## LISTEN TO LUKE

Well, I was almost talked into the act of considering a fall-out shelter until I saw where you could get them financed on a 29-year note! Somehow, that made us feel as though there was not much use for one in the immediate future. — Or maybe that company just had an abundance of faith in their future and the ability of their product.

We have been reading with a great deal of interest of the unemployment hearings that have been going on in other sections of the country. And we have some pretty strong feelings about that mess.

For example, the other day we saw a person in Sanderson that is a former resident. We asked him what he was doing back in Sanderson, since we knew that he had been working in another town and at a good job. But he said that he couldn't go back to his job, because he was drawing his unemployment check while he was here and if he went back to work he could not get his unemployment check.

We were so taken aback and so shocked at such a direct statement that we couldn't even make answer or retort to the remark.

We get very little cooperation in our bid to get such people to build fall-out shelters with a pick and shovel.

We would like to see that entire program junked, with all of the employees of that bureau put out to look for a job for themselves and get off the free ride they are having. Such a project is a worthy one and we should have such a thing, but it's time that a full investigation of its action be held and a clean-out made where needed.

Too many people are bleeding that bureau to death at the expense of all of the rest of the working people of the state.

There is little that we know of that can be done about it, but whether we like to admit it or not, this area is right in the middle of what looks like a good drought. There has been only 30-inch of rainfall here since late last summer, according to the information that we have kept.

Shearing is scheduled to be completed in this area sometime soon and it is several months off to the time when ranchmen ordinarily market their lambs.

Well, the attorney general of the U.S. finally got back from his world cruise. He built good will all over the world and made the Texans mad in so doing. It looks to us like the only country who ever allied itself with the United States without a big dose should — Continued to Page 4

## No Extension To Be Granted On MVI Deadline

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, announced this week that there will be no extension of the April 15 deadline for inspection of all motor vehicles in Texas.

"The April 15 deadline this year falls on a Sunday, a day when most inspection stations are closed," Garrison noted. "We are not asking these stations to remain open on that day, and, under the law, there can be no extension of the deadline."

Local station operators stated this week that there was some doubt that they would be able to complete inspection of every car in Terrell County between now and the deadline and urged vehicle operators to bring their vehicles in as soon as possible. It was pointed out that the inspection stations have no obligation to work extra hours or on holidays and Sundays in order to complete the inspection of all vehicles prior to the deadline, and that it is the obligation of the vehicle owner to comply with the law.

Under the law, persons operating vehicles without the 1962 inspection sticker on and after April 16 are subject to arrest. Authority to enforce the provisions of the Texas Motor Vehicle Inspection Act is vested in the patrolmen of the Department of Public Safety, sheriffs, and their deputies, and city policemen.

## Three DWI Cases Here During Week

Three cases of driving a vehicle while under the influence of alcohol were reported during the week past, according to local officers. Two of the men were local residents and one was from Del Rio.

The man from Del Rio was apprehended by Texas Highway Patrolman Carl L. Davis and he pleaded guilty to the charge and was assessed the minimum fine and jail sentence, plus the suspension of his driver's license for six months.

Antonio Roma was arrested last weekend by Deputy Sheriff Dalton Hogg and was charged with DWI. He pleaded guilty to the charge and was given the minimum fine, jail sentence and driver's license suspension by County Judge R. S. Wilkinson.

With Roma at the time of his arrest were two local youths who were charged with being drunk in a public place. They were tried in Justice of Peace Court and one received a minimum fine of \$1 and the other, a repeated violator, was fined \$25 after they pleaded guilty to the charge.

Armando Martinez was arrested Sunday night on a DWI charge and was fined \$75 and costs by Judge Wilkinson.

## Mariano Castro Jailed for Theft

Mariano Castro was given a jail sentence of 30 days in county court when he pleaded guilty to a charge of theft last weekend.

He was employed by Manuel Rubio for the delivery of local freight.

The charge, arrest and conviction grew out of the missing of funds from the collection of freight bills for which Castro was directly responsible.

It was reported that he also admitted the theft of other items of merchandise in his deliveries of local freight.

H. G. Holt of El Paso and his daughter, Mrs. Olene Sayles of Alamogordo, N.M., visited here with friends for two days last week.

## Sen. Hardeman Announces For Senate Re-election

Dorsey B. Hardeman of San Angelo has announced his candidacy for re-election as State Senator from the 25th District.

Senator Hardeman has been a member of the Senate since 1947 and has served as chairman or member of all major standing committees of the Senate, as well as on many important special and interim committees. He is presently chairman of the powerful Senate General Investigating Committee, and is a member of the Legislative Budget Board. He was elected president pro tempore of the Senate and served as acting Governor of the State on December 3, 1954.

