

# THE SANDERSON TIMES

SANDERSON, TEXAS, FRIDAY, DECEMBER 14, 1945

NUMBER 42

Paper clips, fountain pens, ink eradicator, staplers, all green pencils, dictionaries, wastebaskets, erasers—Times Office.

## Terrell County ACA Committee Announce Program for Year

There has been allocated to Terrell County \$77,219.00 to be used as assistance to farmers and ranchers in carrying out needed conservation practices during the 1946 program year. The Terrell County A. C. A. Committee have selected the practices considered as most needed in this county, for which assistance will be available. These practices selected are as follows:

Practice No. 8—Construction of Concrete or Rubble-Masonry Dams or Drops (header dams); Practice No. 9—Drilling or Digging Wells; Practice No. 10—Installing Pipelines; Practice No. 23—Deferred Grazing; Practice No. 42—Control of Destructive Plants.

Since we have been allotted a certain amount of funds it is necessary that an accurate account be maintained throughout the program year as to the amount being earned; therefore it is necessary for each producer that expects assistance in carrying out one of these selected practices to secure prior approval from the County A. C. A. Committee. When prior approval is issued the amount to be earned is charged against this county allotment; therefore, when the county allotment is obligated by prior approvals, no additional practices can be approved.

In addition to this each rancher will be expected to report to the local office within certain dates that the practice has been completed and the extent to which the practice has been carried out. It is also very important that each rancher understand the specifications outlined in the program handbook.

Any or all of the committees in the county will be in a position to render assistance or advise you, as ranchers, of the provisions of the 1946 program. The newly elected 1946 Committees are listed below:

Chairman, Alfred A. Shelton; Vice Chairman, John H. Carruthers, Jr.; Member, Jim C. Mitchell; First Alternate, Dave H. Cunningham; Second Alternate, Clyde Higgins.

## Give Legal Views For Civic Drives On Poll Tax Paying

AUSTIN, Dec. 14—The way was paved Monday for civic groups to encourage Texas residents to pay their poll taxes when the Attorney General's department issued an opinion ruling affirmatively on several questions, submitted by Perry Jones, county attorney of Travis county.

Among the methods which can be legally used to encourage people to pay their poll taxes are:

Representatives of civic groups can set up a booth where a notary public would be available and where citizens could fill out poll tax applications in the presence of a notary public.

That a notary public or anyone else can assist a person in making out an application for a poll tax receipt.

That representatives of groups can call at homes where aged persons or persons over 21 years of age are known to reside and assist them in preparing poll tax applications.

That such groups as a matter of convenience, can furnish applicants with certified checks in the amount of the poll tax to be mailed the tax assessor-collector if they are wholly reimbursed.

That applicants can be furnished addressed and stamped envelopes to be used in forwarding their applications to the tax assessor-collector.

## Home Again

U. S. troops from the European theater thrill again to the feel of home soil as they disembark from a transport at a U. S. port. One way in which to prove they are welcome is to buy Victory Loan Bonds to the limit and make the Victory Loan drive an outstanding success.

From U. S. Treasury

## Miss Billie Louise Smith Bride Of Pfc. Don Allen

Miss Billie Louise Smith, daughter of Mr. and Mrs. Thurston Smith of Colorado City, became the bride of Pfc. Don Allen of Sanderson and Langley Field, Virginia, in the home of Mr. and Mrs. R. B. Baker, in Colorado City, Sunday, December 9th, at 3:30 o'clock.

The double ring ceremony was read by the Rev. Woodie Holden, minister of the Church of Christ in Midland, formerly of Colorado City. The vows were taken before an altar of a heart shaped arrangement of white carnations, bridal wreath and gladioli, flanked with ivy and fern. Calua and Begonia pot plants were also used in the decorations.

The bride wore a gray wool suit, with black accessories and carried a white Bible, topped with orchids. For something old she wore a tiny locket that she had as a baby, and the Bible she carried belonged to Mrs. Floyd Pond.

Her matron of honor was Mrs. John Scott, former roommate from Abilene Christian College. She wore a black wool suit, black accessories and a shoulder corsage of white gladioli. Best man was David Allen, brother of the bridegroom. A girl's trio sang "Always", "I Love You Truly", and hummed the wedding march.

Following the ceremony, a reception was held at the Baker home. The three tiered wedding cake was topped with a miniature soldier and bride. It was served, after the traditional first slice was cut by the couple, with punch by Mrs. Baker and Mrs. Frank Roberts, aunt of the bride. The table was centered with an arrangement of yellow and red chrysanthemums entwined with ivy and fern.

Wedding guests were Mr and Mrs. R. N. Allen parents of the bridegroom, his sisters, Anna and Mary, his brother David, a cousin, John Hardgrave, the bride's parents, her sister Ethel, and brother, Ray of the Buford Community, her aunt, Mrs. Frank Roberts of Midland and the Bakers.

Mrs. Allen is a 1943 graduate of Colorado City high school and she attended A. C. C. in Abilene for two years. For the past several months she has been employed at the Sweetwater Production Company.

Pfc. Allen is a 1943 graduate of Sanderson High School, and also attended A. C. C. until his entrance into the A. A. F. He is stationed at Langley Field, Virginia and is expecting shipment overseas soon.

The couple left immediately after the reception for a brief wedding trip and will return to Colorado City until the close of his 30 day furlough. Mrs. Allen plans to remain in Colorado City while Pfc. Allen reports to his station.

## Mrs. Dema Daniel Honors Daughter On Fourth Birthday

Charlotte Anne Daniel, daughter of Mrs. Dema Daniel, was the honoree at a party given by her mother on her fourth birthday, December eighth at the Masonic Hall.

The hall was decorated in the Christmas motif, Charlotte Anne's gifts being placed under a brightly lighted tree, with a toy Santa guarding them.

Games were played and then the many gifts opened. Mrs. Daniel served a birthday cake, tinted green, pink and yellow, and decorated with red cherries, served with fruit juice.

The guest list included Mrs. T. Larson and son, David, Cordell McDonald, Yvonne McDonald, Bonda Gail Boyd, Irvin and Betty Jane Robbins, Joanne Carruthers, Eddie Mae and Joan Haynes, Evelyn Albrecht, Bobb Herzing, Nancy Jean Turner, Mary Elaine Duncan, Diana Duke, Butch and Bill Stavely, Toni Jane and Janice Yarborough, Kathleen Robbins, Gladys Mae Albrecht, David Jarold Dumagan, Patricia Gray, Raymond Elrod, Terry Gayle Thorn, Barbara Anne Spencer, Sammy Van Jeffers, Gwen and Jerry Carter, Sueann Stanley, John Edwards, Linda Beckett, Petreta Kay Thorn, Loyce Fay Thorn, Barry Pendleton, Kenneth Paul Moses, Charlene and Jo Beth Chandler, Jimmie Word, Freddy Baker, Richard Stanley, Dee Gray, Richard Haley, Tommie House, Darrell Glenn, Billy Spencer, Ray Cantrell, Ilo May Word, Larry Kingston, Buddy and Dorothy Ann Roark, Beverly Whistler, Dorothy Ann Whistler, Jean Gross, Virginia Chandler, Glenn Hines, John Edwin Greer, Barbara Ann Sudduth, Mrs. Pat Beard, Miss Kate Frazier, Mrs. N. E. Charlton, and Miss Una Lee.

## Sanderson Firemen Sponsor Turkey Shoot December 23

The Sanderson Fire Department is sponsoring a Turkey Shoot to be held December 23 east of the Highway Warehouse.

A nice bunch of fine fat turkeys have been secured for the occasion and everyone is cordially invited to come try their skill.

Mr. and Mrs. R. N. Allen, accompanied by their daughter, Anna Mary, son, David, and nephew John Hardgrave, were visitors in Colorado City last Sunday, having gone there to attend the wedding of another son, Don Allen to Miss Billie Louise Smith.

Mr. and Mrs. M. L. (Bud) Whistler of Del Rio were visitors here one day this week in the home of Mr. and Mrs. John Whistler. M. L. Whistler and John Whistler are brothers.

## Steve Stumberg Selected to Head Texas Sheep and Goat Raisers at Closing Meeting of Convention in San Antonio

### Community Public Service Company Sells Ice Plant

Announcement was made here this week by the Community Public Service Company that they had sold the local ice plant to the Home Ice Company.

In making this announcement they stated that no other properties of the company had been included in the deal, and that they would continue to serve this territory electric and water service as in the past.

The new owners will honor all outstanding Community Public Service Company ice coupon books, and will endeavor to render the best possible service to ice users.

### Mr. and Mrs. W. J. Ferguson Attend Family Reunion

Mr. and Mrs. W. J. Ferguson returned last week from Floresville where they attended a family reunion. Following is a clipping taken from the Floresville Chronicle-Journal giving the particulars of the gathering.

An old-time happy family reunion of a pioneer Southwest Texas and Wilson county family held in Floresville last Sunday, November 25, 1945, at the home of Mr. and Mrs. George D. Ferguson.

The sons and daughters of the late Judge J. T. Ferguson and Mrs. Amanda Jane Ferguson and their families gathered together for the joyful occasion. There are 7 living children of these deceased parents and it was the first time all of them had been together in 10 years. Three of the 4 nephews in the service of their country were able to share the happy event. Of this number only First Lieutenant W. J. Ferguson, Jr. of Sanderson, now on Palau Island in the Pacific, was absent.

