Mrs. E. E. Farley and daughter were in Fort Stockton Tuesday for dental work.

Spotted Rains Hit This Area

Spotted rains fell in this area last week-end, leaving some beneficial moisture to some of the ranches in this section.

Sanderson got about 11-inch of moisture in the week-end which was consistently cloudy with a high humidity feeling in the air.

The Keith Mitchells reported about 1-2 inch on their ranch and rainfall from there south was heavier from all reports we received.

Some ranches north of Dryden reported nearly three inches of slow-falling rainfall and very little run-off.

The rains extended westward to the Pecos County line where less-than-inch rainfall was reported from most ranchmen contacted.

There was no report of rain in the southern and southwestern part of the county Saturday, but there was evidence of some thunder showers between Sanderson and the Rio Grande.

Showers have been seen intermittently in the southwest, approaching from the west and going into Mexico. Some rainfall on the Rio Grande ranches south of here has been evident from the clouds, but no reports are available as to the amount of rainfall.

Monday dawned clear and no traces of thunderheads have been seen since Sunday. Clear skies and cooler nights and days seem to herald the advent of autumn and there is a slight briskness to the evening and early-morning air.

The rainfall for the months of June, July, and August totaled 1.34 inches. There was 35 on July 28, 88-inch in June and 11 last week-end locally.

No information is available at this time on the Gulf Oil Co. No. 1 Prosser on section 45, Block 1. This project is scheduled for a deep test and is about 11 miles due west of the Brown-Bassett No. 1.

The Continental Oil Co. No. 1 Brown-Bassett is reported below.

E. B. Litton Funeral Rites Here Tuesday

Funeral services were held Tuesday morning in the local Church of Christ for Edward B. Litton, 80, who died in a rest home in El Paso Saturday afternoon.

R. B. Wood, minister, officiated at the rites and burial was in Cedar Grove Cemetery beside his late wife who died on August 21, 1944.

Mr. Litton was born in Tennessee on March 2, 1878. He was married to Miss Nancy Keeton in Oneida, Tennessee. They came to Sanderson in 1916 and he was employed as a conductor on the T&NO Railroad until his retirement in 1947.

After his health failed about eight months ago, he entered a rest home in El Paso. His condition took a turn for the worse a week before his death and members of his family were summoned to his bedside.

Mr. Litton had been a member of the Church of Christ for many years.

Survivors include three sons, Gene Litton of Sanderson, Curtis Litton of El Paso, and Kenneth Litton Mobile, Ala.; three daughters, Mrs. H. W. Halsey of Sanderson, Mrs. P. H. Snoddy of El Paso, and Mrs. Lee Black of Los Angeles, Calif.; also 13 grandchildren and 12 great-grandchildren; and a sister, Mrs. Surinda Jeffers of Oneida, Tenn.

All of the children except Mrs. Lee Black were here for the funeral services. Also here were Mrs. Halsey's three children, C. E. Yeates, Mrs. L. B. Gross, and Mrs. Robert Joe Dishman of San Antonio and another granddaughter, Miss Patricia Snoddy of El Paso.

Sheep Shearing In Final Stages In This Area

The shearing of sheep and goats on ranches in this area is in the final stages of completion and will wind up the fall work of the ranchmen.

Almost all of the lambs have been shipped and ranchers' reports are that their weight was up above 75 pounds on the most part but numbers were slight in comparison, due to the decrease in the herds on most all ranches.

The shipment of lambs and the shearing of sheep and goats on the ranches has been going on for many weeks and few ranchers are left who haven't completed this phase of their work.

Reports are that some of the ranchers are again diminishing their foundation herds, but other ranchmen in this area who have received more beneficial rains, are continuing with about the same number of foundation ewes or are contemplating an increase in numbers of livestock.

One ranchman in this county reported selling out all of his stock completely to permit a possible rejuvenation of range conditions on his ranch during the deferment.

Mr. and Mrs. James R. Soraby and son of Austin have moved to the new Savage rent house. He is the teacher of social studies in the 6th and 7th grades and junior coach.

Austin — Labor Day week-end is, by custom, summer's last fling. For millions it's a chance for a little more swimming, fishing or boating before school starts.

But for safety officials, it's a headache. They spend the week-end picking up the pieces, totaling up the score of those for whom this "last fling" was really their last.

Department of Public Safety Statisticians, who base their "guesses" on grim experience predict 29 traffic deaths in Texas over the holiday week-end.

Out to beat the odds is a combination of public agencies and private organizations cooperating in a drive spearheaded by Gov. Price Daniel.

Texas Traffic Safety Council, the Governor's Highway Safety Commission and DPS will be assisted by several statewide civic organizations and trade associations in emphasizing the importance of careful driving.

