LISTEN TO LUKE

Among other things, this column is often called upon to define the meaning of words; the word this week is "extremist".

After giving it considerable thought, there is only one definition that we can come up with: "One who disagrees with you".

In a speech at Los Angeles the other day, President Kennedy urged Americans to shun "discordant voices of extremism" from those who think the greatest danger is from within.

His attack was obviously directed to groups such as the John Birch Society, which has been outspoken on the weakness of leadership in some of the home-front departments of government in failing to recognize the danger of Communism.

In the same daily newspaper which quoted the President on this subject, an adjoining story under the head, "Flexible Berlin Policy JFK Aim", an Associated Press writer says that the President plans to urge German Chancellor Konrad Adenauer to approve a flexible Western policy for negotiations with the Soviet Union on a Berlin settlement. Even though U.S. officials were vague as to details of the precise concessions, it was evident that plans for concessions were in the making.

Is it extremism for the American citizen to demand that no concessions be made which would weaken the treaty now existing on the freedom of West Berlin?

In all public speeches both the President and Vice-President have, on many occasions, stated that no concessions whatever would be made to the Soviet Union on the Berlin question. Is it now reasonable that the American people have a right to feel secure that no such concessions will be made?

This country is in a hazardous position in the increase in the government deficit. That does no good in facing a potent enemy. We do not claim to be an extremist in any sense of the word but we do claim to be interested in the affairs of our government.

According to figures received by the U. S. Government's public debt on Oct. 20, 1961, stood at \$296 billion. A year earlier it was \$288 billion. That increase in deficit amount to almost a million dollars an hour, day and night.

In my small way of figuring that is a lot of money. It seems time for some extremism to be voiced by the American people. It seems that the New Frontier has gone beyond the Blue Horizon.

There are those who think that the newspaper should take up each and every little project of each and every individual or

Susano Munoz, back, made the honorable mention offensive unit.

Wink placed eight on the all-district squad; Sanderson four; Rankin, four; Fabens and Van Horn, two each; Iraan, one.

Fire Dept. Donations Coming In Good, Harrison Reports

Dudley Harrison, treasurer of the Sanderson Volunteer Fire Department, announced this week that donations were coming in at a satisfactory pace and that it looked as though the local drive for funds would be a success.

Harrison stated that since the letters had been out only a little more than a week, that the outcome of the drive for funds could not yet be determined. He stated that if the later contributions were as generous as the earlier ones, the drive would be a success.

The donations are for the operation and maintenance of the volunteer fire department during the coming year.

Governor Urges Observance Of 'Safety Sunday'

Sunday, December 10, has been designated by Governor Price Daniel as "Safety Sunday" to mark the opening of the annual statewide Christmas-New Year's traffic safety campaign.

In a special proclamation, the Governor said that "experience indicates that the solution to the traffic problem lies in the hands of the individual driver," and urged all citizens to "join in a united effort to awaken the conscience of every driver."

The Governor urged pastors of all Texas churches to "remind their members of their personal and moral responsibility to drive carefully, obey the traffic laws, and to protect the sanctity of human life in our state."

"Safety Sunday" has been observed by a steadily increasing number of Texas churches and church organizations since it was first proclaimed by Governor Daniel in 1958.

The Governor's Highway Safety Commission will make a statewide effort to secure the cooperation of as many Texas churches and ministers as possible.

Col. Homer Garrison Jr., DPS director, has announced an intensified law enforcement campaign throughout the state in an effort to hold down the expected traffic toll during the last two months of the year.

The Governor stated that one of the most intensive year-end traffic safety campaigns ever undertaken is now being activated through the cooperation of the Governor's Highway Commission and the Department of Public Safety and other state and citizen-supported agencies.

Cool Front Brings Moisture

A cool front which blew in late Monday afternoon had some moisture in the clouds which hung heavily Monday afternoon, night and Tuesday morning.

There was a continuous drizzle of rain during the afternoon, night, and morning, leaving less than one-tenth of an inch of rain in local gauges, but nevertheless giving everything a good soaking.

The wind shifted from the north about mid-afternoon Monday and before night, an ominous cloud covering caused a premature dusk and dark. By early evening the fog completely blanketed the entire area and did not lift until about mid-morning when the sun shone for a few minutes.

