LISTEN TO LUKE

Getting the Little League baseball season under way is now the order of the day.

At a registration meeting for the boys who wished to enter the league there were about 60 boys who registered, but the lack of interest on the parents continues to be a problem.

There will be a meeting again Friday night at which parents and other adults interested are expected. This column has consistently expressed the opinion that the great need in that endeavor for the parents to show enough interest to encourage the adult leaders with the boys.

The Chamber of Commerce, Lions and Rotary Clubs have agreed to have such a program with a paid leader, and last year there were some parents who kept a baseball program going for many years, but there has never been a really successful summer program.

We wonder if it's because we are the adults of the county — are going to dictate the recreational habits of the boys. Or is it because of a lack of interest on the part of adults?

There are those who think the Little League is a splendid move to keep the kids out of mischief, but they feel that it doesn't need their support. There are those who feel that the town owes it to the kids and to the parents to see that the program has all the necessary financial backing needed for the equipment, etc.

There are those that feel that the boys and the parents should provide the what-with for the program.

We don't know the right answer to the problem, but personally, I don't think the program should be completely subsidized and operated by civic clubs. But I doubt that anyone thinks it should, either.

It is difficult to sell the public on a proposition which has not been sold to the parents of the boys.

There are no bell-ringing, horn blowing crusades for entertainment for the girls, yet, and they might like a summer recreation program, too.

There has been a recent lull to some activities in and around Sanderson of late. We don't really know the cause or extent of it, but we have noticed it, just the same.

We hope that there is nothing permanent in this lack of action. Building, remodeling and landscaping is going on in several instances and this lull is a good time to get some of those things done. It is also a good time for us to get some yard work done which we could only convince the boys that this is the time.

We have a story set that we have been keeping back for four weeks now, informing the readers of far away places that spring weather has hit in this country. Just about the time that we think we are going to get to use another norther comes up and it goes again.

It will be interesting to all of us when we do publish it, because we have forgotten what it says and will be informed and enlightened, too.

There has been little talk, to us, least, about the school board election coming up in a couple weeks. There is bound to be a lot of polticking going on, but it can't seem to get a cupacofy out of it.

We don't think this is any way to run a political campaign — no office, no talk, no nothing except winning.

After Pres. Ike's speech Monday night, we can't see how any American could be ashamed to recognize him as their president. Ike seems to be able to talk a lot.

Interested Adults To Make Plans For Little League Ball

A meeting will be held Friday night in the high school library for all parents and other citizens of the community who are interested in Little League baseball for the young boys of the community.

L. W. Welch, who ramrodded the baseball program here last summer, called a meeting of the boys and interested parents last Thursday evening to begin formulating plans for the baseball program this summer. The necessity of having a meeting of interested adults was shown and an organization with a board of directors, standing committees, is expected to result from the meeting Friday night.

Any adult who is interested in helping with the Little League in any way, whether they have boys playing in the Little League or not, is requested to attend the meeting which begins at 7 p.m. At a meeting last Thursday night there were 58 eligible players present for registration. More are expected to sign up for play at the meeting Friday night.

Wayne Ewing Is Charged With Theft of Sheep

Wayne Ewing, who ranches in the northern part of the county, was charged with the theft of sheep on a complaint signed by John Carruthers, Jr., this week.

Ewing was arrested on his ranch Monday afternoon and waived examining trial Tuesday morning.

Justice of Peace J. A. Gilbreath set bond at \$750.00 to bind the defendant over for action of the grand jury.

The charges and complaint grew out of the discovery and recovery of 22 head of sheep from the Ewing ranch which borders the Carruthers ranch.

County and state officers were called into the case by Carruthers Monday afternoon preceding the arrest and recovery of the livestock.

Hula-Hoop Contest Staged by F.H.A.

A large crowd attended the hula-hoop contest sponsored by the Future Homemakers of the Sanderson High School Monday evening.

The contest was in the high school gym. The large group of contestants was divided into groups, according to the grades they are in at school, and narrowed down to a smaller group of contestants for the final winners of cash prizes. The last group of contenders had ample time and room to show all of the ability they possessed in twirling the hula-hoop and created difficult problems for the judges.

Prizes were awarded to Ida Castillas, Terry Kessler and Jody Kay Tronson. A small cash prize was given to each of the five contestants from the pre-school group.

Several teachers and school patrons performed with the hoops while the judges were making their decisions.

Miss Ella Mae Stafford, home-making teacher, is sponsor of the F.H.A. organization. The girls sold candy, pop corn and cold drinks during the show and the contest netted a good profit for the treasury of their organization.

Growers Need Complete Record Of Wool Sales

Chairman Roy Deaton of the Terrell County Agricultural Stabilization and Conservation office reminds wool producers to be sure that sales documents they have received for selling wool during the past year are filed at the ASC office, located upstairs in the court house.

It is particularly important Mr. Deaton says, that the sales documents show the true net sales proceeds including deductions made for freight and other marketing charges. The county ASC office where the program is administered has the authority to adjust sales proceeds when charges are not shown. Where false information is filed, both the producer and the wool buyer are subject to penalties.

Producers are eligible for payments to be made this year under the 1958 program for wool and unshorn lambs marketed not later than March 31 this year. This cut-off date is necessary to permit a final accurate calculation of the average price received by ranchers for wool during the 1958 marketing year. When the average price received for shorn wool is known sometime this summer, the payment rate will be announced and payments will be made to growers.

