Plains Publishers, Star Expand Staff

"Civilization is a movement and not a condition, a voyage, and not a harbor."
... Arnold Toynbee

This has sure been a hectic week for me, (Ella Faye Holcomb, society editor says, "Me too!) As soon as I can explain the reason for this first statement, I would like to use this column to elaborate on a couple of items which happened during the past week in connection with the senior trip.

First, we are in the process of making a few shifts in the personnel here at the plant. Billy Ellis, recent editor of the Muleshoe Journal, is going to assume the job of News Editor for The Star today. I am going to make a slight move to the position of managing editor of The Star and assist with work in the production as Plant Superintendent of Plains Publishers.

I am not leaving The Star and will retain full control of the editorial policy of the paper. I am going to turn the majority of the responsibility for gathering and writing the news over to Billy. He and I will work together in an effort to produce a bigger and better paper for you, the readers.

We are also adding to the advertising staff and expect the paper to continue to grow. Because of the size of the paper and the anticipated growth, it has become necessary to enlarge the editorial staff.

During the past week, Mrs. June Floyd has been helping on The Star while I began to work in the production department. Consequently, I did very little of the writing of news for the paper this week.

As I said, it has been hectic, but who wants to ride a treadmill to oblivion.

There have been numerous stories brought to me concerning the conduct of both sponsors (including parents) and students on the senior trip. In addition, I have talked to several of the parties involved.

From all that I have been able to piece together, no one person or group is at fault or can be condemned for the unpleasant events which occurred.

As most of you know by now, a group of boys were sent home because of "misconduct." Undoubtedly, there were others who would have been sent home if they were caught and judged on the same standards as the boys who were returned. A number of the students -- both girls and boys -- have said that they and others in the group were just as guilty of "misconduct" as the convicted group.

But, that does not excuse their conduct -- nor have I found anyone who will say that the conduct of all parties involved was entirely without question. Having had some experience with trips of this nature, I feel sure that under many persons' conception of "misconduct," (which can be very exacting) very few of the students would have lasted for the full duration of the trip. Under other interpretations, no student would have been out of line to a degree which required more than a word of caution.

I believe the students know what they did but that no other person will ever know or be qualified to judge the acceptability of their conduct as well as they. For most students, the trip will be remembered as a pleasant experience, but they will not be proud of acts which cast a bad light upon them and the class.

From the best information which I have been able to get, the boys were not drunk in the true sense of the word. But, they had broken the rule of no intoxicants. It has been pointed out that several other students had done the same thing but were not sent back. They were not caught.

I am also sure that the teachers who called the authori-

(Continued on page 2.)

Some important changes in personnel and shifts in business are announced by the Plains Publishers this week. Papers in Friona, Bovina, and Farwell, their auxiliary commercial printing departments, and Plains Publishers are affected.

In the Star, two new faces will be seen. One is Billy Ellis, former editor of the Muleshoe Journal. He will assume the newly-created position of news editor of The Star. Ellis takes over his duties beginning with the next issue of the paper.

The other face belongs to Pete Mace, who is leaving a teaching position in Friona Schools to accept a position in the advertising department. Mace will serve on the ad staff of all three Parmer County newspapers.

The commercial printing departments of The Star and The Tribune in Farwell have been leased to Clyde Newell of

Lanes Close For Summer

Noon Tuesday was summer closing day for Friona Lanes and T & R Snack Bar. Fall re-opening of these two firms is scheduled for September first.

Ed Hicks, owner of the bowling alley, stated that the summer holiday had been arranged due to the numerous activities during school vacation.

He said, "All these activities are good, but there just isn't time enough for participation in all of them, so we've decided to close for the next three months."

Hicks further stated that plans were being made for 18 leagues this fall. "This will leave four alleys for open bowling to accommodate persons who do not desire to join the league," he said.

Ancel Renner, co-owner of T & R Snack Bar, states that the snack bar will be closed until re-opening of Friona Lanes for fall bowling. He states, "We are looking forward to again serve our customers September first."

Methodist Set Church School

Announcement was made early this week that the annual vacation church school of Friona Methodist Church will begin at 9 a.m. Monday.

Daily sessions will be conducted each morning Monday through Friday from 9 to 11 a.m. There will be classes for children from three through 12 years of age.

In addition to Bible classes there will be handicrafts and recreation for all participants.

Co-directors of the school are Mrs. Hollis Horton Jr. and Mrs. Newman Jarrell Jr. All children in the age group are invited to attend by Mrs. Horton and Mrs. Jarrell.

LOST ACCIDENT

County boundary lines are clearly marked on the map, but positioning them on a country road is not an easy matter.

Failure of a highway patrolman to accurately specify location of an accident was responsible for justice of Peace J. R. Thornton's declaration of a mis-trial in his court in Farwell Friday afternoon.

Clyde Weatherly, who farms north of Friona, was issued a citation recently for illegal

Clovis and his brother, Carlton, of Altus, Okla. The Clovis resident owns Art-Craft Printing in Clovis.

The Altus man will move to Friona and take over the local phase of the business. The changes are effective tomorrow.

Travis Harrell becomes managing editor of The Star and will direct the news and editorial content of the paper. He also will become production superintendent of Plains Publishers where he will oversee the makeup and printing of more than 20 newspapers a week in the offset plant which has become Friona's largest employing unit.

Ellis is a native of Muleshoe and a product of the Journalism Department at Texas Tech. He has served in an editorial capacity for community newspapers for over two years.

He is married and he and his wife, Carol, have one child. They plan to move to Friona in the immediate future.

Harrell, in announcing the employment of Ellis said, "This will make the Star the best-staffed newspaper of its size in this part of the state. We know that Friona is a wonderful community and we want to put out the very best newspaper we know how. I think this will enable us to do so."

The Star has been in the winner's circle in newspaper association contests of excellence numerous times in the past two years. The staff is headed by W. H. Graham, publisher; Harrell, Ellis, June Floyd, columnist and news writer; and Ella Faye Holcomb, women's news. In the advertising department are John Getz, manager, and Mace. The latter has been employed with

LL Teams See Action

Two games have been played in the Pee Wee League since opening of the season. In the opening game Thursday, May 24, Parmer County Pump won over Ethridge-Spring, 9-8. The following Thursday Zane McVey pitched Aztec Drive in to a 21-12 win from Friona Motors.

Two intermediate games were played Friday evening. In the opener Friona State Bank chalked up 7 runs against Friona Drilling and Pump's S. Dale Neel was the winning pitcher in the second game. His team, McCaslin Lumber, won over Brookfield Drilling by 12 points. Final score was 12-5.

Monday evening Friona State Bank edged out Star-Hurst by a two point margin. Final score 15-13. Randy Baize was credited with Friona Drilling and Pump's 5-4 win over Reeve Chevrolet.

In Pony League action at Reeve Field Saturday Parmer County implement won over Chester-Fleming 12 to 7 and on Tuesday Herring implement beat Chester-Fleming, 31-8. Jackie Clark was winning pitcher for Parmer County implement and Doyle Mabry was moundman for Herring.

parking on a public thoroughfare and had pleaded not guilty in Thornton's court.

A jury of six men had been summoned by County Attorney Hurshel Harding to hear the case.

In course of testimony Harding was questioning Weatherly when he learned that the alleged offense had occurred in Deaf Smith County.

After making this discovery, Thornton dismissed the jury and declared a mis-trial.

the Star on a part-time basis for the past year.

Carlton Newell, who will take over the commercial printing at The Star, is now employed by Altus Printing Company. He and his wife have two children. He and his brother have been in the printing business all of their adult lives.

Koelzer Ordained

The Rev. Louis Koelzer, S. A., of the Lazbuddie community, will be ordained a priest of the Franciscan Friars of the Atone-ment in St. Anthony's Church in Hereford by the Most Reverend John L. Morkovsky, Bishop of Amarillo, on Saturday, June 9th at 10:00 a.m.

Father Louis, son of Mr. and Mrs. Bernard N. Koelzer is a graduate of Lazbuddie High School. He received his Bachelor of Arts degree in philosophy at Graymoor Seminary at Gar-ri-son, New York and is expected shortly to earn a master's degree in physics at Catholic Uni-versity, Washington, D. C. He is expected to join the faculty of the Graymoor Seminary, where he will teach physics.

His first Solemn High Mass will be celebrated Sunday, June 10 at 4 p.m. in St. Anthony's Church. Father Angelus Dela-hunt, S. A., pastor of the parish will be the assistant priest.

Other officers of the mass will be the Very Rev. Bonaventure Koelzer, S. A., Superior General of the Society of the Atonement, and uncle of the newly ordained, deacon; Father Declan Gilligan, S. A., pastor of St. Ann's parish at Bovina, sub-deacon; and brother Cletus, S. A., sta-tioned at St. Anthony's, will be master of ceremonies. Very Rev. Andrew Lewis, S. A., sta-tioned at Graymoor head-quarters, will deliver the sermon.

A reception for the newly-ordained priest will be held in the parish hall after the First Mass at 6 p.m.

Father Louis has four brothers and three sisters. They are: Daniel J. Koelzer and Mrs. Dorothy Blankenship of Friona and Mrs. Evelyn Blankenship of Hereford, Gerald, David James and Judy Koelzer of the home.

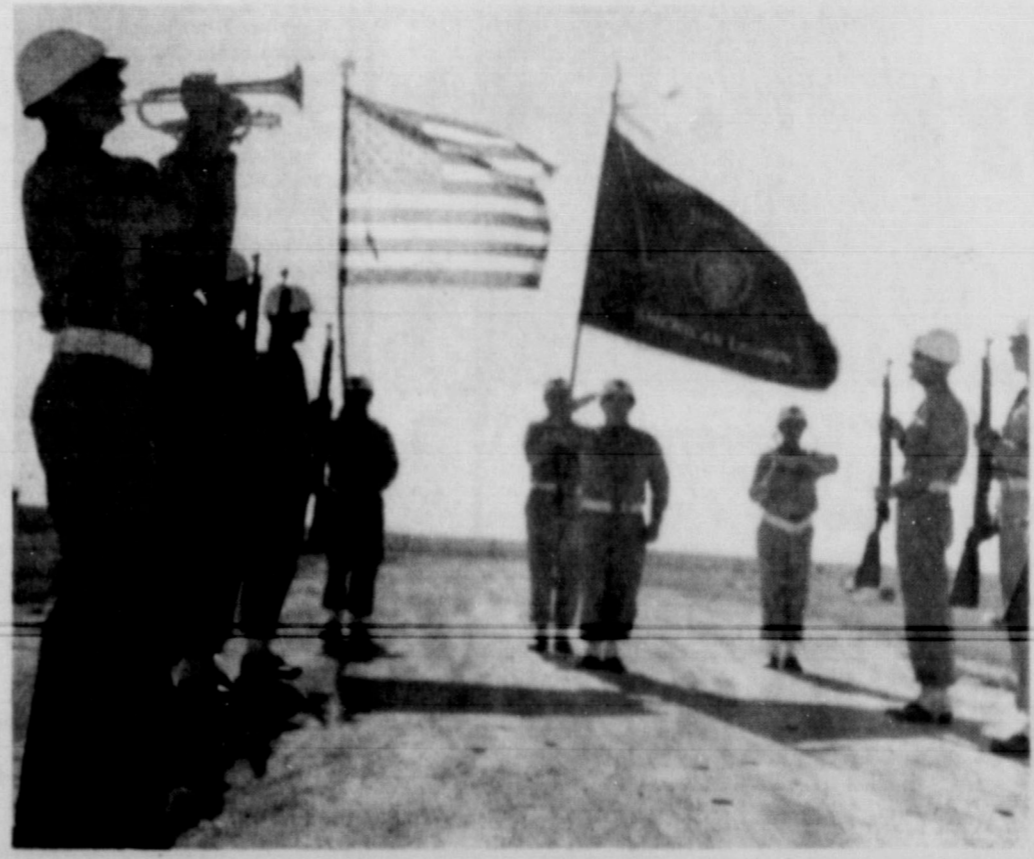

Before beginning his new assignment, Father Louis will have a brief vacation at home with his parents.

