## LISTEN TO LUKE

Congressman Ken Regan and Mrs. Regan were in Sanderson this week in the interest of his campaign for re-election. The Congressman has been unable to get around sooner because of his duties in Washington.

Mr. Regan stated that he is confident of a victory in the July 22 primary. He feels that his record in Washington will justify his return. Since his duties of office have kept him in the Capitol he has been unable to shake as many hands and kiss as many babies as would ordinarily be expected of a candidate for the important post. He only stayed in Sanderson a few hours but stated that he was grateful for the missionary work that his friends have done for him. While on the subject of candidates, this column was visited by Judge Joel W. Cook of Houston this week. Judge Cook is campaigning the state for votes to put him on the Court of Criminal Appeals. His campaign is based on the sincerity and courage to restore law as the guiding principle of the Court of Criminal Appeals. He takes vigorous exceptions to recent decisions of the Court, such as the case in which a conviction for murder by stopping failed to show that the accused stomped and kicked with his feet.

And in the case of Gragg vs. State, the Court of Criminal Appeals reversed because the indictment failed to show that the crowning was accomplished with water, he said.

Cook said that he is the only candidate for that high office who has criticized the work of the Court, and that he should be elected as a rebuke to the Court.

This column has mentioned these cases in previous attempts to show the child-like conduct of some of our high-salaried office holders. If Judge Cook is sincere, which we do not doubt, he should be sent to that Court to help stop such daily-dallying. The most ridiculous rulings — and they come from our highest Court of Criminal Appeals.

Citizens who are volunteering to help raise the fund for the advertising of Highway 90 and other highway projects for Terrell County have reported excellent response so far. We all realize the importance of the effort to obtain more tourist traffic through Sanderson. Since this work was started last year there has been a decided increase in traffic.

Those big bill boards are doing the job for us and the interest that is being shown here will lead to further endeavors in letting the people know of the splendid all-weather highway and the beautiful scenery along the route.

Sanderson is noted from California to Florida for the splendid courts here and the pleasant cool nights for comfortable rest. Last week a couple drove in from the west and said they drove later than they usually do because they had heard of the fine courts here and the cool nights. Believe me, we can get them to come back if we can only get them here one time.

In the reorganization meeting of the Terrell County Highway 90 Association here last Saturday night the group re-elected this columnist as chairman and W. C. Downie as secretary. All we can pledge for the year ahead is that with the help of each and every citizen of Terrell County we will try our dead level best to put this route before the travelling public so that all this part of the country will benefit from our efforts. And, we believe, the travelers who happen our way will also benefit.

## IVY-LONG WEDDING AT DEL RIO TUESDAY

Miss Edith Long and O. C. Ivy, Menard County ranchman, were married Tuesday evening in Del Rio at the Methodist parsonage. They will reside at their ranch some near London in Menard County.

Miss Long, a daughter of Mr. and Mrs. John Y. Long of Del Rio has been a frequent visitor here with her sister, Mrs. John Harrison.

## REGAN'S VISIT SANDERSON

Representative and Mrs. Ken Regan were in Sanderson Monday enroute from Alpine to Fort Stockton in the interest of his campaign for U. S. Representative from the 16th Congressional District.

Mr. and Mrs. Allen B. Bosworth of San Francisco visited here with his uncle and aunt, Mr. and Mrs. D. O. Bosworth. The couple, on their wedding trip, were en route to New York.

## Texas Tidelands Bill Must Clear Regan's Sub-Committee

A telegram received by The Times Wednesday is reprinted for the information of those interested in the Texas tidelands controversy which has caused considerable conversation on the part of Texans recently.

"Midland, Texas, July 12 — A new twist to the Texas tidelands controversy was brought to light recently by the Washington correspondent of the Houston Post. If the administration tries to put through a bill for Federal Government control of the Texas tidelands, it will find a Texan in a strategic position to block it. He is Rep. Ken Regan of Midland, who is chairman of the Mines and Mining Subcommittee of the House Public Lands Committee. Such a bill would have to be referred to the Regan subcommittee before any action on it could be taken by the house as a whole. Regan does not predict what would happen to such a bill. He merely says it is 'not very much interested in it.' But when a committee chairman is not interested in a bill it rarely gets further than the nearest pigeon hole. The Houston Post story also said: 'Big genial Ken Regan is one of the best liked members of the Texas delegation in Congress. And he works very hard at his job. For a comparative newcomer to become chairman of an important subcommittee is no mean achievement. The public land committee is not too well known in Texas, which up to a short time ago thought it owned all the public lands which it had when it entered the union, but it has charge of about 400 million acres owned by the people of the United States, plus the affairs of Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U. S. possessions. All legislation relating to leasing and the development of the public lands for oil and mining must be cleared first by Regan's subcommittee.'"

