

The time for returning to the classroom is at hand for the student.

For a few, it is the time for making an important decision--whether or not to return to school and complete the high school or college education.

Many of the high school and college students of Friona and Parmer County obtained jobs when school closed last spring. They enjoyed the sense of responsibility which those jobs provided. They found that the money earned allowed them to buy the luxuries which their families could not provide--or at least, furnish them with a source of money without having to go to the parents.

This experience, unfortunately, has in the past caused some young people to decide against going back to school. Such a decision will in all probability have very lasting and undesirable results on the individuals future.

Those who do not think farther ahead than tomorrow or next week have decided that continuing to work will give them money for cars and entertainment which, at the moment, seems most important. But, these persons should ask themselves another question--if cars and such are important now, how much more important will they be in the future when the chance for an education has been passed by.

The boy or girl who quits school (or is forced to quit by some nearsighted parent--which does happen at times) will regret it later--when it is too late to do anything about it. A little extra education often makes the difference between success, mediocrity and failure.

Today, in this age where space travel is read about in the current newspapers instead of the comic books of a few years ago, the world wants and needs trained and educated men and women. It is not important that the individual will not be one of the electronics experts or chemists involved in firing the great rockets. It is important that every chance for advancement is taken advantage of.

The individual with a High School education today is no better off than the individual with six or seven years of education during the depression years when the nation-wide standards are considered. Of course, the young people of today are not faced with the trying financial times known during the depression.

The college education is becoming available to an ever increasing number of people and, like the water which you drink, is becoming worth little to those who have it, but invaluable to those who do not have it.

There was a time when the man with an education was looked up to but now the educated person is the man-in-the-street. It is the person without the education which feels its importance. Without it, he is batting strike three all the time--whether applying for a job or holding one or working for a promotion.

To those who are tempted to quit, I must say: Go back to school . . . go on through college . . . go prepare yourself to take a proper place, a worthwhile place, in the world of today--and tomorrow . . . you can do it, if you apply yourself and want the security for the future which is made possible through education.

--TH--

State and National elections are nearly two months off but farmers are faced with an important trip to the polls today.

The vote today is concerned with the decision of whether or not to continue the marketing quotas for their 1963 wheat crop.

To some farmers, the vote may not seem important. Others may claim there is no use voting because the outcome is assured or that the voting is rigged in some way.

But one thing is sure. If a farmer doesn't vote, he has no moral right to gripe if things do not come out the way he wants them. After all, this is supposed to be a Democracy where the majority is supposed to rule. If you don't vote, you are a minority before the results are announced.

# City Approves Budget, Pay Raise

The Friona City Commission approved a \$169,084 budget for the coming year in a special meeting Monday night. The new fiscal year begins October 1, 1962, and ends September 30, 1963. It was voted to leave the tax rate at \$1.30 per \$100 valuation.

The new budget includes a five per cent increase in salaries for the 14 city employees. The total budgeted disbursements compares to the figure of \$166,705 which was budgeted for the fiscal year now ending.

The raise will be effective for all of the city employees. It accounts for approximately \$2,000 of the increase in the overall city budget. Salaries for the past year totaled \$49,114, and with the raise, the salaries next year will total \$51,144.

The revenues which are expected for the coming fiscal year includes \$67,404 for ad valorem taxes, \$76,900 from water and sewage fees and \$24,650 from miscellaneous fees and sources.

This makes a total anticipated revenue of \$168,954, which is very near the proposed expenditures of \$169,084.

The city will carry over a beginning balance of \$49,110 from the 1961-62 fiscal year, and the total funds available for the year will total \$218,064, including expected revenue.

The amount to be carried over on the beginning balance is approximately \$12,500 more than was carried over last year.

The actual expenditures for the past year were somewhat lower than the budget. Main reason for this lies in the fact that \$4,000 budgeted for street repairs was not used.

Two items budgeted for the past year, a tractor-mower and street signs, were not purchased. They have been included in the budget for the coming year, however.

