#### ISTEN TO LUKE

Well this country really had e rain last week, some got toe uch, as usual, and some didn't enough, as isual, but as far we know everybody got some We thought maybe it had set n to stay the way it rained aturday night. It was a sight to

There will be great benefits from the rain in feed if we have ming like a late winter. The wing season is not entirely me by any means and the run uld make a great difference

Of course there will be some encing sold to replace water caps and fences lost to high wa-That is inevitable it seems .. We cannot help but remember he many promises and sayings that were said not too long ago lout water in Texas. Of course at was when we had a droute. But politicians promised to de everything but squeeze out the clouds to get rainfall for the voters who would support them.

Well, before they were able .9 take their oath of office they had to buy mud chains to get to town for the occasion and they still haven't done anything about the water. It continues to run into the ocean when it rains and it t doesn't rain we still have a

There is another 'apple barrel' tout to be set out for politicians in Texas if certain legislation ges through. This would enable nties, communities, water districts, etc., to have available, if they know the right people, a fund from which to draw to construct dams and reservoirs for

Where on Sanderson Canyo. uld you recommend a dam be

ter conservation

What a vast body of water we ould store up and down the canyon if it would ever rain again after a dam was built. We could enjoy water sports and fishing with little or no trouble every afernoon after work.

You think we're kidding? Dams have been built on rivers with no more of a starting th n statement like that!

The politicians aren't going to so anything to help it to rain when we need it, nor to conserve water for when it doesn't rain, so re could begin promoting the alding of a dam below here or bove here without interfering with the work of the politicians.

We are again and continually rateful for the advertising that being done by the automobile mpanies of the nation. We still ay the business is a great econic factor to the nation.

I might be that the automoles mean a lot more than we hink. What we mean is that the utomobile might be almost a riceless commodity soon. What mean is that we wish tha e steel strike could be settled

### **Eagles Whop Brackett 30-14**; To Play Strong Ozona Here

The Sanderson Eagles continued their winning streak last Friday night when they took the Brackettville team by a 30-14

Sanderson scored one touchdown in each quarter to scatter the points out for thrills for the crowd witnessing the game. Felix Villes and Larry Harrell split

#### Juniors Split Games With Grandfalls

The junior A and B teams split pair of games here last Thursday night against Grandfalls. It was the second meeting of the teams this year.

The junior A team won by a 40-0 score. Coach Joe Dean stated that it would be difficult to point out any one boy that playcd an exceptional game above his teammates as all the boys played an outstanding game.

The defense was quite improved, Dean stated, with Billy Garza. Bob Fisher. Charles Fletcher, Nicky Juardo, Al Word, John Ed Robbins and Mike Wood making good tackles that kept the Grandfalls boys from crossing the goal line.

The offense moved well, Dean said, with nearly every backfielder scoring.

The scoring was divided as follows: John Ed Robbins, 16 points: Johnnie Benevides, 8 points; Oscar Marquez, 8 points; Jon Stavley, a guard who played part time blocking back, scored once for 6 points; and Dudy Ar redondo got 2 points. Haley Haynes, Nicky Jurado and John Cates did not pick up any points but gave a good account of their ability during the game, the

ceach said. In the junior B game, the little lads lost 20-0 to the Grandfalls team.

The boys were typical Eaglets in that they never gave up trying and showed determination and spirit during the entire

#### C. L. Sims Dies In Mobile, Ala.

Word has been received of the death of Clefford Lee Sims of Mobile, Ala., on September 2.

Mr. Sims, a native of Deer Park, Ala., had resided in Mobile or many years. He was a retired Southern Pacific railroad conductor and resided in Sanderson for about 30 years.

He is survived by his widow Mrs. Harriet (Pat) Sims of Mobile, a half-sister and several nieces and nephews

Sostenes Chalambaga

At a recent meeting of the Sanderson Chapter of the Future Homemakers of America, Sostenes Chalambaga and Charles "Butch" Stavley were elected as beaux of the organization.

Charles Stavley

Both boys are seniors in the Sanderson High School. "Butch" is the son of Mr. and Mrs. C. H. Stavley and Sostenes is the son of Mrs. Minnie Chalambaga.

