SANDERSON, TEXAS, FRIDAY, AUGUST 31, 1962

LISTEN TO LUKE

Well, we did see it rain in Rockport after all, and otherwise it was an enjoyable trip.

It's good to be able to relax for several days and enjoy a little seafood now and then.

We were sorry that we missed the barbecue and politics last Friday night. We went to the Rutherford "coffee" when he was here last and we like to get in on all the politics possible.

We heard that there was a good crowd present to greet the candidate and I'm sure they enjoyed the barbecue.

We felt badly about our trip to the coast in that there was little greenery to be seen on the entire 400-mile trip.

Those people are in a drouth after three or four weeks of no rain, and it hurts them the same as it hurts us.

There is little company in the misery of a drouth-stricken land.

School registration is about finished this week for the junior high and high school students, and the elementary students will be at school for the first time on Tuesday next week. This is a good time to issue the warning for extreme care on the part of local drivers when going anywhere near the school.

The school kids are going to be excited about the opening of school and greeting new and old friends, etc., and will have the tendency to be a little bit careless possibly about running into the street. Then there are some students who for the first time will be driving cars to school and they will have to be watched carefully, because that is a new experience for them, too. There is a possibility that they, too, may be a little careless for a while.

And when you put all of those factors together with our tendencies to be careless because of our presupposed experience in driving, it puts together a dangerous factor that calls for all of us exercising more caution than we ever did.

It's an old adage, but it's still true: "Cars can't think, children don't think, so drivers must think."

Monday is slated for a holiday for many of the local employees, and many more will have just another day of work. The long weekend brings about a great danger for all of those who will be on the highway at any time during the weekend, and all are cautioned to exercise all the care and consideration possible so that we will not have a tragedy to mar our weekend.

A plea is going out from the governor, the Texas Safety Commission, the Department of Public Safety, from mayors, and every other source, begging the people to "slow down and live". It seems odd that such a plea is necessary from the officials, but it seems to have helped a little bit, so we'll keep it up.

Newspapers, radios, TV stations, civic groups, fraternities, and many other sources are making every effort to bring down the number of needless casualties.

Won't you help?
P. M. Valles in Freak Accident
P. M. Valles received a painful and almost severe accident last week when he was impaled upon a meat hook. The hook penetrated the right arm pit and barely missed the artery. He was given first aid here and taken to an Alpine hospital by ambulance for treatment.

Valles was butchering goats and jumped off the back of the pick-up on which he was standing catching the meat hook in his arm.

Mrs. Mamie Holmes Dies In Iran

Conservationist Urges Ranchers 'Play It Safe'

A plea to Texas ranchers to "play it safe" again in areas still unusually dry, went out this week from State Conservationist H. N. Smith of the U. S. Soil Conservation Service.

Smith called for caution on the part of livestock producers in the use of grazing lands. In drouth times, damage caused by overuse may take years to overcome.

Many local ranchers have reduced herds already rather than risk serious damage to grass resources.

The decision to sell livestock at this time is a hard one on the part of a producer, Smith admitted. "But the owner who sells before his grass reaches the point of overuse will be far ahead in the long run," the state conservationist said. "Put \$50 worth of hay into a steer and you have lost a year's profit."

Cedar Control Progressing On W. R. Stumberg Ranch

Fall Round-Up Of Stock For Boys Ranch Here

Plans have been completed for the annual fall round-up of livestock for Boys' Ranch of West Texas, according to Herbert Brown, wagon boss for Terrell County. Any kind of livestock is acceptable so long as it is saleable. People wishing to make contributions should bring their livestock to the local stock pens Tuesday, September 4, where trucks will be waiting to transport the stock to auction rings.

Auction rings all over West Texas offer their pens and services free of charge to the ranch.

In view of the fact that everybody cannot give livestock, Brown pointed out that cash donations are acceptable and will be appreciated. Checks should be made payable to the ranch and mailed or handed to him.

In the event that it would be inconvenient to ship livestock to Sanderson, there are other concentration points over this area known as area IV, of which F. M. Wood Jr. is foreman. The wagon bosses are: Forrest Weston, Alpine, Brewster County; Bert Kincaid Jr., Fort Stockton, Pecos County; Murphy Bennett Marfa, Presidio County; John Prude, Fort Davis, Jeff Davis County; and Brown for Terrell County.

Several "hard luck" boys from area IV have been served by the ranch, Brown noted, and continued by saying, "We have what I think is a very fitting slogan for the ranch: 'Don't Brand a Boy — Help Build a Man!'"

Specific details of the referendum from a local aspect will be made public as soon as such information is received in the ASCS office, according to Clarence Jessup, ASC Committee chairman.

Educational Plans Come Before Draft, SS Director Says

Students who plan to continue their studies in colleges or universities and those planning to enter their freshman year should not let draft calls interfere with these educational plans, according to Col. Morris S. Schwartz, state Selective Service director, who heads the 137 Texas draft boards.

"Students will be considered for scholastic deferment and will, in all probability, be given the deferment if they are full-time students and are making passing grades," Col. Schwartz said.

"Of course, there is no such thing as a blanket deferment for students," he continued. "Local draft boards grant student deferments on the basis of their best judgment, based on their regulatory powers and the individual merit of each case."

The state Selective Service director pointed out that, under present policy, no one is drafted under age 22, except the volunteer or the man who willfully evades the law.

He counseled students to seek deferments from their local boards when these deferments are needed for the students to complete their college or university work.

Some college students also get deferments for their activity as students taking military training. This activity includes ROTC and other officer-training programs and enlistment in the National Guard and reserve organizations of the armed forces.

Colonel Schwartz urged young men, both in and out of college, to seek information and understanding from their draft boards.

