

Politics will reign supreme this week, despite Cuba or any thing else.

After some indecision, wavering, studying and a lot of confusion, we, at the Star, have finally made a choice for Tuesday's polling.

Buried on Page two, you will find a list of candidates supported by the Star and the reasons for the support. My choice may not necessarily be one with which you could agree, but that is the reason for having elections.

You will also find in the Farm and Home supplement to this issue, a number of articles about many of the candidates in this race. If you do not agree with me, I invite you to look over the other candidates in the race and make your own choice.

The most important thing is to vote and vote to the best of your ability for the person which you believe will do the best job -- not only for your particular district but also for the state -- not for just the present but also for the future.

--TH--  
The wife and I broke away from the grind last weekend and attended the Texas homecoming. When we left, we thought we would be leaving other Frionans behind.

While looking for a hole in the crowd through which we might watch the parade, we met Mr. and Mrs. Paul Spring. After the parade, we met Mr. and Mrs. Paul Spring. After the parade, we turned around and almost bumped into Martell LeVeque, and thus the weekend went -- Very enjoyable.

--TH--  
The young spooks and goblins moved out in force last night. I didn't realize there were so many trick-or-treaters until this year.

I spent the night at the same location as last year so I am sure a change in location didn't make the difference. There were very few interruptions last year but the masked figures kept up a parade for three hours with hardly a letup this year.

Maybe they have decided it is a good thing -- Halloween. There were some cute ones though.

Kitty (my wife) started the evening by coming in from the classroom with a wolf's mask. It was of such bulk and shape that I had to resort to the watching of mannerisms to recognize her. The long wolf snout and bared fangs created quite a stir for a moment in the plant. I suppose a teacher must show her pupils how to wear a mask.

### Special Section For Candidates

Voters are asked to turn to the Farm and Home section for details on the major political races, including platforms of the candidates.

There is also a discussion of the 14 constitutional amendments to be voted on.

### Wilson Opens Auto Service

Open for business this week on West Highway 60 is Automotive Ignition Service, owned and operated by Johnny Wilson. In addition to offering repair service, the firm carries a complete line of parts and supplies.

Wilson, formerly manager of Friona Battery and Electric, has lived in Friona about ten years. He is a graduate of Texas Tech and has been engaged in the automotive parts and repair business since World War II.

Mr. and Mrs. Wilson and son, Mike, live in the north part of town.

Wilson says, "We are open for business and want every car, truck, pickup, tractor or industrial engine owner to visit us any time he is in need of repairs or service."

IT'S HOT . . . Dianne Taylor grasps her throat, while Tex Phipps looks on in sympathy(?). The scene is from the Friona Junior class play, "Everybody's Crazy," which will be presented next Thursday night, November 8.

### A TIME OF CRISIS

Election is only five days away. It is an election held in a time of national crisis. The eyes of the Kremlin will be upon Texas and every state in the nation, and we cannot get away from our responsibility to vote.

One question the rulers of Soviet Russia, of communist-ruled China, of Cuba and the other satellite-slave states will be keenly interested in is: are Americans going to use fully the privilege of voting that is one of the rights that only free men enjoy? All the others represented in the United Nations, neutral or wavering, will be watching our election returns. A half-hearted turnout of the voters will spell political apathy. Do Americans really value the right to vote, which they want to be extended to the people of all nations as soon as they are ready for it? Popular elections are basic to democracy -- but not what the Russians call democracy, which in their language means government of the people by self-chosen and self-perpetuating rulers, for what they tell the people is best for them.

Representative elective government depends for its continued existence, as Thomas Jefferson pointed out, on having "an enlightened electorate." It also depends on the right to vote being used by the most enlightened part of the electorate, who otherwise surrender their privileges of self-government.

So we say: study your opposing candidates' ability, integrity and their platforms. Go to the polls as well informed as you can make yourself. Go and vote as your head, your heart and your conscience tell you to do.

Even in presidential elections, few more than half of American registered voters cast ballots. Of all crucial times, this is no time for indifference. Vote on November Sixth, a red-letter day of our destiny.

County voters are only a small portion of the overall election picture, but if each little part is not present, the picture will remain forever incomplete.

VOTE FOR OR VOTE AGAINST, BUT VOTE.

QUEEN'S COURT . . . Members of the "Royal Court" are shown following halftime ceremonies at the Homecoming game last Friday. Left to right are Mary Ethel Wilson, Marca Lynn Nassie, Janet Buckley (football queen) and Kay Burleson. Not shown is the fifth candidate, Sandra Hoover, who was hidden in the photo. Dale Smith is the chauffeur.

### AND CAMPAIGN DATE

## United Fund Sets Goal

Friona's United Fund Campaign for 1962 set its budget and kickoff date in a meeting this week.

A goal of \$5,930 was established by the committee, which met Monday evening at the Community Room of the Friona State Bank.

The figure represented an increase of only \$50 over last year's goal of \$5,880.

The kickoff breakfast for the UF drive was set for Tuesday morning, November 13, at the Fellowship Hall of the Methodist Church.

Reason for the increase lies in the fact that one new benefit has been added to the Fund, and two others received slight increases.

The new organization to benefit from the Fund drive this year is the Medical Research Fund of Texas.

The Medical Research Fund of Texas, which operates through the University of Texas Medical Schools, makes it possible

for young doctors to do research in specialized fields of their choice.

The individual beneficiaries of the United Fund Drive, and the amounts approved for each to receive are:

Boy Scouts -- \$1,500, same as 1961 budget; Girl Scouts -- \$1,230, same as last year; Red Cross -- \$1,200, same as last year.

The Salvation Army -- \$1000, a raise of \$100 over last year; United Service Organizations -- \$350, a raise of \$100 over last year; Medical Research Fund -- \$150 (new); Emergency local fund -- \$500, a reduction of \$250 from previous years.

Teams of volunteer workers will gather for breakfast November 13, and then begin the campaign in their respective areas, in an effort to wind up the drive before Thanksgiving.

Co-chairmen of the Friona campaign this year are H. K. (Pudge) Kendrick and Carl Maurer.

### GOOD TURNOUT SEEN

## Voters Ready For Big Election Day Tuesday

Tuesday is election day in Friona and Parmer County, and voters are poised on the eve of what promises to be one of the more interesting "off year" elections in these parts in many years.

Reason for the added interest is the fact that the Republican party has made a real go of it this year, and is rated a shot at the governor's chair "for

the first time since reconstruction days" in many circles.

There are 12 Republicans on the ballot which Parmer County voters will see, which still leaves 17 offices uncontested, but most of the major state and district offices promise heated battles between the two parties for the first time in many years.

Republicans are fielding more candidates this year in the state than ever before. There are 18 candidates for the U. S. legislature, compared to a previous high of five, 85 for the

state legislature, against a former high of 17, and 15 for the state senate, where only three ever ran before.

One of the Republican candidates for the state senate is John Zahn, Farwell, who opposes veteran senator Andy Rogers of Childress in the District 30 race.

This race, along with the state representative race, which pits Democrat Bill Clayton of Springlake against Republican Frank Ford of Hereford, has drawn particular in-

terest in the Parmer County area.

Other races of interest are the governor's race, with John Connally (D) battling Jack Cox (R); the race for U. S. Representative, 18th District, featuring incumbent Walter Rogers (D-Pampa) against Jack Seale (R-Amarillo), the nation's youngest mayor; U. S. Representative at large, where Des Barry (R-Houston) battles Joe Pool (D-Dallas), and the lieutenant governor's race, featuring

### DISTRICT GAME

## Chiefs Travel To Morton Friday

Friona's Chiefstains hit the road this Friday when they travel to Morton for their second District 3-AA contest. The Chiefs will be trying to put together four quarters of football like they played against Dimmitt in the first quarter last Friday, in order to end their losing streak.

As far as size goes, the Chiefs won't have much of a respite this week. They're playing possibly the largest team they've faced all season. But, since practically every team on their schedule has had a big size advantage, maybe it won't matter much.

But Morton is especially big in the interior line. "They average 200 pounds from tackle to tackle," said Coach Kenneth

Miller in describing their size. "They also have a 208-pound fullback," Miller added.

Actually, the Chiefs didn't allow Dimmitt's 200-pound fullback, Jacky Nichols, to run over them. He was held to only 23 yards in five carries last week.

"Our only hope is to try to outrun them. We can't hope to do anything against their line," said Miller.

The Chiefs had another backfield man injured in the Dimmitt game when Milton Hargus was tackled into the steel pole used on the down-marker. He hasn't worked out to speak of this week.

Otherwise, the Chiefs have maintained their "status quo" physically. Sophomore tackle Joey Taylor sprained an ankle in workouts.

Backs Everett Gee and Tommy Baxter were still slowed by ankle and leg injuries they have been nursing. Baxter re-hurt his ankle in the Dimmitt fray. Both are expected to play against Morton, mostly on offense.

Quarterback Gary Renner, sidelined by a lung injury suffered against Bovina, will be out at least two more weeks. Coaches think he will be able to play in the final game of the season.

Coach Miller had words of praise for the play of sophomore quarterback Jim Sneed against Dimmitt, the first time he has been under fire. Sneed passed to Doug Dodd on a fourth down play for Friona's only score and an early 6-0 Chief lead last week.

## A NEW ERA

Texas are witnessing one of history's most significant political realignments. Within the past two years the advocates of free enterprise, personal initiative, limited government and maximum human liberties have swelled from a handful to a multitude. No more a political curiosity, the "oddballs" as they appeared to be just a few short years ago have leaped into such prominence as to rock the very foundations of Established Politics. This metamorphic movement has manifest itself on a nationwide scale, but nowhere else has it caused more wide-eyed wonderment than here in Texas.

The people who proclaim themselves "true Democrats" but who might more accurately be described as "captive Democrats"—those who bow and scrape to the decrees of the national party leaders and who dance the tune fiddled by the national policy makers—are agast at the movement in their beloved homeland. It's like finding Yankees behind every bush, huh. These befuddled souls have hidden themselves from the facts of life. They must be true escapist, because the groundswell they now decry shook and trembled under their feet for many years in the state Democratic Party. And now, like in the pages of Henney Penney, they shout that the very sky is falling.

