SP To Add 200 'Super-Giant' Cars To Big Train Fleet

HOUSTON, Feb. 3. — Two hundred additional "super-giant" refrigerator railroad cars, designed especially for the transportation of frozen foods, will be added to the fleet of Pacific Fruit Express Company, according to authorizations announced today by PFE's joint owners, the Southern Pacific and Union Pacific railroads.

One hundred of the new cars will be mechanically refrigerated, capable of maintaining zero temperature, similar to 25 new cars Pacific Fruit Express Company expects to place in service early this spring, according to K. V. Plummer, the company's vice-president and general manager.

Deliveries of the 200 new cars are expected to begin toward the end of this year and be completed early in '54. The company already has in service almost 500 of the super-giant cars, which are longer than conventional 40-foot cars and have 50 per cent thicker insulation.

Need for such cars is shown by the increasing volume of business in the frozen food industries. Loadings of frozen foods have nearly doubled in five years in the territory served by Pacific Fruit Express Company, and indications are that the trend will continue, Plummer said.

Pacific Fruit Express Company owns and operates the largest railroad refrigerator car fleet in the world, approximately 38,000 cars at the present time.

BOY SCOUT WEEK FEBRUARY 7-13

The Boy Scouts of America, with its membership at an all-time high in excess of 3,250,000 Cub Scouts, Boy Scouts, Explorers, and adult leaders, will observe the 43rd birthday of the organization during Boy Scout Week, February 7 to 13.

The theme of the celebration which will be observed by 84,300 Cub Packs, Boy Scout troops and Explorer Units throughout the U. S., its territories and wherever American families live abroad, is "Forward on Liberty's Team."

This is the name of the Scouts' Three Year Program which seeks to produce a greater functioning manpower and provide a higher quality program for its ever-increasing boy membership.

Boy Scout Week celebrations this year will stress "The Scout Family" depicting how parents and others of the family often have a relationship to the Scout Program. At "Open House" evening meetings Scouts will introduce members of their family to their fellow Scouts. At these meetings tribute will be paid to the American home and its influence on the lives of boys and its place in a free society.

Since its inception in this country in 1910, the Boy Scouts of America, and its individual members have always taken a strong position in respect to the place of organized religion in the nation's life.

Traditionally on February 8, Scouts and leaders recommit themselves to the Scout Oath or Promise at 8:15 p. m., in the four time zones. These ceremonies will take place, in some instances, at Scout family birthday dinners, while some Cub Dens, Boy Scout Patrols and Explorer Crews will meet in homes of members.

BADER EXPLAINS LEGISLATION ON SCHOOLS OF STATE

A number of bills affecting public education have been introduced in the present session of the legislature of the state of Texas, according to Superintendent Matt F. Bader, and some of the controversial bills are those pertaining to the raising of teachers' salaries.

"House Bill No. 3, introduced by Rep. Joe Kilgore of McAllen, is backed by Gov. Shivers and is in line with the Governor's proposal to increase teachers' salaries and financing the increase.

"The bill provides for a minimum beginning annual salary for degree teachers of \$2,624.30, which would be an increase of \$240.00 over the present salary. The proposed law also provides that \$15,000,000 of tax now going to the available school fund be re-allocated to the Minimum Foundation Fund which would cut the per capita apportionment by approximately \$10 per scholastic. The per capita payment now amounts to \$68 per scholastic. In reality, this would mean that many of the 238 school districts in Texas who are not now under the Minimum Foundation Program would have to receive Minimum Foundation Funds, since the cut of their per capita would not leave them with enough funds on which to operate without calling on the Minimum Foundation Funds. Other schools that are already qualifying for the Minimum Foundation Funds would receive a corresponding amount of Minimum Foundation Funds for the cut of the \$10 per capita apportionment. This portion of the proposed law would not have any effect on the school finances of Terrell County," Bader added.

