

I don't know just how he does it or what he uses but the Bovina Blades' weatherman, Willie, sure called the turn last week.

He calmly predicted rain (which was a pretty good choice, all things considered) and it rained--by the bucket.

I don't mind a man being right--even on a guess. In fact, it is better that way. But when a man has the gall to stand up and brag about calling one shot right, especially when it is guessing, is going a long way--toward a swelled head.

This week, Willie said, "Never have I seen so many doubting Thomases."

I am sure going to have to watch the sky real close this week. I want to know what doubting Thomases have to do with weather and the prediction thereof.

-TH-

Sometimes, we misplace something. Last week, I did it. I misplaced an announcement of an open house at the W. M. Massie Home. Miss Ann Jensen, Friona's exchange student, was preparing for her departure and return to her native home of Denmark.

I guess you know where I am with Mrs. Massie now--in the doghouse.

I don't suppose I should feel too disgusted though. If everything fell into place and no mistakes were made, this job might become somewhat routine and I couldn't stand that.

Seriously, though, I do TRY not to let such things happen.

-TH-

In connection with the weather, the fire whistle gave most residents a tense moment this week when it sounded during a severe weather warning period. All along the streets, people popped out of their houses and started looking at the sky in search of a tornado.

Most of the people still remember the last time one of the whistles struck--a little over a year ago. And they are still jittery.

But it was a false alarm so far as weather was concerned. It was a fire.

-TH-

I would like to remind all farmers that when and if they call the Friona Fire Department for a wheat fire, they must have a tractor ready to tie to the fire truck and accompany it through the wheat field. Otherwise, the truck will not enter the field. One truck was burned in the past because it became stuck and could not be rescued before the fire reached and consumed it.

If a tractor is tied to the truck, the help which may be needed is there. The department cannot chance losing a truck unnecessarily.

-TH-

The W. H. Gramms, I. T. Harrells and publishers of four other area papers printed here at the plant are loading into cars and heading for Corpus Christi this afternoon.

The big attraction is the Texas Press Association convention and the presentation of contest awards--one of which is supposed to belong to The Star.

The others making the trip are Bob Hamilton of the Plains Farmer and Kress News and Bob Bailey of the Vega Enterprise and Hartley Herald.

Of course, there will be sessions where we can catch up on part of the modern newspaper practices and learn of a few of the changes underway in the industry. But, it sure is a long trip.

-TH-

I would sure like to see a few dogs removed from my yard, (and garden) and even from the town. At least three mutts have dealt me misery ever since I started trying to get a lawn started this spring.

The big mongrels plod across the yard every time I water it and leave holes the size of an elephant's foot. But that doesn't satisfy them. They have to wade up to the flower beds and try to make their bed in the soft ground and on top of the flowers.

Now the flowers are sturdy plants and the soil is very productive, but such treatment sure deals a hardship on the poor

(Continued on page 2)

THE CLOUD WATCHERS. . . The figures watching the churning clouds above are typical of the residents of Parmer County during the past week. Severe weather

warnings and rain and hail storms kept people watching the skys for signs of long black tails in the sky.

Electricity Official Warns of Socialism

The United States was made what it is today by the American "way of doing things," but is drifting down the road to socialism, which threatens to destroy that way of life, W. T. Aaron of Amarillo warned the Friona Lions Club last Thursday night.

Aaron, District Manager of Southwestern Public Service, with an office in Amarillo, was the featured speaker at last week's meeting. He augmented his talk with a documented film strip entitled "Twelve Steps to the Federalization of the Electric Power Industry."

The talk pointed out 12 projects which the government has undertaken or proposed, which, Aaron explained, would lead to a national inter-tie of power lines, and eventually government control of the industry.

And, Aaron emphasized that in all cases where a country goes socialistic, the major industries are the first to be socialized, followed by the smaller businesses, farmers, and eventually the entire nation.

Aaron said that he or his company had no quarrel with the Rural Electrification Administration's local operations. "The REA has done a wonderful

job in bringing electricity to those areas that did not have it," he said.

He pointed out that the picture had changed a great deal since 1935, when the REA was established. Farmers are moving to town. Cities are extending their city limits to include REA territory. As a result, 60 per cent of the REA customers are non-farm customers, and five of six new customers are non-farmers, the film stated.

"Integration," and not "generation" has now become the major goal of the REA, it was charged.

Aaron said that the United States, with only six per cent of the world's population, produced 37 per cent of the world's electric power in 1960, three times as much as Russia.

In 1960, the production cost of electric power amounted to exactly one-half what it was in 1935, Aaron revealed. This was brought about through efficiency by a private enterprise using its own money, he said.

The electric industry paid \$2.3 billion in taxes in 1960, it was stated. "Those who think that federalized power would be cheaper forget that the tax-

(Continued on page 3)

Hereford Trio Charged With Theft In Friona

Three Hereford teenagers have made bond of \$1,000 each and are awaiting action by the Parmer County Grand Jury.

Larry Carlson, 18, and Robert Uselton, 17, were charged with felony theft, and Gary Tyler, 19, was charged with receiving and concealing stolen property, also a felony charge.

It is charged that Carlson and Uselton took a manifold and a carburetor from a new car parked on the Reeve Chevrolet lot the weekend of June 9. Also taken were two sets of new

exhaust pipes from the lot.

The property taken amounted to around \$150, according to Parmer County Sheriff Charles Lovelace. The trio was said to have admitted other thefts around Friona and Hereford involving stripping of automobiles.

Bond of \$1,000 has been set for Abel Gomez, who was arrested near Black last week and charged with forgery.

Calvin Burris was fined \$46 in Judge Loyde Brewer's court on a worthless check charge.

FIGHTING BLAZE. . . Friona firemen are shown battling the fire southeast of town Monday night which gutted a boxcar on the Otto Steinburg farm. Firemen extinguished the fire after a three-hour battle.

FIRST EXCHANGE STUDENT

Anni Jensen Leaves For Native Denmark

Anni Jensen, Friona High School's first exchange student, left the city yesterday morning, to begin the first leg of the trip back to her native Denmark.

She left behind a year full of memories, new experiences and most of all, a town full of new friends, who learned to love the cute Danish girl, and who also learned a lot about her country, its customs and way of life.

The brief visit has done more to spark international good will than a dozen ambassadors could ever do, as far as Friona is concerned.

Anni made her home with the

W. M. Massie family, north of Friona, during her stay here, and the Massies are very dependent over the loss of their "foster daughter."

As a matter of fact, they are already talking about a trip to Denmark in the future, to visit Anni in her home.

"I sure have enjoyed being here, Friona is a real nice town. The people have done so much, it's hard to express how I really feel," said Miss Jensen Tuesday as she finished packing her bags for the trip home.

She was to meet other exchange students of the area in

Amarillo yesterday, where they boarded a bus to Tulsa, Okla., to join students who have made their homes with families in Oklahoma the past school term.

The group will travel to Washington, D. C. by bus, making seven stops between Tulsa and Washington, spending three days at each stop in private homes, giving them the opportunity to become acquainted with at least seven more families from other states.

The approximately 2,000 foreign exchange students from all over the United States will convene in Washington, D. C. for an address from President Kennedy. After five days in the nation's capitol, the students will go to New York City, to embark for their respective homes.

Miss Jensen is to arrive in Denmark on July 21. The Massie family say they will certainly miss her, but they realize that there will be a very happy reunion in Denmark July 21.

"Having Anni in our home the past year has been a very wonderful and rewarding experience," says Mrs. Massie. "I am very glad that Friona was a small town, where everyone knows everyone else and she so friendly," said Anni. She lives in a town of 55,000 population in Denmark.

About her future plans, Miss Jensen says she will enter college, which will require three years to finish, then teachers' college for two years. She hopes

(Continued on page 3)

Weather Station Installed For City of Friona

Installation of special equipment was completed this week to enable the City of Friona to make official weather recordings on a daily basis.

Setting up the equipment Tuesday was O. W. Hunn, of the regional office of the United States Weather Bureau, Fort Worth.

Hunn instructed City Manager Jake Outland as to the reading of the high and low temperatures each day. Also to be recorded is the daily precipitation, if any.

Outland said that the daily records would be sent in to the regional office once each month.

Farmers Told Of Regulation Regarding Fires

Ralph Shirley, Friona Fire Chief, warned area farmers that should a wheat or straw fire hit their place, they will be required to have a tractor at the field, prepared to go in with the fire truck.

The Friona Fire Department lost a truck by fire a couple of years ago, so the regulation is aimed at preventing such a thing happening again.

"We're glad to try to put out the fire if we can get to it, but we don't want to lose a truck in the process," Shirley said.

Rain Total Is Varied

The amount of rainfall received in Friona from Sunday night's sudden downpour seems to have varied about as much as the amounts did for the entire county.

The government gauge behind Friona Consumers measured .70 inches of moisture, although some gauges in the north part of town measured up to 1.75 inches.

