## Softball Season Opens Monday Promising Strong Competition By Alterations In Lineups

With the addition of several new men to the various teams and changing of players from one team to the other, softball season this year will hold many hotly contested games. The Legion team has many players that were not with the team last year, but so far seem to be lacking in sufficient pitcher material. Several have been trying their hands at tossing but it is undecided as yet who will qualify themselves. Wilton Dishman is the only pitcher they have for this year so far. They have added John L. Whistler to the outfield, Al and P. E. Dishman, Jr., to the infield, bolstering their inner circle to quite an extent.

Albert Weigand has switched to the Fire Department this year along with Jimmy Davis and Robert Joe Dishman. The Lions have obtained the services of Charlie Rogers, a pitcher potential, W. H. McCullar, another hurler to aid the steadiness of the returning Dick Hamilton. Also they have M. B. Englund, J. A. Gilbreath, Pete Houston, L. A. McBe and Jack Turner, all new in Lions uniforms.

The list of the Railroaders includes the trustworthy pitching ability of Pate, who will be assisted on the mound by Ross Stavley, and G. W. Kyle, Bill Lea, J. O. Bell, O. D. Gray, W. E. Stavley, C. J. Brown, Bill Coleman, C. Carter, J. L. Newton, Pete Petrosky, Gene Litton, S. A. Wood, Giggis Hahn, J. C. Penny, Bill Simmons, James McDonald, T. J. Palmer, George Stevens, Jack Rabf, H. R. Krauss, R. H. Phillips, Clifford, G. C. Wilson and Roy Bogusch.

The Teenagers this year lose Robert Joe Dishman and Jimmy Davis who will play for the Fire Department and will gain Jackie Talbot, two McDonald boys.

No list at present is available on the team for the Rotary Club, and complete rosters for all teams were unavailable at this writing.

Since the schedule was published last week it was decided that all games scheduled for Wednesday night would be changed to Thursday night so that no conflict would be made with the mid-week services held by many of the local churches. This will put the night of play on Monday, Thursday and Friday nights.

The poles with the 2 new sets of lights have been installed and everything is in readiness for the opening game on Monday night to start as soon as it is dark. Everyone is urged to be present and help the Fire Department and also enjoy an evening of good sports display. This will be a benefit game between the Lions and the Fire Department.

### MRS. POLLY CADE'S MOTHER DIES IN SAN ANGELO

Mrs. Polly Cade returned Wednesday from San Angelo where she attended funeral services for her mother, Mrs. E. Miller. Mrs. Miller had been in failing health for some time and Mrs. Cade had returned from her bedside a few days before receiving word Monday morning that she had died in a San Angelo hospital.

Mrs. Miller was a resident of San Angelo for 17 years and had made frequent visits to her daughter here.

### School Board To Retire \$6,000 In 1930 Series Bonds

The State Board of Education this week granted the school board of the Terrell County Common School District permission to retire \$6,000 in bonds of 1930 issue. Tax payers are saved about \$6,400 in interest by the early retirement of the last six bonds of the series due in 1970.

Mr. and Mrs. Charles Rogers were Del Rio visitors Tuesday.

### Committee Named To Study Present Texas School System

In preparation for the presentation of a bill to the Texas Congress proposing some drastic changes in the present Texas school system, the Gilmer-Aiken Committee, authors of the bill, have asked a committee to be appointed in each county to study the faults and deficiencies of the present system.

Judge R. S. Wilkinson, Terrell County School Superintendent, has named a suggested committee for this county consisting of Supt. C. G. Bradford, W. G. Downie, M. O. Bane, Rev. Lawrence Menefee, James Carline, J. M. Hayre, Joe Kerr, Jr., M. G. Bustos, Herbert Brown, Dr. J. C. Kern, and Mesdames W. H. Savage, W. E. Grigsby, Sid Harkins, J. T. Williams and W. J. Ferguson.

### Rafael Moncado Held on Charge of Attempt To Murder

Rafael Moncado is being held in the county jail on charges of assault and attempt to murder as a result of a cutting fray at a local service station on the night of April 6.

### Lamar Ward Boys District Champions In Softball Play

A group of pupils from Lamar Ward School attended the scholastic league meet in Marfa Saturday, April 10 and won the top honors in softball. The team consisted of Pablo Valdez, Eleno Marquez, Enrique Saenz, Silvester Silvas, Juan Olivares, Ruben Esqueda, Higinio Pena, Ramon Escamilla, Ramon Zepeda, Frnax Galvan, David Martinez and Israel Hernandez.

They were accompanied by R. H. McCarley.

The Sanderson boys played Central Ward of Alpine and won over them 9-4 in the first game. Their second game was against Blackwell School of Marfa. The score ended 11-3 in favor of Sanderson. Their final game for the day and the championship game, was played against Anderson. The game was stopped at the end of the fourth inning with the score 20-4 in favor of the Sanderson team.

