

THE SANDERSON TIMES

SANDERSON, TEXAS, FRIDAY, JULY 7, 1944

NUMBER 19

LOOKING AHEAD

BY GEORGE S. BENSON
President, Sanderson College
Sanderson, Arkansas

SMALL INDUSTRY

Strawberries classify as luxury. If they are absolutely essential to anything but straw-berries, I don't know what it is. Few lower animals touch them. Apparently they were created for the enjoyment of mankind. Their food seems quite incidental to pleasure they afford some and the hives they cause on others.

Strawberries however have been a primary economic crop in the lives of a few people and a good many of them are my neighbors in White County, Arkansas. Strawberries to us are what cellophane is to Kalamazoo or cheese to Vermont. What this little industry has experienced in the three years under cut-and-try economy is set forth very clearly in the figures below.

Strawberries, White County: Acres in berries, 4,000. Price per acre 15. Price per crate \$7.50; 1943, Acres in berries, 7,500. Crates per acre 45. Price per crate \$5.50; 1942, Acres in berries, 12,000. Crates per acre 70. Price per crate \$1.50.

Remember the story of Sinbad the Sailor and the Old Man of the Sea? Well—blows White County sustained at the hand of OPA suggests what Sinbad learned from OMS. Large industries like Aviation, Petroleum, Textiles touch a larger number of people in a more vital but the little ones are not exempt from the effects of off-tampering. And there are a few little ones.

Strawberries are extremely valuable; the season is very early and early. People in the business are prepared for inevitable "off years" when crops damaged by weather conditions but they are almost obliged to have their occasional years of rich return in order to keep the wolf from the door during the lean years. The 1943 year was about average in price per acre.

Than Frost
The only recent year of promise pay-off was 1942. Every year looked hopeful including weather. Acreage was large and was the yield. But in the government's newly rationed food department did some warming-up on sugar. The sugar shortage was bogus but there was a lot of hubbub about it and the effect was real. White farmers lost out, thus: 1942 for a case of 24 quarts. 1943 for a case of 24 quarts. 1944 for a case of 24 quarts. 1945 for a case of 24 quarts.

The fruit was fine, but buyers had no reason to be. Mrs. Housewife would be to set sugar on her table at a price. Processing firms, canners and jam makers, took what they could handle and the rest of the crop rotted in the field before the sugar shortage exploded.

Management Comes
The entire crop might have sold at this ridiculously low price. White county would have received \$1,260,000 for it, instead of the \$200,000 it received. In 1943, however, it was the consumer who paid dearly. Discouraged growers set out 37 1-2 acres less land and produced 10 per cent less per acre. The price trebled but gross income to the county was still \$2,000,000 for the season.

Current year is not worth mentioning. Last summer and fall dry and the labor shortage plant-setting time cut the county's gross strawberry revenue half a million, and the year's hopes droop. Farming is pretty certain, after the consecutive disappointments that either drought, man-made shortage, late frost or erratic price-fixing will ruin them.

J. H. HAYRE RETIRES AFTER 48 YEARS RAILROAD SERVICE

After 48 years J. H. Hayre, 70, ended his railroad service June 24 when he made his last run as passenger conductor from Sanderson to El Paso.

Mr. Hayre started his career as a railroad man in 1896 when he was employed with a short line known as the Memphis and Raleigh Springs, in Tenn. The line, which was steam when installed, had been converted to an electric line and he was employed there about four years. In his years of railroading experience he has been employed with the Memphis and Southern, the E. P. & R. I., The St. Louis Belt, the Illinois Central and Y&MV, and with the T&NO.

He came to Sanderson in 1910, serving as a freight conductor until about two years ago when he was promoted to passenger conductor. His retirement was effective June 26, and he and Mrs. Hayre will continue to make Sanderson their home.

HI-WAY CAFE IS OPENED BY FORMER UVALDE CAFE MAN

Lester Morris and son, Lanell, arrived here Wednesday from Uvalde and are preparing the Hi-Way Cafe for re-opening. Mr. Morris stated that the eating place would be open to the public Tuesday of next week and that he would have a complete service of quality foods served with courteous service.

Mr. Morris has operated the Club Cafe in Uvalde for the past seven years, selling it only recently. He will be assisted in the cafe by Mrs. Morris who, with their daughter, Beverly Ann, will arrive in Sanderson Saturday.

A cordial invitation is extended to the public to visit them for lunches or short orders.