Delegates Back From Girls', Boys' State

Gayle White and Wayne Cason, Friona's representatives to Girls' State and Boys' State, have returned from their outings with reports of a good time, with an elective office

bestowed on each. Miss White was elected as Councilman in the "city" election and Wayne was chosen to the City House of Representatives in the simulated political elections.

The days were filled with meetings, athletics and good meals. After the evening meal, "rally" rallies were held, with speeches being presented, leading up to the election for state, county and the city offices.

Both the Bluebonnet Girls State and Lone Star Boys State conventions were held in Austin. They are designed to provide citizenship training for youths of high school age, to afford them an opportunity to live together as a self-governing group and to inform them of the duties, privileges, rights and responsibilities which they will assume when they become adults.

Editorial:

The Sick American

Former Governor Charles Edison, as director of the company committee for public affairs, has mailed to all McGraw-Edison employees a copy of a letter by an unnamed San Franciscan. It was published in the Copley newspapers in California, but deserves the attention of all the author's fellow citizens in the other 49 states as well. The writer says:

"I am one of the Americans who heard Mr. Khrushchev tell our nation that my great-grandchildren will grow up in a Communist world. For some time now, this has bothered me. I am not a brave man - not even a big one... I am now 50. I paint my own house, repair my own car, grub my own devil grass, and nurse a modest savings account... I am a law-abiding man on the quiet side, and discussion makes me terribly nervous. Frankly, I am the kind who simply doesn't have it in him to fight anyone ever."

He goes on to report coming across "the huge old family Bible" in the attic with his great-grandmother's journal of her covered wagon trek across the Great Plains to the wild, new land of California.

"On the trail she wrote of sickness and hunger, and heat and cold, and dust and thirst, and the deaths and births like beads strung together on a thread of hope - hope of freedom and a land of plenty for their children yet unborn... AS I read, I began to think about America and what it all stands for; and I thought about

our enemies and what they intend to do to America... to its freedom and its hope.

"And, suddenly, I realized that I am a sick American. I mean really sick... I am sick of bureaucrats who tell me that my enemy is not really my enemy and that I should live together with murderers and tyrants. I am sick of government that hasn't the guts to clean traitors out of its own offices. And I'm sick of being a nice, pleasant guy about it... I am sick of my country being ridiculed all over the world. I am sick of pink-fingered diplomats and lily-livered politicians who place personal career above the fate of the flag.

"I am sick of 40 years of relentless, creeping, cancerous Communistic godlessness that never once has wavered from its avowed purpose of conquering that flag and seeing it trampled in the mud under Russian boots. I am sick of my genteel desire to stand pat and pray while the enemy advances. I am sick of educators who teach tolerance of subversion and of clergymen who would have me quail at the spectre of battle and turn my cheek in fear of what our enemies might do.

"In all honesty, the thing of which I am most sick is the man who let these things come to me: myself. And by the living God who made me, Sir, I am a sick American who intends to get well."

The letter is signed "Fed-up Citizen." Are there enough more, we wonder, who will make up their troubled minds to get well?

Castin--

Mr. and Mrs. Jim Cocanougher were surprised with weekend guests. They were Mrs. Eunice Pope, of Willow Springs, Mo. sister-in-law of Mrs. Cocanougher; Mr. and Mrs. Ben Neely from Skellytown and Mrs. Neely's father, Henry McAllister, from Willow Springs.

Mr. and Mrs. J. T. Gee were

in Lubbock Sunday spending Father's Day with Mrs. Gee's parents, Mr. and Mrs. T. F. Rodgers.

Ronnie Awtrey and Tom Gee

are attending Shattuck School Camp in Faribault, Minn. for six weeks.

City Baptist Ministers Return From Convention

Rev. Bill Burton of the First Baptist Church and Rev. Audye Wiley of Calvary Baptist returned last week from San Francisco, where they attended the Southern Baptist Convention.

Rev. Wiley missed a portion of the convention, due to an automobile accident enroute to the meeting. In which his 1959 Volkswagen was totally destroyed.

Neither Wiley nor his companion, Rev. Ken Carter of the Seth Ward Baptist Church in Plainview, who was driving at the time, were injured, save a few scratches. The car overturned twice.

"We feel very fortunate that we came out safely," said Rev. Wiley. He explained that the setting sun blinded his companion, and when he swerved the car to make a curve, the automobile overturned twice. There was a 75-foot cliff in the opposite direction to that which the car swerved.

Rev. Burton's trip was a little less spectacular, although interesting, none-the-less. The Burtons were gone two weeks, visiting Grand Canyon, the

Painted Desert, Petrified Forest, Hoover Dam and Yosemite Park on the way.

After the week in San Francisco, Rev. Burton and his family returned through Los Angeles, visiting Hollywood and Disneyland. Rev. Burton preached at the Lemon Heights church near Los Angeles Sunday, June 10.

Visitor Departs For West Coast

Mrs. Elsie Livings of Los Angeles, Calif. left for her home Monday after visiting relatives and friends here. She is a pioneer of this area and the grandmother of Steve and Loyd Messenger.

Other grandchildren coming to Friona to visit her during her stay were Mrs. Leonard Larson and family of Denver, Mrs. LeRoy Carter and family of Leadville, Colo., Floyd Messenger and family of Hereford and Ralph Messenger and family of Hobbs, New Mexico.

While here Mrs. Livings was a houseguest of Mrs. A. O. Drake and a number of former acquaintances visited her there.

Before coming to Friona she had visited in the home of Mr. and Mrs. George Livings and family at Temple.

FRIONA

On The Move

Mrs. Estell Smith from Hereford has moved to 710 Cleveland.

Mr. and Mrs. Ardith Rolan, Route 2, have moved to 112-A East 12th.

Clarence Mahon from California has moved to 710 Grand. Mr. and Mrs. Charles West have moved from 607 Cleveland to 616-B Cleveland.

Mr. and Mrs. Dale Smith will make their home at 406 West 14th.

Mr. and Mrs. David Hale and three children from Tullia have moved to 810 Ashland. He is employed by Chester & Fleming Gin Co.

Mr. and Mrs. Gaylon Rhodes have moved to Stratford from 810 Ashland.

Mr. and Mrs. Cecil Asher and family have moved to Hereford from 705 Summitt.

Mr. and Mrs. Gerald McDowell have moved to Lubbock. They did live at 615 Euclid.

Republicans Meet Monday

The Bailey-Parmer County Young Republicans will meet Monday night, June 25 at 8:30 p. m. in the American Legion Hall in Muleshoe.

Dennis Taylor, Republican candidate for the United States Congressional seat now held by George Mahon, will be the speaker.

The general public is invited to attend.

Leon Masseys Have New Son

Mr. and Mrs. Leon Massey became parents of a baby boy June 13 in the Deaf Smith County Hospital.

He was named Douglas Kent and weighed eight pounds and twelve ounces.

Grandparents are Mr. and Mrs. Gordon Massey of Friona and Mr. and Mrs. Jack Tomlin, Dimmitt, Mr. and Mrs. Otis Massey of Friona are great grandparents.

Electricity--

payers would pay the bill that the electric industry's taxes now pay," Aaron said.

The speaker explained that while his presentation applied particularly to the electric industry, the same thing was applicable to any industry, unless "we, as citizens do something about it."

It was stated that the United States has gotten into the money lending business in recent years, to countries floundering from their socialistic ventures. "When the U. S. get imbedded in socialism, to whom can we turn to bail us out?" Aaron asked.

Anni Jensen--

to teach in high school. Marriage isn't included in her immediate plans. "We don't marry as early as you do here," she explained. "Getting married while you're still in school is unheard of."

Asked about the main differences in school here and in her native land, Anni said the students respect the teachers more in Denmark than they do here. "They stand when the teacher enters the room," she said.

Miss Jensen says she will go back to Denmark as a better ambassador for the U.S. and will be able to tell her friends first hand that the American youth are not all the black leather jacket, motorcycle-riding hoodlums as they so often are portrayed.

Anni has one sister at home in Denmark. She says it was very easy to fit into the family life of the Massie home, "I couldn't have had a better home while I was here," she said.

Guests in the home of Mr. and Mrs. M. J. Stacy are Mrs. Stacy's parents, Mr. and Mrs. Bomar Moore of McAllen, Tex. Mr. and Mrs. Bomar Stacy and daughter, Kelly, visited several days recently in their home. Bomar is the son of Mr. and Mrs. Stacy.

Mr. and Mrs. James Nelson from Grand Haven, Mich. were guests several days in the home of Mr. and Mrs. Marvin Jordan.

SAYING GOODBYE - Anni Jensen, Friona's exchange student for the past year, chats with her "foster sister," Marca Lynn Massie, as she got her luggage ready for the trip back

to Denmark. Anni left Friona yesterday, boarding a bus at Amarillo to begin the trip home.

