

# Hopes For Gas Bill Dim As Session End Nears

Barring any unforeseen roadblocks, I will kick off the Spanish class Feb. 11 in the meeting room of the Hospital. We will try to start at 5 p. m. and try to finish in about one hour. First item will be to determine the most agreeable meeting time--if there is one.

There are some changes being made in the telephone system in Friona. Just exactly what the changes will do, I don't know yet. But it won't take too long to find out.

I was busily pounding my typewriter Tuesday morning when I happened to look up and see two men braced at the top of a pole in the alley across the street. From where I sat, it looked as if they were working with the telephone lines.

After briefly considering the possibility of having a spike bounced off my head in retribution for the unfavorable publicity which I have directed at the telephone company during the last two weeks, I grabbed my camera and headed in the direction of the pole--I had to find out what was going on and record the unfamiliar sight for posterity. After all, one doesn't see telephone company men working on a pole in Friona in good weather very often--in fact, it was the first time I had had the experience.

I carefully checked the settings on the camera and snapped a couple of shots. By this time, I had been detected but no missiles were launched in my direction. As a matter of fact, I was ignored.

Taking courage from the warm reception, I ventured to inquire as to the mission of the linemen. (From a safe distance.)

I was informed that they were changing the lines to a new pole and re-routing the drop lines leading to the nearby buildings. One of the men, C. L. Martin, said that they were also going to install some additional lines and poles to service a number of new residences in town. He estimated that they would be working in Friona for about two weeks before they had completed the job.

Having satisfied my immediate curiosity, I withdrew. I certainly didn't want to cause any delay in the improvement of the phone system by distracting the men from their job.

I sure will be interested to see what the results of the changes will be--and I am sure others are just as interested.

By the way, I see that the residents of Silverton have submitted a petition protesting the poor quality of their phone service and demanding improvement of their system. From this, it would seem that we are not the only ones who find fault with General Telephone Company's service.

It was brought to my attention that representatives of the company were visiting subscribers here last week and inquiring as to the nature of the troubles experienced with the phones. From the information that was passed on to me, I would say that they received some very frank answers to their inquiries.

Who knows? Maybe we are going to get some improvements yet. As for me, I will believe it when it happens.

I saw the basketball game between the Chiefs and Bobcats in Dimmitt Tuesday night and in my humble opinion, the Chiefs played a better game than was the practice during the first half of the season--even though they did lose to the Dimmitt squad.

I was certainly glad to see the Chieftain team return with the high spirit and strong effort displayed Tuesday after the recent trouble over training rule infractions. The team certainly played a game worth seeing.

Personally, I think Frionans should make every effort to remain after the Squaws' game and support the Chiefs in their efforts. I think they deserve it.

Chances of area farmers attaining passage of legislation which would place irrigation gas sales under the jurisdiction of the Railroad commission appeared to be very slim early this week.

The High Plains Gas Users Association has been working toward securing the legislation

F. W. MATTOX

## LCC President Speaks Sunday

F. W. Mattox, president of Lubbock Christian College, will deliver the first of two lectures on "Communism vs. Christian-

ity" Sunday from 3 to 4 p. m. in the High School Auditorium.

Mattox is a noted speaker on the subject and has incorporated a large amount of documented material into his addresses. His program is reported to be an informative and factual presentation rather than a religious sermon.

Martel LeVeque, Friona Chamber of Commerce president, will introduce Mattox. The program is endorsed by the Parent-Teachers Association, the Lions Club, the American Legion and the Chamber of Commerce.

Mattox will deliver a second and different presentation on Feb. 11 at 3 p. m. in the auditorium.

rules were suspended for the proposed legislation. It was then brought to the House on Jan. 18 after the governor opened the call to include the bill.

House Speaker James Turman referred the bill to the Agriculture Committee and a hearing was set for 2 p. m. Jan. 22.

When the committee hearing opened, 17 Parmer County people were among the 168 present. After hearing both supporting and opposing views, the committee passed the bill with a vote of 13-1.

The legislation was returned to the House floor Jan. 24. A motion to suspend the House rules for the bill failed and amendments were proposed. After five were turned down, a sixth amendment was attached to the bill and it was passed.

Because of the amendment, the bill was again referred to the Senate for approval. In the face of rising opposition, the bill was referred to a conference committee to work out its possible bearing on the North Plains Farmers who, reportedly, had been informed that their gas would be stopped if the bill passed.

The committee reported that the bill would only affect companies which were already engaged in the sale of gas for profit within the corporate limits of a municipality, village or city. With this interpretation, the North Plains Farmers would not be directly affected.

The bill was again returned to the Senate and House floors for action Wednesday morning. At noon, the House had adopted a motion to send the bill back to a second conference committee. As a result of the House

(Continued on page 2.)

General Telephone Company linemen, C. L. Martin (L.) and Jim Felts, from Littlefield, change cables to a new pole and re-route droplines leading to nearby buildings in downtown Friona Tuesday. The men report that it will be about two weeks before they complete the addition of new lines and poles.

## Republicans Organize In Friona

Republicans, conservatives and discontented Democrats will meet at Reeve's Chevrolet Friday at 7:30 p. m. to organize the Friona precinct of the Republican Club and elect a precinct chairman, Les Bruns, county chairman, announced.

"We would like to have a full slate in the coming elections," Bruns said. "We would like to have anyone interested in a political office and who is dissatisfied with the present Democrat trends to attend the meeting and let us know of their aspirations," he added.

## Poll Tax Drive Nets Over 74

Lions Club members sold over 74 poll tax receipts in a city-wide canvass Saturday while Progressive Study Club members were placing telephone calls to listings on the Friona, Hub and Parmer exchanges and reminding residents of the Jan. 31 deadline for paying the tax.

The Progressive Study Club divided the telephone directory between 17 members in an attempt to reach all eligible voters within the area.

Lions met in the Friona State Bank Community Room and divided 150 poll tax blanks among the 12 present. From there they spread across the town and began accosting all persons in an effort to equip every potential voter with a ticket to the elections this year.

Three persons had not submitted their forms Wednesday morning but 74 receipts were sold by the remaining members.

The clubs decided to undertake the projects as one of the community services at their meetings last week.

Program at the Lions Club meeting Thursday night was furnished by nine Explorer Scouts who discussed the activities of their organization.

## Fleeced Police

Friona Police Chief Ben Moorman can't seem to get away from lawbreakers, even on long trips.

While visiting in Fort Worth last week, he parked his car near Harris Memorial Hospital to visit sick relatives. When he returned to the car, his clothes were missing.

"It wouldn't have been so bad except for the bitter cold," he moaned.

If anyone runs across some clothes about his size, he might be in the market to buy them--cheap.

## Car Tag Sales Start Feb. 1

Purchase of automobile tags for 1962 will begin at the Tax assessor-collector's office in Farwell today.

The numbers of the new tags will include numbers between 3650 and 7650. The tags will be black with white letters and will have a HZ prefix.

Lee Thompson, tax assessor-collector, stated that the car title and tax receipt for the previous year must be presented before new licenses may be issued.

Deon Awtry hands a completed poll tax receipt to Phillip Weatherly during the canvass of the city by the Lions Club Saturday. Lions approached people on the street and in stores in an effort to assure that every eligible person would possess a ticket to the polls in the coming elections. Over 74 additional receipts were sold by the club.

## IN HALE CO.

### Officials Find Stolen Trucks

Officials recovered two stolen trucks which were used in two recent Parmer County burglaries last week.

The trucks were located on section line roads in the southwest corner of Hale County where the burglars had apparently abandoned them.

The first truck was recovered when a farmer called officials and reported the truck abandoned on his turnrow. It was found to be the truck belonging to Roy Christian which was used in the Dec. 28 burglary of Grady Dodd's Texaco warehouse in Friona.

Sheriff Charles Lovelace, W. E. Renfrow, Texas Ranger, and a Hale County deputy began driving along parallel section lines in search of the truck used in the Jan. 21 burglary at Helton Oil Company in Far-

### Jury Called

A petit jury will be called in Parmer County for Feb. 26 for the purpose of hearing the trial of Gene Davis, alias George Evans, alias Nellie Mae Thompson, officials report. The couple is charged with the slaying of Jesse Dawkins Dec. 8.

District Judge E. A. Bills will preside at the trial, according to present arrangements. The pair was indicted by the County Grand Jury Jan. 18.

### Etiquette Class For Golfers Starts Saturday

Free classes in golfing etiquette and course maintenance will be conducted by Joe Coronado, local golf professional, at the Country Club Golf Course each Saturday at 3 p. m.

The classes will be for persons 15 years old or younger and will be subject to cancellation in bad weather.

The course is intended to teach new golfers the proper practices and manners expected of modern-day golfers. Maintenance of greens and fairways will include such points as proper replacement of divots.

Lowell Bynum, school band director, is attending a meeting of the Texas Music Education Association in Dallas Feb. 1-3.

## PGA Issues Handicaps

Area golfers who may wish to participate in West Texas Program golf tournaments or events during 1962 must submit scorecards and receive a handicap before March, Joe Coronado, Friona golf pro, announced Tuesday.

Golfers will not be permitted to participate in events without a Professional Golfers Association membership card, according to Coronado. Persons desiring a card must submit scorecards which must go to Lubbock for the computing and recording of an official handicap.

## Births Show High Population Rise

Population of Parmer County is increasing at a rate of almost 400 per cent faster than it is decreasing through natural causes, according to a comparison of county birth and death records.

A total of 150 births was registered with the county clerk during 1961. This is opposed to 39 deaths recorded in the county.

Only one set of twins was recorded last year while three sets were entered in 1960, Mike Allen and Michael Anthony were born to Paul and Mildred Joseph

on Feb. 3, 1961 in Parmer County Community Hospital.

The three sets of twins born in 1960 were among the 137 births that year. They were born on Jan. 11, July 9 and Sept. 3, 1960.

A considerable increase in marriages occurred in the last year. According to the record of marriage licenses, 90 certificates were issued in 1961. Only 66 were issued in 1960.

Nineteen divorces were also issued during the past year, according to court records.

## Hinkson Withdraws From House Race

Frank Hinkson of Lazbuddie has withdrawn from his race for a seat in the U. S. House of Representatives. He dropped out Friday of last week.

Announcement of his withdrawal came only about a week after he entered the contest, seeking the Republican nomination for the seat which is now held by Walter Rogers of Pampa, Democrat.

Hinkson has withdrawn in favor of Frank Seale of Amarillo.

His statement: "Since making my announcement as candidate for Congressman of the 18th District, subject to the Republican primary May 5, I have found there is a wave of conservatism already started; that many people are as concerned about our country's welfare as I am, and that I have found

that Mayor Seale is dedicated to the same principles of government as I am.

"Therefore I now withdraw my candidacy in favor of Mr. Seale and pledge to him all the support at my command, because I feel that my efforts for the cause of conservatism and the creation of a two-party system on the state of Texas will be more effective by supporting Mr. Seale.

"My future will be dedicated to the principles of individual initiative, responsibility, and freedom."

FRANK HINKSON

Hinkson said he had no regrets for having entered the race and then saw fit to withdraw. He expressed his appreciation to his Parmer County friends.

### Editorial Comment:

## Tax Cut Proposal

There is a way to reduce our taxes without cutting off, or limiting funds for military and other needed programs, or throwing the budget out of balance--if it is balanced.

Congressman Sydney Herlong, Jr., Florida, made a proposal which is aimed at accomplishing the following four points:

1) Reduce the first bracket of personal tax rates from 20 to 15 per cent and the top rate from 91 to 47 per cent in five stages. With corresponding reductions in all interim rates.

2) Reduce the top corporate rate of 52 per cent to 47 per cent in five stages also. Leveling the top rates will put owners of unincorporated business on an equal footing with corporation owners.

3) Reduce estate taxes from 77 per cent to 47 per cent and the top rate of gift tax from 57.75 per cent to 35.25 per cent. All lower rates of both taxes will be reduced in proportion.

