Statistics compiled during the cluding returned kicks, against side their own part of the field 194 for Alpine. Sanderson made 12 passing of Olivares showed 10 complete for 84 yards, with 6 incomplete and 1 interception. Alpine completed 1 for 8 yards, had 1 intercepted and 5 incomplete.

The charging Eagle line, sparked by Maggie Bustos, 205 pound tackle, went through the Bucks line for many yards lost in the ofbreaking up too many Alpine plays tion. to allow that team to go anywhere played a sportsmanshiplike atti- money holds out. tude during the play that was without censure. The entire game showed extreme determination on the part of the Eagles to come out In Tuesday's Election the victors.

Marfa will meet Alpine this Friday night for another decisive battle in district 9b, Marfa was beaten i earlier in the season by the Bucks in a non-conference game, and the Bucks are favored to win their fray this week end. This will place Sanderson in the top notch for the district title if they are able to hold their own against Fort Hancock and Marfa in the two coming games. There is a possibility that the district title could be thrown into a tie and the Eagle will be on their toes in the balance of the season's games to prevent if possible such an occurence.

The Eagles will play Fort Hancock at 2 p. m., November 11, in

Are Our Texas Highways Being Destroyed by 1% of Highway Users?

This question is presented squarely for the first time by the Texas Tax Journal in its booklet, "The Case of the One Per Centers."

Every Texan who wants good highways, adequate for 99 of every 100 users, should write for a free copy of this revealing book-

Approximately 99% of all Texas motor vehicles are registered for a gross weight of 20,000 pounds or less."*

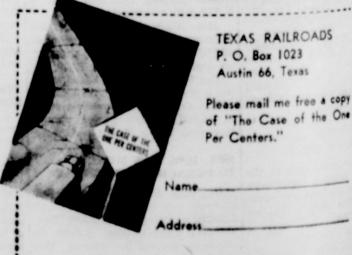

All Texas taxpayers, including your Texas Railroads, have reason to be concerned about the high cost of constructing and repairing our highways and the prospect of building more costly roads made necessary by the operation of highway "box cars"

No one has any desire to bar vehicles of reasonable size from our highways, so long as each pays its fair share of construction and repair costs.

Other Texas taxpayers should not be required to shoulder the burden of a roadway stem for highway "box cars", representing only 1% of highway users.

Every Texan interested in good highways without increasing the growing tax burden should fill out the coupon below and get a copy of this valuable booklet.

Bird in hand that's a Beauty

and a Buy! ow it can be told. This clean-lined, smart-stepping 1950 version is the most popular

Buick ever built. Ever since early in the present year, a value-wise public has been taking them away from us as fast as-or faster than-the great Buick factories could roll them out. Within recent weeks, production and sales have set an

Only Buick has Dynaflow and with it goes:

all-time record.

HIGHER-COMPRESSION Fireball valve-is head power in three engines. (New F-263 engine in SUPEK models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, toper-through fenders, "double bubble" tail. lights . WIDE-ANGLE VISIBILITY, close of oth forward and back . TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius

• EXTRA-WIDE SEATS cradled between the axles . SOFT BUICK RIDE, from all-coil springing, Safety Ride rims, low-pressur de-steadying torque-tube . WIDE ARRAY Of MODELS with Body by Fisher

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening

Count off the distinguished and time-tried features of this winner and you'll know why.

It has a Very Exclusive Motor-Buick's own high-compression Fireball-which gets its driving power from a combustion chamber found in no other car in the

It has the bump-smothering softness of coil springs on all four wheels and a torquetube drive-a comfort combination that no other car provides.

It has Dynaflow Drive*-w'ich ushered in a whole new concept of effortless travel.

It has a brilliant styling which

sets it apart from every other car on the road. And it has prices which say "buy me" to any motorist who's

looking for maximum money's worth. Isn't it sensible, while these great cars are still coming off the

line, to check with your Buick dealer about getting one to call

ED WAGNER DRYDEN, TEXA

Built for tough service - all ways! CHEVROLET TRUCKS with Chevrolet's Hypoid Rear Axle

Chevrolet trucks are engineered to "take it," in every way. Chevrolet's heavy-duty hypoid rear axles offer maximum strength . . . with single-unit housings formed into tubular steel beams, and splined axle-to-hub connections that deliver power more evenly. Gears last longer, too . . . pinion gear is ball-bearing supported at each end, with adjustable thrust pad to prevent distortion on extra heavy pulls. Add these advantages to powerful Valve-in-Head engines, Synchro-Mesh transmissions, and channel-type frames. Then you'll know why Chevrolet is the most popular truck in America. Come see these great Chevrolet trucks today!

Ask Your Gas Station Man!

OLDSMOBILE'S "ROCKET" ENGINE RUNS WITH SMOOTHNESS, POWER AND ECONOMY ON GASOLINE AVAILABLE EVERYWHERE TODAY!

Here's a question we'd like you to ask next time you drive in for gas: "What do you think of Oldsmobile's 'Rocket' Engine?" Chances are, the attendant will tell you that the "Rocket" tops its field in smoothness, quietness and quick-acting power. He'll probably explain that the "Rocket's" high-compression design gives it that thrilling response. We're sure he'll tell you that the "Rocket" uses gasoline available everywhere today and makes every gallon go a long way! Your gas station man kno his engines, and he knows motor car values, too. That's why we think be'll tell you: "Yes, sir, mister Oldsmobile's a smart deal!

Will you be ready when