It was truly a day of Thanksgiving and all arrangements for the family gathering had been made within three days. The large attendance was a surprise even to those making the hasty plans for they did not expect all the living children to be present.

An old fashioned family dinner with turkey and all the trimmings was served and the entire day was one long to be remembered.

Those attending the reunion were: Mr. and Mrs. W. J. Ferguson, Sanderson; Mr. and Mrs. D. Ferguson, Verna Lee and Bill Tedford, Austin; Supt. and Mrs. J. T. Ferguson, their sons, Dan of Navasota and Pvt. Jack Ferguson of the ASTR Program at A. & M. College; Mr. and Mrs. Blake Carmichael and sons, San Antonio; Mrs. I. J. Ferguson and son, Capt. Floyd Ferguson, Mrs. Ferguson and Kathy Jean, home on leave; J. D. Ferguson, Mr. and Mrs. T. J. Carmichael, Mr. and Mrs. George D. Ferguson; Mr. and Mrs. Clyde Stevens and daughter, Barbara Jean; Mr. and Mrs. R. R. Atkins and son, John Atkins all of Floresville; T-5 Ralph Atkins of Phoenix, Ariz., and Miss Laura Atkins of Kingsville.

Mrs. Bustin Canon and daughter, Mrs. Herbert Brown and small daughter, Diane, returned the first of the week from Austin where they attended the wedding of Mrs. Canon's niece, Miss Mary Lou Mills and Lt. J. G. Torrence. The wedding took place Saturday evening. Mrs. Torrence has visited in the Canon home here several times.

### TSGRA PRESIDENT

STEVE STUMBERG

Steve Stumberg, who has served as first vice president of the Texas Sheep and Goat Raisers' Association for the past year has been selected to head the organization. The retiring president was Ray W. Willoughby.

### Southern Pacific Gets Writeup In Look Magazine

The Southern Pacific Railway Lines are the basis of an article appearing in the December 25th issue of Look Magazine.

This article, is just one way of saying "thank you" to our nation's great railway systems. Their job during the war years was a tremendous one, one that they undertook with the material at hand, to handle the greatest amount of business in the history of railroading.

Look Magazine does a magnificent job in telling the great story of the Southern Pacific Lines. With numerous pictures depicting the work-day happenings of this mighty organization from the most insignificant job to the higher-ups, it is truly a salute to one of our mightiest business organizations.

The SP with a single track system of 15,072 miles, and stretching from New Orleans to Portland, Oregon, has a list of 112,000 employees, who, through their untiring efforts were instrumental in carrying out the job assigned to this road in a convincing manner.

This magazine is to be commended for bringing a true story of the men and women behind the scenes, who are the backbone of this truly great American organization.

### Methodist Church School to Present Program December 23

December 23 the Methodist Church School will present a program in the Auditorium of the church, the opening hour being 7 o'clock. Following the program the children's Christmas tree and fellowship hour will be held in the Fellowship Hall. The public is invited to attend.

### CULTURE CLUB TO MEET

The Culture Club will meet December 20 with Mrs. Joe F. Brown at one o'clock. Mrs. A. F. Buchanan will be cohostess.

Dr. R. E. Lester plans to leave Saturday morning for Del Rio to visit Mrs. Lester who is receiving medical treatment in a hospital in that city.

Lt. Roger Bassett arrived home Sunday evening to visit with his wife and son. He expects to be discharged soon.

### San Angelo Chosen As Permanent Home For Organization

Steve Stumberg of Sanderson was elected president and Fort Worth was chosen as the 1946 convention city at a closing session of the Texas Sheep and Goat Raisers' Assn. late Tuesday afternoon.

The sheep and goat men concluded a two-day convention in the Plaza Hotel. Some 800 delegates from all over the state attended.

Those chosen as vice-presidents were Bryan Hunt, Sonora and Clayton Puckett, Fort Stockton.

In a tightly contested vote San Angelo was selected as a permanent home for the state association. Other cities mentioned for the home office of the association were Del Rio and Sonora, but Sonora and San Angelo were the only two nominated.

In their closing business session the sheep and goat men passed a resolution recommending that the secretary of agriculture proclaim a comparable price for lamb in lieu of the present parity price. The same resolution requested the Commodity Credit Corporation to announce immediately the wool program for 1946. Government wool policy was criticized during the opening sessions of the convention.

A resolution supporting a proposed state constitution amendment which comes up for election in November, 1946, was also passed. This amendment would require that state gasoline and automobile registration taxes be used for road building and repair.

At a morning session more meat production to supplement the income from wool was urged by G. N. Winder, president of the National Wool Growers' Assn.

Winder pointed out that during the war when meat was short, many Americans had learned to like lamb. "Now is the time," he said, "for the sheep men to establish a fund for the promotion of lamb meat sales."

He said that sheep men faced stiff competition from foreign wool markets and that meat production offered the best solution.

Others who took part in the "meat" discussion included Garland Russell, Chicago, Ill., J. M. Jones, Salt Lake City, secretary of the National Wool Growers' Assn.

Bernard C. Nelson, head of a tanning corporation being set up in San Antonio, also addressed the morning session. At a session of the Women's Auxiliary, he explained that a new process being perfected by his company would make wool fur as soft as cashmere. "You can then wear it next to your skin without any scratch," he said.

The Women's Auxiliary elected officers to serve in their association during 1946. Mrs. Worth Evans, Fort Davis, was elected president, Mrs. Felix Real, Kerrville, was chosen first vice-president, and Mrs. Henry Horn, Del Rio, was selected for second vice-president.

S 2-c Joyce Boyd arrived home Wednesday morning on a 30-day leave to visit with his parents, Mr. and Mrs. Chester Boyd, and sister Bonda Gail.

Miss Ella Savage returned home Sunday night from San Antonio where she had been visiting her sister, Miss Dollie Savage.

### Announce Winners Of Scholarships In State 4-H Clubs

College Station, Dec. 14—Two members of Texas 4-H clubs, a girl and a boy, won top honors in 1945 nation-wide contests and were awarded Blue Ribbon college scholarships valued at \$200 each. The awards were announced at the National 4-H Club Congress held at Chicago December 2 to 6, which they attended as special guests.

Marilee Dufek, 18, of Route 2, Dallas, was judged among the first competitors in the 4-H Club Record contest sponsored by a national merchandising concern, and Earl Edwards, Jr. of Floydada was placed among top-flight contenders in the National 4-H Dairy Production contest sponsored by a food processing company of Chicago.

Miss Dufek and Edwards were state winners in these contests and in the final judging competed with winners of similar contests in other states. The honor to Miss Dufek was noteworthy because she was the first Texas Club girl to attend the Congress as a sponsored guest or to compete in national contests. The award to Edwards may be applied toward a course at a state agricultural college of his choosing, and Miss Dufek likewise may attend the school of her own selection.

Selected from 1,230 state competitors, Miss Dufek estimates the value of her demonstration during nine years of 4-H club work at \$5,981. Her club and county honors included Club president in 1945; winner of the Dallas County Apron Contest; Chairman of the Dallas County 4-H Council; 1944 Dallas County Gold Star Girl; and winner of district contest and third place in state Girl's 4-H contest for the Maggie W. Barry scholarship.

In six years of club work, Earl Edwards realized a return of \$11,548 from all of his 4-H \$7,089 from dairy cattle. Commencing with one registered Jersey heifer in 1940, he now owns a herd of 17. He is a member of the Panhandle-Plains Dairy Association; secretary of the Floyd County Jersey Cattle Club which he helped to organize in 1944; member of the Texas Jersey Cattle Club, and has a junior membership pending in the American Jersey Cattle Club. Keeping records of production and producing home-grown feed have been features of his dairy demonstration. This year he grew 46 acres of milo, 15 of hehary, 25 of cane, 10 of barley, nine of wheat, and 10 acres of oats for winter pasture.

The man who graduates today and stops learning tomorrow is uneducated the day after.

### Portions of Texas History Recounted In Late Publication

AUSTIN, Dec. 14—How Texas was recovered from France between 1719—1723 is recounted in the current issue of the Southwestern Historical Quarterly published at the University of Texas by the Texas State Historical Association.

Dr. C. W. Hackett, professor of Latin-American history, relates the story of the Marquis of San Miguel Aguayo, and his expedition which he took into the interior of Texas in 1722. A photograph of the map drawn especially for the Aguayo expedition by one Don Juan Pedro Walker illustrates the story. Don Juan Walker was a first assistant to the Marquis, and accompanied the expedition. His original map is now in the Mexican national archives.

Also in the current issue is a sketch on David G. Burnet, first governor of Texas, written by Miss Dorothy Louise Fields, tutor in government at the University, and a story of the Mormon migration into Texas as told by C. Stanley Banks of San Antonio.

Miss Lierena Friend, Wichita Falls High School teacher writes of contemporary newspaper accounts of the annexation of Texas; Herbert Davenport of Brownsville gives an account of early steamboating on the Rio Grande, and Miss Julia Kathryn Garrett, Pascal High School, Fort Worth, continues her story of Dr. John Sibley and the Louisiana-Texas Frontier.

Dr. C. F. Arrawood, professor of the philosophy and history of education at the University, writes on the election of Jefferson Davis to the presidency of Texas A & M College.

The greatest undeveloped territory lies under your hat.

