Eagles Over Van Horn 14-6; To Go To Rankin Friday

good blocking for Sanderson ball carriers made more than enough difference for the local Eagles to win 14-6 over the Van Horn team here Friday night. Van Horn is a class B school.

Sanderson received the opening kick-off and punted on the 4th gown. Van Horn punted on their 4th down and Sanderson repeated the performance the second time. Van Horn took the ball and made one 1st down and got down to the Sanderson 4yard line where they fumbled and Sanderson recovered. Sanderson made a first down and Valles made a 30-yard run for the first score of the game. The conversion try by Harrell was no good just before the end of the first quarter.

In the second quarter Van Horn worked down to the Sanderson 1-yard line and they lost the ball again.

After another exchange of the ball Kight intercepted a pass and Harrell broke into the clear to run 90-yards for a score and he was aided by two key blocks just short of the goal line. Valles went over for the conversion.

To open the second half, Sanderson kicked and the ball hit a Van Horn player and bounced back to the Sanderson side of the tield and after a scrambic

Youths Report To Higher Schools

This week has found many local youths enrolling in institutions of hgher learning, some for their first year and others to con tinue their education in the state colleges and universities.

Of the May graduates of the Sanderson High School, six have enrolled in college for their freshman year; Ana Calzada and Barbara Wilcox at Sul Ross College, Barbara Sudduth and Den Little at Texas Tech: Peggie Cooke at the University of Tex as; Patty Gray at Hardin-Simmons; Brucks Bader at Texas A

Chris Hagelstein, son of Mr and Mrs Eli Hagelstein, Terrell and Crockett County ranchers a May graduate of the Ozona High School, also enrolled at Sul Ross for his freshman year.

Miss Elida Cardenas has returned to Texas Woman's University in Denton; Colleen Pierson and Bruce McElroy at Southwest Teachers State College, San Marcos; Roland and Jessie Mc-Donald, Clotilde Pena, Sul Ross College: Kenneth Stutes, Texas Western College, El Paso; Ramsey Melugin. Bob Beckett, Jerry Monroe, W. J. Vaughn, A&M, Darrell Cox and Sidney Louise Harkins., Texas University; Raul Barrera. St. Mary's University: Diana Duke, Baylor: Charlene Chandler, Texas Tech; Beth Chandler, Odessa Junior College.

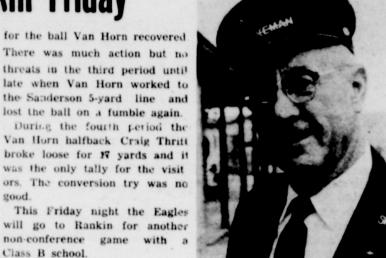

Girl Scouters Have Meeting

Miss Edilize Wilhite of Fort Stockton, district director of Districts 3 and 4 of the Permian Basin Scout Council, met here last Friday for a conference with the service team of the local Girl Scouts and several other interested persons.

The service team is composed of three officers, recently elected Mrs. Carlos Dunn is the chairman, Mrs. J. A. Gilbreath, troop consultant, and Mrs. Lawrence Janes is troop organizer. Mrs. W H. Dishman is secretary-treasurer of the Neighborhood Associa-

New Restaurant To Open Next Week

Mr. and Mrs. W. B. Smauley have announced that they will be ready for the opening of El Rancho Restaurant next Friday September 25.

The eating place is located in the Turner Hotel building and was formerly known as the Hotel Cafe. The Smauleys have spent considerable time and effort in thoroughly renovating and redecorating the place and state they will have an up-to-date restaurant with fine food and good

A comfortable lounge has been arranged for the comfort and convenience of patrons and to bles will take the place of the booths formerly used in the cafe. Mrs. Smauley, an experienced waitress, stated that she plans to use experienced help and see that proper service is gven to

customers. Mr. Smauley is a driller on the Gilf-McCue well just north of

Brucellosis-Free Cattle in County Is **Petition's Purpose**

Opening steps have been taken to get Terrell County cattle declared brucellosis-free, according to N. M. Mitchell, area rancher.

Petitions requesting that the program be put into effect by the State Livestock Sanitary Commis sion are now in circulation, according to Mitchell. The petitions must be signed by 75 per cent of the cattle owners n the county. who own at least 51 per cent of the cattle, according to the county tax roll.

In describing benefits of the proposed program, Mitchell said. the cattle raisers of this county would have assurance that feeders in all parts of the country would know that cattle shipped from this area were brucellosisfree and would have no fear of accepting the animals. It would also be a preventive for this area being used as a dumping ground for much of the rest of the state. The testing program was ex-

plained as follows: The Commission would post notice after petitions were signed and that any owners not satisfied would then have 90 days in which to register a protest. If no protests are accepted, the program automatically becomes active at the end of the 90 days.