He is recognized and respected by his colleagues as an authority on constitutional law and Texas and American history. He has been invited by his colleagues to address the Senate on constitutional question and historical subjects on several occasions.

Senator Hardeman is an attorney, a former mayor of San Angelo, and former state representative, which office he resigned and volunteered as a private in the Air Force in 1942. He was honorably discharged with the rank of Captain in 1946.

In his announcement, Senator Hardeman said:

"As a candidate for re-election to the office of State Senator, I respectfully solicit the support and votes of all the people of the 25th Senatorial District. I shall try to see as many of the voters personally as I am able during the remaining weeks of the campaign. "My record in the office has been on the basis of my deep and abiding respect for the principles of our Constitution and for constructive and economical government. This is not a single-issue office. It involves numerous matters of vital importance to Texas and the 25th District.

"Many controversial issues have arisen during my tenure which have been met with courage and due deliberation and with the best interests of my State, and this district, ever in mind. Legislation of local interest to the various counties of the district, has been handled with dispatch, as is well known by the representatives and the people of those several counties.

"On such record I submit my bid for re-election, with the pledge to continue my support of constructive, progressive and Constitutional measures."

Members of the grand jury are being summoned this week by Deputy Sheriff Dalton Hogg.

## About 35 Officers Here for Seminar Last Saturday

About 35 officers were here for a peace officers' seminar Saturday of last week.

The group convened at 10:00 a. m. at the court house and after a period for coffee, doughnuts, and acquaintance, Terrell County Sheriff Bill C. Cooksey called the group to order. He introduced Texas Ranger Captain Frank Probst of Midland who showed two films: one each on criminal investigation and interrogation. A discussion period followed each.

There was also a discussion on area burglaries and a comparison of the methods of operation of the burglars.

At noon the Terrell County Chamber of Commerce was host to the group at the noon meal after which there was a discussion of federal laws and new laws pertaining to violation, enforcement, and apprehension.

The arrangements for the program and the morning coffee were made by the local sheriff's department.

## Safety Rules For Kite Flying Are Outlined

In an effort to encourage safety practices while flying kites, two local firms are stressing the rules of safety for kite fliers this week.

Students in the elementary grades have been given colored posters outlining the eight rules of safety for kite fliers, and Dudley's Texaco Station is distributing kites to all local children who can recite the rules of safety. There is no charge for the kites.

1. Don't use tinsel string, wire, or any twine with metal in it.
2. Don't fly a kite with metal in the frame or tail.
3. Don't fly a kite in the rain.
4. Don't run across streets or highways while flying a kite.
5. Don't fly a kite over TV or radio aerials.
6. Don't touch fallen electric wires.
7. Don't fly a kite near electric or power lines.
8. Don't pull on the string or climb power poles to loosen a snagged kite.

## Local Draft Board To Call Five Men For Physical Exams

Local Board No. 14 of Alpine, serving Brewster, Presidio, Jeff Davis, and Terrell Counties, will forward five men of this area to El Paso examining station this week, for pre-induction physical examinations.

One man reported this week for induction.

Local Board 14 has been notified there will not be a call for physical or induction for the month of April 1962.

The state quota for Texas draft boards in April calls for 244 men, Colonel Morris S. Schwartz, state selective service director, announced this week. This compares with a quota of 228 for March and 296 for February. The April call is the state's share of a national quota of 6,000 men.

The April quota will be filled with men who are at least 22 years old on April 1, with the exception of volunteers, or those termed officially delinquent under the law, who may be younger.

## Work Started On Enlarging Local Station

Work has begun on the enlarging of facilities at Dudley's Texaco Service Station on the corner of Oak St. and Persimmon St. in Sanderson.

The lot just west of the station has been acquired and the drive will be widened 50 feet. Concrete will be poured on the new drive.

An additional bay will be added on the west side of the building and the new bay will be used for washing cars, with the present wash bay to be used as a second lubrication bay, with overhead connections for lubrication hoses.

On the east side of the building Dudley Harrison, the station operator, will put in a patio and will have vending machines for dispensing of soft drinks and a lounging area for travelers to relax while their cars are being serviced.

The large sign now on the west line of the property will be moved to the new west line and a second side will be added to the sign so that it is legible from both sides.

## Youths Cautioned Of Vandalism

Terrell County Sheriff Bill C. Cooksey told The Times Wednesday that eight local youths had been cautioned against future acts of vandalism. He stated that the parents of the youths were appraised of their admitted guilt of recent vandalism to highway signs in this vicinity.

