Football Returns to Sanderson Schools After Two Years; Holley, Greenwood Coaching

LACK OF FIELD IS MAIN DRAWBACK FOR GAMES HERE

For the first time in over two years, Sanderson residents and school students thrilled to the spirit of football Friday of last week when the local team met the San Felipe boys on the local field.

Football was discontinued at the beginning of the war because it was practically impossible for officials to match games, and especially games to be played at home since Sanderson has no lighted or sodded field, and many coaches refuse to allow their boys to play on dirt fields because of the danger of injuries. Gasoline and tire restrictions also played a part in the decision to discontinue football in the local schools because of the distance to other towns with which games would be matched.

Supt. Tom Holley said in making the announcement: "Today the situation is not perfect, but the prospects look better. So far six games have been matched with only one home game." This was the game played Friday with the San Felipe boys.

Mr. Holley, who is coaching the Eagles with the assistance of M. H. Greenwood, stressed the importance of encouragement which should be given the boys from the people of the community, as well as support received from the school. In a small community, the only way a club can be successful is to have the full support of the town.

Saturday of this week the Eagles go to Ft. Stockton where they play under lights for the first time. Next week, Oct. 21, they go to McCombs where they will meet the B team; Oct. 27, they play a return game with the San Felipe club at Del Rio, at 4:30 in the afternoon; on November 3 they go to Marfa where they play a night game beginning at 8 o'clock; and on Nov. 11, they will play at Rankin also at 8 o'clock. They have two open dates, and Mr. Holley stated that an effort would be made to secure home games if at all possible.

son, Cpl. James T. ("Ramsay") McDonald, who is somewhere in France with a hospital unit, stating that he and his nephew, Pvt. Jesse Everett, had met in the hospital, where James is a clerk. They had just taken over the hospital from the Germans. Pvt. Everett has seen lots of action in the Signal Corps, attached to the Infantry, serving with the 3rd Army.

The editor and wife received a card from ex-Armenta Ragsdale, who is up in Greenwood, Indiana: "You should be seeing the beautiful country I'm now enjoying! Surely lovely, but I still prefer good ole Texas. D. (Durwood Hartsfield) is in Camp Atterbury, Indiana, so I'm up for a brief visit. D. is fine. We are both wishing we were in Sanderson!" Mrs. Hartsfield has accepted a position at the home of Mrs. Ernest Jessup. Luncheon will be served at noon.

Miss Cornelia Wilson, daughter of Mr. and Mrs. Frank Wilson of Snyder, became the bride of W. E. Stirman III of Sanderson Sunday afternoon at 2:30 o'clock at the home of Mr. and Mrs. J. E. Miss Earline Stirman, sister of the groom, was maid of honor, and Aviation Cadet W. G. Stirman, of Carson City, Nevada, and cousin of the groom, was best man. The bride, who was given in marriage by a friend of the family, Alfred E. Creigh, Jr., wore sheer white silk over dull silk, with white and blue accessories. She wore white veiling edged in blue, and her corsage was of red roses.

Following the ceremony, Mrs. Attaway, aunt of the groom, invited the guests to the dining-room where a beautiful wedding cake was served with punch, from a lace-covered table holding a centerpiece of pink rosebuds and pink tapers.

EAGLES DEFEATED BY SAN FELIPE SQUAD FRIDAY

Although the Sanderson Eagles came out with the little end of a 6-0 score in their game last week with the San Felipe squad of Del Rio, they are due a great deal of commendation for their effort when it is realized that they have never played football before. Since there has been no football in the schools here for the past two years, many of the players have not even seen a game during that time. Another thing that should make their supporters proud is the fact that they held this seasoned squad to only a six-point lead after beginning their training only the Monday before they met them on Friday.

Although there were many indications of weakness because of lack of experience and poor physical condition, by the end of the game they had corrected many faults and during the last half of the game continually out-played the visitors, although they failed to muster the drive to put the pigskin over for a touchdown.

San Felipe won the toss and elected to receive the kick-off which started the game. Allister Dishman, captain of the Sanderson squad, got off a good kick which was returned to the 30-yard line by San Felipe. Three first downs followed in succession by the visitors over Sanderson's left guard and around left end. The Eagles then settled down to the business of stopping the boys carrying the ball and San Felipe was forced to punt. The ball changed hands several times during the first quarter, but no scoring was done. Early in the second quarter Dishman threw a pass to Bob Edwards which was intercepted and carried to Sanderson's seven-yard line. The visitors carried the ball across the goal line in the next three plays, although they try for extra point from scrimmage failed.