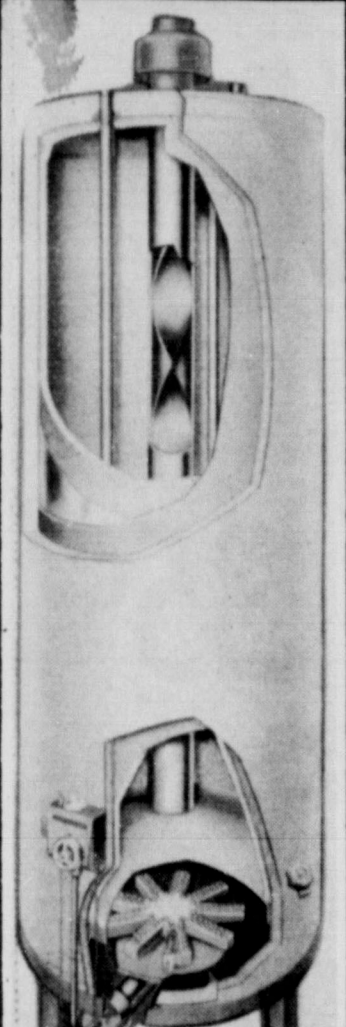

Visiting with Mrs. Ella Faye Holcomb and Phyllis this week were Mrs. Jerry White and son, Steve, from Lubbock. Mrs. White is Mrs. Holcomb's daughter.

Mr. and Mrs. Homer Hyde visited in the home of their son, Truell Hyde and family of Lubbock. Truell is attending school at Texas Tech studying for his Dr's degree.

Mr. and Mrs. Don Reeve of Amarillo were weekend visitors in Friona. They were guests in the homes of Mr. and Mrs. Glenn Reeve and Mayor and Mrs. Raymond Fleming.

Jere Buske - Dale Smith Exchange Wedding Vows

Wedding vows were exchanged by Miss Jere Jean Buske and Dale Smith at 2:30 p.m. June 17 in the First Baptist Church in Friona.

Mr. and Mrs. W. F. Buske are parents of the bride and the bridegroom's parents are Mr.

and Mrs. Lewis Smith.

The double ring ceremony was performed by Rev. Bill Burton, pastor, before an altar decorated with white gladioli and blue daisies.

Given in marriage by her father, the bride wore a gown of Chantilly lace fashioned with a scalloped neckline and long pearl point sleeves. The fitted bodice joined a floor length skirt enhanced at the back by alternating tiers of lace and tulle. A fingertip veil of silk illusion flowed from a crown of pearls and crystals. She carried a white Bible topped with a bouquet of blue daisies centered with a white orchid.

Miss Janet Smith, cousin of the bridegroom, was maid of honor and bridesmaids were Willa Kay Powell, Abernathy, and Lydia Buske, niece of the

bride. They wore blue brocaded taffeta dresses featuring cap sleeves and bouffant skirts with matching hats of blue illusion. Each carried a bouquet of white gladioli and blue daisies.

Larry Joe Moyer served as best man, and groomsmen were David Smith, brother of the bridegroom, and Ira Parr. Serving as ushers were Danny Smith, Jerry Hinkle, Valton Howard and Gary Sherriteb.

Mrs. Roy Miller, organist, presented wedding selections, and Miss Karen Turner, soloist, sang "I'll Walk Beside You" and "Hawaiian Wedding Song." She was accompanied by Patti-Jon Foster.

Guests were registered by Adabeth Akens, cousin of the bride, at the reception that followed the ceremony in the Fellowship Hall of the church.

The bride's table was laid with a white satin cloth and decorated with her chosen colors of blue and white. Presiding were Mrs. Ralph Smith, Mrs. W. B. Buske, Martha Wages and Mary Ann Bogges.

The couple visited points in Colorado on their wedding trip. For travel the bride wore a turquoise linen suit with turquoise and white accessories and a white orchid corsage.

Mrs. Smith is a 1962 graduate of Friona High School and Mr. Smith graduated from Friona High School in 1959. He is employed at the Friona State Bank.

The couple will make their home in the Lakeside addition in Friona.

Announcement Tea Fetes Miss Wages

Miss Martha Wages was guest of honor at a tea announcing her engagement to L. Dee Taylor June 16 in the home of Mrs. R. L. Rule, Mrs. Jim Griffith was co-hostess.

Guests were invited to call from 2 to 4 p.m. The refreshment table was laid with a white cloth and centered with light brown carnations arranged on a white heart shaped base surrounding a miniature bride and bridegroom. The couple's names and the date, August 4, was written

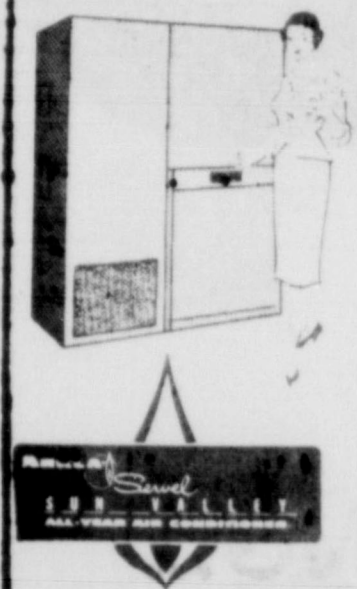

on streamers extending from the centerpiece.

Small cakes decorated with love birds and wedding rings were served with punch by the hostesses.

Richard Hyde of Olympia, Wash, arrived at the home of his grandparents, Mr. and Mrs. H. H. Hyde, June 11, to spend the summer and work on the farm. Richard, the son of Rev. and Mrs. Omer Hyde, traveled by train.

We've got GAS air conditioning at our house!

Boy, it's the MOST! It does more than just COOL, too. It circulates, ventilates, dehumidifies and cleans the air. Oh, and it HEATS in winter... I almost forgot! Mom says it's a lot easier to keep house now, because there ain't... I mean "isn't" as much dust around. And you should hear Dad go on about how his hay fever's let up since we bought the Arkla-Servel. An' you know what? It runs so much cheaper than our old job that the folks increased my allowance from the savings! All I know is that when I get a house, I'm gonna have an Arkla-Servel Sun Valley, too. Say, ain't I mean "isn't," that a funny name for an air conditioner!

Baby Girl Born To The Askins

Connie Lynn is the name chosen for the new baby girl born to Rev. and Mrs. M. Alvin Askins June 16, 1962, at 7:22 a.m. in the Farmer County Community Hospital. She weighed 7 lbs. 5 1/8 ounces.

The baby has an older sister, Gayla, and her grandparents are Mr. and Mrs. A. A. Askins, Graceport, Oklahoma; Mrs. Gwen Sency of Cement, Oklahoma. Great grandparents are Mr. and Mrs. M. P. Anthony, Graceport, Oklahoma, and Mr. R. A. Burns of Cement, Oklahoma. Her great great grandfather is Mr. J. T. Whitlock of Chickasha, Oklahoma.

Hadley Relatives Meet For Reunion

The Hub Community Center was the scene of the annual reunion for the family of F. H. Hadley, Sunday, June 17. Mr. Hadley was 93 years old last October. Sixty-seven members of his family were present for the occasion.

Out of town guests were: Mr. and Mrs. Bill Hadley and children of Stinnett; Mrs. J. H. Lea of Borger; Mrs. Janice Gunkel and Cindy of Stinnett; Mr. and Mrs. Winston Hadley and children of Amarillo; Mr. and Mrs. Raymond Hadley of Amarillo; and Mrs. Janie Woodard of Amarillo.

Also Mr. and Mrs. Johnny Hadley and children of Borger; Dickie Hadley of Borger; Miss Sandra Paxton of Phillips; Mr. and Mrs. L. D. Cannon of Muleshoe; Mr. and Mrs. Marvin Gaddy and Donny of Muleshoe; and Mr. and Mrs. Windle Sixes and Ralph of Bovina.

Attending from Friona were Mr. and Mrs. A. H. Hadley, Mrs. Jerald Dickey, Mr. and Mrs. James Pope and boys, Mr. and Mrs. Gible Trigg, Mr. Carl Hadley, Mr. and Mrs. Roy Lee Hadley and children, Mr. and Mrs. Aubrey Cannon and boys, Mr. and Mrs. Albert Cannon and children, Mr. and Mrs. Donn Tims and Larry, and Mr. and Mrs. Leo Bails, Becky and Kenny.

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

popular or to be right. The temptation to "follow the crowd" and be popular is very great. Unfortunately it is seldom right. In fact, the Word of God tells us, "Thou shalt not follow the multitude to do evil." Those who are more concerned about being right than popular must remember that God's people have never been conformist. This is not the popular view, but it is the right view. God was directing the apostle Paul when he wrote, "And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God." (Romans 12:2) A conformist is one who follows the masses. He is more concerned about popularity than he is about being right. On the other hand, the "transformed" constitute the minority and are seldom popular, but they are right because they are on the side of God. Every person who is truly concerned about the salvation of his soul should keep this great truth in mind, the popularity of a doctrine does not determine its scripturalness! As you consider this problem, just remember this bit of admonition: "Prove all things; hold fast to that which is good." (1 Thess. 5:21)

TRUE THEN TRUE NOW

Ten Things You Cannot Do.

