## LISTEN TO LUKE

There is little satisfaction and comfort in saying that the other fellow suffers as much as I. Last week this column took a run up to Wichita Falls and saw a nephew married. No, the reference to the suffering had nothing to do with the nephew's marriage. Conditions of the terrain and the drought conditions was the subject of discussion.

That country — all the way from here to Wichita Falls — is as dry as Terrell County, and that being a farming area is making it mightily gloomy looking for those people.

We know that it can rain though, because it rained about 1/16 of an inch and we got some wet dust on our shoes.

A Sanderson man was asked this week how he felt and his reply was "Demasiado corriendo en agua."

Maybe the weather man will get around to us after all and we can get rid of the drought like we are getting rid of some of the hand-daps in Washington.

Have you planned to visit the Big Bend National Park Saturday? If you don't go you will be mighty lonesome here for everybody else will be there. All indications point to the expected attendance at the park area in time for the barbecue at noon and the educational tour to follow.

Park officials are going all out to see that the trip is a success. They have assured us that the facilities of the park are at our disposal for the day so let's take advantage of this splendid offer and learn more about our park.

Bill Ferguson has worked hard on this project and has enlisted the help of others who have been faithful in doing the many chores incident to making the trip successful.

This columnist has been wondering if a play suit would be in order as the proper dress for the trip. It is a matter that will be determined by the type of weather we are having Saturday when we start out. Possibly we will wear just ordinary clothes — that is the only kind a printer has — but we may take along something that could double for a play suit in case.

Whatever garb you decide to wear will make little difference so go along with the crowd. Get everything set for the day. Don't forget to buy your week end supply of groceries on Friday for you won't have a chance to buy them on Saturday.

"Old Tawm" has been reading this column, too. After Harry had read this column he decided he did not chose to run" for reelection. Then "Tawm" read it and decided just like Harry. This column gets around, folks, and we are proud of the influence so far. Of course when Harry steps out he will get rid of "Dear Dean" after all the cleaning process is completed we might have a new poem in Washington after all.

## LIONS MINSTREL TUESDAY NIGHT TO BE FULL OF FUN

The Sanderson Lions have been working for the past two weeks on a minstrel show to be at the high school auditorium next Tuesday night at 8. They promise all of the area citizens plenty of laughs at plenty of minstrel jokes and plenty of talent interspersed throughout the show.

All of the black-face boys have unusual tricks up their sleeves and will keep the audience roaring at their sly remarks concerning some of the peculiar happenings to local people. These cunning darkies have pried into the privacy of family circles and have come out with knowledge that will afford moments of hilarity for all those who attend.

Rodney Cathey, the genial master of ceremonies, will serve as interlocutor and draw the remarks of wit from the end men who prefer that their identity not be revealed until after the show, and they hope not then.

Local talent such as "Harry S. Trainman" Duke and "Pansie Bell" Bendele and "Chrysanthemum Lou" Causey will offer their stage ability for the approval of the audience.

Tickets are on sale by the Cub Scouts for 75c for adults and 35c for children with the Lions Club guaranteeing your money's worth in their opinion. The Cub Scout selling the most tickets will be given a watch by the sponsoring organization that also sponsors the Cub Pack. A portion of the proceeds of the minstrel will go to the boys' organization and the remainder will be used to pay off the indebtedness incurred by the football banquet put on for the 1951 Eagle - bi-district football team.

The invitation of the Lions Club to enjoy the minstrel is cordial and your cooperation will be appreciated.

## CLEAN-UP DRIVE IS PARTIALLY SUCCESSFUL HERE

The closing days of Sanderson's clean-up were marked by high winds and dust storms making it unpleasant for those who had waited to do the cleaning of their yards and premises. As a result, the clean-up was not successful as it was hoped and there yet remains much rubbish and trash on vacant lots as well as occupied property.

