## LISTEN TO LUKE

We were interested in the outlook of the voters in the election on Saturday and now that it is over we find that we are more interested in their outlook. Through this interest is to try to find some way to understand the voting habits of people.

Terrell County carried the ball as an admitted far-left wing of the person of Don Yarborough set strong for a conservative attorney general's race, despite an arch conservative liberal candidate in the electoral commissioner's race turned down an arch rightist U.S. Congressman from this district.

and on the same ballot voiced choice for Bean for Congress-ist-at-large after his professed are to have paid his income for the past 10 years.

We suppose this may have an endorsement of the people of the anti-income tax idea that's about all we could get of it.

We are not suggesting any of friends try not filing a for the next ten years unless they want to look at the end of the bars of a prison. We doubt we could get by with it.

and we have heard some talk about people being a Democrat found out what a Democrat is at this primary.

Democrat is any person with political philosophies that between those of Don Yarborough and Edwin A. Walker, as strong desire to uphold the law as Will Wilson says he is willing as is W. W. Bean disregard certain laws; and as eager for the state constitution as much as possible, as assessed by J. Evetts Haley, as posed by the federal-control agricultural industry plans of C. White.

you fit between any of these extremes, or if you pay your poll and can by any stretch of imagination vote for any of them, then you are a Democrat! Now there are certain people who have ideas that they should have to go along with one of the candidates or another, but they prove, beyond any argument of politics, that a Democrat can be anything and anything can be a Democrat.

until a better definition comes and is practiced by all who profess allegiance to the party going to keep my own definition.

figure, as we said, that the endorsement of Bean was an endorsement of the voters of an income tax idea. Possibly, there are other things involved.

The laws of our nation and of state are not for a selected few, and are not to be ignored for others. They should be the action for all of the people.

When each of us, or any of us ourselves up as legislators on the side of the legislature, then are in the wrong place.

## Texas Fifth In Education Costs, 26th in Per Capita

Texas state government in the fiscal year ending in June 1961 paid out the nation's fifth largest amount of money for educational purposes, the Dallas field office of the U.S. Department of Commerce reported.

During the fiscal year, the state spent approximately \$506,446,000 for the education of its students, an amount exceeded only by California, New York, Michigan, and Pennsylvania. In doing so, however, Texas dropped from third place in rank among the states in 1951 to fifth place in 1961.

Texas' per capita expenditures last year of \$31.74 took it from 12th position among all states in 1951, to 26th place last year.

The manager of the Commerce Department's Dallas field office said an analysis of a report just released by the Bureau of the Census on state government finances revealed that Texas more than doubled its out-go of funds for education in the past decade.

## Plans Retirement -

Mrs. W. H. Savage

Mrs. W. H. (Sybil) Savage will retire at the close of the current semester after teaching in the Sanderson schools for 20 years.

Except for one-half a year, she has spent her entire teaching career teaching high school English and estimates that she has taught about 2,500 boys and girls. Most of that time she was senior class sponsor and also directed numerous senior plays. She has been sponsor of the National Honor Society in the Sanderson High School since its inception and is also sponsor of the Sybil M. Savage Future Teachers of America Club, named in her honor at the time of its organization here.

A daughter of the late Mr. and Mrs. J. W. McKee, Mrs. Savage has resided in Sanderson most of her life. She was graduated from the Sanderson High School as was her husband and two sons.

She received her Bachelor of Arts Degree from the University of Texas, majoring in English and also attended Southwest Texas State College in San Marcos for a year. She was elected to membership in Phi Beta Kappa, national honorary scholastic fraternity, and Kappa Delta Pi national educational fraternity.

Mrs. Savage is a member of the First Presbyterian Church, having served as president of the Women of the Church, as Sunday school teacher and as a member of the choir.

Other organizations to which she belongs includes the Order of Eastern Star of which she is a past matron; Auxiliary to the Clarence Hallie Mulkey Post of the Anei can Legion where she has been Girls' State chairman for a number of years; Brotherhood of Railroad Trainmen's Auxiliary; Beta Iota Chapter of Delta Kappa Gamma which she served as secretary and treasurer for three years each; member of National Education Association of the United States; Texas State Teachers Association, and is past president of the local unit of the T.S.T.A.; member and past president of the Davis Mountain Federation of Women's Clubs; a charter member and past president of the Sanderson Culture Club; past president of the Parent-Teacher Association.

Mr. and Mrs. Saavage have two sons, W. H. Savage Jr., of Ardmore, Okla., and Jack M. Savage of San Antonio; also two grandsons and two granddaughters.

Mr. Savage retired as a T&NO conductor about two years ago.

When inquiry was made as to Mrs. Savage's plans for her retirement years, her reply was "read". Noting the many organizations to which she has belonged and in which she has worked actively, added to the duties of her career as a teacher and also as a homemaker and mother, probably she will appreciate the time to pursue what is one of her favorite pastimes.

# Listen To Luke -

Continued from Page 1-

The laws of our country are for our protection and for our punishment, depending upon how we conduct ourselves. Just as the person who filches a package of chewing gum is a thief the same as the person who steals millions, the person who violates one law, regardless of which one it is, is a law violator, regardless of the severity of the violation or the punishment.

Our Constitution offers us certain privileges, and it also has certain curtailments. Along with the privileges, we have responsibilities.

Law enforcement officers and judges are not a peculiar breed of people who are the only ones who have the obligation of upholding the law - that is the duty of every person who enjoys the privileges of citizenship in this country.

Anything short of that is not good citizenship.