City Manager Jake Outland, in discussing the pay raises for city employees, said "They were badly needed in most cases." In Outland's preface to the proposed budget, he told council members:

"Considerations are the continued increased costs of living, the present relatively limited amounts of salaries and the many years of faithful service that the employees have served the City of Friona." The 14 employees of the city have cur-

rently served in a city position for a total of 64 years.

Proposed expenditures for the year are as follows: ADMINISTRATION--Salaries: supervision, \$3,200; clerical, \$3,100, other, \$500; city attorney retainer, \$900; corporation court judge, \$600; office supplies and postage, \$800; city hall maintenance, \$300; automobile, \$500; telephone-telegram, \$200; utilities, \$500; audit, \$300; recording and legal, \$200; election, \$100; insurance and bonds, \$1,670; travel and training, \$300; and miscellaneous, \$200. Total -- \$13,370.

POLICE DEPARTMENT--Salaries (regular) \$10,260, (other), \$1,200; uniforms, \$300; materials and supplies, \$200; gas and oil, \$1,500; maintenance of equipment, \$800; telephone and telegraph, \$200; travel and training, \$150; miscellaneous, \$100; and capital outlay, \$100. Total -- \$14,810.

FIRE DEPARTMENT--salaries and wages, \$100; fireman call fees, \$350; fireman water bills, \$1,950; materials and supplies, \$350; maintenance of equipment, \$450; gas and oil, \$200; insurance, \$187; travel and training, \$650; miscellaneous, \$200; and capital outlay, \$850. Total--\$5,287.

STREET FUND--salaries, \$3,500; materials and supplies, \$1,250; maintenance of equipment, \$900; gas and oil, \$500; electricity, \$4,200; uniforms, \$100; capital outlay, \$7,800. Total -- \$18,250.

SANITATION--salaries (trash collection), \$11,450; (other), \$1,000; maintenance of equipment, \$500; gas and oil, \$750; chemicals and spray, \$950; digging sanitary fill, \$2,500; uniforms, \$300; miscellaneous, \$200; and capital outlay, \$11,000. Total -- \$28,650.

PARK--Salaries, \$900; supplies and materials, \$400; capital outlay, \$400; Total--\$1,700.

CEMETERY--salaries, \$850; materials and supplies, \$350; association salary--\$750; Total--\$1,950.

SECTION I

REPUBLICANS MEET . . . O. W. (Bill) Hayes, right, Republican candidate for lieutenant governor, met with Friona party leaders Tuesday at a brief session at the

Friona State Bank's Community Room. One of the people on hand was Floyd Reeve, left, former county Republican chairman and longtime party leader in Parmer County.

## BILL HAYES

# State Candidate Gives Stand At Friona Meet

The biggest myth in Texas today is the "Conservative Democrat," Republican lieutenant governor candidate O. W. (Bill) Hayes told a group of Friona constituents at a coffee meeting Tuesday afternoon. "I'm a Goldwater-type Republican--just as conservative as I can be," Hayes told the group.

He said that there were three basic things prevalent in Austin which he would work against if he were elected to the state's most important legislative office:

1. Closed-door hearings; 2. Refusal to allow senators to speak at critical times in the Senate; and 3. Vote-switching. He said the closed-door hear-

ings where the people and press were shut out were the breeding place of scandal in politics. Of senators being refused the floor, he said those people had been elected to the Senate, and had a right to be heard. On the vote-switching point, Hayes referred to the representatives who asked that their vote be changed when it didn't affect

the outcome of the bill, in order to please constituents back home.

"You'll get a state income tax unless you elect Bill Hayes as lieutenant governor," he said. "My opponent says we must find new ways to raise state tax money, and this is what he has in mind," Hayes stated. (Continued on page 2)

READY TO ROLL . . . P. Ready, bus foreman for Friona Schools, checks over the new school bus bought by the system during the summer. The buses are all ready for their first run Monday morning, as school begins for approximately 1200 Friona youngsters.

