SANDERSON TIMES

VOLUME XLVI

SANDERSON, TEXAS, FRIDAY, SEPTEMBER 4, 1953

NUMBER 29

LISTEN TO LUKE

This week school opens and reminds us of the happy care-free youngsters who start off the school year just as they end it with all the vim and vitality of youth.

When we stop to consider the sweet smiling happy faces of those innocent youngsters we realize our responsibility to them. They deserve our best in opportunities for learning — and for living. The most tragic picture one can imagine is of one of those children being killed or maimed under the wheels of a recklessly or thoughtlessly driven vehicle.

There must be constant vigilance to avoid accidents of this kind. Crossings will be marked for the children but some may stray out of that zone in front of your car.

We have heard that there is a ten-mile per hour speed limit law in school zones in Texas and whether there is or not, it would be wise to practice. Parents should do all in their power to instruct their children in the practice of safety and precaution when crossing the big job is left up to the motorists.

Let's not break a leg by breaking a law.

Last week end we saw a film on the story of another editor and his wife and their troubles and woes, their sorrows and joys. We enjoyed the show because it had the kind of ending we would like to think about happening to us some day — all the big wheels of the town got together and saw that the newspaper had the equipment needed.

No, we don't want the town or the people therein to dole out to us free gratis money to make our business go and grow, but just to get together and live together and help one another so that the newspaper, as well as the butcher, the baker and candle-stick maker can have an opportunity to buy and replace equipment when necessary.

We also enjoyed being on the outside looking in when someone was getting griped at for running the wrong picture, or misspelling a name, or committing the scandalous act of publishing the news as he sees it. That was the real treat of the show.

That editor, too, had his troubles, just like all the rest of us, but we are enough like people that we know that we are not in a class of ourselves in that respect.

Now if this rain lasts long enough to do some good and does not flood the county or tear out so many water-gaps, we would like to have credit for it, but if it does more harm than good, we wouldn't have a thing to do with it. But isn't that life, all over!

Next week winds up the summer's Little League baseball season. And it has been a close second half, too. Closer, even, than major league ball.

Friday night's game, between the Dodgers and Yankees could end up with a second-half victory for the Yankees — or it could end in a three-way tie.

The boys and coaches have shown excellent sportsmanship during the entire season and this, plus the learning of the fundamentals of the game, is the purpose of Little League ball.

We salute all those who have Continued on page 2

Jeep Races To Be Staged Sunday

Announcement was made this week that jeep races would be held on Sunday afternoon beginning at 3 p. m. on the track east of town on the old highway.

Cars will be entered by McNight Motor Co., Loma Alta Station, Busters Garage and Bert Hill and H. B. Louwein.

Plenty of thrills and spills will be witnessed by spectators, it is being promised. Admission prices will be 35c for children and 50c for adults.

Highway 90 Group To Meet In Park Sunday, Sept. 13

Directors and members of the Border Scenic Route of the U. S. Highway 90 Association will be the guests of the National Park Concessions when the group meets in the Big Bend National Park on Sunday, September 13. The concessionaires are offering the group facilities Saturday night and a brunch Sunday morning free of charge to those attending the meeting.

The meeting of the association will take place Sunday morning when further plans will be made for attracting tourists along the border scenic route and efforts will also be made to try to influence a greater interest by business men who are directly affected and benefitted by tourist travel.

It has been advised by the directors of the organization that all business men instruct their employees in the many tourist attractions along Highway 90 so that the tourist will be made to feel like he is among friends while traveling through this section of the state.

Reservations for cabins for Saturday night, September 12, can be had by writing to National Park Concessions, Inc., P. O. Box 7, Big Bend National Park, Texas. Those who are interested in spending the night in the park are advised to obtain reservations before going as all of the cabins will be reserved for members and directors for that particular night and the facilities are limited.

Sander son business men, because of their proximity to the park and because of the necessity of their cooperation with all activities of the organization to attract tourists along U. S. 90, should make it a point to be on hand at the meeting and get the full benefit of the information that will be available.