GRAVES DECORATED . . . Boy Scouts placed wreaths and American flags on graves of local men who lost their lives during World War II. Eddie Barker is pictured beside the marker on grave of Wayne Mandersheld.

ENTERS PRIESTHOOD . . . Father Louis Koelzer plans to spend a brief vacation with his parents before going to Gar-ri-son, New York, where he will be physics instructor at Graymoor Seminary. He was recently ordained and observed his first Solemn High Mass at St. Anthony's Church in Hereford.

LONG MAY IT WAVE . . . As Floyd Reeve plays taps on his cornet, Friona's American Legion members display the American flag and American Legion flag. The color guard and firing squad led the group from City Park to the cemetery.

A group of tired candidates will sit down Saturday night but not to relax.

Probably, it will be well into Sunday before they know who has won and who has lost the Democratic runoff primary for important state offices.

Democratic voters will return to the polls again Saturday to make their final selections for their nominations for contested offices.

On the local scene, B. M. Nelson of Dimmitt and Bill Clayton of Springlake have been constantly on the move in an intensified campaign for State Representative of the 91st district.

John Connally and Don Yarbrough have battled it out for governor. James A. Turman and Preston Smith are the two tired men in the race for lieutenant governor, possibly the important job in state government. Waggoner Carr and Tom Reavley competed for attorney general. Woodrow Bean and Joe Pool were the busy men seeking nomination for Congressman-at-large, a statewide seat in Congress which likely will be abolished within two to four years.

Following Saturday, they can rest a bit before taking up their campaigns against the Republican nominees who are expected to make the strongest bids since 1874 in the general election on November 6.

But no matter how the democratic primary and the general election turn out, Texas will have new men in the three top state offices beginning next January.

100 Enter Swim Class

Approximately 100 persons are enrolled in swimming classes at Friona's Dive Inn swimming pool. Baker Duggins instructs five classes each day and Mrs. H. K. Kendrick conducts two classes each Thursday evening.

There are two sessions for beginners, one for advanced beginners and two for junior and senior lifesaving each day.

Completion date for the day classes has been set for June 15. Evening classes will continue throughout the summer.

Wheat Growers Stockholders Meet Tuesday

Principal item of business on the agenda at the annual stockholders meeting for Friona Wheat Growers, Inc., in the high school auditorium will be election of two directors.

Terms of A. W. Anthony and Ralph G. Wilson will expire and directors will be elected to fill these vacancies.

Barbecue will be served by Jetton's Catering Service from Fort Worth beginning at 7 p.m. at the cafeteria.

The business session will be held in the auditorium immediately following the barbecue. Attendance gifts will be awarded at the close of the meeting.

Rev. and Mrs. Wallace Kirby and children, P. L. London and H. K. Kendrick are attending the annual Northwest Texas Methodist Conference in Big Spring this week. The group expects to return to Friona Friday.

Commissioners Appoint Jury

Parmer County commissioners met in regular session Monday. Bills were presented and payment approved.

A motion that the commissioners court meet June 11, 1962 as a board of equalization was made and approved.

Motion was made by Guy Cox and seconded by Thomas Wellen that petition for road signed by J. D. Stevens be accepted. Earl Stevenson, J. D. Stevens, G. D. Turner, E. O. Johnston and R. G. Sparks were appointed to serve as a jury of view.

Group Inspects City Facilities

City employees conducted tour of city facilities from 1:00 to 3:15 p.m. Thursday. City Manager A. L. (Jake) Outland opened the tour with an orientation in the conference room.

Glenn Evan Reeve Jr. had charge of a tour of the fire department and Ben Moorman directed inspection of the police department. P. C. Aragon was in charge of a tour of the maintenance building and Clyde Fields explained operation of the east water plant and west water plant.

Dutch Sparkman explained workings of the sanitary fill. Howard Love directed a tour of the cemetery and Pete Hollis had charge of inspection of the sewage disposal plant.

Students Begin Driver Training

Forty-eight students who will be eighth graders, freshmen and sophomores this fall began the classroom phase of the 1962 Summer Driver Training Program at 7 a.m. Monday.

This phase of the program will be three weeks in duration. Each student will be required to attend a two hour class each day, five days a week. Classes will meet from 7 a.m. to 9 a.m., and each student must attend each day during this time.

Instructors for the course are Principal Tom Jarboe and Coach Kenneth Miller. Students will receive high school credit upon completion of the course.

course first to those completing the eighth grade. Then when there were some vacancies, we opened it to freshmen students. There were still a few vacancies, so we opened them to students completing the seventh grade.

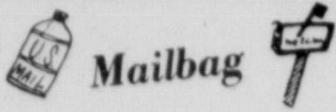

The only requirement is that a student must be 14 years of age in order to receive his beginner's license before starting the driving phase of the course on June 18."

Upon completion of the classroom sessions, each student will be required to participate in the driving phase, which is scheduled to last six weeks.

Jarboe said, "We offered the

NOT AUTHORIZED

One or more persons contacted a number of Friona businesses the past week, seeking commitments for sponsorship of a "safety program", the expense of which was to be borne by paid advertisements by cooperating merchants.

The Friona Star had not been approached by any person representing KPAN, or this promotion, or by any person associated with the sale of this campaign.

Contracts with local businesses were made by persons who live neither here nor in Hereford. They were made by persons authorized to represent the station, but not authorized to represent the newspaper.

While The Star recognizes that all business firms, whether they be located in Friona, Hereford, or any other town, has the right to come to this community to sell their wares, and it is up to the merchants to decide on whether the goods or services are worthwhile.

KPAN manager Clint Formby was contacted by The Star and he said it was possible that the salesman contracted by them had misrepresented the promotion in telephone presentations to local businessmen.

The Star understands that confusion sometimes arises when engaging persons to undertake temporary sales activities, as they may not be familiar with all the facts.

Heart Patients Improve With Weight Loss Under Doctor's Supervision

Overweight patients with heart or peripheral vascular diseases can achieve long-term weight reduction and maintenance of the weight loss conveniently, predictably and safely with the use of Metrecal.

Dr. H. J. Roberts, of West Palm Beach, Florida, reported results on 78 private outpatients who were under treatment for serious organic cardiovascular disorders.

The reduction of blood pressure by weight reduction alone was striking in several patients, according to Dr. Roberts, and in many others he noted a decrease, in varying degree, of the serum cholesterol level.

Many patients with associated diseases ranging from diabetes to ulcers exhibited, with weight loss, simultaneous improvement of these conditions as well as improvement in the cardiovascular disease.

The weight loss in Dr. Roberts' patients ranged from one to 10 pounds after one week from six to 22 pounds after one month, and from six to 24 1/2 pounds after six weeks.

Mr. Travis Harrell Friona Star Dear Travis: On behalf of the Friona PTA, may I express our appreciation for all the wonderful publicity you gave us during the past school year.

Whether we needed publicity on regular meetings or some special project like the controlled reader, we could always depend on you and the Star to come through and do a good job.

Thank you for the consideration and interest you have shown us in our work. We deeply appreciate it.

Sincerely, July Cummings

LETTER TO EDITOR

(The following letter was delivered to the editor by its recipient along with permission for publication is published after discussion with author) To the Friona School Board Superintendent Alton Farr Principal Raymond Cook Mr. & Mrs. John L. Ray Mr. & Mrs. H. L. Outland Mr. & Mrs. John R. Hayes Mr. & Mrs. Hoyt Smith

As a sponsor for the Senior trip I wish it to be known that the precipitate action in sending the four Senior boys home, charged with being drunk or under the influence of liquor, was in my judgement a cruel miscarriage of justice.

One of the boys that went home did so voluntarily saying that if the other three were sent home he should go with them. Other Seniors have said that if the four sent home were guilty of misconduct then many others should have been sent home.

This was and is a regrettable incident, cruel, unjust, unnecessary.

essay, and was an irresponsible decision hastily made. I deeply regret my dereliction of duty in not doing what I might have done to prevent the order sending these fine Seniors home. I think everyone concerned owes them a very sincere apology.

Respectfully Ranza B. Bogges

Dear "Whoever You Are," It appears to me that some of the problems with young people and the trouble of the past week stems from delinquent parents and sponsors. Who were the hosts and hostesses of the party at the Legion Hall? I understand it was not children nor Seniors.

And who directed the activities on the senior trip that allowed things to happen which could not be straightened out "in camp?"

It has been my observation that almost any situation, be it good or bad, which involves children and young people is mainly controlled by the honest heartfelt love and consideration shown by adults.

The pattern of behavior is usually set by the "big people", so how straight are your seams, ma and pa and sponsors?

Mrs. Ray Landrum

Must Estimate Income Tax

Taxpayers paying estimated federal income tax are, according to District Director, Ellis Campbell, Jr., of Internal Revenue Service in Dallas, required to pay their second installment of tax due on 1962 estimated income by Friday, June 15, 1962.

If the income expected to be earned during 1962 has changed, taxpayers should file an amended declaration of Estimated Tax. A blank form for use as an amended return is printed on the back of the bill which taxpayers receive for an installment of Estimated Tax.

The IRS representative explained.

T. O. Lesly Breaks Leg

T. O. Lesly, who farms near Hub and is a member of Bovina Roping Club, suffered a broken leg while practicing calf roping Sunday afternoon.

The accident occurred at the club's arena west of Bovina. Lesly was injured when he fell as he dismounted from his horse after roping a calf.

He was rushed to Farmer County Community Hospital in Friona and was then transferred to Northwest Texas Hospital in Amarillo.

Lesly was second member of the club to receive a leg injury while roping in as many weekends. Wendell Garner suffered pulled cartilage in both knees the previous week.

Castin--

ties in Friona for advice before sending the boys back thought that they were doing what their responsibilities demanded of them.

It may turn out that the boys who were sent back were the fortunate ones in the group. Others who committed the same act but were not returned may yet have to learn what the boys may have gained by being faced with the need to stand accountable before the public for a forbidden act.

IN THAT ORDER Parents are people who bear infants, bore teenagers and board newlyweds. Santa Fe Magazine

MISTAKEN IDENTITY - My son who is a freshman in college had been pestering me for a long time for a late-model car. I kept saying no. On a visit to the campus I pointed out that most of the cars in a parking lot were of ancient vintage.

As usual, this boy was quick on the trigger. "But Dad," he protested, "those cars belong to the faculty!" - Link

WHO'S LOST? - After looking up and down the crowded sidewalk of a large city, a little boy went up to the policeman standing on the corner and asked, "Did you happen to see a lady going by without me?" - Virginia Methodist Advocate

Something To Think About

6th. Street Church of Christ Box 515 -- Friona, Texas

Have you ever tried to figure out how many ways you could use a newspaper? We read it for the information that it contains; use it for a fly swatter; as a rain hat; to cut a dress pattern; for a pressing cloth; a picnic table cloth; to polish glass; to pack dishes, and this is just a part of the list.