Control of the state party has rocked back and forth between the Old Guard and the "reactionaries" as they were erroneously labeled, since 1952 when Allan Shivers shocked party loyalists to the core by walking out on the national party and casting Texas' influence with Eisenhower, the GOP nominee.

This year for the first time in history, Texas is making a serious effort to become a true two-party state. Since the days of reconstruction this has been regarded as a political impossibility, but after the election of John Tower two years ago the scales were tipped. It now appears not only possible

but probable that Texas will emerge as a two-party state. The only thing left to be resolved is when. Most observers think this "off" election year and the "on" election year of 1964 should do the trick.

Two things need to be remembered while all this is taking place, however. One is that Texas has for years had an actual two-party system, although it has operated under the Democratic name. The division between the liberal and conservative camps (to bring out a couple of labels to aid in discussing the issues) are deeper and wider than mere organization cracks. Texas Democrats have been divided into two distinct groups for years. The other thing that needs to be remembered is that the renegades who are leaving the Democratic vessel to launch a Republican ship are not "Republicans" any more than they were ever "Democrats". It is not the party, but it is the condition of mind that distinguishes them from their old line neighbors. The national policy of the Republican party is not the touchstone of their belief any more than were the attitudes of the Democratic party on a nationwide scale.

Today's Texas rebels aim to think for themselves. They have positive ideas about the fundamentals of government. They will not be warped by policies shaped around political expediency. They will no more succumb to a socialistic Republican Party than they will a socialistic Democratic party. They choose to run as Republicans in order that they might be delivered from the stigma that haunts everyone in Texas who professes to be a Democrat, namely that he endorses the New Frontier because he wears the party label.

We are witness then, to the dawn of a new era in political thinking in Texas. Within a few years we may be able to abandon such titles as Republicrats, Shivercrats, and Dixiecrats for more precise terms. The only thing we pity about this revolution is that the abandonment of the Democratic Party in Texas by the rebels will leave that grand name to the New Frontiersmen. This is the way they want it of course, and in fact is even sufficient reason for some of them to commit the only Unpardonable Sin and vote Republican to help purge the party of undesirables. Such treasonable action is especially tempting in the case of the gubernatorial race. Typical

loyalist logic: "Since Connally is now disavowing his allegiance to our national party leaders and his election would be odious, wouldn't we be just as well off to help elect Jack Cox and chase our conservative enemies off into the Republican corral?" As we say, such thinking borders on the heretical, but it makes sense in the field of practical politics, and the Demo loyalists know it (having been masters of practical politics for forever).

In this editorial, we propose to endorse a candidate in each race and to give, briefly, our reasons. One of the main factors influencing our choices has been the revolution described in previous paragraphs. We view this as the most encouraging ray of hope that advocates of freedom principles have seen in this generation. Therefore, when a person who offers himself as a candidate for office embraces this movement, we have an overwhelming compulsion to endorse him, provided his is believed to be morally and otherwise qualified.

Our endorsements are as follows:  
**JACK COX FOR GOVERNOR.** John Connally, although drawing considerable support from the old Inter-Democratic Party conservative group, is a middle-of-the-roader and a bird of confused feathers. He espouses individual liberty and limited government in his campaign oratory, but his background of service with the advocates of the New Frontier do not leave him untainted. Jack Cox, once a Democrat, is displaying his colors in full view of the voting public. There is no question where he stands on vital issues. His ideologies are along libertarian lines. He stands firm against federal aid to education, an issue that is sure to be a vital one in the next few years. He is a leading advocate of Texas' precious right-to-work law which is in jeopardy. He believes in freedom for Texas farmers and has pledged to fight to throw off the tongs of bureaucracy from Washington that have pinched our agricultural areas until we now are literally selling our birthrights for a mess of pottage. Jack Cox will be loyal to his principles, not any party. He will not support liberal candidates or platforms, either nationally or locally. Jack Cox will oppose the efforts of the people planners to make socialized medicine our next step toward a complete welfare state. Jack Cox believes that government closest to the people is best. Many

months ago Jack Cox pointed out that Americans have no choice but to defend their freedoms and carry out the principles expressed in the Monroe doctrine. The wisdom of his beliefs has become abundantly clear in Cuba. Jack Cox is a man of strong religious and moral principles, a lay minister in a protestant church. Jack Cox is qualified for his office after having served six years in the Texas legislature. Finally, he is independent of Washington control. Can any other candidate make that statement?

**PRESTON SMITH FOR LIEUTENANT GOVERNOR AND WAGGONER CARR FOR ATTORNEY GENERAL.** The Plains 'is proud to have two representatives for major offices at the state level who are eminently qualified for the positions they seek. Both run under the Democratic banner, but both espouse conservative ideologies. They deserve our support. Both have excellent records of service in state government. Carr is the Plains' only hope of supplying a governor for the state in the next ten to fifteen years. There is no reason to vote against these men and many reasons to vote for them.

**DESMOND BARRY FOR CONGRESSMAN-AT-LARGE.** Barry's Democratic opponent, Joe Pool, is an "old-school" Texas conservative from the camp of Allan Shivers, but he is overshadowed by Barry, who leaped into national prominence for his fight against organized labor's domination of private business. Barry singlehandedly fought off the Teamsters Union in Houston. Texas and the nation desperately need men of Barry's stature to defend fundamental American principles. A salient quotation: "I am perturbed at the continued promotion of national government schemes based on philosophies with a historical record of failures that are destroying our freedoms, have lost us the respect of the world, and have brought our nation to the edge of bankruptcy. I fear not the problem, but the cause!"

**HARRY HUBBARD FOR COMMISSIONER OF AGRICULTURE.** Anybody but John C. White.

**JACK SEALE FOR U. S. CONGRESS.** Jack Seale's ideas are what today are described as "extreme." Thirty years ago he would have been a moderate. If Seale goes overboard on his thinking once in a while by the standards of the day, we are not so sure that it is him, but maybe the standards of the (Continued on page 4, Section II.)

**HE TURNED OFF THE ALARM**

No doubt you've done it yourself, turned off the alarm and then gone back to sleep. It's a bad habit, and sometimes can lead to serious consequences.

Infinitely more dangerous, however, is the habit of shutting off the alarm which God has placed into every human heart, namely the alarm called "conscience."

All of us can understand that in this our day, our great America needs a wide awake President and Legislature, and an extremely alerted Army, Navy and Air Force. But we must recognize that a truly awakened conscience is still more important. If every conscience in this our Land were as sensitive to its burden of personal guilt as it should be, there would be a run on Christian churches, unparalleled in our history.

An awakened conscience is the only soil in which the Christian Gospel can take root. Only that heart which has been terrified by the enormity of its transgression, can experience the regenerating power of the forgiveness which God offers to all men through Jesus Christ.

The message of God to America's millions is still the age-old call: "Repent and believe the Gospel!" Hear it at - Friona Lutheran Church, East 7th. St. and Washington Ave. (in the Legion Hall), with Worship services at 8:30 A.M. and Sunday School and Bible class at 9:30 A.M.

**Voters Ready--**

ing Preston Smith (D-Lubbock) against Bill Hayes (R-Temple).

A total of 16 persons had voted absentee as of Monday, although this may not reflect disinterest on the part of the voters. "Because of the Cuban crisis, most folks are just afraid to go very far from home," County Clerk Hugh Moseley said.

Voters are requested to observe instructions by marking out all candidates in each race which they do not care to vote for, or else their votes may not count in that particular race.

**Something To Think About**

There is reason to believe that the most urgent need of the world today is a Spiritual Restoration that can come only from the preaching of Christ for the obedience of faith for the remission of sins... Never has there been so many names on church rolls in America. More than sixty per cent of our nation claims some religious affiliation. But even so, never has it meant less to be a church member. Ours is a day when Christ is being honored through lip service only. There are external signs of Christianity, but it is a weak, placid, comfortable form of religion. It is a religion that is more concerned about a "good conscience" than it is the gospel of Christ; one that is more concerned about pleasing the carnal desires of man than it is pleasing the righteous dictates of a merciful God. Ours is a day when those who make no profession of Christianity can say to many who profess to be followers of Christ, "We are out-living you every day in every way." We need a spiritual restoration that puts the emphasis on "living Christianity" rather than professing it; a spiritual restoration that holds up the Law of Christ rather than the doctrines of men; a spiritual restoration that not only leads men to Christ, but will keep them faithful until death. Anything less is a poor foundation upon which to build one's spiritual life.

**come to church Sunday**

"Then answered Peter, and said unto Jesus, Lord, It is good for us to be here;" (Matt. 17:4a). These were the words of Simon Peter upon the Mount of Transfiguration. There were a number of reasons why Peter made this great declaration. First, because the fellowship was so sweet and wonderful. Second, because of those who were present. Peter, James, and John who accompanied the Master to the Mount of Transfiguration but there also appeared on the scene Moses and Elias. Third, God expressed Himself as being well pleased with His Son and commanded the disciples to "Hear Him." Fourth, and perhaps one of the greatest reasons was because Jesus was revealed in His glorified state thus preparing His disciples for the experience of the Cross and His Resurrection. To the disciples who were on the Mount of Transfiguration that day it was truly a great experience. However we too may share a similar experience by taking advantage of the opportunity afforded us each Sunday at the church where we worship. We can enjoy the sweet Christian fellowship, find His Will for our lives and feel His Divine Presence.

# THINK, IRRIGATION FARMER!

WATER is a commodity so precious that no tyrant has ever dared deny it to his people.

The earliest records of our civilization are linked to the spring and the waterhole, the river and the well.

The Children of Israel faltered in the wasteland and were ready to revolt until Moses struck the rock and brought forth a spring.

Wars have been fought over water rights and mighty nations have vanished because their water resources failed.

*In view of these facts, can you afford the luxury of irrigation "TAILWATER"??*

## BUT CHIEFS SURPRISE

# Bobcats Spoil Friona's Homecoming Tilt, 48-6

If there had been a flash flood at Friona after the first quarter of last Friday's football game, the Chiefs could have claimed a stunning upset.

At least, Friona had held the powerful Bobcats in check for all of the first quarter, and held a surprising 6-0 lead. It isn't certain whether even a flood could have stopped the ram-paging Bobcats during the remainder of the game.