The temperature was mild all day Tuesday and right after noon clouds again covered the sun and it remained cloudy the rest of the day.

Care For Aged Guaranteed By State-U.S. Funds

Austin, Nov. 15 — Once again the great State of Texas makes history — this time in health care for the aged. The Board of the State Department of Public Welfare in its regular monthly meeting, with Chairman Burton G. Hackney, Brownfield; Will Bond, Hillsboro, and W. Kendall Baker, Houston, in attendance, authorized the signing of an agreement between the State Department of Public Welfare and Blue Cross of Texas here today. Texas became the first state in the nation to insure a vast new program of health care for old age assistance recipients, with an independent health care underwriter.

In excess of 220,000 old age assistance recipients will become eligible for hospital care, physicians' services in the hospitals and nursing home care, effective January 1, 1962.

"We believe our choice of Blue Cross to insure this vast program is especially advantageous for the needy aged on our rolls," said Mr. Hackney, board chairman. "The assured co-operation of hospitals and doctors of Texas enables Blue Cross to guarantee that the maximum hospital and medical care benefits will be provided at the lowest possible cost."

To this, Walter R. McBee, executive director of Texas Blue Cross, added, "The vast know-how of Blue Cross, with nearly 60-million members enrolled, of whom hundreds of thousands are 65 years of age and over, made it possible for us to insure this risk upon a sound actuarial basis. This large group will stand on its own feet, and in no wise be aided or subsidized by other Blue Cross income."

Blue Cross typically makes no cash payments to patients, but makes available the actual services of the hospital, within certain limitations, rather than a limited sum of money which all too often is wholly inadequate. This will, of course, also be the procedure in this case.

Senator Crawford C. Martin of Hillsboro, author of the enabling act passed during the regular session of the 1961 Legislature, commented that since this is in fact an insured program, the independence and dignity of our senior citizens for whom benefits are provided, is preserved.

The enabling act was sponsored in the House of Representatives by Bill Hollowell of Grand Saline and James Markgraf of Scurry. The initial program runs for 20 months — January 1, 1962, through August 31, 1963.

The program has been arranged in its entirety by the State Department of Public Welfare, subject to federal approval under the Kerr-Mills Bill John H. Winters, Commissioner of the Department, said, "The operation of the program is to be one hundred per cent state controlled."

The Department was given free choice of whether to operate the entire program itself, or delegate portions of it.

Girls Win Two Cage Games Friday

The Sanderson High School Roadrunners won the first games of the current season when the Bracketville girls came here to appear in a non-conference game.

In the night's opener, the B-team girls won on the high side of a 13-12 squeaker, with the winning point being made in the closing seconds of the game on a field goal by Linda Babb.

The Roadrunners were on the low side of the score in the second and third quarters, and led at the end of the first and last.

The score by periods:

Roadrunners	3	5	8	13
Bracketville	2	6	9	12

The forwards during the game were: Linda Babb, Barbara Cates, Lavonne Flores, Pixie Mansfield, Susan Couch, Vicki Allen, Dana Terry, Francie Wilson. Guards were Olga Chalam-baga, Arabella Lopez, Amanda Benavides, Bonnie Fisher, Edelmira Flores, Vicki Trevino.

In the A-team game, the Roadrunners led all the way and won by a 52-43 margin.

The Roadrunners have a good supply of returning letter-earners and their ball-handling ability and teamwork were noticeable both during the game and in the effects of the outcome.

The returning letter-earners include: Linda Beckett, Marta Flores, Silvia Wood, Shella Cox, Lupe Garza, Betty Jane Robbins, Jackie Carter, and Paula Hanson, all of whom saw service in Friday night's game, as did Beth Clark, who earned a starting post as guard in that game, and Dorothy Whistler, a substitute guard.

Both Lupe and Marta saw some action on opposite ends of the court.

The guards were Linda, Beth, Marta, Dorothy, Silvia, Shella, and Lupe; guards were Betty Jane, Lupe, Jackie, Paula, and Marta.

