SANDERSON, TEXAS, FRIDAY, SEPTEMBER 19, 1958

NUMBER 32

## LISTEN TO LUKE

It would appear to me — even if I were unbiased — that the aspects for the taxpayer voting here approving a bond issue to purchase the local water utility is almost a certainty.

The local water board has accomplished two great feats in recent days that would almost seal the deal, we think.

It is a fact that the railroad company has consented to turn over producing wells and storage tanks to the water district for the rate figure of \$1 per month for the whole works. And on top that they are going to pay 25¢ per thousand gallons for the water use. How can you beat that? A good guess is that we have an opportunity to double our present water supply at a price almost as much as my own bill every month!

The price being asked by the company will be investigated and appraised by a firm of engineers and the feasibility of the purchase and paying-back-ability to the water district will be approved by the State Board of Engineers and the bond issue approved.

I think this is a boon to the town and one that should not be passed up.

It was a worry to some — and I am sure — as to what the future might do toward future development. That could cost a lot of money and not be productive either — but that is a worry of the past now!

Another step in favor of the approval of the bond election is the estimated at first to cost in the neighborhood of \$2,500. The fact has been made for this matter for only \$650—a saving of \$1,850.

Things look extremely bright for the acceptance of a bond issue to buy the local water utility.

I would laud and praise the work of those men on the board for their accomplishments of recent days.

More people are coming to Sanderson daily. It's hard for us to keep up with the newcomers. They get to meet them. Another corporation crew moved in the middle of the week. The drilling for the proposed Gulf well in town is looking for a good live, too.

There is more traffic up and down the main street than we have seen here. There are more cars in the stores and on the streets than we ever imagined.

Things continue to fall in this way and continue to give hope for excellent range conditions for the outlook for ranching in this area.

Some of the county is getting a soaking and if conditions range are anything like in the past, there are weeds breaking through to supply stomachs of livestock.

The ranchmen who have not had a sprinkle in a long time are glad to see the clouds.

Continued to Page 4

## Rig Moves In For Gulf Hole North of Town

The rig was moved in Wednesday for the Gulf Oil Co. wildcat on the McCue ranch north of town about five miles.

The location will be on section 9 in Block R2 GC&SF RR Survey.

Falcon and Seaboard of Midland have been contracted to drill the hole with rotary rig.

Operator has finished road to proposed well site which is about two miles east of U.S. 285 at Three-Mile Draw.

Rig builders are expected to begin immediately on tower construction.

### Thumper Crew Moves Here

A new exploration crew moved into Sanderson last week-end, the Geophysical Intergrators, and they have established offices in the living quarters at 120 E. Oak St. owned by W. A. Moore of Fort Stockton.

Charles Tabor heads the crew of 15 men which came here from Ozona, working for the Ohio Gas Co. The crew operates a thumper.

Members of the crew are: Chief Charles Tabor, M. L. Shavlik, J. B. Phillips, R. J. Everett, Jr., Billy McPhail, Billy Sparkman, Charles Staruska, Albert Staruska, Joe Cerda, H. L. Turnbull, Hubert Hight, Tom Yowell, Bob Lacombe, Hugh Russell.

### Walter Thorns To Move

Mr. and Mrs. Walter Thorn and Petrita are planning to move to Telegraph, near Junction, and will operate a general merchandise store and postoffice, also a fishing resort.

Petrita has enrolled in the Junction High School where she is a senior.

## Eagles To Play Here Friday Night Against Rankin Red Devils

The Sanderson Eagles will play their first home game of the season here Friday night against the Rankin Red Devils. Rankin is a class B school.

The Eagles have one win and one loss to their credit and are hoping to add another win with their coming fray.

Coaches Carlton Smith and Gerald Petersen stated that the team is in top physical condition for Friday night, barring late injuries, and should be able to field a good competitive team for their first home game.

### JP Court Cases

Cases heard in Justice of Peace Court since last week are:

Two men pleaded guilty to charges of hunting at night and the mandatory minimum fine of \$25 was assessed. The charges were filed by Game Department officers.