### Set Ceiling Price On Surplus Barbed Wire

A retail price ceiling of \$4.85 per roll of 80 rods has been established on new barbed wire declared surplus by the armed forces and to be sold for civilian use, beginning December 15, 1945, William E. Watson, price specialist of the San Antonio district Office of Price Administration, announced today.

This ceiling applies to galvanized steel wire, type A, 12 1/2 inch gauge, two strand, with 4 1/2 inch spacing.

Sales will be made through regular trade channels by the Reconstruction Finance Corporation.

Each roll of wire must be tagged with the retail ceiling price when offered for sale at retail. Watson said.

"I suttinly hopes I'se stek," groaned Rastus "I'd sho' hate to feel like this when I'se well."

### University Compiles Directory of All Texas Manufacturers

AUSTIN, Dec. 14—Fulfilling a demand from Texas industries that there be a complete, up-to-date source of information regarding Texas manufacturers, the University of Texas Bureau of Business Research is now compiling a new Directory of Texas Manufacturers.

Approximately 800 orders have already been received for the Directory, according to a report from Mrs. Clara H. Lewis, editorial assistant. The directory will be distributed not only throughout Texas, but also to every state in the Union, Latin-American, and other foreign countries.

"The Directory affords the most direct and effective form of advertising for all Texas-made goods and is supplied without expense to the manufacturers," Mrs. Lewis said.

Material for the book is being obtained through questionnaires being sent to the manufacturing firms, and to chambers of commerce.

"Because time is a factor of utmost importance, we are especially anxious for every manufacturer to fill out our questionnaire about his business, and return it to the Bureau immediately," she added.

Included in the directory will be such specific information about each firm as the name, location of home office, name of chief executive, date of establishment, approximate number

of employees, and approximate area of distribution of the product of each plant.

A section will also be given over to the products, listed under the name of the product, and with trade names included.

The University of Texas College of Business Administration conducts a Placement Service for students majoring in business, and each year between 75 and 100 students are placed in satisfactory jobs. Mrs. Olivia Reed, secretary, reports. Manufacturing, industrial, and business firms in Texas and elsewhere call on the Service for capable students.

### SET CEILING PRICE

A retail ceiling price of \$12.50 has been established for men's new Army mackinaw coats. Warren M. Smith, price specialist of the San Antonio district Office of Price Administration announced today.

The ceiling will apply to sales of thousands of these 100 per cent wool lined coats that have been declared surplus by the Army.

Each coat bears a label showing that it was made for the Army.

**Ideas on Making the Most of Sausage**

<b>1 pound BULK SAUSAGE</b> Makes 8 Servings <b>SAUSAGE 'N' SQUASH</b> Divide sausage into 8 patties. Place each patty in a cleaned half of acorn squash. Bake at 350° F. for 1 1/2 hours or until done.	<b>—or 6 Servings SAUSAGE WITH PANCAKES</b> Make into patties. Place in skillet. Add 2 tablespoons water. Cover and simmer until water evaporates. Remove cover and brown. Serve each sausage patty between 2 pancakes.	<b>—or 5 to 6 Servings SAUSAGE-APPLE PATTIES</b> Grate two medium-sized tart apples and combine with the sausage. Make into patties and cook as in preceding recipe, or fry slowly until done.
<b>1 pound SAUSAGE LINKS</b> Makes 8 Servings <b>SAUSAGE ONE-DISH MEAL</b> Make mush from 1 cup corn meal, adding 1 cup shredded bran. Spread in bottom of casserole. Arrange links on top and break eggs between links. Cover and bake at 350° F.	<b>—or 6 to 8 Servings SAUSAGE-BEAN CASSEROLE</b> Brown links in skillet. Add chopped onion, green pepper, diced celery, can of tomato soup, 1/2 cup ketchup, and simmer 30 minutes. Add 1 can kidney or lima beans and heat.	<b>—or 8 Open SAUSAGE-CHEESE TOAST</b> Cook sausage until done. Spread 2 tablespoons apple sauce on each slice of toast. Arrange 2 links on each. Place cheese strip on sausage. Broil until cheese is melted.
<b>1 pound FRANKFURTERS</b> Makes 8 Servings <b>FRANKS WITH STUFFING</b> Cut large franks partly through, lengthwise. Cook 1/2 cup grated onion in fat. Add chopped parsley, 2 cups bread cubes and seasonings. Stuff franks. Wrap with bacon. Bake.	<b>—or 8 Servings FRANK-STUFFED POTATOES</b> Bake potatoes. Cut lengthwise, scoop out, mash with milk and drippings; season. Whip and re-fill shells. Place a frankfurter on top each. Heat franks and brown under broiler.	<b>—or 8 Servings FRANKFURTER MEAL</b> Make toast cups by pressing slices of bread, crust removed, into muffin pans. Bake. Fill with seasoned corn and peas. Simmer franks 5 minutes. Serve alongside vegetable cups.
<b>1 pound BOLOGNA OR SUMMER SAUSAGE</b> Makes 12 Servings <b>SAUSAGE WITH NOODLES</b> Place alternate layers of summer sausage and cooked noodles or spaghetti in baking dish. Season. Add enough tomato or mushroom soup to moisten. Cover with "buttered" crumbs. Brown in oven.	<b>—or 8 Servings SCRAMBLED EGGS IN CUPS</b> Have bologna sliced 2 1/2" thick. Heat slices in greased frying pan just long enough to "cup" them. Arrange on chop plate and fill with creamy scrambled eggs; if desired, creamed potatoes.	<b>—or 8 Servings BOLOGNA-RICE CASSEROLE</b> Dice bologna. Brown in fat with chopped onion. Add 2 cups cooked rice, salt and pepper; then 2 cups soup stock, 2 beaten eggs. Season. Place in greased casserole. Bake at 350° F. 20 minutes.

Sausage making is one of our oldest arts. Fully as old, of course, is the art of preparing sausage for the table. There are many types of sausages. They offer almost unlimited possibilities to the homemaker who is interested in varying her menu and is always looking for ideas that are different and, at the same time, pleasing to the family palate. Above are just a few ideas for preparing a few of the sausages. They show what can be attained with a little ingenuity in the kitchen.

There is enough salt in Texas to give every person in the world a four horse wagon load and then some.

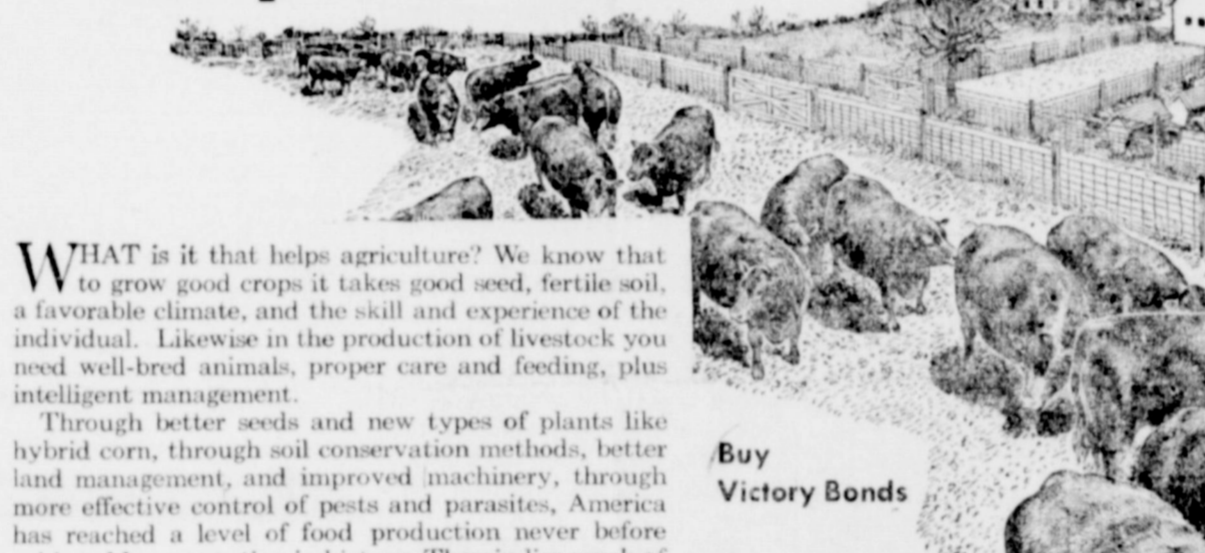

Don't marry on Sunday. It's unlucky to gamble on the Sabbath.

Even the best hens have a molting period and this should be a "paid" vacation for them. If fed well during the "lay-off" they will resume work in good health and ready for all-out production.

Enough eggs are being produced for every person in the nation to eat between 300 and 400 this year.

Judge Lindsay said he had never tried gin and ginger ale, but he had tried several who had.

**What Helps Agriculture Helps All of Us**

**WHAT** is it that helps agriculture? We know that to grow good crops it takes good seed, fertile soil, a favorable climate, and the skill and experience of the individual. Likewise in the production of livestock you need well-bred animals, proper care and feeding, plus intelligent management.

Through better seeds and new types of plants like hybrid corn, through soil conservation methods, better land management, and improved machinery, through more effective control of pests and parasites, America has reached a level of food production never before achieved by any nation in history. Therein lies much of America's strength for the future.