However, many trucks loads of trash were hauled and there was much cleaning up done. Extra men and trucks were put to work by Frank Weigand, commissioner of this precinct, and the last of the trash piles were moved Wednesday. It is probable that civic pride and an interest in public health will spur more citizens to clean up their premises even after the campaign is closed.

The clean-up was sponsored by the Evening Study Club with the cooperation of other clubs and civic organizations of the community.

## Scholarship For Marfa Senior, David Larson, Former Resident

David Larson, of Marfa, a former Sanderson resident, is to be the recipient of a \$250 scholarship to be known as the Gregg scholarship and given by the Marfa Pan-Hellenic Association of that city. The scholarship was one of the honors paid at Saturday's homecoming honoring J. E. Gregg, retiring veteran superintendent of the Marfa schools.

Larson is president of the Student Council of the Marfa High School and a member of this year's graduating class. He is band president and was chosen to the school's Who's Who as the most popular boy. He has been an outstanding member of the football, basketball and track teams.

His mother, Mrs. Toni "Toots" Larson, resides at Sumner, N. M.

## W. F. LODEN, 74, DIES AT HOME HERE EARLY THURSDAY

William Franklin Loden, 74, died at his home here at three o'clock Thursday morning following six weeks of illness.

Funeral plans are incomplete but burial will be in Sanderson.

Mr. Loden was born October 2, 1879, in McMinnville, Tennessee. He was orphaned before he was five years of age and came to Texas with two ladies, friends of the family, who reared him to young manhood in Gatesville, Texas.

He also resided in Rock Springs, N. M., and Del Rio where he was employed as a government trapper until failing health forced him to retire in 1938. He came to Terrell County in 1927.

His wife, the former Miss Mattie Thurman of Rock Springs, preceded him in death in 1920.

Survivors include three sons, W. F. Loden, Jr., of Lobo; Jimmie Loden of California; and Elton Loden of Sanderson; two daughters, Mrs. Bob Everett of Uvalde and Mrs. Leslie Carter of Sanderson; one sister, Mrs. James Yeager of McMinnville, Tennessee, and eleven grandchildren.

## SANDERSON BUSINESSES TO CLOSE TO GO TO BIG BEND NATIONAL PARK SATURDAY

Sanderson will be a ghost town Saturday when the business houses of the town, except cafes, filling stations to take care of the traveling public, will be closed so that all can go to the Big Bend National Park on an educational tour of the park.

W. J. Ferguson, Jr., chairman of a committee to promote the tour, stated that plans have been made to feed at least two hundred at the big barbecue to be served at the park basin area.

Those who know they can go are asked to notify Mr. Ferguson and inform him of the number to be in the party so that there may be an organized tour.

Business firms have notified the Retail Merchants Association of their willingness to cooperate with the move by closing, according to Mrs. Jettie Peavy, secretary of the association.

Judge Henry Russell will be the principal speaker for a joint meeting of the Lions and Rotary Clubs at the Turner Hotel Wednesday.

Judge Russell spoke of the importance of voting intelligently, stressing the importance of knowing something of the integrity of the candidate for the office, knowing how he has carried the responsibilities of his office, if he is a candidate for re-election, and knowing him well enough to place your confidence in his ability to represent you in any matter of question.

Judge Russell stated that the problem of juvenile delinquency is not one to be alarmed about as long as the adults are clearing the trail that they are for the young people of the world today. He stated that a little honesty, fair-play and integrity on the part of all of the adults of the nation would solve the problem of juvenile delinquency in a very short period. He stated that a person should be of this disposition of his own accord because of the laws of God, but that, of necessity, laws of the government and society had been enacted to force the people of the land to conduct their lives accordingly. He stated that this was not enough, alone, adding that it was up to the court and judiciary bodies of the land to see that the law was carried out to the letter, with judicial representatives ruling according to the law, with the limits of the law upmost in their minds and actions.

