LISTEN TO LUKE

This little job of writing a column each week can become a job for the writer as well as for those who try to read it. We are not complaining about our part of the labor — in fact, we enjoy it. There is nothing worthwhile accomplished without some effort. There is a responsibility involved in writing a column. If a columnist can only write about the pleasant things in life then there is nothing accomplished toward bettering conditions. That rule applies to topics of a local nature as well as to state and national affairs. There are things that come to the attention of this column that are in the best interests of the community and we would be derelict in our duty if we failed or refused to try to get the public to notice and right the wrong. Last Monday the local fire department received a call. It proved to be a false alarm but it might have been your home that was on fire. When the volunteer department members got out the engines started for the fire they ran out of gas before they had gone more than five or six blocks. This happened before and locked tanks were installed but there was no way to lock the drain plug on the tank. Since the caps were not installed, the keys had to be made for all of the firemen, so they were put in a secure place, but within reach. Still tanks were drained. This sort of vandalism could be costly and certainly one of those things that is not wanted. The local department has so maintained an excellent record that they will be unable to compare this record with the trucks drained of gasoline. There should be more diligence on the part of those who are commissioned to clear the streets of vandals. They would prowl around and do no harm. There is no need of having the fire trucks go when you can't keep them in the tanks. People who go around and look for an opportunity to do such things should be closely observed.

H. E. Ezelle Hostess Thursday Culture Club

H. E. Ezelle was hostess of the February meeting of the Sanderson Culture Club at her home last Thursday afternoon. The meeting was held at the home of George Washington and was stressed in the decorations and refreshments. Snowdrop and daffodils formed the bouquet on the coffee table. The centerpiece on the dining table was of red and white satin ribbons in a milk glass bowl and flanked by red and white milk glass holders. Mrs. Wes Kirby, program leader, gave pertinent facts on recent legislation and introduced Mrs. A. Smith who read the short story "Prelude" by Valentine. After she had told of the growth of the short story during the business meeting, the group voted to continue membership in the Davis Mountain Association. Mrs. M. W. Duncan, named letter-writing chair. The club agreed to assist in "Clean-up Fix-up" project sponsored by the Evening Club. Mrs. J. W. McKee received \$260 contributed to the Red Cross, who, under her leadership, solicited contributions for the recent March of Dimes drive. Mrs. Duncan presided at the meeting and coffee service during the social hour and cherry pie topped with whipped cream and a cherry was served with straws in hatchet shape by Mrs. W. H. Savage. Those present were Mesdames: Byrd, R. A. Gatlin, H. A. G. H. T. R. Arrington, W. T. H. J. H. Loehausen, L. E. H. J. W. McKee, Wes Kirby, M. W. Duncan, W. H. Savage, and a guest, Mrs. Frank King of Florida. Mrs. S. Wilkinson spent last week in Luling with relatives. Mr. and Mrs. James Word accompanied him to Gonzales to visit with their son, Jimmy, at the Warm Springs Foundation.

Two Youths Caught With Stolen Goods From Local Store

Bobby Spears, 17, and Harold Randolph, 17, of Houston, were apprehended Friday morning in Van Horn and returned to Sanderson Saturday where they are being held, charge with burglary, for grand jury action. The story, as related to Sheriff J. S. Nance is that the youths hid in the basement of The Kerr Mercantile Company during the day and later filled two suitcases with merchandise from all departments of the store, and took some small change from the registers. The boys then made their escape from a back window and went to the bus station where they caught the bus for Van Horn. Practically all of the loot, some \$400 in value, according to Joe Kerr, Jr., was recovered.

Sanderson To Observe World Day of Prayer

All of the residents of the community will join in the observance of the annual World Day of Prayer Friday with a special service that afternoon at 4:15 at the First Baptist Church. The theme of this year's meeting is "Christ is Our Hope." This marks the 26th year of the World Day of Prayer. The United Church Women of the National Council of Churches joined in 1920 with groups in Canada and chose the first Friday in Lent as the day for this service. In 1927, in response to interest abroad the prayer project was turned into the international undertaking. Now 103 other countries around the world observe this day. Some 17,000 American communities will observe this day in the churches of the various denominations. Both men and women of the community are requested to join in the period of prayer and meditation on Friday afternoon.

ALARM BRINGS OUT FIREMEN MONDAY

An alarm Monday morning just before noon alerted the Sanderson Volunteer Fire Department, but the chase ended for wild geese instead of a fire. Insufficient information and instructions were given the operator at the local telephone company switchboard and the firemen were unable to locate a fire in the vicinity of the directions given. A wider search of the town afterwards failed to reveal the location of a fire. Before either of the trucks could have pumped more than just a few gallons of water from their tanks, had the fire been within one block of the fire house, both of the trucks were out of gasoline. Investigations proved that the units had been serviced after the last run and were presumed to be ready in case of an emergency such as arises when they are taken from the fire house. Unthinking culprits, demented misdemeanors or worse had taken practically all of the gas from both of the units, leaving the fire department completely incapacitated temporarily.

