Beware of dog poisoners—when there is to be found a sign which reads: "Beware of dogs" and many times it may be an idea to heed the warning. Beware about dog-poisoners are serious than you might think. We have commented from time to time about the way some have of eradicating dogs. The first place there are a few who hate dogs—any dogs person who dislikes dogs can be spotted, because he dislikes people. And people who dislike other people and dogs, too, are pretty short for company.

People who dislike dogs, because they are dogs, are not necessarily dog-poisoners. Anyone who puts out poison for dogs commits a dangerous act, because children, too, are the poison. Of course the killer doesn't put out poison on an innocent child. And certainly any person who is guilty of an act would be considered serious, and also many unbecoming names, too.

There are, many times, too many stray dogs in any town. A stray dog is destructive and possibly dangerous. But we do not see any stray children that are potentially dangerous or destructive enough that we should risk having them poisoned.

In a pen of three cross bred lambs, W. J. Vaughan placed 10th. The lambs all sold at good prices, according to Malone Mitchell who accompanied the boys and their advisor, Gene Nelson, to the show.

At dogs that have been found on their own yard indicate that some sneaking night-thief is throwing poison into yards on the streets in hopes that dogs and not children will go the bait.

We know that such action as throwing out poison in town will be hampered or halted by the laws of this column, but it will be parents and citizens on the street to such goings-ons and watch anyone who might throw something in the yards. A report of this kind should be made to local authorities.

Help to keep a child from becoming the victim of a mad dog-poisoner. Any local residents who are not satisfied with the improvement to streets by the seal coat is in hard to please. The streets were widened and the improvements noted at the widened curbs are all things to be glad of.

Our county commissioners are a voice of thanks from the people of the county and especially the people of the town of Sanderson. It wouldn't hurt a thing if the citizens, individually, the next time they meet one of the commissioners, express their thanks in any way or at least remark at the improvement in the looks of the town.

COLD NORTHER AND DUST STORM FOR SANDERSON

Spring made a short stay in the county as high blustery winds early Wednesday morning heralded typical March weather. A dirt storm came in with the north wind although it did not reduce visibility to a great degree. All vegetation is beginning to show green and growth and an observation is made daily as to how beneficial even a little rain would be. Some ranchers have reported that some of their grass and brush that were apparently dead are beginning to show some signs of coming out again and that with the assistance of moisture there would be greenery for Spring feed.

F.F.A. LAMBS PLACE IN HOUSTON SHOW

Eighteen members of the Sanderson F.F.A. Chapter took approximately 50 sheep to the show in the junior division. Bobby Beckett won 12th, 34th and 27th place; Enrique Fuentet placed 25th; Juan Ramirez placed 32nd and Alfredo Calzada placed 21st and 31st in the fine wool division.

Needy Persons Get Surplus Food

Almost 800 million pounds of this country's food surplus was donated to school children and needy persons in the country and abroad during the last half of 1955, reports the U.S. Department of Agriculture.

In this country surplus food went to about 11 million school children, about 1 million persons in charitable institutions, 100,000 Indians, and about two and a quarter million persons in needy families. Altogether, food distributed to these groups totaled nearly 300 million pounds.

Food given away in this country is handled through state facilities, with the state government taking full charge and responsibility for the distribution. Needs in this country are given priority, and sufficient quantities are reserved to satisfy all requests from state governments.

Several new developments point to disposal of even greater quantities of surplus food this year. The Department of Agriculture has purchased more than 102 million pounds of pork products which are now being distributed. Public Law 311, of the 84th Congress authorizes distribution of wheat flour and cornmeal as a strictly domestic relief measure, and first shipments have already been made under this law, with much more expected to follow.

Meeting At Laredo To Further Plans For Diablo Dam

The Texas Water Conservation Association at a meeting at Laredo Wednesday continued efforts to smooth the way for construction of the Diablo Dam on the Rio Grande northwest of Del Rio. Jackson, Jr. of Anahuac met with groups from the upper and lower Rio Grande basin to consider needed state legislation on release and distribution of waters stored by international dams built under the treaty with Mexico.

Diablo Dam will be the second of three dams provided by the treaty. Water users from Falcon Dam the first, 75 miles below Laredo, have questioned the effect of the Diablo Dam on the storage of the lower reservoir.