The smaller Chiefs, who played Dimmitt off its feet for the first 12 minutes, just couldn't hold up under the attack of the charging Bobcats, and finally were beaten into submission, 48-6, for their 24th consecutive loss in the homecoming game for Friona.

Friona won the toss, received the kickoff, but had to punt. Dimmitt took the ball, but Friona's defense held the 'Cats to only two yards in three plays, and they had to punt.

When the Chiefs were able to pick up only a yard in two tries at the big Dimmitt line, S. D. Baize quick-kicked on third down, getting a good 53-yarder to the Dimmitt 14.

Dimmitt then lost a yard in three tries and faced another kicking situation. But the punter

fumbled the ball, and Max Reeve alertly claimed possession on the Bobcat four-yard line.

Tommy Baxter failed to gain, as Dimmitt girded for a goal-line stand. Jim Snead gained two yards on two carries, and on fourth down, the sophomore signal-caller, taking over from the injured Gary Renner, tossed a pass to Doug Dodd, who made a nice catch in the end zone for a 6-0 lead.

After the kickoff, Friona once again held Dimmitt, and used the quick-kick again when they couldn't move the ball themselves. The first quarter ended and to everyone's amazement, Friona led, 6-0.

Dimmitt picked up the first down for either team on the first play of the second quarter, and on the fourth play halfback James Cowell raced 21 yards to break the scoring ice for Dimmitt. A pass for the points gave the Bobcats an 8-6 lead.

Dimmitt wasted no time adding to their lead. They drove 58 yards in six plays the next time they had the ball. Jim Cowert getting the touchdown from two yards out, and another pass for points made it 16-6.

End Billy Thomas intercepted two Dimmitt passes late in the second quarter, and it seemed that Friona might get to inter-mission trailing by no more than ten points, but a short punt gave Dimmitt the ball at Friona's 33, and on the first play, Cowell ran for the TD with 28 seconds left in the half, and a 22-6 Dimmitt lead.

The Chiefs never could regain their poise of the first quarter. Dimmitt took the second half kickoff and marched 65 yards steadily for the score. Cowell got it from five yards

out, and another pass for the PAT made it 30-6.

Another short punt, which got high into the south breeze set up the next Dimmitt score, although Friona almost was saved by a Bobcat fumble. The alert Cowell picked off a pass, however, and scampered 25 yards to make it 36-6.

That was the third quarter score, and Dimmitt got to work again in the final period, as the Bobcat regulars stayed in the game. Quarterback Jim Ratcliff hit Gary Winkle on a 61-yard scoring pass for a 42-6 Dimmitt lead. Winkle then capped the night's scoring by going eight yards with 6:33 left in

the game.

Friona had one last chance to score, when officials gave them one of their few breaks—a pass interference penalty against Dimmitt. Snead ran 19 yards to put the ball on the 20, and then ran to the 17, but Dimmitt braced to hold the Chiefs.

Friona had held Dimmitt to only four net yards in the first quarter, although the angered Bobcats came back to hold a commanding edge in statistics. The pass for Friona's touchdown, coming on a fourth down play, was the first pass of the night, and the only one the Chiefs were to complete.

## Frosh Drop Toughie To Springlake, 20-12

Springlake beat the Friona freshman football team last Thursday at Springlake, 20-12.

Larry Johnson, halfback, scored one of Friona's touchdowns on about a 50-yard pass-lateral play when Travis Graves caught a pass and lateraled to Johnson.

Fullback Tommy Sherley ran about 20 yards around end for

the other Friona score.

All the scoring was done in the first half. Springlake, which is the only team to beat the freshmen, took the lead and held it.

"Our boys hit exceptionally hard—it was one of their better games of the year," said Coach Gaylon Woodard.

The frosh go to Dimmitt today for a return match at 6 p.m. with the Dimmitt freshmen. They beat Dimmitt 20-0 when the teams met here.

## New Bowling Leagues Begin

The new bowling leagues were announced this week by Friona Lanes. One is a couples league, which will begin Friday, November 2, and the other is an afternoon league for the ladies, beginning Tuesday, November 6, at 1:15 p.m.

All new bowlers are invited to come out and join the new league. It is being organized expressly for new bowlers, it was stated.

# Longhorns Regroup For Bovina

The Lazbuddie Longhorns hope they will be able to field a team at Bovina this Friday, but if last week was an indication, they won't place any bets. The Longhorns expected to be at full strength early last week, but by the time Friday rolled around, they were mis-

sing their quarterback, lost an end, and had a halfback and another end playing with injuries.

The result was that Vega stampeded Lazbuddie, 52-12, in a game the Longhorns had thought they might win. "Our offense was ruined by the injuries, but I don't think we'd have won the game if we had been at full strength," said Coach Charley Walton.

"They either had a lot better team than we thought or else were pretty high for the game. Vega gave us the worst physical beating we've had all year," he

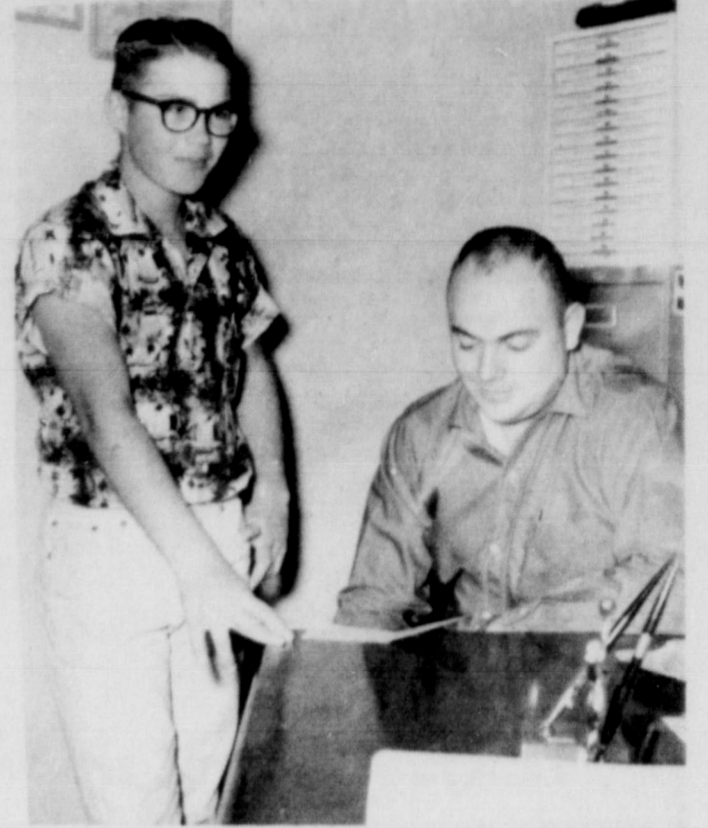

continued. Lazbuddie was forced to play without quarterback Kenneth McGhee, who was found to have a slight concussion, McGhee was injured late in the game against Whitharral the preceding week, but wasn't expected to miss much action at first. Buddy Embry, sophomore end who had been out of action all year with a knee injury, broke an arm his first day of practice last Monday, so will miss the rest of the season as well. End Jerry Engelking and halfback Mac Brown also had injuries from practice last week,

but played although not at full strength.

Fullback Mike Bean scored both Lazbuddie touchdowns, running 30 yards in the third quarter and 22 yards in the final period.

Vega had taken a 30-0 lead before the Longhorns scored. Regular halfback Terry Darling was moved to quarterback, and this hurt Lazbuddie's running game. He is the teams' leading scorer.

"If we get any more injuries this week, I don't know what we will do. Last week we thought we were in the best shape we had been all year, and now it turns out to be the worst," Walton concluded.

FOOTBALL EXPERT . . . Dennis Howell, sophomore football player at Friona High School, shows Coach Kenneth Miller the check he won in this week's Star Football Contest. Howell won first place and \$5.

## Teams Sweep Two From Olton Here

Friona Grade School football teams swept two games from visiting Olton Tuesday, to wind up their seasons. The win was the first of the year for the seventh grade, while the eighth grade finished with a 2-4 record.

The eighth grade team won by a score of 38-8. Ted Renner ran 10 yards for the first score, point try failing for a 6-0 lead at the end of the first quarter.

In the second quarter, Johnny Gonzales went seven yards for a score. Bobby Jordan ran the points. A pass from Renner to Don Hoover covering about 50 yards set up the next Friona TD. Gonzales took it over from the eight. Another pass from Renner to Jim Grimsley for two points made it a 22-0 halftime lead.

In the third quarter, Olton scored on a 65-yard run to cut the lead to 22-8, but Friona widened the gap on a Renner to Grimsley pass and Renner added the points for a 30-8 score.

Tommy Jarecki completed Friona's scoring by going seven yards. Renner passed to Hoover for the points. Gonzales, Hoover, Mike Wooley, and Jarecki stood out on defense, according to Tom Jarboe, coach.

The seventh grade closed out its season with a win, 14-8. The first score came on a six-yard pass from Larry Graves to Delbert Davis in the second quarter, and Graves carried across the two points for an 8-0 halftime lead.

In the third quarter, Davis went off tackle from 15 yards out to increase the lead to 14-0, and Olton scored on the

game's last play to cut the lead to 14-8.

John McFarland, Ruben DeLeon, and Ronnie Altman stood out on defense, said Kenneth Livingston, seventh grade coach.

## Boosters Skip Nov. 5 Meeting

The Friona Booster Club will not meet next Monday, it was announced by its president, John Renner.

The next meeting will be Monday, November 12. The boosters will select the recipient of the "Fighting Chieftain" award, to be awarded after the season.

### Mrs. A.T. Cook Buried Wednesday

Funeral services for Mrs. A. T. (Ruth) Cook of Sherman were conducted from Barrett Funeral Home at 2 p.m. Wednesday by Rev. James Koontz, pastor of Key Memorial Methodist Church of that city.

Ruth Nichols, daughter of the late Mr. and Mrs. C.G. Nichols, was born January 19, 1889 at Tioga, Texas and moved to Sherman with her family in 1895. She was married December 10, 1910 to A. T. Cook and was a long time member of Key Memorial Methodist Church.