## July 25 and 26 Date Set For San Angelo Rambouillet Show

San Angelo's fourteenth annual Rambouillet Show and Sale will get underway at the fairgrounds in San Angelo July 25 and 26. More than 350 entrants have been listed. Under the sponsorship of the San Angelo Chamber of Commerce and the American Rambouillet Sheep Breeders Association, the show and sale has 23 consignors representing Texas, Utah and New York.

In the show division, which will be held Tuesday, July 25, \$350 in premiums will be offered in five classes of judging. Classes are the champion ram, two-tooth ram, four-tooth ram, pen of five two-tooth rams, and pen of 10 two-tooth rams. L. D. White, Rambouillet breeder from Fort Stockton, will be the judge for the show.

Sheep entered in the show must be offered for sale through the auctioneer, Walter Britten of College Station will be the auctioneer for the sale which will be held Wednesday, July 26.

Members of the show and sale committee are: John Williams, chairman, Eldorado; Louis Bridges, Bronte; Ellis Owens, Sheffield; Miles Pierce, Alpine; Leo Richardson, Iraan; Pat Rose, Jr., Del Rio; R. O. Sheffield and Jack B. Taylor, San Angelo; and L. D. White, Fort Stockton.

## Ellis McDougal's Mother Buried In San Antonio Friday

Funeral services were held in San Antonio Friday for Mrs. Laura Alice McDougal, 74, who died at her home in that city Thursday following a brief illness. She had been a resident of San Antonio for sixteen years.

She is survived by three sons, including Ellis McDougal of Sanderson, and three daughters, twenty grandchildren and ten great grandchildren.

Mr. McDougal was at his mother's bedside for several days before her death.

## BAPTIST CHURCH REVIVAL JULY 19 TO BRING FAMOUS MEN'S' QUARTET

Rev. R. L. Wittner of Alpine will lead a series of evangelistic services at the First Baptist Church here commencing Wednesday, July 19.

Everyone is extended a cordial invitation to attend the services which will be held at 8 p. m. each evening, according to Rev. Clifford Spencer, pastor of the church. For the opening service of the revival, the Melodytime Male Quartet will be presented at 8 o'clock at the church.

The four young men composing the quartet and their accompanist represent Temple University, the Westminster Choir School, the King's College and the Bible Institute of Pennsylvania. They are also known as the Musical Ministers.

## GOOD RAINS COVER MOST OF COUNTY

Reports of scattered rains have come in from various parts of the county this week with the heaviest to the west from Longfellow to Marathon. Steve Stumberg, Sr., reported an inch of rain at his place and ranging from there on down on the river. Most of the precipitation has been in small areas of coverage and the country is still lacking a general rain, the like of which has been long overdue for many months.

There have been good rains reported in the Big Canyon Country, on the Downie ranches north of town. John Harrison, Reginald Monroe, Lee "Dudley, Asa Jones, J. Garner, Austin Nance and A. A. Shelton also report some rain.

In the country just to the west of Sanderson Herbert Smith, W. R. Stumberg and S. L. Stumberg also reported rains.

Light showers have fallen in Sanderson, the heaviest shower Monday evening measuring only .006. The weather has been cooler but the humidity quite noticeable and cloudy skies day and night bring hopes for more rainfall to all sections of the country.

Sanderson was forced to use the local generating plant Tuesday night while repairs were being made to the high-line between here and Fort Stockton. The electric storm Monday night put five poles on the ground and badly splintered six others about fifteen miles south of Fort Stockton and about halfway between Sanderson and Fort Stockton.