During the last half the Eagles kept the ball well in the San Felipe territory but could not place the ball in a position to score.

The line-up for Sanderson was: Harrell and Goode, ends; Savage and Tinney, tackles; Pierson and Talbot, guards; Boyd at center; Dishman and Edwards at half-back positions; Wells as quarterback and Yeates at the fullback position.

This is to be a miscellaneous exhibit displaying old clothes made over, pillow cases and aprons made from salt and feed sacks, and other items displaying originality in utilizing materials on hand.

MONUMENT TO TERRELL COUNTY HEROES PLANNED

COMMITTEE WILL CONTACT CLUBS THAT WILL HELP

From the Sanderson Rotary Club this week the suggestion that an appropriate monument be erected in memory of Terrell County men who had given their lives in the battles of World War II. After discussion of the subject, a committee was appointed by President R. V. Raney, composed of the Rev. James O. Todd, W. J. Ferguson and Tom Holley, which was instructed to contact other clubs of the town and county who might be interested in helping in the sponsoring of such a monument.

Tentative plans call for a case which will be hung in the court house hall or some other appropriate place, and names of men who are lost will be placed in the case until the end of the war. At that time a marble monument, bearing those names, will be erected at a place selected for it. Whether the names will be engraved in the marble, or whether they will be engraved on bronze, and placed on the monument will be a matter to be decided.

As stated, all plans are tentative and not definite, pending the organization of a definite committee from all organizations who desire to aid in sponsoring the monument, after which definite plans will be made.

CURB ON POWER

Authority turns men's heads. Human nature changes very little after all. Bigots and despots are guided by no rule but expedience. They govern for their own advantage, to grab and hold power. I saw it at its worst during eleven years under the war lords of South China. The rule applies to mortals of every race and station. It applied to King Saul, the Lord's Anointed; no less to the modern heathen, Hirohito. We are protected from it in America, not by mere luck.

Framers of the American Constitution laid a foundation solid enough to support a government by the people, a representative government in which the representatives are accountable directly to the people who elect them. They were wise pioneers. They knew human nature as well as theory of government. They knew how soon power runs to tyranny when not held in check.

Pillars of Freedom

While the United States retains constitutional government it is keeping all the pillars of human freedom on which our liberty rests. Under our Constitution, you can't make me worship a god I do not trust; you can't make me buy something I don't want; you have to sell me. You can't make anybody shut-up until you prove that he is lying.

No system was ever devised by mortal mind that had no flaws. Many a falsehood has been proclaimed under the cloak of free speech. Many a crime has been committed in the name of religion. Many a pirate has sailed the open seas of free trade. Nevertheless, for all their abuses religious liberty, free speech and open competition are still essential parts of human freedom.

Integral Liberties

"Why," someone has asked, "do you defend free faith and free speech when only free enterprise is under attack?" Here's why: They are alone. Take from a common man his right to own something and before long he will be ready to kiss a gangster's hand for a loaf of bread to feed his hungry children. Too soon then will people be hiding in caves to pray as they did in the dark ages.

There is danger. Rulings by appointed bureaus and commissions, having no constitutional stability, may be greatly prejudiced by the local interest or personal whims of the bureau. They may be as dictatorial as any edict from the lips of an African chief or proclamation sealed in perfumed wax with the signet ring of a Sultan. Written laws, made by the representatives of the entire nation, however unwise they might occasionally appear, are on a far more substantial basis.

America's Secret

Several foreign countries have more natural resources than have been found in America. But they are poor countries because they have never been developed. It is not a matter of ignorance. They have intelligent people and shrewd technicians. But many of their best minds come to live in America. Why? Under our Constitution they can use their talents and will be well paid for their work.

In America, rulers are actually public servants. Their records are checked regularly by the people who choose them. On election day they are re-engaged or dismissed. Sealawags hold office sometimes but no tyrant has ever ruled us. But mark this: Our freedom is not some mysterious acid in American soil. Without representative, constitutional government, anything can happen here. Let us be sure that rule by bureaus ends when the war ends.

played a return engagement with the Shorthorn squad of Marfa High School, before about one thousand fans. Our boys, used to playing up here in the rocks just couldn't get going, while the Shorthorns seemed to be right at home, making down after down.