Survivors include one son, Col. C. C. Cook, Sherman; five daughters, Mrs. J. W. Koriath, Sherman, Mrs. Oran Dismukes, Allen, Mrs. John D. Sanders,

Friona, Mrs. L. S. Darrow, Animosa, Iowa and Mrs. E. W. Hahan Jr., San Francisco; one brother, A. S. Nichols, Port Arthur; one sister, Mrs. O. B. Winburn, Sherman; one sister-in-law, Mrs. Emma Clark, Howe.

Also fourteen grandchildren and one great-granddaughter, Audrey Kaye Sanders of Mountain Home, Idaho.

Mrs. A.C. Ward of Seminole accompanied Mrs. Sanders and David, to Sherman for the funeral.

Pallbearers were Fred Koriath, Frank Bailey, S. V. Koriath, Truett Davenport, E. R. Brodhead Jr. and George Schumacher. Burial was in West Hill Cemetery.

#### A New Era--

FRANK FORD FOR STATE REPRESENTATIVE. This is a tough choice to make. Bill Clayton of Springlake is one of the most qualified candidates the Democrats could ask for. Moreover, his conservative convictions mirror the attitude of most of the people he will be representing in Austin. However, we will vote for Frank Ford of Hereford. Ford is the personification of the drive and energy and conviction that was described in the opening paragraphs of this editorial, and which is manifesting itself in a new era in American politics. Frank Ford lives the life of what we call "the ideal American." He works hard to provide for himself and his family. He is intelligent, sensitive to the world around him and knowledgeable about problems which threaten our way of life. He participates in churchwork and community service movements. He is the anti-politician personality. He won't go to Austin with any influence, but we can count on him to do his best while there. He is not afraid to speak out, and even when he is wrong there will be no doubt about how he feels. This is a quality we greatly admire in a man and one we know that we desperately need in all levels of government.

ANDY ROGERS FOR STATE SENATE. Andy Rogers has experience in the legislature and has the interests of his district at heart. He has worked for legislation which would help the people of Parmer County and will continue to do so.

Andy Rogers is for the right to work law which has been a major issue in Texas. He is against more government and monopoly controls and minimum wage for agriculture workers. day that are out of their proper channels. At any rate, Seale, whom the people of Amarillo think enough of to elect as their mayor, represents a sure departure from the rubber-stamp "me-too" political philosophy which has characterized too much of our national government in modern times. His campaign motto of "Do you want courage or influence in

Washington?" is well-phrased. It is time voters began to vote their consciences instead of their pocketbooks. Walter Rogers can be best described as a political moderate. It turns out that he is pleasing no one, and that is a fate that every fence-straddling office holder deserves.

**Dennis Howell Wins Contest**

Dennis Howell, sophomore at Friona High School, is this week's winner in the Friona Star Cotton Bowl football contest. Dennis, son of Mr. and Mrs. Charles Howell of Route 3, Friona, came up with a score of seven in what turned out to be a week of upsets, and won first prize of \$5.

There were two ties on the contest entry blank last week, so Dennis' entry actually is better than it sounds, since every contestant had two "wrong" games to start with, because of the ties.

Besides the ties (Rice-Texas and Washington-Oregon), Howell missed the Texas A&M-Baylor contest, picking Baylor.

The second and third place entries for the week were taken from those who tied with six correct games. Howell was the only contestant to manage seven right answers.

Taking the second-place check of \$3 Eugene Ellis, who missed the tie-breaker score by only two points. Ellis guessed Dimmitt 48, Friona 8, and the actual score was 48-6. Third was Mrs. W. R. Mabry, who missed the score six points. She guessed 48-0.

Ellis' misses besides the ties, were the Baylor-A&M game and the Houston Oiler-Dallas Texan pro contest. Mrs. Mabry missed the Baylor-A&M game, and the Detroit-Chicago Bear pro game.

With three weeks remaining in the contest, C. H. Veazey has taken undisputed possession of the lead in the race for two tickets to the Cotton Bowl game New Year's Day, with a score of 54.

One game behind with a 53 score are Jack Clark and Waymon Wilkins. Two games off the pace is Maynard Agee, at 52. Eugene Ellis and Martell LeVeque are next with a score of 51.

Four games behind the leader are Kenneth Watkins and Jarrell Wright with 50 correct games. In the next group are Frankie Allen, W. R. Mabry and Jimmy Norwood, at 49. And, with upsets like last week, it's still anyone's contest.

**Election Day Dinner Resumed**

After a one year absence, the annual Election Day Dinner and bazaar will be resumed in the basement of the Union Congregational Church on West Sixth Street.

Serving of turkey and dressing, chicken and noodles, ham and candied sweet potatoes, salads, desserts, coffee and tea will begin at 11:30 a.m. and continue until everyone has been served.

Charges will be \$1.25 for adults and .75 for children. Handmade articles suitable for home use or gifts will be on display in booths in the basement. Some items for sale will be aprons, pot holders, dish towels, pillow cases, hot dish mats and pieces of crochet.

Mrs. R. B. McKee, a member of the Women's Fellowship organization of the church, invites everyone in Friona and the surrounding area to attend.

Mrs. Terrell Christian of Claude and Mrs. T. W. Collins of Canyon were visitors in the home of Mr. and Mrs. Frank A. Spring last week. Mrs. Christian is Mrs. Spring's sister and Mrs. Collins is her mother.

# Voters To Scan Lengthy Ballot Tuesday, Nov. 6

By BILL ELLIS

Parmer County voters, like those throughout the state, will be confronted with a "frightening" ballot when they go to the polls Tuesday.

The ballot, which contains 29 races and 14 proposed amendments to the Texas constitution, is longer than most newspapers - measuring 22 inches in length.

In order that county voters may be more familiar with the candidates and their platforms, individual sketches of the candidates in each major contested race appear on the following pages, along with a discussion of the proposed amendments.

Republicans are providing opposition in 12 of the 20 state and district races. None of the Democratic nominees for county offices have opposition.

There are five columns on the ballot, listing the Independent, Democratic, Republican and Constitution parties in that order, and one column for write-ins.

Only two candidates appear under the Constitution party. They are Jack Carswell, candidate for governor, and Joseph Rummel, for Comptroller of Public Accounts.

Voters are reminded that in races where there are two or more candidates, all names except the candidate for which they vote must be scratched out, or their votes will not be tabulated for that race.

Polling places, and election judges for each precinct are as follows:

Precinct 1 (Black)--Black Community House, Mrs. Glenn Roberson, judge.

Precinct 2 (Friona)--City Hall, Clyde Goodwine, judge.

Precinct 3 (Bovina)--American Legion, Tom Rhodes, judge.

Precinct 4 (Farwell)--County Courthouse, J. T. Coburn, judge.

Precinct 5 (Lazbuddie)--High School Auditorium, Roy Daniel, judge.

Precinct 6 (Oklahoma Lane)--Oklahoma Lane Community Center, Harold Carpenter, judge.

Precinct 7 (Rhea)--Parish Hall, Immanuel Lutheran Church, Melvin Sachs, judge.

Precinct 8 (Lakeview)--Otho Whitefield residence, Whitefield, judge.

Polling places will open at 8 a.m. and close at 7 p.m. Voters are also reminded that under state law, the pledge on the primary ballot does not obligate anyone either legally or morally as to whether he votes for Democrats or Republicans in the general election.

In other words, voters are free to vote as they choose; free to split their ticket if they wish, change their party, or whatever.

CONNALLY vs. COX

# Revived GOPs Making Bid In Governor's Race

The governor's race in Texas this year is likely to be one of the most interesting in modern state politics. For the first time in many years, the Republican party has a nominee who has earnestly sought the office, so that voters will actually have a choice in the general election, rather than the usual "formality" of endorsing the winner of the Democratic primary.

Three names will appear on the ballot. John Connally is the Democratic nominee, Jack Cox bears the Republican colors, and Jack Carswell's name will be under the Constitution party column.

JOHN CONNALLY

### CONNALLY

John Connally, 45, former Secretary of the Navy, resigned that office especially to campaign for governor of Texas. Connally won the Democratic nomination for governor over five other candidates, being forced into a runoff with Don Yarborough, who waged a spirited campaign.

Connally pulled out all the stops to win the Democratic nomination, showing Texas voters one of the most elaborate campaigns ever. His campaign since the second primary has been sort of an anti-climax.

A graduate of the University of Texas and UT Law School, Connally has maintained a private practice of law in Austin. Along with two brothers, he operates a ranch in South Texas.

He served as administrative assistant in Congress to Vice President Lyndon Johnson and

was vice chairman of the Texas delegation to the national Democratic Convention in 1956.

Among the planks in his platform, Connally proposes:

1. Fiscal soundness for the state;
2. Attraction and development of industry in Texas;
3. An education system second to none;
4. Stronger law enforcement;
5. Care for the needs of the aged;
6. Development of the tourist industry;
7. Curtailment of oil imports.

Connally was born on a farm, and has been associated with two of the state's leading industries--cattle and oil.

### COX

Jack Cox, 41, is the Republican nominee, and has led the movement to unite Texas conservatives under the GOP. He is receiving support in some instances from liberal Democrats, if for no other reason than to return Texas politics to a true two-party state.

Cox, who ran as a conservative Democratic candidate in 1960, defeated Amarillo's Roy Whittenburg in the Republican primary, which drew a total of 117,000 Texas voters, largest number ever for a Texas Republican primary.

Vice-president of Pico Drilling Company, Cox is a graduate of North Texas State College, with a degree in government.

He was elected to the Texas legislature in 1946, and served three terms. Cox is former Secretary of the Texas Commission on Higher Education and three times received the Valley Forge Freedom Foundation award.

Cox includes the following on his platform:

1. Against "Federal Aid" to education.
2. For bringing new industry to Texas to provide more and better jobs.
3. Advocates a "Right to Work" law.
4. Strong believer in states rights. Says our independence from Washington control is deeply imbedded in our state's history.
5. For strong two-party system.

6. Economy in state budget.
7. Freedom of Texas farmers and ranchers from "dictatorial programs."
8. Opposed to state income tax, and to increasing any present tax. Favors a constitutional amendment limiting the sales tax to the present two per cent.
9. Devotion to principle rather than blind "party loyalty."
10. Opposed to any program leading to socialized medicine.
11. For election law reform.
12. For legislation guaranteeing complete legal equality to Texas women.
13. For local self-government, as opposed to a Federal Department of Urban Affairs.