Southern Pacific's new Sunset Limited streamliner, embodying many innovations for passenger comfort and operating on a fast new schedule between New Orleans and Los Angeles, will be put in service on August 20, according to H. H. Gray, passenger traffic manager in Houston.

The 15-car, diesel-powered Sunset Limited will make the 2070-mile run in 42 hours each way between its respective terminals, cutting five hours off the east-bound and three and one-half hours off the west-bound schedules of the present train which carries the same long-familiar name, Mr. Gray said. The new streamliner will depart from New Orleans at 12:30 a. m. and arrive Los Angeles the second day at 4:30 p. m. Eastbound it will leave Los Angeles at 8 p. m. (PST) with New Orleans arrival at 4 p. m.

Five complete sets of equipment coating approximately \$15,000,000 will be required to maintain the new train's daily service over the railroad's historic route through southern California, the Southwest and into the old South, the announcement stated.

Each streamliner will consist of 13 passenger carrying cars, including four chair cars and six sleeping cars, with accommodations for a maximum of 312 passengers. Also, there will be a coffee shop-lounge, a diner and a full-length lounge in mid-train.

Sleeping cars on the train will have rooms, exclusively, 60 roomettes and 36 double bedrooms. Each roomette is compactly arranged with every privacy for single occupancy. The double bedrooms are of two types, each with enclosed toilet and washroom. The beds in one type are crosswise of the train and lengthwise in the other type. Both types are arranged in pairs and may be opened en suite to form a master drawing room, complete with a large arm chair, Mr. Gray explained.

Exterior of the new Sunset Limited will glister with the stainless steel construction of the cars, on which a continuous band of red above the windows will extend the full length of each train. Decorative designs and color schemes for the car interiors will reflect characteristics of the varied regions through which the new trains are to operate, it was stated.

## Local Officers Take To Air For Criminal Apprehension

The Texas Department of Public Safety this week authorized the local sheriff's department to use radio transmitters and receivers on the department's wave length. Two transmitters and receivers have been installed with the possibility of another to be added in the near future. The two radios have a 50-watt transmitting power and enable the local officers to reach over Terrell County and cover a wide range by their use.

Several testing runs have been made by the officers to the various parts of the county at different times of the day and night and they report that reception is good at all times but with some interference from static at night. There are some blank spots in the county where reception is impossible. These are usually small in area and do not drastically hamper the radio's use.

Longest range attempted for the officers thus far is about 30 miles and reception was clear and strong at that distance. It is expected that after the installation of the third set relay reports will give the officers a range far beyond their scope of use.

The varied uses and advantages of the two-way radios are numerous and can and will save much time in the apprehension of law-breakers as well as many unnecessary miles in the routine patrol work of the officers' cars.

The officers stated that the radios were obtained without cost to the county or taxpayers and that they were installed for convenience and time-savers that would help them to carry on the duties of their office to a better advantage.

## Health Officer Cites Reasons For Hysteria Control Due To Polio

Austin, July 12 — State Health Officer George W. Cox has turned the bright light of optimism on the heretofore dark picture of polio in Texas.

Observing that the state's 1,000 cases of polio since the year's beginning has occurred among a population of seven and one-half million people, the health officer Thursday deplored "the attitude of hysteria that polio creates in a community."

That didn't mean people should not be concerned, the doctor commented, for a case of illness in any form is good reason for great concern.

"I'm talking about the fear that keeps a person or a whole community from thinking straight. Of course each case of polio is an individual tragedy for the family involved, but wholesale public panic simply is not justified."

He doesn't want to encourage complacency either, the health officer said, adding:

"Every clear-thinking effort must be made to keep every home, every community, every vacation camp consistently clean and sanitary. Briefly, elimination of fly and insect breeding places, personal cleanliness, and getting milk, water and food from safe, approved sources will aid in preventing a number of communicable diseases."

National statistics, Dr. Cox asserted, show good reason for optimism in most cases of polio. According to the figures, from 40 to 60 per cent of all victims recover completely and can do anything they choose.

From 25 to 40 percent recover with only minor disability, and can, within very wide limits, lead perfectly normal lives. From 15 to 20 per cent are more severely handicapped and 5 to 10 per cent terminate fatally.

"It all goes to show that polio is actually a minor cause of illness, and an even less significant cause of death, when compared to certain other communicable diseases," the health officer concluded.