4) Affect a 25 per cent reduction over a period of five years.

The proposed tax cuts should not result in red-ink spending by the government. Slated reduction would be postponed when it would create a danger of throwing the budget out of balance.

The money to provide for the reduction of tax rates will come from a simple change in the way the government operates.

Since 1955, the yield to the government from personal income taxes alone has grown from

\$30 billion to about \$43 billion, with no change in rates. During that period, personal incomes in dollar terms rose by a third, so that the government received on a silver platter an increase in revenue of \$13 billion.

Estimates for the next fiscal year that begins in July are that total revenue may be up as much as \$15 billion over the fiscal year recently ended, simply because of the growth in our national income.

Each single per centage point of gain in growth rate means \$1 billion in additional revenue, which is why the added money coming in from economic growth is such a very large sum.

Theoretically, this is how the proposal will work. You will get the cut in your tax rates by the government taking this spill-over each year and, through tax reform, making it available for growth in the private economy. The freed money will go into consumer purchases and plant expansion and research and development of new products which in turn will cause added employment, so that even though your taxes will be cut by at least 25 per cent, the government will receive more, not less, in total taxes.

When this is done, there is little reason why our economy should not move forward as fast as 5 per cent or more per year. Any growth rate above three and one-half per cent will take care of the step-by-step cutback in taxes over a five year period and still provide the government with ample funds--if give-away programs are kept within a reasonable range.

Editor  
The Friona Star  
Friona, Texas  
Dear Sir:

I just wanted to tell you how much I appreciated your last editorial concerning the rural telephone system at Friona. I sympathize highly with your feelings about the inefficiency of the present situation.

Having been raised at Friona all my life, I was very familiar with the situation before I ever left there. But now it is more irritating than ever, because if anything is happening that I feel I would need to call my parents about, I almost don't do it, feeling sure that if there has been any wind, the lines are down; or if one flake of snow has fallen, the lines are dead. Even in good weather, it usually takes as long as 30-45 minutes for the operator to make connections, because where else in this modern United States are there ten families on one party line? (I'm not wanting to take away their talking privileges because surely they have as much right to use anything so expensive as anyone else, but I am saying, "Why not two or three party lines for the same ten families?") Also, when we finally do make connections, we are almost sure to have to yell our heads off and "turn up our hearing aids" to be able to converse.

Again I say thanks for your editorial. If it will help, you may use any or all of this letter to plead your case.

Sincerely,  
Sandra Brock Roots

### E. V. Hartman Notes Birthday

Mrs. E. V. Hartman of Rhea honored her husband with a birthday dinner Sunday in their home.

Guests were Mr. and Mrs. Jack Clark, Jackie and Janice; Mr. and Mrs. Duane Baize, S.D., Dannie, Randy and Robin; Brenda Blackburn, all of Friona; Mr. and Mrs. Chris Clark of Hereford; Mr. and Mrs. Elmer Northcutt, Wanda and Tom of Garcia and Bill Page of Bellview, New Mexico.

At the stroke of twelve midnight, Dec. 31, "Old Father Time" quietly slipped away. But although a better record was left behind, the resounding echoes and visions of destruction, grinding metal bodies, crashing glass, torn and broken limbs and smashed lives will live long in the memories of several County residents.

The 1961 automobile accident

record in Parmer County is an expensive one, even though it is an improvement over the previous year's record.

For the entire year of 1961 in this county there were 94 crashes resulting in 2 persons killed, 48 injured and an estimated property damage of \$53,876.00. In comparison of the year 1960 there were 85 crashes resulting in 5 persons killed, 43 injured and an estimated property damage of \$83,115.00.

For the month of December the Texas Highway Patrol investigated 18 rural traffic accidents in this county according to Sergeant Roger Sosebee Highway Patrol Supervisor for this area.

These wrecks accounted for fourteen persons injured and an estimated property damage of \$11,951.00.

The veteran Patrol Supervisor cautions all motorists not to be guilty of negligence in permitting their windshields and window glasses to be covered with any form of frozen precipitation while driving. This enhances your chances of an accident many times.

Gary Snead flips the ball against the backboard for two points in the Tuesday game with Dimmitt. Snead stole the ball in mid court and raced for the Friona goal for a clear shot. Although the Chiefs played one of their better games of the year, they lost to the Bobcats 45-50. Dimmitt is now tied for first in the district. Bobby Daniel in the background was the only player close to the goal as Snead hit the basket.

## IRS Seeks Highway Use Tax Dodgers

A district-wide campaign by the Internal Revenue Service to make sure that owners of heavy trucks and busses have filed Federal Highway Use Tax returns covering the use of such equipment on the public highways, was announced by District Director Ellis Campbell, Jr., of the Dallas Internal Revenue District.

Director Campbell said that the Internal Revenue Service has gone to great lengths to obtain voluntary compliance with the Highway Use Tax filing requirements before resorting to enforcement measures. Various informational and publicity programs have been undertaken to acquaint owners of trucks and busses with the filing requirements so that they can avoid liability for penalties and interest, in addition to the tax, for failure to file or for late filing.

This campaign will utilize

various available leads to those who failed to file Highway Use Tax returns and is designed to assure that all owners of trucks and busses, whose use on the highways is subject to the tax, pay their fair share of the tax. Director Campbell said that the Highway Use Tax became effective July 1, 1956, and that the revenue derived goes back to the states in the form of Federal contributions to help pay the costs of the Interstate Highway System now under construction.

Truck and bus owners were urged to contact their nearest Internal Revenue Office for information on the Highway Use Tax filing requirements and to ask for Internal Revenue pamphlet, Publication No. 349, Revised, which contains information on the types and weights of vehicles whose use on the highways is taxable as well as on the due dates for

returns and the rate of tax. Highway Use Tax returns, Form 2290, can also be obtained at these offices.

The District Director said that another phase of the campaign calls for an audit of Highway Use Tax returns to assure that taxpayers are correctly reporting their use tax liabilities. This audit will be aimed at seeing that all taxable trucks and busses are reported in the returns and that they are reported in the correct taxable categories.

Director Campbell emphasized that returns covering highway use of vehicles at any time during July 1961 were due August 31, 1961, and that returns covering first use during December 1961 were due January 31.

Probably he who never made a mistake never made a discovery.--Smiles

### Rosco Ivies Return Home

Mr. and Mrs. Jerry White and Steve from Amarillo visited in the home of Mrs. Ella Faye Holcomb and girls for several days last week.

Mrs. Lucy Welch visited Saturday in Dimmitt with her daughter and family, Mr. and Mrs. Jack Miller.

Mr. and Mrs. Roscolvie have returned to Friona after spending several days at Baldwin Park, Calif., visiting in the homes of Mr. and Mrs. Jay Ivie and Mr. and Mrs. Irvin Henderson. Mr. and Mrs. Roscolvie have returned home with the Ivies for a brief visit.

son, Jay is the brother of Rosco and Mrs. Henderson is his sister. Mrs. Henderson returned home with the Ivies for a brief visit.

Scores of our present adult depositors first came here as children. Over the years we were able to help them in many ways, so eventually they sent us their children. Today, in some cases, we are serving as many as three generations of the same family, and planning to serve others yet unborn.

- FRIONA -

THE STATE OF TEXAS COUNTY OF FARMER

SHERIFF'S SALE

WHEREAS, on the 23rd day of August, 1961, in Cause No. 2170, in the District Court of Farmer County, Texas, wherein The State of Texas, Farmer County and High Plains Under-ground Water Conservation District Number One, City of Friona and Friona Independent School District, were Plaintiffs, Impleaded Party Defendants, recovered judgment against C. A. Sebolt, Charles Seabolt, S. A. Sebolt, Roy Hawkins, and the unknown husband or husbands and the unknown wife or wives of any of said parties and if any of said parties are deceased then their unknown heirs, assigns and legal representatives, and all unknown claimants, Defendants, for taxes, penalty, interest, and cost against the hereinafter described property;

which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, which ever is lower, subject also to the right of the Defendants to redeem same in the time and manner provided by law and subject also to the right of the Defendants to have said property divided and sold in less divisions than the whole.

DATED at Farwell, Texas, this the 29th day of December 1961.

Chas. Lovelace Sheriff Farmer County, Texas By Tom Atkins, Deputy Published in The Friona Star January 18, 25 and February 1, 1962

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS

No. 2216 Notice is hereby given to whom concerned that the application of HARLAND H. FRYE, the post-office address of whom is Star Route, Hereford, Texas, was received on the 4th day of December, 1961, in the office of the Board of Water Engineers of the State of Texas. Applicant seeks a permit to appropriate from the unappropriated waters of Frio Draw, a tributary of the Red River in Farmer County, Texas, 444 acre feet of water annually for the irrigation of 1765.2 acres of land in the Capitol League Survey No. 468, Farmer County, Texas, and 48 acre feet for livestock; and to construct a reservoir with a capacity of 492 acre feet, all being more fully set out in said application.

The proposed dam is located at a point which bears N 3 degrees 13' 06" W 920.98 varas from the southeast corner of the Capitol League Survey No. 468, on Frio Draw in Farmer County, Texas, and is distant in a southeasterly direction from Black, Texas, about three (3) miles.

Said application was accepted for filing by the Board of Water Engineers on the 8th day of January, 1962, as Application No. 2216 and a hearing thereon will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Tuesday, February 27, 1962, beginning at ten o'clock a.m., at which time and place all parties interested may appear and be heard. Those opposing the granting of said application

should file written protests with the Board and the applicant at least five days prior to hearing date, giving their reasons therefor and such other information as is required by Board Rule 305.2. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers of the State of Texas, at the office of the said Board at Austin, Texas, this the 8th day of January, 1962.

Joe D. Carter, Chairman STATE BOARD OF WATER ENGINEERS

Attest: Audrey Strandman, Asst. Secretary Published in the Friona Star January 18, 25, and February 1 and 8.

THE STATE OF TEXAS COUNTY OF FARMER

SHERIFF'S SALE

WHEREAS, on the 23rd day of August, 1961, in Cause No. 2169, in the District Court of Farmer County, Texas, wherein The State of Texas, Farmer County, High Plains Under-ground Water Conservation District Number One, City of Friona and Friona Independent School District, were Plaintiffs, Impleaded Party Defendants, recovered judgment against Sarah D. Olson, her unknown husband or husbands, and should she be deceased, her unknown heirs, assigns and legal representatives, and all unknown claimants, Defendants, for taxes, penalty, interest and cost against the hereinafter described property;

WHEREAS, on the 29th day of December, 1961, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law the hereinafter described property;

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof I did on the 29th day of December, 1961, seize and levy upon as the property of the above defendants the following described property, situated in Farmer County, Texas, to-wit:

ELECTRONIC CONTROL has been applied to bacon slicing next time you open a package, see if the end slice is of different thickness from the others. Allbright-Neil says that final slices are gauged electronically to make the exact weights for half-pound, pound and two-pound packages. And it's automatically done in less than one-twentieth of a second. . . . FIVE THOUSAND lives usually lost in auto accidents will be saved annually by 1973 due to the improved design of the superhighways which make up the U.S. interstate highway system, says the U.S. Bureau of Public Roads. The system, which will link all major population centers, will be completed in 1972.

Something To Think About

5th. Street Church of Christ Box 515 -- Friona, Texas

The blank space above is a picture of the people we are looking for. They are the people who are not there. They are not a bad sort of people we're seeking. They are not atheists, they are not immoral, they are not crooks. In fact they are some of the most respected people in the community. They are good neighbors, they work hard and try to meet their responsibilities. But they are just not there when it comes to the spiritual involvements of life. They are either very indifferent about their souls, or they are so confused by the mass division in modern religion that they are actually skeptics. Not that they deny God, but until they find something better than they have experienced thus far, they will just reject all of it. We want to make a special appeal to all these people to attend our gospel meeting that will begin Sunday, February 4th and continue through the 11th. We promise you nothing but the gospel of Christ, presented in the spirit of Christ. Dr. F. W. Mattox, our guest speaker, will thrill you with his presentation of this gospel. Come and study with us.

