Vehicle Safety Responsibility Law To Be Explained Fully To Texas Motorists Soon

Austin, August 8 — Homer Garrison, Jr., Director of the Texas Department of Public Safety, today announced his intentions of calling upon the state's newspapers and radio stations to assist his department in putting the "damper" on the false rumors and misinformation that is currently being spread in some circles concerning Texas' new Motor Vehicle Safety Responsibility Law.

Garrison emphasized the state will conduct a thorough educational program in November and December to acquaint the public accurately and adequately with the purposes and requirements of the law which will become effective next January 1st.

At the same time, Director Garrison warned the public not to believe statements that the statute is now in effect or that it is a compulsory insurance law. He emphatically pointed out that the law will have no effect upon the motor vehicle owners and operators until January 1st and declared that under no condition or circumstances will it compel motorists to carry automobile liability insurance.

Football Practice To Begin August 27th, Coach Snowden Says

C. W. Snowden, Eagle football coach, informed The Times this week by mail that the fall training for football would begin August 27 for the coming season. He stated that he expected a good turn-out for practice and that the training this fall would be intensive in preparation for a tough grid schedule during the coming season.

Snowden was assistant coach last year and replaces M. B. England this year as head coach.

Norman Rath has been hired by the local school board to serve as assistant coach for the Eagle team.

The football schedule this year includes only five conference games. The conference was revised following last year's football season due to the fact that both Alpine and Marfa went into class A ratings and had to be eliminated from this conference. Grandfalls was added to the list of teams included in this conference. This is the only new team in the district.

The Eagle schedule will include: Alpine here, September 14; Marfa there, September 21; Fort Stockton here, September 28; Brackettville there, October 5; Van Horn here, October 12 in a conference game; Del Rio there, October 19; Clint here, October 26 in a conference game. Fabens there, November 2 in a conference game; Fort Hancock here, November 9 in a conference game and Grandfalls there, November 16 in a conference game.

Football fans will note that all of the non-conference games are with class A schools besides the game with Brackettville, which is a class B team.

Also all of the games to be played this year by the Eagles will alternate at-home and road games.

The expanse of the travels of the Eagles this year will be between Fabens and Brackettville, a distance of some 426 miles and 97 miles north to Grandfalls.

All of the boys interested in playing football are urged to remember the date of practice beginning and be on hand to work out for the grid sport.

Hard Luck Story Of The Year

Wednesday afternoon of last week about 5:10 a huge live oak tree at the home of Mr. and Mrs. Albert Finley, Jr., in Uvalde, toppled over and crushed the new Buick car parked on High Street and owned by Mr. and Mrs. Seth Davenport, of that city.

The falling tree almost squarely struck the center of the new four-passenger car, causing a near total loss to the car. Mrs. Davenport and Mrs. Braithwaite who was with Mrs. Davenport, were not in the car, as they had already gone into the Finley home.

Mr. and Mrs. Davenport had less than 1,000 miles on the car and no insurance. Mrs. Davenport is the daughter of Mr. and Mrs. J. D. Nichols and they are former Terrell County residents.

At the same time, Director Garrison warned the public not to believe statements that the statute is now in effect or that it is a compulsory insurance law. He emphatically pointed out that the law will have no effect upon the motor vehicle owners and operators until January 1st and declared that under no condition or circumstances will it compel motorists to carry automobile liability insurance.

According to Garrison, the new regulations bear no resemblance to a compulsory law. He pointed further to the fact that only one state has such a law but that Texas became the 35th state to enact a security-type Safety Responsibility Law. It is true, according to Garrison that beginning January 1st a motor vehicle owner or operator who is involved in an accident resulting in death or injury, or property damage exceeding \$100, must furnish proof of his ability to meet claims up to \$15,000 or have his motoring privileges suspended until he does. Proper insurance may be accepted as sufficient proof of such financial responsibility but the law also offers several other choices of furnishing such proof. Among these are the posting of a bond with the Texas Department of Public Safety or the depositing of satisfactory security with the department. Also under certain conditions, individuals or firms may qualify as self-insurers under the terms of the law.