A girls team composed of Enriqueta Flores, Julie Gulvara, Consuelo Cerda, Loretta Rodriguez, Berta Saenz, Nieves Lopez, Estela Gonzales, Mona Silvas, Otilia Flores, Cecilia Falcon, Betty Flores and Lupe Cardenas lost their first game to Alpine by a score of 12-13. They were accompanied by Miss Thelma Buntam.

### SCHOOL BOARD TO GET BUILDINGS FROM DEL RIO

Approval was given the school board of Terrell County by the WAA this week for the purchase of three buildings from the War Surplus Buildings offered for sale at Laughlin Field, Del Rio, recently. Approval of the purchase of the fourth building is expected in a few days. There is much good lumber in the fourth building which will be needed to remodel the other three.

The buildings will have to be moved in sections but will be brought to Sanderson at an early date.

### TURNER GROCERY ADDING FRONT TO ENLARGE STORE

Work is progressing on the addition to Turner Brothers Grocery and Market. The thirty-foot addition of hollow tile and plaster will run the full width of the present building. The job is expected to be completed in approximately thirty days.

A front entrance will be made for both the market and locker rooms and the location of the present market will be converted into a room for curing meats and processing of produce. More space will be provided for the grocery section when the building is completed.

### J. P. Parra New Post Commander Fierro-Garza Post

New officers were installed for the Fierro-Garza Post V. F. W., No. 8912, at the regular meeting in April with Past Post Commander P. B. Gutierrez, as installing officer.

### J. W. ROBERTSON, JR., BORN IN EUGENE, OREGON

Mr. and Mrs. John William Robertson of Eugene, Oregon, announce the arrival of a son, John William, Jr., Sunday. He weighed seven pounds and nine ounces. Mr. and Mrs. Robertson were former residents of Sanderson when he operated the Sanderson Gulf Station.

Paternal grandparents are Mr. and Mrs. M. L. Robertson.

Mr. and Mrs. Pat Harris returned Monday night from Houston where Mr. Harris had gone for a medical check-up in the company hospital. His condition is reported to be steadily improving.

### D. A. NEWTON ANNOUNCES FOR DISTRICT ATTORNEY

Douglas A. Newton announced Wednesday he is a candidate for the office of the district attorney for the 63rd Judicial District, including Val Verde, Maverick, Kinney, Edwards and Terrell Counties.

Newton was born and reared in Del Rio. He attended the schools there and is a graduate of the University of Texas. Having lived in this area continuously, the candidate feels he is in a better position to understand the law enforcement problems of this district. His plans call for bringing the office nearer the people and he said he will welcome suggestions at all times.

Newton has been county attorney for Val Verde County and city attorney for the City of Del Rio. He served as a school tax attorney for the Del Rio Independent School District. During the war he acted as chief investigator for the civilian personnel at Laughlin Field.

While County Attorney, Newton assisted the former district attorney, the late Julian La-Crosse, in the investigation and prosecution of all major cases of crime in the county and he feels that through this experience he knows the duties and responsibilities of the office thoroughly.

"When elected, I solemnly promise to serve all of the people in the office of district attorney without fear or favor toward anyone, to give this high office my full time and to give all of the energy, sincerity and capability necessary to carry out the duties which it requires," Newton said.

### Citizens Contribute \$506 to Fire Dept.

In response to letters recently mailed to the citizens of Sanderson by the Volunteer Fire Department, \$506 has been contributed to the fund to date. The money will be used to buy much-needed equipment.

The carnival which was here last week gave the fire department \$100. A like amount was given to the Cemetery Association.

## Commissioners' Court Okays City Street Paving Loan; Issue Bonds for \$10,000

The Commissioners Court of Terrell County this week approved the paving of Sanderson's streets and will issue time warrants from the Road and Bridge fund in an amount not to exceed \$10,000.00 and having a maturity date of 1958 for their half of the cost. The other half was paid by the property owners. The contracts were let this week to bidders and will be opened on May 3.

This project was undertaken last fall and is the culmination of ideas borne out by civic-minded residents over a long period.

The paving will take in fifty-two blocks of Sanderson's streets and approximately eighteen blocks of asphalt seal coat.

### Senior Play To Be Presented Friday, April 23

"Professor, How Could You", a farce in three parts, is to be presented in the high school auditorium Friday evening, April 23, by the Senior Class of the high school.

The play is built around a young professor, Keats Perry, played by David Thompson, who has to get married before he can accept the deanship of a college that has been offered to him. Friends and relatives contrive to assist him in finding a bride and the ensuing complications make for a play that is very entertaining and filled with many moments of tenderness and comedy.