JACK COX

### CARSWELL

Jack Carswell, the candidate for the Constitution party, is a Houston funeral director.

As for his qualifications for the office, in his own words "I meet every qualification as set forth in the Constitution of the State of Texas. I am not a professional politician or a professional lobbyist."

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Five hundred forty members have paid dues of ten dollars to Farmer County Farm Bureau since October 31, 1961. This means that Farmer County has reached its quota in membership for the year 1962. This is the first time in three years that this county has reached its quota.

Prior to the last three years this county had never failed to reach or exceed its quota. President Hamilton and vice president Meissner and the directors and other officers express their appreciation to each member, and welcome any others who wish to become paid up members.

If you need any further information regarding amendment 14, Trial de Novo, we have a new pamphlet giving 14 reasons for opposing the amendment. It seems that nearly every incorporated city, as well as many other groups vigorously oppose this amendment, and Farm Bureau is among the opposition.

"It should be crystal clear to the American voters by this time, that if government is going to be a divider of the country's wealth, there will be no wealth to divide within a few years. This is based on the simple understanding that government has nothing except what it takes away from its citizens and can give back only that portion of what it takes away minus the cost of taking it away and re-issuing it to the citizens.

It is perfectly logical to believe and expect a politician who consistently votes for the distribution of tax money to various individuals and groups of individuals to expect these politicians to control a large number of votes by their action."

This is quoted from a statement by Texas Farm Bureau director of research and education. If you have your work in shape, we suggest that you make plans to attend the Texas Farm Bureau Annual Convention in San Antonio November 10-14.

We believe the banquet on Tuesday evening, at which Paul Harvey will be speaker, will be well worth the trip. The governor-elect will address the convention on Tuesday morning.

### NEW IDEAS

... Investigating State Department practices used in assigning personnel, so our crucial overseas positions will not be political plums or havens for incompetents.

... Founding of a Foreign Service Academy, like the military academies, to train our exceptional youth from grass roots America to be our representatives around the world.

... Reducing oil imports to not more than 14% of domestic consumption, leaving the remainder to American producers.

... Requiring loyalty declarations from both Government suppliers and the labor unions representing their employees.

... Retiring the national debt in an orderly and planned manner through an interest-and-sinking fund method.

... Restoring the law-making prerogative to Congress, through a Constitutional amendment, allowing Congress to overrule Supreme Court decisions, like Presidential vetoes, by a two-thirds vote.

... Redistributing the tax burden more fairly, allowing more realistic personal and dependent deductions, and leading to a reduction in the present exorbitantly high tax rates.

... Investigating the exhibition and advertising practices of the motion picture industry, to the end that lewd and salacious films shall be curbed.

... Establishing the right of appeal to courts for farmers over arbitrary bureaucratic decisions.

... Demanding all members of the Supreme Court to be present for important decisions. The Tideland oil decision might have been in favor of Texas had this been the law.

## THAT WASHINGTON FISHBOWL OR JACK SEALE VS THE FACTS

During the current congressional campaign Republican Jack Seale an admitted John Birchman and the candidate of the John Birch society, has repeatedly accused congressman Walter Rogers of voting for a "Fishpond" for Washington, D. C. The implication has been that this was some useless frills and a waste of taxpayers money.

#### WHAT ARE THE FACTS?

Editor Tommy Thompson of the Amarillo Globe-Times writes: "I thought Walter Rogers did a proper job of squelching the fish-bowl jeering on the part of his opponent. Congressman Rogers told the group last week that 'Had the opposition investigated the matter, it would not have appeared so comical.'"

The bill is for the purpose of authorizing a national fishery center and aquarium for scientific research and development, similar to the soil research center at Bushland.

The purpose of the bill is to help pump some life into our "decaying fish industry." As Walter Rogers explained, our fishing industry has been going down hill for a long time. Almost one-half of the fish consumed in the United States is imported from foreign nations. Our fishing fleet is old and obsolete. Other nations are fishing adjacent to our shores, processing the produce overseas and re-shipping it to us. The national fishery center and aquarium is for the purpose of saving an industry that could mean several billion dollars a year to our national products. It is an investment that will pay for itself and make the nation self-sufficient in obtaining an additional three billion tons of fish that will be needed by 1980.

And, while we're quoting editor Thompson, here's another interesting paragraph: "The New York Times says in a Washington dateline story that 46 conservative candidates for Congress are receiving assistance in one form or another from the Americans for Constitutional Action.

Admiral Ben Morrell, board chairman of the group, said that "Publicity might jeopardize the candidates." Texas Congressmen receiving aid from the ACA group include John Dowdy, Bruce Alger, Desmond A. Barry, William A. Steger, Ed Foreman, and Jack Seale. The retired admiral told the New York Times that his group had been linked unfairly in the press with the John Birch Society."

ANOTHER CONTESTED RACE

Lt. Governor's Race Pits Smith Vs. Hayes

The lieutenant governor's race is another where the Democrats have vigorous opposition.

Bill Hayes, 43, defeated Kellis Dibrell, who like Hayes resided in Bell County, by a good majority.

The only candidate for one of the top state offices to carry his campaign personally into Farmer County, Hayes says he stands for:

- 1. A non-salaried, bi-partisan Texas Commission on Lower Taxation to uncover waste, duplication and irregularities in government.
2. Reduction of the sales tax and other taxes;
3. Open proceedings in the Texas senate;
4. A positive program to teach our American heritage in Texas schools;

- 5. Firm laws and enforcement to control immoral, obscene and indecent motion pictures;
6. A better business climate to attract industry;
7. Instruction for our armed forces in the evils of Communism;
8. Full development and utilization of our water and soil resources;
9. Sound business management of the state's affairs;
10. Outspoken defense of states rights, individual rights and free enterprise.

PRESTON SMITH
Preston Smith, 49, defeated five other candidates in the

Democratic primary, being forced into a runoff by Jimmy Turman, who had served as Speaker of the House.

A graduate of Texas Tech with a BBA degree, Smith has been a businessman 26 years, and has had 12 years experience as a legislator.

PRESTON SMITH

BILL HAYES

- 4. For better schools.
5. To provide safe, efficient highways and farm-to-market roads.
6. For vigorous water and soil conservation programs.
7. To provide hunters and fishermen with an improved game and fish program, and better recreational facilities for our parks and lakes.
8. For small loan regulation.
9. For adequate care of the aged, the needy and the blind.
10. To maintain and strengthen the Democratic Party leadership in Texas.

Total Vote Important To Party

Mrs. Wyle Bullock, of Lazbuddie, district committee-woman on state Democratic executive committee, today called on all Democrats to go to polls on election day and help strengthen the county's position in Democratic party affairs.

A large turnout at the polls will serve a dual purpose, Mrs. Bullock said. It will help insure an overwhelming victory for the Democratic candidates and at same time will build up Farmer County's strength in the 1964 political convention.

The voting strength of Farmer County in the '64 state Democratic convention is at stake in this general election, Mrs. Bullock explained.

The kind of voice this county will have in determining the affairs of Democrat Party of Texas depends on the number of votes cast for John Connally for governor.

Mrs. Bullock cited a provision of the Texas Election Code which provides that each county is entitled to one delegate to state convention for each 300 votes in that county for the party's gubernatorial candidate.

Each precinct in 1964 will have one delegate to county convention for every 25 votes cast in the precinct on November 6 for John Connally.

18th DISTRICT

# Rogers, Seale Battle For U.S. Congressional Seat

A lot of interest has been generated in the race for U. S. Congressman of the 18th District, which pits incumbent Walter Rogers (D) of Pampa against Jack Seale (R) of Amarillo.

**ROGERS**

Walter Rogers, the former Pampa attorney who has represented the district since 1954, is running mainly on his past record and experience.

Rogers' platform includes: 1. Investigating State Department practices used in assigning personnel, so our crucial overseas positions will not be political plums or havens for incompetents.

2. Founding of a Foreign Service Academy, like the military academies, to train our exceptional youth from grass-roots America to be our representatives around the world.

3. Reducing oil imports to not more than 14 per cent of domestic consumption, leaving the remainder to American producers.

4. Requiring loyalty declarations from both Government suppliers and the labor unions representing their employees.

5. Retiring the national debt in an orderly and planned manner through an interest-and-sinking fund method.

6. Restoring the law-making prerogative to Congress, through a Constitutional amendment, allowing Congress to overrule Supreme Court decisions, like Presidential vetoes, by a two-thirds vote.

7. Redistributing the tax burden more fairly, allowing more realistic personal and dependent deductions, and leading to a reduction in the present exorbitantly high tax rates.

8. Investigating the exhibition and advertising practices of the motion picture industry, to the end that lewd and salacious films shall be curbed.

9. Establishing the right of appeal to courts for farmers over arbitrary bureaucratic decisions.

10. Demanding all members of the Supreme Court to present for important decisions. The Tideland oil decision might have been in favor of Texas had this been the law.

11. A farm program patterned after Farm Bureau policies that frees the farmer from regimentation, controls, and harassment by bureaucratic authorities.

12. Private operation of most businesses now run by the government.

13. A voluntary medical plan for the aged who "need" it.

14. Reduced government spending and a balanced budget.

15. Private competitive enterprise system.

16. Anti-trust legislation to protect union members and general public from unscrupulous union leaders.

17. Right to work laws.

18. Free collective bargaining without government intervention.

19. A dynamic economy with full employment.

20. Foreign aid only to nations who are on our side, not communist or neutralist. All aid on a loan basis to be repaid.

21. The responsibility to God above all others.

22. Individual responsibilities to God, Country and Family.

23. The constitution of the United States, the Declaration of Independence, The Bill of Rights and the American Creed.

24. The intelligence of patriotic Americans.

25. Government best when smallest, and that strong local government is necessary to preserve individual freedom.

26. A Sovereign Nation of Sovereign States.

27. The right and responsibility of every American to speak up against Godless communism, including those who are in our Armed Services.

28. A two-party system.

29. A tax cut when the budget is balanced.

30. Immediate efforts to retire the national debt.

31. A farm program patterned after Farm Bureau policies that frees the farmer from regimentation, controls, and harassment by bureaucratic authorities.