The alternatives will be clearly set forth by the safety department as a part of the education program beginning in November. All such information released by the state will be clearly identified as such, and it will be official, according to Garrison.

In calling upon the press and radio for assistance, Garrison stated: "I am asking the public-spirited newspapers and radio stations of Texas to cooperate with the Department of Public Safety on behalf of the state, in a plan to give our people all the true facts. I am confident that they will do so. This educational program will begin November 1st, two months before the law becomes effective. In the meantime, I hope the people of Texas will not permit themselves to be misled again about this new law, which was enacted for their greater safety and financial protection."

At the same time it ordered the railroads to file within 4 months a uniform classification of freight. Until this is done and the classification adopted, the new rates will be held in abeyance.

The uniform rate adopted on distances up to 3000 miles will mean reductions up to 15 per cent in Southern and Western territory lying east of the Rocky Mountains. Rates will remain virtually the same in Eastern territory, which is that area east of the Mississippi and north of the Potomac and Ohio Rivers.

During the summer the boys' activities have been mostly swimming at the W. G. Downie ranch, according to Stewart.

Next Monday Stewart is taking the boys out to the John Hardgrave ranch for an overnight outing. All boys who are members of the troop and who possibly can be urged to make the trip.

Uniform Rates For Freight Ordered, Rep. Regan Says

Washington, August 7 — Rep. Ken Regan, 16th District, was informed that the Interstate Commerce Commission August 1 ordered uniform class rates — to be effective later — on all railroad freight moving east of the Rocky Mountains.

Returning to active duty from reserve status March 13, Col. Sharp performed duties as executive officer of Air Base Group until his recent assignment.

Prior to his return to service, his home was at Sonora.

Scouts To Start Regular Meetings Sept. 4 at Scout Hut

R. P. Stewart, Scoutmaster, announced this week that the Boy Scouts would begin their regular weekly meetings at the Scout Hut at 6:30 on September 4. He stated that there would be plenty of activities for the boys during the fall and winter months.

OPS Specialist To Be Here Next Tuesday

"Voluntary compliance with the ceiling price regulations is the goal sought by the Office of Price Stabilization, and my purpose is to help the merchants of this area to meet the requirements of those regulations," said Robert Friedberg, price specialist who will be here next Tuesday morning, August 14.

"Any merchant who needs assistance in filling out OPS forms or information as to how he may conform with the regulations is invited to visit the price clinic during my stay here," he said.

The OPS representative will be in the office of the Retail Merchants Assn. while in Sanderson.

Although a specialist in the Consumer Durable Goods section, he will be able to give assistance to all type businesses regarding the appropriate regulations.

GOVERNOR ALLAN SHIVERS gets a smile from little Janalee Davis of Del Rio, formerly a patient at the Gonzales Warm Springs Foundation for Crippled Children. The governor has accepted the general chairmanship of the Foundation's committee for the third successive year and will spearhead the fall campaign to provide additional facilities vitally needed for the rehabilitation of thousands of physically handicapped Texas little ones.

Results of X-Ray Termed Successful

Mrs. H. A. Smith, president of the Terrell County Tuberculosis and Health Association, has announced the following results of the mass chest x-ray survey conducted here on June 28 and 29.

Total x-rays — 690; report from State Department of Health showing 3 non-tuberculosis conditions involving the chest and 17 x-rays suggestive of tuberculosis; all those whose x-rays indicated an abnormal condition have been referred by the State Health Department to their physician for further follow-up study and treatment, if necessary.

The survey was more successful in every way than any previous survey.

Lt. Col. S. L. Sharp, Former Resident, Goodfellow Unit C. O.