"House Bill No. 3 further proposes that local districts bear 25 per cent of the total cost of the Minimum Foundation Program. When the Minimum Foundation Law was passed in 1949, the local districts were required to pay \$45,000,000 annually of the Minimum Foundation Program, which was approximately 25 per cent of the total cost of the program at that time. Because of the increased cost of education during the last four years due to better attendance, in-

New Officers Named For Junior Band

During the school year, some of the junior band members have discontinued their band work or moved from this area, according to Phillip Chery, local band director, thus creating vacancies in the roster of officers.

Last Monday elections were held during band rehearsal to replace the officers who had resigned. The following students were elected: Anabelia Flores, president; Anita Flores, vice president; Onofre Lopez, sergeant-at-arms.

Yolanda Garcia remains as secretary-treasurer and Amelia Esqueda continues her duties as reporter.

Rehearsals are being held almost daily on the senior play, "Old Crusty Takes the Air," being directed by Mrs. W. H. Savage. No exact date for the presentation of the play has been set.

The cast of the play, a comedy in three acts, is as follows: Adam Davis, "Old Crusty"; James Clark; Patience Davis, Adam's sister and a spinster; Mary Landon Rose; Clarice Davis, Adam's daughter; Mary Lou Cargie; William Dickens, Adam's office manager; Jimmy Caroline; Dan Thomas, an aviator; Jack Savage.

The ticket sales will be under the charge of Nieves Lopez, the advertising by Joe Albert Neasmith and Douglas Ataway is the stage manager.

Eagle Band To Go To Del Rio Saturday For Festival, Clinic

The Sanderson Eagle Band goes to Del Rio Friday, February 6, to participate in the sixth annual band clinic and festival there. The main purpose of the clinic is the performance before outstanding band clinicians for constructive criticism. This will enable the Eagle band to make better preparations for the regional contest to be in Andrews on April 11. Another benefit is the opportunity for band members to note and evaluate the performances of other organizations in this area.

Festivities will begin with a "Band Show Night". Each band will re-stage their best show from the past football season. A handsome trophy will be awarded the best "show band" by the Del Rio National Bank Friday night.

A clinic session will be held Saturday, beginning at 7:30 a. m. A thirty-minute period is allowed for each band before the clinic officials.

At noon Saturday all visitors will be guests at a barbecue given by the Del Rio Chamber of Commerce.

The parade of bands will be joined this year by two units from Laughlin Air Force Base. The parade will begin at 3 p. m. Saturday. The sweetheart of each band will have an honored position in the parade.

Ten of the outstanding members of each band will be chosen after the parade to make up the All-Star Band. This group will rehearse for two hours in preparation for the All-Star Concert in the auditorium of the Del Rio High School beginning at 7:45 p. m. Saturday.

P. A. Tankersley, superintendent of the Del Rio Independent School Districts, will present a trophy to the best all-around band at the meet. The trophy will be given by Wood Jewelers.

A trophy will also be presented to the best small band competing.

The following bands will be present for the festival and clinic: Rankin, Woodsboro, Rocksprings, Crystal City, Menard, San Felipe, Uvalde, Brackettville, Comstock, Eagle Pass, Sanderson, Mason, Coleman, Pecos, Alpine, South San Antonio, Del Rio High, Del Rio Junior High.

'DIMES' DRIVE LAGS AFTER \$266.25 'NET' GIFT BY CAGERS

W. W. Sudduth, chairman of the Terrell County March of Dimes Drive, announced this week that the drive was a little short of last year's fund-raising drive for the local chapter and National Infantile Paralysis group. So far, only about \$600 has been raised, including \$266.25 taken at the basketball game last Friday night.

Sudduth stated that all of the credit for the money collected by pledges on points in the basketball game should go to the boys who played the game, since it was their idea, and he added that they also were responsible for getting pledges from local citizens and business men as well as collecting the money. The pledges amounted to \$7.86 per point and \$266.25 was realized from the pledges and contributions at the game.

Sudduth suggested that all who had not mailed in a check or card of coins, to please do so at once so that a final amount can be tabulated and the proportionate share turned over to the national foundation.

There will be one or two more coffee days at local cafes which will add to the final sum.

