## Chicken Supper Monday Evening At Methodist Church

Popular demand for another barbecued chicken supper will be met Monday evening when supper will be served beginning at 6:30 in Fellowship Hall of the Methodist Church. Half a chicken will be on each plate with the same menu as was served before. Those having tickets will be served first but it is hoped that there will be sufficient food this time to serve everyone.

"The service which we gave before was not satisfactory to those serving," stated Rev. Olaf Hoggard, pastor, but the large crowd overwhelmed us and we regretted that we were unable to take care of those having tickets, especially. Surely this time there will be sufficient food for all. Come and eat with us and enjoy the fellowship of the people of the community."

The proceeds from the supper will be placed in the fund to provide the trip to Canada and the Northwest by a group of boys of the community. They expect to leave next week in company with five adults.

## Motorists Urged To Have Vehicles Checked Soon

Austin, Texas, July 8 — Motorists are urged to have their motor vehicles safety inspected while there is a lull before the expected rush to inspection stations.

G. W. Busby, chief of the motor vehicle inspection division of the Texas Department of Public Safety, said 2,400 inspection stations have been certified to aid motorists in complying with the new state law. September 6 is the final deadline for having all motor vehicles certified for safe driving.

Busby said the movement of vehicles to inspection stations is lagging, with only about 40,000 being inspected weekly. If a bottleneck is to be avoided before the deadline at least 100,000 vehicles a week will have to flow through the stations.

Requirements under the new safety law have been modified considerably following an anticipated rush to inspection stations when the law became effective a few months ago. Safety Department officials said many new inspection stations are being certified weekly to aid in avoiding another bottleneck.

We earnestly hope that motorists will take advantage of the lull we are now having and avoid a last minute rush in order to comply with the September 6 deadline, Busby said.

## Roping Club Serves 2-Day Program To Sanderson Crowds

The roping and riding events scheduled for the afternoon of the Fourth created such enthusiasm that an added day was thought to be in order, hence the Sanderson Roping Club officials announced that another program would be presented Saturday afternoon.

Considering the fact that many West Texas towns were having rodeo shows last week end, it was encouraging to see the good attendance at the Friday afternoon show. Saturday's attendance showed a considerable decrease, however, but the participants were more in the rodeo mood than on the previous day.

Both days' events were opened by exhibitor brenc riding which brought a few thrillers to start off the show.

Friday's goat roping was slow with Will J. Murrath taking first place with 17 seconds for his tie; Odell Brotherton was second with 26.1 and Bud Ott third with 29.2.

In the first jackpot calf roping Buster Babb won first with 17.7; Ott second, 19.6; Kinney Thompson, third with 20.4. In the second go-round Kinny Thompson placed first with 14.5; Babb second, 16.9; and Ott third with 17.9.

Cy Banner took first place in the ribbon races with 23.6; Murrath, second with 29.1 and Babb third, 30.2.

Junior Hays beat Babb in the first matched roping Friday with 6 calves. Babb's time was 120.2 and Hays used up 106.9 seconds.

Lin Hicks tied four calves in 103.1 and Cy Banner forfeited his chances after he ran into hard luck in the last match for the afternoon.

Saturday's program proved more colorful and had a bit more action. Beverly Thorn won the barrel race in 18.5; little Tana Harper of Marfa was a close second in 18.6 and Joyce May Autrey third in 20.6.

Herman Chandler, club president, won first in ribbon roping. Ted Harper, second and Buster Babb third.

First jackpot calf roping was taken by Babb in 12.8 seconds, Chandler, 16.1 and Hicks 16.7.

Babb also won first place in the second jackpot roping with a time of 15.1; Hicks second with 16.6 and Damon McGilvery third with 20 seconds.

J. W. Powers of Ozona placed first in the goat roping with McGilvery second and Cy Banner third.

Ted Harper of Marfa was matched against Donald Collier of San Angelo for four calves. Harper, mounted on a beautiful Palomino stallion, made his four calves in 75.8, while Collier, the San Angelo College Rodeo Champion, used up 87.8 seconds.

Glenn Babb won a six-calf contest from Sam Allen Mathers with a time of 146.9 to 179.6. J. W. Powers bested Bubber Mathers on four calves with 98.7 to 105.3 for the final event of the day.

