ANDERSON I IMES

If very many days such as Wed esday follow this one, there are robably some flower gardens nat need to be turned over ap our house, some seed or somehing to be planted and other odd obs to take us away from our eading all the good news conrning political activity and the ctions of candidates who are not oing to run.

Probably there will be a paint in or two emptied and a few ssions at cleaning brushes or ollers after painting the twoned yard fence.

Then it won't be long before e water will have to tended in ass and tree and shrub waterngs, the lawn mowed, and a thouand other things of that nature be attended to.

But don't misunderstand us, we ove it and the fruits of our laors. It also furnishes an interide of quiet solemnity where ne can meditate and think of hings more worthwhile than nether or not LBJ is going to be trafted, the sheriff's and contable's and school board races

If you have not been considerng the possibility of getting tarted on a clean-up around the remises, this is good weather for uch action. It is most worthwhile n many respects.

There are increased rumors of newed drilling activity in Tertell County. Three rigs are rumpred to be expected soon.

There is also news of the return of an exploration crew to Sander son for additional work in this

Such activity produces activity and this is good for the town and county.

We are fortunate in having had some very pleasant acquaintances with many of the workers of the drilling and exploration crews end will be glad to renew those

acquain ences or make new ones. Sanderson and Terrell County welcomes the coming of newcomers to our midst and welcomes them to the many varied activi-

les of the town. There are times when it seems that the community is bursting at the seams with newcomers and it is often a problem to find any kind of housing for those who

come to live in our community With the building of new homes here there may be some more suitable housing facilities within a short time and that always en-

courages the influx of people. To those who have rent properavailable, it might be wise to leave word with us of the availability of such units so that we

may help newcomers to find houses or apartments. Call us and let us know what ou have available and we will be glad to pass on such information

those who come in and ask for Everything that we can do to take these newcomers welcome

will be beneficial.