By many a tragic example, history teaches us that when food supplies fail, nations fall. We of America must see to it that our agriculture becomes always a stronger, surer base for the economy of our nation. This is a task not only for you as producers but also for us who, by providing nationwide facilities and services, bridge the gap which separates farmers and ranchers from the distant consumers who must have their products.

And because our business is so closely linked with the land, we at Swift & Company are vitally interested in all developments that help agriculture. And so in these Swift pages we publish helpful information, knowing that a prosperous agriculture is essential to the livestock and meat industry—and to the prosperity of the nation as a whole.

*John Holmes*  
 President, Swift & Company

**Soda Bill Sez:**  
 . . . generally we should learn two things from life—what to do and what not to do.  
 . . . if work is a pleasure, a man sure can have a lot of fun farming.

**OUR LIVESTOCK JUDGING METHODS**  
 By R. G. JOHNSON  
 Head, Department of Animal Husbandry, Oregon State College

Domestic animals are machines for converting plant material into meat, fibers, and other human needs. Competition forces the modern farmer to evaluate efficiency in terms of tons or bushels per acre, dairy production in pounds of butterfat per cow per year, and poultry results in number of eggs per year. Thus, since the basic resource is feed and not animals, shouldn't livestock producers evaluate breeding stock on the basis of feed consumed?

The show ring standards for judging animals by external appearance have given us advancement up to a certain point, but breeding for the show ring does not always lead to efficient feed utilization.

A step in the right direction is the increasing use of proved sires. Today, through use of artificial insemination, the purebred breeder is greatly assisted in the establishment and increase of efficient blood lines.

Tomorrow's "yardstick" will not only be bigger yields per acre but also more pounds of meat and fiber per ton of feed.

**WHAT DO YOU KNOW?** How many of the amino acids essential to health are found in meat?  
 What governs the price of livestock?  
 In what dessert is meat an important ingredient?

**OUR CITY COUSIN**  
 "DRESSED? IT SURE LOOKS UN-DRESSED TO ME!"

Answers to these questions may be found in the various articles which are printed elsewhere on this page.

**LIVESTOCK SITUATION**  
 COLLEGE STATION, Dec. 14  
 —Production of all classes and types of meat in 1946 is expected to continue at or slightly above the 1945 level, according to a USDA report.

If subsidy payments to slaughterers are removed in 1946, some decline in cattle and hog prices will probably occur.

Pork production may be somewhat greater in 1946 than in 1945, even if market weights of hogs are reduced. Output of lamb and mutton, however, will be somewhat reduced in 1946.

Every milk cow should have all the home-grown grazing and hay she will eat and should be fed concentrates in proportion to her production.

 The Public Is Invited To Come Choose Their Own Trees

**THE EDITOR'S COLUMN**

A smart steer on range goes to where the forage is best. A smart livestock producer sells where the market is best. There are many sources of information to help him decide where that best market may be. Radio networks and nearby stations report daily on receipts and prices at central and local markets. Commission houses and their field men are ready to give personal advice on the best time and place to sell. Newspapers publish detailed descriptions of market conditions. Various timely reports are available from the U. S. D. A. and other impartial sources on trends and developments in the livestock-and-meat industry.

In making their bids, livestock buyers also use current market information. Acceptance of any price offered is entirely up to the producer or his sales agent. Meat packing plants and their buyers are located at so many widespread points that if a producer is not satisfied with prices offered by any one buyer, he has a choice of several others to which he may sell his animals.

Moreover, with 3,500 meat packing plants and 26,000 other concerns and individuals who slaughter livestock commercially, there is bound to be keen competitive bidding for your livestock. Barring meat rationing and price ceilings, livestock prices are governed by what the packer can get for the meat and by-products.

*F. M. Simpson*  
 Agricultural Research Department

Swift & Company wishes all the readers of this page  
**A MERRY CHRISTMAS and A HAPPY NEW YEAR**

**"AMINOS" ARE IMPORTANT TO YOU!** From the nutrition research laboratories comes the story of amino acids, mysterious substances found in the proteins we eat. Aminos are used by our bodies to build and rebuild our tissues, organs, and blood. They also help fight off infections.

Of the 23 known aminos, ten are absolutely essential to health and even to life itself. Meat is rich in all ten of them. That's why doctors, working to rebuild the shattered bodies of wounded servicemen, order diets with large amounts of meat. That is also why everybody should eat meat for health as well as for its fine flavor and its "stick-to-the-ribs" food value.

Swift and other meat packers, through The American Meat Institute, are telling this vital story of meat and its health-building aminos in many millions of advertising messages. As people read this story, there will be wider markets for meat—and the livestock you produce.

*Martha Logan's Recipe for*  
**MINCEMEAT**  
 Yield: 4 quarts

1 pound cooked beef shank, chuck, or neck meat	1 1/2 pounds brown sugar
1 cup meat stock	1 quart cider
1/2 pound suet	2 teaspoons salt
4 pounds apples	2 teaspoons nutmeg
1/2 pound currants	3 teaspoons cinnamon
1 pound seeded raisins	5 tablespoons lemon juice

Parse, core, and chop apples. Chop together currants and raisins. Chop together currants and raisins. Add apples, sugar, cider, and meat stock. Cook about 5 minutes. Grind meat and suet. Add with seasonings to apple mixture. Simmer 1 hour, stirring frequently to prevent burning. Add lemon juice.

This mincemeat may be made ahead of time and canned for use throughout the holiday season.

**FREE COLORING BOOK!**  
 Boys and girls, here's a swell coloring book for you. It's filled with funny farm animals—Cissy Calf, Bidly Hen, Junior Chick, and many others. And there are rhymes, too. If you'd like to have it, just write to Department 128, Swift & Company, Chicago 9, Ill.

**SORGHUMS ON INCREASE AS CATTLE FEED**  
 By A. D. WEBER  
 Head, Department of Animal Husbandry, Kansas State College

Proof that the new combine-type grain sorghums, Midland milo and Westland milo are the equal of corn as cattle feed, which was demonstrated recently at the Fort Hays Branch of the Kansas Agricultural Experiment Station, will interest feeders who fatten cattle in the Southwest.

Yearling steers fed these two new grains for 150 days gained 2 1/2 pounds per head daily. This was equal to results gained by feeding yearling steers No. 2 corn over a like period. The steers in each lot graded the same (choice), and sold at the same price (\$17.00 per cwt.). All grains were fed at the rate of 13 pounds per head daily. Each ration included sweet sorghum silage, 37 pounds; cottonseed meal, 1 1/2 pounds, and finely ground limestone, 1-10 pound.

Three similar feeding trials also proved conclusively that the new combine-type grain sorghums compare favorably with corn as cattle fattening feed—Wheatland milo, Colby milo and Westland milo being tested in these trials.

Increasing use of native feed grains, such as these new type grain sorghums, will greatly benefit the stability and prosperity of this agricultural region.

#### RESPONSIBILITY

We as students have many responsibilities to our school. First, we are responsible for our school building; to keep it clean and neat; to create a cheerful atmosphere; to have it a place where everyone wants to come; and have something everyone will be proud of.

Every student has a responsibility to his teacher: to follow his leadership; to always get required assignments; and to realize that assignments are not forced work, but opportunities to learn; and try to do his best.

The teacher has a responsibility to the student; to be a leader the student wants to follow; to develop a strong bond of friendship with the students; to be helpful; to be human.

A student has a definite responsibility to his fellow students: to be thoughtful of his welfare; to be agreeable and reasonable; to help maintain a student morale.

Janie Louise Turner

#### BOND SALE

The results of the bond sales contest:

8th grade won in High School with 1,520 points, 5th grade won in Elementary School with 1350 points. There was no sale in Lamar Ward.

Individual prizes were given to:

Nancy Peavy, \$25.00 Bond—1360 points Edward Wheeler, \$5.00 Stamp—410 points Douglas Duncan, \$5.00 Stamp—920 points, Carrie Marie Turner, Flag—270 points, Jimmie Bradford, Flag—850 points, Bobbie Wilkinson, Book—450 points, Bobbie Cooke, Betty Cooke, Doris Cooke all tied, Book—130 points.

#### KAT'S KLAW

Hello everybody, Even if I do say so, its been a dull week on the Sanderson beat. Seems that cold weather is beginning to creep slowly in and send all the kids home instead of to the parties.

We caught Doris Mc with that ex senior, sailor Ed Leatherwood. My, she does get around! To all the girls who are interested:

That sailor, Bland Gates, and Army man, Billy Joe Short, are in town—two eligible men, girls, and I also know that Stump Duke, another sailor, will be in town for Christmas. Looks like the town will be more exciting during Christmas, we hope.

Friday afternoon was a very important day for Earline—well it was her wedding day. Let's all wish the Deatons (Lloyd and Earline) lots of happiness.

Everyone seems to be bustling around getting their formal ready for the Christmas dance. Don't worry, I'll be there with both my cross eyes open. I won't miss anything because I see double, you know.

Cecelia's interest is still at T. C. U. But we don't blame her. Some guy, Hut.

Aggie can't seem to wait until Christmas. Could it be that Doyce has a furlough for the holidays. Could be??

You could put everything I've told you under your fingernails, but being a cat, I "match Pal" like to stay by a nice warm fireplace, dreaming of the last piece of vinson I had some weeks ago. Can you blame a Kat?

I have to go back to my warm place by the fire; I'm frozen to the bone and, don't have anything to say anyway, so here's how.