## AT FRIONA COURSE

# First Annual Golf Tournament Gets Underway Today

The first annual amateur and professional golf tournament at Friona Country Club will be held this weekend, and quite a flock of area golfers is expected to participate.

A West Texas Professional Golfers' Association pro-am is to be held today, with 20 to 25 professional golfers expected to take part.

## Lions To Sponsor Orbital Flight Film

The Friona Lions Club decided at its meeting last Thursday to have a community showing of a film it has secured depicting John Glenn's orbital flight. The film, which is said to be a very interesting documentary, will be shown the night of September 27, although the site has not been arranged as yet.

District Governor of District 2T-1, who showed movies of his trip to the Lions International Convention in Nice, France.

Skypapa reported that many aspects of the convention proper were disappointing, but added that it was a wonderful trip, one he would long remember. The Hereford club paid his way to the convention.

Special guest of the club was Ed Skypala of Hereford, Deputy

The Hereford milk distributor said it alarmed him to find that Communism was taken so lightly in some of the European countries he visited. "It isn't underground like it is in the United States," he said.

Skypala added that he had his chance to try out his German during his stay in that country, and was gratified to find that the German people he talked to were in complete accord with America and its government.

Tournament play will be Saturday and Sunday. It was originally planned to hold the tourney Friday, Saturday and Sunday, but a conflicting meet at Pampa caused club pro Joe Coronado to scratch Friday, so that the pros could play in the Pampa tournament.

The professionals will play an 18-hole medal tournament Thursday, in which a \$200 added pot will be at stake, if as many as 20 pros enter, the winner would be paid \$175, which Coronado conceded.

(Continued on page 2)

## Enrolment Schedule

Following is the enrollment schedule for students in Friona public schools:

FRIDAY, AUGUST 31  
9:30 a.m.  
Grades 7-8 -- Junior High Building.  
Freshmen--Band Hall  
Sophomores--Library  
Juniors--Room 5,  
Seniors--Room 12.

MONDAY, SEPTEMBER 3  
Buses run at regular times; elementary students enroll beginning at 8:45 a. m.

## Allen's Jewelry Victim Of Theft

Three relatively inexpensive men's watches were taken from the display window at Allen's Jewelry Monday night in a brazen break-in which took place sometime before 10 p. m.

The watches ranged in value from \$20 to \$40, and the total value of the three taken was somewhere between \$75 and \$100, according to Allen Stewart, proprietor.

Watches surrounding the three taken were considerably higher in value, most easily accessible through the hole which was broken in the win-

dow. Stewart said that replacing the broken window would probably cost more than the merchandise lost.

It was the third break-in at the store within 20 months, Allen's was the victim of burglars during each of the past two Decembers.

Police Chief Ben Moorman said the theft came before 10 p. m. He was amazed that a break-in should occur at such an early time of night on a lighted street where traffic was still prevalent.

## Winners Listed In City Golf Tournament

Vernon Scott and Tillie Coronado were the winners of the "scotch foursome" tournament at Friona Country Club last Sunday, posting a score of 37 to beat 15 other couples with a five handicap, the tourney score was rounded to 32.

Coronado, 48; Thelma Johnson--Bill McGlothlin, 50; and Mildred Agee--Eddie Hall, 50.

Coming in second was the team of Tom Jarboe and Mick Mingus, with the duo of John Renner and Ted Renner, all shooting 36s.

Actually, four teams tied with scores of 36, and a playoff had to be arranged, to determine second and third place.

Also carding scores of 36 were Cherry Mingus and Lee Renner, as well as Deke Kendrick and Wright Williams.