The Commission will then send a crew and laboratory to the county to study blood samples. It will test all female cattle over six months old and vacccinate all between four and 10 months if requested by the ranchers. only expense involved for the rancher is that of rounding up the cattle. The veterinary service

To be tested are all milk cows all registered female cows, plus 20 per cent of commercial cows over six months old.

No cattle can be moved in the county during the test period. If one reactor is found in a range herd the ranch is quarantined and all females on it tested. They are retested 40 days later.

After the county is approved as brucellosis-free, cattle can be moved to any other area so designated without further tests. No non-certified area cattle can be brought into the county without

Renovating of Depot Under Way

Work on the remodeling of the T&NO depot has been under way for several weeks. There will be a complete change in the ar rangement of facilities there after completion of the work, ac-

cording to railroad employees. The brakeman's room on the west end is not undergoing any "langes, it was learned, but the office is being enlarged and will be accessible only to operators.

A large waiting room is being arranged, running the width of the building, adjoining the office and opening from both north and There will be a storeroom for

express and baggage and the storeroom for freight handled by Southern Pacific Transport will also be in the building.

An office for J. O. Little, agent will also be provided.

Sheet rock is being used on the interior walls and ceilings and a complete redecorating job is planned for the interior and ex-

CofC Tree-Planting Project To Get Under Way Soon

The Terrell County Chamber of Commerce's tree-planting project is expected to get under way soon as almost all preliminary details are attended to, J. A. Gilbreath, secretary-manager of the organization, says. The committee for the project is Clyde Grif-

fith. Gilbreath, and Carlos Dunn. The organization voted to push the planting of trees in the county and particularly in Sanderson and has set a goal of 250 pecan trees to be included in the pro-

The committee has obtained prices of less than half the retail price for pecan trees of heights from three to seven feet which will be available to local and

Drilling News -Gulf Oil Co. No. 1 Beulah Mc Cue has been rescheduled for a depth of 17,700 feet, operator is bottomed at 16,535 and condition-

ing hole. Location is on section . Block R-2 of the GC&SF Survey Gulf Oil Co. No. 1 Allison took a driffstem test last week be tween 10,030-090 and after tool was left open for one hour there was a recovery of 90 feet of mud and no shows.

Operator now is drilling below 16,780 feet in lime and shale. Location is on secton 17. Block B2.

The Humble Oil Co. No. 1 Annie Spencer, section 68, Block B2 has moved in rig and ready to begin drilling.

ASC Committee Named For Year

An entirely new committee wa elected last week to compose the Terrell A.S.C. County Comittee for the coming year. The officers wil assume the duties of

their office on October 1. Clarence Jessup will head the committee as chairman; Jack Harrell, vice-chairman; Reg Monroe, regular member. Austin Nance is the first alternate and Eddie McNutt is the second al

The committee is the governing body of the local organization and is also responsible for the administration of the government program.

Students Receive Certificates For Grades In Tests

Six students in the Sanderson High School were awarded certificates at a special assembly program at the school Tuesday morning. The awards were presented by Principal Andrew J. Riess and were for educational development as revealed in a National Educational Development Test sponsored by the Education-

al Science Research Association The tests were given to the students of the freshman and soph omore classes last spring.

Students of the sophomore class receiving certificates were Terry Jean Hodgkins, G. C. Eggleston and Buddy Joe Hahn Junior students receiving certificates were Bill Dunn, Melinda Gilbreath and Susan Harkins.

The local students were among the top 25 per cent in the state erd the tests, covering field areas of knowledge, placed the educational development for the three students of each class in the order named.

Square Dance Group To Be Formed Saturday

Local citizens who are inter ested in forming a square dance group are asked to meet at the CAC Hall at 8 Saturday night.

W. J. Morris, who has had considerable experience in teaching and calling square dances, will be in charge.

area citizens if 250 trees are sold Included in the offer will be complete and detailed information for the preparation of the hele for planting, recommendations for soil preparation and culture of the tree.

Also, follow-up advice from the nurseryman will be available to those who have trees that have died or have not shown the propper growth after about two years.

The Chamber is coordinating the non-profit project for the sole purpose of propagating the idea of tree-planting in Sanderson and Terrell County with the hope that local citizens will realize the future benefits to be en

byed from such a project. More de ad- will be given later as the project gets under way. Citizens are asked to begin thaking now about locations for tices on their premises and planng to suppor the project.

The Chamber will also take orders for other nursery stock, including shrubs and tree varieties other than pecan with regular retail prices but a savings for residents on the freight.

