LISTEN TO LUKE

We received word Sunday of the death of a brother who lived in Waco, and while not making apologies, will have to offer that fact and the fact that we attended the funeral as the reason for some possible shortcomings in the paper this week, especially since it was a double burden on the junior member of the staff who is commuting to Fort Stockton to help them out during vacation weeks.

Well, the election last Saturday proved lots of things, and among them was the fact that people still vote the way they please.

We were disappointed, of course, in some of the races — we always are — and we were also surprised in some of them, too.

But that is the way with politics.

In spite of the fact that the Parr contesting was linked with Sen. Lyndon Johnson, and in spite of the fact that Parr has been under constant surveillance by state authorities and in and out of jail, and jury hearings and under and out from under bonds for the past several months, the majority, by 70 per cent of the people of this state voted for U. S. Senator Johnson. It is true that Dougherty is a little-known person, but we feel that his lack of headline grabbing is better than the tie-ins that Johnson had with some of his publicity.

And that goes for one of our candidates for Governor, too. Some of the names with which he has been linked, would not put him in good standing in our books, by any means. We don't like to find a person guilty merely by association, and connection and association are two different things.

We are aware of the fact that those opposing Shivers have accusations of being anti-labor, and he certainly did jump the Democratic race in the last Presidential election, and they are also accusing him of keeping the "tidelands" as a political issue in this race.

We feel that all of these accusations could be true, and know that that is true.

But we also know that Shivers has the guts to stand up and tell the people of the state what he is doing and what he thought should be done in the Presidential election and placed his own position of popularity and prestige above party lines to stand for what he believed was right, and be on that side. We feel that voice was not necessarily for Republicans, as such, but was for the Democratic party as it is nationally.

We also know what Shivers did on the tideland issue, which we cannot forget in a matter of only a few short months, and we also know how Yarborough expressed himself in this issue.

We also know that the retention of the tidelands has been and will continue to be very beneficial to the schools of Texas as long as the oil and oil submerged under the sea.

We also feel that Texas has been well under the administration of Shivers, and feel that that is true.

We are not saying and do not mean that Shivers is the only qualified man for the office of Governor. We do not exactly favor the term, either. But we are just looking at the ledger and seeing some of the good points of his administration, along with some admissions of some bad points.

We actually know of Yarborough's what he has been promising in some of his political races and speeches over the years, and of his associations.

We also know that the people of this state are going to vote the way they please, and we hope they will.

We also hope that they will look at both sides of the question and vote according to the merits of the principals, rather than on the basis of a solid Democrat or a strictly pro- or anti-

COOL SHOWERS BRING RELIEF FROM HEAT WAVE

Cool showers fell late Tuesday evening to bring relief from the heat which has prevailed in this section for the past several days. Temperatures ranging over the 100-mark have been predominate for about two weeks with very still and humid nights prevailing.

The showers which fell were not in sufficient quantity in this immediate area to prove very beneficial to range conditions, but even a little moisture to give any remaining weeds and grass a new vigor is appreciated.

The fact that the showers probably offered a little relief from the heat which was burning up any remaining feed in pastures was the greatest benefit.

Scattered clouds were being watched with interest Wednesday for possible further relief.

Wednesday night a shower fell in Sanderson, registering about .1 inch to add beneficial moisture to the ground and offer additional relief from the heat.

Work Progressing On Pecos Bridge

Material has been moved to the site of the low water crossing on the Pecos River, after a road was constructed to the river bed for use by the workmen, and work is reported to be progressing.

The low water concrete and steel bridge will have a 26-foot roadbed and trucks which formerly negotiated the old bridge on U. S. Highway 90 across the canyon may use the new one, according to reports from the highway department. The grade will be the same on both sides of the river as it was previously, only longer, due to the lower level of the new bridge. Blasting was necessary on both sides of the canyon at the crossing 42 miles from Del Rio. Because of the steep canyon walls a great deal of work had to be done before the workmen and equipment could get into the river bed.

The 450-foot long steel and concrete bridge which spanned the canyon and stood 50 feet above the water, was washed out on June 26 by flood waters. Until a permanent bridge site can be located and the bridge built, the temporary structure, which is expected to be completed by September 1, will make Highway 90 open to east-west traffic.