With the same sorters, Lloyd Mitchell of Marfa and Bert Kincaid of Fort Stockton, who are in charge of the sheep buying program in Terrell County, the government began the purchase of goats this week. According to a statement from the local office, ranchers in this county have listed between 17,000 and 18,000 goats for sale. The present plans specify only Angora goats one year old, and the flat rate set by Federal agents is \$1.45.

WITH OUR NEIGHBORS

The Fort Stockton Pioneer—George J. Kempen, Jr., now resident engineer for the Texas Highway Department in Sanderson, has been named resident engineer for the Fort Stockton office replacing Don V. Purington, now manager of the Pecos County Chamber of Commerce.

Mr. Kempen will move here within the next 30 days to take personal charge of the office.

George T. Orrenbaun, Midland, has been transferred here

as office engineer in charge.

Ozona Stockman—One suspected case of encephalomyelitis, or sleeping sickness in horses, was reported in this county this week, the first in this area after a reported serious outbreak in the San Angelo area. Jake Young, who ranches in the southwest section of the county, was treating a horse suspected of having the disease.

The dread disease, whose outbreak occurs usually in the fall months, has been successfully combated by a vaccine made by the chick embryo process, given in advance of the probable period of incidence of the disease and some degree of success in treatment of stricken animals has been attained with a serum developed in recent years. The disease is thought to be spread by biting insects, mosquitos, flies, etc.

Brackett News-Mail, Brackettville—The following letter, recently received by County Judge John S. Fritter concerns the presentation of General Wainwright's portrait to Kinney County, and is self-explanatory:

My dear Judge Fritter: Your very fine letter sending me the unannounced approval motion for the acceptance of the picture of my husband has been received.

The picture was one I had made in Washington for the Fort Clark club and which they had framed in San Antonio. It is an excellent likeness of my husband and I am very glad that Kinney County where he spent so much time can have it.

Hoping some time that we will have the pleasure of returning to Fort Clark, I am

Uvalde Leader-News—Through the cooperation of the City of Uvalde, the Chamber of Commerce, the Southwestern Texas Health Unit and the U. S. Fish and Wildlife Service, an intensive rat poisoning program is being planned for this city in the near future, it was announced this week. The campaign is being planned due to a reported increase in the number of rodents now apparently moving into barns and other out-buildings as well as in some residences for winter quarters, and in an effort to prevent destruction of property as well as to minimize the danger of disease.

Big Bend Sentinel, Marfa — Early-in-the-month and month-end rainfall in the Highland Soil Conservation District accounted for average precipita-

tion of 3.84 inches on twenty-eight ranches which turned in reports to the Soil Conservation Service office.

The excellent September precipitation record brings the year's rainfall to 16.54 inches with rain having fallen in eight of the nine months through September. There was no report of precipitation in April. The 16.54 figure is about three inches more than the average rainfall for a year over a period of years.

Alpine Avalanche—Practically a 100-per cent kill was reported among the 86 hunters who went out this week to hunt antelopes on ranches in this area.

Only two of the 85 failed to bag a buck, it was reported.

Governor Coke Stevenson was among the nimrods who came to join in the first legal hunt on these fleet-footed animals, numerous in this area after a closed season of 40 years. He bagged a buck, dressing around 80 lbs., within a few minutes after the party arrived at the hunting ground, on the Koker-not O6 ranch six miles north of Alpine. His secretary, Ernest Boyett, killed one also dressing around 80 lbs.

KAY KYSER STARRED IN MUSICAL FILM: IT'S "SWING FEVER"

Hollywood has made a tuneful, well-rounded film of Kay Kyser's newest screen effort called "Swing Fever." In the picture playing at the Princess Theatre Friday and Saturday October 20 and 21, Kay's band is given ample support from such performers as the blonde torch-singer Marilyn Maxwell, glamorous Lene Horne, wise-cracking William Gargan, and comic Nat Pendleton.

The film revolves around the adventures of Lowell Blackford played by Kay. Lowell is a mild-mannered musician who comes to New York to publish a symphonietta he has written. He is given the run-around by the

group of prizefight promoters he accidentally falls in with when they learn that Kay possesses a hereditary evil eye which has the power to immobilize its victims.

They plan to get Kay to use his eye on the opponent of their fighter, in order to win the match. To do this they get him a job leading a night-club band and set Marilyn Maxwell as the bait. Things boomerang when Marilyn falls in love with Kay, which is not according to plan. She tells him the plot, but Kay still loves her and both are happy in the romantic finish.