1. You cannot bring about prosperity by discouraging thrift.
2. You cannot strengthen the weak by weakening the strong.
3. You cannot help strong men by tearing down big men.
4. You cannot help the wage earner by pulling down the wage payer.
5. You cannot further the brotherhood of man by encouraging class hatred.
6. You cannot help the poor by destroying the rich.
7. You cannot establish sound security on borrowed money.
8. You cannot keep out of trouble by spending more than you earn.
9. You cannot build character and courage by taking away man's initiative and independence.
10. You cannot help men permanently by doing for them what they could and should do for themselves.

FRIONA DRILLING & PUMP CO.
Charles Short, Mgr. Ph. 2151

A SACRED SYMBOL

Evangelist Billy Graham made a visit to Moscow a few years ago and he saw some things he had not expected to see. Right in the middle of the Kremlin, the seat of Russia's atheistic government, he found church buildings surmounted with golden crosses and embellished with religious paintings.

As he watched Russians looking at wall paintings of Christ in one ancient church, he said, "That is a very moving sight. To see His picture here in the very heart of the Kremlin is a tender, moving thing... When I see Him on the cross I am deeply moved. Never, never did I expect to find this in the Kremlin." And then he said, "I hope this sign of the cross will have some meaning for the future."

And we are inclined to agree with the evangelist. The sign of the cross is still the symbol of God's measureless love for mankind, reminding us that He gave His beloved and only Son to be the sinner's Substitute, to die on a cross of shame to save us from eternal death. Would that all the people in the Kremlin might realize this truth as they gaze at those golden crosses!

Services Conducted Eastern Star Chapter For R. E. Barnett Installs Officers

Funeral services for R. E. Barnett, 79, of the Black Community were conducted at Sixth Street Church of Christ at 2 p.m. Saturday, with Paul Smith, minister of the church, officiating. He died at 10:15 a.m. Thurs-

day in Deaf Smith County Hospital at Hereford after a prolonged illness. He had been a farmer and rancher in the Black Community about 30 years before he retired, and still lived in that community.

Active pallbearers were John Hays, Rosco Ivie, Glenn Roberson, Ellis Tatum, Otey Hinds and Ralph Price. Honorary pallbearers were E. H. Cummings, Ed Boggess, J. M. Watson, Clyde Hayes, John Benger and T. J. Presley.

Mr. Barnett was born October 19, 1882 in Bonham, Texas and was married to Miss Dollie Nelson December 29, 1907 in Fairview, Texas. The couple lived in Fannin County until 1920 when they moved to Farmer County.

Survivors, besides his wife, include three sons, Fern Barnett of the Black community, Jim Barnett of Amarillo and Dr. Louis Barnett of Hereford; one daughter, Mrs. George Brock of Lubbock; two sisters, Mrs. Fred Kimmins of Phillips and Miss Minnie Barnett of Amarillo; eight grandchildren and two great-grandsons.

Burial was in West Park Memorial Cemetery in Hereford.

Friona Chapter Order of the Eastern Star No. 990 held an installation ceremony recently in the Masonic Hall.

Installing officers were Mrs. Exie Knight of the Amarillo Chapter and U. S. Akens of Friona Chapter. They were assisted by Vera Bainum, marshal; Martha Russell, chaplin, Thelma Coffey, secretary and Joanne Hairgrove of Anson Chapter, organist. Officers installed for the ensuing year were Eula Akens,

worthy matron; Claude Miller, worthy patron; Tommie Mercer, associate matron; Bill Buchanan, associate patron; Faye Southward, secretary; Vera Bainum, treasurer; Lillian McLellan, conductress; Sarah Ann Miller, chaplin; Bessie Boatman, Marshall; Gladys McVey, Adah; Betty Louise Reator, Ruth; Bessie Watson, Esther; Billie Long, Martha; Viola Leonard, Electa; Jewell Wells, Warder and Bill Flippin, sentinel.

Chapter members presented Marie McKee with a past matron pin. The Worthy Matron, Eula Akens, was presented an engraved gavel from her family, Joanne Hairgrove, Mildred Lawrence, U. S. Akens and Adabeth, Adabeth read the tribute and Mildred sang "How Great Thou Art".

WEATHER LOW-DOWN. . . Getting instructions from O. W. Hunn from the Regional office of the Weather Bureau is Jake Outland, left, Friona City Manager. The new weather equipment was installed this week, setting the stage for day-by-day weather recording by the city.

The original pledge of allegiance to The Flag was written by Francis Bellamy. It was used at the dedication of the Chicago World's Fair Grounds 70 years ago, but it wasn't approved by Congress for 53 years . . .

The first mechanical clock was made in Paris in the 14th century by Henrik de Vick. Still running today—at the Palais de Justice in the French capital . . . The world's longest national anthem is the Greek. 158 stanzas . . .

About 70 per cent of this planet lies underneath the seas . . . Rickshaws survive only in Hong Kong and Calcutta . . . Government buildings in Holland are at The Hague, but the country's capital is Amsterdam . . .

Batting Leaders Listed At Season's Mid-Point

Batting leaders for the city baseball leagues were compiled this week by Vernon Scott, as the leagues reached the halfway point of the season.

The Pee Wee League has the most impressive batter of the lot. The leader of that league has yet to be gotten out. Figures through Monday's games found Zane McVey of Aztec Drive Inn leading with eight hits in eight at-bats, for a

perfect 1,000 batting average. Aztec, which is unbeaten in the league, has five of its players among the top ten in the league.

Ramie Beene of Brookfield Drilling leads the Intermediate League with an equally impressive average of .888, with eight for nine.

S. D. Baize is leading the Pony Leaguers, with a .750 percentage on nine hits for 12 times at bat.

Aztec Remains Unbeaten With Last Ditch Victory

Aztec Drive Inn was left as the only unbeaten team in the summer baseball leagues after Tuesday's games, but it took a come-from-behind effort to achieve the trick.

Aztec was trailing Ethridge-Spring Agency, 12-6 going into their last time at bat, but scored seven runs to grab the win, 13-12. Ramie Ramoz went the distance for the win, over David Williams.

Aztec had beaten Ethridge-Spring in the two teams' first meeting Monday, 11-4, behind Zane McVey, who is also the league's leading hitter.

Other Pee Wee results during the week were Farmer County Pump 19, Friona Consumers 6, and Aztec Drive Inn 10, Farmer County Pump 6, with

McVey again getting the win. The best race is in the Intermediate League, where four teams are tied for the top spot. Friona State Bank, Brookfield Drilling, Friona Drill and Pump and McCaslin Lumber all have identical 3-2 records.

Only one game was played in the intermediate circuit during the week, with Brookfield Drilling taking an 8-5 win over Friona State Bank, behind Larry Graves.

In the Pony League, Farmer County Implement fell from the ranks of the undefeated when Chester-Fleming Gin edged them, 14-13. Jackie Stowers picked up the win.

Herring Implement scored its second win of the season, with

Black News--

of Fort Worth visited with the Loyd Prewetts during the week end. Mr. Prewett is Lloyd Prewett. The J. G. Prewett returned home Monday.

Guests in the L. L. Prewett home Sunday were Mr. Deaton's sister, Mrs. Z. M. Holly and her daughters Mrs. Laverell Porter and son Chris and Mrs. Calvin Jordan and daughter Rena. Mrs. Holly and Mrs. Porter are from Plainview, and Mrs. Jordan is from Abertathy.

Pammie Tatum visited with her grandparents, Mr. and Mrs. Ellis Tatum, Saturday and Sunday. Also guests in the Tatum home were Mrs. Tatum's brother, Toby Billingham and Leroy Hays of Albany, Texas. Mr. Billingham and Mr. Hays visited with the Tatum's Friday afternoon.

Ray Braxton returned home from the Sho-Me Baseball Camp in Branson, Missouri last week. Ray's mother, Christine drove to Missouri Thursday and they returned home Saturday. Ray was slightly injured during one of the games when he was hit by a baseball; otherwise he reports he had a good time.

SPORTS

MAKING PLANS . . . Discussing the week's outing to the Salvation Army summer camp are (1) Delbert Davis, Byron Grant, Ben Moorman and Ricky Davis. The boys are spending this week at the camp. Moorman took them down last Sunday, and will pick them up this weekend.

Rules Given For Raising Juveniles

The following "Twelve Rules for Raising Delinquent Children" were issued by the Houston Police Department:

1. Begin with infancy to give the child everything he wants. In this way he will grow up to believe the world owes him a living.
2. When he picks up bad words, laugh at him. This will make him think he's cute. It will also encourage him to pick up "cuter" phrases that will blow off the top of your head later.
3. Never give him any spiritual training. Wait until he is 21 and then let him decide for himself.
4. Avoid the use of the word "wrong." It may develop a guilt complex. This will condition him to believe later, when he is arrested for stealing a car, that society is against him and he is being persecuted.
5. Pick up everything he leaves lying around—books, shoes and clothing. Do everything for him, so that he will become experienced in throwing all responsibility on others.
6. Let him read any printed matter he can get his hands on.
7. Quarrel frequently in the presence of your children. It will keep them from being too shocked when the home breaks up.
8. Give the child all the spending money he wants. Never let him earn his own. Why should he have things as tough as you had them?
9. Satisfy his every craving for food, drink and comfort. See that every sensual desire is gratified. Denial may lead to harmful frustration.
10. Take part against neighbors, teachers and policemen. They are all prejudiced against your child.
11. When he gets into real trouble, apologize for yourself by saying "I never could do anything with him."
12. Prepare for a lifetime of grief. You'll probably have it.

