Monday night officers mounted on horseback returned to Marfa from trailing the murderer of Sheriff O W. Morrow of Presidio County. The posse reported that George Davis, a freshman in they had lost the trail on a rock bluff about 15 miles from the scene of the murder.

The posse included Terrell County Sheriff J. S. Nance, Deputy Sheriff B. F. Anderson, Texas Ranger Forrest Hardin all of Sanderson.

The officers said that the suspect is traveling on foot through the rough country north and west of Presidio and it is supposed that he is wearing the handcuffs that were missing from the car of Sheriff Morrow. and that he is armed with the sheriff's pistol since an empty hull and an unfired cartirdge fit. ting the murdered man's gun were found near the scene of the crime. Traces of the missing man's stumbling and falling several times on the trail led the officers to believe that he was wearing the handcuffs.

The Presidio County was shot and left dying on the Presidio road and officers pelieve that the sheriff had stopped to pick up the man and was overpowered and shot with his own gun in the struggle with the man. It is believed that the missing man was holding the gun at Was lischarged.

Morrow was shot through the chest and was hit with a heavy object over the eye. He made it back to his car after he had run into a fence and fallen and proceded down the highway about a mile before he lost control of the car due to meakness and was found dead in the car.

The missing man headed off in a northwesterly direction from the point where Morrow was shot and the trail later doubled back toward the Rio Grande River. River riders and border patrolmen were stationed along the river to attempt to prevent the missing man from crossing and the posse continued to search for the trail. Juan Ochoa, Presidio County deputy sheriff at Presidio, was instrumental in finding the foot trail that led away from the scene of the crime and later picked up the trail after it had been lost on the rock bluff. Local officers joined the hunt Monday and Monday night and returned to Sanderson early Tuesday morning to await further developments in the case. Ranger Hardin remained with the group of officers in Presidio. According to a report received Wednesday, the man is known to have crossed the river. Mexican officials are cooperating with officers from Texas to attempt to apprehend the man Funeral services were held for Sheriff O. W. ... if it had come down from its 1939 price like the unit cost of ELECTRICITY

Anyone will agree that coffee at 16c a pound would be a bargain today. But that's what it would sell for if it had come down from its 1939 price* like the unit cost of electricity.

Your electricity is one of few things you buy that hasn't gone up during the last 10 years. In fact, due to increased use on the lower steps of your sliding-scale rate, the average price per kilowatt-hour has come down 30% since 1939.

True, your electric bill may be higher because if yours is the average household you're using 68% more electricity than in 1939. But the price you pay per kilowatt-hour was never lower than it is today.

From where I sit ... by Joe Marsh Handy and Easy Are Both Wrong

Handy Peterson and Easy Roberts got in quite an argument the other day over at Fred's Garage talking about the best spot to fish up at Green Lake.

"Opposite the old sawmill is the best spot," says Handy. But Easy "pooh-pooh's" him. "I've seen the biggest fish caught off Cedar Point," says Easy. "I've been catching them there for years."

Then Fred goes into his office and brings out the biggest mounted rainbow trout you ever saw. "Bet that was caught at the sawmill," comments Handy. "Cedar Point,"

Both Wrong says Easy. "Well," says Fred, "you're both wrong. I caught this

baby right out in the middle!" From where I sit, there are always two (or more) sides to every story. Let's live and let live in the true American tradition of toleration. Your opinion is worth a lot, but so is the other fellow's -whether it's on politics, the best fishing spots, or whether he likes a temperate glass of beer and you