"The need for support of the campaign has been widely publicized," Sudduth stated, "and there is no reason to go into detail to urge anyone to support the worthwhile campaign. All we need now is the response to the nationwide appeal to support the March of Dimes."

Christmas Seal Sale Nets \$495.50 To Set New Record Locally

Terrell County residents sent in this year the largest contribution ever made to the Christmas Seal campaign. The amount was \$495.50.

The sale was conducted under the auspices of the local Terrell County Tuberculosis and Health Association with Mrs. M. W. Duncan, chairman. Six per cent of the total amount will go to the national tuberculosis association and 12 per cent to the state organization, a total of \$89.19, and the remainder will remain with the local organization.

Mrs. Duncan, on behalf of the Terrell County Tuberculosis and Health Association, expressed her thanks and appreciation to everyone for their generous contributions to the seal sale.

New Directory Lists 471 Subscribers

The new telephone directories will be issued to telephone subscribers by mail this week, according to an announcement by Mrs. C. P. Finley, Del Rio and Winter Garden Telephone Co., local manager, this week.

The new directories contain 471 alphabetical listings on four white pages this year, with ten yellow pages of advertisements and information for telephone users. The covers are the same as last year, grey.

The manager has requested that old directories be thrown away as soon as the new ones are received and the cooperation of the subscribers is requested in calling the numbers instead of asking for the name of a business or residence.

J. W. CARRUTHERS, SR. MOVED FROM HOSPITAL

J. W. Carruthers, Sr., who has been hospitalized in Wink, has been moved to the home of his daughter, Mrs. Virgil Ogle, and will probably be brought home in a few days. Mrs. Carruthers and Eva are at his bedside.

A LABOR LEADER SPEAKS

The greatest need in the realm of management-labor relations is for mutual understanding and trust. When management understands what is in the minds and hearts of the employees, when the employees understand the problems confronting the "boss" in our competitive enterprise system, and when each appreciates the viewpoint of the other, then we have a foundation upon which to build labor-management trust and achieve greater productivity and better living standards for all.

Freedom Forum XIII at Harding College went a long way toward getting at the problem of mutual misunderstanding and distrust between these vital groups who hold the future progress of America in their hands. Among our conferees were representatives of organized labor, the church, education, big business and little business from 26 states. Since every American citizen has a stake in the management-labor problem, I'm devoting the next few columns to the lessons we studied at the Forum.

Good Citizen

Keith Claxton is a labor leader. He's 30, a native of Boone County, Mo., a high school graduate. In December, 1942, he began work at the A. B. Chance Company plant at Centralia, Mo. But a month later he was in the U. S. Army. Keith saw combat service on three fronts. Twice he was wounded. At war's end, he returned to A. B. Chance and, in time, became an apprentice machinist. He is now a journeyman machinist in the plant. Keith is president of Local 821 IUE-CIO. He's a member of the local VFW post, the Junior Chamber of Commerce, the Baptist Church, and is chairman of the local scout committee of the Boy Scouts of America. He has three youngsters—two boys and a girl.

Speaking to the cross-section Forum audience, containing teachers, preachers, management and labor representatives, he said: "You probably wonder what are the ambitions of a man like me. I suppose I'm not much different from you. Usually we fellows in the plant want to better ourselves, make more money, have a higher standard of living for ourselves and our families."

No. 1 — Job Security

"The first thing the average employee wants is job security. When

a man feels his job is secure, not subject to someone else's whim, he's going to be a more loyal employee and take more interest in his job, the quality of work he does. Most of the men I know who work in factory jobs today naturally want a good standard of living; they want a job which enables them to make payments on a home, to have an automobile, to lay aside a little for vacations, recreations, and the education of their children. After security in importance are good living wages and opportunities for advancement. Progress or promotion, or recognition of a job well done, usually helps a man's morale. All of us like to feel that what we're doing is worthwhile.

"Retirement security is another important consideration in every worker's mind. None of us can go on working forever. We like to think that while our youth is slipping away we are helping to build financial security for our old age. People want to be financially independent of worry in their old age, and actually most of them would like to be building that security while they are able to work, so they can be independent in their old age, through their own efforts, and not have to depend on some government agency or some other form of government aid.

