**LOOKING AHEAD**  
by GEORGE S. BENSON  
President—Harding College  
Searcy, Arkansas

The owner of a small business establishment in Denver has met the Federal government in the field of competition and has lost. He's about ready to close up shop and "jine 'em." When you've read the account of his plight, as published in the Denver Lions Club bulletin, you can understand why he is wondering whether there's any future for private enterprise. (There is, of course, if the excessive growth of government can be halted.)

But to the Denver business man the outlook is gloomy. He seems almost to have good cause to wonder whether we shouldn't all lay down our cares and get on the Federal payroll. Here's why: A new Federal agency recently set up shop in Denver. It hired a lot of stenographers away from their regular jobs. "It took my secretary, Dorothy," reports the business man, "paying her \$2,650 a year to start, and giving her 26 days' vacation and 15 days' sick leave. I, who happen to be in a highly competitive field, cannot afford to meet these terms, and couldn't even if I wanted to."

**He's Whipped**  
He couldn't, he points out, because the Federal government won't let him. The government has frozen the prices on his merchandise—so he can't make more money. "And then," he moans, "in order to keep down inflation, the government tells me I cannot pay the salary the government itself offered Dorothy." But the irony of the whole thing, the lick that really crumpled his last resistance, was the latest news from Washington, in which the Federal government was saying to him, in effect: "Because we're going to pay Dorothy more money than you could, we are going to have to increase your taxes again."

That did it! And it's enough to make all of us groan—for the new

tax increase demanded by the President and the Federal Treasurer is for \$10½ billion dollars and it would drastically boost the heavy tax load we're all already carrying. The Denver business man now wants a government job himself. "In my present condition," he says, "with his secretary hired away by the government, his earning capacity and future prosperity jeopardized by government restrictions, and with another heavy blow from the tax collector in the offing, "I could certainly use a government job."

**Going Up**  
One reason why the Federal government is telling us that we must cheerfully accept a drastic hike in taxes, and thus a cut in our earning power, is given in the latest

tabulation on government employment. For the 11th straight month, civilian employment in the Executive Branch has increased at the rate of more than 1,000 people a day.

That adds up to 335,000 new stenographers, clerks, bureau executives, chauffeurs, publicity men, etc., in less than a year. It also adds up to a total Federal civilian payroll of 2,443,076, as of June 1, 1951. And to get to the meat in the coconut, it adds up to more than \$8 billion being paid out of our tax money each year for just the salaries and off-time for the huge and everlasting expanding army of civilian workers on the Federal payrolls!

**Pay for Idleness**

A second reason why we're being told we must make personal sacrifices and submit to a huge tax assessment on our earnings is that the Federal government is paying out hundreds of millions of dollars annually for unnecessary, unjustified idleness. Counting "sick leave," vacations (five weeks) and holidays, most of the 2,443,076 civilians on the Federal payrolls get ten weeks off every year at full pay — at least six weeks more than non-government workers.

This extra time off "gift" approval of Congress — is estimated to cost the government \$1,000,000,000 annually. Why must the Treasury, into which our hard-earned money goes, be saddled with this huge unnecessary ex-

pense? And what about the value of the great numbers of the government workers while they're on duty? An ex-governor of Georgia, friend of the administration, quit his Washington job in disgust saying that he "hadn't hit a lick of work" while sitting in an office drawing fat government checks. He also said similar conditions existed throughout the whole Federal bureaucracy, with people actually faking work at their desks! If these unwholesome conditions are not corrected very soon the Federal payroll will begin to swallow up and smother American prosperity and progress. It is time now, while we still have government "by the people", to demand an end to such wholesale waste of our money and our energies.

Mrs. Frank Hovell and baby of Dallas will arrive tonight for a visit with her parents, Mr. and Mrs. C. I. White. She will be accompanied by Miss Betty Lou Frazor of the Baylor School of Nursing, who will visit with her parents, Mr. and Mrs. W. F. Frazor.

Mrs. F. T. Baker returned to Alpine Tuesday to enroll at Sul Ross College for the current semester. She is a junior at the college.

Mrs. H. L. Stuckey and Mrs. Charles Stuckey of Monahan and

Mrs. Deason of Brackettville were guests of Mrs. H. C. Goldwire Saturday.

Mr. and Mrs. C. J. Higgins visited in Kermit last week end with their son-in-law and daughter Mr and Mrs. L. G. Hinkle.

Miss Mary Lou McBee is visiting her aunt, Mrs. H. C. Goldwire. Miss McBee's home is in El Paso. Mr and Mrs. F. H. Talbot and sons visited in Valentine last week with their son, Freddie Talbot, and family.

FERGUSON MOTOR CO.

This one says You've Arrived

HERE pictured is an automobile that may well be the fulfillment of any man's dream of a fine motorcar.

For you've a right to expect, when you pay a fine-car price, that your money will buy more distinction, more comfort, more performance than are to be found in vehicles of lesser worth.

So mark well the things that a ROADMASTER offers.

No other car on the American scene has a prouder bearing.

No other automobile has more spacious dimensions, more luxurious

comfort, or finer appointments.

No other car has a ride more serenely smooth on curve or straightaway, highway or byway.

And no other car, at ROADMASTER'S price or above, has Dynaflow, and the supreme command of every traffic condition which it provides.

So you, at the wheel of Buick's biggest and best, have a right to feel distinguished.

But there's a joy of possession which goes deeper than visible things.

There's the feel of a power plant as brilliantly eager as this great car's valve-in-head Fireball Engine—and the satisfying companionship of a brawny traveler instantly responsive to your every wish.

And there's one thing more, which only ROADMASTER can give you in such generous measure. That is the pride of a wise investment, based on the fact that this car stands alone in price per pound, among fine cars similarly equipped.

So why not take that very important first step—and come in and see us soon?

Equipment, accessories, trim and models are subject to change without notice.