Come To Church Sunday VINE AND BRANCH "I am the Vine, ye are the branches; He that abideth in me, and I in him, the same bringeth forth much fruit for without me, ye can do nothing" (John 15:5) Here is emphasized our utter dependence upon God--"Without me, ye can do nothing--" Also the interdependence between God & man is stressed--"He that abideth in me, and I in him," in the same chapter in John, Jesus emphasized that the branch which is disconnected from the vine would bear no fruit even as those of us who do not remain in Him can do nothing. If we cannot bear fruit without God, reverently we could say, that He cannot carry on His work here on earth, unless we, the branches permit ourselves to be used by Him as His humble instruments. God uses human instrumentality to accomplish His purposes in the world. Let us rightly relate ourselves to the true vine that we might bear fruits of the Spirit befitting one created in His image. Hubert Reeves Music and Education Director First Baptist Church

# Defendant Collapses In Court

A defendant collapsed in County Court last week just before Judge Loyde Brewer passed judgement.

C. E. Altman, Lubbock, was being tried on charges of non-support of child Jan. 23. Shortly before the judge prepared to render judgement, he asked permission to sit. His request was granted.

"He slumped down and turned as white as a dead person," Judge Brewer said.

A doctor was called and Altman was found to be suffering from very low blood pressure. The Texico Fire Department was called for Oxygen equipment. Altman was then removed to the nearest hospital in Clovis for treatment.

Judgement of one day in jail and a warning was entered.

Altman was facing the first charge under a relatively new law which makes first offense a misdemeanor and does not provide for a fine. The second offense becomes a felony.

Lions Club members trooped through business establishments in Friona Saturday in an effort to sell poll tax receipts to every eligible person in town. Above, Marion Fite fills out

HIGHLIGHTS AND SIDELIGHTS--

## Escheat Question Nears Settlement

AUSTIN, Tex.--Gov. Price Daniel's long fight over reporting unclaimed property to the state for escheat has ended at last.

So has the argument over rural roads policy.

But the scrap over the question of what to do about regulating loans, interest rates and lenders is not yet settled. And it may not be for a long, long time.

The Legislature has settled the escheat and road policy questions. Also it has partially solved the advertising program for tourists, juvenile parole and repair of the San Jacinto Monument.

Money problems were eased when Comptroller Bob Calvert estimated that the escheat reporting law passed last year will yield at least \$300,000 during the next 20 months. He put no estimate on the bank reporting law just laid on Governor Daniels' desk for certain signature into law.

When the Legislature meets, growing Texas brings a pack of problems to Austin for it to solve.

High Plains irrigation farmers are quarrelling with their gas company. They want its rates regulated. Sen. Andy Rogers of Childress and Rep. H.G.

Wells of Tulia tussled a bill through both houses to let the farmers appeal to the Railroad Commission, just as cities can do, if the gas company increases its rates.

San Angelo and Edinburg got favorable reports from the Commission on Higher Education on making San Angelo College and Pan American College, now locally supported, part of the state system of colleges in 1965.

They came to Austin to get the Legislature to pass the necessary laws, and make the state take over support of the colleges. House of Representatives went along with both proposals.

But Sen. W. T. Moore of Bryan, down in A & M country, thinks Texas has enough state colleges already. So, he used the filibuster to fight the two new college bills to a standstill.

WAY TO ROADS PAVED--State Highway Commissioner Herb Petry Jr. complimented the Legislature on passage of the Farn-to-Market Road bill. He announced new projects as soon as Governor Daniel's signature was on the bill.

The Commission approved \$135,000 worth of surfacing work on highways in Cameron and Hidalgo counties and an

\$82,000 highway contract in Cameron County. Within the next 60 days they will try to schedule more than \$1,000,000 of work on US 83 in the Valley and \$500,000 for road work in the Valley.

Senators Bob Baker of Houston and Neville Colson of Navasota appeared before the Highway Commission to urge approval of a four-lane highway between Hempstead and Houston. The Senators reminded the Commission that they had helped pass the road bill which frees funds for primary roads.

NO RELIEF IN SIGHT--Many legislators were hoping to go home at the end of the week, but as soon as they processed pending bills, other bills were submitted.

At the end of the week, Governor Daniel submitted additional subjects: Authority for the Texas Employment Commission to enter into a compact with other states; financing of

the Texas Securities Commission; an appropriation to the Department of Banking; and amendments to the Penal Code.

House members held a Friday session for the first time this month, and resigned themselves to working right through the last of the 30 days of the called session.

INEQUITIES STUDY PROPOSED--Rep. W. S. Healy of Paducah introduced a resolution that the House Committee on Privileges, Suffrage and Elections study election "inequities" in the Constitution, and report its findings to the next legislature.

Healy said he didn't think it fair that while the law requires district and county officials to resign upon announcement of their candidacy for another office, it does not require this same action by all state officials.

COBB JOINS INDUSTRIAL GROUP--Bill B. Cobb of Austin, who has been serving as chief examiner of the Legislative Budget Board, will leave that post on February 1.

Harry W. Clark, executive director of the Texas Industrial Commission, has picked Cobb as his assistant.

In keeping with recommendations made by the Texas Research League, Cobb's prime duty will be to organize and design research projects, supervise community development efforts and direct the advertising program of the industrial commission.

A ROSE BY ANY NAME--Don Yarborough, Houstonian who is supposed to have liberal backing in Harris County and labor support on a statewide basis, told Capitol newsmen he will run for governor. U. S. Senator Ralph Yarborough, who was supported by liberals in two gubernatorial campaigns, decided not to enter this race.

Candidates already in the race include Democrats Will Wilson, Marshall Formby and John Connally and Republican Jack Cox.

District Judge Otis T. Dungan of Tyler paid the State Democratic Executive Committee the \$1,000 filing fee and became a candidate for Judge of the Court of Criminal Appeals. Judge W. A. Morrison of Austin, now serving on the high court, is his only opponent so far.

The committee received \$800 filing fees from: L. B. Hightower of Beaumont, running for re-election as Chief Justice of

### Farmers Union Plans Trip To Washington

Texas Farmers Union's president, Jay Naman, announced today that Texas farmers will have the opportunity to join the annual Washington bus trip leaving Texas for Washington, February 1st for a five-day visit in the nation's capitol. The bus, originating in Lubbock, will pick up passengers from different areas in Texas as it travels across the state, and after stop-overs in Mississippi and Alabama en route, will arrive in Washington on Sunday, Feb. 4th.

The purpose of this bus trip is to give Texas farmers an opportunity to see first-hand the operation of the Department of Agriculture, and the behind-the-scenes activity in the Congress. Bus trippers will have the opportunity to visit with their Congressmen and discuss with them legislation which will be considered during this session, and express their viewpoint on the grass roots opinion regarding farm legislation. Some Congressmen, who have voted against necessary farm legislation in the past, may be surprised to see that their farmers constituents are "looking over their shoulders," president Naman said.

**Congressman Doubts 'Balance' Of Budget**

On January 18th the Congress received the Budget Message of the President of the United States for Fiscal Year 1963. The 1963 Fiscal Year begins on July 1, 1962 and ends on June 30, 1963. The Budget Message reflected a balanced budget for 1963. However, it is well to note that very few budgets have ever been presented to the Congress in which balance was not claimed. It might also be noted that the final result was an unbalanced budget. In the past 16 years there has been a deficit 10 times. Deficit spending has been the order of the day 8 years out of the past 11. The year 1959 produced the highest peacetime deficit in the history of this country. This, together with prior deficits, continued to push up the public debt to near the three hundred billion mark. Another increase in the national debt will be requested. We cannot continue to operate on a deficit. It should not have been permitted as many times as it occurred in the past. There are times when deficit spending is necessary for the protection of our country. But in peacetime when we have the abundance that we enjoy in this country, recovery should be made to offset

the deficits created during wartime. This has been a controversial issue every step of the way, and will continue to be a controversial issue. An analysis of the Congressional votes on spending matters will reveal that a substantial minority has consistently voted for an actual balanced budget rather than a proposed balanced budget. Had those of us who have strongly advocated an actual balanced budget every year been successful, there would be no need for a requested increase in the public debt. One of the main reasons that we in this country have suffered from deficits is the aged-old problem of greed. There are too many people who are willing to cut Federal expenditures so long as it does not personally affect them, their community, or their State. The result is deficit spending. If it is to be cured, every area of this country and every segment

of its economy should take a long, hard look at its past fiscal policies, its requirements, and its demands, and come forward with some realistic and effective reduction proposals. The Congress should, in my opinion, authorize the appropriations committees to assign employees of the committees to work along with the bureaus, boards, and the agencies when they are preparing their budgets. These employees should be able to produce a documentary story that will result in measurable cutbacks in many of the departmental areas. If the appropriations committees cannot or do not desire to so proceed, a separate budget committee should be created to make a continuing and constant evaluation of the requests of the many, many departments of the government in their budget requests. It is my opinion that a full and complete story on this subject would afford the Members of Congress with sufficient information to effectively save several billion dollars a year. In addition to this, the Congress should adopt legislation requiring a fixed fund to be set aside out of revenue each year and

to be paid on the public debt. It must be realized that to be effective, such a practice presupposes a balanced budget. As for the present proposal, you will be interested to know that in the 1962 Federal Budget, which was the last budget of President Eisenhower, the tax dollar was divided as follows:  
 Where it comes from . . . 55¢ Individual Income Taxes, 25¢ Corporation Income Taxes, 12¢ Excise Taxes, 8¢ All Other.  
 The first Budget Message of President Kennedy divides the income and expenditures as follows:  
 Where it comes from . . . 53¢ Individual Income Taxes, 28¢ Corporation Income Taxes, 11¢ Excise Taxes, 8¢ All Other Receipts.  
 Where it goes . . . 63¢ National Defense, International, and Space, 10¢ Fixed Interest Charges, 6¢ Veterans, 6¢ Agriculture, 6¢ Health and Welfare, 9¢ All Other.  
 The difference in allocations is not unusual, as there are no definite fixed divisions of expenditures.  
 Walter Rogers

THE STATE OF TEXAS  
 COUNTY OF PARMER

SHERIFF'S SALE

WHEREAS, on the 23rd day of August, 1961, in Cause No. 2168, in the District Court of Parmer County, Texas, wherein The State of Texas, Parmer County, High Plains Underground Water Conservation District Number One, City of Friona and Friona Independent School District were Plaintiffs, Impleaded Party Defendant, reconverted judgment against Guy Hanks, W. R. Sherley, William R. Sherley, W. M. Sherley and Larua L. Wentworth, his unknown wife or wives, and her unknown husband or husbands, and if any of said persons are deceased then their unknown heirs, and legal representative and all unknown claimants, Defendants, for taxes, penalty, interest and cost against the hereinafter described property;

WHEREAS, on the 29th day of December, 1961, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law the hereinafter described property;

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof I did on the 29th day of December, 1961, seize and levy upon as the property of the above defendants the following described property, situated in Parmer County, Texas, to-wit:

(Said description showing the number of acres, original survey, locality in county, and name by which said property is most generally known.)

FIRST TRACT:  
 All of Block 105, Original Town of Friona, Parmer County, Texas, as shown by Plat of said Town of Record in the Deed Records of Parmer County, Texas.

And I will on the first Tuesday in the month of March, 1962, the same being the 6th day of said month, proceed to sell all the right, title, and interest of the Defendants in and to said property at the Court House door of said county in the city or town of Farwell, Texas between the hours of 10:00 a. m. and 4:00 p. m. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, which ever is lower, subject also to the right of the Defendants to redeem same in the time and manner provided by law and subject also to the right of the Defendants to have said property divided and sold in less divisions than the whole.

DATED at Farwell, Texas, this 29th day of December, 1961.