#### **Allison Hole** Is Abandoned

Word was received last weekend that the Gulf Oil Corp. No. 1 Allison had been abandoned. Location was on section 7. BlockB? of the CCSD&RGNG survey.

Scheduled depth of the hole was 11,700 feet and abandoned and canyons. depth, according to reports, was

Operator had discovered a gas flow in the Pennsylvania at a reported 299,000 cubic feet of gas on a drillstem test. The discovery was between 8,930-9,059 feet. The flowing pressure was 630,695 pounds and 30-minute shut-in pressure was 3.135 pounds

#### Ravival Services To Begin Sunday For Methodists

Rev. Fisher Blanton

begin at the Methodist Church Sunday, according to an announcement made this week by the pastor, Dr. K. T. Melugin

Dr. Melugin will preach at both services Sunday and Rev Fisher Blanton, pastor of the Methodist Church of Carlsbad N.M., will arrive Monday to preach the remainder of the

Evening services will begin at 7:30 and continue through the week, including Saturday. The service Friday evening will be gin at 6:30 and dismiss promptly at 7:30 on account of the football game here that night.

There will be prayer meetings at the church each evening before the service. The adults and young people will meet in separate groups for the prayer service at 7:15.

On Sunday, October 18, there will be a covered-dish dinner in Fellowship Hall following the morning service.

Rev. Blanton is well known as both a preacher and singer in this area and a cordial invitation is extended to everyone in the community to attend and participate in the services.

#### Some Violators Of Game Laws To Go To County Court

Al future game violation cases involving the forfeiture of hunting or fishing licenses, will be filed in county court, according to H. D. Dodgen, executive secsetary of the Game and Fish Commission.

The higher courts have held that a justice of the peace is without jurisdiction to try prosecution wherein money penalty and option or forfeiture of license are both involved. Accordingly, instructions have gone out to all wardens to take these cases to county court.

Cases still may be filed in justice court where no license is involved, such as an arrest for fishing with a rod and reel in a home county without a license.

Several counties in Texas al ready have been filing cases under county court law, according to the director.

## Rains Up To 10 Inches Cover All of County

here this week, according to lo cal dealers preparing for the premier of certain 1960 models On the display floors this week end will be

Thursday the Ferguson Motor Co. will show its 1960 Ford and Falcon automobiles. W. J. Fergusen, manager, stated that the new Ford had many new featurcs which would be appealing to the public and that the Falcon is

He invited all area citizens to come by his show room to sec the new cars.

Also scheduled for showing on Thursday and Friday is the 1960 Buick at McKnight Motor Co. E. J. Hanson, owner, stated that the Buick was an entirely new car this year and he asked that all local citizens please come by and see his new car, whether or not they were interested in this product or a new car.

Slated for showing Friday the Dodge and Dart at the James Word Motor Co. Mr Word also plans open house and will have favors for all visitors and will serve coffee and cook ies all day Friday He invited all ireal automobile owners to come by and see the new model Dodge and the Dart, which is an entire

#### Square Dance Club Organized Saturday

Fifteen couples attended the square dance club which met at the V.F.W. Hall Saturday evening. W. J. Morris instructed and called the dances.

The club will meet on the first and third Saturdays of each month from 8 to 10:30 p.m. Memberships are still open and the charges are \$2 per month.

#### Firemen Practice Monday Night

Members of the Sanderson Volunteer Fire Department met for a practice drill Monday night at the fire house. About 12 fire men were present.

Operation of the equipment was gone over and practiced by those present and familiarization with various types of chemicals or hand were talked about and their use on various types of fires explained.

New firemen will continue the equipment familiarization course at the next meeting which will be Monday, October 19, at 6.

Local men interested in be coming members of the volunteer fire department are urgeo to be present at the next meet-

showers for several days last week, with only small amounts

ing little or no damage. itainfall locally was 1.6 inches falling in showers on Thursday right and Saturday night.

One day last week Albert Appel reported about 4 inches a. samfall in about an hour Other nches in that general area re ccived baser amounts of rainfal! that afternoon, but in torrential downpours.