THE OLD JUDGE SAYS...

"We can't argue with the Judge on that point, can we Mabel? It's not fair to penalize the many for the actions of the few." "That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about 5% of those who drink abuse the privilege occasionally... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly

isn't the answer. It's not that simple. We had nearly 14 years proof of that, didn't we? "The real answer is education and better control. In fact, the responsible members of the distilling industry are working constantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do." "If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."

WHAT PRICE---One Pair of Eyes?

Those bright, sparkling eyes of childhood! Help them keep their sparkle—their clear, perfect vision. One school child in five has lost part of that sparkle because of defective vision. More than half the people over 35 have eyesight troubles. Why not conserve that precious eyesight by following these four common-sense rules?

- 1. Do all reading, studying, sewing or game-playing close to a good light source, preferably a modern reading lamp.
2. Avoid glare from bare bulbs. Don't sit facing the light. Glare strains eyes.
3. Avoid shadows. Make sure you have good light directly on your work or book. Shadows strain eyes.
4. Have eyes examined regularly. If eyes are defective, vision can be greatly helped with proper glasses.

When the war is over we are all going to have Better Light for Better Sight. In the meantime, take care of your eyes but don't waste light.

How did you like the bull fight, Marilyn?

Did anyone see the "glamorous" mothers in their bathing suits?

Guess how Al earned the name of "Charles Boyer". Ask Heddy.

Imagine Mrs. Holley not being sure about the Garner road. The senior girls really got in training for the pep squad by keeping the camp "charmed" at all hours of the night.

In case you hear about "Little Beaver", Mrs. Savage is the subject.

Why was Hazel so shy about being a bathing beauty?

You should have watched the reluctant walk of Joyce and Jack as they were asking information on the road to Garner. The dog did sound fierce, boys.

Gee, it was fun to read in the park register the names of the crowd of seniors who visited the park last year. However, some of the names were not familiar.

If you want the seniors to move with alacrity just get after them with an axe or yell "cops".

We hear that after the trip Mrs. Buchanan plans to enter the boys who rode in her car in a radio contest as soon as possible.

You have seen mountain climbers Savage, Boyde, and Daniels. Bill and Joyce really reached the top. Hope the pictures are good.

Lamar School Notes

The Lamar Ward Parent-Teacher Association met in regular session Monday, September 9, at the school building. After the sixth and seventh grades presented their play, "Land Ahead" the group joined in singing "Columbia, The Gem of the Ocean". Pablo Ochoa afterwards gave a talk on "The Co-operation of the Parents With the School".

A final subscription of \$6.00 was taken up for the War Fund. The yearbooks, which were on display, were to be distributed to the members by the grade mothers. Mrs. Fidelia Garza, chairman of the membership committee, reported eighty-six paid members, and the treasurer, Francisco Venegas, reported that the \$75.00 donated by teachers and patrons of the school for library books had been raised. The order for these books will go forward this week, the entire order being for \$150, since the school is to supplement the fund raised by the patrons.

Amelia Silvas has been absent from the fifth grade this week on account of the illness of her mother.

Armando Martinez of the fourth grade, broke his arm while playing basketball at the high school gym Thursday afternoon.

We continue the life histories of the seventh grade with **BALDEMAR DE LA CERDA**

Baldemar was born June 9, 1929, in Corpus Christi. He is the only child of Mr. and Mrs. Marcos Dela Cerda. All of his schooling has been at Lamar Ward except for last year when he attended the Lydia Patterson School in El Paso. His favorite subject is arithmetic; his favorite sport is football; his favorite movie star is Betty Grable.

There are a lot of things to learn about living that many do not learn until it is too late.

titled aristocracy and the serf-like peasants is great. The difference between the ideas of democratic and feudal minded people is even greater. Never before was there a stronger contrast brought to the screen than in the film, "In Our Time," which shows at the Princess Theatre Sunday and Monday.

The contrast is represented by Ida Lupino, playing a modern English girl, and Paul Henreid, portraying a Polish Count inhibited with the traditions and customs of the feudal system. These two outstanding actors make this human drama of the present a memorable experience for the audience. Cast together for the first time, they play their respective roles with deepness and perfection seldom seen.