TRAPPING IN OHIO LAST YEAR ACCOUNTED FOR 403,000 OF ALL FUR BEARERS CAUGHT. RECOMMENDED WAYS OF TRAPPING: AT LEFT IS THE SLIDE SET-- SET IN SEVERAL INCHES OF WATER WHERE A MUSKRAT ENTERS OR LEAVES WATER TO FORAGE ON BANK. DIG A BED SO IT RESTS LEVEL WITH GROUND. COVER WITH GREEN GRASS.

**Rites Conducted For Mrs. Couch**

Services were conducted for Mrs. R. N. Couch of Pecos recently. She was the mother of Mrs. Mary Kate Zeman of Friona.

Mrs. Couch died following a long illness. She was buried in the Fairview Cemetery under the direction of Pecos Funeral Home.

Prior to her illness, Mrs. Couch, 79, was active in the Presbyterian Women's group, Eastern Star and Parent-Teacher Association.

Other survivors include one son, J. E., of Reeves county and three grandchildren.

Rudolph Welch from Arizona was a guest of his aunts, Mrs. Lucy Welch and Mrs. Nora Welch, and other relatives this week.

THINK YOU lost mental ability as you age? Well, University of Washington researchers have taken pot shots at this venerable assumption. A 12-year study conducted at the school indicates that there may be no particular decline in the I.Q. of elderly persons who remain healthy and vigorous and that a drop in intelligence probably isn't part of the aging process at all. . . CALIFORNIA has more autos 7,800,000 than 43 of our states have people.

DON'T IMPED PROGRESS IF YOU MUST KICK TOWARDS THE GOAL.

DON'T NEGLECT BRINGING YOUR car in for regular lubrication and oil changes. Winter driving is hard enough on a car that's in the best of condition. You'll like our service!

Su-Zan Harper goes up for a jump shot as a Dimmitt Bobbie makes a futile effort to block the two point try. Miss Harper was the high Squaw scorer of the game with 16 points. Janet Buckley and Pam Roden were second with 14 points each. The score was tied at 25-25 at the end of the first half but a series of bad passes gave the Bobbies the chance to snatch the lead and win the game, 49-60.

**Daniel Names FB Week**

Governor Price Daniel has proclaimed the week of Feb. 4-10 "Farm Bureau Week" in Texas and has called upon citizens of the state to co-

operate in the recognition and observance of the week "to publicize this important phase of our Texas life."

Mr. and Mrs. Herbert Garth spent the past weekend at Longview, Texas, visiting in the home of their son, Mr. and Mrs. Chester Hunt and family.

Membership drive activities by county Farm Bureaus over the state will be concentrated during the special week, according to Millard Shivers of Waco, Texas Farm Bureau organization director.

**43 Pay \$12,643**

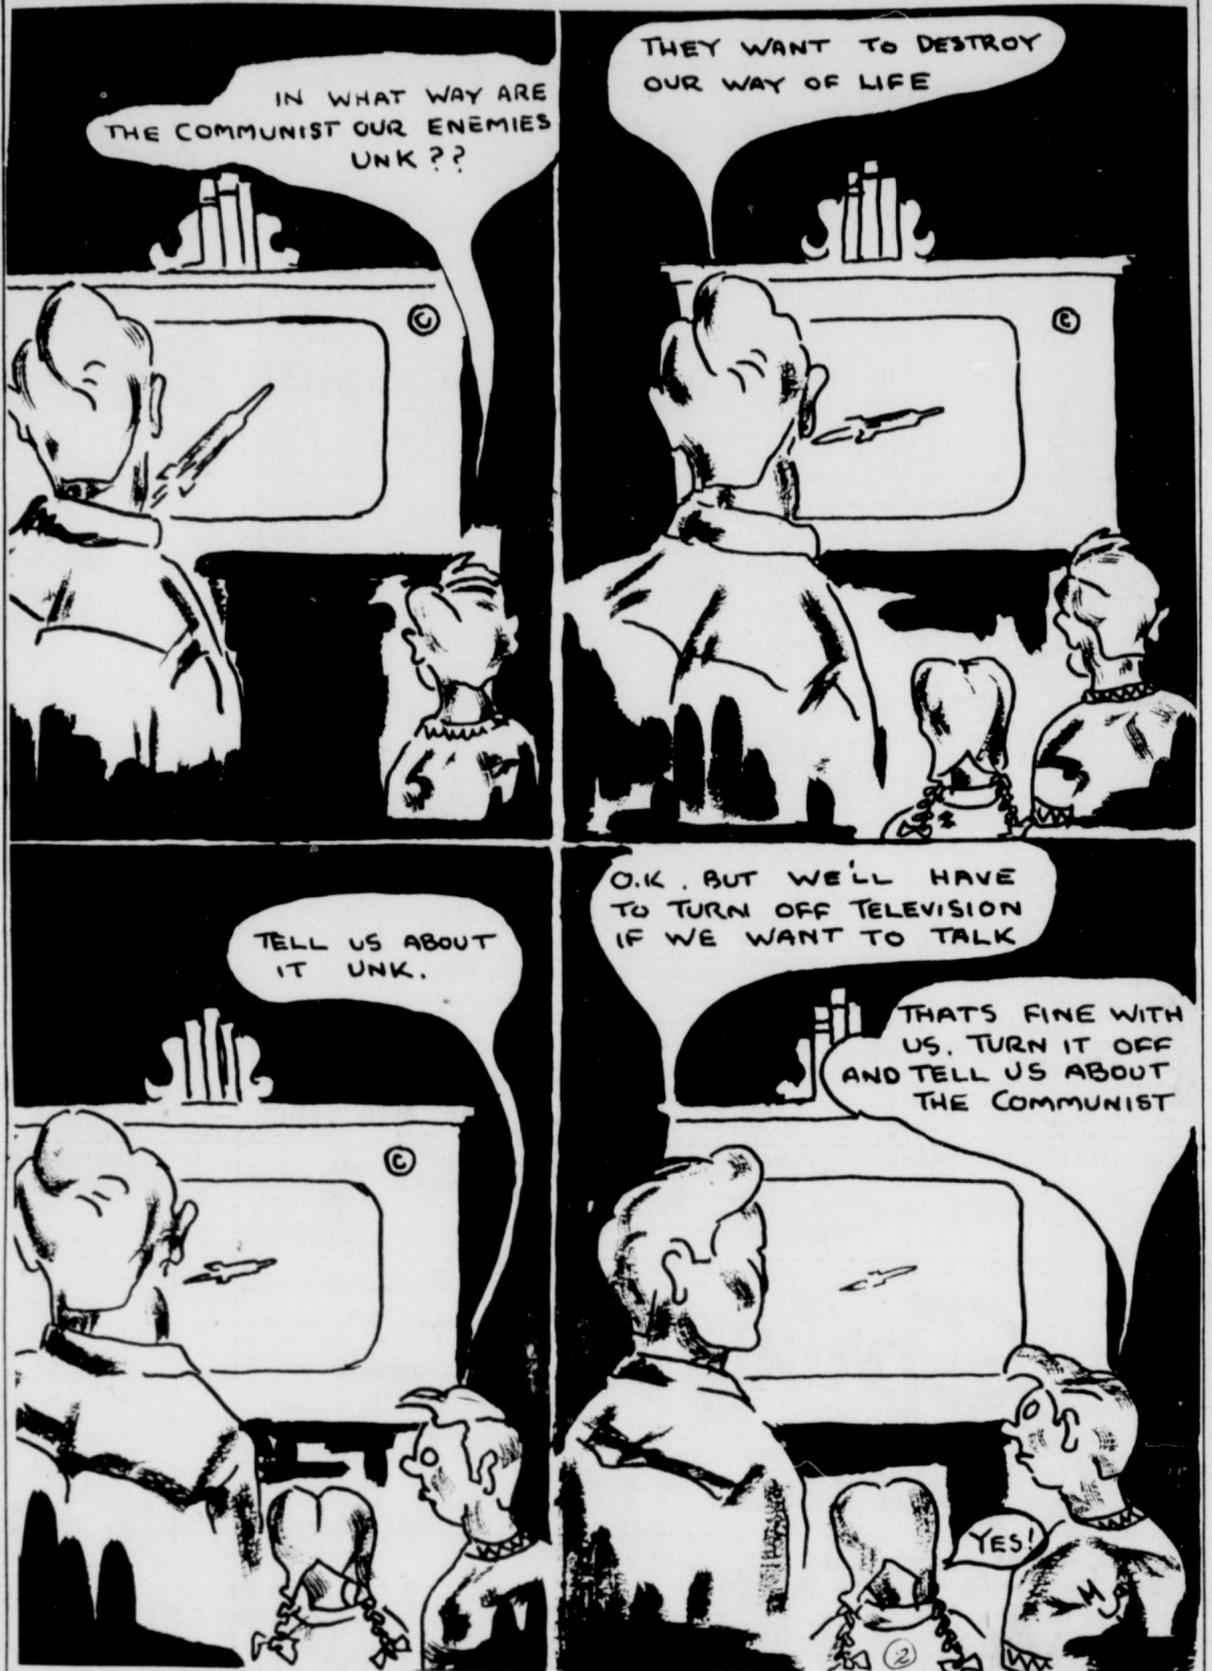

A total of \$12,643.68 was deducted from the wages and salaries of 43 Parmer County officials and employees in 1961 for income tax purposes according to county records.

The income for the 43 persons was recorded at \$125,745.60, for the year. This indicates an average income tax deduction at slightly over 10 per cent.

### Bridal Shower Honors Miss Erma Lou Drake

Saturday afternoon, the home of Mrs. Kenyth Cass was the scene of a miscellaneous shower honoring Erma Lou Drake, bride-elect of Jerry Brown. Assisting Mrs. Cass with hostess duties were Mesdames Ralph Shelton, Forrest Osborn, Guy Latta, Jean Anthony, J. H. Boyle, Bill Baxter, James McLean, O. C. Jones, Clyde Weatherly, Mack Balmum and Floyd Rector.

Guests were introduced to Miss Drake, her mother, Mrs. Arthur Drake, her grandmother, Mrs. A. O. Drake and Mrs. R. V. Brown, mother of the prospective bride-groom, and were registered in the bride's book by Mesdames Shelton, Osborn and Balmum. The registry table was centered with a white vase holding red rose buds and red velvet pierced heart.

The bride-elect's chosen colors of red and white were also

used in other decorations. A white Italian lace cloth covered the serving table centered with red and white carnations arranged in a tiered silver compote. Silver and china appointments completed the setting. Attending were Mesdames Henry Lewis, Earl Drake, A. W. Anthony, Estis Bass, Sloan Osborn, Russel O'Brian, W. S. Ingram, Marion Fite, J. G. McFarland, Frank Spring, Raymond Milner, Wesley Hardesty, J. D. Sanders, Dorothy Hough, W. H. Kirby and Ernest Anthony.

Also Mesdames Fay Reeve, Elmer Euler, Roy Slagle, W. H. Ford, W. C. Osborn, J. E. Knight, Ray Castleberry, Arthur Drake, A. O. Drake and Misses Peggy Drake, Jimette McLean, Betty Drake, Lola Goodwine, Gayle Knight and Linda Rector.

Out of town guests were Mesdames Treva Reece, Canyon; Jim Reece, Amarillo; Gid Brown, Hereford; L. E. Minor, Hereford and Bill Maddox and Steven, Lubbock; Frances Howard, Abernathy; R. V. Brown, Levelland and Misses Linda Latham, Earth and Adelle Smith from Denton.

### Dinner-Bridge Honors Couples

Mr. and Mrs. David Carson were hosts for a dinner and bridge party in their home Saturday evening.

The serving table was decorated with an arrangement of white and red carnations and red tapers in a silver compote and candelabra combination. The valentine theme was also used in other decorations.

Attending were Mr. and Mrs. Hollis Horton, Mr. and Mrs. Newman Jarrell Jr., Mr. and Mrs. Bill Sheehan, Mr. and Mrs. Martel LeVeque and Mr. and Mrs. Tom Caldwell from Bovina.