General Telephone System

Here's the "telephone man"

He is called an "installer". But his job goes far beyond that. It is true that he installs your new telephone or extension. But, when unanticipated repairs are needed, he prevents delay by carrying necessary parts in his truck. And, he is trained to be of assistance to customers in many ways, including proper placement of your telephone. As your "telephone man" he is one of many of us here at General Telephone who works hard to provide you with good service from the world's most necessary convenience.

Profitable Mixture
FT. LAUDERDALE, Fla. (UPI) — The unusual combination of oranges and missile parts has proven a successful diversification for Aironics International Corp.

The firm built its plant on a 24-acre orange grove and for the first few years made more money selling oranges than electronics.

Tax Bite
NEW YORK (UPI) — Total income of an average production worker with a wife and two children nearly doubled in the period 1947-60, according to the Tax Foundation, Inc.

But in the meantime, the foundation added, his federal income tax liability rose nearly four times.

Food for Thought
NEW YORK (UPI) It costs a restaurant operator approximately \$4,000 per seat to open a new establishment, according to Donald Greenaway.

Phone 5431 Friona Ken Harrison

It seems that the annual housing hunt for teachers wanting to move to Friona started rather early this year. Mrs. Carolyn Kite, who will be the elementary music teacher this fall, was in the office Tuesday inquiring about living facilities for this fall.

Another fact that is somewhat startling is that there are less than a dozen boxes in the local post office that are not rented. It seems such a short time ago that a whole new section of boxes was added. Now most of these have been rented and it looks as if there will be a waiting list by the time new teachers get here this fall.

The Star's bouquet this week came from a very charming pioneer resident of Friona. Mrs. Elsie Livings stopped by the office briefly before beginning her trip back to the West Coast.

She reported that she had thoroughly enjoyed her visit with relatives and friends during the time she was here. Each of her six grandchildren was here during her stay.

In addition to Steve Messenger and Loyd Messenger, both Friona residents, she was visited by Mrs. Leonard Larson and family of Denver, Mrs. LeRoy Carter and daughter of Leadville, Colo., Ralph Messenger and family of Hobbs and Floyd Messenger and family of Hereford.

Mrs. Livings said, "I get the Friona Star every week and think it is a fine paper. I even

share it with relatives and friends in California."

Meeting and visiting with such a fine person was a pleasure and it is hoped that when she returns to Friona she will again stop at the Star office.

Of course, there just isn't such a thing as a nice hail storm, but some hail that fell west of town Sunday morning was as nice as hail can be. Soon after the sun came up enough hailstones about the size of English peas fell to cover the ground. At the same time the sun was shining and the combination of early morning sunshine and freshly fallen hail was very pretty.

At first the ground looked somewhat like it was covered with salt and pepper, but within a few minutes it was completely covered. A few minutes after it had fallen it was all melted and there wasn't enough moisture to wet the ground.

There may be a fire department in Texas that is better equipped to make noise than Friona's is, but, if so, it surely does make a lot of noise. Monday evening the local volunteer fire fighters were called to fight a blaze east of the Hub.

When the alarm was turned in, the new equipment on West Sixth Street was used for the first time. In addition to attracting a lot of attention from city residents, the noise attracted some of us who live in the country, too. In the almost fifteen

years the Floyds have lived about six miles west of town we had never before heard a fire whistle blowing.

Monday evening we could count the blasts as clearly as if we had been in town.

Surely the arrival of little Douglas Kirk Massey on the thirteenth of June didn't have anything to do with the hospitalization of his grandfather, Gordon Massey, or great-grandfather, Otis Massey. At the time of his birth, his grandfather was hospitalized in Hereford and Monday his great-grandfather had surgery at Northwest Texas Hospital in Amarillo.

Douglas Kirk, who is the first child of Mr. and Mrs. Leon Massey, is the first great-grandson in the Otis Massey family. Great-granddaughters of Mr. and Mrs. Otis Massey are Reba and Glenna Holt; Sherri, Jerri and Wendy Ferguson and Debbie and Janet Varner.

A canopy type shade is being erected at the Aztec Drive in this week. This will be nice for customers of restaurant who prefer to remain in their cars while eating meals or drinking cold drinks.

Visited briefly with Mr. and Mrs. Bill Edelman of Hereford recently. Joe Don, son of the couple, is spending the summer on a ranch in Montana. Gussie thinks the summer is going to be a very long one. The Edelmans are former Friona residents.

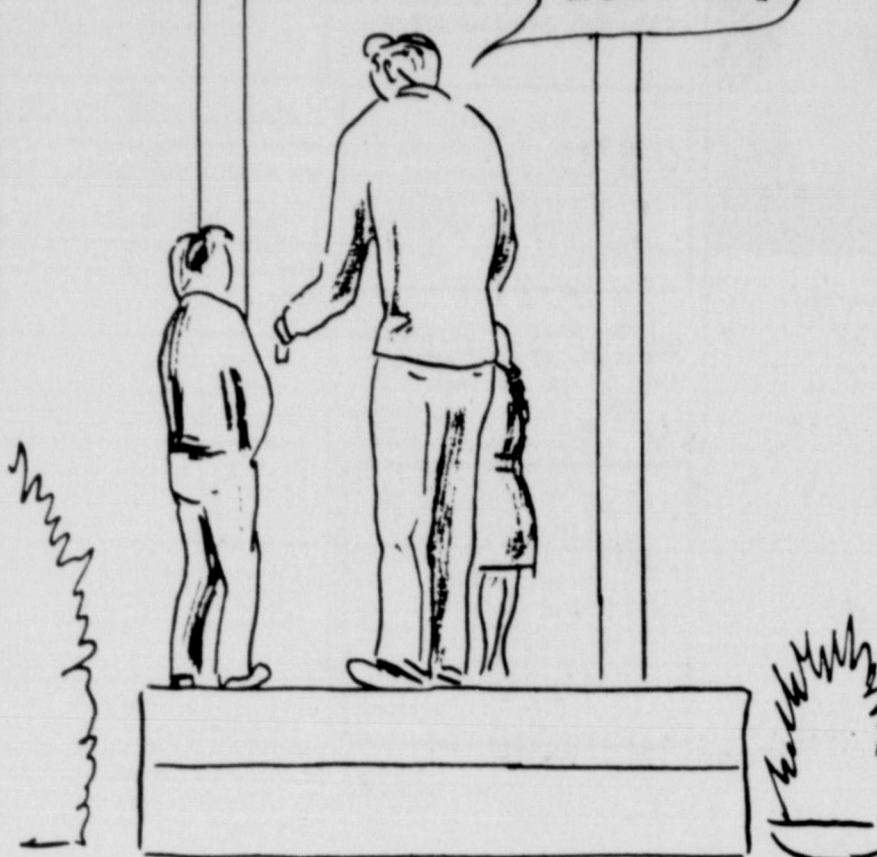

A number of Friona's younger residents are proud possessors of permits to drive. These young young people have finished the classroom phase of a driver education program and are ready to begin their "in-car" training.

Permits now in their possession restrict their driving to "having a licensed driver in the front seat." Upon completion of the second phase of their training they will take tests for regular driver's licenses.

Holcomb - Bails Wed In Double Ring Ceremony

Miss Peggy Jean Holcomb, daughter of Mrs. Ella Faye Holcomb, Friona, and Harold Bails, son of Mr. and Mrs. Leo Bails of Route 1, Friona, were married in a double ring ceremony June 16 at 3:30 p.m. in the home of Mr. and Mrs. R. E. Snead.

M. B. McKinney, minister of the Church of Christ in Dimmitt, read the wedding vows. An archway of greenery centered with white wedding balls and tied with aqua ribbon formed the background for the ceremony.

Nuptial selections included "Because," "O Promise Me" and the traditional "Wedding March."

The bride wore a formal gown of silk organza over taffeta accented with appliques of Alencon lace, Chantilly lace edged with sequins outlined the sabrina neckline and highlighted the bodice and bouffant skirt. Bows and tiny covered buttons decorated the back of the dress and long sleeves tapered to petal points over the hands. Her shoulder length veil of silk illusion fell from a crown of seed pearls. The bridal bouquet was a cascade arrangement of white roses, aqua love knots and white streamers.

Phyllis Holcomb was her sister's maid of honor and she wore a white eyelet dress with white accessories and her corsage was aqua carnations.

Donn Tims, brother-in-law of the bridegroom, served as best man.

A reception followed the ceremony. Guests were registered by Miss Janet Snead. The refreshment table was laid with an aqua cloth and centered with a bouquet of white carnations. The table also held the three tiered white wedding cake decorated with aqua roses and

topped with a miniature bride and bridegroom.