Leonard Miller, Former Resident, Dies In Snyder

Leonard Miller, 38, Snyder oil field worker, died suddenly at his home Friday night following a heart attack. Funeral services were held in that city Monday afternoon.

Miller resided in Sanderson as a child and attended the local schools prior to working for about a year here as truck driver for the Owl Truck Lines.

Survivors include his wife, a daughter, Betty Ruth Miller, two sons, Gene Edward and Bobby Lynn, all of Snyder; his mother, Mrs. Lottie Miller of Bloomington, Calif.

TB ASSOCIATION TO MEET MONDAY NIGHT

There will be a very important meeting of the Terrell County Tuberculosis and Health Association on Monday, September 7, at 7:30 in the lobby of the Turner Hotel. All members, directors and officers are urged to attend, according to an announcement made this week by Mrs. James Caroline, president.

This is the regular quarterly meeting.

AMONG OUR SUBSCRIBERS

Renewal subscriptions to The Times have come from Miss Betty Mayfield of San Antonio, Mrs. John Baker of Dryden; Weldon Cox, Rev. John W. Byrd, F. G. Grigsby, G. E. Babb, C. H. Stavley, Mrs. Chester Smith and H. G. Holt of Sanderson.

Mrs. B. Starnes of Brownwood, F. A. Gieringer of San Antonio, Garnett Andrews of Roosville, Ga., Seth Davenport of Uvalde.

H. C. Monroe, Jr., of Iraan and C. W. Snowden of Goliad are new subscribers.

Pvt. David Flores left Monday for his new station in Fort Lewis, Wash. After completing his basic training at Fort Bliss, he spent 10 days here with his father, Lolo Flores, and family.

San Antonio Man Drops Dead From Car Here Friday

John Ervin Brack, 41, public accountant of San Antonio, fell dead from his car as he opened the door to deliver his room key at Frank's Beautyrest Courts before leaving for home early last Friday morning.

Mr. Brack, the victim of a heart attack, was accompanied by his wife and six-year-old daughter, Barbara. They had been on a vacation trip to Carlsbad, White Sands and back through the Big Bend National Park. They arrived in Sanderson Thursday evening and registered at the local courts, attended a show and had supper before retiring. As they prepared to leave Friday morning, Brack drove the car down to the office to give the key to Mrs. Frank Weigand, proprietor. She walked up to the car as he opened the door and he fell against her as if he had tripped but was dead when examined by a physician a few minutes later.

The body was taken overland to San Antonio by an O. T. Sudduth funeral coach and was turned over to Porter-Loring Funeral home there for burial. Mrs. O. T. Sudduth drove Mrs. Brack's car to San Antonio and accompanied her husband back to Sanderson.

Aids to Problems Of Obtaining Birth Certificates Listed

Do you have your birth certificate? Have you a certified copy in a safe place? Does it give accurate information as to sex, date of birth, and name of parents? If yours is in acceptable form how about those of your children?

Many schools require a copy of the birth certificate for enrollment. Mrs. Eloise Johnson, family life education specialist for the Texas Agricultural Extension Service, suggests you check to see if your child's birth is recorded correctly. Although everyone recognizes the importance of birth certificates, the specialist says a third of the nation's citizens have none. A person who cannot produce a certificate or its legally acceptable equivalent, is stateless, ageless and often jobless as far as government and many business firms are concerned. In this day of widespread military service, world wide travel and international youth exchange programs, a birth certificate is not only a convenience but a vital necessity. Adults and older people need proof of age and citizenship for retirement, payment of pensions, annuities and social security. This makes the certificate a most valuable piece of paper.

Birth registration is now standardized and compulsory anywhere in the United States. These records become permanent and accessible to those who may be interested. However, now and then, errors occur which cause difficulties later and parents can take precautions against these errors by making sure the doctor spells all names correctly and fills in all pertinent facts, including the exact date of birth of the child. It is wise, too, for parents to obtain a certified copy of the record and file it carefully with other personal documents and papers.

If you have no birth certificate, write the county clerk in the county where you were born, state health officer or state registrar of vital statistics to request a copy. If none is registered for you, one of the best proofs is legally executed, notarized affidavits from relatives and close friends who will swear to the date, place, and your parents' names. Another widely used proof is to check Federal Census rolls for your official record is the first census after you were born.