Frozen yours  
Kat.

#### DO YOU NEED MONEY

Are you in the need of quick money? If so, see any member of the Junior Business class; after two weeks of serious concentration on the subject of money they now feel they are qualified to give financial advice to anyone who is in need.

This service is offered absolutely free and with no obligations on your part, nor does the class guarantee the accuracy or advisability of the use of any suggestion made. All business transactions are strictly confidential.

This offer is especially made to all high school students who are in the need of help in figuring their income taxes. We feel that we are not only being of service to those we serve, but in turn we will bring business to the local tax computers, as we are positive that after you have followed our advice you will only need their service but the advice of a lawyer as well.

#### PINS ORDERED

This week the Juniors were very happy when Mr. Holly (our ex-superintendent) wanted to have a special meeting with us because we knew it would be something about our Senior rings or pins. We found out we would not get our Senior rings until next year, but we don't really mind because we ordered Junior Pins. In about 3 months you will have a chance to see em' when we "strut" down the hall.

The annual staff also ordered pins.

Rain always sounds better on the roof than on the raincoat.

# THE EAGLE NEWS

#### PEOPLE YOU'D LIKE TO KNOW

**Marjorie Driggers**  
 A senior, has lived here for two years. She was born Sept. 21, 1926, in South Carolina where she lived except for the last two years of her life. Marjorie likes sports even though she's not able to play. She dislikes people who like themselves.

#### Edward Chastain

A junior, has lived here all his life, but had rather live on a ranch. He has the honor of being president of the Junior Class. Edward is very active in sports. He dislikes school.

#### Margaret Duncan

A sophomore has lived here 5 years. She was born Sept. 14, 1930. Margaret is reporter for the Sophomore class. Her pet peeves are people who are stuck on themselves. Marjorie had rather study psychology than anything else.

#### ASSEMBLY NEWS

The fifth grade presented "Solving Santas Problem" Friday in assembly. The characters were Santa Claus, Jackie Savage, Susie, Mary Landon Rose, Nimble, Walter Counts, Elves, Jerry Yarbrough, James Clark, Joe Nessmith, and Carroll Lassiter Duck. Donna Wooten, Owl, George Davis, Bear, Jim Turner and Elephant, Colby House and Clyde Word.

Marilyn Courtney, Mary Lou Cargile, Trophia Turner, Donna Wooten and Claretta Davis sang "White Christmas."

A reading "The Night That Christ Was Born" was given by Mary Lou Cargile.

"Silent Night" was sung by Mary McDonald, Clara Davis Jacquelin Martin, and Delma Stidham.

The program was directed by Mrs. Walter Grigsby.

#### "POP HOLLY BACK FOR VISIT

Pop Holly, who is well remembered around the campus as our ole' superintendent, was back for a short visit this week. Gee, it was really swell to see him back and say, did you notice all the fuzz on his head? Confidently, we all think he is using something to make it grow.

And does he have a sales talk just ask any junior, senior, or member of the annual staff. But, seriously, it was grand to have him back for a few days.

#### CHRISTMAS PARTY PLANNED

The room mothers and sponsors of high school classes including the eighth grade, met December 3, and made plans for a Christmas prom.

The prom will be held in the Masonic Hall, is to begin at 9 o'clock on December 19, and is to be formal, so drag out your best bib and tucker, all you gals and guys, and let's have fun.

#### C. P. PEAVY EXPLAINS BANKING TO ECONOMICS CLASS

C. P. Peavy, local banker, spoke to the economics class on Friday of last week on the problems of banking. The class asked him a number of questions, and felt that they had had a very profitable hour when the bell rang.

#### JUNIOR NEWS

This week the Juniors did not do much of anything because a lot of our fellow class-men were sick. But we hope they'll all be well. Saturday night Carolyn, Mary Nell, and Betty Ann went to Temple's. They danced, played cards, and "jabbered."

It was so cold a lot of us stayed home to keep warm. But we'll have more news for you next week.

#### FRESHMAN NEWS

Many Freshman students were absent this past week along with many other students of High School.

Although many are absent, there are still smiles on the faces of the class for the coming of the Christmas Holidays.

#### H. E. NEWS

The class of the Future Home-maker's Club met on Friday 7th. Plans were made for the class Christmas party. It was decided that the party would be on Wednesday, December 12th.

#### "WATCH WORDS OF HISTORY AND THEIR ORIGINS"

"Stand your ground, don't fire unless fired upon, but if they mean to have a war, let it begin here"—These famous words were uttered by Captain Parker on April 19, 1775 during the American Revolution. It is referred to as the line of the minute men. In Legington, Mass., a large store stands where the American minute men met the British and fired the first shots of the war. The famous words are engraved on the stone.

#### EAGLES MEET TOWN TEAM

The Eagles tangled with the town team in a ruff and tumble pre-season game in the high school gym Thursday December 6. When the final whistle blew the Eagles were on top by a score of 40-19. The form of both teams was pretty rough around the edges, but this was to be expected because of the length of practice season so far. All the boys gave every indication of being in top form before the next game.

Willie G. and J. M. Harrell rather consistantly hit the basket, and Monte G gave a nice demonstration at center and guard positions. Jimmie D. at center gave promise of future perfection. Bob E. and Bosco Y. at guard positions displayed plenty of ability to keep the ball off the back-board. The town team was composed of Sam Bell, Al Dishman, Buddy Sudduth, Tubby Harrell, and Mr. Elrod. All in all, the Eagles turned in an excellent performance for their first.

#### THE JOYS OF SCHOOL

Going to school is an undertaking most children look forward to. There are pleasant scenes to visualize, like sitting in the hall (teacher's orders) and watching people pass; or something nice like looking out the window and wondering what your cousin, Jack, who has a holiday, is doing, when suddenly you realize that your dear, dear teacher is calling on you.

Then there will come a day when you find yourself at the foot of your class. Your teacher the one who believes that a certain piece of wood should be kept warm, will threaten, probably to no avail.

If you walk to school, you will have a nice stroll every morning. Be sure to start early so you'll have time to poke along. "Oh yes, those flowers for biology class," you think. There are some little yellow flowers near the fence in Mrs. Goodburn's yard. They are just the thing you need.

After you snatch the flowers you will stroll on, very happily. You actually have one of your lessons.

Thus, the happy days of school roll by, full of activities. Suddenly you find yourself walking down the aisle in a cap and gown.

Harriet Pierson.

somehow "good-for-nothing" in the average teen-ager, at the same time there is a hidden seriousness where William Baxter, the seventeen year old, is concerned. During his romantic yet simple courtship of a certain lovely, baby talking girl, he grows up. Thus he discovered that it is really isn't possible to find true love at seventeen.

DECEMBER 14, 1945

### Rights of Board of Education Meeting Question December 10 Regarding Method in the Selection of State Text Books

representatives of Texas organizations. Mrs. Lee Clark of Austin opened the hearing before the Board in Austin, December 10, regarding the method of selection of Text Books. First Mrs. Minnie Fisher of New Waverly pointed out that legislation passed by the people, passed to provide channels for the governmental body upon which our Constitution is founded. "Government derive their just powers from the consent of the governed. This then, is a governmental law. The Board of Education created by law. Its powers and responsibilities are defined by law. The Board of Education is appointed by law. No person who is not created by law has any legal duties in Texas. Yet we find that the Board of Education has exercised power and influence over the book field. Once that light of day comes, perhaps, members of the Women's Committee for Educational Freedom, which I represent, like to know of Mr. Marco Stewart, Chairman of this Board, what the relationship is between you, Mr. Stewart, and the Board of Education. You are active in the official duties of the Board?" Stewart, who had retired from the Chair, definitely refused to answer this or any other question. The presiding officer, Mr. Long, vice-chairman of the Board, presided through the hearing which lasted several hours.

aganda of a small special interest group. "In behalf of the Women's Committee for Educational Freedom, I protest that this is a definite infringement on freedom of education. And we propose to offer strong opposition to such practices."

At the close of her remarks Mrs. Collier presented the resolution of protest from the Democratic Club of Houston, endorsing the work of the Women's Committee and filing their own protest to the interference of Ulrey in the Board's legal duties. Mrs. Collier then passed to every member of the Board a reprint from Collier's of August 18, setting forth some of the activities of Ulrey in connection with a man named Vance Muse.