Very few cars and trucks in Texas are taxed through the ad valorem tax program. Some counties, cities, and school districts tax them, but close to 80 per cent of the vehicles go untaxed. So the Texas Commission on State and Local Tax Policy proposes that something be done about it. An Amendment to the constitution is their recommendation. They suggest an amendment exempting motor vehicles from the property tax, but allowing the Legislature to tax them. Plan is to have the Legislature set up a procedure by which a state board would determine the value of all makes and models of motor vehicles. Then the county tax assessor-collector would collect a tax at the rate of \$1.50 per \$100 of market value when license

tags are purchased. Under this "suggestion," 40 per cent of the \$52,000,000 annual take would be divided among the school districts of the counties. Balance would go to the cities in accordance with their populations. County's share would be the portion represented by population outside cities. Counties and cities would be required to spend the money only on road and street work. Before Commission decides whether to recommend this procedure to the Legislature, a public hearing will be held sometime this fall. Socializing Industry A study committee on the Cost of Government is exploring the possibility of using convict labor to produce more of the products used by the prison system. State spends about \$3,000,000 a year for merchandise such as soap, paint, tobacco, tires, mattresses, and furniture for the prisons. In the past, organized labor and business groups have been able to keep the state from using convict labor in competition with paid labor. But the farmers have not been so successful. Prison farms produce much cotton and

This includes \$10,000,000 a year for the University of Houston, which will be the state's second-largest university when it joins the state system in 1963. Legislators, campaigning this fall, will have a chance to offer voters their suggestions. Some think the exemption on groceries, medicine and low-cost clothing should be taken out of the new sales tax law. Redistricting There have been rumors of lawsuits to come, ever since the U.S. Supreme Court held that the courts can force states to redistrict, for legislative purposes, if their systems are patently discriminatory. But it took Giles Miller of Dallas to bring the first suit. The Republican sued State Treasurer Jesse James, to prevent him from paying the salaries of state officials who make up an ex-officio legislative redistricting board. That is the body which is supposed to meet and redistrict, if the Legislature fails to do so. Miller's suit departs from procedures used in 31 other states in that it is aimed at getting state, rather than federal court action.

Carla's Force Texas Water Commission engineers have calculated the kinetic energy released by Hurricane Carla. DENIALS OF SOUL COMPETENCY 1. LAITY dependent UPON any minister DENIES that ANY PERSON can COME to God by "repentance and faith" DIRECTLY without the AID of any person. The soul is COMPETENT to deal with God ALONE. 2. BAPTISM as NECESSARY to salvation DENIES the soul's capacity to DEAL with Christ PERSONALLY and receive salvation at His Hands Only. IF Baptism is NECESSARY to salvation, then, the minister MUST AID a penitent Believer, HELP him to COME to Christ and be saved. He is UNABLE and INCOMPETENT to PERSONALLY RECEIVE Christ BY faith. 3. SALVATION IS ONLY IN THE CHURCH denies the soul competency. It denies that Christ and the soul are not equal to the redemptive task. "I AM the Way, the Truth and the Life. NO MAN comes UNTO the Father but BY ME." He that HAS the Son of God HAS LIFE, but he that HAS NOT THE SON, has not life." No church has power to GIVE salvation. 4. LORD'S SUPPER WHEN MADE A SACRAMENT denies soul competency. Its Power is NOTHING until its ELEMENTS are touched by ministerial HANDS and CHANGED by THIS TOUCH into the Body and Blood of Christ. COMMUNION with the Christ of the Supper is taken out of the REALM of SPIRIT and transferred into the REALM of MATTER, and the MATERIAL ELEMENTS NECESSARY to Communion with the Lord are HELD in human hands. THE ONLY COMPETENT HANDS are human, ministerial hands! "ALL of you ARE brethren" "ALL children of God BY faith in Christ." 5. CONFESSION to and DOING PENANCE under the DIRECTION of ANY minister is a denial of the soul competency of men. Is man INCOMPETENT in PRAYER to deal DIRECTLY with God? "If we CONFESS our sins, He is faithful and just to FORGIVE us our sins and to CLEANSE us from ALL unrighteousness." (1 John 1:9) Does ANY PERSON have the RIGHT to PRESCRIBE WHAT I shall DO to OBTAIN FORGIVENESS, which ONLY God can GIVE to me? WHO can BE a barrier between ANY MAN and his God and Savior Jesus Christ? There is ONE MEDIATOR between God and man, the Lord Jesus Christ." 6. SACRAMENTS as MEANS to the Savior deny the competency of the soul. Man is not in SPIRITUAL BONDAGE to rules and forms and rituals. God has made man in HIS SPIRITUAL IMAGE, not physical image; man is a SPIRITUAL BEING and his divine endowments make him competent to SEEK, to FIND, to REPENT of his sins, to BELIEVE ON the Savior, to TRUST IN HIM alone for salvation, to LOVE and SERVE and COMMUNE with God WITHOUT THE AID or HELP of any other person. Man MUST DEAL with God and MAKE TRANSACTIONS with God for himself. "CHOOSE YOU this day WHOM YOU will serve." "COME UNTO ME, and I will GIVE YOU rest." "THE GIFT of God is ETERNAL LIFE IN Jesus Christ and THROUGH Jesus Christ's atonement for our sins. There exist NO SAVING SACRAMENTS, because there is A SAVIOR. We degrade personality and deny the worth of every person when we insist that man is not competent to deal personally with God IN Christ in ALL matters affecting his life and destiny. God has MADE us FREE and COMPETENT to CHOOSE and DECIDE for ourselves and ACCEPT the CONSEQUENCES and RESPONSIBILITIES of our CHOICES. IRL R. RICHARDSON, Pastor, FIRST BAPTIST CHURCH