Mrs. Caldwell won high score.

### Jim Carlsons Have Baby

Celena Faye, new baby daughter of Mr. and Mrs. Jim Carlson, of Amarillo, was born Friday, January 26, at 4:15 a.m. in the North West Texas Hospital.

She weighed seven pounds and four ounces. The Carlsons also have a little boy, Kevin.

The baby's grandparents are Mr. and Mrs. W. S. Crow of Friona and Mr. and Mrs. M. Stroble from Arlington, Minn. Great-grandparents are L. M. Crow and Mrs. J. M. Bradley of Friona.

## Of Interest To THE WOMEN

### Mrs. Anthony Hosts Kolwvia Circle

Members of the Kolwvia Circle of Friona Methodist Church met in the home of Mrs. Ernest Anthony January 24 for their regular meeting.

Mrs. Eugene Ellis, circle leader, conducted the business session and read the prayer calendar. Opening prayer was given by Mrs. Dick Rockey. Mrs. J. G. McFarland, program leader, continued a study of the program topic "The Churches and Public Affairs."

Others participating in the study were Mrs. R. N. Gore, presenting, "Social creed of the Methodist Church"; Mrs. Andy Hurst, "Social problems and the usual functions of the church"; Mrs. Ellis, "Church's demonstration by example." "Other Faiths" was given by Mrs. Kenyth Cass.

Mrs. Anthony served coffee bread, coffee and tea to Mesdames Bill Baxter, Cass, Ellis, Gore, Hurst, Jerry London, J. G. McFarland, Russel O'Brian, Dick Rockey, Ralph Shelton, J. W. Baxter II and Wallace Kirby.

Mr. and Mrs. Odell Schooley of Friona visited recently with Mr. Schooley's mother, Mrs. S. A. Schooley, of Hale Center. Their sons, Roger and Johnny, returned to Friona with their parents, after spending a week with Mr. and Mrs. W. C. Wright to finish the school term at Hale Center. The Schooleys recently moved from Hale Center.

### Study Club Presents "A Time To Read"

Program topic for the January 23 meeting of Progressive Study Club members was "A Time to Read," using the quotation "Kindness is the golden chain by which society is bound together," by Goethe.

Mrs. Lowell Bynum gave the devotional followed by the business session.

Musical selections presented were "Wild Horseman" - Schuman by Mary Margaret Sheehan and "The Happy Farmer" - Schuman given by Kathleen

Sheehan. They also played two piano duets, "I'll Take You Home, Kathleen" - Westen Dorf and "Skeeter Dance" - Kennedy. Kathy Anderson, student of Mrs. Stanley Bengel, presented "Amaryllis" by Walter Rolfe.

Mrs. Hollis Horton discussed United States Foreign Aid Policy and Mrs. Marty Martinez spoke on U. S. S. R. Foreign Aid Policy.

Hostesses, Mrs. Lee Spring and Mrs. M. C. Osborn, served refreshments to those present.

### Friona Women Attend Initiation Ceremony

Delta Xi Chapter of the Delta Kappa Gamma Society met January 20 at 11 a.m. at the Here-

ford Country Club for its annual initiation service. New members from Friona being initiated were Mrs. Juanez Green and Mrs. Ethel Bengel.

### Shower Honors Erma Lou Drake

The home of Mrs. Hoyt Smith was the scene for a lingerie shower honoring Erma Lou Drake, bride-elect of Jerry Brown, Friday afternoon from three to five.

Hostesses were Adelle Smith, Mrs. Gary Brooks and Mrs. Thomas Gibson.

Cold drinks and cookies were served from a table covered with a red linen cloth centered with a white miniature bride.

Attending and sending gifts were Mrs. Dwayne Cassels and Jeffery, Mrs. Loyd Chesser and Cindy, Mrs. Wayland Hinds, Mrs. Edward Allen, Mrs. Jack Fulgham and Misses Sally Hough, Virginia Fulks, Betty Drake, Beth Akens and Jimette McLean.

### Rachel Jane Roots Born January 22

Mr. and Mrs. L. C. Roots of 5001 N. Oak Trafficway, Kansas City, Mo., became parents of a daughter, Rachel Jane, January 22, 1962, at 4:15 a.m.

Her weight was 6 lbs. and 15 ozs. and she was 19 inches long.

### Party Honors Mrs. Wright

Mrs. Jarrell Wright was guest of honor at a surprise birthday party in the home of Mr. and Mrs. John Wright January 24.

Following a session of table games birthday cake, a gift from Mrs. Ross Terry, ice cream, mixed nuts, mints, coffee and tea were served by the hosts to the honoree and Mr. and Mrs. Loyd Stephens, Darrell and Keith from West Camp; Virginia and Dorothy Hickman, Muleshoe; Dale Smith, Jere Buske, Larry Moyer, Mr. and Mrs. Veldon Carroll, Mr. and Mrs. Jimmy White, Mr. and Mrs. Jim Roy Clements, Mr. and Mrs. L. R. White and Max and Jarrell Wright.

### Farewell Coffee

### Fetes Gnsburgo

Mrs. Bob Ginsburg and Mrs. R. W. Ginsburg were feted with a coffee Thursday morning in the home of Mrs. Lucy Welch. The Ginsburg families are planning to move to Richardson soon.

Mrs. Steve Struve assisted Mrs. Welch with hospitalities.

Nut and fruit breads, nuts and coffee were served to Mesdames Calvin Talley, Richard Adkins, Raymond Euler, Waymon Wilkins, Ernest Anthony, Hoyt Smith, Presch Collier, Ella Faye Holcomb, Loyd Shackelford, Claude Miller and the guests of honor.

### Club Members Study Poll Tax & Voting

Lazbuddie Home Demonstration Club met Thursday afternoon in the home of Mrs. Dean Powell, for a program stressing the importance of the poll tax and voting.

Mrs. Joe Briggs, president, conducted the business meeting. A council report was given by Mrs. Raymond McGehee and recommendations of Farmer county H. D. council were discussed and approved.

"Your Poll Tax and You" was presented by Mrs. Demp Foster. She gave the history of poll tax and how the money is spent. Also qualifications of a voter in Texas.

Mrs. Everett McBroom discussed voting in Farmer County, presenting figures and giving names of candidates that have announced for offices in the next election.

Mrs. Powell served cake and coffee to Mesdames Scotty Windham, Albert Clark, Roy Miller, McGehee, Briggs, McBroom, Foster and one guest, Mrs. Gene Stepp.

February 9 will be the date for the next meeting in the home of Mrs. Harvey Blackstone, Mrs. Ettie Musil will present a program "Pruning trees and shrubs."

### Davis Daughter

### Born Monday

Mr. and Mrs. Bob Davis of Lubbock became parents of a baby girl January 22 at 2:50 a.m. in the Methodist Memorial Hospital.

She weighed six pounds and ten ounces and resides at 1626 8th St. in Lubbock. Her name is Margo Lynette.

Grandparents are Mr. and Mrs. Buster Davis and Mr. and Mrs. T. C. Gardner all of Friona. Her great-grandmother is Mrs. Addie Senter of Dimmitt.

Mr. and Mrs. Clyde Redwine

# P.C.A. Official Predicts Excellent Year In '62

An excellent outlook for agricultural credit in 1962 for an eight-county area of the High Plains has been forecast by an official of the Plainview Production Credit Association, in a report of 1961 activities of the agricultural credit organization, made this week.

"Credit outlook for 1962 is excellent," Olan Alexander, general manager of the Plainview Production Credit Association, stated. "Our farmers in this area made one of the best crops in history and are in the best financial position they have been in a long time."

Alexander said that most of them are investing profits in land and new equipment and ex-

panding their farming operations.

"We are expecting to loan between forty and forty-five million dollars during 1962," he said.

The Plainview Production Credit Association, the nation's largest in loan volume, had one of its brightest years in 1961. Loan volume totalled 37,000,000 which was then an all-time record for the association.

Number of loans increased from 1,585 in 1960 to 1,589 in 1961. Association stockholders increased from 1,685 in 1960 to 1,742 in 1961.

The association has loaned \$206,912,900 to area farmers and ranchers in its 28-year history.

The home-owned and operated Plainview Production Credit Association provides short and intermediate-term agricultural credit in Parmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale and Floyd counties, Alexander pointed out that the \$37,000,000 in loans made by the association in 1961 represents new money put into circulation in the area, providing a healthy boost to the area's economy.

## County 4-H Council Has Saturday Meet

Meeting Saturday in Farwell were members of the Parmer County 4-H Club Council.

Announcement was made that the county demonstration contest will be in the district court room March 31 starting at 9 a. m.

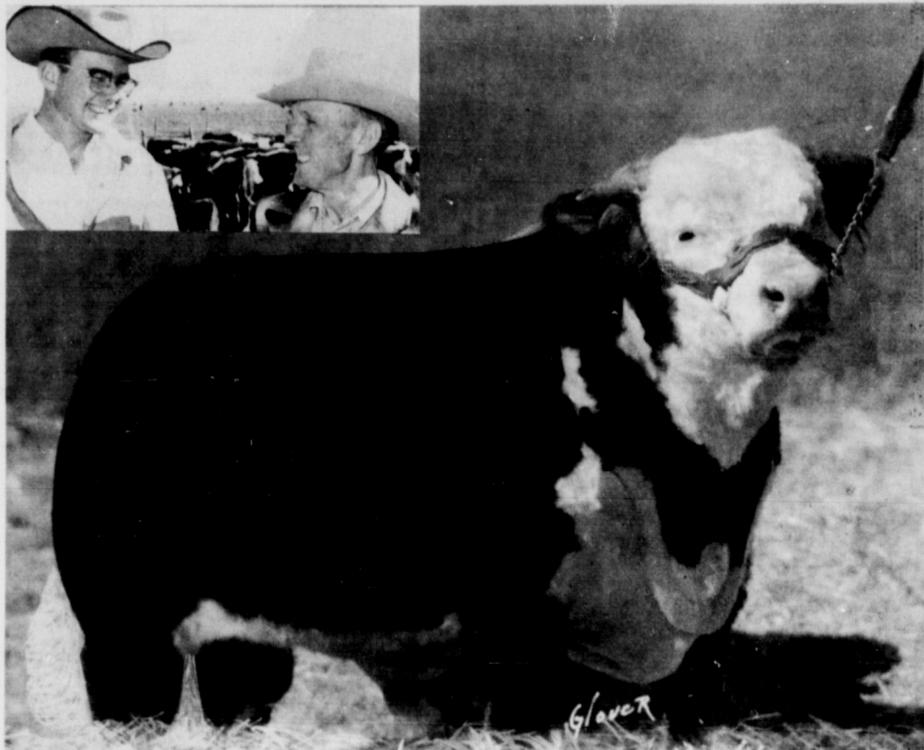

A bake show will be conducted the third Saturday in April. Boys interested may enter the baking contest. Members of the Farwell chapter are to enter two - crust pies and sweet milk biscuits in the contest.

The group agreed to take donations for the March of Dimes and to pay for two clippers and a tack box out of the council treasury.

4-H Clubs in the county will also sell new subscriptions and renewals to all the county newspapers.

Members present were Gary Foster, Darrel Foster, Reba Lesly, Bruce Billingsley, Bobby Tomlinson and Glenda Bass.

# THE HIGH PLAINS FARM AND HOME

Silver Mischief 171st, son of one of the Hereford Breed's most outstanding herd sires, Real Silver Domino 181st, was purchased jointly by McCrackin and Son of Bovina and Elmer Langford and Son of Pleasant Hill on Dec. 11, Jack McCracken (L) and Elmer Langford are pictured in the inset above. The bull was one of 65 offered at the Bridwell Hereford Ranch production sale near Wichita Falls which averaged \$3,050 each. The price paid for Silver Mischief 171 is reported to have been well above the average. At about 13 months of age 'The 171st' weighed 1,175 pounds. He is light colored, exceptionally thick and stands on straight legs. Outstanding cattlemen from many areas pointed to the McCracken-Langford bull as one of the better herd bull prospects offered in 1961. His time will be divided between the two breeders in six month periods.