Lt. Col. Savell L. Sharp, a former resident of Sanderson, resumed duties last week as commanding officer of the 3435th Maintenance and Supply Group at Goodfellow AFB, replacing Maj. Benton W. O'Neil, who was recently transferred to the Flying Training Air Force Headquarters at Waco.

Returning to active duty from reserve status March 13, Col. Sharp performed duties as executive officer of Air Base Group until his recent assignment.

Prior to his return to service, his home was at Sonora.

Mrs. Gates' Father Dies in Houston

Mr. and Mrs. A. B. Gates returned home Tuesday from Houston where they attended funeral services for her father S. C. Ferguson, who died suddenly in that city Friday afternoon following a short illness. The Gates went by San Antonio and their daughter, Mrs. L. C. Hise, of Falfurrias, accompanied them to Houston.

Mr. Ferguson was buried in Houston Sunday afternoon following funeral services in that city.

He is survived by his widow, another daughter, Mrs. J. W. Butz, Jr., of Houston and two sons, P. C. Ferguson, of Houston and John O. Ferguson, of Fort Worth.

V. F. W. Loses 2-1 To Alpine Ball Team

The Sanderson V. F. W. team lost a hard-played game last Sunday afternoon to the Alpine Internationals by a score of 2-1. Joe Vasquez and David Flores were the battery for the locals.

Next Sunday the locals will meet the team from Villa Acuna at 2:30 on the local diamond. Fans are urged to be present for a good game of baseball.

IMPROVEMENTS AT INDEPENDENCE CLUB NOTED

Many new improvements have been made at the Independence Fishing Club by Joe Chandler, owner and operator of the club on beautiful Independence Creek, and more improvements are under way now, according to Chandler.

Within the past several months cabins have been built at the club for the benefit of the week-end fishers and campers and commissary facilities are now available. The large concrete swimming pool and children's wading pool is receiving plenty of use, as well as the large artificial lake which is yielding nice fish to lucky anglers who are members of the club. The camping and swimming facilities are open to the public with a small cover charge, but fishing in the lake is open only to members of the club.

Chandler stated that 20 cans of fish which he is going to use to stock the lake he now has and the two more lakes which are under construction arrived this week.

Two lakes will be ready for spring fishing. He recently received 500 bass and 4,000 crappie from the State Fish Hatchery in San Angelo and they were placed in the lake now being used by the anglers.

The swimming pool, lakes and wading pool are furnished free of spring water constantly. A bath house has been constructed there for the convenience of the swimmers.

Chandler stated that plenty of camping and eating facilities under the shade and on the grass were available for the public at the ranch to make either an enjoyable day, week-end or week for visitors to the ranch.

DAUGHTER BORN TO THE CLARENCE CHANDLERS, JR.

Mr. and Mrs. Clarence Chandler, Jr., are the parents of a daughter, Mary Nell, who was born here Friday. Her birth weight was seven pounds and three ounces and she is their second child.

Mr. Chandler, a rancher, is the son of Mr. and Mrs. Clarence Chandler, Jr.

Oil Lease Activity Gains As Wildcats Make Hole

Leasing activity in Terrell County has again hit a new high as two wildcats continue to make hole. The rotary rig on the Goldwire ranch is reported to be making reasonably fast progress although the actual depth has not been ascertained. That well, being drilled by the BLT Co., is a

closed project and no information from the drilling crew or tool pusher is forthcoming.

The Freeman well on the Roy Barksdale ranch is still making hole and, according to Mr. Freeman, hopes to bring in a well in the near future.

Leasing for the past two weeks, as recorded by Ruel Adams, county clerk, shows one of the highest records in the county's history.

Below is a partial list of the recorded leases for the past two weeks:

Annie Spencer et al to Sinclair Oil and Gas Company, 5,120 acres in Block 1, Survey 61, 65, 66, 67, 69, 70, 71 and 53, TC Ry. Co. original grantee.

Abis Hicks Scott to F. A. Bates (Bates released to Sinclair) 1,210 acres.