"This is all brought about by intelligent voting," Russell said, and added "when the people of the United States can learn to vote intelligently, according to the dictates of their conscience, rather than the dictates of individuals, then we will not have graft in any level of our government. We will not have extravagant spending of tax money, we will not have a government run by bureaucrats, we will have the freedom of private enterprise without a burdensome tax squelching our zeal for initiative, we will not have more fear of a man with a brief-case than we do of a man with a gun, and we will not have courts, from the highest in the land, to the lowest, making their interpretation of the laws to their own desires."

His closing remarks were: "If we do not take the time that is necessary to qualify ourselves to cast an intelligent ballot, we are not worthy of the memory of those who have fought and died that we might have the right to live in a land endowed with freedom by their deaths."

## State Commander Speaks To Legion Members Tuesday

Charlie Gibson of Amarillo, state commander of the American Legion, met with the local post of that organization here Tuesday night and brought a timely message to the members present.

After a barbecue supper, the department commander outlined the program of the Legion and urged the members to work for new members to come up to the membership quota for this year.

"To much stress has been placed on telling potential members of the benefits they might receive from membership in the organization," he said, "more emphasis should have been put on the good they could accomplish toward the Legion program of building Americanism in the minds of the youth of this country," he continued.

Commander Gibson was accompanied to Sanderson by his son-in-law, D. H. Underwood, an Immigration Officer from Marfa.

was a Sunday guest in the home of her sister, Mrs. R. S. Wilkinson, returning to Fort Stockton where she is visiting with her daughter, Mrs. W. R. Cochran, and family.

## James F. House To Open Grocery Store In El Paso

James F. House is making plans to move the stock and fixtures of his grocery store to El Paso in the near future. He is closing out his stock in a special sale which began Wednesday.

Mr. and Mrs. House came to Sanderson from Carrizo Springs twenty-three years ago and opened a grocery store known as the James House Grocery and Market in the location of the present Smith Grocery.

In 1935, he moved to the present location and two years later changed the name of the store to Piggly-Wigly.

The store, located in the suburbs of El Paso, will be known as House's Cash Grocery and Market. Their son, Joe, who has recently been discharged from the U. S. Navy, will assist his father in the store and attend the Texas Western College where he will work toward a degree in electrical engineering.

Mr. and Mrs. House and their son, Tommy, will reside in El Paso. Their son, Colby, is at Brooks AFB, San Antonio, Bill is in the U. S. Navy and James is with a law firm in Carrizo Springs.

## Committees Named For Chest X-Ray Survey Here In May

Mrs. H. A. Smith, general chairman for the mass chest X-ray survey scheduled for Terrell County on May 28 and 29 in Sanderson, is rapidly naming committee chairmen to gear the set-up for the survey.

Mrs. James Kerr and Jimmie Caroline will serve on the location committee; Mrs. J. W. Pate, Mrs. Herbert Winston of Dryden, Mrs. M. W. Duncan and Mrs. L. H. Gilbreath on the publicity committee; Mrs. L. E. Arledge and Mrs. Cuco Perez on the house-to-house committee; Mrs. J. W. Byrd, clerks and registration committee; Mrs. E. J. Hanson, hostess; Manuel Perez and Pablo Valles, unloading; Mrs. H. E. Ezelle, notification; transportation, Mrs. L. H. Gilbreath.

Announcement of the survey will be made from the pulpits of the community for three weeks. A loudspeaker, film, posters, pamphlets and every means of publicity will be employed to keep before the residents of the county the importance of everyone fifteen years of age and older having an X-ray made every year. There will be no charge for the X-rays which will be made by a mobile unit from the tuberculosis division of the State Health Department.

## Henry Russell Speaks To Rotary, Lions Clubs Here Wednesday

Judge Henry Russell will be the principal speaker for a joint meeting of the Lions and Rotary Clubs at the Turner Hotel Wednesday.

His closing remarks were: "If we do not take the time that is necessary to qualify ourselves to cast an intelligent ballot, we are not worthy of the memory of those who have fought and died that we might have the right to live in a land endowed with freedom by their deaths."

