KEN REGAN for Re-Election CONGRESS of the UNITED STATES

Your Vote Will Determine These Issues

SHOULD THE TAFT-HARTLEY ACT BE REPEALED

"The Taft-Hartley Act in all its vitality and effectiveness should be retained. Now it is essential that vital industry be protected from pro-Red and Radical attack. A vote for me will be considered a vote in favor of the retention of that measure. On this subject my opposition talks about the 'birds and the bees'."

KEN REGAN

MAY THE LABOR LEADERS AND POLITICAL ACTION COMMITTEE PURGE TEXAS CONGRESSMEN?

"This District should repudiate purge attempts by the Political Action Committee and the leaders of Socialized Legislation. This District should elect its own Congressmen without pressure from outside of the District. These Northern leaders are anxious to claim they defeated a Congressman who ignored their orders and voted the will of the majority of his District."

KEN REGAN

SHOULD A CONGRESSMAN HAVE LEGISLATIVE EXPERIENCE?

"I started at the foot of the ladder. I became an alderman in my home town. I then served as Mayor of that fine community. Because of my activities in behalf of the ranchers of West Texas before the Legislature when their land titles were attacked, the people of this district elected me to the State Senate. I served there four years. I think a place in Congress should be awarded for public service and that it is not a position to be acquired by expenditure from wealth."

KEN REGAN

SHOULD A MAN BE CREDITED FOR HIS POLITICAL ENEMIES?

"A man is known by his enemies as well as his friends. Every left-winger and Radical in the District is violently opposed to my re-election. They favor the opposition. No one knows what promises have been made to them by the other side, but it is certain they know I do not favor their views."

KEN REGAN

SHOULD OFFICE-HOLDERS BE MEN OF COURAGE?

"I believe the voters expect me to speak out and let them know where I stand. I am a conservative both personally and politically. I am running under no false colors and I have stated my stand on every public issue. You may think I'm wrong, but you can't think I'm afraid. I believe what I believe and I have unhesitatingly advised you of my views on all issues involved in this campaign."

KEN REGAN

WHAT ABOUT THE WAR EFFORT?

"I was a soldier in two wars. In Congress I have voted in favor of every piece of legislation designed to strengthen our defenses. But I have voted consistently against sending our money to countries for delivery to the Communists. I'll vote to arm and equip those in the military service and to continue to strengthen our defenses. I'll vote against pork-barrel legislation and economy at that level."

KEN REGAN

SHOULD PEOPLE VOTE?

"There are real issues involved in this campaign. The majority vote should express the District's views. I earnestly solicit the votes of the voters of this District. The time has come when the people of West Texas should stand up and be counted on basic beliefs as to our government. I respectfully urge you to exercise your right and to vote your views on my candidacy."

To The Voters of Terrell County:

The friends and supporters of Ken Regan in Pecos take this means of thanking you for your votes and your support of Mr. Regan in the recent primary election and urge you to take time out to go to the polls on August 26th and again give him a large majority.

We especially appreciate the caurageous article of the editor of this newspaper in his "Listen To Luke" column of date August 11th, 1950, where he takes his stand with Ken Regan and condemns the tactics of his opponent in the publication of his Korean propaganda and article accusing Ken Regan of being responsible for the war. In our opinion this splendid editorial is in keeping with the finest traditions of American journalism.

It is vitally necessary that all the voters go to the polls on August 26th and we sincerely hope that you do so and continue to vote for Mr. Regan in order that he may maintain his lead over his opponent. He is indeed worthy of your support.