Check your family files to see that every member has at least one certified copy of this important family record — the birth certificate.

LOCAL STORES TO CLOSE MONDAY

A poll taken of local retail establishments found the merchants desiring to close on Labor Day, Monday, September 7, according to an announcement made this week by Mrs. Jettie Peavy, secretary of the association.

Only cafes and service stations will be open for the day and the post office and Sanderson State Bank will be closed in observance of the national holiday.

Mr. and Mrs. Lee Billings are the parents of their third daughter who arrived Saturday. She was named Linda Sue, and her birth weight was six and one-half pounds.

A son, Roberto, was born on August 25 to Mr. and Mrs. Jesus Victorino, their second child. The baby weighed eight pounds. Victorino is a railroad employee.

The daughter born on August 25 to Mr. and Mrs. Sylvester Silvas was named Clelia Pena. He weighed seven and one-half pounds. Silvas is a grocery clerk.

A son, Stevie Bruce, was born in Shreveport, La., Friday to Mr. and Mrs. Bill Quinley, former local residents. The baby, their second child, is a grandson of Mrs. Reed Horton.

A son, Tom Edward, weight eight pounds, was born to Mr. and Mrs. R. H. Murrah last Saturday. The Murrahs have another son, Dan, age 18 months. Grandparents are Mr. and Mrs. R. H. Murrah, Sr., of Alpine.

Telephone Strike Ends At 6 Monday Morning

The walkout strike of local telephone operators ended at 6 a. m. Monday. The operators joined 52,000 other employees of the Southwestern Bell Telephone Co. in the strike eleven days previously.

Mrs. C. P. Finley and Mrs. Clarence Chandler, day and night chief operators, assisted by some of the local male telephone company employees, manned the local switchboards to handle calls in a very satisfactory manner during the strike.

All of the operators assumed their regular tours of work on Monday and "business as usual" has prevailed.

The settlement of the strike came after union and company representatives aided by federal and state mediators drafted a new one-year contract. Wages will be increased from \$1.50 to \$3.00 per week, depending upon the seniority and job classification.

Since the new contract will cost the utility \$8-million annually, increased phone rates are anticipated to cover the additional costs.

Bridge-Luncheon Wednesday In W. W. Sudduth Home

Mrs. W. W. Sudduth entertained the Wednesday Bridge Club in her home this week, serving luncheon at 1 o'clock. Mrs. J. H. Lockhausen was a luncheon guest.

At the conclusion of the card games which followed, Mrs. Jack Riggs was winner of high score prize. Mrs. Maude Herndon and Mrs. Tol Murrah tied for second and Mrs. J. T. Williams was low.

Arrangements of dahlias and roses decorated the party rooms. Those present were Meslames Maude Herndon of Bastrop, J. S. Nance, Tol Murrah, J. T. Williams, W. R. Stumberg, Herbert Brown, Jack Riggs, Bustin Cannon and Mary Lou Keller.

Mr. and Mrs. Bernie Kerr and Ann are on a vacation trip to Fort Aransas, planning to return to Floresville and San Antonio to visit relatives for a few days.

Peak Enrollment Reached In Local Schools This Year

Sanderson schools have reached an all-time high in enrollment, according to Supt. Matt Bader who expects even more students to enroll between now and the first of the year.

The enrollment by grades is as follows: —

First 80, second 50, third 47, fourth 71, fifth 62, sixth 55, seventh 50, eighth 48, ninth 48, tenth 43, eleventh 25 and twelfth 23. The Dryden school has 10 pupils enrolled.

The total for all grades is 612. Supt. Bader also stated that the high school enrollment has increased from 75 in 1950 to 139, and an increase of 13 over last year at the same period.

Top enrollment last year was 608 with the month of December indicating the peak enrollment.

Supt. Bader stated that one of the main reasons for the larger high school enrollment was the fact that many more students now were entering and completing their high school work than in the past four or five years.