## Funeral Services Wednesday For Mrs. Rita Pridgen

Funeral services were held Wednesday afternoon at four o'clock from St. James Catholic Church by Mrs. Rita D. Pridgen. Burial was made in Santa Rita Cemetery by O. T. Sudduth, Inc., in charge of arrangements.

Mrs. Pridgen, 64, was born in Mexico and resided in Del Rio before coming to Sanderson twelve years ago. She had been in failing health for several months.

Survivors include two sons, Eugene and Elisandro Pridgen of Sanderson; a daughter, Mrs. Hermina P. Rodriguez, and four grandchildren.

Mr. and Mrs. S. H. Underwood of their son, Sgt. Ross Underwood last week end for a visit. Underwood is stationed at Ames Connally AFB, Waco.

## Marathon Baseball Team Clouted 24-2 By Eagles Tuesday

The Marathon Mustangs slowed down to a gentle walk on the baseball diamond here Tuesday afternoon when they met the Sanderson Eagles and received a 24-2 beating at the hands of the locals. The fray was a practice session and went only 5 innings.

The Marathon boys were not able to offer much competition in any phase of the game and thus prevented the Eagles from revealing their true form of diamond ability. The locals did, however, make a few double plays and showed some speed in the execution of their clean fielding ability. Most of the Eagles ability was revealed at the bat and at their endurance in base-running.

The boys will journey to Pecos Friday to play their first district baseball game.

Frank Vasquez and Juan Olivares shared mound duties and Higinio Pena and Galao Cobos caught.

## Dorothy Gurley Seeks Re-Election

Mrs. Dorothy Gillis Gurley of Del Rio announced Thursday she is a candidate for re-election as state representative of the 100th Legislative District, subject to the action of the voters of the Democratic primary July 26th.

Mrs. Gurley has completed a two-year term as a member of the Texas Legislature where she served on the following committees by appointment of the Speaker of the House: Congressional and legislative districts, conservation and reclamation, game and fisheries, livestock and stock raising and motor traffic committees.

The 100th district, formerly known as the 87th legislative district, includes Brewster, Terrell, Val Verde, Kinney and Maverick Counties.

Mrs. Gurley said if elected she will undertake to represent the interests of all of the people in the district to the best of her ability. She will appreciate the support and vote of the residents in this district.

Jack Savage spent the Easter holidays in Del Rio with friends.

## Teachers Visit During Easter Holidays

After closing for four days for the Easter holidays, the classes of the schools of the county were resumed Tuesday morning. Classes were dismissed on Thursday afternoon before Easter.

GUARANTEED RAIN MAKER

By Rev. Claude Bridges, Pastor, First Baptist Church

I have been asked many times in the last few weeks why I do not call a meeting to pray for rain. Last Saturday I answered the question. The one to whom I was talking said that it should be in the paper, so here it is!

There are people who believe that all that is necessary to be done would be for a great group of people, saved, unsaved, saints and sinners alike, to come and cry to God and He would send the rain. Then there are those who do not believe that God has anything to do with the rain. In fact, many believe that God does not have anything to do with anything.

What is the fact in the case? The Bible is the best evidence in any question. In Amos 4:6 God says, "I also have given you cleanness of teeth in all your cities, and want of bread in all your places; yet ye have not returned unto Me, saith the Lord. I also have withheld the rain from you, and I caused it to rain upon one city; and caused it not to rain upon another city, one piece was rained upon, and the piece whereupon it rained was not withered. So two or three cities wandered into one city, to drink water... but they were not satisfied: Yet ye have not returned unto Me saith the Lord."

It is certainly a mistaken notion that when any group of people who care nothing about God and who live for the world, the flesh and the devil, get in a tight spot and come and ask God to help them out, with no desire to really live for God, they will get what they ask for. Just any group of people coming and praying for rain will not get the rain. Some times people do meet and do pray and the rain comes and then one bears "Oh, have you heard? So-and-so prayed for rain and it came?" Yes, and at the same time many other places where they did not meet and pray got a rain just as much needed as the place where they prayed and much more than the prayers got. So you cannot say that the prayer of ungodly lives brought the rain.