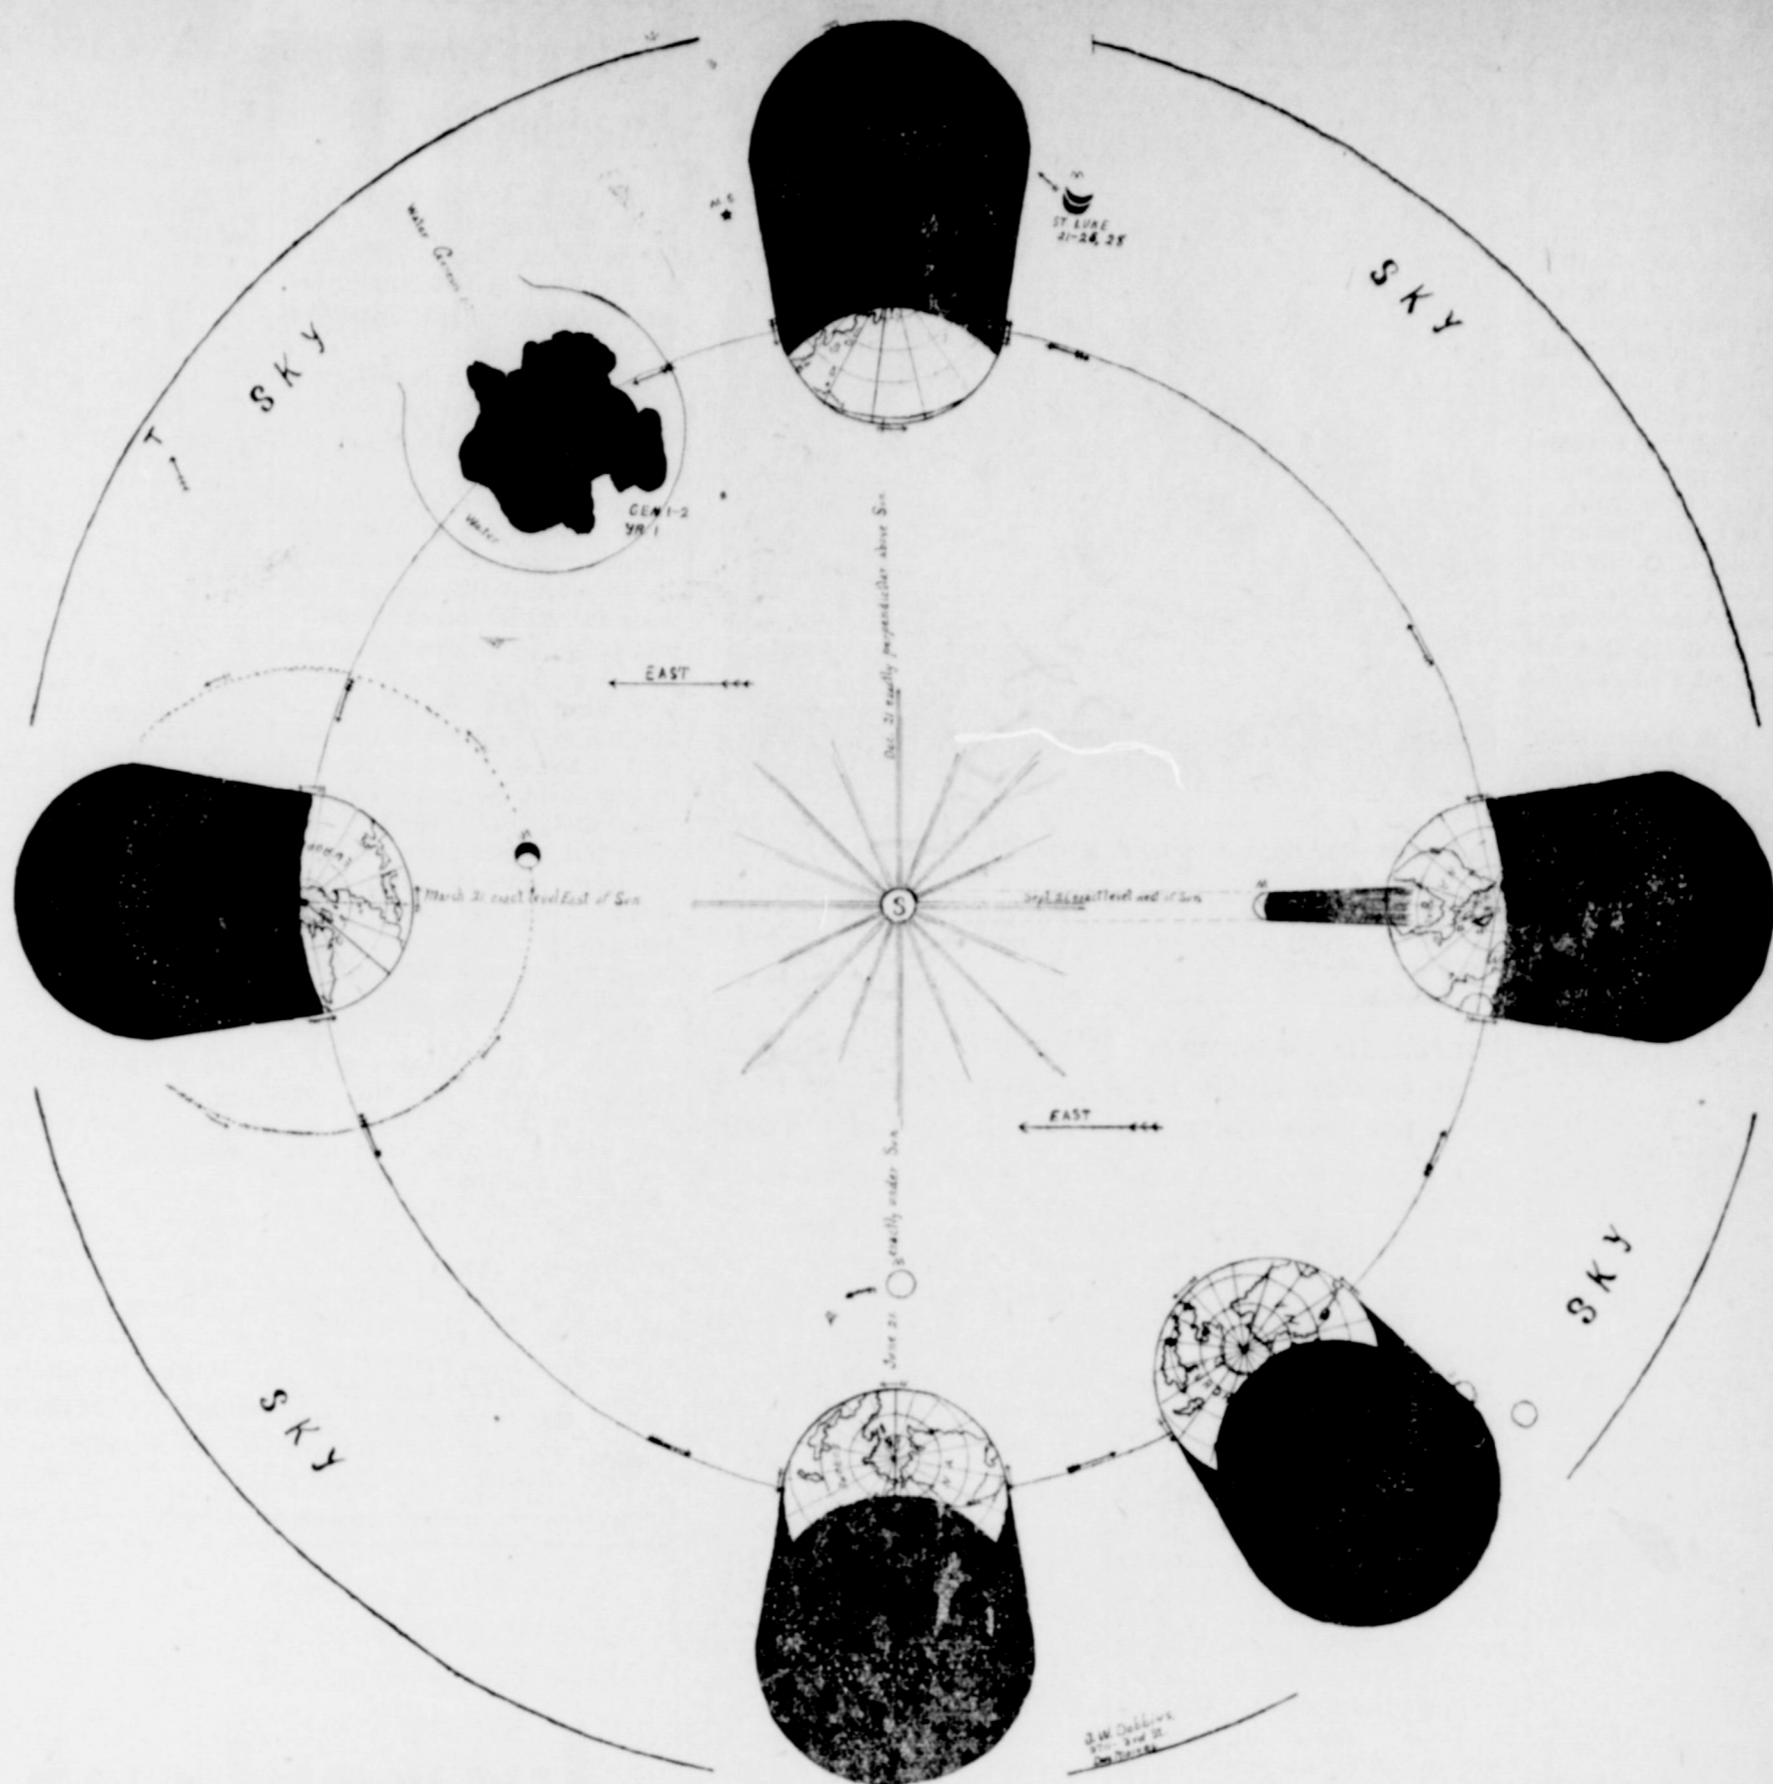

Following Mrs. Collier in the hearing were Ben Ramey of the Young Democrats Club of Travis County; Oscar Lentz and Alfred Pierce of Denison, returned veterans representing the Young Democrats of Texas; Mrs. Stuar Long, Austin, Travis County Democrats of Texas; Mrs. Stuart Long, Austin, Travis County League of Active Democrats; Ben Jaffrey, Student Committee for Academic Freedom; and Bill Wills of Ft. Worth, who styled himself a common citizen. Wills is a GI student at the University.