One man pleaded guilty to fishing without a license and was assessed the mandatory minimum fine of \$10. Charges were filed by Game Department officers.

Two men were fined for not having a Railroad Commission cab card in their truck. The mandatory minimum fine of \$25 was assessed after a plea of guilty to charges filed by Highway Patrolman.

One man was assessed the mandatory minimum fine of \$1 after a plea of guilty to charges of driving without headlights. The charges were filed by a local officer.

### Bob Wilkinson Discharged

Bob Wilkinson has received his discharge from the U.S. Army at Fort Hood and will attend Texas A&M College for his senior year.

He returned home last month after a tour of duty in Korea.

# Rains Here Break Record For Sept. With 4.87 Inches

Rainfall continues in this area, causing the best September on record locally, according to W. E. Grigsby, who has been keeping the records since 1941. The best September rainfall previously was 4.19 inches in 1944.

Rainfall to date this month has totaled 4.87 inches.

The rainfall this month here has been as follows: September 6, .03; 7, 3.05; 8, .76; 11, .11; 14, .16; 17, .76.

## Eagles Lose In Van Horn Mud

The Sanderson Eagles lost the second game of the season to the Van Horn Eagles on a muddy field in that city last Friday night. The score was 20-6.

Sanderson made their only TD in the second quarter. It was a 14-yard run by David Graham.

Van Horn scored in the first, second and third periods.

A large crowd of Sanderson fans was on hand for the game and they stated that the mud hampered the Eagle play considerably, but that Van Horn had a well-balanced and coordinated team.

The band and pep squad was on the 190-mile jaunt also.

### Marine S-Sgt. Jimmie Harris At Camp Lejeune, N.C.

Marine S-Sgt. James R. Harris, son of Mr. and Mrs. P. G. Harris is serving with the 2nd Service Battalion, 2nd Marine Division, based at Camp Lejeune in North Carolina.

Members of the battalion keep abreast of the latest advances in military tactics and techniques while taking part in drills, weapons firing and classes on general military subjects.

### Mrs. N. H. Brown Is Employed As A Technician For Dr. Gene Richardson

Mrs. N. H. Brown is employed as a technician for Dr. Gene Richardson. Her husband is with the Magnolia Seismic Co.

Scattered showers, mists and downpours have been falling intermittently over the county have been varying widely, but have been county-wide.

Monday morning Dryden reported a 3-inch rainfall, with the area south of the railroad getting rain near that quantity. Only light showers were reported in some areas, and the eastern part

## \$685.81 Contributed To Local Clinic

The total collected for the Terrell County Medical Clinic and Hospital in Tuesday's drive was \$685.81, according to Mrs. Ben Causey and Mrs. H. A. Smith, co-chairmen for the drive.

This amount is still short of the total which it was hoped might be raised and donated to the county for the purchase of equipment for the clinic, according to those backing the drive. They stated they would like to purchase an infant incubator, an electrocardiogram, and delivery room equipment to be placed in the hospital for the use of those here who might need such facilities.

The chairmen of the drive stated that they hoped that at least \$1,000 could be raised on this project. The block captains have not all finished with their solicitations, it was noted, because of the rainy weather, and the complete returns of the campaign should be known within the next few days.

Individuals or organizations desiring to make contributions may make their donations to the following: Mrs. Ben Causey, Carlos Dunn, and Sanderson State Bank it was pointed out.

The contributions have come from the following sources:

Organizational contributions amounting to \$125.00 have come from O.E.S., \$50; Latin-American Methodist Church, \$30.00; B. of R.T. Auxiliary, \$25.00; Gandy's Creamery, \$20.00.

Individuals through block captains under chairmanship of Mrs. Causey, \$257.16

Individuals through block captains under chairmanship of Matias Gutierrez and Simon Lopez, \$298.65

Dryden, not complete, \$5.00

The Orchid and Best Cafes and Jimmie's Steak House contributed their coffee sales to the project.

Miscellaneous contributions have been, linens (\$45.00) and linens and miscellaneous supplies by individuals, \$100.00.

The committee asked The Times to express their thanks to all individuals and organizations who have contributed so generously with their time and financial support to the drive.