The score by periods was:

Roadrunners	9	26	44	52
Bracketville	5	19	30	43

Y. F. Bowley is coach for the two girls' teams.

The Roadrunners will play out of town on December 5, 8, and 12, and will have their next home game on December 15 against the Alpine A and B teams.

Deer Hunters To Begin Trek During Next Week

Deer hunters of Texas and possibly other states will begin their westward trek next week in preparation for the season which begins December 1 in the Trans-Pecos area of Texas.

Probably Thursday of next week will be the heaviest day of the exodus of the hunters, since most of the hunters plan no more than one evening in camp prior to the opening day.

Harvest of the antlered animals is expected to be light this year unless cold weather is constant between now and the opening day. Ranchmen report the bucks are not yet "running" and are laying up most of the time when not feeding and will have to be kicked out.

The quantity of the bucks and the general quality of the animals is said to be best in several years, but weather conditions possibly could make one of the most difficult hunting seasons in several years.

The warm weather, if it persists, or is unsettled, will also cause some difficulty or inconvenience to those hunters who have to bring their kill to an ice house for preservation until the party is ready to depart for home. Plans are being made to provide an ice house here by a local individual, but there is no assurance that such can be done as yet.

Iraan Man Fined On Game Violation

James Pryor Nunn was fined \$75.00 and costs of court by County Judge R. S. Wilkinson this week. The case was filed by Game Conservationist Cliff Wilson.

Nunn was apprehended about 3:00 a.m. Sunday on the Dryden-Sheffield road and was returned to Sanderson to face the charge of having an illegal deer in his possession.

Nunn pleaded guilty to the violation.

Lyles, vice-president; Ele Hagelein, B. E. Mitchell, and Carl B. Cochran were re-elected directors.

AUSTIN — Rep. Franklin Spears of San Antonio says that leaders in the banking business are blocking attempts by the Special House Committee appointed to investigate enforcement of the Texas escheat laws.

Spears claims that officers of the Texas Bankers Association have advised members to ignore a questionnaire the committee sent to every banking institution in the state. But he says hundreds of banks and savings and loan companies are cooperating in spite of the advice.

He points out that while banks and savings and loan companies are exempt from reporting procedures set out by the 57th Legislature, they are included in the escheat laws.

House Committee's questionnaire asked for non-confidential statistical information to try to determine the number of abandoned accounts. Representative Spears says the study will be very valuable, if enough banking institutions cooperate.

Meanwhile, Atty. Gen. Will Wilson filed the first suit under the new escheat act. Suit seeks to recover \$1,094,150 in stock and dividends held for the unknown owner of a missing railroad land trust certificate.

The missing certificate was first issued in 1888, but Asst Atty. Gen. Henry Braswell says no one has been able to establish ownership since.

Suit was filed in the 101st District Court in Dallas against Mercantile National Bank of Dallas, trustees of the Texas Pacific Land Trust, and various claimants to the missing certificate.

Wilson's suit alleges that the property should go to the State of Texas under provisions of House Bill 5, covering abandoned property, since its owner has been unknown for seven years or more.

Race Is On
Kellis Dibrell of San Antonio told Young Republicans in Austin that the Democratic primary no longer will be tantamount to election, now that the Republi-

cans are gaining prominence in the state.

Dibrell has announced for lieutenant governor on the Republican ticket. He predicted that Texas voters will have a problem on May 5 when they're forced to choose between voting in the Republican or Democratic primary.

A Democrat, former Secretary of State Tom Reavley, was first man to announce for the Attorney General's office. Reavley, an Austin attorney, says he considers that office the largest, most varied and most important "law practice" in Texas.

Up To the Courts

The University of Texas Board of Regents has agreed "unanimously" to let the court decide whether they should integrate dormitories.

Judge Thornton Hardie of El Paso, chairman of the regents, says a test case filed by Austin attorney Sam Houston Clinton in behalf of three Negro students has been turned over to Atty. Gen. Will Wilson. In a letter to Hardie, Clinton asked the regents to integrate the facilities and escape the suit.

Hardie has accused Clinton of filing the suit for "the purpose of publicity and propaganda."

Regents originally planned to study further integration. Hardie refused to say whether the suit has changed their plans.

Students and faculty have asked

for a teaching certificate in Texas.