Responsibilities, Too

"Likewise it would be difficult for me to rest easy if I had to worry about my hospital bills and

medicine, plus the fact that, with such bills, I might not have the money to pay for groceries and the other necessities of living. I honestly feel that industry today could make a worthy contribution by taking the lead in this field of insurance coverage, helping to build and establish an insurance program that is good for themselves and their employees."

Keith Claxton's presentation was broad. Besides stating the working man's desires, he described the working man's and the union's responsibilities to the company. Harding College is printing its full presentation, together with that of his boss, F. Gano Chance, president of A. B. Chance Company, on the subject "How We Work Together for the Common Good." It is a thrilling document. Copies are available at printing cost — 10 cents each.

SIMPLE VALENTINE PARTY

WHAT girl doesn't long to have a St. Valentine's party? It's fun and so easy for the young miss who likes to do things "all by herself." A centerpiece of roses is appropriate and a few of these lovely flowers can be arranged to advantage, so the expense is small. Heart-decorated paper plates and napkins to match add the motif of the day to the table or buffet.

Home-made cookies, heart-shaped, and decorated, are festive and a box of cookie-mix provides a sufficient number with no great amount of effort. With the cookies an ice cream soda made with pale dry ginger ale is perfect. For a simpler drink,

ginger ale, thoroughly chilled, is good, or it can be mixed, in equal proportions, with any fruit juice. The frozen fruit juice concentrates are fine for mixing with ginger ale.

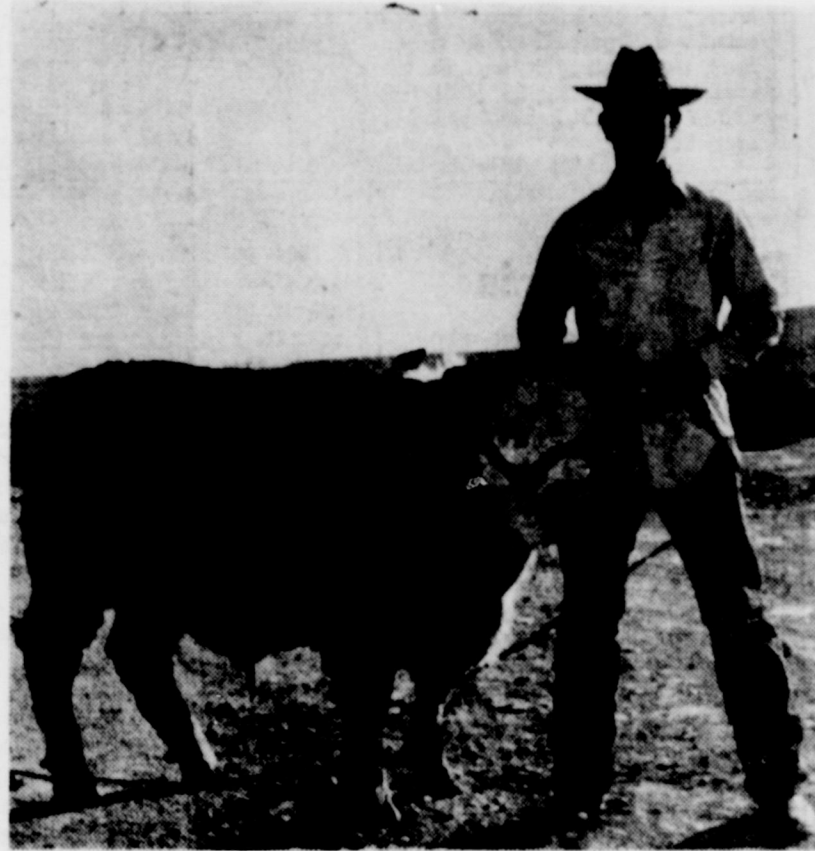

Here is a soda, sure to delight the youngsters, the recipe for a single drink.