Other scores were Lavon Renner--Shorty Mingus, 39; Joy Hall--Pudge Kendrick, 40; Mildred Mingus--Glen Mingus, 40; W. L. Edelman--Lloyd Rector, 42; Betty Rector--Maynard

Agee, 45; Marty Martinez--Elsie Coronado, 45; Ray D. Fleming--Virginia Martinez, 45; Gertrude Renner--Eddie

CHECKS LOSS . . . Friona Police Chief Ben Moorman checks the break-in at Allen's jewelry Monday night in which three wrist watches were taken. The robbery happened at an "early" point in the evening, prior to 10 p. m.

## Lazbuddie Speech Mentioned Statewide

The following reference to Republican Congressional candidate Desmond Barry's recent appearance in Lazbuddie was carried in the recent "Barry Bulletin", published by the Barry for Congress organization in Houston.

It was called to the Star's attention by Les Bruns, Farmer County Republican chairman: "The Panhandle-South Plains jaunt by Des Barry was a great success everywhere. Barry continues to be amazed and humble

### Swimming Meet--

divisions. New classes for women swimmers will begin September 3. Deke Kendrick will conduct two classes each Tuesday and Thursday. The beginners class will be from 2 to 3 p. m., and the advanced beginners class will last from 3 to 4 p. m.

**Evening Shoppers**

### Rockwell Dies In Houston

Funeral services for James Rockwell, pioneer lumberman and co-owner of Rockwell Brothers Lumber Co. were conducted Saturday afternoon in Trinity Episcopal Church in Houston. He died in St. Luke's Episcopal Hospital Thursday evening, following a lengthy illness.

He and his brother, Cecil Rockwell of Hereford, were co-owners of the lumber chain, which had headquarters in Houston. James Rockwell served as head of the Houston office a number of years but retired a few years ago due to illness.

Survivors include his wife, of the home in Houston, and two brothers, Henry of Houston and Cecil of Hereford. Burial was in Forest Park Lawndale Mausoleum of Houston.

buddie, which is not a town, but a fine school in the middle of a farming area. Thanks to committeeman Frank Hinkson's unceasing plea for money, it was financially great too, with \$425 contributed. Contributions were also given at Plainview, Dimmitt, Dumas and Amarillo."

About \$380 of this applied on the Farmer County quota, so Farmer County has reached the quota set up by the state headquarters.

The following is another quote, from the Andrews County News -- "We were convinced that this man is one of the few political figures we've met in recent years that does not know the meaning of the term "political expediency." It's evident that he has a set of principals hewed from solid rock and he struck us as an individual that will stand on those principals come holocaust, high water or political expediency."

LONDON (UPI) — Deirdre Catt, promising young English tennis player, is known to friends as Kitty.

## Resident Patrolman Named For County

Carroll Parker will become Farmer County's first resident highway patrolman September 1 when the State Highway Patrol opens an office on the second floor of the County Courthouse. Parker, 28, will be in charge of covering accidents for the entire county, as well as general patrolling, although units from Dimmitt and Hereford will still

help where necessary. A native of Lubbock, Parker has been a law enforcement officer for more than six years. He has been with the Hereford Highway Patrol office for the past two and one-half years. Prior to that, he was with the force in Lubbock for three years and eight months.

"There will be a few changes in working the county, but mainly we'll just be working it from a different direction," said Parker.

Farmer County has probably more miles of highway than other counties its size in West Texas, mainly because U. S. Highway 60 runs from the southwest corner to the northeast corner of the county, Parker pointed out.

Other major highways which will be overseen by Parker are US 84-70, and state highways 86 and 214.

Parker is married, and is the father of three sons, Gary 6; Tim 4; and Richard 2.

## Former Resident Buried Friday

Mrs. Bertha Henderson, a former resident of this area was buried in West Park Cemetery at Hereford Friday afternoon following funeral services in Gilliland's Rose Chapel. Officiating minister was Paul Smith of Friona.

Mrs. Henderson, 74, died Monday in the Los Angeles General Hospital. She had been a resident of Baldwin Park, California for the past several years.

She was born Dec. 6, 1887 in Kansas and moved to Texas in 1937.