32. Deferred grazing while being one of the better "tools of conservation" will not do the complete job of range improvement. Most tools are specialized for specific jobs, so also is range deferment. Range deferment has several specific jobs, such as permitting the present grasses to gain vigor, produce seed, and then allowing the seedlings to grow as replacements for the grass plants which die each year.

33. While ranching isn't the major type of agricultural enterprise in this country; those of you which do have considerable amounts of grassland should use this tool as one of the things which will help you produce more grass. When we produce more grass everyone knows that we in turn will produce more pounds of beef.

34. Any shop that is plagued with grinding and machine dusts will welcome a unit dust collector that features positive filtering of air and is said to be capable of trapping 99.5 per cent of dust particles as small as 0.5 microns (especially valuable in diesel injector rooms). Offered in five basic models for filtering areas 60, 120, 150, 200 and 300 square feet, the units are suited to intermittent or heavy-duty continuous operation.

JACK SEALE

Jack Seale, the Republican candidate, is 34, and is currently mayor of Amarillo. Engaged in the home building and land development business, Seale is a partner in the Hamlet Shopping Center and is an organizer and director of the North State Bank of Amarillo. He was elected to the Amarillo City Commission in 1959, and was elected mayor in April of 1961.

Seale says he believes in

1. The responsibility to God above all others.

2. Individual responsibilities to God, Country and Family.

3. The constitution of the United States, the Declaration of Independence, The Bill of Rights and the American Creed.

4. The intelligence of patriotic Americans.

**SOIL CONSERVATION DISTRICT NEWS**

By William L. Lyles

Deferred grazing of rangeland has produced an excellent growth of native grasses this year. The removal of livestock from these pastures last spring plus the summer rains allowed the vigorous growth to be made. There was also a good seed crop produced on these grasses. The growth which has been produced will allow a rancher to have a better inventory of his grazing for the winter months ahead.

Deferred grazing while being one of the better "tools of conservation" will not do the complete job of range improvement. Most tools are specialized for specific jobs, so also is range deferment. Range deferment has several specific jobs, such as permitting the present grasses to gain vigor, produce seed, and then allowing the seedlings to grow as replacements for the grass plants which die each year.

# Carr Is Favorite In Attorney-General Race

Waggoner Carr of Lubbock is generally conceded to have the job of State Attorney General all but sewed up. Thomas Everton Kennerly, the Republican candidate, has his name on the ballot as the result of a write-in campaign in the primary.

**CARR**

Waggoner Carr, 43, Lubbock

attorney, defeated five other candidates in the Democratic primary, being thrown into a runoff with Tom Reavley, but beating the latter candidate handily in the second primary. Carr, who has been Speaker of the House of Representatives for the past four years, also has been Acting Chairman of House Crime Investigation Committee and was County and Assistant

District Attorney previously. As Speaker, Carr helped create the Law Enforcement Study Commission. He is a Graduate of Texas Technological College and the University of Texas Law School, and has 15 years of active law practice in State and Federal courts.

About the responsibilities of his office, Carr states "Ours is a government of laws and the Attorney General must bear the responsibility of enforcement of the law--effectively, impartially, judiciously. He represents Texas in its disputes and dealings with other states

and the Federal Government and renders legal opinions and advice to all agencies of the State Government and local authorities. He must at all times maintain the dignity of the Constitution and Laws without regard to whether he personally approves of the law.

In answer to the question "What efforts will you make to carry out these responsibilities?" he says: "I will base my actions on the principle that every man be accorded his full rights under the law, but no man can be accorded special privileges. I will

work in close cooperation with the State and local law enforcement officials, being careful not to destroy the responsibilities of local officials to the people who elected them. My platform is basically the strengthening of our legal framework where needed, and more vigorous enforcement of laws, once enacted."

**KENNERLY**

Thomas Everton Kennerly,

59, is a Houston attorney. The Republican candidate had both his academic and legal education at the University of Texas. He has been practicing in Houston for 37 years.

The son of Federal Judge T. M. Kennerly, he was nominated by President Eisenhower for U. S. District Judge, but the Senate adjourned before confirmation.

Kennerly says "The Attorney General of Texas advises the

Governor, Departments, enforces all laws aiding County Prosecutors and gives written opinions to the citizens on important matters, representing the State in litigation involving the State, such as the tidelands litigation in the past. This office deserves a lawyer with a wide experience. I have represented clients in every walk of life for 37 years. My experience has been as both a trial and office lawyer.

"The Attorney General does not make laws; it will be my duty to vigorously enforce the laws, especially where the local prosecution is lax or lags down. I will surround myself with an outstanding staff of assistants and will represent all of the people of Texas. I will try to be a selfless Attorney General and not a selfish one. I will not use this office as a political stepping stone."

**CONGRESSMAN-AT-LARGE**

# Barry Rated Good Chance For A Republican Victory

The race for United States Congressman-At-Large is one that is very unique in the state. The reason lies in the fact that the Republican candidate --Desmond Barry of Houston, seems to be ahead of his Democrat opponent, Joe Pool--at least in some Political polls.

**BARRY**

Des Barry, the 54-year old president of a Houston trucking operation, is better known as "The Man Who Beat Hoffa." In 1955, he carried on a one-man fight for the very existence of his trucking company when the Teamsters tried to force him out of business when his employees wouldn't join the union.

Carrying the fight all the way

to Washington, Barry won out over Hoffa and the Teamsters. Barry has had 20 years experience working with state and federal bureaus and the U.S. Congress on transportation and labor matters. In the past six years, he has accepted over 600 speaking invitations in 35 states.

He served four years as an officer in the U. S. Air Force, and five years as consultant to the Mexican Air Force.

Carrying his campaign into every section of the state, Barry was greeted by a full house when he spoke at Lazbuddie July 30, a reception which drew statewide acclaim for Lazbuddie and Farmer County.

Barry's platform states: --Demand a balanced national

budget and a decrease in our national debt;

--Eliminate federal interference, dictation and control over business, agriculture, education, medicine and our local and state affairs;

--Shut off aid to communist countries and the "neutrals" (unless they are "neutral on our side);

--Bring two-party government to Texas and our national government back to the people;

--Allow American business the freedom and incentives to compete on an equal basis with foreign industries we subsidize;

--Reduce taxes after reducing senseless spending;

--Return to Constitutional government, assuming as individuals the rights, freedoms and responsibilities our forefathers granted;

--Yield not one more inch of soil or sovereignty to communism or one-worldism.

**POOL**

Joe Pool, 50, is an attorney and president of Alden Mills, Dallas.

He was a member of the Texas House of Representatives six years, but ran unsuccessfully for the U. S. Congress in 1960, being defeated by Republican Bruce Alger.

Pool was a member of the Democratic National Natural Resources Advisory Committee in 1960, and was a special investigator in Army intelligence in World War II.

- Items on Pool's platform are:
1. Against any foreign import that will destroy any phase of American industry.

# Meat Prices Are Lower Than Seem

Housewives may be surprised to learn that they are paying less for meat today than their mothers paid. According to Ed Uvacek, extension livestock marketing specialist, the proportion of the total family income that is spent for meat has dropped from seven per cent in 1920 to only four and one-half per cent today, while the proportion spent for other consumer goods has increased four times.

At the same time, we are getting better quality meat and a wider selection to choose from at the retail market, the specialist adds. The U. S. Department of Agriculture presently grades about 50 per cent of the beef, 15 per cent of the veal and calf, and 33 per cent of the lamb slaughtered in the U. S.

These USDA grades for carcass beef are Prime, Choice, Good, Standard, Commercial, Utility, Cutter and Canner. Most of the Prime beef is used by hotels and restaurants while the Choice, Good, Standard and some Commercial beef is available to consumers at the retail counter, Uvacek says. Good cuts can be obtained from any of these grades but the lower grades are usually better for the cuts which are cooked slowly, while steaks are usually more tender if taken from the high grades.

Slaughter calves are graded

Prime, Choice, Good, Standard, Utility and Cull but the consumer usually sees the appealing terms, calf, young fed tender beef, veal and others at the meat counter. Most of the lambs marketed fall into the top three USDA grades. These are Prime, Choice and Good.

Pork is evaluated through the packer brand names and is not sold on a Federal graded basis, according to Uvacek.

Meat is a bargain today and any of the retail cuts can be appetizing if prepared properly. Local county home demonstration agents can supply information on meat cookery, concludes Uvacek.

The electric power used by each of the three electric furnaces at International Nickel's smelter at Thompson, Manitoba, is sufficient to furnish electricity for a residential area of over 100,000 people.

# County Resident Tries To Win Senate Seat

Farmer County voters will have more than just passing interest in the race for state senator, 30th district, County resident John Zahn of Farwell opposes incumbent Andy Rogers in that race.

Zahn, the Republican candidate, who has no past political undertakings, chose the task of trying to unseat Democrat Rogers, who has held his position for the past 10 years.

But Zahn has gone about his task undaunted, and told the writer this week he believed he was ahead in the race. "I think the Republican slate will win in the 30th Senatorial District," Zahn said.

While Rogers has served as President pro-tempore of the Texas senate, Zahn has been designated for the like honor by Republican lieutenant governor candidate, Bill Hayes, should both be elected, states Zahn.

**ZAHN**

John Zahn, 36, is in the Real Estate business in Farwell. An ex-postmaster at Farwell, Zahn served with the 106th Infantry in Europe during World War II. Zahn is married, and he and his wife, Jo Ann, have two sons, Craig, 6, and Mark, 4. Jo Ann is the county's visiting teacher. He feels that his two and one-half years of experience with

the Farmers Home Administration and with the banking business gives him an ideal insight into the needs of the people in West Texas.

Zahn points out that his opponent sponsored Senate Bill number eight, which would place county funds under state jurisdiction, and warns against state control such as this.

In his platform, Zahn includes:

1. State sovereignty.
2. Government economy.
3. Local medical care as opposed to government-controlled medicine.
4. Private enterprise free of government controls.

5. Local self-government—the closer the government is to the people, the more effective it is and less expensive to administer.