Mrs. John W. Byrd Is Hostess to Demonstration Club

The Home Demonstration Club met for its regular meeting this month in the home of Mrs. John W. Byrd Saturday, July 1. Mrs. Byrd was program leader. Mrs. Herman Couch gave a very interesting talk on "Danger, Children at Work." An educational talk was given by Mrs. Gay Franks. Juvenile Delinquency was discussed by Mrs. Byrd.

Mrs. Franks turned in about 15 pounds of waste fat for the salvage this month. Plans are being made to have the club party at the ranch home of Mrs. C. C. Mitchell August 18.

Games were enjoyed by eleven members and one visitor. Those present were Mesdames T. A. Short, Couch, Malone Mitchell, Keith Mitchell, C. C. Mitchell, Fred Talbot, Sam Culbertson, George Short, Franks, James Caroline, and Seth Davenport.

The next meeting will be held in the home of Mrs. James Caroline.

SON TO COX FAMILY

A son, Charles Laster, has been born to Mr. and Mrs. C. F. Cox, Jr., in a San Antonio hospital, according to information received here. The infant weighed six and a half pounds and mother and baby are getting along fine.

CANDIDATE VISITS HERE

Jake M. Mabe of Eagle Pass was a visitor in Sanderson Friday in the interest of his campaign for the office of state representative from the 87th district. Mr. Mabe has no opponent but stated that he wanted to become acquainted with as many of the citizens in the district as possible before election time.

Mrs. C. W. Martin and Mrs. Charlie Turk and son, Mike, returned Wednesday from a week's visit in San Antonio.

RECEIVES WINGS

Lt. Pat Sullivan, who arrived here Friday last week for a visit with his mother, Mrs. Maude Sullivan, completed his training and graduated as a bomber pilot June 27th at the Frederick Army Air Field, Okla. Receiving his Air Forces silver wings meant that Lt. Sullivan had completed many months of the world's most thorough military flight training, and brought the realization that he may become an integral part of the mighty Allied forces. Lt. Sullivan will report to San Antonio on the 17th for special training.

Don't Criticize Men Out of Uniform Urges Texas U Dean

Gossipers Are Hitler's Helpers Says Woolrich

Don't criticize a young man out of uniform until you know the facts, urges W. R. Woolrich, University of Texas engineering dean.

"It's a misguided patriotism that praises a young man who flies a B-29, yet maligns a young man who helps to create that super-fortress," he declared.

Many of World War II's scientific and industrial production jobs are so revolutionary that only young men have the technical training to perfect them, he pointed out. It takes only a few months to train a welder, riveter or other "assembly-line" worker, but it takes a minimum of four years beyond high school to train an engineer or a scientist who can supply the brainpower to create new machines and new processes, he asserted.

"I'm becoming alarmed at Hitler's busy helpers who frequently call me and demand to know why there are so many students in the University who ought to be carrying a gun," he said.

Every able-bodied male student still attending the University, he said, is there for a specific reason. He is in Navy V-12 because the Navy wants him to have special studies before going to sea; he is 16 or 17 years old, below draft age; he is 4-F; he is an already discharged veteran of World War II; or he is a technical student whose own local draft board has told him to remain in school to complete certain courses related to the war program.

Dean Woolrich speaks with authority on this subject because (1) he is regional consultant to the War Manpower Commission on engineering, science and management of war training, and (2) he is the father of three sons—one of whom was killed in the early stages of the war, another is in active military combat, and the third is attending the University.

Mr. and Mrs. Ruel Adams and Miss Margie Driggers left Saturday last week for South Carolina where they will visit several days. Miss Driggers, who has been in ill health for several months, will remain there for some time.

Jesse E. Martin Presenting Voters His Qualifications

Believes Man With Experience Can Be Help to Servicemen

"During the next administration of the attorney general," State Senator Jesse E. Martin, the only ex-serviceman in the race for Attorney General, is telling the people, "many problems will arise in the attorney general's office that will deal directly with the returning soldier, his widows, his orphans or his dependent parents. I believe an ex-serviceman, otherwise qualified, will be better able to solve these vital problems than a man who has never been in the service."

Senator Martin, who fought with the Marines in France in World I, advocated soldiers voting without paying a poll tax. He is serving his second term in the Texas Senate and three times was elected district attorney of Tarrant County after serving as assistant. As an assistant federal district attorney he prosecuted in the United States District Court in 99 Texas counties.