## Cotton Support Price Announced

Price support levels for 1962 crops of cotton has been announced by Secretary of Agriculture Orville L. Freeman.

The minimum national average support price for upland cotton will be 31.88 cents per pound, gross weight, the same as last year. This reflects approximately 82 per cent of the current parity price. For extra long staple cotton, the price will be 53.17 cents per pound, net weight, and 65 per cent of current parity price.

In the event the minimum level of support for upland or extra long staple as required by law on the basis of parity as of the beginning of the marketing year is higher than the level announced, the level of support will be increased accordingly, the secretary said.

Off-flavor in reconstituted nonfat dry milk can come from water. Scientists of the Texas Agricultural Experiment Station point out that water may be safe to drink but of a type which can cause off-flavor in the reconstituted milk.

## WITH THE COUNTY AGENT

DERYL COKER

Last week I stopped by Jack McCracken's place and caught him feeding cattle. While I was there, I looked at his new herd sire that Jack obtained from the Bridwell Ranch. Jack had been bragging about him, and after I looked, I knew why. He sure is a good calf, about 14 months old and weighs around 1100 lbs. He is of the right type and will be a big asset to the county.

Wilbur Kalbas was in last week with some alfalfa wafers. Wilbur is thinking about putting all of his alfalfa in wafers instead of baling, which is normal. On one analysis that Wilbur had looked at protein had been raised as much as 4 per cent, which is a great deal. Wilbur also said it would cut down on labor, which will be a big advantage. This could be a new wrinkle in feeding cattle.

The A&M College has developed some new varieties of grain sorghum. They are called the 3x4 dwarf hybrids and could mean a new revolution in grain sorghum production. There are

some 8 to 10 of these 3x4 dwarf hybrids which have produced as much or more than RS 610. They seem to stand much better than any hybrids grown in the past and they are resistant to head smut. From the information available on these dwarf hybrids, the college considers that this development could be a major breakthrough in sorghum improvement. They also know there will be disadvantages such as difficulty in production by the seed grower, and some of them may be difficult to thresh. There may be a small amount of seed available for a variety test.

Don't forget the County Livestock Meeting on February 1, at 1:30 p.m. at the Hub Community Center. Anyone who has any livestock will be interested in the information presented at this program. Three subject matter areas will be covered. They are as follows: 1. Market Cattle Testing 2. Arizona and California Feeding 3. Southwest Animal Health Research Foundation.

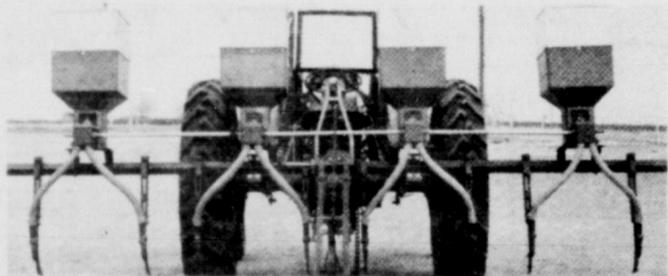

## LCC President Leads Revival In Friona

The 6th Street Church of Christ will conduct a gospel meeting from February 4th through 11th. Services each week - day at 8:45 a.m. and 8:00 p.m. Dr. F. W. Mattox will be the guest evangelist.

Dr. Mattox is president of Lubbock Christian College, and prior to that was on the faculty of Harding College, Searcy, Arkansas for 14 years. He serves as one of the elders of the Greenlaw Church of Christ in Lubbock, Texas. Brother Mattox is well known throughout the great plains area for his ability as a gospel preacher.

A very cordial invitation is extended to everyone in this community to come and enjoy the gospel of Christ presented in the spirit of Christ.

"COVERING PARMER COUNTY LIKE THE SUNSHINE"

FRIONA	Jack Moseley Phone 8801	LARIAT	James Meason Ph. 925-3110	LAZBUDDIE	Jimmie Briggs Ph. 965-3911
MULESHOE	Dick Bell Ph. 3-2750	RHEA	Joe Allen Ph. Parmer 3505	WHITES ELEV.	M. L. Howard Ph. Hub-2745

Farmers and businessmen from Parmer and other plains counties filled the legislative galleries in Austin during the past few weeks. In an effort to gain passage of gas legislation which would place the sale of gas for irrigation purposes under the jurisdiction of the Railroad Commission. The picture above was taken last week of the Parmer County delegation. Shown here are W. T. Magness, T. F. Taylor, Keith Brock, Billy Carthel, Charles Hough, Loyd Messen-

ger, Ernest Kube, Carl Schlenker, Harry Hamilton, A. W. Anthony Jr., Bruce Parr, Gene Welch, Vernon Symcox and Travis Stone. An amendment was added to the original bill in the House and caused the bill to be returned to the Senate for re-approval. Early this week, the delegates were trying to settle differences with North Plains interests which were opposing passage of the bill.

# Discovery May Aid Screwworm Fight

A recent discovery may prove of great value in future efforts to control or eradicate a very expensive livestock parasite, the screwworm. The discovery was a black screwworm fly. Normally, the flies are blue-green.

The first black screwworm fly was found by Dr. Leo E. LaChance, insect geneticist of

the USDA's Agricultural Research Service at Kerrville, in a laboratory colony obtained from Orlando, Florida. Since these flies had not been irradiated, the black one is believed to be the result of a naturally occurring mutation. Several generations of the black screwworm fly have been produced by LaChance and his associates.

The black color is important as a genetic marker (a distinguishable physical characteristic that is heritable) and could prevent a problem which delayed the eradication in the Southeast, a quick, effective way to identify the released flies.

## SOIL CONSERVATION DISTRICT NEWS

About three weeks ago the supervisors of the Parmer County Soil Conservation District mailed second requests to some of the land owners in the Running Water and Catfish Draw. They would like to have that information as soon as possible, for this reason. The Hale County Soil Conservation District has made application for a Watershed and Flood Detention Project on Running Water Draw. The soil conservation districts along the watershed have agreed to co-sponsor the application along with the Hale County District. Therefore, they need the information on the amount of damage received from flooding that only the landowners and operators can give.

Should investigation prove that the benefits of such a project would outweigh the costs, a series of floodwater retarding structures will be installed so as to control the flooding that has occurred from time to time in past years. Of course, all this depends upon whether the preliminary investigation shows it to be a feasible project.

All studies, state, federal and private, point to the next 10 to 15 years as being crucial in the development of the state's water resources to meet our needs. This will require intelligent and informed leadership in every community in Texas. The future of Texas and every Texan rests on what is done about water in the next decade. -- TEXAS WATER, December 1961.

curate identification. An easily distinguishable marker, such as the black color, could eliminate this problem and speed progress in future eradication programs.

The ARS entomologists are now conducting studies to determine how the genetically marked flies compare with wild flies in mating activity, longevity, and flight range. If the black screwworm flies prove biologically successful, they will provide a valuable new tool for use both in entomological research and in control and eradication efforts.

This discovery could mean much to the program now getting underway in Texas under the sponsorship of the Southwestern Animal Health Research Foundation.

## FOOTSAVING EDUCATION

by James E. Edwards

The Foot Has Many Shapes-The Shoe Only One

Stop a moment to consider this. It's really a staggering thought. Few shoemen and doctors realize it, and even fewer consumers. Yet, when you stop to think about it, several things happen. We instantly get a new appreciation of shoes. We realize more than ever the importance of fitted shoes, of proper lasts, of fine shoemaking, of quality materials. And perhaps the most significant thing that emerges is the firm conviction that shoes are far more than a foot-covering... but instead are truly a masterpiece of engineering. (Cont.)

WASHER

DRYER

BUY YOUR ELECTRIC Clothes Dryer NOW

SEE YOUR REDDY KILOWATT APPLIANCE DEALER

It's so easy — so convenient... one step from your washer to your dryer... no wind to muss your hair — no cold to redden sensitive skin... no snow, no sleet! You'll wonder how you ever got along without the convenience of your electric clothes dryer. And, clothes dry so nicely — soft and fluffy... nothing harsh about an electric clothes dryer. Does other things, too, like fluffing pillows or gently fluffing dust out of drapes and curtains. You can start now to laugh at the weather... dry your clothes anytime — with an electric clothes dryer.

EXTENSION AGENT'S REPORT ON--

# Farming And Fallout

(This is the fifth in the series of questions and answers on civil defense compiled by Miss Etta Musil and Deryl Coker, County Extension Agents)

Last week we talked about how radioactivity would effect livestock. This is a followup on land and crops which is important to both humans and livestock.

We hope that this series of news articles have been a help to you in understanding problems related to nuclear attack. **QUESTION:** What are the main consequences of heavy concentration of fallout on crop and pasture lands?

**ANSWER:** 1. Farm workers may not be able to manage and cultivate land safely for some time because of radiation hazard.

2. It may not be advisable to permit animals to graze because of the danger of internal and external radiation.

3. Radioactive materials that are deposited on the edible portions of plants or absorbed through the roots are a potential long-term hazard to human beings and animals.

**Q:** How long would fallout affect cultivated and noncultivated lands?  
**A:** It would depend on the abundance and type of radioactive materials in a given area. Radioactive strontium—a long-lived material—could affect soils and plants for decades. Because it is chemically similar to calcium, it would be absorbed by all plants. Plants growing in soils deficient in

calcium would absorb more radioactive strontium than those growing in soils abundant in calcium, other conditions being equal.

**A:** Are there treatments for reducing the fallout hazard on land?  
**A:** Yes. You can treat lands to reduce the fallout hazard after external radiation levels are low enough to go outdoors and work. Cultivation will further reduce external radiation levels. If circumstances warrant fallout can be completely removed from land, by scraping off a few inches of soil. If such drastic measures are resorted to, the scraped-off soil should be piled on unused land that drains away from your water supply. Other treatments include: Liming of strongly acid and moderately acid soils; leaching porous soils with water; and plowing deep the surface layer of the soil. It probably would be impossible to decontaminate rangelands and those croplands that are not very intensively used.

**Q:** Would fallout permanently affect pasture grass?  
**A:** A heavy deposit of fallout would spread short-lived and long lived radioactive particles on the pasture. The existing growth would be affected by particles that have fallen on the exposed portions of the plants; succeeding growths, following grazing or mowing, would be affected internally from the long-lived radioactive materials absorbed from the soil. There probably would be no visible injury to the plants from the radiation.

**Q:** Could I ever use contaminated pasture grass?  
**A:** If fallout is very light, the pasture would be usable immediately. If fallout is heavy, the existing growth should be

removed as close to the ground as possible and discarded in an area that drains away from your water supply. On acid soils, lime before reseeding. An alternative is to allow livestock to graze on lightly contaminated pasture after a period of denial that varies from one to a few weeks, the length of time depending on the degree of contamination. Once it is safe to work the land, a periodic check on pasture and produce in affected areas will provide the best guide as to their use.

**Q:** Will fallout affect my system of farming?  
**A:** It could. If your land is seriously contaminated, it may be necessary to change to non-food crops or to food crops that do not absorb large amounts of radioactive materials from the soil. Alfalfa, clover, soybeans, and leafy vegetables have a greater tendency to absorb long-lived radioactive strontium than cereal grains, corn, potatoes, and fruits.

**Q:** Would fallout reduce the economic productivity of crop and pasture lands?  
**A:** Fallout might reduce such productivity in several ways: (1) Crop and soil management would be impeded because of the danger of external radiation; (2) crops would become contaminated and unmarketable; and (3) some lower-income crops that do not absorb large quantities of radioactive material from the soil would be substituted for higher-income crops that do.

**Q:** Could I use water in an exposed field?  
**A:** Water in an exposed field would be contaminated; the hazard in using it would depend on the concentration of fallout.