6. Right to work laws.
7. Local schools free of federal control.
8. More effective loan shark laws.
9. Codes to guarantee election counts, simplified forms and ballots.
10. Equality for women under the law in Texas.
11. Encouragement of the teaching of Americanism in the classrooms.

**ROGERS**

Andy Rogers, 37, is a stock

farmer and in the general insurance business. The Childress resident has 14 years of legislative experience, four in the House of Representatives and 10 as state senator.

A World War II veteran, he is a Baptist, a member of Farm Bureau and several fraternal organizations.

In 1951, Rogers helped secure the additional senate seat for West Texas, which is now the 30th Senatorial District. He was then a member of the House of Representatives.

On his platform, Rogers lists:

1. Right to work law.

2. Private ownership and control of underground water.
3. Bill that outlawed Jimmy Hoffa's operations in Texas.
4. Resolution to Prevent Red China's admission to U.N.
5. More representation for West Texas.
6. More competitive free enterprise.

**AGAINST:**

1. Eighty per cent of the new state taxing and spending in the past 14 years.
2. More government and monopoly controls.
3. Income taxes in Texas.
4. Deficit spending.
5. Minimum wage for agriculture workers.

## HD Agent's Notes

BY MISS ETTIE MUSIL

From time to time I'm sure you have wondered whether a certain food would be safe to refreeze. Maybe you have thrown away food that you had doubts about that had been thawed for a day or two.

Research studies reveal that you may refreeze food if the temperature of the food has not risen above 40 degrees F., or ordinary refrigerator temperatures. Of course, this depends if the food has not acquired an odor, or if the texture and color have not changed.

The process of refreezing in itself introduces no hazard, the study shows. If the partially thawed food is safe to eat, then it is safe to refreeze.

A rise in a food's temperature up to thawing will impair color, flavor, and texture, and the refreezing period causes further loss of quality. However, if the total time involved is short enough, there may be enough quality left to justify refreezing.

This is important in maintaining the zero degrees in the home freezer to keep the quality of the food high. Even freezing degrees of fifteen or twenty degrees will lower the quality of the food stored. Check your freezer that it is maintaining a zero or below temperature at all times.

No health hazard is involved if the temperature of the food has not risen above ordinary

refrigerator temperature. Food-poisoning bacteria have never been found to grow at temperatures below 38 degrees F. And they grow very slowly between 38 and 45 degrees. But other bacteria can grow slowly at these or even lower temperatures. These bacteria cause off-odors and off-flavors that spoil foods but do not cause food poisoning.

Here is an interesting study that was made in costs of food for small and larger families. It makes a big difference when you go grocery shopping how many are in your family. Naturally, but have you heard about this study?

Today's modern family of four, according to statistics, spends about \$32 a week for groceries, using the USDA moderate cost food plan. Or, if they economize and use the low-cost food plan, the weekly tab is \$24.

Now let's look at the family of five. You can figure that food costs will run five per cent less per person. With six or more people to feed, you'd pay 10 per cent less for each.

For the small family of two or three, food costs go up rather than down. It costs five per cent more to feed each person in a family of three; 10 per cent more for each member in a family of two; and 20 per cent more if a man or woman lives alone, rather than in our typical family of four.

## 1963 Cotton Allotment Referendum Announced

A national marketing quota of 14,367,000 bales (standard bales of 500 pounds gross weight) and a national acreage allotment of 16 million acres have been announced for the 1963 crop of upland cotton by the United States Department of Agriculture.

The governing legislation provides an additional 310,000 acres as a national acreage reserve to be used to the extent needed in establishing minimum farm allotments.

December 11 has been set as the date for the referendum on marketing quotas for the 1963 upland cotton crop. At least two-thirds of the upland cotton farmers voting must approve the quotas if they are to be effective.

Prentice Mills, office manager

of Farmer County ASCS, points out that the Department's announcement of the national quota and allotment declares that "it is not anticipated that this will be the final national acreage authorized for the 1963 crop, because of new legislation to be recommended to the Congress by the president to remove the inequities in the present two-price cotton system."

The 1963 quota represents a cut of 11.8 per cent from last year's acreage. That amounts to around 5,700 acres in Farmer County.

If the marketing quotas are approved in the December 11 referendum, Mills explained, price support will be available to growers who comply with their farm allotments for upland cotton at a level within

the range of 65 and 90 per cent of parity, as provided by law. The exact level of support will be determined later.

the state turnpikes in New Jersey and Pennsylvania, are turning increasingly to steel median beam type guard rails to prevent head-on collisions of vehicles crossing into opposite lanes of on-coming traffic.

The New Jersey Turnpike, most heavily travelled toll road in the nation, has not experienced one fatality due to head-on collisions since installation of a metal guard rail over its 118-mile course, according to Joseph Morecraft, Jr., chairman of the Turnpike Authority.

The 22-year-old Pennsylvania Turnpike, oldest of all toll roads in the United States, recently passed the half-way mark in a program to install steel guard rails on its 470-mile route.

Tests by California state highway authorities with several types of steel dividers on heavily-travelled freeways showed practical elimination of head-on accidents, highway officials said.

# 14 Amendments Confront Voters

One of the most bewildering decisions facing Texas voters each general election is passing or refusing amendments to the state constitution. Texas operates within a constitutional framework originally copied after that of the federal government, but the state's has been amended so many times in the past 100 years that it is a crazy-quilt collection of policies which seemingly become more difficult to interpret and live under each year.

In 1962, 14 proposed amendments face the voters of Texas, and if the electorate plans to vote intelligently on the merits of the propositions, it will probably take them longer to ferret out the facts in the referendum than to sift the chaff from the wheat in the case of the candidates.

The fourteen amendments have been published in Farmer County newspapers in their entirety. Here is a brief--very brief--description of them together with a recommendation which we make regarding their worthiness. This comment is editorial in nature.

It is pointed out (and admitted, if you please) that we have a natural reluctance to endorse any amendment to the state constitution. The reason is that the state constitution, unlike the federal's, requires only a simple majority of the people to become law. A two-thirds majority ratification is required for any change in the U.S. constitution. Since most amendments in this state originate from groups with special problems, and interest is rarely statewide, it is traditional for voting to be light, and for the most part ill-informed. The general public is simply not interested enough to dig out the facts--which are sometimes pretty hard to find--concerning the amendments. Moreover, it is history that once amendments have been adopted, they are adopted permanently. That is, if the public makes an unwise choice, it is practically impossible to rescind this action in later years. Changes in the constitution have a way of becoming quite permanent, no matter whether they are sound or otherwise. That being the case, we have elected upon a course that could be described as cautious. We believe if an amendment is too broad, or too vague, it should be discarded for that reason alone, since it has such far-reaching consequences.

**NO. 1--WORKMEN'S COMPENSATION.** Would authorize all counties and other political subdivisions to provide insurance for all employees. Since 1948 counties have been able to provide workmen's compensation for their employees. The "other political subdivisions" is too general. It might conceivably include justice precincts, water districts, erosion districts, and so on. Too vague and not needed.

**NO. 2--NEEDY AGED, BLIND AND CHILDREN.** Welfare costs are difficult to control and often are the seedbed of administrative mismanagement and abuse. Yet Americans have a Christian responsibility to care for this group, and here is a chance to do it at the state level instead of asking the federal bureaucrats to take over. The \$5 million increase is a modest request considering the problems bred by inflation in recent years.

**NO. 3--HOSPITAL DISTRICTS.** Castro, Parmer County's neighbor, is one of four counties this amendment is specifically drawn for. It would permit the state to create hospital districts the same dimension as the county boundaries. No objection to this; it is permissive legislation and would still have to be acted upon by the citizens who are residents of the county. A point, though: why does the whole state have to vote on this simple issue?

**NO. 4--WATER FACILITIES.** Would authorize the Water Development Board to acquire and develop storage facilities. This state office needs authority to carry out one of the state's most pressing needs. This is an important job for the future and should be permitted by the state's voters.

**NO. 5--HOSPITAL DISTRICTS.** This amendment would permit the legislature to authorize creation of districts composed of all or part of one or more counties. It would save the need for the whole state to vote on every proposal, as in proposed amendment No. 3 already commented on. Pass it and move the red tape out of the ballot box.

**NO. 6--RETIREMENT BENEFITS.** The state already has a plan for retirement, disability, death benefits for employees. This is besides the Social Security program. The cost of this amendment to various political subdivisions has not even been

estimated. It should be rejected.

**NO. 7--GOVERNMENT AFTER ENEMY ATTACK.** Would authorize the legislature to fill public positions if the incumbents were unavailable due to an emergency attack. This is giving the legislature too much power. They don't need it as we already have laws which provide for filling offices when they become unexpectedly vacant. Besides, how do we know we could get the legislature in session in event of disaster? Since we have no control over what might happen in case of enemy attack, it would not be possible to prepare for any eventuality. Play it safe and leave this alone.

**NO. 8--PERMANENTLY AND TOTALLY DISABLED.** Would increase by \$1 million the state's aid to totally and permanently disabled who are not feasible for rehabilitation. This proposed amendment ties in closely with proposition No. 2 and we support it for the same reasons. While there no doubt are some abuses in this program, as is always the case in any government-administered aid project, the amount asked is a pittance for a state like Texas, and there is no doubt that most of the money is going for needed, humanitarian purposes.

**NO. 9--HOSPITAL DISTRICT, HOMES FOR AGED.** Pertaining to permissive legislation to authorize creation of two hospital districts in Brazoria County, and a home for the aged in Titus County. Here is another case of where all the state's citizens are asked to vote on an entirely local issue. We think that if the residents of the counties mentioned wish to vote taxes upon themselves for the purposes explained, they should be allowed to do so. If the constitution provides they may not do this, then THAT is where we need the constitution amended, or re-amended, as the case may well be.

**NO. 10--STATE EMPLOYEES AS CONSULTANTS.** Would permit state employees to serve as consultants or on advisory committees with other agencies of the state or the federal government, provided there is no conflict of interest. This amendment would set a dangerous precedent. A person should be elected or appointed to an office to fill one specific job, no other. The amendment provides that under it employees might be reimbursed for their expenses while providing this consulting service. In time, this might be broadened to amount to being paid for two jobs instead of one.