They ask that we again emphasize that all contributions remain the property of the clinic and thus the property of the people.

Methodists Planning Revival

The First Methodist Church is formulating plans for a five-day period of special services to begin on Sunday, September 29, and close on Thursday, October 2.

Rev. H. L. "Happy" Graves of Eunice, N.M., will preach during the special services.

Charlie Cash, who had been visiting in Dryden with his brother, Lewis Cash, and family, accompanied his wife to their home in San Antonio Saturday. Mrs. Cash and daughter, Charlene, had been visiting with her mother, Mrs. Elma Riley, and her brother-in-law and sister, Mr. and Mrs. Alfred Bendele, and Charlene remained for a longer visit.

Week-end guests in the home of Mr. and Mrs. Bob Turner were Mrs. and Mrs. Gordon Finklea and children, Trisa, Ray, and Dale, of El Paso.

The draws and canyons have had some run-off following heavy downpours with some damage to the water gaps on most ranches.

Wednesday morning dawned cloudy with a chilly tang to the

## Confirm 60-Million Cu. Ft. Gas At Richardson & Bass Well

The Brown-Bassett (Silurian and Ellenburger) field of Terrell County gained its second Ellenburger gas producer with the completion of the Richardson & Bass No. 1 Goode Estate. The well is located on section 6, in Block R.

The well gauged a calculated absolute open flow of 60,000,000 cubic feet daily from Ellenburger open hole section between 13,578-14,803 feet which had been acidized with 10,000 gallons.

Silurian production was assured earlier through perforations between 12,546-572 feet.

The location is 660 feet from the south and west lines of section 6.

The Silurian field opener, Magnolia and Western Natural Gas No. 1 Brown-Bassett, flowed 108-million cubic feet per day from a 1,000-foot Ellenburger zone, but was not completed from that pay due to mechanical difficulties.

First Ellenburger producer was Magnolia-Western No. 2 Brown-Bassett 1 5-8 miles south-east of their No. 1 well finished August 19 for calculated open flow of 68,500,000 cubic feet of dry gas per day. Production was from open hole between 14,000-700 feet.

The Richardson & Bass hole is two miles northwest of the No. 1 Brown-Bassett.

## Drilling News --

First reports received since last week on drilling within the county were:

Conoco No. 1 Brown-Bassett was drilling below 4,973 feet at their location in section 227 in Block Y.

Great Western, Blue Danube and Ben Harwit No. 1 Chapman ranch was still building roads.

Magnolia-Western Natural Gas No. 1 Bassett-Goode was at 2,506 feet in lime and shale. Location is section 228, Block Y.

Magnolia Banner Estate No. 2 had recovered bit and was preparing to drill ahead after fishing for about one month.

Gulf proposal on the McCue ranch north of Sanderson is in process of drilling four water wells.

Texas-Pacific No. 1-A Dunlap was reported at 10,650. Location is on the George W. Hudson survey north of Independence Creek in the eastern part of the county.

Everyone can benefit from polio vaccine inoculations, since the disease strikes all ages. However, the present goal is to vaccinate the most susceptible groups — from infants to age 40. Especially lax in receiving their shots are children under 5 and adults over 20.

The vaccine protects only those who have had the inoculations. The immunity of your friends and neighbors cannot protect you. Although the vaccine prevents paralytic polio from occurring, it does not eliminate the polio-viruses that cause the disease. The viruses can remain in circulation in the population, and are passed from person to person by carriers.

You are not adequately protected unless you have all three shots properly spaced. The second shot is given two to six weeks after the first; the third, seven to 12 months after the second. It is important that we have that third shot!

No vaccine ever has been 100 percent effective, however, the Salk vaccine has proven 80 to 90 percent effective. That is reason enough to get your shots now.

The vaccine is in plentiful supply and inexpensive, so the decision is up to the individual. No one is safe without the protection of the Salk polio vaccine.

air heralding the possibility of typical fall weather.

N. W. Carroll reported that 7½ inches of rain had fallen on the Stumberg river ranch in the past nine days.

The ranch is south of Sanderson.