While in the State Senate he worked for and helped pass appropriations for old age assistance, teachers retirement, the needy blind and dependent children.

While still a Marine, Senator Martin won a scholarship in Cambridge University in England where he took a post graduate law course. He previously had obtained his law degree from Texas Christian University. He was born on a Texas farm and worked his way through school.

RESULTS MADE AT OBSERVATORY ARE GIVEN IN REPORTS

Two University of Texas reports were made before the American Astronomical Society in Philadelphia last week, both the results of observations made at McDonald Observatory, the University's huge "sky laboratory" in the Davis Mountains of West Texas.

Dr. Otto Struve, director of McDonald and also of the University of Chicago's Yerkes Observatory, told the nation's astronomers of his observations on early stars in the galactic cluster NGC 6231.

He gave particular attention to the red shift in emission lines from the spectra of two bright stars—Wolf-Rayet spectroscopic binaries—in this galaxy and came up with the conclusion that the shift in these lines is due to self-absorption rather than to the more spectacular cause given by some astronomers of gravitational displacement.

His findings, he said, supports the so-called "expanding shell" hypothesis as an explanation for emission lines in the spectra of some stars.

A second paper, presented by an Argentine astronomer, Dr. Carlos U. Cesco of La Plata Observatory, who has been working at McDonald in recent months, described a faint eclipsing variable star, BD Virginis, which consists of two components revolving around one another every two and one-half days.

Jean Thompson returned Wednesday from Houston where he has been with Mrs. Thompson and their little son, who has been recovering from an operation in a hospital there.

Mrs. Ervin Grigsby returned home Sunday from Sterling City where she has been visiting with her parents, Mr. and Mrs. J. L. Glass.

Ben H. Moorefield, Jr. is in Houston where he underwent a tonsillectomy Thursday.

BIG BEND NATIONAL PARK OPENED JULY FIRST TO PUBLIC

HEADQUARTERS OF SUPERINTENDENT AT MARATHON

July first marked the opening of the Big Bend National Park, according to announcement made by M. R. Tillotson, director of Region three of the National Park Service, whose headquarters are in Santa Fe, N. M. Tillotson, describing the park which lies in Southwest Texas, said it was a region of fine mountains and western country containing three spectacular canyons on the Rio Grande, which serves as the park's southern boundary.

Tillotson was notified Tuesday that Interior Secretary Ickes had accepted deeds and title to lands in the park as of June 12, thus clearing the way for the opening.

Superintendent of the park whose headquarters will be at Marathon, Texas, will be Ross Maxwell, now assistant regional supervisor of Southwestern monuments. O. P. Senter, stationed at the Hot Springs National Park in Arkansas, will be chief ranger of the new park.

SALES DURING MAY SHOWS INCREASE OVER LAST YEAR

A spurt of pre-summer shopping during May boomed sales of department and apparel stores over the state to 23.6 per cent above the level of May a year ago, the University of Texas Bureau of Business Research reports.

Dallas stores led the increase with a 34 per cent gain over May, 1943, followed by Corpus Christi with a 31.9 rise. El Paso 26.5, Fort Worth 25.2, and Houston 20.3. Bryan reported the only decline—3.4 per cent.

Texas were not only buying more; the Bureau pointed out, but they were paying cash for more purchases. Only 43.7 per cent of May sales were made on credit, compared to 46.7 per cent for May last year.

Mrs. Ed Conner and little daughter visited last week in Fort Worth with her mother, Mrs. C. E. Pickett. They left Fort Worth Sunday accompanied by Mrs. Pickett, for a visit in Turlock, Calif., with Mrs. J. E. Pickett, grandmother of Mrs. Conner.

Mrs. L. R. Holloway of San Antonio spent last week here with her parents, Mr. and Mrs. A. C. Smith.

Texas Goat Raisers Are Improving Quality of Mohair

Grading Enables Producer to Receive Premium Payment

Texas goat raisers are making rapid strides in an effort to improve the quality of Texas mohair. Under a program inaugurated in 1939, a million pounds, or 15 per cent of the Texas clip was sold on a graded basis last season, according to W. R. Nisbit, animal husbandry for the A. & M. College Extension Service. This grading enables the producer of the higher grades of mohair to receive a premium of from two to five cents per pound for his product.