THE PURSUIT FOR POWER.

"But ye shall receive power, after that the Holy Ghost is come upon you. Acts 1:8

Do you have power? Power has been defined as the ability to act so as to produce a change. Power is at its best when identified with a worthy purpose.

Most power that we know about and deal with today is limited. A Diesel engine can pull a long string of freight cars, but cannot plant a garden. An atomic bomb can wipe out a city, but cannot compose a great symphony.

Prayer is indispensable if there is to be power. There needs to be a place for prayer. Jesus suggested that it be apart and away from the noise and din of traffic.

There is also the time for prayer. Early in the day we should meet the Lord. All through the day, and at the close of day we should pray. There is power available to you today through prayer.

Farm Facts

Farmers buy the same things city folks buy - food, clothing, drugs, furniture, and other items. These purchases amount to more than \$15 billion a year. But farmers spend from \$25 billion to \$26 billion annually for goods and services to produce crops and livestock.

Other production items fuel, oil and other petroleum products, pesticides, fertilizer and containers. Some will improve their homes, or build new ones. Others will make capital investments in new or better farm service buildings.

Furthermore, says the U.S. Department of Agriculture, farmers are expected to be even better customers. Their gross income in 1961, after all totals are in, is expected to be about \$11 billion more than in 1960.

Farmers also will use a part of their increased incomes for appliances, clothing, medical care, education for their children, and other things.

Equipment and machinery purchases may be from \$190 million to \$150 million higher. Farmers will spend more for

This creates and maintains non-farm employment and makes labor's buying power more stable. Farmers in turn will have a steadier demand for their products.

NEW DEKALB "SHORTY" 50

We recommend it wherever E-56a is adapted. Supply is short, so order early. DeKalb research tests show that introduction of the fourth dwarf gene in DeKalb's "Shorty's" reduces distance between stalk joints without reducing yield or head size. That's why our "Shorty's" stand better and put out top yields.

We Have Plenty Of F-60 And F-62A On Hand.

DeKalb's Replant Offer Is Sure Helping Out Those Whose Seed Has Dried Out.

Friona Woman's Club Installs Officers

Friona Woman's Club members met for a covered dish luncheon and the installation of new officers at the club house May 23.

Invocation was given by Mrs. Wesley Hardesty. Roll call response was suggestions for programs, followed by officer and

committee reports.

Mrs. Carl Maurer, installing officer, named the officers for the 1962 and 1963 club year. They are Mrs. Hardesty, president; Mrs. Edgar Carney, vice-president; Mrs. Bill Baxter, secretary; Mrs. Hazel Kendrick, treasurer; Mrs. Lillian McLellan, parliamentarian and

Mrs. Ed. White, reporter.

Members of the executive committee were hostesses for the occasion.

Farewell quotation was "Our club year is closed; the record made; the last deed done; the last word said; so now with purpose full and clear, we leave to meet another year."

A young man from Cannon Air Base received minor injuries when he lost control of this vehicle about two miles west of Lariat Saturday night. No charges were filed and further information on the mishap was unavailable.

Local Students Receive Degrees

Several students from Friona are receiving degrees from various colleges and universities. Candidates for degrees and honors include Jim Roy Daniel, son of Mr. and Mrs. Roy Daniel. He was awarded a Bachelor of Science degree in Animal Husbandry from Oklahoma State University May 27, in the Lewis Field stadium.

John Ross Hamilton, son of Mr. and Mrs. Harry Hamilton Jr., received his Baccalaureate Degree in Agronomy from Texas A&M College during graduation exercises May 26. Dr. Kenneth S. Pitzer, president of Rice University addressed the class in G. Rollie White Colosseum.

HD Club Members Meet Thursday

Miss Helen Ruth Hamilton receives a Bachelor of Science degree May 31 at 8 p.m. in the University Stadium at Eastern New Mexico University in Portales. Helen is the daughter of Mr. and Mrs. Harry Hamilton Jr. and is one of 214 candidates for graduation.

Jimmy Dwain Ivy, Route 1, Friona, is one of 103 candidates for a Bachelor of Law

degree from the University of Texas in Austin. Commencement exercises will be held June 2.

Nine members of the Lazbudie Home Demonstration Club met May 24 in the home of Mrs. Everett McBroom. One guest, Rosemary Briggs was present.

Mrs. Adrain Weir and Mrs. Glen Lust presented a program, "Accessories in the Home", illustrating with color slides. Simplicity was stressed and harmony of room colors and accessories.

Following the program Mrs. Billy Powell was honored with a pink and blue shower.

Dr. Glenn of Farwell will present a program on Diabetes at the next meeting, June 14, in the home of Mrs. Albert Clark, and visitors are invited to attend.

NEW OFFICERS ... Mrs. Carl Maurer conducted the installation of officers for the Friona Woman's Club for 1962-63 at the final meeting May 23. Pictured with Mrs. Maurer on the back row is Mrs. Hazel Kendrick, treasurer. Officers seated are Mrs. Wesley Hardesty, president; Mrs. Edgar Carney, vice-president and Mrs. Ed. White, reporter.

Shower Honors Mrs. Askins

Mrs. Alvin Askins was guest of honor at a Lullaby shower recently in the home of Mrs. Kenneth Williams, W. M. C. members of the Assembly of God church were hostesses. They presented Mrs. Askins with a corsage of pink rosebuds centered with a miniature stork and accented with blue ribbons.

Favors and napkins, appropriate for the occasion, were placed on the crystal serving trays. Cake and cold drinks were served to guests.

Attending and sending gifts were Mesdames John T. Wilson, J. O. Cheshier, Georgia Oreillie, Jerry Loflin, Rufas Vinson, Don Bentley, Ben Chavez, Clyde Weatherly, Odell

Vaughn, Stanley Bengie, Lewis Miller, J. B. Buske, J. C. Claborn, Wesley Hardesty, C. W. Dixon, W. P. Woodruff, Jim Maynard, Irvin West, Eldon McCormick, Dennis Auburg and John L. Ray.

Also Mrs. E. C. Meil and Mrs. J. A. Loflin of Stinnett, Tex. and Ronnie, David and Terri Williams.

FRIONA WHEAT GROWERS INC.

Soil Stewardship Noted This Week

"Good soil and sufficient water are two of our basic, God-given resources. Out of these basic resources have grown much of our State's wealth and power. They have been essential to the growth and expansion of our Texas economy and population. They will continue to be essential to future development," so said Governor Price Daniel in his opening greetings proclaiming the week of May 27-June 3 as Soil Stewardship Week in Texas.

He continued, "Every citizen bears responsibility for the good stewardship of these vital resources. The Soil Conservation Districts, Watershed Districts and all individuals and organizations interested in the conservation and development of our soil and water resources are making significant progress in this work. Soil and water conservation and development are important to the continued strength of Texas and the stability of the economy."

J. C. Phillips, Jr., chairman of the Soil Stewardship Committee, Association of Texas Soil Conservation Districts, and Lynn Pittard, soil conservationist for the Texas Agricultural Extension Service, reported that churches in every section of the

State have planned special services for the observance. They hope that all citizens will attend and participate. Chairman Phillips said, "It behooves all Texas to pause in their busy lives and offer thanksgiving unto our Lord for the super abundance that we enjoy. All must be made aware that from Mother Earth all that sustains life has its beginning; that we must protect it, husband it, and enrich it so that future generations of Texans may not be in want. Truly the earth is the Lord's and we are but its caretakers and guardians."

Soil Stewardship Week is sponsored nationally by the National Association of Soil Conservation Districts.

Food Travels By First Class To U.S. Homes

Food travels first class between the farm and your refrigerator these days and the trip even seems shorter. Marketing researchers in the U. S. Department of Agriculture have helped arrange the service.

Take lettuce. Researchers have helped grower-shippers learn how to remove the field heat from lettuce before putting it into railroad cars or trucks. That makes it possible to ship lettuce across the country in top-quality condition. Other recommendations have pointed out how to select the type of box or crate that will protect lettuce during its travels; how to use handling methods that cut costs. They even help retailers trim the lettuce so that you only select from the best of the farmer's product, which even takes up less space in your refrigerator.

Take wheat. Everyone who uses wheat in any form benefits from marketing research recommendations that have shown how to handle grain more efficiently; how to use insect-resistant packaging for flour and cereal products; how to fumigate and condition grain better at country and terminal elevators; and how to sample grain for grading with less chance of error.

THE HIGH PLAINS FARM AND HOME

MOTHER LOVE

MOTHER NATURE DAY (SOIL STEWARDSHIP SUNDAY)

ON THIS DAY AND THROUGHOUT THE YEAR WE ARE THANKFUL FOR MOTHER NATURE'S BLESSINGS AND WILL CONTINUE TO PRESERVE HER TREASURES.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

"We don't want to give them (growers) a tremendously profitable price, but let's let them get just enough to keep them working as hard as they have in the past so consumers can continue to enjoy cheap turkeys." This is a quote from a USDA official, dated January 11, 1962, regarding plans for control of turkey producers.

The Senate has passed the administration farm control bill and it is now ready for the consideration of the House. Farm Bureau urges you, if you are opposed to the bill, to write your opposition to your representative to strengthen his opposition. If you favor the bill, you can write your support to your representative.

The powers that be are exerting every effort to bring you under this producer management program that would give you completely regimented operation procedures. It is well to remember that this program would not necessarily be administered by farmer committeemen elected by you and your neighbors. The Montana case of the firing of the elected ASC committee man and their replacement by appointment by a USDA employee should be enough evidence of this truth.

The Farm Bureau Weed Committee and many volunteer workers cooperating have plotted bind weed patches in the county within the last two weeks. Individual farmers, highway department personnel, railroad personnel and others will be poisoning these patches soon in an effort to prevent the spread of this weed. If you do not know a bindweed when you see it, see your county agent, an FFA boy, or ask your neighbor. Don't let them grow on your property.

Mrs. Nell Davis, your office secretary, attended a meeting in Amarillo last week where other secretaries and agents met to find methods of serving you more efficiently. You will find Nell anxious and courteous in helping you with any service Farm Bureau offers, from gas tax refunds up, or down. Your directors will meet in regular session next Monday night, June 4th. You, as usual will be welcome to attend if you would like to. Harry Hamilton, president, urges all directors to make every effort to attend.

CONSIDER THIS: The curse of the Lord is in the house of the wicked; but he bleaseth the habitation of the just. Proverbs 3:33

Tech Dedicates New Facilities

A large crowd is expected at Texas Tech Saturday during its annual Livestock and Meat Producers Day.

The dedication of new beef cattle facilities on the Tech Farm and a demonstration of the Agriculture Department's new dual grading system for livestock will highlight the event.

The one day program will begin at 9:15 a.m. in the Tech Union Building with seven reports on meats studies.

Guests to the event being held in conjunction with the annual meeting of the West Texas Chamber of Commerce will be welcomed by Dr. R. C. Goodwin, Tech president.

4-H Clubs Visit College Station

Farmer County 4-H Clubs will be represented at Texas 4-H Roundup in College Station, June 5-7. Linda Gleason, Linda Lesly, and Gary Foster will take part in the state method demonstration contest.