28 Texas Grant Made By National Paralysis Foundation To Date

Dallas, Texas — The National Foundation for Infantile Paralysis announced this week that through June 30, 1953, it had made 28 grants to eight Texas organizations totaling \$590,307.10 according to General Robert J. Smith, state March of Dimes chairman.

The eight institutions still have in operating funds some \$93,454.92 of the \$500,307.10 granted since 1938. General Smith pointed out.

Largest of the grants was \$137,751.14 to Baylor University for virus research and medical care with the second largest grant, \$116,859.57, going to the University of Texas for virus research.

The other six organizations in the polio program are: Southwestern Medical College in Dallas; Crippled Children's Hospital in Marlin; Texas Scottish Rite Hospital; Jefferson Davis Hospital in Houston; Southwest Foundation for Research and Education in Dallas; and the Southwestern Poliomylitis Respiratory Center in Houston.

Of the 28 grants, 17 for a total of \$189,419.83 were for virus research; four were for \$13,486.05 for retards aftereffects; one for education in the amount of \$4,224.00 and six for medical care for a total of \$199,722.30.

General Smith said that the \$93,454.92 in unexpended balances of past awards was divided between Baylor University with \$47,739.92 remaining for medical care and \$45,715.00 by Jefferson Davis Hospital in Houston for the same purpose.

From 1938 through December 31, 1952, the March of Dimes campaigns in Texas have resulted in net receipts of \$9,998,309.94 of which \$8,716,145.54 or 87 per cent was actually spent in the state.

"It is of special interest to note that for the period January 1, 1949, through December 31, 1952, the March of Dimes campaign in Texas has netted a total of \$6,379,024.40 of which \$6,316,972.57 or 96 per cent has been spent in the state," General Smith said.

"However in 1952, the Texas March of Dimes campaign netted \$2,181,624.87 while the Foundation spent \$2,488,938.73 in Texas for polio epidemics; resulting in a state deficit of \$307,313.86," he added.

"This means that we in Texas require \$307,313.86 more than we donated to the March of Dimes campaign," General Smith declared.

He said that the 1952 campaign collection of \$2,181,624.87 was the equivalent of .2829 cents per person in the state. The 1953 contributions of \$6,685,827.26 represents 34.6 cents per capita.

FIRE CHIEF URGES ATTENDANCE AT DRILL MONDAY

W. W. Sudduth, chief of the Sanderson Volunteer Fire Department, urges every fireman to attend the next drill session to be held Monday evening at 6:15 at the fire house.

Sudduth stated that extensive efforts would be made to recruit volunteers who could be on hand at the meetings to learn the operation of the equipment.

"Firemen," he said, "who are not attending the meetings regularly, are not fully qualified to handle the equipment at a fire and should either come out and learn to handle the equipment or stay out of the way of firemen who have been practicing the use of the equipment."

Sudduth stated that this was by no means intended to scare old members away from fire practice or from attending fires, but was to try to influence the regular attendance of all who are interested in protecting local property from fire damage. He stated that without the work of the volunteers as a co-ordinated team, maximum efficiency could not be obtained and added that the devotion of approximately two hours a month in procedures of fire-fighting could do much to improve the efficiency of the local department.

"When the fire alarm sounds now, the first one who can get to the fire behind the truck grabs the hose and goes toward the fire without turning on the valves, and each of those who are trying to fight the blaze are not working toward the same goal which decreases the effectiveness of the equipment tremendously."

He urged that all members of the department and all who are interested in seeing an effective team organized, to come out to the drill session on Monday, September 7 at 6:15 p. m.

"The fire siren will be sounded to remind everyone of the drill," Sudduth stated.

Sept. 14-30 Set As Dates For Drive For Gonzales Funds

Gonzales, Sept. 3—Ross Boothe, president of the Gonzales Warm Springs Foundation for Crippled Children, revealed today that the dates of the state-wide annual fund-raising activities of this organization have been set for September 14 through September 30.

Due to the high incidence of poliomyelitis in Texas these past few years, the Foundation is noted primarily for its achievements in the treatment of post-acute poliomyelitis. However, any neuromuscular condition resulting from injury or disease may be treated at this specialty hospital of physical medicine and rehabilitation.