## Everyone Benefits From Polio Shots

Before the advent of the Salk vaccine, Texans prayed for a release from the ravages of paralytic polio for themselves and for their children.

The picture has changed a lot since then, reports the Texas State Department of Health. With the announcement that Dr. Jonas Salk had developed an effective vaccine for the prevention of polio, parents swarmed to their doctors and clinics to have their children protected.

Since then the incidence of paralytic polio has fallen many-fold and an apathetic state of mind has fallen on many Texans concerning the need for protecting themselves.

Many students have received their shots, resulting in a favorable vaccination picture among school age children. As a result this year and last year has seen the pre-school age children with the highest attack rate of paralytic polio.

Who should be vaccinated? Everyone can benefit from polio vaccine inoculations, since the disease strikes all ages. However, the present goal is to vaccinate the most susceptible groups — from infants to age 40. Especially lax in receiving their shots are children under 5 and adults over 20.

The vaccine protects only those who have had the inoculations. The immunity of your friends and neighbors cannot protect you. Although the vaccine prevents paralytic polio from occurring, it does not eliminate the polio-viruses that cause the disease. The viruses can remain in circulation in the population, and are passed from person to person by carriers.

You are not adequately protected unless you have all three shots properly spaced. The second shot is given two to six weeks after the first; the third, seven to 12 months after the second. It is important that we have that third shot!

No vaccine ever has been 100 percent effective, however, the Salk vaccine has proven 80 to 90 percent effective. That is reason enough to get your shots now.

The vaccine is in plentiful supply and inexpensive, so the decision is up to the individual. No one is safe without the protection of the Salk polio vaccine.

Dr. K. T. Melugin was at the Prude Ranch near Fort Davis on Monday and Tuesday for a meeting of the Methodist ministers of the Central District.

# Water Board Contracts RR Wells At \$10 per mo. and Maintenance

Greene Cooke, president of the board of the Terrell County Water Improvement District No. 1, announced last week-end the acquisition of the nine wells belonging to the T&N Railroad on a lease basis.

The lease will be \$10 per month for all of the wells with the water board to be responsible for all upkeep, maintenance and repair.

It was also revealed that the contract stipulated that the railroad would pay 25¢ per 1000 gallons for water they used. Meters will be installed at the stock pens and near the local yards to meter the water used by the company.

The board has also contracted with Freese and Nichols, an engineering firm of Fort Worth, to make the survey, appraisal and report on the condition and worth of the present utility prior to negotiating a sale by the Community Public Service Co.

## Youth Held On Assault with Intent Charges Here

Examining trial was held for Amaury Pena Thursday morning who was charged with assault with intent to murder following an altercation Wednesday night. Bond was set at \$500 in Justice of Peace J. A. Glibbreath's court.

Arturo Marquez received a bullet wound in the leg as a result of the altercation, according to Sheriff Lee Hillings.

information and work necessary for presenting the issue for approval by the taxing voters and by the State Board of Water Engineers, Cooke stated, and any future developments, or improvements will be on an open basis with power and consent to bargain by the board. They are not obligated to any engineering firm for anything other than the presently contracted work.

All of the board members expressed the opinion that the possibilities of acceptance of an indebtedness by the taxing voters was greatly increased by the two recent developments, with special emphasis based on the acquisition of the railroad water wells at such a cheap price and the possibility of selling them water on a metered basis which would undoubtedly be more than the price charged for the wells.

### Coming Events

Saturday, Sept. 20 — Garden Club.

Monday — Altar Society, Presbyterian Women, Methodist W.S.C.S., Baptist W.M.U.

Tuesday — Tuesday Club.

Wednesday — 51 Club, Rotary Club, Bonhomie Club.

Thursday — Lions Club.

Ray Elder of Odessa has joined his brother-in-law and sister, Mr. and Mrs. C. B. Odell, here and is employed in Mr. Odell's barbershop.

The water district will not assume operation of the water wells owned by the railroad until such time as the district approves the purchase of the local utility, Mr. Cooke added.