Sheriff Cooksey stated that the youths had changed the location of signs on the highways and had also broken down some of the signs.

J. R. Coker, local highway department maintenance foreman did not file any charges against any of the youths, Sheriff Cooksey stated, but he added that Mr. Coker said that he would in case of any future acts of vandalism to Texas Highway Department property.

It was pointed out that not only were such acts costly, but they are also dangerous, and future occurrences would result in the prosecution of guilty parties, Mr. Cooksey stated.

It was reported that it had been stolen in Lubbock the previous day. Davis brought the pair to Sanderson where they were jailed to await the arrival of Lubbock County officers.

In a confession, one of the youths admitted stealing the car from a Lubbock used car lot. They said they had driven to Odessa and El Paso before coming to Sanderson.

AUSTIN—After the labor unions gave Houstonian Don Yarbrough their coveted COPE "Commendation", some sections of the Political Association of Spanish-Speaking Organizations started worrying about joining the state body in a PASSO pronouncement for Gov. Price Daniel.

First splinter off the block was Hidalgo County chapter — third largest PASSO unit—which voted 44-16 to make no endorsement in the governor's race.

Yarbrough made no comment as he rounded the Gulf Coast area to line up more support.

He's been conspicuously absent from his Austin headquarters, while all other statewide candidates touch base here frequently to counteract the almost constant presence of gubernatorial candidate Will Wilson and the incumbent who dwells in the mansion.

Daniel almost had trouble getting his campaign off the ground when a Department of Public Safety plane nipped its wing while lifting the governor off Austin ground for a Houston appearance. The party changed to a private plane, and proceeded to inspect the Carra-damaged San Jacinto Monument with representatives from the State Board of Control, Building Commission and State Archives.

Former Secretary of Navy John Connally also suffered aerial setbacks in his search for support. Bad weather prevented him from landing for San Marcos and San Antonio speaking engagements. When the clouds cleared he carried his campaign to Laredo.

Sen. Jarrard Secrest, Democratic candidate for lieutenant governor, followed Connally to Laredo to speak to PASSO supporters where champion traveler Tom Reavley joined him to get help for his attorney general's race.

Secrest announced the opening of his Austin office this week with a blaring banner on the avenue leading to the Capitol.

Will Wilson started crowding Daniel's position as patron of Texas teachers. Wilson stated that Texans need to take a "long, hard look at the curricula of our schools — and then pay a little more attention to the advice of professional educators instead of well-meaning but ill-informed amateurs." He also suggested higher pay.

Carr's office is just a block and a half from the Capitol grounds. Les Proctor, another attorney general candidate, has his headquarters in a long silver trailer, across the street from the Capitol.

GOP Hopes To Blanket State

After State Democratic Executive Committee officials slung verbal arrows at the Republicans for not holding primary elections in every county and precinct, the GOPs embarked on a campaign to finance a primary in every county.

Paul Desrochers at Republican State Headquarters said, "We're working like mad to get a primary in every county." Two obstacles stand in the way: Getting funds in about 235 counties where the party has county chairmen, and getting chairmen for the other 19 counties.

Some Republican candidates have a regional flavor—like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representative hopefuls for 77 counties; and congressional in all but seven districts. Republicans still want general ballot representation for the winners among its two gubernatorial candidates, two candidates for lieutenant governor, and those seeking posts as congressman-at-large, commissioner of agriculture, general land office and on the railroad commission.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharp of Houston, former US Secretary of Air Force, chairman of the Republicans' finance committee.

**Avocados for Elegant Eating**

Potato salad, all-American favorite, goes elegant in "Sumptuous Salad." Cubed potatoes, diced red apple, luscious avocado halves and sour cream dressing make hearty, "he-man" eating.

Avocados are usually very firm when they come to market. Because they can be used so many ways, it's wise to buy several at a time and keep at room temperature until eating-ripe. Smooth-skinned varieties of California avocados are ready to eat when they yield to gentle pressure in the palms of your hands. To test dark, pebbly-skinned varieties, insert toothpick at stem end; if it slides in easily, the avocado's ready to serve. Cut lengthwise completely around, twist halves apart gently, whack seed sharply with knife blade, twist and lift out, then strip off skin.

**SUMPTUOUS SALAD**

- 2 avocados
- Lemon juice
- 1 large red apple, diced
- 1 cup cooked cubed potatoes
- 1 cup dairy sour cream
- 1 tablespoon white vinegar
- 1/2 teaspoon sugar
- 1/4 teaspoon salt
- 1/2 teaspoon grated onion

Cut avocados lengthwise into halves; remove seed. Sprinkle with lemon juice. Toss apple and potatoes. Blend remaining ingredients. Place avocado halves on lettuce-lined plates. Spoon on apple-potato mixture. Top with cream dressing. Serves 4.