Cecil H. Arvin et ux to Standard Oil Co. of Texas 11,467.3 acres.

J. M. Corder et ux to Ralph H. Curtis 8,537.1 acres.

DAIRY HERD FOUND FREE OF BANG'S DISEASE IN TESTS

The dairy herd of the Harrell Dairy was found to be free of Bang's disease in recent tests, according to Lynn Harrell, owner and operator of the dairy. Harrell stated that his entire herd of 81 cows was tested last week.

"The dairy is cleaned with the most effective means known and is kept in the most sanitary conditions possible," Harrell said. "We take every precaution that we know how to take in order to keep the milk, animals, containers, barns, lots and personnel who handle the milk as clean and free of all contamination as is possible to do. The people of the community can rest assured that their local milk supply is sanitary," he concluded.

LISTEN TO LUKE

There is no honor in the recent West Point scandal. There is a lesson for the citizenship. There is, in the opinion of a desire to dispense with blame entirely in the academy. Blame for dishonesty in the scandal cannot be placed on the fact that they were participating in the scandal. There is a need for the participation by schools — there is no better training for fair play than good clean sportsmanship. There is no need for any place to place the athletic program above the academic program. There is no need for tolerating cheating in a school to permit passing grades. That can apply to schools as well as colleges or universities.

The cadets are grown men — who have been selected for future army leadership. They were chosen because of the qualities shown in previous years and all of them are old enough to know that one's honor is not to be sacrificed for a momentary demand above such as that they were thought to be. There is no alibi or excuse to be offered for them — it is no honorable recourse but to expect them from the academy, that we must lay the blame where — where?

Chairman William Boyle, Jr., is being asked to pay charges that he received attorney's fees for services to American Lithofold Corp. of St. Louis, following which the corporation got a loan from the U.S. A newspaper this week reported the adamant chairman with a Truman grin as he resigned his position as chairman because of the scandal. His apparent attitude: "I got by with it, d.d.n't let me get caught."

In recent weeks Grig, Gen. J. Crawford was dismissed from the command of a big infantry unit of the United States because he had accepted bribes from firms carrying out contracts for the army.

The cadets have not forgotten Gen. Vaughn "made" deal deepfreezers and got away with the mink coat transaction. The white house is still in the hands of the cadets. Again and again the trail of patronage and deals lead to the intimate of the President's personal political friends.

These scandals were uncovered and stirred up till they smelled to heaven but were quickly put up again and the people of the United States still held their breath and said "What can we do about it?" There is dishonesty just as the citizenship will permit to go unchallenged. The cadets have done no worse — not in fact — as some of their officers. Still there is no reasonable way to be sidestepped. The responsibility for discipline lies with the academy officials. To re-establish the honor system from the academy is an open admission that there is no honor. Texas Universities removed the honor some years ago and the result is that no one is supposed to have honor. This is in a bad way when we respect the honor of our people or our fellow man. It is still when we are given reason for us not to trust honor. If we have drifted to a state of dishonor in all public life and in all schools we cannot hope to survive. If we can have no confidence in the honor of our fellow man we had better not face and take some action to re-establish a system whereby one found out if violating his honor will get him out from all decent society.

When we are too harsh on the man who violated their honor and better start a house-cleaning of public offices where there have been more than enough dishonesty in recent years. Texas is a man to the United States and on what everybody else believed to be a dishonest ballot.

That was said about that affair that it has always been a way so we let it go. Next time it will happen again for some date in Texas and we will let the ballots to be destroyed.

ECONOMIC HIGHLIGHTS

The next presidential election is well over a year away, but all the political camps are speculating on who the candidates will be, and the hopefuls are out looking for delegates.

Mr. Truman has been nettled by the setbacks in Congress for his program — particularly in civil rights and welfare legislation — and he obviously believes that if he takes his case to the people they will support him.

date. There is no argument about that. The power of the presidency is so great these days that it is inconceivable that the nominating convention would go against his wishes.