A non-profit, non-sectarian, charitable institution, the Foundation avails its facilities to any physically handicapped Texan, who might benefit from the treatment program, regardless of race, creed or financial condition.

Organizational work of the field staff of the Foundation has resulted in the development of a corps of volunteer workers in virtually all sections of Texas, whose primary responsibility is the successful culmination of this drive.

In announcing the dates, Boothe said, "The annual campaign is of vital importance to the Foundation. Funds derived from this activity are utilized in the expansion of existing facilities, operation and maintenance of the plant, and to meet the differential in hospital operations and costs."

D. B. G. M. TO VISIT LOCAL LODGE A. F. & A. M.

Pat Patterson, D. D. G. M. of Alpine will visit the local Masonic Lodge Tuesday night at the regular meeting.

All local Masons are urged to be present.

E. E. Harkins, Sr., of Austin spent several days here last week with his sons, Sid, Jolly and Ernest, Jr., and their families.

Scattered Showers, Clouds Continue To Build Hopes For Rain

Scattered showers and heavy clouds over all of Terrell County continues area citizens' hopes for heavy and consistent rainfall to break a prolonged drought throughout this section of the state.

Cloudy weather has continued daily since last week with reports of rainfall ranging from light mists to near 1.5-inches of rainfall being reported.

Some moisture has fallen every day this week in Sanderson, very little registering in the gauge, but most beneficial in helping to keep dust settled and alleviate some of the watering of yards in town.

Wednesday afternoon the heaviest rainfall in town for two weeks showed .22 inches on the gauge at 4 p. m. with mists and light rainfall continuing until late in the afternoon.

Most of the moisture has been reported from the central section of the county, with the south and southeast portions being least benefited by rains.

Some ranchmen who have built or bought pitting devices for their range and used them over flat portions of their terrain, will have an opportunity to see whether or not the process is worthy of their time and efforts, but more moisture will have to fall for them to ascertain the merits of such practices.

Safe Driving Urged By Local Businesses

Many local business men this week devoted regular advertising space to urge all the local people of Sanderson to drive cautiously especially in the school zone.

This idea was carried further by the local Rotary Club when Supt. Matt Bader was invited to meet with the organization at their regular meeting Wednesday at noon and discuss safety precautions with a committee comprised of Jolly Harkins, Clyde Griffith and Earl Pierson.

It was suggested by the committee and approved by Supt. Bader to try and encourage the voluntary practice of parking on the south, west and north sides of the streets running on the south, west and north sides of the school block. It was thought that this practice might help to eliminate a hazard now present which eliminates visibility adjacent to the school grounds. This practice would prevent the possibility of a child darting out into the street unseen from behind a parked car.

Also recommended at the meeting was the insistence on the part of parents that the children be well informed of the hazards of crossing streets when coming out of school and of walking in streets on the way to and from school.

The committee asked that this source of information be used to issue a request to all who live in the north and northeast part of town to please use streets other than those adjoining the school blocks during school hours when possible.

Minimum Loss In Blaze Early Tuesday

Minimum damage was inflicted at a blaze occurring in an unoccupied house early Tuesday morning when the volunteer firemen answered a call. The house was full of furniture, but the occupants have been gone for several weeks.

The blaze was in a large upholstered chair in the living room and there was slight damage to a plastic covered chair nearby. The fire started under the cushion of the chair and had smoldered for several hours before smoke could be seen coming from the house.

Mr and Mrs. N. C. Monroe, Jr., and children of Iraan spent the week end here with his mother, Mrs. M. G. Northeast, and other relatives.

Teachers are in the limelight again.

This time they are petitioning Senator A. M. Aikin, Jr., to run for governor come 1954.

Aikin co-authored the Gilmer-Aikin school bill two years ago and let the fight in the recent legislature for the teachers' pay-raise bill. The bill passed both houses, then died because there was not enough state revenue incoming to pay the salary increases.

Teachers are miffed over Governor Shivers' stand on the pay-raise measure, and the current petition is undoubtedly the result of widespread comment relative to the governor's plan to run for reelection.

Aikin says: "I'm not running for or from anything."