In order to interest more ranchers in this improvement work, a program has been started to help 4-H Club boys in locating, selecting, purchasing, and developing high quality in breeding males. In the fall of 1943 county agricultural agents in ten counties located and purchased thirty registered billies for their 4-H Club boys. These animals were selected from some of the outstanding flocks in Texas. Thus, outstanding breeding animals have been distributed over a wide area. The boys plan to use their registered billies on the flocks which they, or their fathers, have on the home ranch. A few of the boys developed several head and have already made arrangements to sell them to other ranchers in the county.

Goat raising is limited to a comparatively small area of Texas, located in the Edwards Plateau, but eighty-five per cent of the nation's mohair, and about forty per cent of the world's supply of mohair is produced in Texas.

MRS. C. MURRAY TO OPERATE EMPIRE CLEANING PLANT

Mrs. Charlie Murray has announced that she has assumed management of the Empire Cleaners, formerly operated by Mrs. P. E. Dishman, and is now ready to extend service to former customers, as well patrons and friends.

In an advertisement in this issue of the Times Mrs. Murray extends an invitation to the public to visit her when in need of cleaning and pressing or other service.

James House, Jr., returned Saturday from Austin where he has been attending the University of Texas. He will spend the summer here with his parents.

FROM TEXAS TO TOKIO

Frank Turner, seaman first class, arrived here last week from his station in Oregon for a visit with his mother, Mrs. Alice Turner, and with his brother, Cpl. Charles E. (Chick) Turner who is here for a visit after two years foreign service. Frank has seen service on the high seas for some time, also.

Lt. (jg) Robert J. Kerr, U. S. Navy, arrived in Sanderson the morning of July Fourth for a 30-day leave to be spent with his parents, Mr. and Mrs. James Kerr. Bob has been seeing service in the South Pacific area for the past two years and says that it is certainly nice to be home again.

J. M. Hayre writes his parents, Mr. and Mrs. J. H. Hayre, that he is attending a U. S. Naval hospital corps school in San Diego, Calif. Says he thinks that he will be there several weeks yet and the work isn't too bad.

Naval Air Corps Cadet Lloyd Smith, who has been confined to the Chelsea Naval hospital, Boston, Mass., for the past several months, is here for a visit with his parents, Mr. and Mrs. A. C. Smith.

Lt. H. A. Brown, who has been stationed at Austin, has been transferred to Medicine Park, Okla., according to information received here.

Charles Rogers, Jr., is back in the Hawaiian Islands, according to word received by his parents, and will go back to instructing in the radar school there he says. He has been serving on a submarine for the past nine months.

Lt. Malcolm Davis, son of Mr. and Mrs. Harry A. Davis, writes them that he had about a five hour visit with Pvt. Duane Smith at Camp Crowder, Missouri. Says that he is getting along fine.

Naval Aviation Cadet Bill Cargile, who is attending pre-flight school at Athens, Ga., was instrumental in capturing the sports crown on Navy Day, June 9, at the school according to the Skytrucker, school newspaper. Hill is a member of the 50th battalion which took the honors in the races and contests held on that day and helped capture the crown by leading his team to victory by covering the gym course in less than 36 seconds.

Bill underwent an appendectomy June 13, but is getting along fine according to information received by his parents.

Among those at the San Antonio Aviation Cadet Center who are receiving preflight training which will prepare them for aerial instruction and duties as aircrew members in the Army Air Forces is Walter G. Downie, according to information received from the center. They are subjected to a 10-week program of instruction at this station.

Mrs. Seth R. Davenport has received word from Capt. Davenport that he is now somewhere in France. He says that the French people are lovely and that their taste in material things is perfect, but the horrors of war are constantly before him. He stated that when they first went into battle they ate on "K" ration and slept three hours in three days. "The men were so scared the officers had to get out in front or the men wouldn't go forward." Capt. Davenport has been promoted to the Regimental Command Post, which is work of a different nature from company commanders, but no less dangerous, he stated. He wrote of several officers in his regiment who

OUR NATIONAL DEBT

People who would take more interest in the problem of the growing Federal debt if they realized that unless the solvency of the government is maintained, every war bond will be worthless. The buying of war bonds, though it helps inflation, has nothing to do with keeping the country out of bankruptcy.

Just to give an insight into the vastly increasing Federal debt, compare the per capita debt thru some of the years:

During the time of George Washington, when the Government was first formed, the debt was \$19.32 per capita. Under Martin Van Buren's presidency it was a mere 21 cents; the Civil War boosted it to \$77.07. Then followed 26 years of almost unbroken reduction in public debt, but from 1867-1916 it slowly decreased from \$73.19 to \$11.96 (Taft administration).