Now we will turn to a guarantee that will always produce. If the people of Terrell County will meet the conditions laid out here, we will certainly have rain and in abundance. Get your Bibles and turn to II Chron. 7:13, 14. Remember this is God talking, and not any preacher or editor. "If I shut up heaven that there be no rain, or if I command the locust to devour the land, or if I send pestilence among my people: If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven and will forgive their sin, and will heal the land."

Yes, send the rain that is sorely needed in this county. God wants to bless us. He wants to send the rain a great deal worse than we want it. But the lives of His creatures are more precious to Him than our prosperity. He wants each for Himself and if we will not hear Him in prosperity then it must be in adversity. When people care nothing for our Blessed Lord's Day and use it as they do any other day, when we see people doing the same work on the day our Lord rose from the grave that they do on other days, can those people qualify according to the Bible and get rain in answer to their requests? I say "no." But I say God does not send these calamities on us because He hates us, but because He loves us and wants us to return to Him. Will we go and receive His blessings or continue to go away from Him and have His chastisements?

THE "ACADEMIC FREEDOM" ISSUE ANSWERED

Is academic freedom threatening in the United States? The answer is yes. But it is not threatened, as some would have us believe, by the citizens who are protesting the teaching of varying degrees of Socialism in some of our school classrooms and in some of the high school and college textbooks. Academic freedom is threatened by the growth of Socialism in America and by Communism, both from within and from without our nation. Such freedom cannot survive in either a Socialist or a Communist nation.