Should Aikin run it would be the first time that the school teachers as a group have entered the political field with a candidate and a platform of educational improvement and teacher-pay-raises.

Dr. George W. Cox is calling up on the public to aid health officials in improving sanitary conditions in public eating places.

Public reaction could be one of the most forceful influences in effecting adherence to the health regulations, the state health officer contends.

Governor Allen Shivers got a quick reaction to his accusation that the FBI is violating States' rights by secret snooping in some civil liberties cases.

FBI Director J. Edgar Hoover commented that he was "amazed you could be so misinformed."

Such investigations are made by the FBI only when so ordered by the Department of Justice, Hoover said, and the head of the state institution concerned is always told about it. Hoover asked Shivers for more details.

In response, the governor said his remarks were in line with the general discussion at the last "three National Governors' Conference." He invited Hoover to look at the minutes.

Into the huddle came State Representative William C. Kugle of Galveston, who asserted that Shivers had shown a "complete misconception of the problems of law enforcement and the protection of civil liberties."

Somebody, Kugle thought, should send the governor a seventh grade textbook on government.

Law enforcement is a matter of local option according to Shivers' position, Kugle declared, and because of that polity Galveston County "has provided a haven for hoodlums for every year."

Claude Hill, Jr., son of Mr. and Mrs. Claude Hill and Eleno Marquez, son of Mr. and Mrs. Jesus Marquez, left Monday for Alpine and on to El Paso for their induction into the U. S. Army. Both were sent to Fort Sam Houston, Texas.

helped so faithfully with the boys during the summer and hope that their efforts will not have been wasted and that the boys will remember all the things that were taught them during practice and play.

The happy faces, the enthusiasm of the boys and the enjoyment of working with boys has been the reward of those who have done the work, but it was reward enough.

Owing to the reports of rain in area cities and towns, we would not be surprised to see hip boots and rowboats being employed in unloading relief feed soon.

Up to last week end there have been 115 cars of drouth relief feed shipped in to Terrell County, according to reports. This seems like a lot of feed, and it is probably more than was bought through regular outlets in the past two years.

Around town we have seen more dirty work going on than ever before around here . . . school kids galore . . . rainfall before dawn . . . the lack of truck sirens going to the fire Tuesday morning . . . a business man wondering if the corn stalk coming up on his property from a stray kernel of relief feed belongs to him, the U. S. Government, H. B. Zachry Co. who have been watering it, to the people of the state, who are buying the water, or who. At least it has not made corn yet and he doesn't have to worry about the yield . . . a new member of the business and professional women's club.

Story in Area Paper Features Taxpayer Of County for 35 Years

A lengthy story recently carried by the Abilene Reporter-News and captioned "ACC Benefactor Believes Area Needs Good Farmers" was a story about S. N. Allen of that city and carried a photo of him also.

Mr. Allen helped to launch the Abilene Christian College, Agriculture Department in 1944 when he made a land grant of 114.4 acres north of the campus to the college. His initial gift proved to be a great impetus to the rapid growth of the department. To the original Allen grant has been added approximately 30 acres and 377 more acres have been leased by the college until now the campus farm is a sprawling 522-acre operation. There are four teachers in the department and an enrollment of 250 is anticipated this fall.

Born in a log cabin in Austin County on November 19, 1865, he was schooled near Hartsville but was forced to leave school after the eighth grade to help his widowed mother. After being afflicted with malaria, he moved to Tom Green County in hopes of regaining his health. He married Edna Tomlinson in Austin County and there their first children were born. The family lived in Tom Green County until going to Abilene in 1938.

He served as a member of the ACC Board of Trustees from 1929 to 1951 when ill health forced his retirement. He served as vice-president of the board for five years.

Mr. Allen owns an interest in the E. W. Hardgrave ranch and

has been a Terrell County taxpayer for the past thirty-five year. Mr. and Mrs. Allen were frequent visitors here when their son, R. N. Allen, and daughter, Mrs. E. W. Hardgrave, and their families were Terrell County residents. Mrs. Allen had a paralytic stroke on June 12 but has recovered sufficiently to be up and around the house.