Then came World War I where in 1916 it shot up to \$204.09, and after the war it immediately began slowly to fall again between 1920-1932 from \$228.83 to \$155.93.

Then began the spending of money such as was never dreamed of. The per capita debt began to climb up. In 1933 it was \$213.65; 1936, \$261.20; 1938, \$285.43; 1940 325.66; 1942,

\$540.68.

Then began World War II. In 1943 the public debt per capita was \$1,007.64. In 1944 the Federal debt may reach \$300,000,000, or \$2,300 for every man, woman, and child in the United States. That is a debt of about \$4,700 for every person who is gainfully employed. Based on 4 persons to a family, it would mean a debt of \$9,500 for each and every family of the United States.

This debt cannot be passed on to the other fellow or evaded. If the American people value their freedom they will see to it that the White House in Washington, D. C. will house a man who has some ideas along the line of economy and frugality of government.

Although many will say the war is to blame for such a deficit, the figures before the war was thought of show an increase from 1932-1942 of \$155.93 to \$40.68, or an increase of \$384.75, or 150 per cent. — Bandera New Era.

It's surprising how often a woman is holding the ladder that a man climbs to success.

Fault is one of the easiest things in the world to find, and yet too many people keep on looking for it.

It Happened In Sanderson TEN YEARS AGO
This Week — Remember

July 6, 1934

Miss Louise Striegler became the bride of Hugh Rose Sunday morning at 7 o'clock in St. James Episcopal Church, with the Rev. H. Conger Jones performing the ceremony.

Mrs. Fred Speer played the wedding music.

The bride was attended by Mrs. Tol Murrah, who wore navy blue.

Tol Murrah acted as best man.

Mr. and Mrs. W. H. Savage and son, Billy, returned last Friday night from a pleasure trip to Galveston. They also visited in San Antonio with Mr. and Mrs. T. Maxey Hart and family.

Mr. and Mrs. Rufe Murrah and children attended the Fourth of July celebration which was held in Alpine.

Mrs. Alexander Mitchell has returned from an extended visit in San Antonio.

Green Cooke left Monday afternoon for Ozona where he helped his father barbecue the meat for the 3-day rodeo and races that were held in that city this week.

Mr. and Mrs. Notley Scott are spending this week in Ozona where they attended the rodeo and race meet. Mr. Scott had on display 20 head of fine Sussex-Rambouillet at the show.

Mrs. John L. Newton and children left last Saturday for Leakey where they will visit her father, M. A. Cavender and family.

Mr. and Mrs. Charlie Turk attended the rodeo which was held in Pecos this week.

Web Townsend attended the 4th of July celebration held in Ozona this week.

Mr. and Mrs. D. O. Bosworth and daughter, Adeline spent the Fourth in Marathon.

Mrs. C. L. Sims has returned from a visit with friends in San Antonio.

Mrs. J. B. Harrell and daughter, Miss Myrtle motored to Alpine today, Friday, where they were guests of Miss Eva Chaffin.

WITH OUR NEIGHBORS

Ozona Stockman—Representing many months of planning and improvement work, including the original installations

STRICTLY BUSINESS

by McFeaters

"We want Mr. Pottleby to smile in this picture. When the photographer's ready you start this record. It'll keep saying, 'Extra! Excess profits taxes repealed!'"

and health-protecting measures subsequently adopted, highway signs announcing to the traveling public that Ozona's water supply is "Approved" by the State Department of Health were erected during the past week.

Big Bend Sentinel, Marfa—The abandonment of hope of securing War Production Board authority for the construction at this time of a frozen food locker plant by Central Power and Light Co. was announced this week by the Chamber of Commerce, sponsoring organization which directed the work of securing locker lease contracts with 150 persons.

The War Production Board has advised that new definitions of those qualifying as "producers" are in effect and that the application from here for authority to construct the plant did not reach the federal agency in time to be considered at the time "producer" requirements were not so stringent.

Big Bend Sentinel, Marfa—Beginning tomorrow, Marfa will have the distinction of having one of the few first class post-offices in the counties of a large area of southwest Texas. It is believed to be the only one in the area, but this could not be verified.

Hudspeth County News—Shipping at the Western Fluorite mine was slow on last reports. The road had washed out and delayed trucking to the loading point and operation of the new mill has been delayed waiting for parts from Denver.