On the Republican side, Taft leads, but he isn't in by a long shot. The Senator from Ohio occupies a curious position. All concede that he is one of the ablest men in the Senate.

Most curious of all is the Eisenhower situation. The General's prestige is enormous, here and abroad. He has a record which is almost beyond criticism.

The polls indicate that Mr. Truman's popularity is at a very low ebb. They also show General Eisenhower at the top in public esteem.

A few think that Mr. Truman may decide to voluntarily retire, come out for Eisenhower, and thus dummfounded the Republicans.

Mrs. Jettie Peavy and Mrs. Winnie Magill spent Sunday in Marfa with Mrs. Peavy's parents, Mr. and Mrs. Ben Pruett. Miss Betty Ann Peavy accompanied them to Marfa and went on to El Paso to visit her cousin Mrs. Charles Newman.

KITCHEN MEMO

GREAT grandmother was right when she fed her family old fashioned Molasses Pie for the iron and calcium in molasses are important daily needs in anybody's diet.

Grease may splash onto the wall behind your range. Cut a sheet of plastic to fasten on the wall. Then a quick wipe with a soapy cloth will keep it clean.

Quilted coverlets are precious possessions and need to be washed and dried with care. The sagging weight of a wet coverlet causes uneven drying on the line and distorts its shape.

Railroad Counsel Reports On Wage-Revenue Comparison

Average freight revenue per ton mile to American railroads was 1.329 cents in 1950, only 37 per cent more than in 1929, while wages and other costs rose 135 per cent as compared to the 1929 level.

Mr. McCalla recounted important parts of the history of West Texas railroads, and added the following:

"In the past ten years, the railroads have laid more than 13,000 tons of new and heavier rails.

"There are 40,000 more freight cars in use today than at the time of Pearl Harbor in 1941 and the average capacity per car has increased by two tons.

"Recently a record was kept on the wandering of one box car for a year. The car visited twenty-seven states, crossed the continent six times, traveled over thirty

seven railroads, and was on its own line only fourteen days.

"Continuous research is carried on in a constant search for milestones of progress.

"Rails have been produced that are four times as safe and have twice the wearing quality of the rails of two decades ago.

"There is no such thing as a static condition in the railroad industry.

"Roadbeds are being improved constantly, new and better equipment purchased, line straightening programs undertaken — all to move the nation's products to the nation's markets faster and more efficiently and with safety.

"Railroading and railroads have their problems too.

"Railroads stand on the front line of the battle to preserve in

this country the system of free enterprise that has made this nation great.

"All railroads in the world are government owned except those in the United States, one railroad in Canada and a few other isolated cases.

"The facts are that we have the cheapest freight rates of any nation in the world, coupled with the best service, yet railroad wages are the highest paid in any country.

"This nation had an experience with government operation and control in World War I and it cost the taxpayers \$2,000,000 a day for the experiment. In World War II, with the railroads under private management, they paid into the federal treasury \$3,000,000 a day in taxes. The difference is \$5,000,000 a day between government and private ownership.

"Railroads are the most highly regulated of all industries. Almost

everything they do is subject to regulation by the Interstate Commerce Commission and comparable state bodies.

"West Texas with its vast reserve of natural resources looms large on the horizon of increasing industrial expansion.