## ESMERALDA GONZALES BORN HERE JULY 6

A baby daughter was born to Mr. and Mrs. Roman Marquez Gonzales on Thursday, July 6. She was given the name, Esmeralda. The couple has three other children.

## SHARON KAY HALL BORN HERE SUNDAY

A little daughter was born to Mr. and Mrs. Alton Hall here Sunday night. She weighed eight and one-half pounds and was named Sharon Kay.

Mr. Hall is minister of the local Church of Christ. This is the first child for the couple.

W. H. SAVAGE, JR., ON U OF T STAFF

William H. Savage, Jr., has recently been appointed to the staff of the University of Texas where he is employed part-time in the Defense Research Laboratory.

A son of Mr. and Mrs. W. H. Savage, Sr., of Sanderson, young Savage is a graduate of the Sanderson High School and holds a Bachelor of Science degree in mechanical engineering from the University of Texas. He is a student member of the American Society of Heating and Ventilating Engineers and is now working toward a Master of Science Degree in mechanical engineering.

Mr. and Mrs. Savage, Jr., reside in Austin.

## FINAL PLANS MADE FOR X-RAY SURVEY

Final plans for the mass chest x-ray for Terrell County were made Monday evening in a called meeting at the courthouse with the executive board of the Terrell County Tuberculosis, officers and committee chairmen present. Mrs. H. A. Smith, president, presided at the meeting.

The date of the survey is July 21-22 with the equipment arriving July 20 and assembled in the vacant building adjacent to the Community Public Service Co.

Mrs. J. W. Byrd and Mrs. Hortencia Arredondo have arranged for adequate clerical help to register those attending the survey. A \$25 bond will be given to someone who has their x-ray made during the survey.

Every person in the county fifteen years of age or over is urged to take advantage of the free service that is offered by the State Department of Public Health in cooperation with the county tuberculosis association.

Only a few seconds will be required to make the x-ray picture and it will not be necessary to remove any articles of clothing.

Persons in apparent good health have been found to have tuberculosis. Through the mass chest x-ray the disease could be completely wiped out in a few years and every effort is being made to find active cases all over the state and secure adequate treatment for the patient and preventive measures for those coming in contact with the patient since the disease is communicable.

The local association will have regular meetings on the second Monday of each quarter of the fiscal year, the months of March, June, September and December.

Mrs. Charles Chandler and Virginia made a business trip to Alpine Monday accompanying Mrs. Walter Grigsby, who is attending summer school at Sul Ross.

SKETCH D

### Barrier Lines For No-Passing Zone

Take a look at the broken or dashed line in the sketches shown accompanying this story, and then look again. This is a barrier line for a no-passing zone, and it can be readily recognized on the road because it is yellow paint covered with thousands of small glass beads that reflect light from car headlights at night to make the stripes more visible.

This is a companion line for the center line on two lane roads and lane lines on three lane roads at points where you do not have a

clear view of the road ahead for a distance of at least 1,000 feet, and there are some 23,000 miles of highways on the State Highway System on which such points are marked. The broken yellow barrier line is one of the big guns fired by the highway department in the battle for traffic safety. The Highway Commission recently provided ammunition in the form of a \$500,000 appropriation for road pavement markings during the year 1950.

What does the broken yellow barrier line mean? It means that you are violating the law when you cross a barrier line that is on your side of the center line, and you are subject to arrest and fine if you are caught. Even if you are not caught, it means that you are inviting a chance to shake hands with death.

Remember that it takes about 2,400 feet or six and one-half blocks for you to pass a car traveling at 50 m. p. h. when you are traveling 60 m. p. h. and there is

a car in the opposite lane traveling toward you at 60 m. p. h. When the dashed line is in your lane and you cannot see the roadway that is ahead for more than 1,000 feet, or three blocks, and blind flying is hazardous.

Last year's toll from violations of the broken barrier line was 22 dead, 109 injured and \$689,350 in economic loss. The accidents that resulted in this toll of deaths, injuries and property damage cannot be justified on the basis of a mistake in judgment on the part

of motorists — they were violations of the law: violations in which the innocent as well as the guilty paid the price.