Alpine Avalanche—The City of Alpine has made arrangements with the Texas Highway department for the maintenance of U. S. highway 90 and state highways 118 and 223 within the city limits, it was announced at the city offices this week.

The highway department is taking over the maintenance with the provision that certain changes in parking rules be made, it was stated.

Uvalde Leader-News — Raymond W. Davenport and wife were also at the Davenport reunion. Raymond has been at Sanderson for 21 years. He had the reputation of being a real expert when it came to handling cattle, with a rope or otherwise. He suffered a good deal from deafness until he bought one of the new earphone contraptions. He was mingling with many of

Beware Coughs - from common colds - That Hang On

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Council reveals. Total valuations for 1944 total \$1,397,655, as compared with \$1,359,130 for the taxable year 1943.

Fortune tellers are pretty dumb, but they aren't as dumb as those who believe in fortune tellers.

A wife is a person who gets so mad at her husband she cries on his shoulder.

There's always a bright side! With folks unable to drive to vacation spots, we won't have to look at so many vacation photos this summer.

The average American man at war is 25.1 years old. We don't know the average of the married ones fighting at home.

What tickles us are the women haters—with seven suits of clothes.

You can always do without anything you can't do anything with.

Hearing a song hit too often leads to making people wish it had been missed.

If the boys who are spending their time working up and go on strike, the situation would solve itself.

It's too late to learn when think you know it all!

Money may talk—but half as much as the people suddenly acquire it.

THE OLD JUDGE SAYS . . .

"The men overseas don't mince any words about the way they want to find this country when they come marching home... do they, Judge?"

"They certainly don't, Herb...and they shouldn't. They're doing a masterful job fighting over there to protect our rights and they have good license to expect us to protect their back here at home. One thing they're mighty clear on is their stand on prohibition."

"Their position on that subject was stated very emphatically in a poll taken recently

among American service men in England by the British Institute of Public Opinion. When hundreds of men were asked point blank how they would vote on prohibition, 85% of them stated, in unmistakable terms, that they would vote against it. There's no doubt about it, Herb...the men overseas don't want any action taken on that subject while they're away."

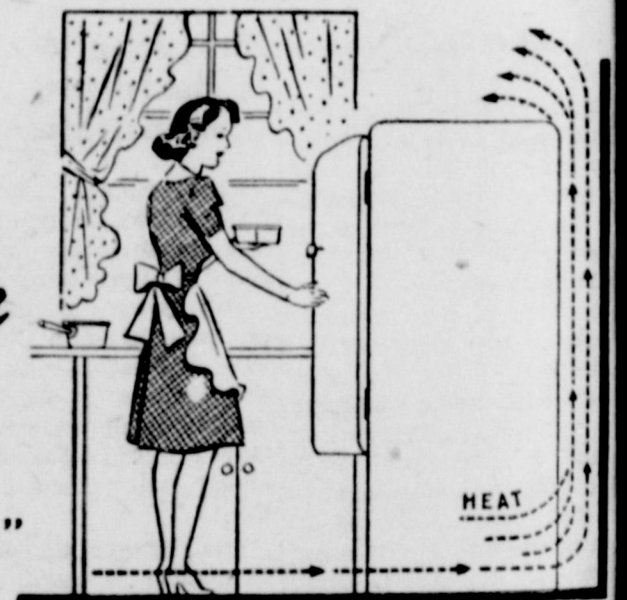

"And they're 100% right, Judge, because I know how I felt when I came home after the last war—only to learn that we had been over there fighting for so impractical a thing as Prohibition."

Your Refrigerator

NEEDS

"BREATHING SPACE"

Air space in back of your refrigerator and over the top is important . . .

Because the mechanism, which is usually at the base of the cabinet, requires free circulation of air so that heat removed from food compartment may be carried away.

Check your refrigerator's location. If air cannot flow freely from under the base . . . to the rear . . . and up the back . . . circulation is retarded.

Do this — move refrigerator or adjust surroundings to provide free air circulation. If possible, choose a location away from a hot stove, direct sunlight or other heat source.

Get This FREE Booklet on Refrigerator Care!

It tells you ten simple things you can do to keep your refrigerator operating smoothly and economically for the duration. Ask for your copy at our office today. You'll find information in it of value regardless of what make refrigerator you own.