Any type pecan tree may be ordered at the reduced p but the nurserymen have recommended certain varieties as best suited for this altitude and clim-

Sophomore class - Buddy Joe Hahn, Margaratta Fuentez, with Linda Beckett as alternate:

Freshman class - Barbara Cates, Barbara Bunn and Fran cie Wilson, alternate

8th grade class - Bonnie Fisher, Arabella Lopes and Linds Babb, alternate.

Accomplishments Of TB Assn. Are Told

The quarterly meeting of the members and directors of the Terrell County Tuberculosis and Health Association was held Monday evening at the courthouse.

A report was given of 38 preschool children receiving the tuberculin skin patch test during the summer round-up. Since there are 61 pupils enrolled in the first grade this semester, it is hoped that the patch test may be given at a later date to those not receiving it. The pupils of the fifth and

twelfth grades will be given the patch test this year. The association is furnishing the necessary supplies for the tests with Dr. Gene Richardson assisted by Mrs P. G. Harris, Jr., and volunteer' workers in making the tests.

Jack M. Hayre, executive vicepresident of the Sanderson State Bank, was named Christmas Seal chairman for this year. Miss Antonia Cardenas will assist in mailing the seals after completing the filing of the address cards for

this year. During the summer months the members volunteered to contact local residents with a known tuberculosis record to ascertain if the persons were having annual check-ups. Reports of the visits

were given.

Mr. and Mrs. C. E. Clymer returned home last wek from San Antono where they had spent ten cays while they received medical check-ups.

Proper study light at home means a better student at school

Good light at the study table aids concentration, combats eye fatigue, makes home study hours more productive. In most instances a good table lamp equipped with a 150-watt bulb will provide the right amount of light for easy seeing. The lamp should be tall enough to spread light over the work area and properly shaded to conceal the light source from the eyes. A diffusing bowl is recommended to prevent

glare. If the lamp has no diffusing bowl, a 150-watt white indirect bulb may be substituted. It has its own built-in diffusor.

Famed 'Horseshoe Curve' On SP Doomed To Oblivion

The famed "horseshoe curve" on the Southern Pacific eight miles west of Sierra Blanca, is doomed to oblivion.

The railroad has authorized expenditure of more than \$2 million for construction of 9.29 miles of new track and sidings between Etholen and Small that will eliminate the famed track curvature built in 1881, and for the installation of 75 miles of centralized control equipment between Belen and Sierra Blanca.

Construction work started on April 21 with the first of the new rail being installed on August 3. Plans call for completion of the new line in November, and for installation of the centralized traffic control equipment in December. Track in the horseshoe curve area will be taken up early next year, rail officers said.

The new line change has necessitated construction of six concrete and steel bridges and is being built on a new alignment north of the present horseshoe curve. It will retire 11.53 miles of present main track, reduce rail distance between Etholen and Small by 2.24 miles, and eliminate 30 sharp curves to be replaced with straigh alignment and highspeed curves.

The CTS system will permit train dispatchers to control operation of the power switches and modern searchlight type signals from a central dispatching office. The installation will include eight 9,000-foot sidings equipped with power switches at either end and

Are U.S. Savings Bonds a good investment? Last year the American people answered: Youre darn right!"

In 1958, Americans owned over 421/2 billion dollars in U.S. Savings Ennds - all-time high. It was a "recession" year; yet more Bonds were bought -- and fewer redeemed-than the year before.

> Why this confidence in U.S. Savings Bonds? Read the facts, and you'll know.

U. S. Saving, Bonds are one of the safest investments you can make. Unlike my other investments, the cash value U. S. Savings Bonds can not drop; can only grow. The Government of the United States guarantees it.

WASHATERIA

AND DRYERS

LAWRENCE JANES CO.

They pay more interest than ever and E Bonds mature in less time than ever That means extra money you can depend on when you're planning important long-range purchases, like a new house or a college education for your children.

There is no easier way to save. You can put money aside for Bonds automatically through the Payroll Savings Plan; or buy them where you bank; or where you go to school, through the School

lost, stolen, mutilated or destroyed, the

government replaces it free. Can you imagine a safer way to save?

Savings Plan for U. S. Savings Stamps. U. S. Savings Bonds are indestructible. Every one is recorded. If your Bond is

Bonds are easy to cash when you really need money. It's as simple as drawing money from the bank—except that you can cash a Bond at any bank. On the other hand-the average saver hangs onto his Bonds. So chances are, you won't find yourself frittering away Bond money. The tendency is to hold them for when you really need the cash.

Your Bonds help strengthen America's Peace Power. Peace costs money. Money for military and industrial strength

O to keep the peace. Money for science and education to help make peace lasting. And money saved by individuals by you-to help keep our economy strong. Every U. S. Savings Bond you buy helps strengthen America's Peace Power. And that's one of the big reasons over 40 million Americans hold Bonds today. How about you? Are you buying as many as you might?

Help Strengthen America's Peace Power