DPS will have 700 patrolmen on duty with two radar speed units in each highway district.

Texas safety leaders are straining to set a record of 10 per cent fewer traffic deaths this year. Goal, set by the governor, is in sight. Thus far, 1958 fatalities are 14 per cent lower than for the like period of last year.

Ultimate success hinges on being able to "keep the lid on" through the holidays ahead. If it can be done, several hundred Texans, not expected to be, will be alive at the end of the year.

Referees
A credentials committee has been appointed to settle any hassles that may come up as to which delegate shall be seated at the Sept. 9 Democratic convention in San Antonio.

Notice of contests (at least 5 are foreseen) must be submitted to the committee 10 days before the convention. Hearings will be held the day before the convention.

Slipped, But Not Hurt
Despite a 2 per cent dip in Texas business activity, experts read Texas' economic signposts as "generally favorable."

University of Texas Bureau of Business Research labeled the June decline as probably a "random variation."

"On the whole," observed BER staffer Francis B. May, "this recession has manifested itself in Texas primarily as an interruption of the upward progress of the economy, a leveling off, more than a decline." Diversification of the economy has helped, said May, with an improvement in agriculture helping to offset the decline in oil.

Looking ahead, May could see "nothing in the immediate future to augment the recession; consequently, recovery seems the most likely course of events." BBR noted that Texas building is at a level approaching the

"boom" stage with permits for the first six months of the year 2 per cent above the previous January-June record.

High Hopes
Will Wilson went to Washington with his saddlebags full of multi-million-dollar hopes for the school children of Texas.

Atty. Gen. Will Wilson personally delivered the Texas brief in the upcoming U.S. Supreme Court case on the Texas tidelands.

At issue is whether the state or federal government owns submerged lands between the points 3 miles out and 10.5 miles out.

Wilson carried the arguments for Texas ownership in 40-year-old saddlebags that belonged to a heroic Texas Ranger. He declares optimistically that the case is jinxed — in Texas' favor — because the brief is dated Aug. 13 trial is set for Oct. 13, oral arguments will last 13 hours, and 13 people worked on the research.

More seriously he noted that Texas had spent a "big sum of money" marshalling its facts, that a bevy of top-notch legal minds from over the state, nation and two foreign countries had spent some 2,000 hours on the 400-page brief.

"We feel like we have an overwhelming case," he said. "We feel like we will win it."

Exploration indicates that the 7.5 mile band of disputed land is exceptionally rich in oil and gas. If Texas is successful in holding its claim, revenue from these resources would go into the permanent school fund.

Place in the Sun
Texas Republicans have served notice they will demand an even break in getting their candidates in the favored position on the general election ballot.

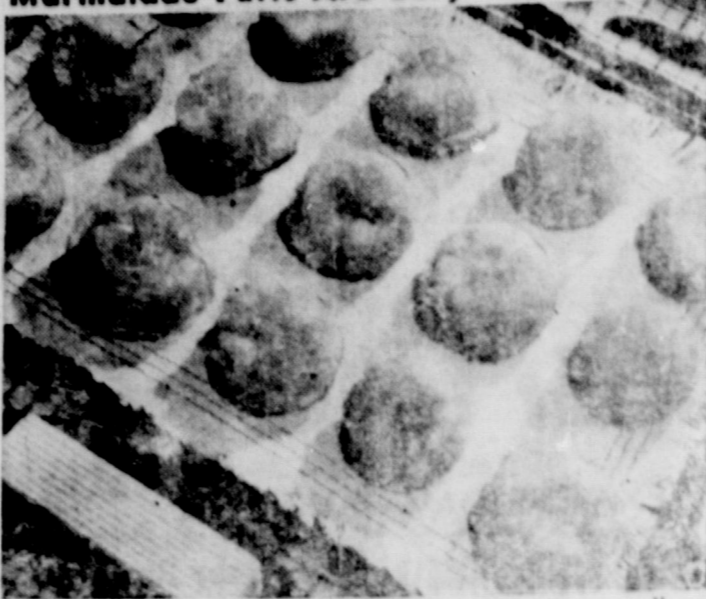

Desired place is the first column on the left. GOP leaders say people automatically begin reading in this column, and some never go on, further.

Republicans hope to work out things on a local level with some sort of coin-tossing arrangement. But they say they'll go to court, if necessary.

Cities Win Out
Cities and utility companies won the first round of a court battle to determine who pays the cost of re-locating utilities for the new interstate highways.

An Austin district court ruled that the cost can be paid from the

Marmalade Puffs Are Easy Sweet Breads

Muffin-sized little sweet breads come from the pan all ready spread with marmalade.