COMMUNITY PUBLIC SERVICE COMPANY

BACK THE INVASION WITH WAR BONDS — BUY MORE THAN BEFORE

AT THE PRINCESS—

"COVER GIRL" DAZZLES WITH TECHNICOLOR, DANCE, SONG
 A dazzling, Technicolor musical, "Cover Girl," starring Rita Hayworth and Gene Kelly will be shown at the Princess Theatre, Wednesday and Thursday. This new extravaganza has everything.

Paper shortages being what they are, we'll avoid a list of all the excellent players who contribute to the overall charm and spice of "Cover Girl." However, Lee Bowman, Jinx Falkenburg, breezy Phil Silvers and the country's 15 most beautiful cover girls all in featured spots, brighten the screen with glamour and gaiety. In addition Otto Kruger, lovely Leslie Brooks, Edward Brophy and Curt Bois are outstanding in supporting roles.

But no abundance of fine acting would make a song-and-dance film successful without music capable of sending you from the theatre on the wings of a covey of lilting tunes. And in this respect, "Cover Girl" has had no equal. Jerome Kern and Ira Gershwin have fashioned no less than eight numbers; some tricky and novel; others haunting and lyric; all inspired and memorable, including: "Make Way For Tomorrow," "Put Me To The Test" and "Cover Girl."

Moreover, Val Raset and Seymour Felix have taken that rich score and given it liquid mobility, in the form of dance routines that propel Miss Hayworth and Kelly across the screen more excitingly than ever before.

The screen story, written by Virginia Van Upp from an original by Erwin Gelsey, is fresh and humorous. It tells of the rise of an obscure Brooklyn cafe chorus girl (Rita Hayworth) to national prominence when she is chosen Queen of the cover girls. As a result, new and persuasive men come into her life and her romance with the old cafe proprietor (Gene Kelly) is more than somewhat strained. But it never snaps, because Rita finally realizes where her true love lies and returns to Gene in a gaily romantic closing sequence.

"THE UNINVITED" HIT FILM OF GHOSTS AND SPIRITS

So much happens in "The Uninvited" which arrives Sunday and Monday at the Princess Theatre that the audience is left gasping for breath. The picture has every requisite necessary to keep movie fans in a dither.

With Ray Milland, Ruth Hussey, and Donald Crisp heading an exceptional cast which includes Cornelia Otis Skinner and Alan Napier, the picture presents for the first time in a featured role, lovely Gail Russell. The story is one which combines both comedy and mystery, for the theme is based on weird happenings in an English country home, called Windward House.

The home is purchased by Milland and Miss Hussey, cast as sister and brother, from Donald Crisp whose granddaughter Gail Russell, who protests the sale, since it was at Windward House where her mother died in a plunge over the cliff which borders the front yard. Disregarding gossipers' whisperings about the house being haunted, Ray and Ruth settle down to lead a quiet peaceful life, but what a surprise they find in store for them!

Frightful sobbings awake them in the middle of the night, weird apparitions stalk the house continually, and cold, clammy fingers mysteriously bang doors and open windows in truly mysterious manner. To top it all off, Gail is apparently influenced by these spirits which plague Ray no end since by now he is deeply in love with the beautiful young lady.

Politicians may cloud issues because they may be lost in a fog themselves.

HURRY UP, AMERICA! GIVE HIM YOUR ANSWER!

the Fifth War Loan Drive ends July 8th!

AMERICANS!

You in the factories. You in the offices. You on the farms. You in the homes.

You cannot—you *must* not—fail to get behind your fighting man in this supreme, heroic hour.

He knows what's *ahead*.

Bloody, bitter fighting... superhuman toil... hardship... pain... perhaps death.

He's facing it. He'll keep on facing it, as long as there's breath in his body and blood in his veins.

But he wants to know what's *behind* him.

And you have *only a few* days left to give him the answer.

That answer will be written in the final figures on the Fifth War Loan Drive.

For this is the crucial, the all-important Drive. Never has the need for War Bond buying been so great.

To make the Drive a success, you—and everyone else—*must* buy at least *twice* as many Bonds as you bought in the last drive.

If you haven't yet bought your full share, **DO IT NOW!** The time is short! Make **YOUR** supreme effort in HIS supreme hour!

Remember—a soldier, *your* soldier, is waiting for his answer.

What will it be... from you?