**Price, spice and everything nice!**

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized Body by Fisher that's fit for a full-size family inside, easy to park

outside. Still another: tough but gentle one-piece Mono-Plate rear springs that outdo many a bigger car for quiet comfort. Any wonder Chevy II won Car Life magazine's 1962 Engineering Excellence award hands down? (The wonder would be if you settled for anything less—once you get your hands on one at your Chevrolet dealer's!)

not always be harrassed and harangued by the national administration. It looks like Veep Lyndon B. would have indoctrinated them with Texas history before now if he was a true Texan. I'll bet they know the history of Johnson City, Texas.

But anyway, now that Robert is at home and back in the office, Jacqueline has taken off to see the Pope and will go on to India, and no telling where all else before she gets home.

We suppose that in any administration there has to be a whipping post. Truman took his flogging trips, Ike liked golf, and JFK uses his family as the fall guys and sends them on off their international or world cruises.

Jackie has done a better job of winning the hearts of the people of foreign lands, much better than many of our late statesmen combined. Her charm has gone a long way in smoothing the waters of discontent in faraway lands by her appearances there and it might be that a new door of diplomatic strategy has been opened. Of course, this will only work as long as other nations use male representatives. But it could be the means of bringing us back to the real statesmen, if the other nations would adopt the idea of female diplomats.

**Linda Discards Braces, Crutches; Mother Praises March of Dimes**

(EDITOR'S NOTE: Dorothy E. Breese, young Columbus, Ohio, mother, tells of the remarkable progress made by her daughter in overcoming the disability caused by a severe birth defect.)

By DOROTHY E. BREESE

My little Linda has done far more things in her five years than most people even dream of being able to do in an entire lifetime.

As the March of Dimes 1961 National Poster Child, she met President Kennedy in person and rode on a float in his inauguration parade. She starred in an hour-long television program with some of the country's most popular television and movie stars.

Linda has traveled from coast to coast and seen her picture in nearly every newspaper printed. She has autograph books filled with the signatures of celebrities and famous people she has visited.

These are just some of the things Linda has done that are beyond the reach of most of us. But the one thing we wanted most for her was something the average person takes for granted—the ability to walk alone and unaided.

There were many times during the years that my husband, Dean, and I thought that Linda would never be able to throw away her braces and crutches. And to be truthful, there were terrifying moments when we feared we might even lose her.

Linda was born with an opening in her spinal column, a condition known medically as spina bifida. As a result, her body was seriously affected from the waist down.

When she was only a few hours old, Linda underwent a delicate operation that partially corrected this condition. The surgery was performed at Children's Hospital in Columbus where subsequently The National Foundation with March of Dimes funds established the first of its Birth Defects Clinical Study Centers in 1959.

When she was nine months old, it was found that Linda had water on the brain, which has the medical name of hydrocephalus. This condition was

Linda at 23 months after two operations for birth defects.

... Linda today, now able to walk without her crutches or leg braces.

treated by the insertion of a "shunt" tube which drains the excess fluid from the head into the blood stream.

You can imagine how much we worried about our little girl in those early days, because we knew she was never far from death. It could have come at any time. After all, 250,000 infants are born in this country each year with a significant birth defect and 21,000 of them die.

But Linda continued to improve. She received specialized treatment at the March of Dimes-supported center. She got her leg braces and crutches. Linda hated them, but she learned to use them.

When, though—if ever—would she be able to run and play with her sister and two older brothers and the other neighborhood children? The answer to that question depended on Linda, her doctors, the rehabilitation therapists, and us. We all worked together. We worked long, and we worked hard, but it was worth it.

Only the other day, Linda took her first halting steps across our living room without her crutches or leg braces. It was an unforgettable experience. In my excitement, I telephoned the good news to everyone I knew—and probably quite a few I didn't know. It was a real shout-from-the-house-tops event.

Linda has won through. She improves every day. Now her trips to the birth defects center have been cut to just one every three months. Best of all—we have been able to enroll her in kindergarten.

Dean and I and the children remember the gloomy days. We know that many other parents of afflicted children are going through similar days of anxiety and heartbreak right now. But we also know that The National Foundation-March of Dimes is looking for the cause and cure of birth defects. March of Dimes contributions led to the triumph over polio, and I'm a firm believer in the slogan that "Your Dimes Will Do It Again."