Orange Marmalade Puffs are a sort of glorified bread and jam baked in one.

The foundation of these light little muffin-size breads is a yeast-leavened batter flavored and shortened with marmalade. The other ingredients—non-fat dry milk, eggs and enriched flour—help to make these puffs highly nutritious.

The batter is especially easy to make. The whole thing is mixed in the large bowl of the mixer. The batter even rises in the mixer bowl.

These puffs keep well in the freezer. When they come from the freezer, wrap them loosely in foil and heat them to fresh-

baked goodness in a moderate oven (350° F.) for 20 minutes. A still easier way is to set them on a rack or on crumpled foil in an electric fry-pan. Cover and let them heat at 350° F. while you make coffee and salad or scramble eggs.

ORANGE MARMALADE PUFFS (3 dozen 2 1/2-inch puffs)

- 1 package quick-acting dry yeast
 - 1 cup warm (not hot) water
 - 1/2 cup sugar
 - 1 teaspoon salt
 - 3 1/2 cups sifted flour
 - 3 tablespoons dry milk solids
 - 2 eggs
- Sprinkle yeast over warm (not hot) water in large warm mixing bowl. Let stand 5 minutes. Add sugar, salt, 2 cups flour, dry milk. Mix, then beat until smooth (medium speed on electric mixer). Add eggs, and beat well. Add orange rind and melted and cooled marmalade. Beat well. Beat in remaining 1 1/2 cups flour. (When mixer is used, stir in last half cup flour by hand.) Scrape down sides of bowl. Cover and set in warm place to rise until doubled (about 1 hour). While batter rises, prepare pans. When batter is light, stir down. (For a

federal-state highway funds, as provided in a law passed by the last legislature. State Highway Department is challenging the constitutionality of this law. Ultimate decision will, of course, be made by the Supreme Court. Some estimate the re-location costs could run as high as \$100,000,000.

TEXAS CHAMPIONS OF FREEDOM

Prince Carl of Solms-Braunfels

Guardian of Peace and Independence

In the heart of Texas today a beautiful little city owes its peaceful prosperity to a German prince who gave up a brilliant career to lead his hamlet neighbors to their promised land, "the Free State of Texas."

But in 1872 in the young Republic of Texas there were difficulties. Land grants uncertain, maps inaccurate, transportation difficult, not all land suitable for colonization. Finally, after delays that would have disheartened a less valiant and patient idealist, Prince Carl started with his little band for a tract in the Colorado valley. The journey was never completed.

On the way, these freedom-seeking Germans camped at the Great Comal Spring, on the Comal River, Good Friday, March 21, 1845. Here they stayed.

This was home, waiting for the good life they would make. Prince Carl bought the Comal tract for them, and their settlement... still a stronghold of Germanic industry... was named in honor of his estate in the Fatherland... New Braunfels.

Today Texans still demand and get their right to choose the way they want to live. In this vigorous and freedom-minded homeland, "Beer Belongs" and this is why the United States Brewers Foundation works constantly in conjunction with brewers, wholesalers and retailers to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interests of Texans, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing Self-Regulation program.

Pineapple Lady Finger Pie—Quick and Easy

Lady Finger Crust enhances ambrosial filling. For the pie fanciers in your family, try this new Pineapple Lady Finger Pie. Golden pineapple tidbits folded in whipped cream and a strawberry-flavored gelatin give this pie its ambrosial flavor. The unusual crust consists of lady fingers arranged to form a scalloped edge. Garnished with a wreath of halved strawberries, pineapple tidbits and whipped cream, Pineapple Lady Finger Pie is dramatic in appearance and flavor.

PINEAPPLE LADY FINGER PIE

1 package strawberry-flavored gelatin 1 egg white
1 cup hot water 2 tablespoons sugar
1 (No. 2) can pineapple tidbits 1 cup whipping cream
2 tablespoons lemon juice 2 packages lady fingers

Dissolve gelatin in hot water. Drain syrup from pineapple and add enough cold water to make 1 1/2 cups. Stir into gelatin along with lemon juice. Refrigerate until thick and syrupy but not firm. Meanwhile arrange lady fingers in a 9-inch glass pie plate to form a scalloped edge. Overlap them a little and fill in the bottom to make a solid shell. Beat egg white stiff and gradually beat in sugar. With same beater, whip cream until stiff. Fold drained pineapple tidbits, egg white and cream into thickened gelatin. Save out a few pineapple pieces for the top. Chill again till it will mound and hold shape. Spoon into lady finger shell. Chill several hours, until firm. Whip rest of cream. Sweeten lightly and spoon onto center of pie. Decorate with halved strawberries and rest of the pineapple.