Don't let your impatience get the better of you and try to pass

when there is a broken yellow barrier line in your lane unless directed to do so by an officer, for you are not only endangering your own life, but that of an innocent motorist as well.

## LECTURE ON 'MODERN ART' BY WILLIAM LESTER

William Lester, art instructor at Sul Ross College during the summer term, was presented by the Sanderson Culture Club and the Evening Study Club in a lecture on "Modern Art" in Fellowship Hall of the Methodist Church Saturday afternoon at 4 o'clock.

Mr. Lester was introduced by Mrs. W. G. Downie, a former pupil at the University of Texas. "A painting is something that has to stand within its own scope on its own merits," said Mr. Lester. "It does not have to recall a story or something you have seen to be considered a good painting. Painting is visual education," he added.

A portfolio of paintings by his students was used to illustrate points of his lecture and later placed on exhibit.

Mr. Lester, art instructor of the University of Texas, held a one-man art exhibit in an art gallery in New York in 1948 and another there this spring was very successful.

Following the lecture, the guests were invited to the tea table for refreshments. The table was laid with a red linen cloth and centered with a large arrangement of fruit and vegetables flanked by large pottery chicken figurines. Punch was labeled by Mrs. J. W. McKee from a china punch bowl placed at one end of the table and open-face sandwiches and cookies were served.

## Texans know a representative needs time to get ahead in Congress

(It takes from 10 to 15 years to work up to positions of leadership in Congress)

Fred Hervey at 40 is the only candidate in the 16th Congressional race who has time to work up in Congress. (Paul Moss is 64, Ken Regan is 57.)

Fred Hervey at 40 has the youth and vigor to work long hours in Washington.

Fred Hervey is the only candidate with no political obligation to any group, clique, newspaper of locality.

Fred Hervey has gone into businesses with which he has had no experience, applied business principles, and made a success. He successfully operates two grocery stores, seven restaurants, a 1300-head hog feeding business, a radio station, a reduction plant and a hide house. Government is just another business.

Fred Hervey has a liberal profit-sharing plan for his employees. He has been a leader in Rev. Cross work for three years.

He is a veteran with 17 months service in the Pacific in World War II.

## There it Was— Right in The Middle!

Easy Roberts mowed his lawn early last Saturday. Then he sat on the porch, and watched Handy Peterson cutting his grass.

The Roberts' property and the Peterson's border each other— with no hedge or fence between them. So, when Easy notices Handy had left about a four-foot strip unmowed along the boundary, he walks over and asks why.

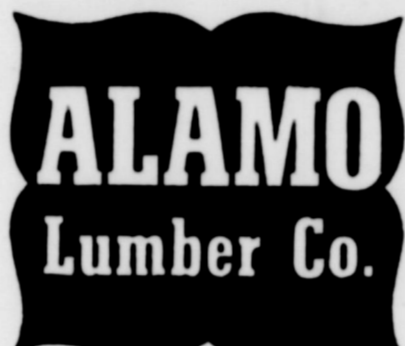

"That's your land," says Handy. "Mine ends here. See, it lines up with that oak tree across the road!" Easy didn't think so, so they went up and down looking for

the surveyor's marker. Where did they find it? Right in the middle of their "no man's land!"

Well, they both grin and take turns finishing the job and then retreat to Easy's for a friendly glass of beer together. From where I sit, a little searching around for the truth of the matter often shows that the other fellow is as much right as you are—at which point the whole thing doesn't seem as important anyway.

### Joel W. Cook Here Campaigning For Post As Appellate Judge

The announcement of the candidacy for the Democratic nomination for Judge of the Court of Criminal Appeals of Texas came as a result from a firm conclusion on the part of Joel W. Cook that there is great need for improvement in the work of that court.

Cook said that he was a one-man crusade for justice in the courts of Texas.

He was graduated from the Baylor University and Baylor Law School, a veteran of World War II and is now engaged in the private practice of law.

He takes vigorous exceptions to recent decisions of the Court of Criminal Appeals such as the case of Gragg vs. State in which a conviction for murder by stomping and kicking was reversed because the indictment failed to show that the accused stomped and kicked with his feet. Cook cited another decision of the courts that were reversed by the appellate court because the indictment failed to show that the drowning of a woman was accomplished with water, he said.