Herbert Brown reported over 10 inches of rainfall on his Divide Ranch Saturday with over 7 inches at the headquarters in Cetty's Canyon. Wilile Bann 1 also reported over 7 inches of rain and high water which washed out roads, electric line poles fences, water gaps, etc.

The Circle Dot ranch reported considerable damage from high water. Ranches in that area reported 6 inches of rain or more Rainfall on the Stumberg River Ranch was just over thre inches, according to N. W. Car-

The highway between Dryd and Shottleld was closed sevecal times during the week because of high water in either 8-mile or Big Canyon or both

Ranchmen who did not rece ve too heavy damage from the rain stated that it was one of the best in many years. Some areas received little or no run-off from

slow-falling rains. Sunday morning dawned clear and clear and balmy weather has continued throughout the weck with a few thunderheads appear ing on the horizon late Tuesday afternoon and late Wednesday afternoon

Nights have bene cool but not

#### Layman's Day To Be Sunday At Baptist Church

Rev. Irl R. Richardson, pastor of the First Baptist Church, announceed that Sunday, October 11, would be "layman's day" at the church and that all members and friends of the church were urged to attend.

Rev. Richardson announced that laymen would have com plete charge of the services on Sunday morning.

He also announced that break fest would be served to the men at 8 a.m. and there would be a men's Bible class at 9:45 with the pas'or leading the discussion.

#### P.-T.A. Adopts Budget For Year

The Sanderson Parent-Teachca Association met Thursday afternoon in the high school audi

Following the invocation by Rev. Irl Richardson, Mrs. Roy Bogusch led the audience in a sing-song.

A display of art work of the grades two through five was aranged on the stage.

Announcement was made of a workshop in Monahans on October 20.

Mrs. Jack Turner, president, has been named to a district office, district yearbook and publicity yearbook chairman, to fill a vacancy created by the resignation of that officer

The year's budget of \$790.50 was reviewed and adopted. Mrs. W. J. Morris fifth grade

won the attendance prize. The room mothers of the 12 grades were introduced.

Supt. Matt F. Bader and Pripcipals A. J. Riess and Y. Bowley discussed the school pol cies in the handbooks which were distributed to the pupils for the first time this year.

The Ford Falcon, first of America's new-size cars, represents a "breakthrough" in automotive design that may materially alter the future of the automobile industry. The Falcon Fordor shown here is more than two feet shorter and three-quarters of a ton lighter than a standard 1959 Ford. Yet, the Falcon is a rix-passenger car, with interior roombass approximating that of standard models.

rearly every newspaper in the state was writing about "the wa-

It was a discouraging time. Texas had come through a blistering, dusty summer that forced many farmers to leave their stunted crops in the fields and hunt work in town.

Ranchers were equally hard hit. In many cases, due to lack of feed, they sold their breeding cattle, lost their land or went heavily into debt.

This time three years ago widespread drouth ever recorded in this region. Average rainfall for the year dwindled down tc 16.2 inches, second lowest figure since 1888.

> Office seekers in the campaign year of 1956 had a good deal to say about how hard they would work to 'solve the water problem." Many did work hard.

But three years later the water problem is still far from being 'solved.'

By the time the Legislature met in 1957, the rains had be-It was the climax of the most gun. It rained so much that many people, of necessity, became more interested in flood relief than drouth relief.

Three water measures were passed in 1957, however. These measures:

(1) Set up the Texas Water Development Board with a \$200. 000,000 fund to make loans to help pay for local water projects.

(2) Established a planning division in the State Water Board to do research on water needs but without authority to recommend an overall plan. Appropriation was \$900,000, instead of the \$1,200,000 recommended by the governor.

(3) Gave the Water Board authority to contract for water storage space in federal reservoirs with legislative approval.

Last two of these was passed only after Gov. Daniel re-submitted them at a special session And then they almost went under when a city-farm fight developed on the side issue of whe-

ther farmers should be able to dam up small lakes and them for irrigation.