Linda Gleason and Linda Lesly won first place in the County Method Demonstration Contest, March 31. They presented a 15 minute demonstration "Good Light, Good Sight". They placed among the top two teams in the district contest in Canyon, April 28.

Gary Foster will participate in the Tractors Operators awards program. Gary placed among the top two in the district contest.

The 4-H girls team will be accompanied to 4-H Roundup by Mrs. T. O. Lesly, Mrs. Truman Gleason, and County Home Demonstration Agent, Miss Ettie Musil. Boys 4-H team will be accompanied by either Mrs. Ned Foster or County Agent, Deryl Coker.

Food Costs Less As Incomes Soar Ahead of Prices

There's an extra nickel left in your pay-day dollar these days after you buy your food according to economists in the U. S. Department of Agriculture's Economic Research Service.

The economists tell us the family grocery bill in the mid-forties was about 25 cents of our take-home dollar. Today we spend only 20 cents. Our incomes have gone up faster than food prices.

Ten years ago, for example, an hour's work bought 2.3 pounds of chuck roast; today we get 3.3 pounds. In the early postwar years an hour of work was worth 22 eggs; it's worth 43 eggs today. Yesterday 24 pounds of potatoes; today 29. And the same thing is true for poultry, milk, bread, and most other foods.

Keeping tabs on the national food budget is one way the USDA provides information needed for efficient management, whether it's balancing the family budget, operating a marketing firm, or running a modern farm. These figures help to keep our agricultural economy and marketing system running smoothly.

To Merit Your Confidence Is Our Whole Concern

Phone 2311 - Friona

Soil Testing Still Active

Through April, the number of soil samples being submitted to the three laboratories operated by the Texas Agricultural Extension Service at College Station, Seymour and Lubbock came in record or near record numbers.

During January the laboratories tested 1,589 samples, said W. F. Bennett, extension soil chemist. The total for February fell just short of doubling the January total when 3,020 samples were tested.

During March and April the laboratories handled 4,330 samples but neither month came up to the February totals, Bennett added. The laboratory at Lubbock handled 1,328 samples in March for its highest single month since it began operations. The March total, 402 samples, was also a new high for the Baylor county laboratory.

Bennett said five counties in the State submitted more than 100 soil samples during March and April. They were Baylor, 212; Houston, 165; Lubbock, 155; Terry, 147; and Harris, 124.

To further emphasize the role that soil testing now plays in present day farming, Bennett said that samples during the March-April period were received from 173 of the State's counties; that 151 samples came from Mexico and 5 from Nicaragua to add the international flavor and that samples were also tested from Colorado, New Mexico and Oklahoma.

It isn't too early to make plans for taking and submitting soil samples from soon to be harvested small grain fields, Bennett said. The slack season for the laboratories will mean that results will be returned to the senders within a few days and plans can then be completed for the fall fertilizing and soil improvement and management programs.

If information is desired on soil sampling, Bennett suggests a visit with the local county agent.

POLITICAL CALENDAR

The Farmer County newspapers have been authorized to announce the candidacies of the following persons, subject to the action of the second Democratic Primary.

FOR STATE REPRESENTATIVE, 91st District: Bill Clayton B. M. Nelson

HYBRID SORGHUM SEEDS FROM

RICHARDSON SEED FARMS

POPULAR CERTIFIED HYBRID VARIETIES GROWN, STORED, & PROCESSED ON OUR CLEAN, WELL ISOLATED FARMS

R.S. 610 (7078 x male-sterile combine Kafir) Texas 610 is a 7078 early hybrid. The large semi-dry head is very light red and medium soft in texture. Texas 610 which has shown good increases in yield over several varieties such as Redbine-60 and Martin, has proven to be one of the most popular varieties under all farming conditions.

TEXAS 601 (Tx 04-A Martin cross x male sterile combine Kafir) A good early maturing, dry-headed hybrid. This light red grain has shown good yield increases over Redbine-60 and earlier varieties.

Rent would be \$41.25 leaving \$66.53 if farmer rents, owner paying 1/4 fertilizer, insecticide, ginning and bagging.

Prepared by C. James Murphrey, area farm management specialist.

Earl J. Nelson in a letter to the Denver, Colorado, Post said, "If the REA cooperatives still need help, I would be willing to give it. But, most REAs are in perfectly sound financial condition. Many of them still apply for their 2 per cent government loans on one hand and then invest surplus funds in government securities which bear a higher interest rate. This is exasperating to a taxpayer. . . . This is kicking a gift horse in the teeth."

The work of righteousness shall be peace.

—(Isiah 32:17)

Love, understanding and good will in the hearts of individuals are an absolute necessity before there can be love, understanding and good will among nations.

FOOTSAVING EDUCATION

by James E. Edwards

Is it likely that a shoeman would tell me that my children's shoes still fit?

It is good for the shoeman's business as well as for your budget and the child's foot health to keep the child in shoes that are not outgrown.

It is good foot health because shoes fit best just before they are too short.

It is good for your budget because periods of slow growth help keep shoe spending down so the money will be there when rapid growth knocks most budgets reeling.

It is good for the shoeman's business because word of mouth advertising is the best kind there is and the best word of mouth advertisers are parents who come for shoes and learn that the child's present shoes are good for another month or six weeks.

Screwworm Fight Results Announced

"Though we are just getting started, I believe we are now on the road toward eradication of the screwworm in the Southwest." This statement by R. L. Murphree, DeWitt county, expresses the feeling of officials of the Animal Disease Eradication Division, U. S. Department of Agriculture, Texas Animal Health Commission and Southwest Animal Health Research Foundation.

"I have had only one screwworm case up to mid-year," Murphree continued. "Normally I would have had 15 to 20 cases. Though part of this may be due to the winter freeze, I have found several blows or egg masses which have not hatched. They have just dried up and indicate the release of sterile flies in the area is helping now."

Gillespie County ranchman Clint Hardin, Willow Springs, described how he found a baby calf with its navel covered with screwworm eggs. It was not doctored but the eggs did not hatch. This section has been a hot spot for screwworms in the county, according to County Agent C. A. Stone.

USDA officials explain the apparent leveling off of screwworm cases in many counties during the past week is just a preview of results that will be obtained once the new 75-million-per-week sterile fly production plant at Mission goes into operation. Production has been increased to almost 30 million flies per week at the temporary facilities at Kerrville, but this has not been sufficient to do the job.

Progress of construction at the Mission plant is another reason for the favorable outlook, officials explained. Work is ahead of schedule, and the plant should be completed by mid-June. Fly production will be underway by July 1.

Eventual eradication of this costly livestock pest will come from a combination of the release of sterile flies and work by livestock owners. Stockmen should adhere closely to good screwworm management practices to protect their herds and help reduce screwworm popula-

tions in order that maximum results can be obtained from the sterile fly releases.

"We hope that no one had the idea that there would be no screwworms in Texas this first year," commented Claude McCan, Victoria county ranchman and a member of board of trustees of the SWAHRF. "Although we have had fewer cases than in the past in many areas, it is a question of each individual stockman staying with the fight."

McCan added that they had just dehorned and castrated the third round and have had only two screwworm cases. Normally, at this time of the year, they expect 100 to 150 cases. "Since Victoria county is in real screwworm country," he said, "you could normally expect almost 100 percent infestation when working or dropping calves at this time of the year."

Every case of screwworms put out of commission now prevents thousands of cases three to five weeks later. In turn, this helps make more effective use of the limited supply of available flies and will speed up eradication, explained the officials.

Officials stressed that stockmen should now follow a regular preventive spray program using Co-Ral or Korlan, following closely the instructions on the labels. These sprays give protection for two to three weeks.

Cattlemen in Texas are due praise for the support already given but officials of the cooperating agencies stressed that no one should let up in his responsibilities to the program now, the officials said.

These responsibilities include the regular spray program, close and frequent observation of all animals, pre-treatment of all wounds before they become infested with screwworms, early and intensive treatment of screwworm-infested animals and frequent retreatment. Also the collection of 10 worms from each wound for positive identification. These worms should be delivered to the local county agent or livestock inspector.

HD Agent's Notes

BY MISS ETTIE MUSIL

Want to know what's brand new on the food market? In the USDA Utilization Laboratories, located in the four regions of the country, scientists are working on several new food products. They are experimenting with sweet potato flakes, parboiled wheat product called "bulgar", a bean powder that does away with soaking and boiling, whole egg powder, vegetable chips, and dried honey.

We have a new method of food preservation. Freeze-dried foods are already on the market although they are sold mainly to outdoors men and institutional users. The foods have been dehydrated under vacuum while frozen. These foods can be kept without refrigeration for long periods of time. Then when they are prepared for meals they are just as good as in the beginning.

These dehydro frozen foods should offer a considerable savings in marketing costs and a big savings in freezer space, since it is about 50 per cent of its original weight and bulk. To use dehydrofrozen foods simply add water, thaw and cook. They taste much the same as other frozen foods.

Here's a help for you who have ever washed coloring crayons in with children's clothing. What a mess! Try this for a possible solution to remove the coloring stains. Use one cup low sudsing detergent, hot water in a washer, and add two tablespoons of Drano. Mix the wash water and solution before adding the stained clothes. Be sure to rinse thoroughly as for all washings.

Do you know how to change a fuse? People often joke about the man who's so handy he can't even change a fuse. Actually this is no joke. Many people don't know how. Here are a few simple steps for your and their protection in changing a fuse.

First, disconnect the lamps and appliances in use when the circuit went out. Then open the main switch to cut off the current while you work at the fuse box. Replace the fuse with a new one of the proper size. For your safety keep a dry board at the fuse box to stand on while you work and, of course, be sure your hands are dry. Close the main switch and restore the current. Be sure to always check the supply of spare fuses and buy more if necessary for emergencies. Just a reminder for you not to forget the Refinishing Furniture Workshops to be conducted in each of the four county precincts. For your convenience these workshops have been scattered over the county with four meetings scheduled.

The first workshop will be held Friday, June 8 at 2:00-5:00 in the Hub Community Center for Lazbuddie and Hub

Communities, Tuesday, June 12 at 2:00-5:00 is the schedule for the second workshop to be held in the American Legion Building in Bovina for Rhea and Bovina Communities, Wednesday, June 13 at 2:00-5:00 come to the Oklahoma Lane Community Center for Farwell, Lariat, Oklahoma Lane and Midway Communities. The last workshop will be held Friday, June 15 at 2:00-5:00 in the Black Community Center for Friona, Black, Northside and Lakeview Communities.

Of course, you are invited to attend any workshop that will meet your schedule and location. We had to designate certain communities for certain locations so as not to get fifty for one workshop and only ten or twelve in another workshop. But I hope you feel welcome at any workshop even if you have to drive fifty miles.

This is a county-wide workshop for everyone in the county who is interested in refinishing old furniture to look like new. Many men and young boys and girls are interested in this detailed work, and are invited.

We do hope everyone brings a picture frame, salad bowl, small stool or small piece of wooden furniture to refinish during the workshop. You learn so much more if you actively participate, and remember the procedure for a long, long time. Check another news story for more details for a list of supplies that you need to bring.

For any coffee percolator, top-of-stove or electric, a new King Coffee Filter is said to eliminate the possibility of sediment or rancid oils no matter how many times the brew is reheated. Unique design of filter completely encloses grounds, making for easy disposal. King Coffee Filter Co. Rochester, N.Y.