**Tea Wednesday Fetes Miss Harriet Pierson**

A tea and miscellaneous shower at the C. C. Mitchell ranch home Wednesday afternoon honored Miss Harriet Ann Pierson, bride-elect of Kight Lane. Hostesses were Mrs. Mitchell and Mrs. H. E. Schroegler.

The honoree and her mother, Mrs. E. F. Pierson, joined the hostesses in the receiving line to welcome the guests. Miss Pierson wore a green and white print afternoon frock and a corsage of pink asterettes.

Miss Mary Nell Higgins registered the guests in the bride's book and Miss Joan Byrd directed the guests to the gift display. Other members of the house party were Mesdames J. W. Byrd, Fred Byers of Chillicothe, Ohio, N. M. Mitchell and Keith Mitchell and Miss Nancy Mitchell.

Colorful arrangements of zinnias and gladiolus were placed at vantage points in the living room.

The bride's chosen colors of green and white were noted in the decorations and refreshments in the dining room. The lace-covered tea table had a miniature wedding scene for a centerpiece. Green candles burned in crystal holders and punch was served from a crystal punch bowl at one end of the table. Individual cake squares were iced in white with green decorations and the mints and napkins were also in the chosen colors.

Favors were brides cleverly fashioned of lace paper dollies and pipe cleaners.

Mesdames A. W. Pope, J. D. Nichols, J. W. McKee, W. H. Savage, J. W. Byrd and R. S. Wilkinson served alternate turns at the tea table.

About thirty guests called during the tea hours from four to seven o'clock.

**Presbyterian Women Meet Tuesday With Mrs. W. T. Bondurant**

The Circle of the Women-of-the-Church of the First Presbyterian Church met on Tuesday afternoon in the ranch home of Mrs. W. T. Bondurant. Preceding the regular meeting, the executive board met to discuss matters of business with Mrs. N. M. Mitchell presiding. Mrs. Mitchell gave a short devotional closing with a prayer by Rev. John W. Byrd. Members were again reminded that the girls at Pres-Mex school at Taft, Texas, can use sundry sewing materials, such as dress lengths, zippers, tape, bindings, needles, thread, scissors, feed sacks etc. The needs of Tex-Mex, the boys' school at

Kingsville, Texas, were also mentioned.

Mrs. W. H. Savage led the program which was a Bible study of some of David's prayers, found in Psalms 51, 27, and 103. The study was opened with the group singing of "Father in Heaven" and prayer by Mrs. J. W. Byrd. Mrs. J. W. McKee led the closing prayer after the singing of "Worship the Lord in the Beauty of Holiness."

Mrs. Bondurant invited the group to the dining room where sandwiches, cookies, cake and frosted punch were served. Mrs. Savage assisted in serving the cake from the beautifully appointed table. Those present included Mesdames W. G. Downie, W. H. Savage, Montie Wallace, W. J. Ferguson, E. E. Farley, A. W. Pope, J. W. McKee,

### Health for All....

#### X-RAY SURVEY

Tuberculosis is today one of the most serious public health problems in this country. It takes close to 45,000 American lives each year and it is the leading disease-killer among our young people between the ages of 15 and 34.

Moreover, of the estimated half million people in the United States suffering from tuberculosis, about 250,000 are not receiving treatment for their illness and most of them do not even realize they are ill. Tuberculosis has no obvious symptoms in an early stage and thousands of our fellow citizens, unaware that they have this communicable disease, are living, working and playing among us, and may be losing their own good health and innocently spreading their illness.

Who are these people who unintentionally may be endangering their own lives and the health of those with whom they associate? There is no way of typing the kind of person who might have tuberculosis because the disease may strike anyone.

But steps can be taken to pro-

### THE FINEST MATTRESS EVER MADE

*A Lifetime Investment*

FOR A FAMILY WHO APPRECIATES GOOD LIVING

THE FINEST MATTRESS EVER MADE... because it does everything a mattress should do... and does it better! Luxurious... thick... millions of bubbles of air forced into naturally resilient rubber give true cushioned support... a real airborne upthrust that lets your body relax, and encourages deep restful sleep. Beautifully clean, self-ventilating, allergy-proof, vermin-proof, it's light to lift though you don't have to turn it. The "comeback" makes holding its shape natural, so it refuses to lump, bulge, or sag. Specially constructed foundation-board-tied right ways.