Miss Rebecca Bails, sister of the bridegroom, and Phyllis Holcomb presided at the bride's table. Other members of the house party were Mesdames David Carson, J. V. Houser, R. E. Snead and Steve Struve.

Out of town guests attending were Mrs. Ollie Wilson, grandmother of the bride, and Mrs. Alvin Law, Plainview; Allan Burkett, Portales, Mr. and Mrs. Jerry White, Lubbock and Mrs. M. B. McKinney, Dimmitt.

For a wedding trip to Red River Mrs. Bails wore a white crystalline dress with royal blue accessories and a corsage taken from her bouquet.

The couple attended the Friona Schools and will be at home in Friona.

Frionans Earn NMMI Degrees

Two Frionans were among the graduates at New Mexico Military Institute at its recent commencement exercises at which 170 cadets received high school certificates and 84 first classmen were awarded associate in arts degrees.

Receiving the latter degrees were Joe Bailey Douglas, Jr., who graduated from high school at NMMI in 1960, and Larry W. Mabry.

Douglas was a member of the cadet honor board this year, and was promoted to the rank of cadet lieutenant in the 10-company cadet regiment recently.

Mabry was recognized as the "best new cadet" in his company, and was promoted to the rank of staff sergeant at commencement.

Nelda Douglas Becomes Bride Of Mike Ellis

Miss Nelda Rhea Douglas, daughter of Mr. and Mrs. Joe B. Douglas, became the bride of Michael Gene Ellis, son of Mr. and Mrs. Eugene Ellis, June 15 at 7:30 p.m. in the First Baptist Church with Rev. Bill Burton reading wedding vows for the double ring ceremony.

Guests were registered in the Bride's book by Misses Janet Smith and Judy Taylor.

Altar decorations included a background of greenery accented with candelabra trees holding white tapers and flanked by baskets of white gladioli.

The bride, given in marriage by her father, was attired in a formal gown of silk organza underlined with bridal satin. The fitted bodice featured a sweetheart neckline and long tapered sleeves and was accented with re-embroidered Alencon lace, crystal beads and pearls. The bouffant skirt, sweeping into a chapel train, was also fashioned with the lace accents and jewels. Her fingertip bouffant veil was fastened to a pillbox of lace and seed pearls, and she carried a white orchid surrounded with stephanotis, love knots and white satin streamers.

Miss Suzanne Taylor was maid of honor and bridesmaids were Gayle Knight, Donna Blackburn and Mrs. Jerry Loflin. They wore blue eyelet street length dresses with matching eyelet pillbox headpieces and carried white gladioli nosegays.

Connie Ray served as best

man and groomsmen and ushers were J. B. Douglas, brother of the bride, Ronnie Wood, Jimmy Coalson, cousin of the bridegroom, Hobart, Okla., Lonnie Ellis, brother of the bridegroom, and Dan Douglas, brother of the bride.

Candlelighters were Randy Ellis and Terry Fite.

Mrs. Roy Miller, organist, presented nuptial selections and accompanied Gerald Daniel as he sang "O Perfect Love," "O Promise Me" and "The Wedding Prayer."

A reception in the Fellowship Hall honored the couple following the ceremony. The refreshment table was laid with a white net cover over satin and was centered with a miniature candelabra holding blue candles and blue carnations.

Misses Mikie Welch and Cynthia Caffey presided at table. Other members of the house party were Mesdames Jim Maynard, Claude Blackburn, Ralph Taylor, Ralph Smith, Ed Hicks and George Taylor.

For a trip to Ruidoso, N. Mex. the bride changed to a pink linen suit and white accessories.

Mrs. Ellis is a 1961 graduate of Friona High School and is employed at the Friona State Bank. Mr. Ellis graduated from Friona in 1960 and attended Texas Tech. He is employed at Reeve Chevrolet.

The couple will be at home in Friona.

FOURTIETH ANNIVERSARY. . . Mr. and Mrs. E. H. Cummings are observing their wedding anniversary at a reception in their home at 1001 West Sixth Street Sunday, July 8. The family of Mr. and Mrs. Cummings are host for the occasion and invite friends to call from 2 to 5 p.m. and 7:30 to 9 p.m. The Cummings moved from Lockney in 1926 to a farm in the Lakeside community and resided there until 1955 when they moved into Friona. They now own and operate Cummings Farm Store.

Loveless Family Has Son, Family As Guests

Mr. and Mrs. Howard L. Loveless and family visited last week with Mr. and Mrs. Walter Loveless, who live at 1112 Main

in Friona. Howard, his wife Ellen and two sons, Sonny, who is eight and Paul, three, continued on to Colorado Springs, Colo., last Friday, where he was to attend an annual meeting of the American Society of Engineering Education.

Loveless, a 1948 graduate of Friona High School is an associate professor in the engineering department of the University of Tennessee in Knoxville. He has been an instructor there for five years.

A Texas Tech graduate with the class of 1948, Loveless received his Master's degree from North Carolina State in 1950. He is currently doing work toward his doctorate.

Fleming Families Return From Trip

Mayor and Mrs. R. L. Fleming and Mr. and Mrs. Ray Dean Fleming returned to Friona last weekend after spending several days fishing and visiting in points of New Mexico and Colorado.

They were guests of Mr. and Mrs. Floyd Crume at Farmington, N. Mex. before going to Colo.

At Dolores, Colo. the Flemings were guests of Mr. and Mrs. George Rogers, and they visited Fleming's father, O. D. Fleming at South Fork, Colo., and also did some fishing while there.

Potts Places In Clovis Rodeo

Larry Potts, 17-year old son of Mr. and Mrs. Cordie Potts of the Rhea community, was second in the bulldogging division of the fifth annual Junior Rodeo last weekend.

It marked the first time for Potts to enter the bulldogging event. He also entered in ribbon roping and tie-down roping, but did not place in either of those events.

Mrs. Marvin Jordan Presents Program

Mrs. Marvin Jordan was hostess to members of the Fun and Fancy Club in her home June 8.

The program presented by Mrs. Jordan was a demonstration on making hot rolls.

The group discussed plans to make handbags at the July meeting in the home of Mrs. Lloyd Mings during the business session.

Iced tea and chocolate chip cookies were served to Mesdames Lloyd Mings, Glen Mings, Billy Dean Baxter, Doyce Barnett, Lee Renner, Rudolph Renner, G. A. Collier, by the hostess.

BLACK NEWS

BY BRENDA DEATON

If you find the news rather short this week its because we've had a little difficulty with our telephones and electricity the past few days. It's rather tedious to gather the news when you're talking to someone over the phone and suddenly all you hear is static. It's sad that with the high rates we have to pay we have such trouble with our telephone service. Possibly the past week's trouble could be caused by the weather. Bad weather certainly didn't put too much of a damper on the past Father's Day. Mr. and Mrs. Gene Welch and family visited with his parents, Mr. and Mrs. W. H. Welch and his brother's family Mr. and Mrs. Wayne Welch in Amarillo Sunday.

Mr. and Mrs. J. G. Prewett

(Continued on page 4)

Bridge Club Met Monday

Members of the Couples Bridge Club and their guests met Monday evening at the club house for several sessions of bridge games. Forty attended.

Special guests were Mr. and Mrs. Ed Lovvick, Memphis, Tenn; Miss Mary Reeve, Pampa; Mr. and Mrs. Bomar Moore, McAllen, Tex.; H. V. Rocky and Miss Mary Ann Stacy.

Hosts for the occasion were Mr. and Mrs. Mack Bainum, Mr. and Mrs. H. E. Barnett and Mr. and Mrs. Bill Bailey.

SOIL CONSERVATION DISTRICT NEWS

Crop residues left on the surface of the soil is one of the best erosion control and soil improving measures which a farmer can use in treating his land. These residues protect the soil from the direct impact of the raindrop, which exerts a tremendous force on the area which it strikes. These drops often strike with enough force to lift a 7 inch topsoil layer three feet high 86 times during a one hour rain. Thus the energy which starts the water erosion of soil must be controlled or absorbed before it can strike bare ground. Residues, in sufficient quantities, left on the surface of the soil will provide ample protection from this force.

Through research it has been determined that approximately one ton of residue per acre left on the surface of the soil will control 90% of the erosion caused by both wind and water. This may sound like too much residue to leave, but when a crop will produce from two to three tons of the residue per acre the amount which will control erosion is not too much to be maintained.

Sufficient quantities of crop residue to control the water

erosion will also maintain moisture near the soil surface. This is done by reducing the velocity of the wind, and shading the soil from the rays of the sun. The protection offered by these residues also will prevent the crusting of the surface soil.

The shading effect of crop residues can easily be determined by a simple process. A person needs only to place one of his hands on the soil surface under the residue, and at the same time place the other hand on bare ground to realize the difference. On days when the air temperature is around 100 degrees the temperature of bare ground has been as high as 135 degrees, when nearby under a good cover of residue the temperature showed a reduction of 50 degrees, or down to 85 degrees. Residues much like growing crops will maintain lower daytime temperatures and increase nighttime temperatures of the soil.