NOTICE OF BOARD OF EQUALIZATION MEETING Notice is hereby given that the Farmer County Commissioner's Court will meet as a Board of Tax Equalization in the County Court Room in the Court House in Farwell, Texas at 2:30 P.M. on June 11, 1962. Anyone having business with the Board of Equalization is invited to be present at that time. Loyde A. Brewer County Judge Farmer County, Texas

Credit, Advice, And Hard Work Help Thousands

Credit, management advice and hard work have opened the door to success for thousands of farm families using the Farmers Home Administration, an agency of the U. S. Department of Agriculture.

Since 1935 nearly \$5.5 billion in loans have been made to farm families and others in rural communities. The loans have helped them finance farm operations, buy and develop farms of their

own, and save their farms after such natural disasters as floods have caused heavy damage. Credit also is available to help farmers and other residents of small rural communities do a better job of soil conservation, build water supply systems for farm and home use, and construct housing. In all cases, borrowers are unable to obtain funds needed from regular sources, such as banks or farmer cooperatives.

Their loan financed the livestock and equipment they needed to start farming. Expert advice from the agency helped them manage their farm efficiently. With additional credit, they now operate a livestock farm with a net income of \$4,500.

Some 1,470 Farmers Home Administration offices serve all rural counties in the Nation. Professionally trained in agriculture, the agency's county supervisors spend much of their time on farms of borrowers, advising them on how to do the best possible job of farming.

DERYL COKER

There is a lot of interest in irrigated grasses and a lot of farmers are considering planting some this year. There are several types of irrigated grasses that will furnish a lot of grazing after they are established such as Switchgrass, Indian grass, Kaw bluestem, side oats, Midland bermuda and others. At the present time nobody has any grazing or production records on any of these grasses, so I could not recommend one over the other.

Regardless of the type you like, the secrets of successful irrigated grass production are: 1, good establishment, 2, fertilization and 3, irrigation. Pastures are a cash crop and they should be treated as such.

The average US consumer will eat the equivalent of 33 hogs, 10 lambs, 8 steers, and 4 veal calves in his lifetime, and livestock production will move where it can be done the cheapest, so a farmer needs to figure the expense in growing an irrigated pasture, so as to

know if it would be profitable. Midland bermuda is quite popular at the present time, but any bermuda requires a lot of water and fertilizer. If a farm has a shortage of water, it might not be profitable to grow.

Some farmers are having trouble getting bermuda growing after it is sprigged. Any grass should be watered often enough to keep the soil moist until the grass has a good start. Grass is a big user of nitrogen. Some 30 pounds should be put on before or after planting to give the grass a good start.

For best results and maximum grazing, Jim Valentine, Soil Chemist, who runs the A&M Soil Lab., recommends 300 to 400 lbs. nitrogen and 60 lbs. P2O5. Nitrogen should be divided into 3 or 4 applications during the growing season immediately after grazing and before irrigating. A soil test every 2 years is a good practice.

Below is two tables that will show fertilizer requirements and per cent protein.

Crop, Production per Acre, Requirements #N, #P2O5, #K2O are as follows:

Bermuda--8 ton hay, 300#, 70#, 272#.

Grain Sorghum--5,000#, 90#, 27#, 20#.

Water use efficiency is affected by fertilizer

 2. Lubbock Experiment Station yield data. (2 year average)
 3. Estimated yield data. Actual yield data on skip-row planting with adequate irrigation water not available.
 4. Total Net Operating Income based on 30c per pound for cotton, \$1.70 per cwt. on grain sorghum and above the following costs:
 Dryland cotton production and harvesting cost on solid cotton \$35.00 per acre; on skip-row cotton \$40.00 per acre; grain sorghum @ \$12.00 per acre.
 Limited irrigation cotton production and harvesting cost \$85.00 per acre plus \$6.00 per acre of fallow land for skip-row cotton; grain sorghum @ \$42.00 per acre.
 Irrigated cotton production and harvesting cost \$92.00 per acre plus \$10.00 per acre of fallow land for skip-row cotton; grain sorghum @ \$48.00 per acre.
- This information has been prepared in cooperation with the Texas Extension Service and the Lubbock Experiment Station.
- For more detailed information on skip-row planting and inter-planting of cotton and various crops contact your local county agent. Additional information is also available from the Lubbock, Spur, and Big Spring Experiment Stations and the High Plains Research Foundation.

Wheat Harvest Starts Early

One of the earliest wheat harvests in history is underway in the Texas Wheat Belt as a result of hot, dry, windy weather over most of the wheat producing counties.

Latest reports on area conditions received by this office are as follows:

Dallas: Harvest is well underway with wheat averaging 26 bushels per acre. There is no shortage of men or machines.

Childress: Wellington, Paducah, Clarendon, Memphis, Guthrie and Matador: Harvest operations are in full swing. Wheat is averaging 15 to 17 bushels per acre. No shortage of men or machinery.

Crosbyton: Harvest underway on dry-land acreage with yields averaging 13 to 18 bushels per acre. Harvest on irrigated acreage should begin about June 1 with normal yields expected. No shortage of men or machines.

Jayton and Spur: Harvest is well underway with low yields. No shortages expected.

Plainview, Floydada, Lockney, Silverton and Tulla: Above

average yields are expected when harvest starts next week. Scattered hail has been received in Hale County with moderate to heavy damage in the southwest part. No shortage of men or machines expected.

Littlefield, Muleshoe, Friona, Farwell, Dimmitt and Hereford: Dry-land acreage is expected to produce from 6 to 15 bushels per acre when harvest begins about June 4. Irrigated acreage is expected to yield from 30 to 50 bushels per acre when combining starts June 11. No shortage of men or machines is expected.

Amarillo, Panhandle, Claude, Vega and Canyon: Harvest should begin about June 4. Dry-land acreage is expected to yield from 10 to 15 bushels per acre and irrigated from 20 to 30 bushels per acre. Some hail

damage has been received in Armstrong, Randall and Oldham Counties. No shortage of men or equipment is expected.

Pampa, Wheeler, Shamrock, Miami, Canadian and Lipscomb: Average to slightly below average yields are predicted when harvest begins about June 1. No shortage of men or machines is anticipated.

Borger, Dumas, Channing, Dalhart, Stratford, Spearman and Perryton: Crop conditions in this area are very spotted with some abandonment of dry-land acreage in the northwest part reported. Combining on dry-land acreage will begin this week and irrigated acreage should begin about June 11. Extensive damage in Hansford, Ochiltree and Lipscomb Counties occurred last night as a result of tornadoes, wind, hail and rain.

The FASHION SHOP

Grass is a heavy user of water. With average rainfall for maximum results 24 to 30 acre inches of irrigation water should be used.

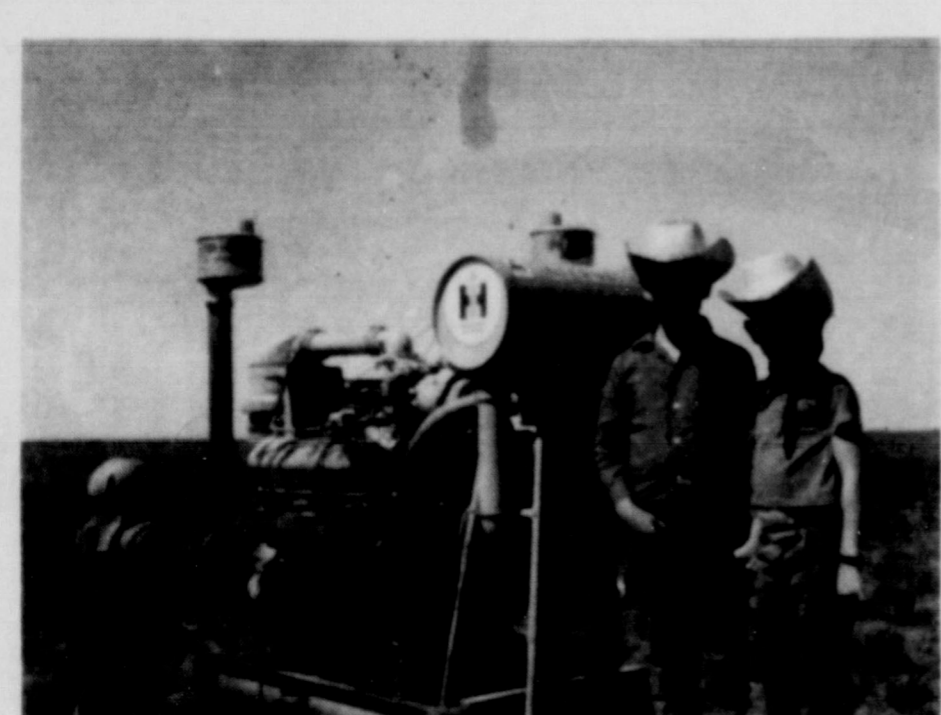

The necessary points for success are:

1. No grazing the first year.
2. Grazing must be controlled, this can be done by a rotation system.
3. Rest plants for regrowth, especially just before frost.
4. Graze while grass is in palatable and in nutritious stage.
5. Use plenty of fertilizer and irrigation water.

Hybrid sudans or plain sudan grass in summer and small for winter and spring is a pretty hard combination to beat.

Management is the biggest factor in the success of irrigated grass.

Jay: "I'm looking for a beautiful girl."
May: "Well, here I am."
Jay: "Well, you can help me look."

Nickey and Gregg Collier stand beside their daddy's International UV-549 Power Unit. This is the third International Power Unit for G. A. Collier. G. A. says, "I am pleased with these units. They give me water when I want it, without costly delays for repairs. Having water when you need it means a great deal to farmers."

YOUR VOICE IN STATE GOVERNMENT

MANY THANKS... Lou Cochran and Vickie Moorman are expressing their thanks, in behalf of Scout Troop 144, to Frank Spring for Proficiency and First Class badges, provided by the Friona State Bank.

Girl Scout Troop Receives Awards

Friona Troop No. 144 of the Girl Scouts of America met May 25 at 8 p.m. in the community room of the bank building for a party honoring their parents and friends and to receive 1st Class Awards and Proficiency badges.

Acting as hosts for this occasion concluded the phase of their hospitality badge. Guests were served lime sherbert punch and cookies made by the members. The refreshment table was laid with a white damask cloth and centered with an arrangement of roses and greenery. Gold candlesticks holding green and gold candles, the scout colors, highlighted table decorations. Napkins with the girl scout emblem and crystal appointments completed the setting.

The program was opened with a prayer by Rev. Wallace Kirby and Lou Cochran gave the welcome address. Mrs. Ralph Wilson discussed the three day camping trip at Camp Rio Blanco near Crosbyton.

Mrs. Bob Riethmayer gave a review of the work for badges, followed a brief talk given by each scout on "The Badge I Enjoyed Most". Badge awards were presented by Mrs. Riethmayer and Mrs. Wilson admitted

each one to 1st class work with a salute and handshake.

Miss Linda Fallwell was given the Campership award, with the explanation from Mrs. Riethmayer, that this award was made possible by the Progressive Study Club. Linda was chosen on the merits of an all-around scouting attitude cooperation, ready assistance, kindness, gentleness and willingness to work. She has worked on a total of ten proficiency badges plus two earned last year, and was chosen by leaders of her troop.