This year the Legislature inched up the Water Board budget by \$200,000. But the \$2,037,000 appropriation was \$800,000 less

than requested by the governor. As yet, the Water Development Board has made no loans for construction. Engineers in the State Water Board's planning division are working on a state wide report due in 1963, and a federal commission is also making a study. But legislators are skittish about having anything that might be called a definite state plan for fear it will set sectional jealousies aflame.

So dear is water to most Texans' hearts that almost any move by anyone to do anything with some of it is sure to be interpre ted by a neighbor as "grabbing". Guadalupe-Blanco River Authority and the City of San An-

tonio had a long, bitter hassle over the Canyon Dam project. Right now, the biggest fight is on the Trinity. After months of bickering, the City of Houston and the Trinity River Authority agreed to cooperate in building

a dam at Livingston. Now the San Jacinto River Authority is protesting. SJRA officials are telling Houston people that Trinity water is of "poor quality" and that San Jacinto water could be developed at : much lower cost.

Amid it all, engineers and bus

Heroine of the War Between the States

Sally Skull, born Sarah Newman, was good looking, a good cowhand, and she could shoot as straight with her left hand as her right. So she usually packed two six-shooters and sometimes used them. However, history records that all the men she killed really needed killing. In her prime during the Civil War, this remarkable Texan served her state and the Confederacy magnificently. She worked big crews of loyal cowboys, most of them of Mexican descent, on her ranches in Bee and Nueces counties. She had some big freight wagons. With these, Sally and her vaqueros hauled cotton to Mexico, where it brought high war-time prices. Then, she used her cotton money to buy munitions for the South and hauled them back to Texas. Danger and hardship that would have stopped most men couldn't even slow Sally down. And amazingly enough, with all her rough ways and rough tongue - her vocabulary was pungently uninhibited, it's said - Sally Skull's essential femininity was never obscured. She was a frontier party girl - liked to dress up and take in the gayest Mexican fandangoes, and she outlived three sturdy Texas husbands. Living the life she loved, Sally made

Today Texans still demand and get their right to choose the way they want to live. In this vigorous and freedom-minded homeland — "Beer Belongs" and this is why the United States Brewers Foundation works constantly, in conjunction with brewers, wholesalers and retailers, to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of Texans, the Foundation stresses close cooperation with the Armed Forces, law enforcement and ng officials in its continuing Self-Regulation program.

Announcing!

A WONDERFUL NEW WORLD OF FINEST FORDS

but three new lines of Ford cars . . .

- 1. The 1060 Fords-The Finest Fords of a Lifetime, beautiful from any Point of View worth more from every Point of Value!
- 2. The 1960 Falcon-The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
- 3. The 1960 Thunderbird . . . The World's Most Wanted Car!

Introducing the New-Size Ford ... the 1960 Ford Lalcon

Meet the New-size Ford - the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car . . . powered to pass and climb like a "big" car . . . and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.-a grueling demonstration climaxing Ford's 3 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column-not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Fakon's low, low price. See it at your Ford Dealer's . . . and see the difference!

Now you can see them-the Finest Fords of a Lifetime! Economy-minded Fairlanes. Big-value Fairlane 500's, Elegant Galaxies, A breath-taking new Sunliner convertible and a brand-new hardtop model, the flashing Starliner. Then there's a whole new world of Station Wagon Living. too. It all adds up to 15 glittering variations of the world's newest, most elegant styling theme!

And Ford sets the new trend in power. Ford's Thunderbird 292 V-8 and 352 V-8, like the famous Mileage Maker Six, bring a new world of smoother, hotter performance—on regular gas.

To top it all, the Finest Fords of a Lifetime are priced for savings. Ford is still priced to outvalue all comparable models of its major competitors.

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful . . . a Full-Flow oil filter that lets you go 4,000 miles between oil changes . . . Diamond Lustre Finish that never needs waxing . . . aluminized mufflers that normally last twice as long as conventional types . . . new, safer, Truck-Size brakes that are the biggest ever in Ford's history , and new soft-tread, Tyrex cord tires that run quieter, last longer.

In every way these are the Finest Fords of your Lifetime! See them at your Ford Dealer's!