Wills closed the hearing by demanding that Chairman Stewart reply to the questions of the Citizens of Texas and quoted Stewart saying that if "Even one member of the Board requested his resignation he would resign." "It is my belief that Mr. Stewart had polled the Board and felt safe in making that statement. But I want to ask, Mr. Stewart, will you resign if one thousand citizens of Texas ask you? Or if 2,000? or 5,000? or 10,000?" Said Wills.

Mr. Stewart persisted in his refusal to reply to any question. But one by one the witnesses had made a deadly case against Ulrey by quoting and filing photostated material showing the connection of the man with the isolationist group and several of the individuals who have been indicted for subversive activity.

Following the hearing, suit against Maco Stewart as Chairman of the Board was filed in the justice court for violation of the law which forbids anyone to appear in behalf or against any particular text book. The contention of the suit being that Ulrey sought to influence and did in fact influence Maco Stewart to prevent the presentation of a book to the Board. Members of the Board are: Maco Stewart, Chairman; Galveston; Dr. Austin M. Long, Vice Chairman; Valley Mills; C. C. Chesher, Groveton; Mrs. Joe Perkins, Eastland; Phil M. Stevenson, Houston; Fred Wemple, Midland; Clyde W. Hanks, Palestine; Herman C. Custard, Cleburne; Gilbert M. Denman, San Antonio.

Mr. Chairman, acting as secretary, can bullseye publisher into not presenting one book, you can do it. Then every member of the Board can do the same thing. If that is so, would come a time when there would be no liberty even for the Board itself in the selection of text books for our schools and college boards do the same thing in selecting books and professors it would be that the great sum of money, 95 million dollars of tax money which pay support a system of public schools will, in fact, be spent on private schools merely promote the prop-

## "THE CREATION AND ORDINANCES OF GOD"

Gen. 1-1 Jer. 31-35

**THE KING JAMES I. 1611 HOLY COVENANT (BIBLE) IS THE ONLY RECORD GOD AND CHRIST HAVE IN EARTH. "FORSAKEN" BY ALL CHRISTIANITY. GIVEN INTO OUR HANDS TO DECLARE UNTIL JUDGMENT DAY. 1ST JOHN 5-10, 11. DAN. 11-30. "SCIENCE IS FALSE" AS IS ALL REVISED BIBLES. 1ST TIM. 6-20. GAL. 1-8, 9. REV. 22-18, 19.**

A part of this Holy writing was written in Paradise, before given to Moses on Mount Sinai 1367 B. C. "It was ordained by Angels in the hand of a Mediator, Christ Jesus." Gal. 3-19. 1st Tim. 2-5, given to us, Rev. 2-26, 28.

The above pattern God gave me many years ago, but God would not permit us to set it before people for many years. Rachel, who never took a drawing lesson does this drawing of what God gives us. The Light and Wisdom, sent down from Heaven, James 1-17 and 3-17. Sent down with the Holy Ghost who dwells in our free from sin flesh, by a sprinkle of Christ's blood, 1st Peter 1-12. As God showed Moses this Tabernacle in Heaven, built there long ago, Heb. 8-5. As soon as God says the word, we will face the greatest German Scientists in our nation and Germany. Our every prophecy, will be confirmed by Christ, by "Fearful Sights, and Great Signs from Heaven." St. Luke 21-11. Such signs have not yet appeared, yet we have watched other signs since 1931. See the two Moons together, upper right. I stood in a certain place in 1917 while God showed me all this you see, and for about 9 years I didn't know it could be put in a pattern, then Rachel made a small one, and we showed it here in a county paper. Not until the past four years, had God permitted us to set it before people in its fullness. As God said to me years ago, "It will be more powerful later," so it is.

**POSITION** Hold this pattern before you looking south, then we see the north corner, or North Pole, so called. A brief description to help all who believe our prophecies, 1st Thess. 5-20. Repent and walk down in water baptism, if old enough, 16 to 18 years and up. No little children are lost, 1st John 2-12. Having "Our Bodies Washed in Pure Water" not Sea, salt water, Heb. 10-22, called Immersion, as Jesus was baptised. After this pray for forgiveness of sins in faith in Christ, Acts 26-18. Jesus has never forgiven sins since he was crucified, God only forgives, and never but once, only by the authority of the Lord Jesus' prayer, St. John Ch. 17, the so-called Lord's prayer we hear over radios and pulpits, is not His prayer, he was not even praying.

At this writing we, the Earth, is almost exactly above the Sun, will be December 21. Down here on earth, in the mornings we see the Sun come up in the East, and set in the West. Here I say to Astrologers and Scientists, that at both sun up and sun down, we are looking exactly in the same direction. The earth's circuit around the sun, is from East to West. Its daily circuit, is from East to West. Left upper "T" against the sky, is where Jesus came through the sky down to me in June 1916, after I had had that conversation with the Angel, on the road, as I wrote, he showed me his right hand, right by me but never touched the ground. I understand perfectly "Immortality" which I will later prove.

We will make gardens, plant vineyards, in this same body, yet changed to Immortality, 1st Cor. 15. We will dwell on the new earth, many times larger than this one, same time God burns his world up, Isa. 34, and makes it "The Lake of Fire" where the disobedient go. We will dwell forever on that new earth, near the land where God and others now dwell, Rev. 13-6.

The Earth, Moon, and Stars, all travel in a group, upper left, around the Sun. I will prove before Scientists, just before Judgment Day, that the Moon is only about 10 miles in diameter, against thousands, and that the Sun is much smaller, against their string of figures, March 21, the Earth is on an exact level with the Sun, to the East, the Sun shines on both the North and South Poles, so called, at the same time. On Sept. 21, the exact level on the West, the Sun shines as on March 21, both Poles.

I had Rachel leave this open to view. The stars, except a few which go around the Earth, are always behind the Earth from the Sun. At midnight, we in the U. S., see these stars, while people in China and India behold the Sun about noon, 12 hours later. We in the U. S., whole North America, behold the same Sun, they did, while they behold the same stars we did. The Moon and Stars give light by night, the Moon ruling, Gen. 1-16. The Sun and Moon were created 6 hours after this Earth was

"Hanged on Nothing," January 1 (Abib) year 1. This was 5,934 years, including 1930. Job. 26-7. It's always night in the shadow of the earth. We have watched this sign, upper right, the two Moons, since 1931, given me one evening. That sign has been there always since, after God showed it to me, they in Jerusalem, saw it and published it there. Recently I have seen five Moons all linked together, about 5 a.m. The dipper, 7 stars North, never set at all, but circle the North Star always. Russia has no North Star or Dipper, it's only for North America. They may see it from some points East, but it's always here, not there. This I will prove also. The North Star travels with the Earth, watch it if you are a so-called "green horn" as I am, you can see it, after dark, again look at midnight, again just before daylight, every minute it is in exactly the same place, the Dipper circles from East to West, circles back West to East, plain view all night long. This for you Mr. Scientists, makers of war devices with which to slaughter humanity, as is prophesied. But it is the end of time, Rev. 10-7, Dan. 11-24. "Therefore Hell Hath Enlarged Herself." (Being interpreted by the spirit of truth) we have it's burned out near the inside edge all around. The pit is bottomless because it's round, inside this earth, No. 16. About a year ago, Christ made this Earth tremble for about 4 hours, as published.

You who are interested, fill in the sky line with a pencil, this was my fault, but not sin, James 5-16. The word "Mistake" is not in our Gospel, it only applies to our earthly labor. These signs, St. Luke 21-25, 28 means our soon redemption to Paradise, "Immediately After the Great Tribulation" ends at Washington, and the world peace made law, and the German money the mark of the beast, is made the world money, not before, Matt. 24, Dan. 9-26. The whole creation of God under the sky, is East of the Kingdom of God, and below that land.

Christ was born June 24 A. D. 1. His cousin, John, was born about December 25 B. C. 1. No gifts were given at Christ's birth, over a month later the wise men, the first Gentiles to worship Him, gave gifts. The Germans and Jews "gave Gifts and Made Merry at His Death." Not His birth, Rev. 11-10, Matt. 2-2. Thus the "Dipper and His Merry Christmas" I was raised in it, I know. The Earth's position between June 21 and Sept. 21, shows an eclipse of the Moon, we watched from our back porch, the Moon entered the shadow on the South side, took a circle and out on the same side. Time was about three hours. I will prove to the wisest, that the nearest star to earth is only about 250 miles.

Jesus was baptised on His birthday, age 30 years, A. D. 31. Was crucified on Friday January 15 A. D. 35. After preaching and prophesying 1,300 days. Thus this Easter Resurrection is not in our Bible.

I will prove also, that God sent this earth down from Paradise, "Hanged on nothing, Job 26, and the first 24 hours, was 5,934 years ago, Jan. 1 (ABIB) and 6 hours after that God said "Let There Be Light; And There Was Light," Gen. 1-3. (The 5,934 years ended including 1930.) At about 6 a.m., that day the Sun and Moon were created. At the first midnight, end of the 24 hours was the first day, Gen. 1-5. Also that, every tree, flower, plant we see grow was sent down from Heaven.