Eight scouts received their 1st Class Awards. A total of 90 Proficiency badges were awarded in the following fields: aviation, child care, cooking, needlecraft, art, home nursing, homemaking, housekeeper, seamstress, interior decorating and good grooming. Proficiency and 1st Class badges were provided for the troop by the Friona State Bank.

Members of Troop No. 11 are Lou Cochran, Linda Fallwell, Cindy Ingram, Kathy Jones, Carolyn Kirby, Martha Martin, Glenda Mingus, Vicki Moorman, Sue Rodgers, Becky Turner and Shirley White. Mrs. Riethmayer and Mrs. Wilson are the troop leaders.

Jane Fulgham Weds William Kent

Miss Welda Jane Fulgham and William H. Kent were married in the home of the bride's parents, Mr. and Mrs. W. B. Fulgham, May 20. The bridegroom is the son of Mrs. Dud Kent of Sudan and the late Mr. Kent.

Rev. A. M. Wiley performed the double ring ceremony at 3 p.m. before a large candelabra banked with fern and sprays of blue and white gladioli. Candles were lighted by Jack Fulgham, brother of the bride, Mrs. Jack Fulgham sang "I Love You Truly" and "The Lord's Prayer," accompanied by Miss Nelda Douglas, Miss Brenda Holloway of Petersburg, niece of the bride, played the wedding march.

Matron of honor was her sister, Mrs. Delbert Holloway of Petersburg. She wore a sheer blue cotton street length dress designed with a sweetheart neckline and carried a bouquet of white roses. Gerald Wright was best man and Jack Fulgham seated the guests.

Given in marriage by her father, the bride wore white lace over blue taffeta. The bell-shaped skirt was street length and featured a cascade of ruffles in the back. A face veil was attached to her blue flowered hat and she wore a single strand of pearls given her by her parents. Her long gloves and her shoes were white and she carried an orchid sur-

rounded by white roses on a white Bible. In the Bible was a handkerchief given her by Mrs. Cecil Bass.

Something old was a 70-year-old ring which belonged to her maternal grandmother. Her dress was new and blue and she borrowed the Bible from Miss Gayle Knight.

Serving at the reception in the Fulgham home were Mrs. Tom Brown of Amarillo, sister of the bridegroom; Mrs. Jim Carter of Fort Worth, aunt of the bride; and Mesdames Holloway and Jack Fulgham. Guests were registered by Miss Billie Rankin of Amarillo.

For a wedding trip to Ruidoso, N. M., the bride wore a beige silk suit with red accessories.

The couple is at home in Friona where she is an employee of Friona State Bank and the bridegroom is employed as a farmer. Mrs. Kent is a graduate of Petersburg High School and her husband was graduated from Sudan High School. He recently completed a three-year tour of duty in the Army.

Mr. and Mrs. Wesley Foster attended market in Dallas early this week. From Dallas they went to Texarkana where they met their daughter, Mrs. Ed Lovick, and her two children, Mal Lynn and Eric, of Memphis, Tenn. Mrs. Lovick and the children plan to spend several weeks with her parents.

Jo Buckley-Don Stringer Exchange Wedding Vows

Miss Luella Jo Buckley and Don Weldon Stringer exchanged wedding vows May 25 at 8 p.m. in the Birchman Avenue Baptist Church at Fort Worth.

Parents of the couple are Mr. and Mrs. Dale Buckley of Fort Worth and Mr. and Mrs. W. E. Stringer, Friona.

The double ring ceremony was performed by Rev. B. O. Baker and Rev. Charles A. Osborn before an altar decorated with palms and white gladioli flanked by spiral candelabra trees and graduated candelabras.

Given in marriage by her father, the bride wore a formal gown of candlelight silk organza underlaid with peau de sole creating the bell shaped skirt with a cathedral train. Silk ribbons extended from the waist to the skirt hemline and were fastened with fleur de lis appliques of Alencon lace. The shepherdess bodice was fastened in back with small, self-covered shoe buttons and featured a scooped neckline delineated with scrolls of Alencon lace that formed medallions from the bodice and fashioned the elbow-length sleeves ending in tailored bands and bows of silk peau de sole. A shoulder length veil of silk illusion was attached to a crown of lace. She carried a white lace covered Bible topped with a bouquet of stephanotis centered with a white orchid.

Miss Janis Dale Buckley, sister of the bride, was maid of honor. Bridesmaids were Kay Burleson, Friona; Patsy Darris and Polly Langley of Midland and Ann Strain of Lubbock. Mrs. Ronnie Norman of Lubbock and Mrs. Bob James, Fort Worth were bridesmaids. They wore taffeta, turquoise sheathdresses with bell-shaped overskirts featuring scooped necklines and elbow length sleeves and veil covered pillbox hats. They carried bouquets of white peonies.

Best man was W. E. Stringer, father of the bridegroom. Groomsmen were Robert Belew and Leon Oliver, Vernon; Bill Edwards and Jim Harrell of Plainview; Tommy Buckley, cousin of the bride, Killeen and Randal Stringer of Dallas, cousin of the bridegroom. Jo Hyatt of Wheeler served as usher.

Miss Lisa Ann Buckley, the bride's cousin, Killeen, was flower girl and Chuck Wright, Canyon, the bridegroom's cousin, was ring bearer.

Vocal selections, "Because" and "The Lord's Prayer" were presented by Don Roe. He was accompanied by Mrs. Bobby Taggart, organist.

The church garden was the scene for a reception following ceremonies. Guests were registered by Miss Mary Lou Anderson, of Houston. The refreshment table was laid with a white tulle cloth centered with an arrangement of candles and pink roses. Presiding at the serving table were Miss Barbara Carden, Ft. Worth; Mrs. M. A. Gillis, Harrold and Mrs. Wre Wright, Canyon.

Out-of-town guests were Mr. and Mrs. Leo Buckley, Killeen; B. M. Buckley, Killeen; Mr. and Mrs. C. R. Lowe, Santa Anna; Mrs. Buena Stone, Holland; Mr. and Mrs. Dick

Goodnight, Salado, Tex.; Mr. and Mrs. L. R. Stringer, Dallas; Mr. and Mrs. Bill Baxter, Wichita Falls; Mr. and Mrs. T. C. Gooch, Happy and Mr. and Mrs. Wire Wright of Canyon; Mr. and Mrs. Jerry Carder, Dallas; W. N. Martin, Vernon; Mr. and Mrs. Joe Lowe, Lubbock and Mrs. J. J. Wright, Bentonville, Ark.

For a wedding trip to Lake Texoma, Mrs. Stringer wore a Gulfstream blue silk suit with floral print shoes and bag. Other accessories included a blue rosebud hat and white gloves.

The couple will live at 3205 33rd Street, Lubbock. Both are seniors at Texas Tech where the bride is a member of Gamma Phi Beta and Stringer is a member of Sigma Chi.

Pre-nuptial activities included a dinner party for members of the wedding party and close friends in the dining room of Wyattes cafe Thursday evening following rehearsal. Mr. and Mrs. W. E. Stringer, parents of the bridegroom, were hosts. Covers were laid for forty guests whose places were marked with name cards accented in gold.

The center piece featured an arrangement of large white mums and leather leaves suspended over an open white leather Bible, flanked on each side by tall white tapers. Milk glass candlesticks decorated with white corsages fashioned from stephanotis nestled in tulle were placed at intervals along the table.

Rev. Charles A. Osborn offered the invocation. The bride and bridegroom exchanged gifts and presented gifts to their attendants.

Also a steak dinner, honoring the bridegroom and his attendants, was given by Mr. Stringer at the Cattleman's cafe in Fort Worth. Attending were

Mrs. Rule Hosts Kolvwvia Circle

The home of Mrs. Bob Rule was the scene of the final seasonal meeting for members of Kolvwvia Circle of the Methodist Church.

The program began with Mrs. Eugene Ellis reading the prayer calendar and Mrs. Andy Hurst saying opening prayer.

Preceding the lesson, everyone voted to send literature to Latin American countries.

Mrs. Ralph Shelton conducted a study on "Missionaries", assisted by Mesdames Hurst, Jerry London, Ernest Anthony and Bill Baxter.

Mrs. Ellis, circle chairman, was presented with two hybrid rose bushes as a token of appreciation.

A tour of Mrs. Rule's new home was made following the serving of rolls and coffee.

Present were Mesdames Anthony, Baxter, Ellis, Hurst, London, Russel O'Brian, Shelton, J. W. Baxter II and one guest, Doris Knapp, a sister of Mrs. Rule.

Mr. and Mrs. W. L. Edelman were weekend visitors in the home of Mr. and Mrs. Von Edelman and children in Dallas.

Kenneth McLellans Have Baby Girl

Mr. and Mrs. Kenneth McLellan became parents of a daughter May 23, 1962, at 7:09 p.m. in the Farmer County Community Hospital.

The baby was named Becky Ann, and she weighed eight pounds and six ounces.

Becky Ann has two older brothers, Ronnie Lynn and Clifford D. Wayne.

Grandparents are Mr. and Mrs. A. S. Grubbs and Mrs. S. L. McLellan of Friona. Great grandparents are Mrs. W. L.

Thomas Sr., Lockney; Mrs. R. B. Grubbs, Plainview; Mrs. A. H. Boatman, Friona and E. B. McLellan, Ringling, Okla.

Mrs. Lucy Welch, Carol Struve and Geneva Floyd returned late Wednesday from Abilene, where they attended high school graduation exercises of Mrs. Welch's grandson, Noel Welch.

Study The Hard Facts About The Candidates!

JOHN CONNALLY

DON YARBOROUGH

BACKGROUND: Native Texan. Born on farm in Wilson County, near Floresville. One of 7 children of J. B. and Lela Connally. Family Bible shows birth date as Feb. 27, 1917. Connally family in Texas dates back more than 5 generations. Connally family still lives in dates settled by forebears in 1849.

FAMILY: In 1940 married Idanell Brill, daughter of Austin leather dealer. Sweetheart of John at University of Texas and elected sweetheart of University. The Connallys have three children—John III, 15—Sharon, 12—and Mark, 9. All three attend Fort Worth Public Schools.

EDUCATION: Attended public school in San Antonio and Floresville, graduating in 1933 as salutatorian. To help pay his way through the University of Texas, Connally worked part-time as a candy and chewing gum salesman and on a highway construction crew as a batch weigher.

Was elected president of the University Student Body in 1938. Received his law degree the same year. Was also president of his law class, assemblyman from the School of Law, chairman of the Students' Assembly in 1938-39, and chairman of Student Publication Board. Connally was dean of his legal fraternity, was elected to Friars in his junior year, and appeared in Who's Who in American Colleges.

RELIGION: Methodist.

MILITARY SERVICE: Volunteered for active duty in the Navy months before Pearl Harbor. Served in Atlantic and Pacific combat theatres. Was awarded numerous combat decorations, including the Legion of Merit and the Bronze Star for heroic performance under pressure of battle. Rose through ranks to lieutenant commander by time of his discharge at war's end.

GOVERNMENTAL AND PUBLIC SERVICE: Served as Secretary of the Navy in the Kennedy administration, for which he received public and official acclaim for outstanding leadership.

Following graduation from Law School, Connally became congressional secretary to then Congressman Lyndon Johnson. Also served as administrative assistant to Senator Johnson for 8 months in 1949.

1962 governor's race is his initial effort to seek public office. Led the first Democratic primary, May 5, by 114,000 votes.