The supporting cast includes Betty Sue Yeates as Vicky, Randolph, the babe of the professor's life; Harriet Pierson as the grandmother; Chris Hempel as the grandfather; Robert Joe Dishman portrays the helpful friend, John Appleby and Bill House is Boggins, the sporting butler.

Other feminine characters are Doris Duke as Priscilla Morley, Margie Duncan as Tootsie Bean and Betty Ann Peavy as Valeria Whitman.

The play was cast by a committee, Mesdames J. W. Pate, Nell Appel, E. E. Farley and W. H. Savage, and is being directed by Mrs. C. G. Bradford.

The public is invited to attend the play and everyone is promised an enjoyable evening.

**Now It's Neckties Made of Milk!**

Fellow in Andy Botkin's Tavern was boasting about a trick necktie he was wearing made out of a by-product of milk. "Took 33 pounds of milk to make this tie," he says.

Bill Webster was unimpressed. "Personally," he says, "I'd rather have the milk to drink. Just as I wouldn't change one glass of good American beer for a necktie made from thirty barrels of it!"

Yes, modern science being what it is—seems like you can make anything out of anything these days. But in the case of milk, well

I guess drinking it is still a lot better than just wearing it. Of course there are lots of ways of abusing goods and erages—like a fellow who does appreciate good beer enough drink it slowly and in moderation. But from where I sit, most people who enjoy a wholesome erage like beer or ale are made—because beer itself is a breed of moderation.

Utilization of livestock by-products is important to all farmers and ranchers. Of the total dollars received by Swift & Company for lambs, 15% to 25% comes from by-products. Cattle by-products amount to 10% to 20%. With hogs it is 2% to 5%. When bidding on live animals, Swift & Company's buyers estimate the yield and grade of edible meat. In their estimate they figure, too, the value of all by-products, including hides and wool.

Livestock by-products have greatly increased the value of your meat animals. Since earliest times, man has used hides and wool to make clothing. But only in the past half-century has research found the present great variety of uses for by-products. Fats, and lanolin from wool, are the base of many cosmetics, healing creams and beauty aids. Photographic film is coated with a gelatin compound. Other uses of gelatin and glues are almost endless. Animal fats are the main raw material of toilet soaps.

Life has been lengthened for people with diabetes, anemia and other diseases. They are helped by drugs such as insulin, liver extract, papain, adrenalin. These are all made from the glands of livestock. But for the painstaking care of meat packers, these glands would go to waste. This happened during the wartime "black market" in meats, and the supply of insulin ran low.

With the growth of meat-packing plants, the war on waste began in earnest. Science found new ways to use by-products of your animals. Bristles make brushes. Bones make knife handles. Hair makes upholstery padding. Bones, blood and scraps go into animal and poultry feeds. Yes, we find use for every valuable part of cattle, hogs, and lambs.

Each new use for by-products adds value to livestock... and directly benefits producers.

**Phenothiazine Stands Up**

by Dr. I. B. Boughton  
 Texas Substation No. 14, Sonora, Texas

Ample proof that sheep roundworms can be controlled in West Texas by free-choice feeding of phenothiazine-salt mixture, with no danger of poisoning, is revealed in a 4-year test at this station.

The test was made to find the answers to two specific questions: 1) Whether phenothiazine-salt mixture, fed to sheep free choice, would control stomach and other roundworm infections. 2) Whether long time use of such a mixture would be poisonous to sheep.

Answering both questions, it was effective and it was not toxic.

Sheep used in the test were fairly heavily infested at the start, showing an average of 1180 worm eggs per gram of manure in ewes and an average of 1700 in lambs. The count decreased steadily to 60 for ewes and 30 for lambs by the fourth year. The worm eggs in the manure did not hatch, an important point since the failure to hatch shows that the infestation of the range was being reduced.

But don't throw away the drench gun. In 8 Minnesota flocks, where sheep were given a phenothiazine drench and had free access to phenothiazine-salt mixture, the lambs weighed 93 to 104 pounds. They dressed out 47.4 to 48.9%; and over 90% of the carcasses graded AA.

On the other hand, in flocks where the sheep were given the phenothiazine-salt mixture but were not drenched, the lambs weighed 87-99 pounds; they dressed out 46.8 to 47.4%; and 11% to 40% graded AA.

**Speaking of By-Products**... Here's a movie about "em"—just the film to complete your community or school program: a 16mm. sound, color cartoon, "BY-PRODUCTS." It runs 10 minutes—and tells the story of livestock by-products and their uses. You may also want to show "MEAT BUYING CUSTOMS," another 10-minute cartoon. For a history of the livestock-meat-packing industry, you'll like "LIVESTOCK AND MEAT"—49 minutes, black and white. "A NATION'S MEAT" is a shorter version—30 minutes—full of information on the American meat supply. Then there is "COWS AND CHICKENS... USA," a story of diversified farming—the dairy and poultry business in a nutshell. Please give us at least a month's advance notice to handle bookings. We can ship by express or parcel post. Only cost to you is payment of express or postage one way. A 16mm. sound projector is required. Order from Agricultural Research Dept., Swift & Company, Chicago 9, Illinois.