Fires are one of the causes of great losses to mankind, but the grain farmer who burns his stubble does not readily see this. The burning of stubble actually sterilizes the top portion of the surface soil each time the burning takes place, as well as leaving the soil exposed for wind and water erosion to start.

Each person should consider this question—"Is burning for your own personal benefit, such as your field may look clean, or be easier to go over with certain types of implements, or is leaving of crop residues on the soil

PAY RESPECTS. . . Area ASC officials were guests at the grand opening of the Parmer County ASC Monday in Farwell. Left to right are James Whitfield, Lubbock (former manager of the Farwell office), Lamar Aten, Littlefield, Dale Carter, Plainview, and Prentice Mills, Parmer County Office Manager.

surface better, even though the benefits may be several years in showing the benefits?"

Crop residues are the natural by-products of farming and should not be destroyed, just as getting them out of the way. Manufacturing concerns have spent much time and money in the past in searching for ways in which to use their by-products. Many of these businesses have found ways to use what had been formerly wasted, and now receive much of their

income from the better methods now in use. One of the greatest finds in agriculture is the now profitable use of cotton burs which in past years were burned or hauled away from gins and dumped. This is not done to any extent now, and is a very profitable part of the farming operation.

Do you have a good sound reason for burning stubble, or is it merely an excuse for doing something that you do simply because some one else does? Why not think for yourself.

A PLANT HORMONE developed at Long Beach (Calif.) State College can make the cocklebur bloom out of season and may be the trigger for the blossoming of many varieties of plants. It's called florigen.

South Plains Fair Will Feature New Farm Exhibition

County 4-H chapters and livestock exhibitors are applying for entry into the 1962 Panhandle-South Plains fair at an ever increasing rate. Thirteen of the fourteen counties taking part in the county agricultural exhibition last year have already sent in application forms for this year's fair.

Another first at the fair this year which has been received with enthusiasm by vocational ag teachers throughout the area was announced by L. M. Hargrave, superintendent of the vocational agriculture department. This will be the vocational farm mechanics exhibition.

THE HIGH PLAINS FARM AND HOME

Visitors Enjoy Parmer ASC Open House

The Parmer County ASC staged the grand opening for its beautiful new building Monday in Farwell.

Scores of visitors enjoyed coffee and doughnuts at the new location at 114 9th Street, a block south of the Shirley-Anderson Grain Company in Farwell.

"We are very proud of our new facilities," said Prentice Mills, office manager. The new building has 4200 feet of floor space, including eight office rooms, two rest rooms and a kitchenette.

The building is constructed of concrete block and brick veneer. The interior of the building is painted a pale green.

The ASC offices had been in the Carver building on Avenue A in Farwell since September of 1956, when they were moved from the county courthouse.

Mills has been office manager of the Parmer County ASC since 1956.

Monday's visitors included not only farmers and businessmen, but also ASCS officials from Lubbock, Plainview, Littlefield, Hereford, and Swisher County.

The moving of ASC office equipment was completed last week, prior to Monday's public opening.

Lazbuddie 4-H Complete School

Completing the Lazbuddie 4-H club cooking school last week were Katie Blackstone, Janice Miller, Jill Mimms, Cheryl Ramage, Marsha Schumann and Shelia Vaughn. The school was conducted in the home of Mrs. Gerald Ramage.

At the final meeting, May 28, the girls prepared and served broiled wiener sandwiches, hot chocolate and pudding to guests, Donnie and Gary Coker, Danny Miller, Clay Mimms and Charles and Mark Ramage.

Members of this school have learned to make candy, cookies, biscuits, sandwiches, salads, drinks and many other things. They are now practicing in their homes preparing meals for their families.

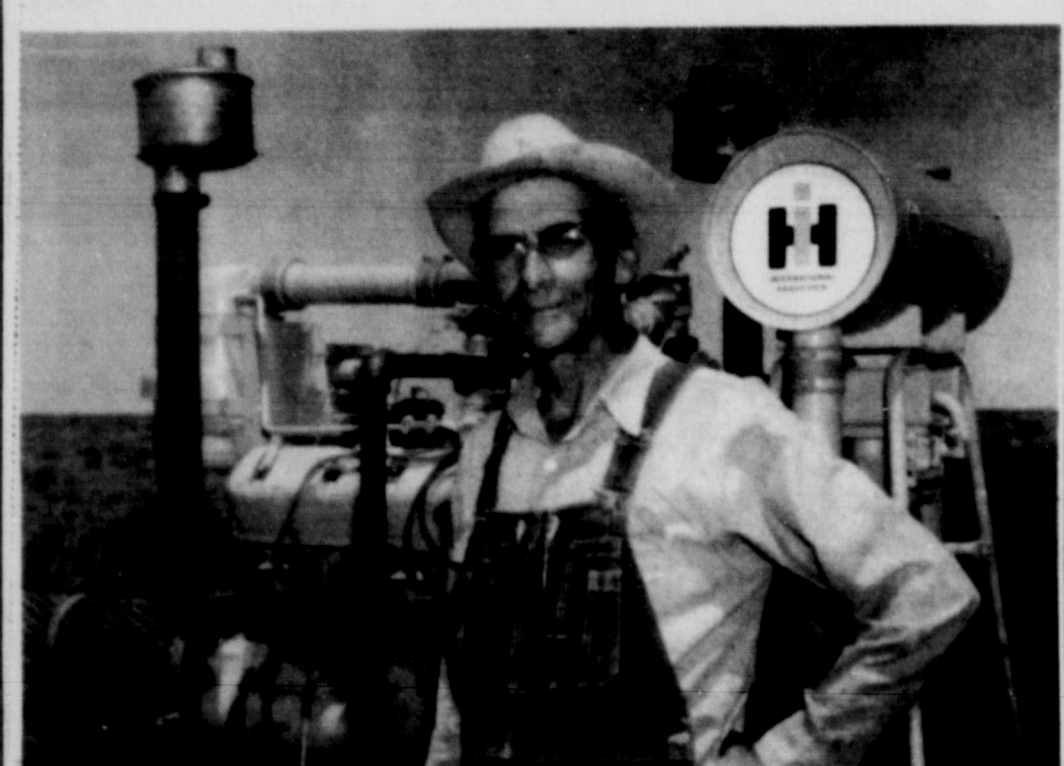

Each one will exhibit a prepared food in the "Favorite Food Show" June 19 in the Hub Community building.

HD Agent's Notes

BY MISS ETTIE MUSIL

Wish you could have gone with me to all of the four precinct Refinishing Furniture Workshops last week. We all learned a lesson or two in buying as well as refinishing furniture.

Of the sixty-eight attending the workshops we had individual problems with each piece of furniture. You would have the shock

of your life to see what kind of wood was uncovered with the varnish remover.

I won't mention names but we had surprises in what we found that we didn't think we had bought. In other words, much of our furniture may have a completely different wood from the wood finish that was bought. I believe all attending the workshops will know the difference in wood finish and solid wood.

One homemaker had bought maple furniture for a maple wood price. After removing the finish she found pine or fir wood under the maple finish.

Another homemaker had a beautiful end table finished in shining dark mahogany. After the finish was removed she found a blond wood heavily finished with the mahogany color.

You can't imagine what we found under the finish on the table top. None other than mahogany. The grain and mahogany finish had been rolled on to look like wood grain.

We'll be hearing results of furniture refinishing of the ones who attended the workshops. I'm sure these will be showing others of you what they learned and what they found out about wood. We plan to have a furniture review later, possibly in September, to see all the beautiful "new" furniture.

If you have any questions about furniture refinishing, let me know. This is a favorite subject, so we'll see what we can learn together.

If you wish, I can order a bulletin "Furniture Restoration" for you for the cost of fifty cents. It will be ordered from out of state. Our Texas bulletins are free but many states charge for their bulletins. This bulletin has many pictures and simple instructions to follow for repair, care, and restoration.

Free bulletins that we have should be of help to you now. They are available upon your asking. You may want copies of "Freezing Poultry For Home Use," "Frozen Foods -- How to Freeze, How to Cook," "Home Canning," "Salads," "Vegetables," "Quick Meals," "Home Lawns," "Controlling Insects on Vegetable Crops," and "Eat Well For Less."

WORLD'S LARGEST nuclear tests reactor will take three years to build at an Atomic Energy Commission site in Idaho. The new reactor will have an operating thermal power level of 250,000 kilowatts, compared with 175,000 kilowatts for the next-largest test reactor.

Reports Show Lower Yield, Weather Damage To Wheat

Farmer County wheat farmers, already faced with lower yield prospects than they had a year ago, are still playing a "beat the clock" game with the weather, as the harvest moved into its final stages this week.

Some farmers received extensive hail damage in the Sunday night storm that concentrated on the Friona-Black area, and still others said their wheat was hurt considerably by the high wind of last Friday and Saturday.

The bulk of hail damage reported in the county was directly west of Friona. The strip hit was about four to five miles west, and was heavier near town.

Clarence Martin, who farms four and one-half miles west of town, said his wheat was pretty well shattered, with grain covering the ground. He figured the damage would amount to at least 10 per cent, and possibly 20 to 30 per cent.