Preliminary estimates on the fees of the engineers, Mr. Cooke stated, ran close to \$2,500. The fee asked by the contracted firm in the amount of only \$650 represents a considerable saving to the taxpayers of the district, he said. The fee is solely for the

Austin—Texas Democrats now look toward 1960, the year some think they might nominate the next U.S. President.

And added to the party's tumultuous history is the 1958 Democratic convention. It was billed as a "harmony" meet, but more resembled a family reunion to fight over grandpa's will.

Gov. Price Daniel's liberal foes are hotter under their collars than ever, but despite their noisy opposition, the governor "ruled the roost" in San Antonio. And, with an executive committee acceptable to him and a platform reflecting his views, he holds the reins of party leadership for two more years.

U.S. Senator Lyndon B. Johnson and Speaker Sam Rayburn also were honored by the conventioners. Johnson was urged to become a presidential candidate.

Test in the struggle between Daniel's supporters and the liberal DOT faction championed by U. S. Sen. Ralph Yarborough came over the selection of a presiding officer. Con. Frank Ikard of Wichita Falls, with the support of Sen. Johnson, Speaker Rayburn, and a comfortable majority of delegates, snowed under Corsicana Judge Jim Sewell.

But the real grudge being nursed by the Yarborough faction was over the bouncing of two executive committee nominees selected by the delegates from their districts. They were replaced, on the recommendation of the nominations committee and vote of the convention, by people regarded as more friendly to the governor.

Liberals, who haven't been in with a Texas governor for years, have fought bitterly against the traditional veto over the make-up of the executive committee. They feel the committee members should be like a legislature, reflecting the varying views of the sections which elect them.

Having lost out on this, as in 1956, they howled protests and finally stomped out, as before, promising revenge.

Leaders — Jim Lindsey of Texarkana will serve a second term as chairman of the Democratic executive committee. So will Mrs. R. Max Brooks of Austin as vice-chairman.

J. Ed Connolly of Abilene succeeds Jake Jacobson, the governor's administrative assistant, as secretary.

Forty of the 62-member committee are newly elected.

Principals — States rights and cooperation within the official party framework were stressed in the Democratic convention resolutions.

Delegates resolved against: (1) Unauthorized use of the name Democrats of Texas, by the DOT; (2) "overstepping of power" by U.S. Supreme Court; (3) use of military troops to enforce school desegregation; (4) state income or sales taxes; (5) excessive foreign imports and (6) federal aid to schools.

They favored (1) the enactment of laws to prevent members of one political party from voting in the primary of another and (2) Governor Daniel's platform for the next two years.

Republicans Agree — Delegates to the GOP convention had little difficulty uniting on a "Down with the Democrats" platform.

Conservative Democrats, they declared, must join with the Republicans to keep the country from going completely socialist.

With apparent nervousness, the Republicans adopted a "kid gloves" resolution on the school segregation. They recommended the "solution in Texas be left to the people, the school boards and courts within this state."

Another resolution swatted at Democratic office holders who

failed to support states rights legislation in the last session of Congress.

Republicans also affirmed their approval of Sec'y of Agriculture Ezra Benson and their disapproval of federally financed hydroelectric dams.

Same Pay, Different Way — Beginning this month, members of the State Board of Insurance are to be paid \$50 per working day rather than a straight \$15,000 a year.

This was Attorney General Will Wilson's ruling on a subject that was — and still is — a cause of strong feeling among legislators.

When the Insurance Department reorganization bill was being considered last session, the House members strongly favored a full-time Board. Senate was just as set on a part-time Board.

Final compromise was a measure which said the Board should be full time for the first year with each member receiving \$15,000. Beginning in September 1958 it was to become part-time with each member receiving \$50 per day. Up to 300 working days a year (worth \$15,000) was authorized.

Actually, to work 300 days out

of 365 the Board would have to work Saturdays and holidays — or give up vacations.

And an influential senator has openly implied there may be trouble if the Board doesn't comply with "legislative intent" that it serve part-time. Board members object strongly, say the work involved is at least a full-time job.

Serum Shipments Defended — A ban on airmail shipment of serums, vaccines and diagnostic specimens could be "disastrous," says State Health Commissioner Henry A. Holte.

