From where I sit ... by Joe Marsh **New Use** For Old Windmills

I drove past Larson's farm last week and saw him perched on top of his 75-year-old windmill. "Still planning on tearing it down?" I shouted up to him.

"Not on your life," says Curly as he climbs down. "I'm getting myself a television set from Buzz Ellis' and he says this windmill is going to come in mighty handy.'

"You see," Curly went on, "I'm going to put my TV antenna right on top of it. Since the windmill is higher than the house, I'll get the best reception around here-but

if it wasn't for Buzz and in advice, I'd have scrapped it.'

From where I sit, Curly's su as a farmer and his popularity in town is due, in a large part, to his open-mindedness and his willingness to listen to people and the opinions. He'll listen to Buzz Ellio over a malted milk or be and I can talk politics - each with a gless of temperate beer. Yes, Curly's as modern as television itself!

## Looking for honest-to-goodness COMFORT?

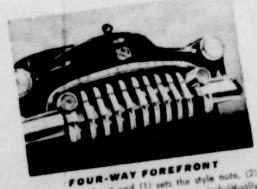

# Better Buy Buick!

You've probably heard a lot of talk about comfort in 1950 cars.

But we'd like to offer one suggestion, which is -let a Buick speak for itself.

We'd like to have you settle yourself (your family too, if you

This rugged front end (1) sets the style note, (2) saves an repair costs—vertical bars are individually replaceable, (3) avaids "locking horns," (4) makes parking and garaging easier.

have one) on a Buick's soft, deep, comfort-angled cushions, and see how restful they are.

More than this, we'd like you to sample that comfort in motion. Slip your fingers around that slender steering wheel, touch toe to treadle and take off in the smooth, unbroken surge of power that Dynaflow Drive\* delivers.

We'd like to have you hunt out some of the less-smooth streets or back roads that never seem to get fixed-and put Buick's soft coil springing and solid underpinning to tough and practical

Standard on ROADNASTER, optional at extra cost on SOFER and SPECIAL models.

All the while, be thinking about what such riding and driving ease can mean on long, all-day trips, and compare it with what you've been used to.

This whole experience is bound to make you want a Buick-and when you ask "how much" you'll get a second pleasant surprise in the low delivered prices your dealer is quoting-prices that start at a level that is actually lower than you'd pay for some sixes.

Your Buick dealer is the man to see and this is the best of all times to see him. Drop in, won't you, to see about getting an order signed?

Tune in HENRY J. TAYLOR, ASC Network, every Monday evening.

McKnight Motor Company