Wool marketed after March 31, 1959, will be eligible for payment under the 1959 program.

Officers and committee chairmen will report on the activities since the annual convention. The ranch labor question is expected to receive lots of attention, according to Sears, and a complete report will be made of legislative activities in Austin where Association representatives have spent much time on a series of bills affecting animal health.

Self-Employed Reminded Of SS With Income

Self-employed persons are reminded by H. P. Thomas, district manager of the Odessa social security office, to report their earnings for social security purposes with their income tax returns. Generally, these reports must be filed with Internal Revenue Service by April 15, 1959.

Any person engaged in a trade, business, or profession covered by social security who has \$400 or more net profit from his business must report this income for social security purposes. Also he must pay the 1958 social security self-employment tax on his net earnings up to \$4,200 for 1958. The tax rate for self-employed persons on 1958 earnings is 3.3-8 per cent.

Thomas also reminded self-employed persons that the payment of the social security tax is mandatory and not voluntary. Often a self-employed person may have enough exemptions to result in his not owing any income tax yet the net earnings from his business are \$400 or more, so he must pay the social security self-employment tax.

TELEPHONE TALK by Ransy Cooper, Manager

March has really had its Lion and Lamb bit this year. The weather changes so fast that it almost pays to wear a snow suit over a bathing suit so as to be prepared. The youngsters don't know what to do, play baseball, fly kites, or stay indoors so as to not get blown away. Speaking of baseball, all the big league teams are in spring training now. The Yankees and the Braves seem like good bets to win again but not without a good run. Sanderson's baseball team got off to a good start this year with the win over Pecos, then dropped a close one to San Felipe Tuesday. Their fine hitting and pitching will probably see them through a successful season. A PART OF GOOD LIVING Nowadays, we hear the term "good living" quite often. I have a few ideas about it, but to find out what it means to other people, I brought the subject up with a group of friends a week or so ago. Before the "good living" talk was over and the coffee served, one of the women made music for my ears by saying that the telephones in color in her home are certainly an important part of good living. Everyone seemed to agree, and that gave me a chance to point out that extra telephones in bedrooms and kitchens are low in cost, too - just \$1.00 a month plus installation. For color, you know, there's a one-time charge of \$10. P. S. I sold a couple, too. LOOKING AHEAD TO EASTER Easter Sunday, to most of us, is a happy, dress-up, good-church day for all the family. And I hope you and your family will all be together for a Happy Easter. Unfortunately, some families are scattered and won't be gathered around the table for the carving of the ham. For these families, a Long Distance visit or two by telephone is the answer. It's the next best thing to being there in person and everyone has fun on an out-of-town call. Naturally, low Sunday rates will be in effect. And if you call station-to-station, you can talk longer for less. Call by number. We're twice as fast. SOUTHWESTERN BELL TELEPHONE COMPANY

THUMPER AT WORK—One of the newest devices aiding the search for oil is the "thumper." The "thumper" is a truck, carrying a concrete slab weighing 6000 pounds. The truck moves across country, dropping the slab—at intervals—from a height of 12 feet onto the ground. The shock waves produced by the "thump" and reflected from underground formations are recorded on graphs after being picked up by sensitive microphones buried along the route of the truck.

The supper was served in the basement of the Masonic Hall preceding the stated meeting of the chapter.

The Easter motif was noted in the decorations with arrangements of spring flowers on the tables and an Easter egg tree on the registration table.

A life membership was presented to Mrs. Ida Bodkin, a charter member of the chapter.

The hostess served pineapple delight with tea and coffee. Attractive arrangements of Spring flowers decorated the party rooms.

Mrs. A. D. Rogers of Del Rio is visiting here with her sister Mrs. W. C. Pearce, and Mr. Pearce.

kind of language that the world and especially the Russians can understand. There are some big words in the Democratic party who still can't understand how everything gets along so well under a Republican administration, but maybe as time goes by, they will either understand more or admit their ability to see from behind that dyed-in-the-wool mask they are wearing.

Condemning a man because he is a Republican — or a Democrat — is a false accusation if there ever was one. To some people, a party affiliation — opposing theirs — is synonymous with a dirty word and there's no getting around it. Party affiliation does not make a man a louse, but it has brought many a louse out from behind his disguise as a man!

Deer Count To Be Run On Downie Ranch

The Texas Game and Fish Commission has established eight deer count lines on the ranch operated by W. G. Downie. The purpose of the lines is to determine the number of deer on the ranch. This information will be useful in determining the number of deer to be killed each year and the number of livestock that the ranch can carry without causing deterioration to the rangeland. The SCS has been making studies to find out the pounds of forage per acre that is produced on rangeland on different range sites in each range condition.

Downie is a cooperater in the Rio Grande-Pecos River SCD.

Local Cat Takes 12 Ribbons

Miss Mildred Creek received this week twelve ribbons earned by a Russian blue cat which she had entered in several shows. It was her first time to enter any animal in a show. The cat, a male, is eight months old, has green eyes and weighs about 8 pounds. The seal-like fur has a silver sheen.

In a Kansas City cat show, all breeds, the cat won best of color championship, first prize championship, and winners championship ribbons. The same honors were given in the short-hair specialty class of the Kansas City show and in the all-breeds class and short-hair specialty classes of the show in Independence, Mo. The cat now has four points on the double championship.

The cat shows were sponsored by the American Cat Fanciers Association.