A proposed amendment to postal regulations would allow airlines to refuse to carry such items. Dr. Holte said he felt danger to handling personnel was small compared to the crippling effect such a regulation would have on the machinery for combating disease outbreaks. "Numerous cases could be cited," he said "where rapid transit was essential for diagnosis and identification."

"Speakers" Still Pat — So tense and tight is the race for Speaker of the House that the possibility of winning with

**Getting 'Big Tex' Ready For Big Welcome**

"Big Tex," the towering 52-foot cowboy statue who symbolizes the great State Fair of Texas, is being put together in readiness to welcome some two-and-a-half million visitors to the 1958 exposition, October 4 through 19, in Dallas. It takes a crew of workmen with a 100-foot derrick to put the big boy's head on his shoulders.

Mr. and Mrs. Truett Hilliard

Hilliard-Garcia Rites Read in New Mexico On September 1

The chapel of the First Methodist Church in Portales, N.M., was the setting Monday, September 1, for the wedding of Miss Elodia Garcia, daughter of Mike Garcia of Sanderson, and Truett Lynn Hilliard, son of Mr. and Mrs. Truett Hilliard of Portales. Rev. Olaf Hoggard performed the single ring ceremony at 2:30 in the afternoon. A white satin kneeling bench was at the altar, and on either side were seven-branched candelabra with white tapers and twined with greenery. Baskets of pink gladioli completed the decorations. Miss Sotella Garcia of San Antonio, sister of the bride, lighted the candles. She wore a mint green two-piece dress. Miss Roberta Sumner of Alarogordo was maid of honor. She wore a sheath of pink nylon lace over taffeta, with a lace

duster, and carried a nosegay of pink carnations with pink streamers.

The best man was Dick Keene of Portales.

The bride was dressed in a ballerina length gown of Chantilly lace and nylon net. The fitted bodice had long sleeves and wide, rounded neckline. The full skirt of net was overlaid with panels of the lace. She wore no jewelry and her waist-length veil of tulle was secured to a halo of seed pearls. Her bouquet was of white roses with a cascade of satin streamers.

Mrs. Hoggard was at the piano and played appropriate wedding music and accompanied John Daugherty as he sang "O Promise Me" and, at the end of the ceremony, "The Lord's Prayer".

The bride's father was unable to attend the ceremony. Her aunt, Mrs. Pres Escamilla of Sanderson, stood in place of her mother. She wore a light blue dress with accessories. The mother of the bridegroom wore a pink street-length dress with black accessories and a white carnation corsage.

There was no reception, but the wedding party and guests, consisting only of family members and a few close friends, went to the home of the bridegroom's parents after the ceremony to greet the couple informally.

For their wedding trip to the northern part of the state, the bride changed to a 2-piece fall

Methodist W.S.C.S. To Meet Monday Afternoon

The Methodist W.S.C.S. will meet Monday afternoon in Fellowship Hall at 3 o'clock. A nursery will be provided for small children. Mrs. Lewis Hill and Mrs. K. T. Melugin will serve as hostesses.

Garden Club To Meet Saturday

The Sanderson Garden Club will meet Saturday afternoon at 2 o'clock in the home of Mrs. S. L. Stumberg.

Bob Wallace of Hext visited here Sunday with Mr. and Mrs. E. R. Seary. Mr. Wallace, who is a cousin of Mr. Seary, was en route to Sul Ross College.

suit of beige and brown with brown accessories. They will live near the campus of Eastern New Mexico University where both are students. Mr. Hilliard, who received honors in history at his graduation last spring, is working on his master's degree, and Mrs. Hilliard will receive her bachelor's degree, with a major in English, at mid-term.

Among out-of-town guests at the wedding were Sotella Garcia, sister of the bride from San Antonio, Mrs. Pres Escamilla, Mr. and Mrs. Cruz Marquez, aunt and uncle of the bride, and Arturo Arredondo, her cousin, all of Sanderson.

Wednesday Club Meets In Home Of Mrs. J. T. Williams

The Wednesday Bridge Club was entertained in the home of Mrs. J. T. Williams this week. Arrangements of roses decorated the living room.