At 87, Mr. Allen is still sharp-

witted and aware of the Abilene area's needs, according to the story. One of the needs, as he sees it, is good farmers and by "good" he means farmers that appreciate the soil and their opportunities to cultivate it. "The soil," he philosophizes, "will be with us when the oil is gone. West Texas' economy is built primarily around agriculture."

A man that practices what he

preaches, for more than 60 years he has endeavored to be a soil-conservationist in his farming and ranching activities. He guarded and petted the top soil on his farms and ranches as if his life depended on it — "and it does", he claims.

Mrs. Welon Cox and Darrell Glen were in San Antonio Friday for him to have dental work.

**Club H - D Club
Demonstration
Making Slides**

The Ranch Home Demonstration Club met Tuesday morning in the home of Mrs. J. W. Carruthers with Mrs. E. F. Pierson as co-hostess.

Mrs. James Caroline gave an educational talk on "Alcoholism". Mrs. J. Garner gave a demonstration on the making of slides and at noon the school girl lunches were served by the members were served with the hostesses adding huge salad, molded fruit salad, peas, potato chips, tea and coffee.

A sing-song furnished diversion during the afternoon and Miss Hermann made pictures of Mrs. Pierson's demonstration.

The dining table, covered in a blue-embroidered linen cloth, was decorated with an arrangement of flowers and sand sage in a milk can container.

Members present were Mesdames Lee Grigsby, L. G. Hinkle, W. Kerby, C. T. Wrinkle, Carl Moran, J. Garner, James Carroll, W. F. Frazier, J. W. Byrd, A. Wright, M. W. Duncan, H. Surratt, Aubrey Harrell, Miss Thormann and guests, Mrs. A. McCleskey, Mrs. Leola Hill, Frank Harrell and Miss Eva Ruthers.

**NIC SATURDAY FOR
S. HONORS FOUNDER**

The birthday of the founder of Eastern Star, Robert Morris, was observed when members of the organization and their families assembled on the courthouse Saturday evening for a picnic about fifty were present.

**Bridge Party Monday
For Four Newcomers**

To honor four new residents, Mrs. J. E. Carter, Mrs. J. D. Swanson, Mrs. L. R. Armstrong and Mrs. Edward Kerr, Mrs. H. E. Ezelle entertained with a bridge party in her home Monday afternoon.

High score prize was presented to Mrs. Maude Herndon, Mrs. Arstin Nance, winner of second high, presented her prize to Mrs. Swanson and Mrs. Carter received the prize won by Mrs. James Kerr. Ms. Edward Kerr was winner of second low and Mrs. Armstrong won low.

A salad and dessert plate with tea and coffee was served by the hostess. An epergne arrangement of red and purple bachelor buttons and habanranthus lilies was on the dining table.

Besides the honored guests, others present were Mesdames I. B. Rusk, E. J. Hanson, Joe Kerr, Jr., J. O. Little, Jr., Austin Nance, James Kerr, Gene Litton, A. J. Hahn, Jr., M. W. Duncan, Herbert Brown, Ben Martin and Maude Herndon of Bastrop.

**New Mission Study
For Baptist W. M. S.**

The Baptist W. M. S. met Monday afternoon in the church for the first lesson in the new mission study taken from the book, "Let's Listen" and led by Mrs. A. D. Brown.

The hymn "We've a Story To Tell" was sung by the group and Mrs. S. D. Thompson led the closing prayer.

Those present were Mesdames H. G. Cates, S. D. Thompson, A. D. Brown, Claude Bridges, T. O. Moore, T. M. Ivy, James Word, O. D. Gray and V. E. Keyes.

**Two College Students
Honored At Party**

To honor Miss Mary Lou Cargile who is enrolling at Abilene Christian College, and Miss Mary Landon Rose, who will enter Stephens College, Mary Ann Belcher entertained with a slumber party in the home of her parents, Mr. and Mrs. W. O. Belcher, Wednesday night.

Sandwiches, cookies and ice cream were served to the young lady guests early in the evening and then a group of young men were invited over for a period of entertainment.