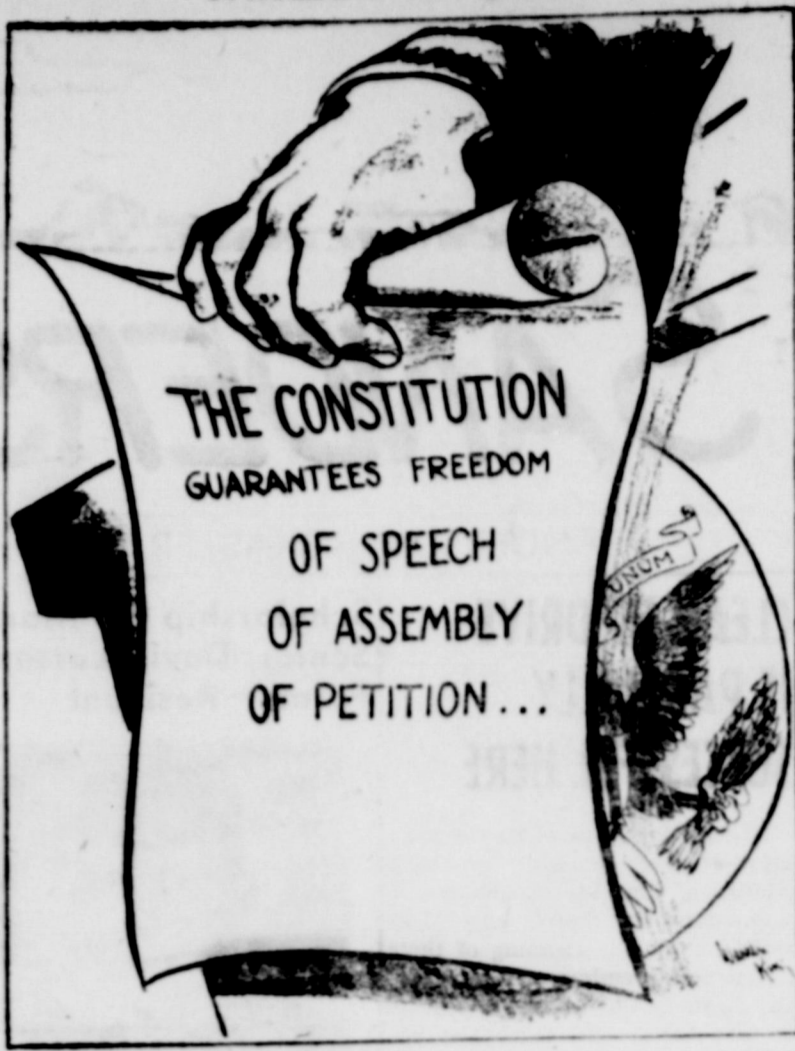

The issue of "academic freedom" has been raised many times in recent months. Last week it was my privilege to participate in a radio debate on the question, "Is academic freedom threatened?" I presented the viewpoint that patrons of a school have the right to protest, for instance, against what they believe to be teachings in classrooms or textbooks that would make Socialists of their children. In my opinion such protests are not an infringement on academic freedom.

The opposing viewpoint contends that school authorities should be free to select textbooks without interference from patrons, or parents, or taxpayers; and that the teachers should be free to discuss their personal economic or political conclusions without interference from anyone, including the school authorities. This issue ought to be understood by every American, especially all parents. For both the Socialists and the Communists declare openly and repeatedly in their official party writings that a basic tactic is to lure educated people to their banner and get the text books written to favor their cause.

The American Socialist Party, according to one of its long-time leaders, Dr. Harry W. Laidler, looks upon the intellectual worker (teacher) as the primary instructor for social change. The official publication, The Communist, said in 1947: "Communists teachers must take advantage of their positions, without exposing themselves to give their students... working class education. They must be thoroughly grounded in Marxism-ism - inject it into their teaching at the least risk of exposure." "That the Socialists and Communists have been successful to some degree in America cannot be denied."

Academic freedom is a concept originated in the universities of Germany more than a century ago. It proposes, in effect, that teachers be unrestrained in searching out truth of facts and presenting their findings in the

UPHOLDING OUR RIGHTS

classrooms. Within certain limits this is good. But it does not give teachers license to teach fallacies as facts; nor does it give them license to use the classroom, without fear of protest, to inculcate students with economic or political doctrines which seek to destroy the very principles upon which freedom is maintained.

Actually, academic freedom is not a freedom explicitly stated in our Constitution. So far as I know there are no state or federal laws specifically setting forth and defining academic freedom. Therefore, this freedom must necessarily rest upon the foundation of Article I of the Bill of Rights which enunciates freedom of speech and freedom of the press. Article I does not give a college professor or a high school teacher any special kind of freedom that a parent or a John Doe taxpayer hasn't got.

That still leaves an American educator free to teach excluding the overthrow of the United States government by force or violence if he can get a classroom and some students. If he is determined to teach, for instance, that government ownership of the basic industries is better than private enterprise and he can't get a public school classroom or students because of objections of parents or taxpayers, he can put a soapbox

on a street corner and teach his Socialism to all comers. Or he can open a school of his own. That's academic freedom. It's also just plain American freedom of speech.

On the other hand, if a state university is teaching from an economics textbook that advocates forced redistribution of the wealth and denounces the habit of thrift as antisocial (as some of the most widely used textbooks do); any taxpayer or parent of a university student has the freedom to demand the withdrawal of the textbook. Other taxpayers and parents have the freedom to side with the university authorities or

HEALTH FOR ALL—Guarding Against TB

While the battle against TB in this country is gradually bringing down the death rate from the disease, tuberculosis today kills more people in the U. S. than all other infectious diseases combined. A chronic disease easily spread from person to person, tuberculosis is a grave public health problem.

Yet, tuberculosis is preventable and, while anyone can get it, no one need get it. Tuberculosis is a treacherous enemy and we have no fool-proof formula or set of rules which will guarantee an individual that he will never get the disease. But the TB germs, known as tubercle bacilli, find it harder to get a foothold and cause active disease in a person whose general health is good.