After a three-hour discussion between the "Texans for America" and board members, and statements from publishers denying the charges, Board of Education voted to adopt all the books on the committee's list, except four geography books which Commissioner J. W. Edgar asked them to delete.

The Board of Education also adopted a regulation setting 18 semester hours of education courses as the minimum required for a teaching certificate in Texas.

Water Talks

Leaders in water conservation work have been in conferences with the State Board of Water Engineers on the ambitious report

ed the regents for dormitory integration through campus polls. Integration in athletics also has been at issue. The regents chairman says they do not want to do anything that would disturb the "excellent relations" U. T. has had with other members of the Southwest Athletic Conference.

Textbooks Adopted

Three "Texans for America," J. Evetts Haley of Canyon, Dr. Don I. Riddle of Paris and Mrs. Joan Slay of Fort Worth, appeared before the State Board of Education this week to protest acceptance of several textbooks.

Organization had previously notified the Board of objections to 25 books on the State Textbooks Committee's recommended list. They spoke out strongly against two history texts, linking the authors to subversive organizations and charging the publisher of one with cooperating with a "known subversive" in the publication of a World War II booklet, "The Land of the Soviets."

Comments of the 17 state agencies will be relayed to Governor Price Daniel, who will add his own comments to the report. The Commission will then meet again to prepare a final report and forward to President John F. Kennedy for transmittal to Congress.

In all, the report suggests that nearly \$4,000,000 worth of dams and canals will be needed by the year 2010. Most of the work is for water supplies, which are not federally-financed.

Chief Engineer John Vandertulp of the State Board of Water Engineers has estimated that in the next 20 years, cities and industries will have to spend \$1,000,000,000 for their share of water facilities.

The time for the December meeting, which will be a progressive Christmas dinner, was changed to four-thirty p.m. Communications regarding the Western District Art show in the Spring were read. Wood, who is head of the group and in charge of food for the local civil defense program, gave very pertinent information in regard to the local defense plan as outlined in his office. A question and answer period followed.

Dainty refreshments were served from a tea table covered in a hand-crocheted cloth over yellow Autumn leaves and yellow chrysanthemums formed the centerpiece which was flanked by yellow candles in silver candlesticks. An arrangement of fruit and flowers in an epergne and yellow candles were also on the buffet.

THANKSGIVING THOUGHTS

When you think, you will thank God. Giving thanks means little unless you are living thanks. No one really give thanks unless he is willing to give more than thanks.

A thankful heart doubles our blessings, causing us to enjoy them twice—when we receive them and when we remember them.

Thanksgiving is the vibration of the soul's heartstrings under the soft touch of God's Spirit.

The greatest possession for which to be thankful as a Christian is the Savior, and secondly, a thankful heart.

Ingratitude is not only the basest and meanest of sins, but it is the most frequent. Ingratitude curdles the milk of human kindness.

An ingrate feels that he has not received all that he deserves, but the truth is that he has received more than he has ever deserved and does not see it. "Thanks be unto God for His unspeakable Gift," (Christ).

Only a thankful man can be a happy man. Only a Christ-indwelt man can be a thankful man. Man, by his very nature, is sinful, unthankful, and selfish. A selfish man can never be a thankful man.

Some people grumble because God placed thorns among the roses, yet never thank Him for the roses among the thorns. It's simply a difference of the heart. How thankful are we? What is the best way to express thanksgiving?

group and promote it to the limit. If we don't, we're extremists!

There's one project we will go all the way in promoting - Apply for Rural Area Development funds to finance the digging of a community fall-out shelter, equipping and stocking it with the provisions that only people otherwise eligible to draw unemployment compensation in Terrell County be hired to dig the shelter with hand tools.

We think this would furnish a dual purpose - it would eliminate unemployment compensation payments in Terrell County, and would furnish employment for the unemployed for a long time and would also furnish a project which would get rid of a great big chunk of the RAD program's money - which seems to be the really greatest need, according to some people. They have it on hand - if we don't spend it someone else will, and if we do, then the amount will be increased next time so we will have much more to worry about how to get rid of it next time.

By the way, the project would also furnish a fall-out shelter for the county, too.