And here are
5 MORE reasons for buying EXTRA Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Back the Attack! - BUY MORE THAN BEFORE

C. M. TURK
(re-election)

For Justice of Peace, Precinct 1:
HAL J. ROWLETT
(re-election)

comes additional information regarding the awarding of the Distinguished Flying Cross to Major Carson Durbon for extraordinary achievement. Major Durbon is the head of the navigation section in Colonel Robert H. Terrill's Liberator Group, and has plotted many courses to vital military targets in Germany and occupied Europe. Among the missions he has flown are bombing attacks on Brunswick, Mannheim, and Berlin. It is for his outstanding performance on the flight to Brunswick that he was awarded the distinguished decoration. On that occasion, Major Durbon demonstrated precision and skill as a navigator, leading his formation to the assigned target in the face of furious attacks by enemy fighter planes which increased in intensity as the bombers went into the bombing run. During withdrawal from the target after "bombs away" he successfully brought them homeward, avoiding all flak areas.

Major Durbon is the son of Mr. and Mrs. William C. Durbon of Sanderson, Texas and Junction, Texas. He enlisted in the Army Air Forces in 1940. A graduate of the Chreiner Military Academy, he received his navigational training and wings at Mather Field, California. His wife, 2nd Lt. Doris M. Durbon, serving with the Army Nurse Corps, lives at 617 Meyer Ave., Evansville, Indiana.

It is as easy to draw back a stone thrown with force from the hand as to recall a word once spoken.

The people who purchase enough war bonds will be able to retire in old age instead of just give up.

Police detained a Tennessee man who claimed he was the devil. Moral: Don't believe everything your wife tells you.

★ TERRELL COUNTY HEROES ★
☆☆ IN SERVICE ☆☆

JACK CLAY SMITH

Chief Radioman, U. S. Navy, was serving with the submarine division when he was reported missing in action in October, 1943, by the Navy Department. He was born in Brackettville in 1912, the son of Mr. and Mrs. Chester Smith who now reside at Dryden. He graduated from the Sanderson high school in 1930, and in March of 1933 volunteered for service with the United State Navy. In 1938 he was married to Miss Rose Mary West of El Paso, and his wife and daughter, aged five, are residing there at present. Jack was awarded the Navy and Marine Corps Medal on the 17th day of April, 1944, for heroic conduct while serving as a member of a submarine crew during patrols in Japanese controlled waters. It is possible that he is a prisoner of the Japanese.

— THE LIFE OF A TERRELL COUNTY HERO BROUGHT EACH WEEK BY —
THE KERR MERCANTILE COMPANY

W. F. Frazor left Friday of last week for El Paso and will work in the railroad yards there.

Perry Dawson arrived here Friday from San Antonio to join his wife and family in a visit with Mrs. Alice Turner. Perry is with the Department of Public Safety.

Mrs. A. J. Morris and grandson, Albert John Klassen, left Friday of last week for El Paso. Mrs. Morris returned to her home after a two months visit here and Albert John will visit with her there.

Miss Wilma Moorefield returned Saturday from Houston where she has been attending business college.

Jack R. Ward, formerly with the special agent's department, T. & N. O. Railroad, is now stationed here with the U. S. Customs. Mr. Ward will move Mrs. Ward and their two daughters here when he is able to find a place in which to live.

Miss Willie Faye Jeffers arrived Tuesday from Los Angeles, Calif., and will visit with Mr. and Mrs. Albert Jeffers at Pumpville.

Miss Juanita Gallamore and Miss Amy Hoover returned to their home in Houston Friday of last week after visiting here with Mrs. Charlie Murray and Mrs. Joe Bean.

M. G. Northcut was carried to San Antonio Wednesday for medical attention. He was accompanied by Mrs. Northcut, and latest reports were that he was doing as well as could be expected.

Mrs. George Price and Miss Clarabelle Price, of Kingsville, arrived Sunday for a visit with Mrs. H. B. Persch.

Mr. and Mrs. T. A. Short and son, Billy Joe, left Wednesday for Bryson where they will visit with their daughter and family, Mr. and Mrs. C. V. Grisham.

Mr. V. I. Cargile
Sanderson, Texas

Dear Mr. Cargile:

We believe that Governor Coke Stephenson should be re-elected in the Democratic Primary without a runoff.

He has made an excellent Governor and is a West Texas man. I think that our West Texas Counties should get busy and give him handsome majorities.

Anything that you will do to help this along will be appreciated not only by me but by Governor Stevenson himself.

Assuring you of my best wishes, I am,

Very truly yours,

Signed: J. E. QUAID