BUSINESS BACKGROUND: From 1949-1952 he was a partner in the law firm of Powell, Wirtz and Rauhaut in Austin. Formed radio station with veterans. From 1952 until appointed Navy Secretary by President Kennedy, Connally served as attorney for Richardson and Bass, independent oil operators in Fort Worth. An executor of the Richardson estate. Has participated in management of companies and corporations engaged in salt water control, carbon and carbon black, radio and TV, insurance and investments, and oil and gas. As Navy Secretary was responsible for an annual budget of 15.5 billion dollars. His personal and business life was checked and cleared by the FBI, Naval Intelligence, Central Intelligence Agency, and the Senate Armed Services Committee. Appointment was unanimously confirmed.

CIVIC AFFILIATIONS: Director, Southwestern Exposition and Fat Stock Show; honorary chairman, Gonzales Warm Springs Foundation; director, Boys, Inc., a charitable organization devoted to elimination of juvenile delinquency; member, executive committee, and councilman-at-large, Ex-Students Association, University of Texas.

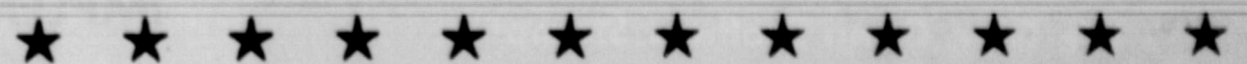

PROFESSIONAL AFFILIATIONS: Member and director, Southwestern Legal Foundation, State Bar of Texas, Fort Worth & Tarrant County Bar Association, American Bar Association, American Jurisprudence Society.

RANCH AND FARM AFFILIATIONS: Member, South Texas Hereford Breeders Association, Santa Gertrudis Breeders International and Galiceno Horse Breeders Association of America.

OTHER PUBLIC SERVICE: Served as attorney for organization of Texas Electric Co-ops. Served as director of the Lower Colorado River Authority, participating actively in extensive floor control and water conservation projects on the Colorado River.

DEMOCRATIC PARTY RECORD: Active in party affairs since childhood, when helped father campaign for election as Democratic county clerk of Wilson County; has attended every national Democratic convention since 1940, with exception of war years.

Reznik-Gore Give Program

Mrs. Al Reznik and Mrs. Lewis Gore presented the program for members of the North-side Home Demonstration Club May 24 in the Community Room of Friona State Bank. Their topic was "Accessories for the Home." A brief business session preceded the program. The next meeting will be June 14 in the home of Mrs. John Terry. Mrs. Floyd Brookfield, hostess, served refreshments to six members.

On the outer space program There's this much to say At least you tax dollar Will go a long way. -- K.G.

O'Neil Greesons Have First Son

A son, Todd O'neil, was born to Mr. and Mrs. O'Neil Greeson May 25, 1962. He arrived at 2:10 p.m. in the Parmer County Community Hospital weighing seven pounds and two and one-fourth ounces. Grandparents of the baby are Mr. and Mrs. George Green and Mr. and Mrs. Lester Dean of Friona. Mrs. Mary Wells, Patterson, Calif., Mrs. S. J. Greeson, Hereford and Mr. and Mrs. Taylor Green of Friona are great grandparents.

Sunday guests in the home of Mr. and Mrs. Bill Wooley were Mrs. Leonard Kitchens of Moberly, Mo. and Mrs. Joyce Treadaway and children, Gail, Gary and Phyl of Amarillo.

Now to control the noncommunists thinking does not make her or him an actual communist but in many ways it will advance the communist party and aid it in its battle against freedom.

Now as an example, the communist party is always fighting against law enforcement and the judicial system of our country. They take cases of where people are arrested and convicted of crimes and make a big "to do" about them.

They really don't give a hoot about this person or justice but it gives them a chance to control innocent and well-meaning people's thinking to create doubt and put our judicial system in a bad light.

They will go around getting people to sign a petition to get old whoops out of this scrape because he has ten children. People will sign because they are in a hurry or the communist has played on their sympathies. With enough of these signatures it may get to the governor. This is a tool known as mass agitation to the communist. Always stirring up trouble and directing it against authorities fighting them.

This Continuing Illustrated Series Is Intended To Tell The History And The Purposes Of The Communist Party, Both Abroad And In The U.S.A. By Saving These Weekly Series A Family Will Accumulate Valuable Information For Future Knowledge By Both Child And Adult.

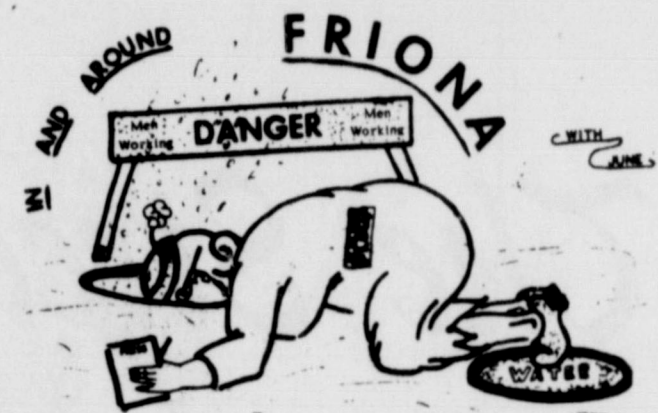

THIS SERIES IS SPONSORED BY THESE PATRIOTIC FIRMS

FRIONANS HONOR DEAD . . . Part of the crowd assembled at City Park Wednesday morning to participate in Memorial Day ceremonies is pictured during Father Declan Gilligan's

address. Boy Scouts at extreme left side of picture assisted with the program.

Situations at Friona Star and Plains Publishers are just like West Texas weather. If something comes up that you like, just sit steady in the boat and it will be changed before very long - for better or worse.

A front page story in this issue gives a detailed account of current changes. A major problem that the changes are creating is lack of housing facilities.

The Billy Ellis family wants to move up from Muleshoe and the Carlton Newell family would like to move here from Altus, Okla.

Each family would like to have a three bedroom house, but since three bedroom rent houses are so scarce, will be willing to accept a two bedroom house.

Having Travis Harrell move from the editor's desk to another desk will be a change from routine. Previous editors of the Star have moved to other newspaper offices. It is real good to know that Travis will still be around to guide the destiny of the Star.

Another first in this transition is that for the first time we will have a managing editor and a news editor. Friona and the surrounding area will benefit from this arrangement as far as news coverage is concerned. Undoubtedly, this will make the Star the best staffed paper of its size in the country.

Basically, the change has been designed to make it possible for the Star to adequately serve the town and surrounding communities more efficiently. It became necessary because of the basic, physical impossibility for one person to be in two places at the same time.

Cooperation and support of our fellow townspeople and subscribers has been one of our biggest assets since W. H. Graham became publisher of the Star more than six years ago and without these two factors advance-

ment of the paper would have been an impossibility.

Mrs. Lucy Jones, manager of Friona Texas Federal Credit Union, would like to have a part in the beautification of Friona yards. She has more verberna plants than she needs and would love to give them to anyone who has space for them.

Her home is one block west of the post office and her father lives in the east side apartment. He is almost always at home and spends most of his time during the growing season beautifying the premises.

Anyone who would like to have verberna plants is invited by Mrs. Jones to stop at her house and get them.

F. W. (Granddad) Reeve is hospitalized this week. He is recovering from a long illness and has been able to be up and around some during recent weeks.

In fact, just a few days ago he took his first plane ride. He had gone to the local airport to see his niece Mrs. Amelia Schlenker Rankin board a plane for Amarillo, when Elvie Jennings invited him to go riding.

Although Mr. Reeve is past 80, he still enjoys current events and is vitally interested in developments in every field.

His condition is satisfactory and he wouldn't be pleased with me if I left the impression that the air plane ride was responsible for his being in the hospital.

He really felt quite well several days between the flight and his admittance to Farmer County Community Hospital.

One thing that never changes at the Star is the earnest desire of every one on the staff to do everything possible to make a bigger and better Friona Star. Call 2291 any time you know anything of interest to any residents of the town and surrounding communities.

Although more housing is available for visitors on a budget, Hawaii has not forgotten the well-heeled. The newest hotel on Kauai, north of Oahu, is the luxurious Hanalei Plantation, one year old in June.

Architecturally, it represents the Victorian, or monarchy, period of Hawaii's development.

Hawaii Possible On Tight Budget

By JEANNE LESEM
United Press International

HONOLULU (UPI) — Tourists on a budget are finding that they can afford a Hawaiian vacation by staying at moderately priced European plan hotels, motels or housekeeping apartments. Waikiki Beach offers the largest choice, but the outer islands have a few and are building or renovating others.

A rented car is another economy with fringe benefits. It can take you on scenic side trips that guided tours omit, and to off-the-beaten-track restaurants where the food is unusual, delicious and priced for local instead of tourist incomes.

If surfing and ocean swimming are your forte, a car makes "disappearing" beaches on the Kona Coast of the Big Island, Hawaii, readily accessible. The beaches disappear regularly because sand covering the lava

rocks washes in and out with the tides.

New lower-cost housing on Hawaii includes the Kona Sunset Hotel at Kailua, with rates that include room and Hawaiian breakfast — banana pancakes and locally-grown Kona coffee. The motel-style buildings eventually will include 36 rooms, a swimming pool, a restaurant and drug store. Rates range from \$9.00, single to \$22.00, triple.

Housekeeping apartments in Kailua have even lower rates. The Kona Tiki Hotel starts at \$8.00, single, without kitchenette, \$8.00 single with kitchenette. Units with two-burner electric stoves, steel sink and counter-top refrigerator are being added to many rooms here, and another inducement is planned for guests with more time than money — a laundry room with automatic equipment.

Before you balk at cooking on vacation, consider the fun of shopping in local markets and experimenting with oriental delicacies and local products. Of course, familiar mainland items are also available.

The paperbound Kauai Cook Book and the Hilo Women's Club Cook Book are good sources for recipes. So are local shopkeepers and other residents whose typical Hawaiian hospitality includes answering cooking questions and suggesting good restaurants with local specialties.

Although more housing is available for visitors on a budget, Hawaii has not forgotten the well-heeled. The newest hotel on Kauai, north of Oahu, is the luxurious Hanalei Plantation, one year old in June.

Architecturally, it represents the Victorian, or monarchy, period of Hawaii's development.

Lewis Plays In Musical

Don Lewis, son of Mr. and Mrs. Henry Lewis and a 1955 graduate of Friona High School, will be a summer player in musical comedies at Starlight Theatre in Kansas City, Mo. He and Howard Bosler of Springfield, Ohio, returned from New York City with his parents late last week.

Mr. and Mrs. Lewis spent two weeks touring points of interest in the New York area and visiting Don.

On Saturday Don will leave for Kansas City and Bosler will go to Midwestern University at Wichita Falls.

The Water that Sustains Us - Demands Constant Vigilance

The Water that Sustains Us - Shapes Our Earthly Destiny

It is not new to observe that the path of civilization throughout time has been closely identified with the presence of agreeable water. The lesson to be stated, or re-stated, is that our Creator has willed that our future will be similarly and irrevocably linked with the water He has provided.