AUSTIN — Gov. Allan Shivers says he prefers his four-point "states rights" program to a fourth term as governor. Therefore he will not be a candidate for public office in 1956.

Thus he will bring to a close, at the end of this year, 20 active years as a public official. With him will go a record of never having been defeated in any election campaign.

But Shivers is not through yet. He has a plan of action "to protect local authority from federal interference." It centers around interposition.

Four steps in his program include (1) a general discussion of interposition; (2) public expression for or against interposition — at precinct, county and state conventions; (3) if approved by party committees, the placing of an interposition proposition on the primary election ballot; and (4) if endorsed by voters, passing of a legislative resolution asking a U.S. Constitutional Amendment to strengthen and clarify local powers.

In announcing his decision not to run again, Shivers defended his administration against those who have attacked it because of veterans land and insurance appeals.

Faults found in each are being quickly and efficiently corrected, he declared. He predicted that the veterans land program, when completed, will bring the state a \$25-

000,000 profit. As to insurance, he said that by May 31 the commission "will have cleaned out every unsound, insolvent or dishonest company that can be closed under the present stringent laws."

Interposition Reaction Varies
Reaction to Governor Shivers' proposed interposition resolution ran the gamut of yes, no and maybe.

Possibilities of a referendum on interposition, on the Democratic primary ballot this summer, now are under study by the party's legal committee. It will be taken up by the full executive committee probably about the middle of March.

Approving the plan were Atty. Gen. John Ben Shepperd, who demurred only on the "slowness," gubernatorial candidate Reuben Senterfitt, and Dallas members of the Democratic Executive Committee.

More time to study the idea was asked by Reps. J. W. Cooper Jr. and L. DeWitt Hale of Corpus Christi.

It's a "waste of time and energy" said Rep. Barefoot Sanders of Dallas, James P. Hart, a potential candidate for governor, called it "futile and dangerous."

Porter Predicts Victory
Jack Porter, spokesman for Texas' elated Republicans, predicted in Austin speeches that President Eisenhower will carry Texas again this year.

National Committeeman Porter said the Republicans also are hopeful of sending a man to the U.S. Senate if Price Daniel resigns to become governor.

His party does not expect to name a full slate of candidates. "But we have two prospects in sight as a nominee for governor," he said. "And GOP Congressman Bruce Alger of Dallas will be re-elected."

Republican state executive com-

mittee members meet in Austin on March 12 to decide whether the party will hold a primary this year. Site for the state convention May 22 will be named at this meeting.

Indictments Handed Out
A. B. Shoemaker, head of US Trust and Guaranty Co. and its affiliates, who tried to kill himself Jan. 7, was indicted by a McLennan Co. grand jury. Indictments charged the sale of certified drafts without a state license, after the new insurance securities law became effective.

The grand jury report was critical of the insurance commission. Also indicted and charged with having made unlawful campaign expenditures back in 1954 was Vernon T. Sanford, general manager of the Texas Press Association. He was charged with placing a total of \$76 worth of advertising in Waco newspapers in behalf of Lt. Gov. Ben Ramsey.

Texas Election Laws prohibit an individual from spending more than \$25 in behalf of or against any candidate, or contributing more than \$100 to a candidate's campaign fund.

Sanford places ads for candidates and others, in Texas newspapers as an agent of TPA. He states that he did not spend any of his own money, or any funds of the Texas Press Association in behalf of Ramsey or any other candidate.

Says TPA President Russell W. Bryant, publisher of the Italy News-Herald: "Charges that Mr. Sanford has violated the Texas Election code are ridiculous and without foundation. The entire matter stems from the vindictiveness of a disgruntled, defeated candidate who cannot face the fact that the people of Texas believed him unfit to be lieutenant governor."

TPA Directors, meeting in special session, adopted a resolution expressing complete confidence in Sanford and commending him for "the manner in which he has and is executing the affairs of our association."

rison, public safety director, says that 2,000,000 Texas auto owners have not yet taken their cars to licensed inspection stations for the safety checks.