Survivors include two sons, Irvin of Baldwin Park, Cal. and Roy W. of Huntington Park, Cal.; four daughters, Mrs. Gladys Heller, Arcadia, Cal., Mrs. Frances Beiderwell, Fresno, Mrs. Eva Hininger, Guymon, Okla. and Mrs. Kathryn Baize, Tucson, Ariz.

Also her mother, Mrs. T. C. Brown, Shattuck, Okla., eight grandchildren, 12 great-grandchildren, two brothers and two sisters.

### State Candidate--

He blasted the state sales tax as "an insult to the people of Texas."

Hayes said it was disgusting to see the number of representatives who remained silent on important questions of the day.

"Our forefathers such as Sam Houston are probably turning over in their graves at suggestions such as Bobby Kennedy's that we give part of El Paso back to Mexico," Hayes commented. "I don't care to give anything away, to Mexico, or anyone else," he added.

He hit the high campaign expenditures by his Democratic opponents, commenting that he didn't think the people of Texas could afford such "leaders" as the other side offered.

INSPECT "LOOT" . . . Friona Golf Pro Joe Coronado, left, and Jay Claborn, co-chairman of the first annual Friona tournament, look over some of the prizes to be won at the tournament this weekend.

## Capital Is Home Of Three Ballets

WASHINGTON (UPI) — Ballet is busting out all over in the nation's capital even in the age of the twist and the hully-gully. Evidence of this came recently when headquarters for a new National Ballet Company opened here with the announced determination to become one of the best professional dance groups in the country.

The emergence of the new company, which also will conduct an associated National Ballet School, gives Washington three separate ballet organizations. The other two are the longer-established Washington Ballet Guild and Company and the Washington National Ballet Foundation, of which Mrs. John F. Kennedy is an honorary chairman.

The National Ballet Company and School is under the sponsorship of the National Ballet Society, headed by Mrs. Richard Riddell, a long-time dance devotee.

Master choreographer George Balanchine is a member of the Society's board of directors. "I feel that Balanchine's New York City Ballet Company is the best in the country," Mrs. Riddell said in a recent interview. "Our aim is to become as good as they are. We not only hope to add to the cultural life of Washington but to the country at large. We plan to tour the country, coast to coast, from our Washington base."

Frederic Franklin, who spent 23 years of his noted dancing career with the Ballet Russe, will serve as chief choreographer for the company.

The National Ballet Company will have 25 professional dancers drawn from Washington, New York and other areas of the country. There will be two prima ballerinas: Sonia Dragomanovic, formerly with the Salzburg Ballet, and Jacqueline Hepper, a graduate of the Washington School of Ballet under the late Lisa Gardiner.

Mrs. Riddell was one of the organizers of the Washington Ballet Guild, set up in 1956 to help maintain the Washington Ballet Company, which was founded in 1938.

However, Mrs. Riddell explained, both she and Franklin left the Guild because of a difference of opinion "on going professional." "I simply feel that the important end result of ballet theatre is the attainment of professional status," she said.

### Friona Golf--

"Would not be a bad day's work."

Winners in each flight of the tournament will receive a set of first line irons valued at \$155. Runnersup will get a set of woods worth \$104. Consolation winners will be awarded a \$37 golf bag.

Entry fee in the tournament is \$15. Coronado urges all the local golfers to enter the tourney, since it is the first of its kind locally, and a good start is essential in making it an annual affair.

Coronado said he expected about 100 players to hit the course for Thursday's pro-am.

Among the professional golfers expected for the tournament is one woman pro. She is Lila Austin of Amarillo's "Tas-cosa Country Club. Miss Austin is the sister of the club's professional, Johnny Austin.

Members of the Women's Golf Association will serve lunch at the club Thursday and Saturday. The Golden Spread Restaurant will cater a lunch on Sunday. All club members are invited to come out for the lunch whether they play in the tournament or not.

Tournament chairmen are Jay Claborn and John Renner.