"The damage in my field ranged from none at all in some places to around 40 per cent in others," Martin said.

Marion Fite, one mile west of Friona, said he would estimate the damage to his wheat at from 35 to 40 per cent. Fite's damage also varied.

"The south end of the field was hit harder than the north end," he said.

Roy Clements, whose place is between Martin's and Fite's, reportedly believed damage to his wheat to be heavier than that on either side.

Rainfall received along with the hail measured around an inch to an inch and one-half. Its immediate worth could not be told, since young row crops were also damaged.

"It knocked the top out of the cotton and maize," said Fite, who added that it was too early to ascertain the extent of damage to those crops.

Most farmers agreed that with dry weather the rest of the week, the wheat harvest could be pretty well wrapped up. Those who received rain were cutting again by Monday afternoon.

The rain was so spotted Sunday that many farmers were not interrupted in their harvest. Hardly a trace was recorded two miles south of Friona. Bovina's precipitation was light, as was Farwell's.

No rain at all was reported in the Rhea, Hub or southern portions of the county.

Rosco Ivie, who farms three and one-half miles northwest of Black, measured 2-1/2 inches of rain with light hail Sunday. Bruce Parr, a mile east of Black, said it rained "barely enough to settle the dust."

The wheat that has been harvested has ranged all the way from "good" to "sorry." Friona Wheat Growers Elevator had seen average yields all the

way from 15 bushels to 50 bushels per acre, weighing from 47 to 64 pounds per bushel. Last year's crop had some averaging 70 bushels and more.

Arthur Drake, manager of Friona Wheat Growers Elevator, said it was his opinion that the deficit in this year's crop was due to hot dry wind which came this year at a critical stage in the wheat's maturing process.

Preach Cranfill of Continental Grain agreed that the hot days in May probably hurt this year's crop a good deal. He said that the top yield by anyone he's been in contact with has been 60 bushels per acre.

FOOTSAVING EDUCATION

by James E. Edwards

Does Over-Weight Increase the Danger Of Flat Feet?

It is said that the only person who knows all of the answers about foot-health is a shoe clerk who has been selling shoes for three weeks. From then on, if the shoe clerk is observant, he will notice that the things he knows "for sure" are forever being contradicted.

I was sure that overweight babies would develop flat feet but experience has proven me wrong. It seems that the foot is so well engineered it can handle far more weight than it usually does. To add to the confusion, thin children seem to be weakfooted more consistently than overweight ones.

I would not give a definite answer to the above question, but I am pretty sure that the reverse is true -- weak feet increase the danger of overweight. The foot weakness causes the person to toe out; toeing but causes poor posture and a protruding tummy is usually a noticeable feature of poor posture.

Sixty-Eight Attend Course For Furniture Refinishing

Sixty-eight homemakers, men and boys took part in the four county-wide precinct Furniture Refinishing Workshops just completed. All workshops were conducted by County Home Demonstration Agent, Miss Etie Mustil.

Workshops were conducted in Hub Community Center, American Legion Hall in Bovina, Oklahoma Lane Community Center and Black Community Center on June 8, 12, 13, and 15. The workshops were requested by the County Program Building Committee.

A variety of furniture or woods were refinished with penetrating wood sealer or boiled

linseed oil. These pieces included lamps, salad bowls, picture frames, gun stock, night stands, end tables, coffee tables, ash tray stands, radios, and drawers from chest of drawers.

Miss Mustil commented that many of the homemakers had stated, "Surely wish we had known how to do this before refinishing our furniture a short time ago." Homemakers were amazed how easy it was to apply penetrating sealer with old nylon hose. No additional varnish, lacquer, or shellac is needed over the sealer stain. Steps used in refinishing furniture with penetrating wood

sealer are simple. First, old varnish or paint should be removed with good varnish and paint remover.

Next, smooth wood surface with fine sandpaper, garnet paper, silicon carbide abrasive paper, emery screening, or 3/0" steel wool. Clean wood pulp or dust with clean cloth or cloth dampened with denatured alcohol.

After wood has been thoroughly cleaned, first coat penetrating wood sealer should be applied with old nylon hose or lintless cloth. Do not let a heavy, glasslike coating of sealer build up on the surface. Wipe off any excess that is not absorbed. Allow the first coat to dry for twenty-four hours before second coat is applied.

Before applying next coat, and before every succeeding coat, smooth the surface gently with 3/0 steel wool. This removes bubbles and "makes tooth" for the next coat. Wipe surface with a dry cloth. Apply sealer as for first coat. Rub sealer on, in, and off. After second coat dries, repair any small cracks, or glue wood.

For additional coats, apply sealer as for previous coats. Apply several coats to undersides of table leaves and inside of drawers. Allow each coat to dry 24 hours in good drying weather, 36 hours or more if humidity is high. Then rub the surface lightly with 3/0 steel wool. Wipe with a dry cloth.

Continue to apply succeeding coats until no dull spots appear. For an even, satinnike smoothness and a hard finish, apply three to five coats on chairs or legs of a piece. Apply nine to 21 coats on finish on dining and coffee tabletops, depending on degree of smoothness you desire and the intended use. Let final coat dry one week.

WITH THE COUNTY AGENT

DERYL COKER

Wheat harvest is in full swing now and with hard wind each day, there is a great deal of danger of wheat burning or the straw burning after the wheat has been harvested.

Since our organic matter content is low to very low in Farmer County, let's try to save that straw. Burning is the easiest way out for now, but we will regret it some time! We always have a problem in getting our soil to take-up water as fast as it should, and burning the straw will make it worse, but if we work the straw back into the soil, we will maintain or build up the organic content of the soil which will help in keeping the rainfall and irrigation water on our land.

Some farmers last year sprayed a liquid nitrogen on the straw and they say that it helped a great deal in the decomposition of the straw.

V. R. Smith, of the US Fish and Wildlife Service was in the office and plans are being put together to eradicate the prairie dog towns in Farmer County. This treating of the dogs is a free service and if anyone has a prairie dog town please let our office know and we will put your name on the list.

Plans are to start treating the dogs in August and we would like to treat all the towns while he is in the county. Several farmers of the Rhea Community have already signed up and are responsible for getting this program started. Prairie dogs can do a great deal of damage, and ruin our pastures.

Several farmers are sending in applications to secure a permit so they can spray weeds in grain sorghum with 2-4-D. Farmer County has a herbicide law that requires a farmer to obtain permission to use 2-4-D if he is to treat 10 acres or more. These permits are available in our office.

Studies conducted at the Bushland Experiment Station indicate that Wheatland sorghum or a hybrid sorghum with wheatland sorghum as a parent are extremely susceptible to 2-4-D injury. It would be advisable for farmers to know what the parents of his hybrid are, before he sprays with 2-4-D.

If a farmer plans on using 2-4-D each year it would be advisable for him to plant a variety that does not have Wheatland sorghum as one of the parents. However, injury to Wheatland or Wheatland hybrid will be minimized if only one half pound of 2-4-D is applied when the sorghum is at least 10 inches tall. The 2-4-D applications should not be delayed much after this stage, however, because weeds will have already robbed the crop seriously for moisture and nutrients.

In 1959, several sorghum varieties or hybrids were treated with two pounds of 2-4-D ester per acre when the crop was five inches tall or when the sorghum was about 18 inches tall. For comparison, other plots of each variety were left untreated. The most injury occurred when 2-4-D was applied to five-inch sorghum.

In view of the large difference in 1959, a similar study was conducted in 1960 in which more varieties were included. As in 1959, the 2-4-D applied at two pounds per acre was much more injurious at the five-inch stage than at the 18-inch stage.

In another test conducted concurrently to learn more about 2-4-D susceptibility RS 610 was compared to Wheatland. One-half and two pounds per acre of 2-4-D ester were applied to separate plots when each variety was four inches tall, eight inches tall, and 18 inches tall. Yields of RS 610 were not reduced when one-half pound per acre was applied at any of the stages of growth. Two pounds per acre reduced

yields about two-thousand pounds when applied to at the four and eight inch stages. At the same time, Wheatland's yields were reduced two-thousand pounds by only one-half pound of 2-4-D per acre at the four and eight inch stages of growth. When two pounds per acre of the 2-4-D was applied to Wheatland, severe yield reductions occurred at all stages of growth. The yield reductions in both varieties were caused by both decreased numbers and smaller heads of grain.

Cotton "Topping" Test Results In Good Yield, Grade

Cotton growers in the High Plains are continually striving to improve both the quality and yield of their cotton. Tests on one of the methods, mechanical topping of cotton, were conducted by Jim Valliant, Agricultural Engineer, at the High Plains Research Foundation last year.

The two varieties of cotton used in the test represented both open boll and stormproof cottons. On September 14, the cotton was topped with a topping machine. The cotton plant was cut just above the topmost mature bolls, eliminating top foliage, small bolls and square.

The net return per acre for the untopped stormproof was higher (\$168.18) than the topped cotton of the same variety (\$155.15). However, the reverse was true for open boll variety.