HOUSE JOINT RESOLUTION NO. 3

proposing an Amendment to the Constitution of Texas by adding to Article XVI thereof a new Section to be numbered 63, and authorizing the Legislature to provide for a statewide system of retirement and disability pensions for appointive officers and employees of the several counties of this State; providing that participation therein by counties shall be voluntary and authorized by the qualified voters of such county; providing the Legislature shall not be authorized to make an appropriation to pay any retirement or disability benefits authorized herein; and providing that administration of said system may be committed to the same body set up to administer the statewide municipal retirement system authorized under Section 51f of Article III; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows: "Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Each county of this State, by a majority vote of its qualified voters, may assume an obligation of the State of Texas, in such form, denominations, and upon such terms, as may be determined by the Legislature (provided, that when the amount of such obligation exceeds \$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be considered as one Hundred Million Dollars (\$100,000,000) and may be hereafter amended, or by other laws that the Legislature may hereafter enact; provided, however, that the total amount of interest on such bonds shall not exceed three per cent (3%) per annum; and that the same shall be secured by a first mortgage on the property of the State of Texas, in the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Fund, and the Permanent School Fund, such bonds to be issued as needed, in the opinion of the Veterans' Land Board.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State: (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Pension System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the World War I, and to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be determined by legislative act, in such quantities, and on such terms, and at such prices and interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All lands thus purchased shall be included within this program by legislative act, in like manner as provided for the sale of lands purchased by the proceeds from the sale of the bonds, provided herein, for a period ending December 1, 1959, to pay principal of and interest on the bonds heretofore issued and bonds hereafter issued by the Veterans' Land Board for the sale of lands and for interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of the said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of the State of Texas. This amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words: "AGAINST the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation therefor.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

SENATE JOINT RESOLUTION NO. 4

proposing an Amendment to the Constitution of Texas by adding to Article XVI thereof a new Section to be numbered 63, and authorizing the Legislature to provide for a statewide system of retirement and disability pensions for appointive officers and employees of the several counties of this State; providing that participation therein by counties shall be voluntary and authorized by the qualified voters of such county; providing the Legislature shall not be authorized to make an appropriation to pay any retirement or disability benefits authorized herein; and providing that administration of said system may be committed to the same body set up to administer the statewide municipal retirement system authorized under Section 51f of Article III; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 48-d, Article III of the Constitution of the State of Texas be amended to read as follows: "Sec. 48-d. The Legislature shall have the power to provide for the establishment and creation of rural fire prevention districts and to authorize a tax on the ad valorem property situated in said districts not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the support thereof; provided that no tax shall be levied in support of said districts until approved by vote of the people residing therein."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electorate of the State at an election to be held on the second Tuesday in November, 1951, at which election all ballots shall have printed thereon (or in counties using voting machines, the said machines shall provide) the following: "FOR the constitutional amendment authorizing the Legislature to provide for the levy of an ad valorem tax not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention districts."

"AGAINST the constitutional amendment authorizing the Legislature to provide for the levy of an ad valorem tax not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention districts."

Each voter shall mark out one of said choices on the ballot by the use of the X pressing his vote on the proposed amendment, and if it shall appear from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the Constitution of the State of Texas.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the foregoing proposed Amendment published as required by the Constitution for proposed amendments thereto.

Section 4. If at said election, a majority of the votes are "FOR the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees," the foregoing proposed Amendment shall become Section 63 of Article XVI of the Constitution of Texas, and a proclamation shall be made by the Governor therefor.

Our first state college—Texas A. and M. is now in its seventy-fifth year

In recent months much has been written of amazing new developments in the forestry field through the breeding of hybrid trees, producing a fast-growing, vigorous new tree in much the same manner as scientists have produced hybrid corns and other valuable new plants. Success in this field would revolutionize forestry practices. Thirty years ago a little-known Texas scientist working on the A. and M. campus produced hybrid oak trees which are campus landmarks today. This pioneering opened up an entirely new field which is now coming to the attention of the world. Hilge Ness, who produced hybrid oaks by crossing the overcup oak and the liveoak, was chief botanist of the Texas Agricultural Experiment Station and professor of Botany at the college for many years. He joined the staff in 1889, after graduating from Texas A. and M., and served until his death in 1928. A distinguished scientist, he had great influence as a teacher and researcher, and made valuable contributions to Texas agriculture through the production of many useful new plants, one of which was the Neesberry, a cross between the dewberry and raspberry, which still bears his name.

and nothing done about it. Let's clean our own back yards before we are too critical of someone else.