Pressure continues to mount urging Atty. Gen. John Ben Shepperd to remain in public office. Shepperd's mail has been exceptionally heavy. Latest newspaper to come out editorially for Shepperd is the Kilgore News Herald. The newspaper urged citizens to "insist that he continue his courageous and effective public service." Shepperd is still mum on his personal plans and many close friends say he is dropping out of public office.

In a double-ring ceremony performed in Del Rio Wednesday evening, Miss Sue Burchett and Lee Butler were united in marriage. Rev. E. L. Randle, pastor of the Baptist Church, officiated at the wedding rites in the Baptist parsonage. The bride is the daughter of Mr. and Mrs. S. J. Burchett of Sanderson and Mr. Butler is the son of Mr. and Mrs. M. L. Butler, Sr., Austin. For her wedding, the bride wore an Adele Simpson original street length dress of pale pink linen with which she wore pink hat and shoes and white gloves. The bride's parents and Mr. and Mrs. O. J. Cresswell attended the wedding. The couple is at home in Sanderson where Mr. Butler is in the immigration service. They are residing in Mrs. Mrs. Lena Stavley's home. Mrs. Butler has been deputy tax assessor-collector in the office of Sheriff Lee Billings for the past two and a half years. She is a graduate of the Alpine High School and attended Sul Ross College. **Presbyterian Women Observe Week of Prayer Last Week** The culminating service of the Week of Prayer and Self-Denial for Home Missions in which the Presbyterian Women of the Church had been participating was held in the church Monday. Mr. and Mrs. Lee Butler were honored with a miscellaneous shower Tuesday evening in the home of Mr. and Mrs. W. E. Stavley. Mrs. O. J. Cresswell and Mrs. A. J. Hahn were co-hostesses with Mrs. Stavley. The members of the Eastern Star Chapter and their husbands were invited guests and approximately thirty attended the shower. Mrs. R. S. Wilkinson played "Here Comes the Bride" on the piano when the couple arrived and they were pleasantly surprised to find the shower planned in their honor. Mrs. Dalton Hogg secured the signatures of the guests in the guest book. The gifts were opened and passed around for display. The refreshment table was covered in a lace cloth and centered with pink gladiolus arranged in driftwood. Pink candles in silver holders flanked the centerpiece. At one extremity was a three-tiered bride's cake, beautifully decorated in pink and white. The silver coffee service was at the other end. Mrs. Winnie Magill served the cake and Mrs. Dalton Hogg presided at the coffee service. Arrangements of snapdragons in pastel colors decorated the party rooms. Mr. and Mrs. Austin Nance and their daughter, Miss Vannah Jo Nance and her house guest, Miss Betsy Flowers of Houston, spent the week-end in Marfa with Mrs. Nance's sister, Mrs. W. E. BAPTIST W.M.U. HONORS SENIORS WITH BANQUET

The members of the senior class of the Sanderson High School were honored with a banquet served in the band hall last Thursday evening. The ladies of the Baptist W.M.U. were hostesses for the occasion. The Chinese motif was noted in the decorations. A screen standing at one end of the hall was designed in Chinese paintings. Two oriental gurnies and a bowl of red poppies were on the piano. The red poppies in a brass bowl on a black base also decorated the tables which were covered in multi-colored cloths. Bright silk scarves were hung on the walls and the lights covered in Chinese lanterns added a further decorative note. The favors were miniature fans and the place cards and napkins were inscribed in Chinese characters. Charles Matney was the master of ceremonies. Mrs. B. E. Carr, president of the W.M.U., gave the welcome and Darrell Cox gave the response. Mrs. Ross Stavley played two selections on her accordion and Peggie Cooke gave a reading, "Seeing Things at Night". A quartet, Vivian Moore, Doris Jones, Ronald McDonald and Kenneth Shurley, sang "It's Almost Tomorrow" and "Moments to Remember". Miss Carlene Werneking provided piano accompaniment. Gene Medaris, associate pastor of the Baptist Church, was the after-dinner speaker. The menu consisted of baked ham, green beans, buttered beans, candied yams, Waldorf salad, hot rolls, lemon-meringue pie, coffee and iced tea. The guest list included 29 seniors, their sponsor, Mrs. W. H. Savage, and Mr. Savage; their room mothers, Mrs. M. Garcia and Mrs. Weldon Cox with Mr. Garcia and Mr. Cox; Supt. and Mrs. M. F. MILES SULLIVAN AND BRIDE TO RESIDE IN ODESSA

Miss Jean Lois Polsley and Miles Edward Sullivan were united in marriage Thursday afternoon, February 23, in Odessa, Texas. The wedding was in the home of Rev. T. D. Murphy Sr., a retired minister, and he used the double-ring ceremony for the rites.