We are both free from sin in this mortal flesh, have the gift of prophecy and others. The "Atonement" for sin under the Ten Commandments was Animals Blood. But our atonement we have received, Grace, is Christ's innocent Blood, Lev. 1-4, Aom. 5-11, 17.

I quote a paragraph from my prophecy in the Indianapolis, Ind. Star, one of the largest and oldest newspapers in that state, Sept. 26, 1942. "That Science and Astronomy and Astrologers are far from correct in their Mathematical Calculations of sizes and distances of Celestial Bodies; 1st Cor. 15-40. Absolutely wrong in their teaching of the Earth's circuit around the Sun, and both are against the creation, and ordinances of God."

"Worship God. For The Testimony of Jesus is the Spirit of Prophecy." Rev. 19-10. St. John 16-13. 1st Cor. 14-22, 29 to 32. Rom. 12-5, 6. Acts 2-17, 18. Rom. 6-11, 12.

### Safety Precautions Are Outlined For All Gas Consumers

COLLEGE STATION, Dec. 14.—Although use of gas was outlawed by the Geneva Convention and was not generally believed to have been used during the war, poison gas killed 1,951 Americans during the last year.

The catch in this statement is that these were not war casualties but victims of accidents from gas on the home front.

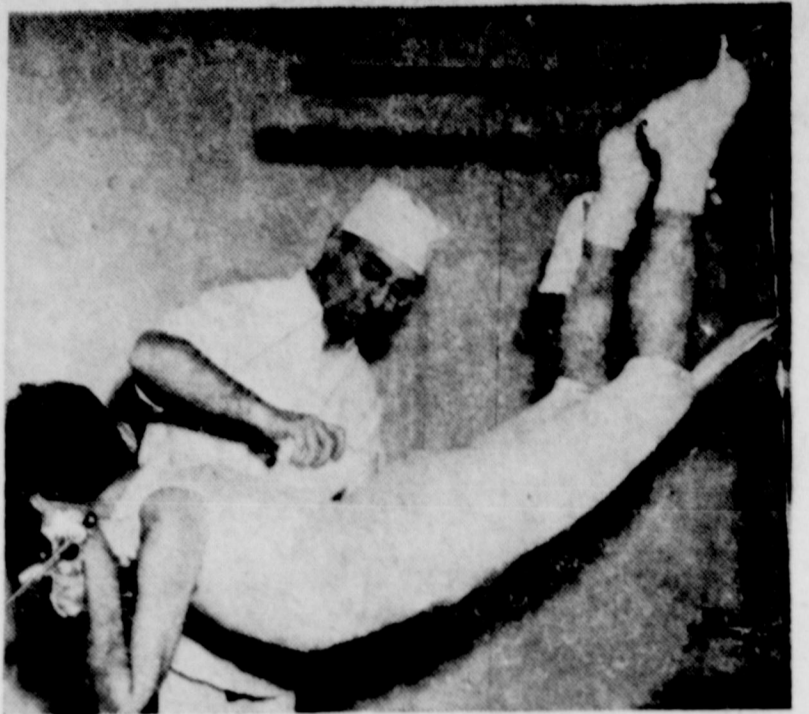

Still, points out Mrs. Eloise T. Johnson, specialist in family life education with the Texas A. and M. College Extension Service, the 1,951 Americans are just as dead as if they had died in battle.

She quoted figures from the National Safety Council which showed that 97 per cent of the victims were stricken in their own homes. Carbon monoxide was the poisonous gas in eight out of every nine cases.

Safety principles recommended for avoiding monoxide poisoning in the home include use of a flue pipe to carry away gases from gas ovens and water heaters.

Other "musts" listed by Mrs. Johnson are regulation of draft on heaters with a check draft rather than with a damper. If a damper in a stove or furnace pipe is used, it should never be closed tightly enough to force gases out into the room. Gas burners should burn with a transparent blue-flame. If the flame has a white or yellow tint adjustment is necessary.

### Receives the Best

Official U. S. Signal Corps Photo  
An Army medical corps officer treats a compression fracture of vertebrae by applying a body cast. This is one of the ways in which armed forces medical corpsmen are applying modern methods of treatment for wounded men. These methods together with the latest in equipment takes dollars, many of them. Your dollars, invested in Victory Loan bonds, are needed to speed this great work.

### Quotas on Passenger Tires Lower Than That for November

The passenger car tire quota for December in the sixty-seven counties in the San Antonio OPA district is even smaller than it was for November, according to Eugene Kurtz, district rationing executive.

Mr Kurtz explained that during the summer, when demand was heaviest, quotas exceeded production slightly, with the result that inventories were cut to such low levels in many communities that some certificate holders have been unable to find the right size tires to meet their needs.

All car and truck owners should continue conservation measures, including the repairing and recapping of tires, to get the maximum mileage, because tire inventories will be very small for many months Kurtz said.

David Larson has been ill for the past two weeks with mumps and influenza.

### Charles C. Thompson Re-Appointed to FCA For Three-Year Term

HOUSTON, Dec. 14.—Charles C. Thompson of Colorado City has been re-appointed by Governor I. W. Duggan of the Farm Credit Administration, Kansas City, Mo., for a three-year term on the board of directors of the Farm Credit Administration of Houston, Jack Shelton, FCA general agent, announced here today.

Mr. Thompson prominent Texas farmer and stock raiser, and chairman of the board of Texas Technological College at Lubbock, has completed one term of office on the Farm Credit Administration of Houston, which serves the State of Texas, is composed of the Federal Land Bank of Houston, the Federal Intermediate Credit Bank of Houston, the Houston Bank for Cooperatives and the Production Credit Corporation of Houston.

Mr. Thompson was re-appointed to the board as the top nominee from three names submitted as a result of balloting among the national farm loan associations in Texas.

### Third Program Of Southern School Assembly Dec. 19

The P. T. A. will present the third Southern School Assembly program, the Novelty Trio, at the High School Auditorium on Wednesday night December 19 at 8 p. m.

This is really a three-in-one program, featuring juggling and balancing, trained dogs, and novelty music.

For many years Al Conner has been a headliner in vaudeville, circuses, and on school assemblies with his balancing and juggling act. Among other things, he mounts a wagon wheel and rides it, a step at a time, up a stair way and then jumps to the ground still astride the wheel. This is the only act of its kind in the world. He jumps rope astride this wheel; rides a unicycle and juggles Indian clubs at the same time. He twirls hoops around each arm and his neck and one leg at the same time, while balancing a plate, etc. on a stick held in his mouth!

Miss Eddy's dog menagerie consists of four poodles and a Scotty. In one act they are dressed to imitate motion picture stars such as Mae West, Pop Eye, Dagwood, Stepin Fetchit, etc. They have a routine of barrel rolls, hoops, rope jumping etc. This is one of the most complete and delightful dog acts on the platform today.

Miss Jane Cole provides piano music as background for the rest of the program and gives solos on beautiful English Organ Chimes imported from England

### Texas Junior Grower Wins Award in National Contest

EIGHTEEN-YEAR-OLD Johnnie E. J. Szymanski of Wallis captured the top Texas award for efficient production and marketing in competition with youths from 46 states in the fifth annual scholarship contest of the National Junior Vegetable Growers Association.

Szymanski was named winner by the association's adult advisor, Prof. Grant B. Snyder of Massachusetts State College, during the junior growers' 11th annual convention in Cincinnati, O. He received a \$100 award from the \$6,000 in contest scholarships provided annually by the Great Atlantic and Pacific Tea Company.

Two other Texas gardeners were named as winners of \$25 Victory bonds at the convention.

before 1900 Marimba tumbler, played by merely rubbing the tips of the fingers over the glass, and ever popular Swiss Bells lend a novel and delightful touch to the program.

This program is highly entertaining and will delight both young and old. This is a good way to start your Christmas celebration.

Admission will be season tickets, or general admission prices of 11c for Elementary students, 22c for High School students and 33c for adults.

Miss Margaret Lattimore, teacher in the Sanderson High School is reported ill of pneumonia at her home.

### LEGION URGES VETS' SECURITY

WASHINGTON, D. C.—The American Legion is demanding that Congress end its unneeded two-year delay over ending Social Security coverage for men in the armed forces.

National Legislative Director John Thomas Taylor said, "is one of the most important legislative matters in the eyes of veterans now pending in the Capitol Hill."

Fighting men throughout the war have received no Social Security credits at all toward age assistance. Director Taylor pointed out.

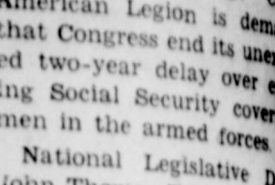

Nearly 50 per cent of 2,213 veterans now enrolled in the University of Texas are aged and the percentage of aged veterans is increasing each term records of the registrar reflect.

WOMEN TO STUDY DEFENSE PROBLEMS AT CONFERENCE  
WASHINGTON, D. C.—The American Legion Auxiliary will be host to the 20th annual Women's Patriotic Conference on National Defense in Washington, D. C., January 25 to 27.

More than 1,000 delegates coming from every state and representing an aggregate huge membership of many women's organizations will attend the conference. Prominent Government officials, high officers of the armed forces, and other well-informed speakers will be on the program.

Mrs. Walter G. Craven of Charlotte, N. C., national president of the Auxiliary, will preside.
