as chosen this year. The plot was built around the three Martin sisters, Enid, Myrtle and Gladys, vorking girls in the city of New York, who are ever under the watchful eye of their faithful lousekeep, Aggie, played by Donna Wooten. Mary Ann Belcher Carolyn Spears and Ruby Hibbard played the parts of the Martin sisters with Gladys in tears over having lost her job at the opening of the play. Confusion and mystery reign after a woman lawyer, Miss Titus, played by Dorothy Hill, calls to inform the sisters that they are heirs to the fortune of a wealthy uncle "with reservations". One stipulation is that each is to spend \$5,000 for personal things in one day and the one giv f g the best account of her purchases to Miss Titus is to re-

eive an additional \$25,000. Aunt Agatha, the Martin girls unt, arrives unexpectedly and her deafness makes her very irritating to the girls who adore her while her inabilty to understand the queer "goings-on" add to her exasperation as she tries to help n the role of "protective aunt" Janell Littleton had the part of Aut Agatha.

Mrs. Sempkens, a neighbor, the role of Yolanda Esqueda, offers to assist Gladys in the spending of her inheritance after Gladys sprains her angle, but only adds to complications when she returns with the money she was afraid to thon. spend. Deadline Near For Safety Check On Cars

Some three-quarters of a million motorists in Texas who are driving about the streets and highways of the state today had better take a close look at their calendars.

That's the number who have, as yet, failed to submit their autos for the annual safety inspection and there's but one month remain-

Homer Garrison, Jr., director of the Texas Department of Public National Park, will be at noon on Public Safety, said today in Austin that a "log jam" of vehicles at inspection stations can still be averted unless a majority of the owners of the uninspected vehicles all decide to wait until the dead line before attempting to meet the provisions of the modified inspection law which was enacted by the last legislature.

'There is no apparent ossibility of an extension beyond the April 15th deadline," the Safety Director stated, 'but long waiting lines will not be encountered if the owners of cars which have not yet been inspected will visit their inspection stations right away and not put it off until the last minute."

George Busby, Chief of the DPS Motor Vehicle Inspection Division, announced that 3,900 inspection stations are now in operation and that they are inspecting about 150,000 cars weekly with none of them reaching anywhere a capacity saturation point.

Garrison repeated the warning that operators of cars which do not bear an approved inspection sticker on Aril 16th and thereafter will be cited into court.

Baseball Season Opens March 30 For High School

Baseball practice has been underway for several days with Fred Hickman as coach. The first game of the season will be on Tuesday, March 30 in Crane with that team returning the favor on Saturday, April 3 for the first home game of casion the Eagle team. All local games will be played on the V. F. W. Field east of town.

According to Hickman, there has been a little trouble in getting a pitching staff together and trying to work out the players of the team. Hickman stated that he did not expect to have the team this year that was on the field last year because of the lack of experience and baseball "know-how", but added that this team was probably in teams in the district and that the local boys could end up with a very good showing.

He listed Alpine as the proable strong team in pre-season predictions because of the fact that they have the advantage of the help of team members and coaches in

The games this year will be on Tuesdays and Saturdays and he hopes for a good turn out at all local games to support the boys.

PIONEER RANCHER. DIES IN EL PASO

Fort Stockton Tuesday afternoon for Hood M. Mendel, 71, pioneer ranchman, who died in an El Pasc hospital Sunday afternoon.

Mr. Mendel was active in sheep ranching until shortly before his death. He had resided in this area since 1908 when he came to Peco County and established a 95-sec tion ranch 25 miles northwest of Fort Stockton. He operated the ranch until 1927 when he quit the cattle business and leased the ranch. In 1919 with W. W. Moser he established a sheep ranch in Terrell County, operating as Moser and Mendel.

At one time they operated 42, 000 acres of land, running 10,000 sheep on the well-improved land. Survivors include his wife and several nephews and nieces.

CAUSE FOR OPTIMISM

A group of 50 people sat in a small private motion picture preview in New York City recently They watched intently as a soundslide film entitled "The Future of America" was given its national preview. At the end of the 25minute presentation, a man sitting near the rear of the room turned to the person on his right. "This story makes me a piker," he said. "I've been uncertain about our economic future, and so I've been holding back on building a new home. Now I'm going ahead and build.

The thing that had eased his uncertainty about America's economic future was the dramatized story of our dynamic economy the measure of its continuing growth, its unlimited frontiers with their ever-widening oppor tunities for all Americans. This story, as presented in the film, is certain to stimulate all openminded people. At the same time it will be a thorn in the side of the Socialists and their dupes who have been trying to convince the American people that our frontiers of opportunity have been exhausted and that we must now look to the government to improve our living standard through more rigid control or even ownership of the means of production and distribu-

Internal Revenue

Since this is the first comprehensive revision of the internal revenue laws for n-ore than 50 years and the enactment of the income tax, it is thought that readers would be interested in some of the details which are given below.

It includes a rearrangement of the provisions to place them in more logical sequence, the deletion of obsolete material, and an at tempt to express the internal revenue laws in a more understandable manner. Many changes have been made, the purpose of which was to remove inequities, and to reduce tax barriers to future expansion of production and employ- sociation. ment.

Slightly over half of the revenue loss represents amounts which will be available to indivdiuals and not corporations. \$778-milion out of a total revenue loss of \$1.4-billion will go to individuals.

The Congress has already allowed an individual income tax reduction of approximately 10 per cent, which went into effect the first of the year. This represents a savings to individuals of over \$3-billion a year, which will be available for consumption expenditures.

Excise taxes have been reduced by approximately \$1-billion, also

available for consumer spending Reductions going to individuals amount to \$778-million; those to corporations amount to \$619-million. However, corporation reductions are more than offset by the increased revenue of \$1.2-billion, arising from the extension of the present 52 per cent corporation income tax rate, which was due to drop to 47 per cent on April 1, 1954. Thus corporations are to be taxed an additional \$581-million for the year 1954.

Other benefits accruing to small income taxpayers are: expanded social security provisions; broader system of unemployment insurance; write-off of medical expenses in excess of 3 per cent instead of 5 per cent; special deductions for cost of child care for widows compelled to work; fairer tax treatment for widows of policemen and firemen and others who have fraternal or private pension plans; fairer tax consideratich for those in retirement; redefining tax statue of 700,000 widowed, separated, divorced, or single "heads of families" and cut their taxes about \$15-million an-

The most controversial revision is aimed at wiping out double taxation on corporation income. It is taxed now as corporate earnings, then again as personal income when it is distributed as dividends to stockholders. The revison would enable indivduals to exclude from

taxable income \$50 of dividends received in calendar 1954 and \$100 received in 1955 and each year thereafter. A taxpayer would get a tax credit on remaining dividends included in taxable income up to 10 per cent.

The tax bill was passed in the Houch on March 18th by a vote of 339 to 80.