Blue, Gold Banquet For Cub Scouts

The forty-second birthday of the Cub Scouts was celebrated Tuesday evening when the local troop invited their parents, members of the sponsoring Lions Club, den mothers, and R. P. Stewart, Scoutmaster, as their guests at a banquet served in the banquet room of the Turner Hotel. The long table, laid with a white linen cloth, had blue crepe streamers down the center and gold candles were placed at intervals. The large birthday cake was iced in gold with 42 blue candles on top. Brucks Bader was master of ceremonies and Bart Pate gave the invocation. Each Cub Scout introduced himself and his parents. Matt Bader, Cubmaster, introduced the Lion Club members. Each Scout related what it means to be a Scout. After the singing of the Cub Scout song by the group, Cubmaster Bader presented the awards and every Cub was the recipient of at least one award. Oran Belcher and Freddie Baker lighted the candles on the cake and the final number on the program was the singing of the "Happy Birthday" song.

SALE OF 1952 CAR TAGS SLOW

Only sixty-six license tags for 1952 for motor vehicles have been issued in Terrell County to date. Mrs. Eddie Leatherwood, deputy tax collector, is of the opinion that many persons are still under the impression that their cars must be inspected before they can secure a new license. The car inspection law does not become effective until September 7 and only a 1951 car license receipt and certificate of title are necessary to make application for new license plates. The new license tags may be purchased and put on any time but must be on motor vehicles by April 1 if it is to operate on Texas highways. A map card is given to license buyers this year, and when the card is mailed to the highway department in Austin, a new Texas official map will be sent to the car owner. The map includes 26 full color pictures of historical points, a map of the United States and a map of Mexico.

Kite Flyers Warned Of Dangers Near Electric Wires

Kite flying season is here again and with it comes the power company's annual warning against flying kites near electric lines. Each year throughout the U. S. accidents involving kites and wires take their toll in children's lives. Use dry cotton kite string only. Don't climb poles to recover kites. James Caroline, power company manager, asks the cooperation of parents in seeing that their youngsters follow the above rules and in pointing out that the safest place to fly kites is in open fields away from power lines and busy thoroughfares.

P-T A TO MEET MARCH 6

The Sanderson Parent-Teacher Association will meet on Thursday, March 6, at 7:30 in the high school auditorium.

Students in the elementary grades are making posters in connection with the theme and the English students in the high school are writing essays using the theme of the week as their topic.

The expressed idea of the proclamation of Texas Public Schools Week this year is to urge school visitation by parents, citizens, and tax payers to some of the classrooms during the week. Supt. Matt Bader has expressed his desire that all friends of the school make an earnest effort to visit the school at least once during the week so that they may see, first hand, the type of work that is being carried on in the classrooms of the local institution of learning.

The Texas public schools have always been held on a very high level by Texans and it is thought that a more active interest in the schools by citizens will add much to the maintenance of that standard within the state. The classroom doors will be open to the citizens at any time during next week or any week of the school year, Supt. Bader stated, but we would like to see many faces of our school patrons during the coming week.

Chances are 10 to 1 YOU DO BUSINESS BY THE TRUCKLOAD...

that's why this message about America's first 2 1/2-ton Diesel may be the most important you've ever read!

If yours is like most businesses today, medium-weight transportation enters many times into the cost of your product — from procurement of raw materials to delivery of the finished product. For the first time, these "average" loads can be moved at spectacular savings—at a cost far below anything you've ever paid for medium-weight transportation in the past! The efficiency and economy of Diesel power become available to every user of trucks rated as low as 2 1/2 tons (19,500 GVW — 35,000 GCW). It's the latest advance from the world's largest producer of Diesel trucks. It's an entirely new kind of GMC truck-tractor — powered by a revolutionary, lighter-weight, more compact model of the famous General Motors two-cycle engine that is first choice among Diesel truck

users today. It offers the advantages of more miles per gallon and lower maintenance in hauling operations where there has been no choice but gasoline power in the past. Before you waste another cent in your largest hidden cost of doing business — transportation — check the important role this new GMC 2 1/2-ton Diesel truck-tractor stands ready to play in your own operation. As your GMC dealer, we extend this invitation: if you are a processor, manufacturer, retailer, distributor, farmer or commercial hauler using 2 1/2-ton equipment — come in and see why this new GMC Diesel will mean extra profits to you every mile of the way.

Get a real truck!