In the card games which followed the luncheon served at 1 o'clock, Mrs. W. R. Stumberg held high score with Mrs. Jack Riggs holding the slam prize and second high.

Also present were Meses. Webb Townsend, Bustin Canon, F. M. Wood, John Reininger, Herbert Brown, R. S. Wilkinson, W. W. Sudduth, S. L. Stumberg, S. H. Underwood, and James Kerr.

Baptist W.M.U. Has Bible Study

The Baptist W.M.U. met Monday afternoon in the church for Bible study led by Mrs. A. D. Brown. The lesson was on "David's Penitential Prayer" taken from Psalms 51.

The meeting opened with the singing of the hymn, "Love Divine" and prayer by Mrs. L. H. Lemons.

Those present were Meses. T. O. Moore, W. C. Pearce, Lemons, Brown, O. D. Gray, H. G. Cate, R. T. Key, Jr., Doyle Strange and M. A. Bunn.

ON DISPLAY TOMORROW, BUICK '59

THE CAR

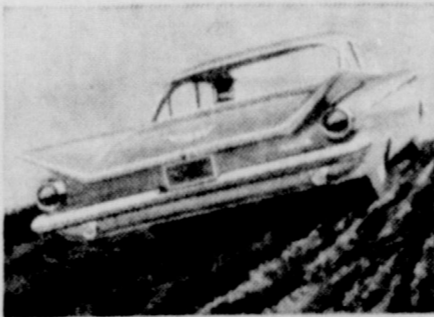

ELECTRA '59 IN THE EYE-STOPPING NEW 4-DOOR HARDTOP

Here it is . . . and now you know! Know why we have called this THE CAR. Know that a new generation of great Buicks is truly now here. From just this one view you can see that here is not just new design . . . but splendidly right design for this day and age. A car that is lean and clean and stunningly low . . . and at the same time great in headroom and legroom, easy to get into or out of. And when you see your Buick dealer and walk the whole wonderful

way around this Buick, you'll know still more how right all this is. From anywhere you look, here is a classic modern concept that is Buick speaking a new language of today. A language of fine cars priced within the reach of almost anyone. A language of quality and comfort and quiet pride of ownership. And when you see your quality Buick dealer and get behind the wheel, the car will speak to you in a language of performance satisfactions without equal.

THE LOOK. A clean, lean, new kind of fine-car look. The look of the best-engineered, best-manufactured Buick ever built . . . and the most excitingly beautiful design in Buick's nearly 60 proud years.

THE ACTION. Get the feel of thrifty new Wildcat engines. New Equipoise ride. New fin-cooled rear brakes and aluminum front brakes. New Twin-turbine and Triple-turbine transmissions.\*

THE QUALITY. Buick quality to the core, new super-quiet bodies by Fisher. New Magic-Mirror finish retains its beauty longer. New interior decor throughout. Safety-Plate Glass everywhere. Magnificent new quietness, new comfort, the feel of fine-car quality everywhere! Yours to test, yours to savor—the magnificent new Buick for 1959.

\*Optional at extra cost on certain models.

### Listen to Luke

Continued from Page 1

the past 11 years cannot deny the fact that they have gotten a "rain" now.

We cannot recall a time here when there was a more optimistic outlook by local people.

Working people, business men and ranchmen alike, seem to be in very good spirits over the outlook of things in general.

Have you done much thinking about the constitutional amendments that are coming up for approval in November at the general election.

If you haven't you should. The amendments could affect things about which most of us are concerned and should be concerned.

Talk with others about them, read about them yourselves and then be sure and go out and vote the way you think best at the time for voting.

Being an off-year for election as concerns national politics — should not dampen the eagerness of voters to still put their stamp of approval or disapproval on the issues and candidates to be decided.

There is no reason for apathy on the part of voters except indolence.

### 'Imitation General' Coming Next Week

Suspenseful but replete with typical GI humor, "Imitation General" tells the story of a sergeant who doesn't know he's a hero but takes a vital gamble when he impersonates a general during a crucial episode of the Battle of the Bulge in World War II.