Roping club officials expressed satisfaction after the two day events. While the attendance was not as large as expected, there was a decided increase in interest over other shows put on by the club.

Plans have been announced for another two-day program to be held in Sanderson on Saturday and Sunday, August 16 and 17. In these events two-day averages will be awarded in the calf roping and the ribbon roping. Matched ropings will feature both days' entertainment and a dance Saturday night at the Masonic Hall has been planned.

## Continued Warnings Against Causes Of Polio Issued

It is believed that the majority of adults have at one time been infected by the virus of poliomyelitis usually without manifestations, says Dr. George W. Cox, State Health Officer. In view of the above it is expected that most of the recognized cases will be among children.

Only a small proportion of infected persons are clinically recognizable. When symptoms are manifested, they usually comprise an acute illness with fever, headache, and almost always a characteristic stiffness of the neck and spine. Some degree of paralysis may or may not occur during the first few days of illness.

During the poliomyelitis season the following measures are recommended:

Insist upon safe waste disposal so that human excreta is not exposed to disease transmitting vectors.

Insist upon elimination of fly breeding sources and do not depend upon community wide airplane spraying or fogging machines as a substitute for basic sanitation.

Food supplies, including milk, must be protected against contamination.

Always demand safe water for drinking or swimming pools.

Insist that garbage be kept covered and disposed of by incineration or sanitary fill.

Eliminate all insanitary conditions on your own premises.

Practice good personal hygiene with particular attention to personal cleanliness.

Avoid excessive physical strain during poliomyelitis season.

Isolation in bed of all children with fever pending diagnosis by physician.

## W. W. SUDDUTH REPORTS ON DALLAS 'DIMES' MEETING

The 14-year war waged against polio by the March of Dimes has brought the nation close to the threshold of victory over the disease, W. W. Sudduth, chairman of the Terrell County Chapter of the National Foundation for Infantile Paralysis declared this week following his trip to Dallas last week.

Mr. Sudduth returned July 1 from a 4-state regional conference on polio problems with Basil O'Connor, National Foundation president, held in Dallas. Attending the sessions were chapter chairmen from Louisiana, Oklahoma, New Mexico and Texas. More than 200 chapters of the National Foundation were represented.

Also taking part in the "workshop" discussions at the conference were Dr. Hart E. Van Riper, medical director; George P. Voss, director of chapters, Miss Elaine Whitelaw, director of women's activities and Miss Dorothy Duca, director of public relations. The conference was arranged by regional director Harold Bass for the southwest states.

"From all I heard at the conference," said Mr. Sudduth, "I am convinced that in the years ahead the dark shadow of polio will be removed from our homes. We all left Dallas with the feeling that the time and work we put into the March of Dimes will be repaid a thousand-fold in the future.

"Meanwhile," he continued, "we must bear in mind that polio is still with us. Unfortunately we have no reason to believe that the disease will relax its hard grip on the nation this year. We cannot forget the grim incidence figures of the past four years, nor can we put out of our minds that approximately 30,000 cases now seem to be the annual expectancy rather than an extraordinary occurrence. Until science defeats polio, our work must continue with greater intensity than ever."

A financial burden which chapters of the National Foundation must carry for years to come, he said, is that of caring for an increasing number of severely involved patients, stricken in previous years, who need financial help.

The National Foundation estimates that between 40,000 and 45,000 cases from other years were being aided by chapters at the beginning of 1952.

However, Mr. Sudduth declared, the National Foundation faces the 1952 polio season better prepared than ever to cope with a possible polio emergency.

The due process of law amendment encompasses not one but several guarantees. Every American is secured against being placed twice in legal jeopardy for the same offense...

The right to a speedy and public trial, by an impartial jury, in the locality where the crime was committed, the right to be informed of the nature and cause of the accusation...

Excessive bail and fines, and cruel and unusual punishments are prohibited in Amendment VIII. Other articles insure the right to bear arms and ban quartering of soldiers in private homes during peace time.

Then, to make quite clear to our governing bodies the underlying intent of the preceding provisions, the Ninth Amendment states: "The enumeration in the Constitution of certain rights, shall not be construed to deny or disparage others retained by the people."

The 10th Amendment further emphasizes this basic theory by providing "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively or to the people."