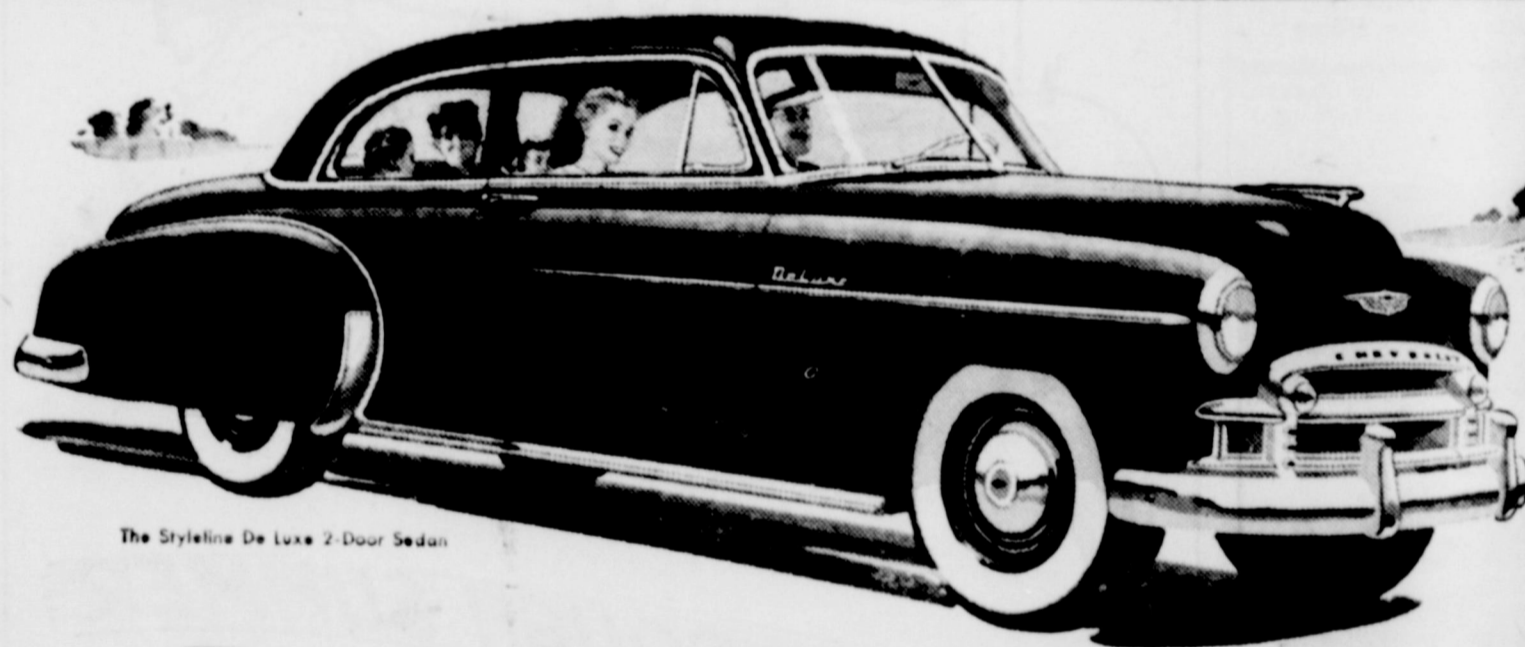

Mattress... 79.50 to 112.50  
Foundation... 64.50

### AS CANDIDATE FOR THE OFFICE OF DISTRICT ATTORNEY

The only promises I make are that I will cooperate with all law enforcement agencies with a view of attaining general law observance; and that I will inquire into violations of the law with care and accuracy, and in each case will examine the available evidence, the law and the facts, consider the applicability of each to the other, and intelligently weigh the chances of successful prosecution, and act accordingly, having always in mind the relative importance of the cases to the District.

I am not controlled by any factions, or groups, political or otherwise, and I have no enemies to persecute by unwarranted prosecution, nor do I have any friends to award immunity from prosecution.