The bride wore a two-piece dress of royal blue with black accessories and her corsage of white carnations was centered with a gardenia.

Miss June Indantsen, the maid of honor, wore a suit of pale blue wool with tan accessories and a shoulder corsage of white carnations.

Stanley Sullivan, brother of the bridegroom, was best man. Following the ceremony, the bridegroom's uncle and aunt, Mr. and Mrs. John Sennell, were hosts for an informal reception in their home.

After a wedding trip to Carlsbad, New Mexico, the couple is at home at 323 N. Washington Street in Odessa.

The bride, whose home is in Cain City, Iowa, is employed at the Odessa Hospital.

Mr. Sullivan, the son of Mrs. Peggy Sullivan of Sanderson, is attending Odessa College and is also employed at the Morris Machine Shop. He attended the Sanderson schools and served in the U. S. Navy for four years.

Mrs. Sullivan attended the wedding.

BIG STEP TOWARD SOUNDNESS

There has been a great deal of concern expressed among sober-thinking people as a result of the proposed upturn in Federal government expenditures as recommended in President Eisenhower's budget message. The concern is, I think, well founded; but there is a comforting factor in the budget message. For the first time in 25 years we have the prospect of a balanced budget as a result of deliberate planning. This means, if Congress approves the budget as submitted, that our Federal government will be adopting a fiscal program of pay-as-you-go.

So far as the future of our country is concerned, and with it the long-range welfare of all of us, this long-delayed action outweighs the disturbing fact of a rising Federal governmental cost. As a general rule the citizens of America would not trouble themselves individually to take collective action toward cutting down governmental expenses so long as a good portion of the rise was being financed with borrowed money and with little pain to the taxpayer.

Touching Your Pocketbook
With a pay-as-you-go operating plan, however, the government will find it more difficult to hide its extravagancies, and the taxpayer will be more directly affected — in his personal pocketbook — by the ups and downs of Federal spending.

A small-town banker friend of mine recently remarked about several little business bankruptcies in his bank's service territory. "Any business that keeps a good set of books," he said, "is not likely to go bankrupt." He meant that a businessman who was constantly aware of his true financial condition and the detailed operation of his business would seldom get into such a financial hole that his business would go bankrupt. This fact explains the reason investors examine so closely the financial statement of a company before they buy stock in it.

Sound Financing Required
People who save a few dollars a month out of their earnings, by practicing thrift and denying themselves things they would like to have, do not wish to invest this savings in a business which has a big debt and yet, over the years, has continued to increase that debt — regardless of how big its sales and income may be. In the business world, there is a group of companies whose common stock has come to be known as "blue chip" stock. Over a period of many years these companies have had efficient management, have shown sound progress, have paid back their borrowings in a reasonable time, and have seldom if ever missed a dividend.

Stock in these companies is designated "blue chip" because it is valued highest in the investment world. In contrast, the stocks of companies whose financial statements reflect a chronic inability to live to the strict demands of sound fiscal policy, do not attract buyers; and unless they change their ways they usually fail.

The Nation's Stake
Nations too can fail, can go bankrupt — as history shows. And one of the surest ways to national bankruptcy is the decay of monetary responsibility in the government of a nation. With scarcely a notable exception, the

national debt has been rising each year for the last 25. Taxpayers now are paying out approximately \$7 billion a year in interest alone on this huge debt — and this is about as much as all the taxpayers in America — corporations and individuals — were paying for all Federal governmental services just 20 years ago, in 1935.

Senator Harry F. Byrd, Democrat of Virginia and widely acknowledged authority on public finance, and Senator Styles Bridges, Republican of New Hampshire, ranking minority member of the Senate Appropriation Committee, have jointly introduced a resolution in Congress providing for a constitutional amendment which would prohibit an unbalanced federal budget — except in times of war or other national emergency. If approved by Congress and the states, the amendment would require Congress to stay in session each year until it had produced a balanced budget by reduction in expenditures, increased revenue, or both. This legislative step commands the serious attention of any citizen interested in his personal welfare and the future of his nation.