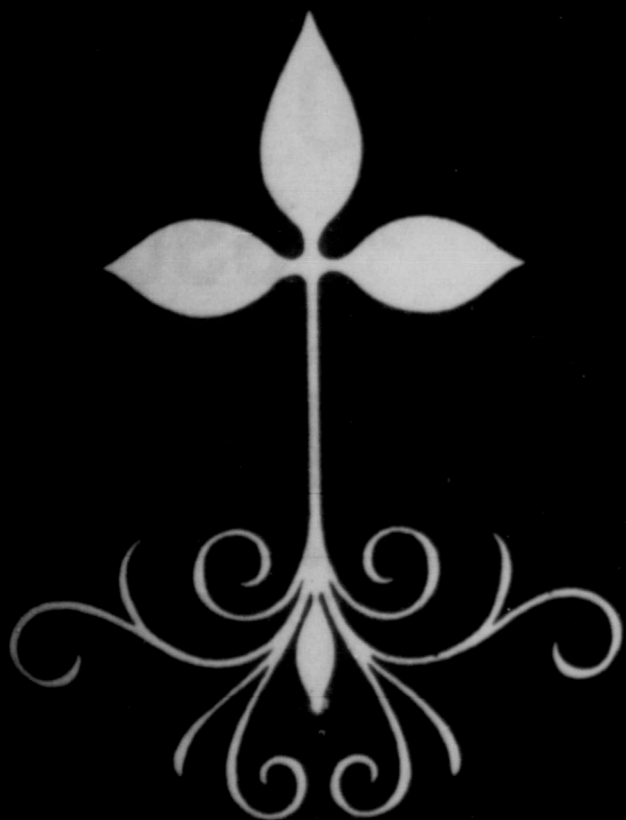

We could foolishly neglect it for a time, to our own certain misfortune, but we can neither ignore it or leave it.

On the contrary, we will go wherever we are going on this earth only so far as He provides the water that sustains us. No farther. This is part of our earthly destiny—a fact to be recognized not as a restriction but as a commanding reminder of water's God-given role. More than that—the fact provides reason to reappraise our water values. In due course, we may well find that whatever limitations and delays we impose on water are, indeed, limitations and delays imposed on ourselves. And if this be present folly, let us honestly learn by it.

As if in definition, we often hear that "water is life" but by itself this is surely an inadequate truth. While it is clear enough we cannot live without water, the further fact is we are only now learning to live with it. We are learning it is more than an accommodation; it is a wealth to be nurtured and prized.

We must learn to multiply water's uses, build new channels for its movement and new reservoirs for its storage. We must learn how to use it without pollution; hold it without waste. We must measure the snow in the mountains as well as the uncharted reservoirs underground. There is power to develop—and new grasslands. We must learn to manipulate the forests for more water and provide better protection for fish, game, and water fowl. We must fit our small watersheds into the development pattern of our giant river basins and add a thousand-plus new shorelines for our recreation.

With these and other water plans yet unspun, we will grandly march or meanly move into the future. And this, too, is truth: even as water shapes our earthly destiny, it is God's will that each one of us, according to our regard for water, shall help point the way.

Consider our water...

The earth is the Lord's

Jt is the universal liquid of life and part of our very being. It is everywhere around us, in the air and earth. Without it we could not survive, nor could any plant, animal, or other living thing.

It is a final necessity, for which man has devised no substitute.

Water can be so abundant as to invite waste and neglect. It can be so scarce as to set man in earnest contest for its vital uses.

It demands understanding and respect. It has the power under direction to turn the mighty turbines of Grand Coulee. Unmanaged, it can strike in the angry form and force of floods.

It can produce crops, trees, and grass or the ugliness of raw gullies cut into an unprotected countryside.

Water provides the drama of Old Faithful, the majesty of the Mississippi, and the grandeur of Niagara Falls. In its infinite variety it is a thirst-quenching drink for the children of Atlanta, a cooling accessory for the steel mills of Ohio, and vital irrigation for the sunward fields of Arizona.

It appears as soaking rain on Olympia's forests, the fleecy hush of a Vermont snowfall, and the quick excitement of a Kentucky thunderstorm.

It is a miraculous gift of God, given to us for our refreshment and endless uses. But our neglect can waste it; our misuse can turn it into offensive sewers of pollution.

Water tests our sense of responsibility to God and man. It asks for care, requires our self-discipline, and responds to management.

This priceless water has been here before and by God's plan will be returned again and again for us to use according to our maturity, either with wisdom or with shameful neglect. Consider our water. Consider it well.

The Water that Sustains Us—

REQUIRES AN ADJUSTMENT TO NATURE

Jn its forms and according to the seasons, water is the very pinnacle of contradictions. It may appear today as benign as the surface of a placid lake. Elsewhere and at another time it becomes a flooding river tyrant, gorged with excess and indiscriminate in its destruction.

We have been blessed by the Lord with an infinite variety in nature. Wholly in keeping with this plan, there are unlimited variations in the abundance and deficiency as well as in the forms and actions of water. There can be too much or too little. There are prolonged rains and there is drought. Arid lands and arid times are matched with distance by more temperate climates and places as well as by the drenching humidities of the tropics.

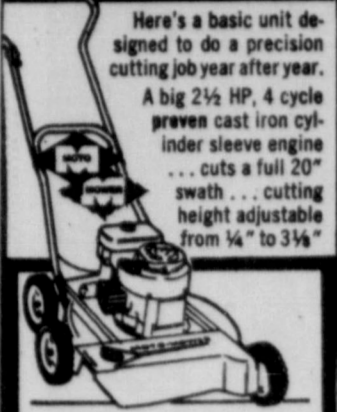

Water appears with the violence of blizzards, the intensity of cloudbursts, and the happy patter of April showers. On occasion, fog follows hurricane just as thunderstorms sometimes come to the desert.

Lands with too much water must be drained, where the rains fail, there is need for irrigation. Between the extremes of overpowering rain and leathery drizzle, there is every possible variable and its corresponding need. Thickly-grassed waterways, accurately-engineered terrace systems, giant flood control dams, and great concrete sluiceways are all parts of the pattern.

What is constant on our part is the need to adjust to nature. While we cannot alter the laws of nature, we can and must cooperate with their probable conditions. Our great and unfinished assignment, if we are to enlarge the usefulness of the water that sustains us, is to accommodate ourselves with intelligence to the ultimatums of nature.

Sharon Reeve
Installed
Worthy Advisor

Miss Sharon Reeve was installed as Worthy Advisor at the Friona Rainbow Assembly May 25 in an open and formal installation ceremony.

Miss Jimette McLean was installing officer. She was assisted by Pam Roden, marshal; Beth Akens, musician; Carol Coffey, chaplain and Brenda Collier, recorder.

Other officers installed were Gayle White, worthy associate advisor; Marce Lynn Masie, charity; LaVoyce Burrow, hope; Merylene Masie, faith; Cynthia Gunn, chaplain; Sheryl Long, drill leader; Karen Osborn, love; Mary Ann Roberts, religion; Carolin Gunn, nature; Rita Collier, fidelity; Lyndia Chandler, patriotism; Wanda Ready, confidential observer and Diane Gilliam, choir member.

Sharon introduced her family following the installation service. Kay Johnson presented a vocal selection, "You'll Never Walk Alone" and Carol Reeve gave a reading.

A reception was held after the closing drill.

Mr. and Mrs. Ronnie Castleberry are in Friona for the summer. They have been Texas Tech students and plan to return to school there in the fall semester.

BLACK NEWS

BY MRS. GENE WELCH

Mr. and Mrs. Travis Stone were honored Saturday night with a housewarming. Attending were Mr. and Mrs. H. M. Stone, Lamesa, Mr. and Mrs. R. R. Holloway, Brownwood, Mr. and Mrs. Bryl Fish and boys, Mr. and Mrs. Clyde Hays; Mr. and Mrs. Fern Barnett; Mr. and Mrs. Charles Myers Jr.; Mr. and Mrs. George Frye and Kim; Mr. and Mrs. Bill Carthel and boys, and Mr. and Mrs. Gene Welch and family. Refreshments of cake, punch and coffee were served.

Mr. and Mrs. Ralph Price and Mr. and Mrs. Les Gibson spent Saturday in Clovis.

Mrs. Claude Blackburn and Mrs. M. H. Hilley were hostesses to the Dresden painting party on Tuesday. Several ladies attended.

Mrs. Charles Myers Jr., Mrs. Bill Carthel and Mrs. Gene Welch were in Amarillo Thursday.

Mr. and Mrs. R. R. Holloway of Brownwood spent the week end in the home of their daughter and family, Mr. and Mrs. Bryl Fish. On Sunday they and his parents, Mr. and Mrs. J. H. Fish of Hereford visited at Palo Duro Park and also went through the museum in Canyon. The Holloways returned home Monday afternoon.

Bud Lafait of Fort Worth is visiting in the home of his daughter, Mrs. Les Gibson, Sunday, the Gibson family and

Bovina Ropers
Beat San Jon

A Bovina team of five calf ropers edged a similar group from San Jon, N. M. in contests here Sunday afternoon.

Bovina cowboys roped and tied three calves each—a total of 15—in 402.9 seconds. San Jon's time was 408.7 to give Bovina the match by only 5.8 seconds.

Ropers participating for Bovina were Robert Calaway, C. E. Trimble, Johnny Hand, Homer Linderman and Lexie Branscum.

In two jackpot ropings which followed, C. E. Trimble won a first place and Robert Calaway and James Lee Calaway each won a second.

Bovina team will return the roping match at San Jon Wednesday night, June 6.

Mr. Lafait visited in the home of Ray Fowler in Amarillo, Mrs. Fowler is another daughter.

Mr. and Mrs. Fern Barnett were in Lubbock Sunday night attending baccalaureate services for Texas Tech seniors, which included two of their children, Wesley and Judy. The Barnetts stayed and attended the commencement program on Monday night.

Mr. and Mrs. Harland Frye visited Friday night in the Travis Stone home.

Several children in the community are attending Vacation Bible School at the First Baptist Church and Calvary Baptist.

Mrs. K. E. Deaton visited Monday morning with Mrs. Ellis Tatum.

Mrs. Keith Buderstadt and girls of Hereford visited Sunday in the home of her parents, Mr. and Mrs. K. E. Deaton.

Debbie and Mary Beth Houlette spent last week with their grandparents, the Ellis Tatum.

Mrs. Houlette came on Thursday to spend a few days with her parents. Little Debbie's hand was caught in the door of the car and her thumb was severely injured.

The Houlettes returned to their home in Dumas on Sunday night.

Mr. and Mrs. Ralph Price and Jeff were in Lubbock Sunday evening attending the Texas Tech baccalaureate program. They returned home Monday with two boys, James and Kenneth Lowe, ages 6 and 8 who will spend the summer with the Prices.

Mr. and Mrs. George Frye and Kim were Sunday dinner guests in the Truett Boothe home in Dimmitt.

Congratulations go to Mr. and Mrs. O'Neil Greeson on the birth of a boy Friday afternoon, May 25. He was named Todd O'Neil and weighed 7 lbs. 2 1/4 oz.

Mr. and Mrs. W. E. Stringer returned to Friona Tuesday from Perryton after assisting relatives that received much damage from the recent tornado. The home of Mr. and Mrs. Tom Slack and children was completely demolished. Mrs. Slack is the niece of Mrs. Stringer.

Easy care for suede shoes and accessories with a lucite, purse-size Suede-Aid Compact, product of Esquire Shoe Care Products, New York. Available in black, brown, blue, plum, red and olive. One side of the unique brush cleans and renews nap, the other side actually restores original color.