Usually, there would be a prompt diffusion of the radioactive materials in the water, reducing the contamination at the surface. If the water were being constantly replenished from an uncontaminated source, radioactivity would be diluted rapidly.

**Q:** What are the effects of fallout on growing vegetables?  
**A:** Growing vegetables that are exposed to heavy fallout may become highly radioactive. Leaves, pods, and fruits are immediately contaminated upon contact with the radioactive particles.

Roots and tubers absorb little contamination from fallout before it is mixed with the soil; therefore they should be eaten first in preference to any other foods. Underground vegetables that have come in contact with contaminated surface soil during harvest should be washed and tested for radioactivity before marketing. Many vegetables would be marketable, and none should be destroyed without testing for radioactivity.

**Q:** What are the effects of fallout on growing fruit, including green fruit and ripe fruit?  
**A:** If fallout is heavy, ripe fruits may be lost because of

the personal hazard involved in harvesting them. Fruits that do not have to be picked immediately and are peeled before eating can be saved. They can be decontaminated by washing before marketing.

Orchard trees should be maintained, and the fruits examined for radioactivity before and after harvest.

**Q:** What effect would fallout have on alfalfa and other forage crops?  
**A:** Existing growths of alfalfa and other forage crops might not be usable because of radiation hazard. Radioactivity would be less in subsequent growths. If a radiation survey indicates that the contamination level is high, the existing growth should be removed as close to the ground as possible and discarded, and only succeeding growths used after examination for radioactivity. It may be necessary to plow deep and reseed to grass. Application of lime may also be necessary if the soil is acid.

**Q:** Would fallout limit the use of plants for human food?  
**A:** It depends on the extent of the radioactivity. Leafy vegetables, such as lettuce, should not be eaten unless they are thoroughly washed, and are known to be free of hazardous amounts of radioactive materials.

**Q:** What special precautions should be taken for workers in the fields?  
**A:** Everyone should remain indoors until the danger from fallout has diminished.

When you are advised by local officials that it is safe to work outdoors, you may be asked to take certain precautions against collecting dust on your body, such as wearing boots, coat, hat, and gloves. If you work with livestock, touch them as little as possible; fallout may be on the backs.

**A:** Will the surplus grain stored by the Government be contaminated?  
**A:** No, except for that stored in the open.

**Q:** Are foods canned in glass jars and metal cans safe to use?  
**A:** Yes.

**Q:** How long can fruit and vegetables be left exposed and still be usable when peeled?  
**A:** Since radiation has no effect on the fruit or vegetable themselves, they are usable just as under normal circumstances.

**Q:** How long will foliage be contaminated?  
**A:** Until the contamination decays or is removed by rain or other means.

Tests conducted by the Texas Agricultural Experiment Station on the effects of cotton varieties on the performance of mechanical harvesters indicate the importance of selecting an adaptable variety if harvesting is to be done by machine. Copies of Progress Report 2209 are available from the Agricultural Information Office, College Station, Texas.

## The HAPPY HOMEMAKER

BY JUNE FLOYD

In spite of all the precautions taken by homemakers, it is almost impossible to keep spills and splatters off carpets, so it is important to know how to remove the most common ones.

Below are some methods which are recommended for removal of a few of those most likely to turn up in average households.

**Oily and creamy substances:** Use drycleaning fluid or absorbent cleaner.

**Sugar and starch:** Wipe spot repeatedly with cloth or sponge wrung out of clear water.

**Milk:** Sponge repeatedly with detergent solution, then with clear water.

**Beverages:** Use clear water or detergent solution.

**Acid:** (fruit juices, etc.): Blot up as soon as possible with damp cloth. Sponge several times with clear water. If spot remains, sponge lightly with solution of 1 tablespoon ammonia or baking soda in 1 quart water. Sponge again with clear water.

**Blood stains:** Sponge with cold water. If spot remains, use small amount of detergent and water and follow with clear water.

**Nail polish:** Blot up as much as possible, taking care not to spread the spot. Lacquer thinner or nail polish remover may remove spot.

**Pet spot:** Sponge urine spot thoroughly with clear water and blot quickly. Go over spot with detergent solution, then wipe with cloth dampened with clear water, blotting up excess. If spot has dried, saturate with solution of 1/2 cup white vinegar to 1 cup water and let stand a few minutes. Blot, and repeat until stain disappears. Then dry carpet as quickly as possible.

Next time you need a prepare ahead dish, try the following recipe:

**PRESSURE SAUCEPAN CHOP SUEY**  
1 pound lean pork, cubed  
1 pound lean veal, cubed  
2 tablespoons olive oil  
2 cups sliced sweet onion  
2 cups cut celery  
1 tablespoon flour

1 teaspoon salt  
1/4 teaspoon pepper  
1 cup water  
4 ounces mushrooms  
Saute meat lightly in hot olive oil in pressure saucepan. Add onion and celery and saute. Stir in flour; add seasoning, water and mushrooms with their liquor.

Seal and cook 10 minutes at 15 pounds pressure. Serve with cooked rice. If desired, chop suey may be placed in serving dish and kept hot while cooking rice (7 minutes) in pressure pan. Other meats may be used, as desired. Serve with soy sauce.

## Wall Panel Developed For Farm Buildings

An experimental wall panel, made of a 2-inch layer of plastic sandwiched between half-inch layers of reinforced portland cement, has been developed by the USDA for use in constructing farm buildings.

These panels are light enough to be handled by two or three men and are cast with holes for bolting to wooden posts set 8 feet apart. No special tools or equipment are needed to erect a one-story building with the panels, the USDA says.

According to USDA scientists, an experimental panel building constructed at Beltsville, Md., nearly two years ago shows no signs of weathering. They estimate the panels will last more than 20 years.

Cost estimates indicate the panels are more expensive than concrete blocks for buildings of equal size. Total building costs would be comparable, however, because a panel building can be erected about four times faster than a block building.

The panels are suitable for milking parlors, chicken houses, barns and other enclosed livestock buildings where insulation is necessary. Tests simulating an animal falling or being pushed against the panels proved that the panels can with-

## New Records Set For Hybrid Grain

Though Texas grain sorghum producers set an all-time high of 45 bushels or 2,520 pounds an acre in 1961, they still have a long way to go to match the 9,383.9 pounds an acre produced by Bill Cole, a Deaf Smith county 4-H boy. Cole's production was made under irrigation and won for him top honors in the 1961 Texas Hybrid Grain Sorghum Program.

His RS 610 was planted on June 19 after a preplant irrigation and at the rate of 10 pounds of seed an acre in 27-inch rows. It followed a cover crop of barley and received an application of 131-0-0 fertilizer as a side dressing. The crop was irrigated four times during the growing season.

The top dryland yield—a new record—was posted by Fred D. Campbell of Birome, Hill county. The 8,004.3 pounds or just under 143 bushels an acre was also from RS 610. Campbell planted 7 pounds of seed an acre in 38-inch rows following a cover crop of peas. He applied 73-40-0 fertilizer before planting his State winning crop. It was planted on April 1.

The complete list of winners as released by Ben Spears, extension agronomist, shows six Tom Green county 4-H Club members taking the first five and seventh places.

izer as a side dressing. The crop was irrigated four times during the growing season.

# HD Agent's Notes

BY MISS ETTIE MUSIL

We attended a most interesting training last week on "Sociological and Psychological Effects of Clothing." In other words why do we choose the clothing that we wear each morning?

Dr. Sam Schulman, Associate Professor in the Department of Sociology of Texas Tech, mentioned that we choose clothing for comfort, eye appeal, protection, as well as for our culture. Not only do we choose clothing and colors that we like but also for our friends and people around us.

This is how fashion of clothing is begun for women as well as men, People of status influence fashion. Then if others desire the change and accept the need for this fashion it becomes acceptable in society.

Many fashion influences are only fads. Fads come in, involve the people, and pass on as short-lived. However, true fashion may become a tradition of our folkways. Dr. Schulman mentioned men's ties becoming a tradition when at first they were thought to be a fad or temporary accessories.

We wear different clothing in following rules and regulations of our culture. Past experiences and family cultures also influence our choice of clothing.

Did you ever think that women are responsible for color in clothing? At least this was the feeling of Dr. Bill C. Lockhart, Professor and Head of the De-

partment of Applied Arts of Texas Tech, Women have influenced the colors of men's clothing, too.

Dr. Lockhart stated that color taste is developed, not inherited. I know I've heard it said that one girl would have good taste in color of her wardrobe because her mother always chose attractive clothes. Maybe this mother taught her daughter and helped her develop this sense of color taste.

We need to wear colors of clothes to set the mood of our feelings. If you wish others around you to feel gay, then you can wear gay colors to set the mood. Of course, you should wear colors that make you feel comfortable.

Color affects our moods and personalities. Dr. Lockhart stressed that we should choose color for what it can do for us, not for what we can do for the color. He changed his neckties to show his personality and mood seemed to change as he changed from green, blue, black, designed brown, orange and red.

Color of clothes are very important for job seekers. When you are applying for a job, be careful of the color of clothes you choose when getting ready for an interview. Bright, bold colors may not show your true personality to your future employer. Green, blue, or brown may be better colors with small areas of brighter colors as accessories to wear for job interviews.

# HD Agent's Report Reflects Many Accomplishments In '61

Extension Service work proved to be successful in Farmer County in 1961. At the close of the year county extension agent Miss Ettie Musil submitted an impressive list of accomplishments in her annual report for 1961.

In order to fulfill the objectives and goals for the year Miss Musil worked 263 days, devoting 131 days to adult work and 132 days to 4-H Club work. These days included work done in extension organization and program planning house and surroundings, furnishings and equipment, home management, clothing, health, family life, child development, community development, and

family economics. In order to carry out the teaching and activities in all phases of work the home demonstration agent made 154 farm and home visits. To help the people with their needs she had 173 office calls, 226 telephone calls, and wrote 123 news releases and columns. Four radio broadcasts were made on the local radio station, and one television appearance was made with Judy Billingsley to model her dress before the District 4-H Dress Revue.

Since Extension Service bulletins are a popular teaching method 1533 bulletins were distributed during the year. These bulletins are free upon the request of the people. Only 5 re-

sult demonstrations were conducted with demonstrations in foods, landscaping, clothing, and home improvement.

Training meetings for local leaders is most important in extension work. To help the people develop more leadership in their communities 28 training sessions were conducted with 342 adults attending. Likewise, leadership training is important to the youth in the county. Eighteen trainings were conducted by the home demonstration agent for 4-H leaders and 4-H members with 131 attending.

A total of 206 other meetings were held with 2253 attending. These meetings included home demonstration clubs, civic clubs, district and state meetings, and general educational meetings. To assist in the teaching and activities of 4-H Club work the agent held or participated in 163 meetings with a total of 6458 4-H members and parents attending.

Of course, it is important for the trained leaders in adult work to conduct meetings for which they were trained. Fifty-nine meetings were held by the leaders with 578 homemakers attending. Four-H adult leaders conducted 32 meetings with 214 4-H members and parents attending.

Many results of programs conducted in the county were an inspiration of the hardworking people in the county. To learn of the many results and accomplishments following the programs the home demonstration agent sent questionnaires to all HD Club members and many other homemakers attending these programs. According to the questionnaires returned to the agent many results were reported.

As results of a "One Dish Meals" program conducted in May a total of 81 homemakers attended the programs in their clubs. This program stressed the convenience of planning one dish meals to save time and energy in preparing them. One dish meals are ideal to use left overs as planned-overs. One dish meals recipes were provided to all homemakers with a result of these recipes being used 531 times.

In April a program "Freezing Vegetables and Freezer Meals" was presented by the HD agent to 92 homemakers in planning freezer meals for emergencies and convenience. Packages of vegetables were dipped into lukewarm water to force air out of the packages to make them moisture, vapor proof. Vegetables must be blanched before freezing to stop the growth of enzymes in the vegetables which discolor and change texture and taste after a period of time. A total of 51 homemakers froze freezer meals following the training. Fifty-two other homemakers were taught.

