### RAINS OF PAST TEN DAYS COVER TERRELL COUNTY

Intermittent rains over the county for the past ten days have finally given general moisture to the entire county. While some sections have received more than others, onehalf inch is the smallest amount reported and that was on the John Harrison ranch.

This area was more favored than some adjacent sections that suffered heavy losses from hail and heavy rainfall. Local rains at intervals for over a week prevented the loss of large quantities of water although some water gaps washed away in the north and west parts of the

county washed away. The local rain gauge showed 2.28 inches of rain for Sanderson but the skies cleared Monday and the temperature raised to

90 degrees in the afternoon. Local rainfall to date for the year has gauged almost seven inches. The entire rainfall for 1948 was around five inches. This is the first time for general rains over the county in over

Ranchmen of the county are happy to again have sufficient range for their flocks and in most instances are not feeding. Spring lambs are reported to be in good shape and ewes fair. Marking and shearing in progress now will show a better average in the lamb crop than was expected after the drouth of the past two years.

### Zackie Blair Bitten By Rattlesnake

Zackie Blatr, the two-yearold son of Mr. and Mrs. Zack Blair, was bitten on the right wrist by a small rattlesnake on den early last Friday morning He was playing in the yard with two children about the same age when his parents were attracted by his cries but thought he had hurt himself playing. After bringing him in the house, the arm soon began to swell and then one of the children told that he had been bitten by a snake. The Stirmans found the snake which had only one rat-

tler and a button. Mr. Blair gave the child a shot New York City. The firm is the treatment was continued. The Blairs have remained here at Borst was in San Angelo two the home of Mrs. Sam Bell and weeks ago and is appearing in the child was pronounced out of

How We Licked The Parking Problem

For a while it looked like we'd have to put up parking meters. Folks working in town-including some of the store owners-were taking up all of the space along Main Street.

Farmers coming in to shop never found a place to park, and sometimes had to lug stuff a half mile or so. Some started to do their buying in other towns. Finally, store owners and farmers had a gettogether-with the result that the empty field near the depot was fixed up for all-day parkers.

Now farmers get their shopping

done comfortably, and the chants have a better place t than they had before. Just little friendly co-operation to everybody happy.

From where I sit, most di ences can be ironed out by talking things over-maybe wit cup of coffee or glass of beetseeing the other person's side Next time you have a problem a little difference to settle, why try just that?

# .in the new ELECTRIC refrigerators

There's plenty of room in today's ELECTRIC refrigerators for the frozen foods that mean so much to modern living.

Most 1949 models have freezer space for 20 to 50 pounds of frozen foods, ice cream and ice cubes. Some have a separate freezing compartment with its own outside door.

And, of course, being ELECTRIC, they provide ample reserve power for the hottest summer weather, plus low cost of operation that's figured in pennies