The sergeant is played by Glenn Ford who has been a star in recent movies. In co-starring roles are Red Buttons in his first film since his Academy Award winning role in "Sayonara", and Taina Elg, who became a star after "Les Girls".

The movie is coming to the Princess Theatre next Wednesday and Thursday.

Master Sergeant Murphy Savage makes his decision to impersonate a general because he is convinced that the sudden death of the general, if it becomes known, will make the difference between victory and defeat when groups of U.S. soldiers, separated from their divisions and aimlessly roaming the French countryside are caught in a German pocket.

With ingenuity and ability to laugh himself out of danger, Murphy, aided by his side-kick, Corp. Chan Derby, Red Buttons fools his comrades into believing him to be the general and turns

what might have been chaos into a valiant stand when he knocks out an enemy artillery spotter's post and subsequently engineers a tank battle in which the Germans are abused.

The story has many surprises and points of humor and will be an enjoyable film for all of the family. Carlton White, manager of the theatre stated.

### TB Elimination Humanly Possible, Doctors Assert

Remember the old verse about the purple cow? It ended "I'd rather see that be one."

But now a veterinarian comes up with a different point of view. As far as tuberculosis is concerned, he says, it's much better to be born a calf than a baby in America today. This is the way D. Paul S. Dodd sums up the comparative progress in eliminating bovine and human tuberculosis.

Years ago TB was the most serious animal disease the American farmer had to deal with. In 1918 a cooperative campaign for the eradication of bovine TB was begun. The plan was to give all cattle the tuberculin test, the skin test that shows tuberculous infection, even though active disease may not be present. All cattle found to have positive reactions were to be slaughtered. You may never have been a farmer, but you can imagine how difficult it must have been to face the destruction of valuable animals for the general good.

By 1936 more than 176,000,000 cattle had been tested and more than 3,000,000 had been slaughtered. By 1956 only one and a half per cent or 14,000 of the cattle tested had positive reactions to the test.

But in the same year 14,000 human beings died of tuberculosis and there were about 800,000 active and inactive cases of the disease.

The tuberculin test is just as easily available to people as to cattle. With the evidence of a positive reaction, it's often possible for health workers to find the source of the infection — the active case of TB that is spreading germs. And, of course, extra care can be taken to protect the health of the reactor to prevent the development of active disease.

Perhaps we could do as much for our own safety as for our animals.

**TELEPHONE TALK**  
by Randy Cooper, Manager

This month, Miss Olga McCord, chief operator for Sanderson, will receive an award for 13 years perfect attendance. Miss McCord is representative of most telephone people. Her attendance record is a result of her taking her job seriously. She, like most other people I know, realizes the importance of telephone service, so she has done her best in these past 13 years to be on the job when she was needed. I guess it can best be summed up in this statement — "At the telephone company, our job is to work together, to bring people together by telephone." With people like Olga on the job, I don't see how we can miss.

**Holiday Helper**  
Weekend hunting trips, out of town football games, and pleasant drives to nearby cities are just around the corner.

If weekend excursions are on your calendar, why not let long distance give you a hand with the arrangements.

A long distance call is the easiest way I know to arrange overnight accommodations, plan visits with friends, check on travel reservations, save time and trouble on the dozens of details that go into planning a trip.

And when you've reached your destination, a quick call helps to make sure everything's all right. It's worth a lot to your peace of mind. You can relax and enjoy your weekend even more.

**Take Autumn Indoors**  
The cool days and brilliant colors of Autumn seem to give folks extra energy for finishing up projects like redecorating and repainting around the house.

And your family's telephones shouldn't be overlooked when you bring that touch of Fall indoors. Add color phones just as you would new slip covers or curtains for perfect harmony in a favorite setting.

Cherry red, rose, rose pink, and pastel yellow are ideal Summer colors that will add a note of warmth and cheer to winter. Phones in moss green, light beige and aqua blue complete color schemes with a touch of softness.

Our gleaming white phones are just the thing to fill a woman's demand for efficiency and clean style in the kitchen, and light gray are distinctive colors for the elegant touch.

Call the telephone business office today and choose your new wall models.

Call by number. It's twice as fast.