The housing committee of the County Program Building Committee planned to show homemakers ways of using electric appliances to their best advantage. The HD Agent trained 13 leaders who presented a program how to select, use, and care for small electrical appliances. These 13 leaders taught 89 homemakers in their respective clubs. An apple dessert was prepared in the electric skillet to show how other foods besides fried foods could be prepared. A total of 37 homemakers have used the training. They taught 48 other homemakers, and have used 103 of the recipes provided.

As requested by the home demonstration clubs the agent trained 13 leaders to present programs on "Congealed Salads and Fruit Salads." These leaders taught 76 homemakers in the clubs stressing nutritive value of fruit and vegetables in these salads. A total of 183 recipes were used in the bulletin "Salads". The homemakers taught 72 other homemakers short cuts in salad making. Following this training 45 different salads were made and served at the annual county-wide salad luncheon.

All homemakers were very busy last spring and summer preserving fruits, vegetables, and meats for the winter months. A total of 8024 pints of fruits and vegetables were canned from reports received in the office. 825 pints of pickles, relishes, jams, jel-

lies and preserves were canned. 6466 pints of fruits and vegetables were frozen. A total of 12,308 pounds of meat, fish, and poultry were frozen. 5514 pounds of vegetables and 785 pounds of nuts were stored.

In the 4H Clubs 57 club girls were trained how to plan "after school snacks" to be a part of the daily food needs. Too many school snacks are made up of carbonated beverages and sweets rather than tasty nutrition. Fifty girls reported having prepared more nutritive snacks according to recipes provided them.

The agent trained 140 girls and adult leaders how to present a foods demonstration. As results of the training much interest was created in the junior division age group in taking part in the county method demonstration contest and in presenting demonstrations during club programs.

In preparation for a county bake show in July the agent trained 98 girls and adult leaders in baking cinnamon rolls. Another training series included 117 4-H girls, adult leaders, and mothers in baking muffins. Thirty 4-H girls took part in the county 4-H bake show. Linda Gleason had the highest score for the county show and represented the county in the District Bake Show during the Tri-State Fair.

Twelve 4-H adult leaders were trained to teach Favorite Foods, Unit 1 as 4-H subject matter groups. At least one leader from each of the six girl's clubs attended the training. Three leaders have completed the first four lessons of the Unit 1. More training will be conducted in 1962.

One of the long range objectives of the Clothing Committee was to keep up with new fabrics and finishes. One hundred and eight homemakers of 8 HD Clubs were convinced that the average homemaker cannot tell the fiber content of the garment just by feeling

of it. As result of a program presented by the HD Agent 62 homemakers reported being more conscious of fabrics and finishes on fabrics and ready made garments. Special features discussed included wrinkle and soil resistant finish, water repellent, drip dry, crease and color retention, and sanforized finishes. These homemakers taught 93 other homemakers.

A basic clothing construction workshop was conducted by the HD Agent in April and May. A total of 18 leaders were trained by the agent. Forty-six ladies were trained by the leaders in club and community workshops. A total of 247 garments were made by the trained homemakers with a savings of \$700. A good grooming class was taught following the workshop with 67 homemakers learning and then teaching others.

In a special request by the Friona Antique Club the HD Agent conducted a refinishing furniture workshop to 22 club members and visitors. As results of this workshop the club members refinished 15 pieces of furniture with a savings of \$600.

To meet the needs and interests of the HD Clubs on "Fallout Shelters" as planned by the yearbook committee of the clubs in the county, the HD Agent trained 12 leaders who presented the program to 77 homemakers in their clubs. Different fallout shelters were discussed or seen. An adequate food supply for two weeks was demonstrated in the programs.

"We can only measure the direct contacts we have with the people in office calls or in club meetings. We can never completely measure the indirect contacts made through newspaper, radio and television and transfer of information as taught others by our direct contacts," Miss Musil said in summarizing the year's activities.

# Revision Asked In Standards For Grain Sorghums

Because of the change in character of the grain sorghum crop due to the adoption of new varieties, the U. S. Department of Agriculture has announced a proposal to revise the Official Grain Standards of the United States for grain sorghum.

The proposed changes include the elimination of the class Red Grain Sorghums and all the subclasses in the classes of Yellow Grain and White Grain Sorghums. Since the new varieties and hybrids are heavier than the old ones, it is proposed that the test weight per bushel be raised from 55 to 58 pounds for No. 1, from 53 to 56 for No. 2, from 51 to 54 for No. 3 and from 49 to 51 for No. 4.

Also, in order to provide for better keeping quality, a proposal has been made to lower moisture content from 14 to 13 per cent for No. 1, from 15 to 14 for No. 2 and from 16 to 15 for No. 3. It is also proposed to eliminate dockage and substitute a factor for fine foreign materials in the grade table. Alternative proposals provide for dockage as now applied and

a special grade "Tough" instead of moisture as a grading factor.

Informal public hearings to consider these proposals have been scheduled for Lubbock on January 29 at 1:30 p.m. in the MacKenzie Terrace, 407 E. Broadway and January 31 at 9:30 a.m., Continental Hotel, Kansas City, Missouri.

Interested persons may also submit written data, views or arguments to the Director, Grain Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington, 25, D. C. not later than February 15, 1962.

The proposals are scheduled to appear in the January 13 Federal Register. Copies will be available from the AMS Grain Division.

# Feed Grain Sign-Up Period Announced

Producers who wish to comply with the 1962 feed grain program will sign up between February 5 and March 30, reports C. H. Bates, extension farm management specialist.

Provisions of the 1962 program are very similar to those for 1961. One change is that idle and fallow land for the years 1959 and 1960 will be considered in the soil conserving base for farms. This will give less flexibility in the use of land diverted from feed grains, explains Bates.

Payment rates for diverted acres will be in line with those for 1961 because support prices for feed grains have been set at identical levels. The rates are again based on the normal production of the farm times the county support rate. The minimum acreage reduction (from the 1959-60 base) is 20 per cent, which will earn a payment based on 50 per cent of the local support price. For diversion of between 20 and 40 per cent the payment will be figured at 60 per cent of the local support price.

Barley, which was not included in last year's program because of late passage of legislation, is included in the 1962 program. A producer having barley plus grain sorghum or corn can participate in barley reduction independent of other crops. If he wishes to comply on barley alone, however, he must stay within his 1959-60 base on corn and grain sorghum if he wants to receive price supports. On the other hand, if he wishes to comply on the corn and grain sorghum he must not exceed his base acreage for barley.

Cooperating farmers will be eligible for price supports on their 1962 crops of corn, grain sorghum, barley, oats and rye, subject to the base yield limitations, Bates continues. Also, they are permitted to draw one-half of their total diversion payment at the time of their sign-up.

Non-cooperating producers will not be eligible for price supports on feed grains, but they will receive the market price for them. Since no acreage will be diverted they will not receive payments for any additional conservation use.

Grain producers should study carefully their individual alternatives in these programs. Decisions should rest on the estimated outcome for each operator, based on the goals he is seeking, says Bates.

Producers having questions about the effects of varying levels of compliance on their 1962 operations should contact their local County ASCS office manager or their local county agent.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Again, we hope that by the time you read this, Texas law will allow farmers to appeal natural gas rates before the Railroad Commission. It also appears that several farmers, who have been in Austin for the first time during a legislative session know that it is not always safe to assume that the person elected to represent them can take care of things without advice and support from the people back home.

Farm Bureau, on the above subject, and many others in the past, has urged people to see the importance of wiring, calling or writing their representatives to support or oppose pending legislation. The gas users association has worked locally getting individual support, and we hope they will be successful. Senator Andy Rogers is sticking by his guns with our people on this one, and deserves commendation for his hard work.

Farm to Market road funds were put under a safety provision by SB 1 early in this special session. This bill, among other things, provides that such funds will remain in Farm to Market road designation even if future governors veto current use of money for new construction. Farm to Market roads have been babies of Farm Bureau from their inception to the present time.

Here is a quote from Bill Wedemeyer, Director Research and Promotion for TFB in Facts for You: "Extension Service and Political Solutions -- Secretary of Agriculture Freeman has stated to the world in a Washington speech that the extension service can no longer hope to avoid educational activities in the field of political solutions to the farm problem. County Farm Bureau leaders will want to have a very definite understanding with local extension agents regarding this most important announcement."

We know of one specific case, and there are surely many similar ones, in which a college boy is having to stay home and help his father farm because of new rulings on the use of Braceros. Let us hope that there is a reversal of some of these insensible rulings that only hurt the employer, the Bracero and his family and the United States and Mexico.

CONSIDER THIS: Apply thine heart unto instruction, and thine ears to the words of knowledge. Proverbs 23:12

### HD Council Meets Monday

All eight county clubs were represented when the Farmer County Home Demonstration Council met January 22, with Phyllis Sanders, chairman, presiding. Present were 13 members and four visitors.

Each club was asked to bring THDA contributions to the council meeting in February--25¢ per member. The money is used for a 4-H girl scholarship.

If you've paid your poll tax, that's fine. If not, it is too late to pay them this year. Residents of the Friona area were reminded by members of civic organizations of the deadline for paying this tax.

Now that you have assured yourself of the privilege of voting, your job is just beginning.

Candidates for the various offices are beginning to make formal announcements and each of us should make a conscientious effort to learn as much about each individual candidate as possible before election time.

Voting intelligently takes a lot of study and can't be done unless the voter knows something about the candidates. Too often those of us in the Panhandle look for a person from this section of the country, who is running for state offices, and then vote for him.

We know, of course, that this isn't the wise thing to do, but are too negligent, careless or indifferent to put forth the effort it takes to do differently.

A clever advertising gimmick reached my desk some time ago. At one place a couple of Frionans vacationed, a service station manager was really "on the ball."

During the night he had employees wash every car windshield parked at the motels in town. Upon finishing the job, the station attendant left a card which read, "Cleaning your windshield was a pleasure!" Then in smaller type there was an invitation to drive by the John Doe Super Service for other automotive needs.

Surely we will be receiving an invitation from the Andy Hurst of Hurst's Department Store to visit his new shoe department soon. I've been looking for an announcement concerning enlargement of the store for several weeks and if it doesn't come through soon, think I'll just sneak over and look around a bit.

Think department stores are somewhat like publishing plants in that all available space is soon absorbed, but for awhile at least Hurst employees will probably enjoy having more dis-

play space.

I'm not sure what the most popular height heel is going to be best style for ladies this spring, but the city officials of Mobile, Ala. have gone on record as being definitely opposed to any heels higher than 1 1/2 inches.

The following report was made in the January issue of McCall's Magazine. "According to the North Carolina Medical Journal, Mobile, Alabama, has passed an ordinance prohibiting wearing shoes with heels more than an inch and a half high and less than an inch in diameter.

Women who wish to wear shoes with heels that exceed these limits must get a special permit and agree to assume all liability "for damages to themselves and to others caused by their falling on the public streets or sidewalks of the city of Mobile while wearing such shoes."

Isn't it wonderful what a change in the weather can do for the attitudes of people. Early this week coffee cup conversation almost indicated that farmers would never even get their land prepared for planting. Then with Tuesday's beautiful sunshine and spring weather, several cotton farmers were heard to remark that "It's about time to start thinking about cotton seed!"

Eugene Ellis, a farmer who lives east of the Hub tells a good story about how he happened to be wearing a cast on his foot. Since he has three sons it is likely that he really was playing basketball in the barn with the boys when he made a crooked step and broke a bone.

At any rate, he will probably be hard to keep up with when the cast is removed. In the meantime, he is enjoying sitting on the sidelines watching the boys play.

Several Frionans who were here during the first semester have re-enrolled in college. Rob Osborn is going to West Texas State, Margie Carlton has gone back to Wayland Baptist College at Plainview, and Bill Loftman and Larry Crow have entered Lubbock Christian College.