Industrial Waste Disposal Corporation of Houston is seeking an AEC permit to dump radioactive waste material in concrete lined barrels into 6,000 feet of water 200 miles south of Galves

Texas brief expresses fears that the barrels might come apart alowing the materials to be washed ashore by the tides It says that Texas will remain opposed to the plan "until clear convincing and positive proof is produced to show that such operation may be conducted with absolute safety to persons using the beaches and waters of the Gulf for any purpese."

Office supplies at The Times.

Ask any woman who fought the wood stove in the farm house and she will tell you electricity created a wonderland in her kitchen. Electric fry pans, percolaters, toasters, broilers, refrigerators, food disposer . . . the list is a long one. Then there's the electric stove itself . . . clean . . . cool ... odorless and safe. But the important fact is this ... The Electric Cooperatives borrowed money at interest to bring the electricity that made this modern miracle possible. The electric cooperatives and only the cooperatives were equal to the heroic challenge offered by rural electrification.

The Electric Cooperatives have succeeded . . . are succeeding and will succeed in their continuing task or service to the community and the nation.

Rio Grande Electric Cooperative, Inc.

# new and different things

# IN THE 1960 Chevy!

new

#### easy loading luggage compartment

New convenience has been built into Chevy's big, vacation-sized luggage compartment by lowering the loading height.

#### NEW spaciousness inside

Inside you'll find room and more room. There's room to sprawl in, room to sit tall in - and the roofline has a respect for hats. A new flatter transmission tunnel is a boon to the middle man. Here is the kind of space that invites the family.

#### THRIFTIER !!!new!!! VS POWER

Under the hood thrift is accented in a new standard V8, engineered to deliver up to 10% more miles for every gallon while giving you more zest at normal speeds. Or you might choose its teammate—Chevy's Hi-Thrift 6 -the engine that starts saving the

#### NEW QUIET AND COMFORT

moment you flip the ignition switch.

Thicker, newly designed body mounts insulate you from road shock and noise, insuring an almost cocoonlike quiet. Full Coil spring suspension melts bumps as no other suspension system can. Oil hushed hydraulic whisper.

!NEW!

#### refinements for the driver

Everybody will want to be the driver when he sees the kind of pleasure a turn at the wheel brings. The driver finds Chevy has further cushioned him from engine impulses by an improved clutch linkage system. He'll also find a convenient new parking brake that automatically returns to normal height after application.

NEAREST TO PERFECTION A LOW-PRICED CAR EVER CAME!

# THE BIG CHANGE

because ...

IT'S CLEAN - Electric heat is as clean as electric light. There are no flames to produce soot. Utensils, walls and curtains stay newlooking with less washing and care.

IT'S COOL - The oven is insulated on all six sides to keep heat inside. Surface units transfer heat by direct contact. They heat the utensils, not the kitchen air.

IT'S FAST - Surface units start heating instantly, reach full heat in seconds. The fully Insulated oven preheats rapidly. And this fast beat is accurate!

IT'S ECONOMICAL - Most surface cooking, at low heat settings, uses electricity thriftily. Oven heating elements operate less than half the cooking time.

IT'S AUTOMATIC - The clock-controlled electric oven cooks complete meals unattended. Automatic surface units prevent boil-overs and burned foods.

- An electric range is engineered for maximum convenience, designed for sleek, modern beauty. It's the truly modern way to cook.

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today A solid, substantial car · A car of superb comfort, quiet, reliability · A car you should drive soon

New comfort, quietness, and quality

Doors that open wider - easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.

AT BUICK DEALERS NOW.

New interior decor and convenience

An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option — the Twilight Sentinel\*—that turns headlights on automatically at sunset . . . off automatically at sunrise. All-new colors and fabrics.
Richer appointments. At slight extra cost. At slight extra cost

Outstanding performance with economy

1. Buick's Exclusive Turbine Drive Transmission† is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion. 2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other Amer-ican car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stopping, longer brake life. under the car constantly over the brain for added cooling efficiency. (Wheel and 15" size which gives you up to 1/3 more tire life.)