IT SAYS HERE:— Life may not be all you want, but it's the most you have, so enjoy it.

The Eagle or the Oyster?

Now comes the season of the year when the Red, White and Blue is glorified in oratory throughout the land. Platitudes flow, Washington, Lincoln, Franklin, Patrick Henry, and Jefferson are quoted. For speakers bold enough to break with this tradition, we suggest the examination of a speech written by Merle Thorne, editor of SERVICE Magazine, for the July issue. Theme—"The Eagle or the Oyster?"

For a people... who elect opportunity rather than opportunity, who dream of security rather than success; who believe political charity is a virtue; who mock the frugal and plunder the thrifty; who adopt the rule that if I don't succeed you are to blame, that what you have is as much mine as yours; who contend that property is a shameful sign of success; who whimper that failure is the nobler cause; well-being is wicked; prudence, out-of-date, sacrifice silly—for such a people a fitting emblem is the Oyster.

For a people... who faced nature in the raw, with privation the rule and hardihood a virtue;

who endured defeat, disease and disaster for a hundred years in order to get a foothold on the Eastern Seaboard, the while with one eye on the interior, a no-man's land, a cockpit for settling international rivalries and private grudges, disputed by wild animals and wilder redmen; who sacrificed thus for a belief in the worth and dignity of the individual; who believed that economic freedom was as important as political freedom; who substituted "In God We Trust" for the Old World motto "In Government We Trust"; for a nation built by men who dedicated their lives to achieve the realization of these beliefs.

I give you, fellow citizens—the Eagle!

Rain Halts Play Of Little League Game Here Tuesday Night

The most peculiar occurrence at the Little League ball game here Tuesday night was the fact that the game was rained out. The local little lads gained an early lead against the Alpine team sponsored by C. G. Morrison Co. there and by the last of the fourth inning, the Sanderson Little Leaguers had a 6-3 lead working.

The local team is being managed by Calvin Howell with assistance offered by several others.

WHAT'S SEPTEMBER 17th?

The 4,000 people of Louisville, Ohio, are making preparations for the greatest celebration in the city's history on September 17. Can anybody guess what they will be celebrating - on September 17? Not many Americans can. And yet the event that occurred in September 17, 1787, might well be considered of greater importance to mankind than any since the days of Jesus Christ on earth. The event was the adoption of the United States Constitution by the Constitutional Convention in Philadelphia.

The Constitution created a national government to strengthen individual freedom and safeguard that freedom against all encroachments including government itself. James Wilson, a delegate and noted lawyer, said at the opening of the Constitutional Convention: "For the first time in six thousand years of human history men have come together to deliberate and peacefully resolve what their government shall be." The Constitution they thereupon drafted and signed is the greatest governmental document in human history.

acting at the request of Louisville people, presented House Joint Resolution No. 24, setting aside September 17 as Constitution Day throughout Ohio, calling for special instructions on the Constitution in Ohio schools and for appropriate celebrations. It was adopted. Early in September last year Gov. Frank J. Lausche proclaimed the day officially and urged state-wide observance. Louisville, proud as a peacock, went all out.

The Louisville Herald splashed 15 photographs of the celebration activities on its front page. Its story of the big day took up the remainder of Page one. "Starting off this grand and glorious event," reported the Herald proudly, "was a colorful and meaningful parade which wended its way through the main streets of Louisville, with what seemed like the entire population looking on." And the entire population participated too in all the other events of the day.

Why Not Nation-Wide? Rep. John Lehman, who introduced the Constitution Day resolution in the Ohio House, has just written me: "Can the fact that a serious attempt is being made to observe this day properly here in Ohio (at Louisville) be carried further? I thought that probably if this does interest you and you believe in it, you, in your position as a speaker and writer on American ideals, would welcome the information."

And I do. The American way of life has three foundation stones: faith in God, constitutional government, and the private enterprise economic system. Whatever can be done in America to make our people aware of how indispensable these factors are, to our freedom, our spiritual growth and economic progress, has my wholehearted support. The Constitution and the background for its creation ought to be studied by every school child in America; and all

Americans ought to pause one day in the year to be reminded of how it works to preserve our liberty. Louisville has reason to be proud. What about a Constitution Day in your community?