Hot, dry weather for the past several weeks has taken a lot of pep out of some of Terrell County's citizens—that goes for other places too. There is certainly a need for respite from this terrible drought and hot weather. But when we read of the deaths from heat in places over the country we are glad we live in this part of the country. Nights here are not so bad and the days are not as hot as

in some places—so we have little to complain of. We still need a good rain, though.

A Little Patience.. and It's Yours!

In all the world of manufactured products, there is nothing more difficult to wait for—once you have decided to own it—than a Cadillac car.

If it is to be your first Cadillac, it is doubtless the fulfillment of a long-cherished dream—and it is hard to wait for one's heart's desire, once it is so close at hand.

And if it is to be a replacement for your old love—well, experience has taught you how consistently and completely the good things come from Cadillac—and your curiosity is a force to reckon with!

To make it worse, temptation is all about you. Down the street and around the corner are various makes of cars to be had almost as soon as your signature is on an order blank.

But be patient and be firm—for there is a reason why other cars may be had so readily—while there is some delay in delivery of a Cadillac.

It is because so many wonderful people, like yourself, want only Cadillac—and will accept no compromise.

If we already have your order—turn a deaf ear to those who would have you compromise your preference for the sake of earlier delivery.

And if you want a Cadillac, but have not yet placed your order, come in and do so. We will talk with you frankly about delivery, so you may know about what to anticipate.

Remember—there is only one car which is recognized everywhere as the Standard of the World—and that car is Cadillac.

SALLY SAYS:

I want an automatic washer because I'm tired of the five or more hours of drudgery that face me every washday. After seeing the new automatic washers in operation, I know that this is an easier way of doing the family washing. I know that the new automatic washers really wash clothes clean; that they soak, wash, rinse and extract the water from clothes with just a simple setting of a dial.

I want an automatic washer so that I can do away with washday in our house altogether. With one of these new washers, you can do a little of the wash each day, just as you do your dishes. For instance, on the day you change the beds, wash the sheets and pillow cases. On another day wash towels, on another wash starched clothes, on still another do overalls and really dirty clothes. Remember, the washer does the work... while you do something else.

JOHNNY SAYS:

A discarded muffin tin gives you a fine 6 to 8 compartment storage for small nails, tacks, screws, etc. You can even build a simple rack and pull each muffin tin out like a drawer.

An inexpensive tin pie pan fastened to the top of your step ladder is another handy trick. It keeps paint cans from slipping off, and is fine for holding small nails or tacks while you are working. Just fasten it on with a single flat head screw in the center.

Here's still another one from the kitchen. An old tin funnel and a strong rubber band will hold a flashlight at any angle while you are working in tight places. Just set the funnel on end and slip the rubber band around the flashlight and over the neck of the funnel.

Better living with less drudgery is the important thing you buy with every one of today's new appliances.

What's NEW...

IN THE KITCHEN?

The biggest news about the kitchen is the kitchen itself. Since new appliances condense into minutes the time required for meal preparation and clean-up, there is no longer any need for the kitchen to be shut off as a scullery, or a room apart. The use of natural woods and modern color have made it one of the most inviting rooms in the house... and have made it a part of the living area, as attractive as it is efficient.

COMPARE TODAY'S MARVELS

To realize fully what modern appliances have accomplished, you have only to compare today's sleek range with grandma's wood stove, the automatic refrigerator with her dripping ice chest, and the efficient home freezer with her storage cellar. Think, too, of the trim automatic washer that has replaced her tubs, washboard, hot fires and boiling kettles; of the electric iron with a heat for every fabric; the tireless electric mixer, the toaster that almost thinks, and the dozens of other appliances all designed for better living...with less drudgery.