Thus, that fundamental philosophy expressed in the Declaration of Independence, that men are endowed with certain inalienable rights and that "to secure these rights, government are instituted among men, deriving their just powers from the consent of the governed," has been carried forward into the highest law of our land.

HEALTH FOR ALL— FACTS ABOUT TB

It is estimated that about 400,000 persons in this country are suffering from tuberculosis, and that the disease is striking approximately 115,000 new victims a year.

These figures point up the fact that TB is a serious health problem for our nation. Yet, we have made significant gains in the nationwide war against TB, launched at the turn of the century by the people themselves, under the leadership of the medical profession, health departments, and the voluntary tuberculosis associations.

As the battle goes on today, hope for eventual victory over tuberculosis is greater as more and more people learn the facts about the disease. For people who learn the basic facts about tuberculosis are better equipped to protect themselves against the disease and to join actively in the fight against its spread which is being carried on in communities throughout the country.

For example, people learn that tuberculosis is not inherited, that it is caused by a germ and that it is "catching". This knowledge can override much carelessness and superstition concerning the disease and help people act more intelligently in protecting themselves against exposure to TB.

first strikes is by annual medical examinations and chest X-rays.

Another important fact is that once TB is diagnosed, the best place for the patient to go for treatment, for his own sake and to protect others, is a tuberculosis hospital.

These are just a few basic facts about tuberculosis which can help people protect themselves and their communities against a disease which leads the causes of deaths from disease in the age group from 15 to 35. But they are important facts, and the more people learn about TB and use that knowledge for their protection, the closer we will be toward victory over the disease.

There are Miles that Make You Happy

YOU'LL discover a lot that you like in this neat, fleet and nimble traveler the first mile you drive it.

Such things as cushions broad and deep—six-passenger room unsurpassed by any car in America—fabrics rich, soft, harmonious.

As you take it through traffic—breast a hill or two—try it out on back roads—you'll find that you handle Dynaflo Drive\* as if you had always used it—your ride is serenely level—and a great tide of power comes surging up as you need it.

This, you will say, is very Super indeed.

But no one-time sample can tell you the deep-down enduring thrill that is yours when you own this great middle series Buick.

How easy it is to park in round-town driving, especially if you have Power Steering.†

How relaxed you and the family will feel at the end of a long day's vacation jaunt—with Dynaflo Drive to let you drive at ease on the open road, without the tenseness of clutch-pushing in traffic—plus a Million Dollar Ride to protect the comfort of the family.

That ride is something to talk about. More than a dozen selected engineering features control roll and wander on curves—snub dip and sway before they get past the frame—carry you over all kinds of roads with lullaby smoothness.

And that Fireball 8 Engine—man, what a docile thunderbolt you'll find it to be! Here's a high-compression valve-in-

head that really wrings miles from a gallon of gas.

In other words, all the miles you travel in this Buick are going to make you gladder and gladder that you bought it—for comfort, for fun, for thrill and for thrift.

What are you waiting for? Come in and get your sample today.

**'VIVA ZAPATA' FILMED ALONG RIO GRANDE**

Scenery and props that Hollywood couldn't duplicate for any amount of money were captured by Twentieth Century-Fox cameras during the filming of John Steinbeck's "Viva Zapata?" the biographical drama of Mexico's famous rebel which Elia Zazan shot in part along the Rio Grande.

The 100-year-old Mexican town of Roma, Texas, its adobe store buildings, church and wrought-iron embroidered homes, was turned over to Zazan and his crew. The quaint village with its huge cobblestone plaza declared a three-week holiday while 500 of its picturesque citizens donned makeup and peon garb to emote before the cameras along with Marlon Brando, Jean Peters and a host of Hollywood and Broadway actors.

Against a bullet-pocked adobe wall where, according to legend, Pancho Villa executed prisoners, Hollywood captives were "shot down" by a firing squad for the story of the peasant bandit-hero, Emiliano Zapata, the last of Mexico's men on horseback.

From the rocky confluence of the Pecos and Rio Grande rivers, west of Del Rio, where Kazan set up a main location site, the cameras went on a 350-mile safari to the lower reaches of the Rio Grande to reproduce the scenery of the state of Morelos, Mexico, the province where Zapata fought during the turbulent era of 1910 to 1920.

Some of the filming was done in the Pecos River country near the high bridge crossing on U. S. 90.