**NO. 11--SALE OF LANDS TO NON-VETERANS.** Would permit the sale of lands held by the veterans land fund to persons other than veterans. Even though the amendment provides that the lands would first have to be offered to veterans we oppose this measure. Several years ago the veterans land program became one of the most mis-managed state projects ever undertaken. The program was originally designed to help veterans. There is no reason to broaden it to help others now.

**NO. 12--TRAFFIC, LITTERING ON COASTAL BEACHES.** Would authorize county or local governing agency where the beaches are located to regulate and control speed, parking, travel and littering on these beaches. We are far removed from the beaches of the Texas Gulf Coast, but it looks to us like this job is more properly within the province of the state, which is more likely to have uniform and effective laws governing such matters. We will vote against it.

**NO. 13--DALLAS COUNTY SCHOOL DISTRICTS.** Would authorize Dallas County school districts to continue the levy of taxes and the sale of bonds without having elections following a change in boundaries. Why just Dallas County? If this change is desired and needed let it be for the state, not just one county. If this amendment passes it will further add to the confusion of state law by permitting another small pocket of "special law" for a special situation. Besides, the present requirements for re-authorization of taxes and bonds after any boundary change discourages school boards from making changes to which there may be considerable opposition in areas affected.

**NO. 14--TRIAL DE NOVO.** Authorize the legislature to provide for a new trial on all appeals to the courts from decisions of administrative and executive state agencies. It is curious that the most important amendment of all--the one which would have the most far-reaching effects if passed--should be at the bottom of the long amendments list. Up to now in many cases persons have been unable to appeal executive decisions made by state officials and boards. Reference is often made to the state's regulatory commissions, and arbitrary and unwise decisions reached by these boards have been a genuine basis for complaint by many of Texas' citizens who have been "burned" when caught in the administrative machinery. It is frustrating for citizens to have no recourse in the courts from decisions made by bureaucratic agencies of the government. The opinions of the state officials often have the same effect as statutory law. However, if this amendment should be passed, it would throw wide the gates and in time could subject every decision made by every agency to trial in the courts. It could, conceivably, mean that every decision made by the Parmer County commissioners court, for example, can be challenged in the courtroom by anyone who takes offense. Such procedure would result in not government but chaos. Officials are elected, and they appoint assistants to carry out the desires of the people using the state and federal laws as guidelines. If a man is elected to do a job, we think he should be permitted to carry it out to the best of his ability, and his every action can not be subject to challenge in the courts by some crank. If the man can't or won't do the job right, then get rid of him--but while he has the job give him the authority to carry it out. We are AGAINST No. 14.

## WITH THE COUNTY AGENT

DERYL COKER

How many hunters and fishermen are there in Texas? It always appears to me there are quite a few, from informal yarn-swapping over the county. Now I have some statistics to backup my survey. Our wildlife specialist says that 1,625,000 Texans age 12 years and older hunt or fish. In 1955 1,418,000 fished in fresh water and 447,000 fished in salt and many did both. Also in 1955 709,000 hunted and of this number 658,000 hunted small game, 242,000 hunted big game, 135,000 hunted waterfowl and many did more than one.

The total expenditure for hunters and fishers in Texas was

\$165,054,000. Figuring this out per person this would be \$101.57 per sportsman.

It has been said that a sportsman who spends a week-end in town is worth more than a bale of cotton and you don't have to pick it.

The average deer hunter will spend approximately \$55 per buck that he shoots and \$15, for each doe.

Ever year several people are always killed during the hunting season and a great number of these accidents could be prevented if hunters would follow the simple hunting safety rules.

1. Don't shoot unless you know what you are shooting at.
2. Always assume every gun is loaded.
3. Make sure the barrel is not clogged with mud or snow.
4. Don't climb fences with a gun which is ready to fire.
5. Don't throw your gun into the car or vehicle.

If we would all abide by these simple rules, hunting would be 90% safer.

It means a nation which devoted hundreds of millions of dollars to the reconstruction of battle-torn countries after World War II through the Marshall Plan... Yankee Imperialism says a man has a right to happiness through a worthy life. Perhaps the Soviets could tell us how this compares with Russian Imperialism. The Soviets hold all the countries defeated by them under their yoke without any freedom at all.'"

We believe it is good that Jack Seale's first allegiance is to God.

We believe it is good that Jack Seale believes in the principles of government that created this nation and caused it to develop and prosper and that they should be the principles of government to guide this nation's future progress.

We believe it is good that Jack Seale believes in fiscal responsibility.

We believe it is good that Jack Seale has the courage to stand up for these things he believes in.

We believe it is good that Jack Seale has the determination to work and fight to its successful conclusion any project he undertakes.

We believe Jack Seale will be a congressman we can be proud of.

If your troubles are deep-seated and of long standing, try kneeling.

A local octogenarian takes a dim view of some of today's scientific activities. After watching TV reports of Russian space flights, she snorted, "It's bad enough to keep poking our noses into the affairs of other nations without poking them into the affairs of other planets. In fact, it would serve us right if the people of Venus and Mars would stop sending us pencils and candy bars."

## Training Course Scheduled For Adult 4-H Leaders

A 4-H Club adult leaders training will be conducted for Unit 2, Favorite Foods, Wednesday, November 7 from 9-12 a.m. in the Hub Community Center.

Leaders do not need to bring any equipment or food for the training. Leaders and member guides will be available at the meeting. Four-H Club boys and girls should get into groups of three to six girls or boys, or boys and girls and secure an adult leader.

In the Unit 2 foods subject matter group the following foods and nutrition will be taught; one layer cake, muffins for breakfast, fruits salad, macaroni and cheese, squash souffle, fried chicken for dinner, freezing fruit or canning fruit and tomatoes, cooking supper in the backyard, apple crisp des-

sert, Christmas gift cookies and cheese dainties, tossed vegetable salad, and let's have a picnic.

Next spring or early summer a county Favorite Foods Show will be held at which time the boys and girls may exhibit their foods. Judging will be in the junior and senior divisions. The county winner in the four foods groups will represent the county in the District 4-H Favorite Foods Show. Food groups include bread and cereals, meat, milk and milk products, and fruit and vegetables.

CARE surplus food packages go overseas in the name of the sender and with a guarantee of delivery. One dollar packages contain an average of 22 pounds of farm surplus.

## TOP RACE?

# Ford, Clayton Lock Horns For State Representative

One of the races which has generated a lot of interest among Farmer County voters is that for State Representative, 91st district, where Frank Ford (R-Hereford) and Bill Clayton (D-Springlake) square off.

It is the race where Farmer County's votes will have a more direct bearing than most others, excepting the local races, since the district is composed of five counties--Parmer, Bailey, Deaf Smith, Castro and Lamb.

The candidates for the job vacated by Jesse Osborn of Muleshoe, who retired this year after several active terms, have engaged in quite a campaign for the house seat.

Both are young men. Ford is 29 and Clayton is 33. Both also graduated from Texas A&M College.

### FORD

Frank Ford, a Deaf Smith County farmer and businessman, worked his way through Texas A&M, where he was

FRANK FORD

named the outstanding student in the School of Agriculture as well as the top-ranking cadet.

Ford serves as chairman of the Agriculture Committee of the Deaf Smith Chamber of Commerce. Active in church work, where he teaches a high school class, he also serves as Scoutmaster for Boy Scout Troop 52.

He served 30 months in the U.S. Army, attaining the rank of Captain in the artillery, and commanded a nuclear-equipped rocket battery.

Ford held the job of Bill Clerk in the 56th Legislature in 1959, where he was responsible for all bills, resolutions, and the making of each day's legislative agenda.

He states "My political philosophy is defined clearly in the Constitution of the United States. In these times of crisis I think it is more important than ever to elect men of conviction to public office."

Frank Ford says he believes:

1. Education is the proper function of state and local government. The job should be done by Texas, not Washington.
2. Election procedures must be improved to prevent a repetition of 1960, when thousands of votes were invalidated in this area.
3. Small loan legislation is badly needed to protect individuals and legitimate lending institutions from abuse.
4. Sales tax should be simplified by removing any irregularities which make administration difficult or costly.
5. State Ad Valorem tax should be abolished and this source of revenue kept for the sole use of city, county and school district.
6. Franchise tax--the "temporary" increase in this tax should now be removed, as it is helping cause small business failure.

7. Lobbyists--the best way to prevent illegal lobbyist influence on the Legislature is to elect Legislators who cannot be bought or coerced.

8. Enforcement procedures need to be strengthened so that the "hot check law" and its current penalties can become more effective.

9. Right to work law should be defended to protect the right of choice and prevent the abuses inherent in the closed shop system.

10. For local control of water resources and development of upstream dams in this area.

### CLAYTON

Bill Clayton, the Democratic candidate, beat out two other Democrats, Bill Millen and B. M. Nelson, for the party nomination, being forced into a runoff with the latter candidate.

Also a farmer and businessman, Clayton is a deacon and is Training Union Director in the First Baptist Church at Springlake.

Vice president of the Farmers Co-op Gin of Springlake, Clayton is past president of the Lions Club there.

Clayton calls himself a "Conservative Democrat dedicated to fiscal responsibilities and a return of the government to the people."

On his legislative platform he lists:

1. Balanced budget.
2. Across the board sales tax.
3. Better "hot check" law.
4. Small loan regulation.
5. Improving the public school system.
6. Informing one's constituents on legislative matters.
7. Retaining the present water laws.
8. Retaining the "Right to Work" law.

## Farm Facts

Preliminary Census of Agriculture figures for 1959 reveal that 309,538 U. S. farms produce some cotton.

Cotton is grown in 19 states. These are Alabama, Arizona, Arkansas, California, Florida, Georgia, Illinois, Kentucky, Louisiana, Mississippi, Missouri, Nevada, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia.

Cotton is grown on 35% of the farms in Texas--almost 81,000. South Carolina, however, has the highest percentage of farms producing cotton--58.1, followed by Mississippi with 56, Alabama with 55.2, Georgia with 40, Arkansas with 36.7, and Arizona with 35.1.

Texas also ranks first in cotton production, ginning more than 4.8 million bales of the 14.3 million ginned during the 1961-62 season.

California ginned nearly 1.7 million bales, Mississippi more than 1.6 million, and Arkansas nearly 1.5 million.