The guests included Misses Janelle Littleton, Ruby Bell, Donna Wooten, Jetti Ray Holmes, Sandra Taff, Sarah Pat Grigsby, Carolyn Spears and the honoree, Misses Cargile and Rose.

Rev. and Mrs. A. A. McCleskey received word that their son, Sgt. Hubert McCleskey, had left Korea for home, expecting to arrive on September 15. Sgt. McCleskey has been overseas thirteen months and is with an infantry unit.

**Health Department To
Stress Cleanliness
In Eating Places**

Austin — "Texas health officials are making every effort to improve the sanitary conditions of public eating places, and in addition schools are conducted to instruct foodhandlers. Moreover, there are laws, rules and regulations requiring the uses of approved equipment and methods in such establishments. Nevertheless, one of the most forceful influences for sanitation is not being used and this is the public's unfavorable reaction toward dirty and insanitary places," states Dr. George W. Cox, state health officer.

"The public cannot do the job entirely, nor can health departments bring about desirable and essential practices without the aid of the public. As for hygienic practices, persons serving food and drink should be clean; should not cough and sneeze over the utensils and material served; should keep their hands away from their mouth and nose, hair

FRIDAY, SEPTEMBER 4, 1953 THE SANDERSON TIMES PAGE THREE

and face; should handle all utensils by the outside instead of putting their fingers on the inside of service utensils. These are conditions a patron can see, and unless these safeguards are practiced, disease may result."

Also, milk served can be appraised by the patron. Texas law requires that a milk bottle cap state grade of milk and whether it is raw or pasteurized. However, if milk is brought to a patron in a glass, he cannot know whether it is from a graded supply or whether it is raw or pasteurized, but if served properly in its original container, with covered cap and legal label, the patron can secure from the label the information he should have before ever being willing to drink strange milk.

The patron should note sanitation conditions in food establishments. Are the floors, walls, ceilings clean? Are tables and counters clean? Are pie and other foods protected from dust, dirt and flies? Are flies prevalent?

Be assured that what can be seen as a patron at the table or counter usually will be many times better, cleaner, and safer than conditions in the kitchen and other places out of sight of the patron," Dr. Cox says.

Mrs. Jettie Peavy spent the week end in Dallas, going by plane from Fort Stockton. She reported that her daughter, Miss Nancy Peavy, Baylor Hospital student nurse, who suffered two fractured vertebra in a recent fall, is wearing a cast and is able to be about some. She also visited with Dr. John W. Pate and family and found him convalescing satisfactorily from recent surgery at the home of relatives in Grand Prairie. The Pate family will leave this month for Switzerland as previously planned.

A TON OF RUBBER BANDS, ANYONE?

If you enjoy spending money you'd like the job of General Purchasing Agent for Southern Pacific. He spends over half a million dollars every working day.

Our revenues are large, but it takes a lot of money to run a railroad. A great deal goes right out again for goods, materials and supplies to keep the railroad running, our passengers happy and your freight moving smoothly.

Some of the things we spend the money for are either staggering or peculiar or both. More than a million and a half new crosses ties every year... 2,000 pounds of assorted rubber bands... nearly 16 million barrels of oil... two million gallons of creosote... thousands of new diesel locomotives... thousands of freight cars. These are just a few.

And a lot of the money goes for things you wouldn't ordinarily think of in connection with a railroad, like two thousand dollars worth of parsley. Moreover, we bought several hundred thousand dollars worth of electronic switching and communication equipment last year.

We also bought more than 90,000 tons of new rail, angle bars and tie plates — or about 1,800 50-ton carloads.

Southern Pacific buys tremendous quantities of the things it needs within the eight states of the Golden Empire, spending many millions of dollars with local people and local industry. Many of these are outfits that S. P. attracted to the territory in the first place, thus making it possible for S. P. and everybody else to place more business in the West. This illustrates the rapid industrial growth of our Golden Empire.

Our purchasing offices at Portland, San Francisco, Los Angeles, El Paso, Houston and New Orleans buy from several thousand local concerns and individuals. All told, our purchases totaled over 140 million dollars last year — an important factor in the economy of the area we serve.

People say that money talks. Well, this is one of our ways of saying, "It's a pleasure to do business with you!"