They meet in an antique shop in Warsaw, the time, the eve of World War II, the occasion a misunderstanding. The girl is looking through a window display from the inside, while he stares at her from the outside. He assumes she is a sales-lady and inquires about a watch. The misunderstanding vanishes and they are on their way to

romance. This strange meeting results in the most talked of marriage in Warsaw. A girl of the middle class to marry the aristocratic Count Stephen Orvid was something unheard of. But neither the general disapproval nor the objections of his family could lessen their happiness.

The war interrupts this happy marriage and Stephen has to join his regiment. Poland collapses and he comes home wounded. His family urges the couple to escape with them from the country but they decide to stay and burn the house that has seen so much hardship and so much good fortune.

The stars are supported by Nancy Coleman, as a bigoted spinster, intolerant and belonging to a feudal past, by Nazi-mov, returning to the screen as Countess Zofya Orvid, playing with the ease and poise of a great lady, Mary Boland and Victor Francen.

"In Our Time" is a story of two contrasting worlds, a story of the past, the present and the future, a story of love. It is a memorable picture.

sition in a school near Santa Anna which she will fill soon.

From the 15th Army Air Force in Italy comes news of Jimmy Evans, who, before he enlisted in 1942, was a truck driver for Charles Turner. "Pfc. Jimmy Evans, 24, of Sanderson, Texas, is serving with a group recently commended for outstanding performances in the European Theatre of Operations. As a member of a heavy bombardment B-24 Liberator unit, based in Italy, which has been cited for a sensationally successful operation against the railyards at Bucharest, Rumania, he is now entitled to wear the Distinguished Unit Badge. This group received its citation for its remarkable feat in destroying 40 Nazi planes of all descriptions while achieving the destruction of the target. More than 90 planes attacked the Liberators, then nescorted, using rocket guns, cannon and machine guns, and aerial bombs in a desperate effort to halt the American bombers. The battle raged for more than an hour and a half and at its zenith, the big bombers dropped their lethal load on the marshalling yards and accomplished the return trip home with a loss of only seven planes. The unit is commanded by Colonel Thomas J. Gent, Jr., of Victorville, Calif., and has participated in over 130 attacks against widespread targets in Hitler's dying empire."

Mrs. H. L. Richardson, former resident of Dryden, writes from San Antonio: "Although I am not a regular subscriber to the Times any more, I read it every week (Edythe Walsh is kind enough to let me) and I enjoy 'From Texas to Tokio' more than anything since I once lived down at Dryden and know so many of the boys... it's really the only way in which I hear from many. Lots of good work being done. Texas is about to win the war. I thought lots of the boys would like to hear where my boy is (Homer). He has been India now almost two and one half years, and writes that it is plenty wet as well as warm over there, but says for us not to write anymore; the prodigal is on his way home, and he would like to have the fatted calf killed when he gets here. (As many do not know) he has a fine wife waiting in St. Louis who will be very happy, as well as his ma, to have him back..."

Pvt. Marshall Cooke, stationed at Camp Bowie, arrived here Wednesday for a 14-day furlough with his parents, Mr. and Mrs. Greene Cooke. Judging from his size and weight Marshall is doing all right.

Two soldiers recently compared notes on transportation, by mail across the Atlantic. When Pfc. Indio Calzada, A. A. F., stationed at Georgeville, Laurenceville, Illinois, wrote his brother, Cpl. Isidoro Calzada, Artilleryman, now in France, that a lot of his time was spent driving Army cars, Isidoro replied that for a while he depended on a burro to get around. A contrast between worlds!

our own fighting men. Other amounts support our fighting allies and help reduce suffering among war-stricken people throughout the world. Every dollar of the fund helps bring earlier, more lasting peace.

Most Texans will sacrifice in order to make generous contributions, but, after all, the sacrifices of those at home are small when compared with those of the men at the front. The pity is not that we must give so much, but that we are able to give so little.

While we are considering our war fund gifts, other Texans are dying. While we on the home-front are working to support them, our sons, husbands and friends are fighting fiercely and bravely against a brutal enemy — to protect us and the things we hold dear.

The least we can do is guarantee them every support that it is within our power to give!

Governor Stevenson has called on all Texans to give—and give generously—to their county war funds. Newspapers have taken the lead in publicizing the National War Fund drive with the result that every man and woman in the state knows the true need that is back of the effort.

There is little doubt about the result. Texans must—and will—

answer the call in the the campaign slogan: "Sure, I'll Give a Share!"