Features You'll want in your new Refrigerator

- FULL WIDTH FREEZER SECTION**
New freezer sections that hold a liberal supply of frozen foods are a must if you don't have a home freezer, a great convenience even if you do.
- AUTOMATIC DEFROSTING**
Now you can be free from the chore of defrosting. New refrigerators have fully automatic defrost devices, some even count the times you open the door.
- CHILLING SECTIONS**
Specially designed compartments for special foods greatly increase the efficiency of new refrigerators. Vegetable drawers, meat keepers, etc.
- SHelves IN DOOR**
Extra space and easily accessible space is provided by shelves in the doors of many of the new refrigerators. A feature you're sure to like.
- BUTTER KEEPER**
Special compartments now keep butter at the desired consistency. Some new models even have an ultra-violet lamp to keep them sweet and clean.
- EASY DOOR OPENER**
New types of latches and door openers make it easy to open the door when your hands are full. There are also models with automatic door closers.
- SLIDING SHELVES**
Make the rear of shelves as easy to reach as the front.

Connally Breaks With Administration ECA Over Aid to Asia

Declaring that "the shoemaker should stick to his last," Senator Tom Connally (D. Tex.) last week strongly criticized the Economic Cooperation Administration for its plans for large-scale assistance to the whole free world.

"I do not agree with your philosophy at all," Connally replied to ECA Administrator William C. Foster's statement that the U. S. should "contribute to maintaining the whole free world."

"Where are you going to get the revenue and the money and the taxes to do that?" Connally demanded. "You fellows who spend all your time spending money for the government do not ever think about how we have to struggle in Congress to get the money. Right down the hall now the Finance Committee is in session struggling with a tremendous tax bill. You want to take that money that is

squeezed out of our people and take it over across on the side of the world to build up and take care of these little wobbling countries."

Connally, the chairman of the Senate Foreign Relations Committee, reminded Foster of the Administration's earlier statements that it planned drastic reductions in ECA funds in Europe and the diversion of those funds to European rearmament.

"Yet," said the Senator, "you come up here for hundreds of millions for Southeast Asia. What does that have to do with Europe?"

"You were appointed to take care of ECA over in Europe, get out of the business over in Europe and divert the funds you have been receiving for ECA to the military rearming of Western Europe and here you are putting the main emphasis on going out to Southeast Asia and chasing a problem out there instead of sticking to Western Europe."

"Do you think the Russians are going to come over through Southeast Asia and then attack us over here?" Connally asked. "Western Europe is our danger if we are going to be invaded or are going to be attacked. It will be through Western Europe if we are attacked."

DRINK MILK For Health's Sake

May we suggest a Sitting?

No doubt about it—you'll make a mighty handsome picture in a strapping new '51 Buick.

But it isn't the way you look, but the way you feel that's really important.

We'd like you to discover a Buick's ease and comfort, a Buick's power and performance, a Buick's steadiness and control—just to see if maybe you have been missing a travel treat.

We'd like you to discover what a valve-in-head engine, as Buick builds it—gingered with Fireball combustion—can mean in pulse-pounding thrill and in big miles-per-gallon figures.

We'd like you to learn what coil springs on all four wheels—not just in front—can do in the matter of smoothing a

rough road and keeping you on an ever-level keel.

We'd like you to see what generous roadweight and a rigid torque-tube mean in solid steadiness of ride—what Dynaflo Drive® does for you in downright comfort and convenience—what a breeze it is to handle so big and roomy and impressive a car.

Most of all, we'd like you to note the

easy-to-take price tags our cars wear—what a whale of a lot more automobile you get for your money in today's Buicks than you'll get elsewhere.

So—come in for a sitting soon, won't you? Whether you try a SPECIAL, SUPER or ROADMASTER, you'll find it the top buy in its field—and a beauty from any angle.

Equipped, accessories, trim and models are subject to change without notice. Standard on ROADMASTER, optional at extra cost on other Series.

No other car provides all this:

- DYNAFLOW DRIVE® • FIREBALL ENGINE
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE
- WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING
- BODY BY FISHER