GREEN MOUNTAIN SPECIAL
2 tablespoons maple syrup
Few drops maple flavoring
1 scoop vanilla ice cream
Pale dry ginger ale

Combine maple syrup and maple flavoring in a tall glass. Add vanilla ice cream. Fill glass with ice cold pale dry ginger ale. Stir gently to mix.

Times and the volume number will move up to No. 46. This means that this business has been in existence for 45 years in Sanderson.

We don't know what kind of a birthday party will be planned to celebrate the occasion, but it will probably consist of another issue of the paper, which will mean just more work.

There has been many a line of news published under the heading of The Sanderson Times in the past 2,350 issues, counting leap years. Some of it has been good news and some tragic news, but it has, nevertheless, recorded the happenings of people in and around Sanderson and other places as the editors have deemed it of interest locally.

The newspaper has grown, both in circulation, coverage, and other points that indicate the growth of a publication.

That the newspaper has prospered is questionable, but those who have had it in their charge have managed to survive the ravages of all the past catastrophes. Irouths, rumors, etc., which alone is an attribute to the freedom of the press and the great business of bringing the truth of freedom to the people.

We are proud to have been able to see that The Sanderson Times as kept its banner before the people. We feel that the birthday is ours, and even though a year older, we hope we have become some marter during the past 52 issues and will be able to bring "better" news throughout the year ahead.

Bader Explains

(Continued from page one)

Increased birthrate, cost of transportation, and other educational costs, he \$45,000,000 paid by local districts is no longer one-fourth of the cost. The bill proposes that \$55,000.00 of the Minimum Foundation Program should be assigned to the local districts for the school year beginning September 1, 1953, which is an increase of 22.2 per cent over the previous four years, and thereafter the local fund assignment should be increased to 25 per cent of the total cost of the program each year.

Bader continued: "Terrell County would be required to contribute \$5,292 more to the Minimum Foundation Program for the school year 1953-54 than it has contributed for the last four years if this bill passes the Legislature. This amount is being used now for an enrichment fund for the district. In years to follow, the amount to be raised locally toward the Minimum Foundation Program would continue to mount since the total cost of the program on a state level will continue to rise and the local districts will be required to raise 25 per cent of that cost.

"In the event that the teachers' salaries were raised \$600 per year instead of \$240.00, Terrell County will have to raise \$9,060.00 more for the 1953-54 year toward the program than it raised annually for the last four years. Since local districts would be required to supply 25 per cent of the total Foundation Program thereafter, the amount to be raised locally would be higher each year as the cost of the state program increases.

"If House Bill No. 3 becomes a law, the school districts will then have to divert more of their local funds toward the Minimum Foundation Program. The local districts have to provide taxes for debt service and above all it is faced with serious school building problems. The more of a district's mon-

ey that is diverted toward the Foundation Program, the less there is left for a building program. It is pointed out that the state has never participated in assisting local school districts in their building program as is practiced in a large number of other states in the nation. The Legislature has practically any route that it wishes to go to secure needed revenue for the schools, while the local districts have only real and personal property taxes as their only source of income.

"Senate Bill No. 24, by A. M. Aiken and House Bill No. 216 by Rep. Zinley, are companion bills that were introduced in the Legislature, setting the annual minimum salary for a beginning degree teacher at \$3,000. This is an

across-the-board raise of \$600 per year for all teachers. This bill does not provide for any other changes in the Minimum Foundation Law that are now in effect. The increase in salaries would have to come from the Minimum Foundation Funds that are now being used for the Minimum Foundation Program. Added revenue for the Foundation Funds would have to come from the state level, and local district would not have to be assessed for any greater amounts than they are now paying.

"The State Board of Education in its report to the Governor and to the Legislature, calls attention to the fact that 8,000 additional teachers will be needed in 1953-54. Some 2,500 of these teachers are needed to serve increased enrollments and the remaining 5,500 are replacements. The report also shows that the current output of qualified teachers by colleges is approximately 3,755, leaving a shortage of 4,245 teachers meeting requirements," Bader concluded.