Ford Wins at Stock Car Racing "Olympics"

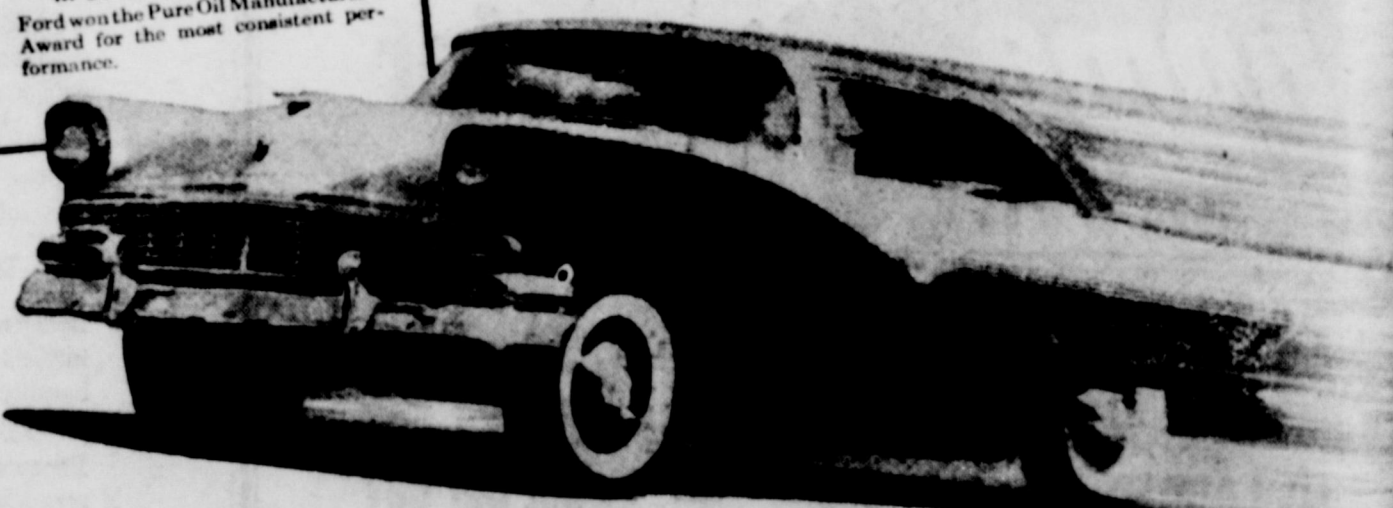

HERE'S FORD'S RECORD AT NASCAR'S DAYTONA BEACH NATIONAL SPEED WEEKS

FIRST
In Sports Car Acceleration
A Ford Thunderbird set a new record for American production sports cars.

FIRST
In top speed—class 4
A Ford "Six" took top honors in the Flying Mile for Class 4 American production passenger cars!

FIRST
In 160-mile Convertible race
Ford V-8's took 1st and 2nd place in the National Convertible Championship Race.

FIRST
In over-all performance
Ford won the Pure Oil Manufacturer's Award for the most consistent performance.

The Ford V-8 again showed its tailight to all competitors in the "Olympics" of stock car racing at Daytona Beach, Florida.

In blazing across the finish line Ford demonstrated once more the sizzling performance that keeps it the largest-selling V-8 in the world. No other car in the field could match Ford for getaway "git" . . . for straight-away acceleration . . . for all-around roadability. To see exactly how the other cars trailed behind Ford, see the chart at the top of this page.

One of the secrets of Ford's performance is the tremendous torque (wheel turning power) developed by Ford engines. For example, Ford's new 225-h.p. Thunderbird engine develops more torque than any other engine in the low-price field. This means quicker response, smoother running in the kind of driving you do! Just nudge Ford's accelerator and *whoosh!* You pass in instants when instants count!

Ford now offers this mighty 225-h.p. engine with any Ford Fairlane or Station Wagon model with Fordomatic. What's more, these engines are coming off the assembly lines right now! So why wait? Come in today for a Test Drive. Find out for yourself about Ford performance. Find out why Ford is the V-8 with the biggest following!
