are collecting for scrap books. The idea seems to be: "I'll give you one, if you will give me one."

BALL SQUAD HONORED

The Basketball Squad of Sanderson were guests at a banquet given in their honor in the home of Mr. and Mrs. Will Savage with Mr. and Mrs. C. L. Surratt as co-hosts.

Redbud and daffodils adorned the living and dining rooms, while the school colors, orange and black, were used in the plate favors and place cards. The place cards were clever miniature black paper basketball shoes with orange socks folded over the tops. These tops when removed gave the date and the occasion. In the center of each table were statuettes of basketball players in action.

A Mexican supper of enchiladas, tamales, frijoles, chili con carne, Spanish rice, pecan pie and iced tea was served to the following: Allister Dishman, Frank Stavley, James Kerr, Sid Surratt, Bill Savage, Doyce Wells, Francis Grigsby, Earl Pierson, Joyce Boyd, Monte Goode, Lowell Jessup, Jay Tom Holley, John Louis Whistler, Billie Joe Short, Don Frazor, Harry Brown, Eugene Thompson, Willie Grigsby, Messers Tom Holley C. G. Bradford, and Coach A. L. Davis.

Lamar School Notes

In order to stimulate interest in the campaign to raise funds for the Red Cross Mr. R. E. Corder, chairman of the local War Fund chapter offered a \$5.00 prize to the boy or girl who wrote the best essay on the subject. Below is the winning essay, without corrections:

THE RED CROSS
Today more than ever the Red Cross is working for the needy, the sick, and the suffering wherever and whoever they may be. It supplies the wounded and the sick soldiers with comfortable beds, skilled medical and nursing care, surgical dressings, hospitals, suitable foods, and entertainment.

While these things are being made the Red Cross does more for the soldiers. It has canteens that supply sweets, cigarettes, and good cheer to both the sick and well soldiers. Recreation

huts are furnished gayly and comfortably, and cheerful pictures hang on the wall. The Red Cross is sent to concentration camps with the necessities for the care and comfort of soldiers. The safest and choicest way of getting news to the men overseas is by getting the help of the Red Cross when other means are not available. When countries exchange prisoners, the Red Cross is always there so as to give the soldiers food, clothing, and to protect them from any serious wounds that they might have and to cheer them up.

The Red Cross is in every part of the world and is doing a swell job, but in turn we must give to the Red Cross. The best way that we can help the Red Cross is to give-give, and give. We must give now because the need is greater this year than ever before. In this way we can have the Red Cross at our soldier's side every time he needs it.

From where I sit ...

by Joe Marsh

You hear a lot of talk about morale these days... but have you found many people who know exactly what "morale" was?

Well, I was thumbing through my scrap book the other day, and I came on this verse I'd like to pass on to you...

It's the lift you get from a friendly smile...
A brand new hat in a jaunty style...
A letter from home that the post-man brings...
Morale is a lot of little things.

Isn't it so? Morale is just a lot of little things. A flower in your button hole, a word of greeting, an occasional refreshing glass of beer with friends.

From where I sit, if we take care to preserve these little friendly things that boost morale, we'll be doing a lot to help our country in its time of crisis.

And we'll boost morale among our soldiers at the front, too. Because it's these "important little things" that they look forward to returning to.

Sure would like to be there and absorb some good Texas sunshine and eat a big meal of frijoles.

"While I was visiting Stillwell we saw a picture show one night called 'Along the Texas Range'. It was made around St. Helena Canyon, Castalon, and San Vicente on below the Chisos Mountains. Saw several people we knew. Fred Rice, Mr. Townsend, and one of the Cartledges, and several more I've seen but can't remember their names. Sure looked dry and hot but at the same time we were wishing we were there.

Lee Allen McBee, third class, son of Mrs. V. G. Ross, arrived Tuesday from San Francisco Calif., to spend a 15-day furlough with relatives. He has served 23 months in the South Pacific area.

Beware Coughs from common colds That Hang On

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)