**A Steer is NOT all Beef**

Let's take a look at this steer. It weighs 1,000 lbs. It's not all steak. In fact, only a little more than half is salable beef.

Hanging in Swift's cooling room, our steer has become two sides of beef. Together they weigh 543 lbs. What happened to the rest?

Modern meat packers save everything of value from the steer—heart, tongue, liver, sweetbreads and other fancy meats. Hides for leather; bones, blood and scraps for animal feeds. Glands for medicines. All told, 161 lbs. of the steer is saved in by-products.

But 296 lbs. is shrinkage and material of no value. Only the meat and by-products can be sold.

What happens to the money the meat packer receives? It is used to buy livestock and other raw materials. It meets the expenses of slaughtering, dressing, refrigerating, transporting and selling. It pays rent, insurance, taxes—all the costs of doing business. The amount remaining after all of these expenses are paid is the meat packer's profit. Over a period of years, Swift & Company's profit has averaged a fraction of a cent a pound on the products we sell.

That's the explanation of the "spread" between livestock prices and wholesale meat prices.

**We All Want the Top Dollar**

You, as a producer of livestock, want to get the best price for your animals—the top dollar. As a salesman for Swift & Company, selling the products which result from these animals, I, too, want to get the top dollar.

The meat packer's buyer has to judge the grade of the animals and estimate how they will yield. He then makes his bids in competition with buyers for many meat packers and other commercial slaughterers. To get the animals, he has to offer going prices. Otherwise he just won't get them; somebody else will. And that "going price" which he must pay depends on the number of animals on the market and the demand for them.

After Swift & Company has made the animals which it has purchased into meat and by-products, we must sell them, again in stiff competition. If we don't offer meat at the going price, retail meat dealers will buy from somebody else who does. This competition in both buying and selling is so keen that we have to operate on a margin of profit which averages but a fraction of a cent per pound of product handled.

In our business, as in yours, it takes hard work and good management to come out with money ahead on a year's operation. Our efficiency in selling meat and by-products results in important economies and savings. Only through such savings can we earn our profit—and help increase the value of your livestock.

- About ¼ cup water
- 3 cups milk

Clean, wash and cut up chicken into serving pieces. Dry. Combine corn meal, flour, salt and pepper in paper bag. Put chicken pieces into bag, close top and shake bag until pieces are well coated. Reserve excess corn meal-flour mixture for gravy. Brown chicken well in hot bland lard in heavy skillet. Add ¼ cup water. Cook tightly and simmer slowly for 1 hour or until chicken is tender. Add remaining water as needed. Remove chicken and keep it while preparing gravy. Combine corn meal-flour mixture with drippings in skillet. Brown lightly. Stir in the milk and cook until meal is cooked and gravy thickened. Serve gravy with chicken.

**The facts you need to choose a washer wisely!**

No general words... no vague statistics... but actual, unretouched photographs

**SHOW THE BENDIX METHOD IS MORE THOROUGH!**

At last it's possible to know in advance what results to expect from the washer you buy. No more disappointments if you read and heed the results of tests just completed by America's largest independent testing laboratory.

The Bendix outwashed all others tested for both soil and germ removal.

Matched against three leading non-automatic washers in two-way tests of washing thoroughness, the Bendix did a much better job than any of the others, according to reports from the Pittsburgh Testing Laboratory.

In soil removal tests, the Bendix automatic Home Washer removed 25.3% more soil than the "next-best" machine tested.

In germ removal tests, the Bendix did 10 times as good a job as the other washers tested!

Best way is also thriftiest and easiest!

According to the Pittsburgh Testing Laboratory's report, the do-everything Bendix used 40% less soap than the average of the other washers tested, and averaged 10 gallons less water for a single load of clothes! Get the whole story and see a demonstration at your authorized Bendix Dealer's.

Treasured moments of Texas History

In 1821 the destiny of Texas pivoted on the decision of a single man, Moses Austin of Missouri. Falling upon hard times, he came to Texas seeking permission to establish an American colony, which he lived only long enough to receive. Under the leadership of his capable son, Stephen F. Austin, the original colony of 300 families soon grew to 5,000, who lived and prospered on the banks of the Brazos in what is now Austin County. These were Texas' first families. From the Austins our State Capital was named.

From that treasured moment in Texas history has grown a great State in which the good things of life are enjoyed by millions. Three generations, for instance, have enjoyed the fine quality of Texas' Own PEARL Beer. In those treasured moments of relaxation it has become traditional to say, "Bottle of PEARL, please!"