Continued from Page 1 labor, according to his promises or action, and would he work for each person's own best interest in handling the affairs of the state.

The local fire department executive board is sending out letters in the next few days asking for contributions for the fire department. If there was another word we could think of rather than "contribution," we would use it, because we think that word in connection with some welfare agency which has high administrative costs and considerable red tape at times in the handling of funds.

This fire department is no such agency. When they are needed, the telephone brings them immediately to any call, whether a real emergency or a supposed one. The cost of administration is free, just like the services they render, and there can be no red tape when it comes to answering a fire alarm.

There was no drive for funds last year, and the drive two years ago has been depleted in buying gas, oil and batteries for the trucks, chemicals for the firemen to use in extinguishing blazes, the hose, repair and maintenance to the trucks and insurance for the firemen to protect them in going to and from fires and while discharging their duties as firemen.

The executive board of the fire department takes care of all the finances of the organization and buy on recommendation of the firemen, subject to approval and disapproval.

In other words, none of the money is spent without very good reason and for a very good cause. New smoke masks and fire coats would be a distinct advantage to the firemen; more hose is needed; more chemicals are needed and there is always the need of maintenance and repair to the trucks.

If you feel that your donation to the fire department is not needed or cannot be used, or is a waste of money, come down and look at the equipment, and watch the men work on their way to a fire and after they get there. Watch them scrub the hose after each fire so

that it is protected against rust, watch them oil the pumps after every use; watch them drain and clean the tanks to try to prevent rust. And then look at the 25% good fire credit, a saving to all property owners and then look at your personal belongings and see what would happen to them if you had a fire. Then when you get a letter asking for a contribution, or if you don't get a letter because

your name is overlooked, be sure and give according to your means and help the firemen to keep something on hand with which to combat fires.

THE THUNDERBIRD, a new kind of car combining high performance with the comfort, convenience and safety of a conventional model, has been added to the Ford line. The Thunderbird has a powerful 160 h.p. Y-block V-8 engine and its low, graceful body is of all-steel construction. Equipped with a convertible cloth top which folds completely out of sight behind the rear seat, the Thunderbird can be purchased with a special composition hardtop, making it a complete all-weather car. Its overall height is 51.5 inches—nearly a foot lower than the 1954 Ford sedan—yet it has only slightly less road clearance. Most of its major parts are interchangeable with Ford's regular line of cars. The Thunderbird is scheduled for production by Ford Division next fall.

Mrs. H. C. Goldwire Hostess Monday To Methodist W.S.C.S.

Mrs. Ed Robbins, vice president, presided when the Methodist Woman's Society of Christian Service met Monday afternoon in the home of Mrs. H. C. Goldwire.

Mrs. J. J. Spurlin sang a solo, "Lord, Speak to Me That I May Speak," with Mrs. L. G. Hinkle providing the piano accompaniment.

Mrs. M. W. Duncan presented the program on "Meeting Rural Needs" and was assisted by Mmes. Chester Boyd, Clyde Higgins, I. B. Rusk, Goldwire and Irvin Robbins and Miss Eva Billings. Two suggestions were made as to ways in which the group might help in making rural communities truly Christian; visit new people, inviting them to church and a revival of devotional services in the home.

Mrs. Spurlin gave a brief report of her trip to Sacramento Assembly last week. Announcement was made of the zone meeting in Monahan's Friday.

At the Christmas party in August, contributions will be brought for the support of a mission school in India.

Mrs. Goldwire invited her guests into the dining room for refreshments. Mrs. C. H. White served frozen lime punch and cookies, nuts and mints were also served.

Colorful arrangements of zinnias and marigolds were in the living room and the centerpiece on the tea table was of zinnias flanked by green tapers in crystal holders.

Those present included Mmes. I. B. Rusk, Ed Robbins, Lee Grigsby, M. W. Duncan, Gene McSparran, Harry Newton, Chester Boyd, W. T. Attaway, J. J. Spurlin, H. G. Hinkle, Irvin Robbins, Neal Huff, Clyde Higgins, W. W. Sudduth, John Neal and Miss Eva Billings.