A person can maintain general health and keep body defenses high by making good health habits part of the routine of his daily life. This means eating regularly three well-balanced meals a day, dressing "for the weather," and avoiding unnecessary exposure to cold and wetting. When these wise practices become habitual, a person's body is less vulnerable to all disease-producing germs, including the tubercle bacilli.

Another way to guard against TB is, of course, to avoid close contact with those who have the

disease. But this isn't easy because not everyone who has TB is in the hospital. Many people who have TB in an active form do not realize themselves that they are ill because TB has no obvious symptoms when it first strikes. So we can never be certain when we are, or have been, in contact with tuberculosis.

But there is way we can find out and this means the formation of another sound health practice. Everyone should see his doctor at least once a year for a thorough physical checkup, including a chest X-ray. If he does this, a person can be certain he is in good health, or, if serious illness is

found, that it will be detected early. The chest X-ray can detect tuberculosis in its early stages, even before apparent symptoms appear, and the earlier tuberculosis is found, the easier it is to cure.

This column is sponsored in the interest of better health by the Terrell County Tuberculosis and Health Association.

Plan to attend the minstrel show Tuesday night at the high school at 8.

**Dr. Cox Speaks Of Susceptibility Of Children to TB**

Speaking of the susceptibility of children to tuberculosis, Dr. George W. Cox, State Health Officer said today that few people realize that babies and young children are very likely to become infected with tuberculosis if they are kept in rooms with persons who have the disease, use the same dishes, sleep in the same beds, or are handled and kissed by persons who have tuberculosis.

"Babies and young children pick up the germs of tuberculosis just as readily as they pick up the germs of measles or whooping cough, or of any other of the so-called children's diseases," Dr. Cox said. "But tuberculosis unlike most diseases, has more than one form. Babies who get tuberculosis may not show the symptoms we associate with the disease in older persons. But the disease in most cases develops rapidly and is likely to end fatally. Tuberculosis in babies and young children is a very serious matter, although recent studies have shown that if young children are removed promptly from contact with the disease and given the necessary care, many lives can be saved."

Dr. Cox said that if the presence of tuberculosis is recognized in its early stages and if medical attention is secured promptly, a great deal can be accomplished whenever the disease develops, whether in young or old.

"Tuberculosis doesn't just simply happen. Nobody is born with the disease. Everybody who de-

velops tuberculosis gets it from some other source, and children and young people who have been in contact with persons having tuberculosis are especially likely to contract it."

Mrs. Wayne Watkins and children and her mother-in-law, Mrs. Carta, are visiting with relatives in Galveston, Beaumont and other East Texas points.

**M. G. BUSTOS FAMILY VISITS IN SANDERSON**

**POINT with PRIDE**

Here are just a few "Do it Yourself" jobs that manufacturers are making it easy for you to do... and do well.

**PAINT THAT ROOM**

New paints and new tools make it a very simple job. First, there are new color selection charts and kits, then new paint rollers and new great lightweight brushes specially designed for home users; and, finally new water and rubber-based paints that are easy to apply, fast-drying and odorless.

**LAY THAT TILE**

Yes, you can have a new tile floor in any room in your house: your bathroom or kitchen can have smart modern tiled walls... and you can lay the tile yourself. Manufacturers not only supply easy-to-follow instructions, but also complete kits of tools and materials.

**HANG THAT PAPER**

You need no longer be afraid to tackle that wallpaper job. There are ready-pasted papers that all you have to do is paste and hang; wall coverings made in handier sizes; and kits and instructions for doing a professional looking job with conventional wallpapers.

**BUILD IT NOW!**

Even if the only tools you have are a hammer, saw, and screwdriver you'll be amazed at the things you can build for your home. There are complete ready-to-assemble kits of materials for cabinets, chairs, tables, storage chests, etc. Then there are handy kits of plywood in new convenient sizes plus all the other hardware and composition panels, short-lengths of lumber and other materials that are being made more easily available to "week-end" carpenters by lumber dealers.