**BLACK NEWS**

BY BRENDA DEATON

The first fall season meeting of the Black Home Demonstration Club will be Thursday, September 6 at 2:00 in the home of Mrs. Ralph Price. There will be two guest speakers present participating in the program on crafts. All members are urged to attend.

Mr. and Mrs. Bill Carthel and Mr. and Mrs. Gene Welch with their families spent the past week-end at Conchas Lake.

Linda and Connie Stone spent the past week in Lubbock while Steve and Gary Stone visited in Slaton. The young Stones were visiting with relatives.

Mr. and Mrs. John Benger, Mrs. Alice Powell, and Mrs. Allen Bridges are vacationing in Red River this week.

Mr. and Mrs. Clyde Hays visited Saturday night in Amarillo with her brother and his wife, Mr. and Mrs. H. A. Burnett.

Recent guests in the W. W. Whitaker home were his aunt, uncle, and mother, Mr. and Mrs. Red Welborn of Fort Worth and Mrs. G. H. Whitaker of Hereford.

Mrs. Kay Kendrick of Friona visited with Mrs. T. J. Presley Tuesday morning.

Mr. and Mrs. Harry Lookingbill spent Sunday afternoon in Clovis. The Lookingbills visited his nephew who was seriously injured in a car accident near Clovis.

Miss Susie Spring is visiting with the Johnnie Bengers this week. Glenda Deaton spent Tuesday with Susie at the Bengers.

Misses Glenna and Veatrice Crow spent the week-end with the L. L. Deatons.

Mr. and Mrs. Bill Nazworth and boys of Friona visited with the J. R. Nazworths Saturday afternoon.

May I take this opportunity to say thank you to every one in our community. I certainly appreciate all the help I have received while writing the Black News. I hope you have enjoyed reading the news this summer as much as I have enjoyed writing it.

For the Father himself loved you.—(John 16:27)

God's love keeps us from all harm; it directs us into paths of safe conduct; it releases us from strained, tense conditions; it leads us to follow after peace and order.

WANTED -- Clean cotton rags. No overalls or other firmly woven materials. Will pay 7 cents per pound. Plains Publishers. Phone 4811. 9-tfn

**Prep School Boy Is Clothing Conformist**

By WALTER LOGAN  
United Press International  
NEW YORK (UPI) -- Someone asked the other day what kind of clothes to buy a young boy going off to a swanky prep school for the first time this fall. The answer is simple. The kids at those fancy schools wear just about the same thing kids wear anywhere.  
The days of the formal school blazer have just about passed. The campus uniform now is a pair of clean chinos, a sports shirt or a button down collar with tie, a pair of slip-on moccasins with white crew socks and a sweater or jacket. Hundreds of variations, of course.  
The one thing that might conceivably set them apart is an ultra-conservative three-piece suit for dressup wear worn with ultra-conservative shirts, ties, shoes and socks. It is a dark three-button worsted suit and even if they don't wear it west there should be one just in case everybody else at school wears one.  
Authorities on the subject will tell you the boys of 13 or 14 often know more about what they will need than parents. They have a built-in radar

black through charcoal gray to dark olive. Blue, somehow, is out and a father trying to buy his son a navy blue serge of his own school days will get only a pained look. When a teen-ager reaches college age blue is back in.

Here are some of the current trends among the better dressed youths:  
Dress wear -- the suit he wears into the city or to a party will be as subdued and conservative as any ever made. Campus wear--bright sweaters, lots of cardigans, jackets with ski-type hoods, often padded, and a tie as often as not.

Outer wear is bright, colorful, warm -- and short. There is an occasional top coat to go with the dressup suit but you see coats well above the knees, often with hoods or fake fur collars a lot of corduroy with zip-out linings and color ranging from black to orange.  
Almost anything goes in raincoats but most are short to the point of being somewhat impractical. You see novelties from denim to velvet collars and a color range from black to what have you.

which tells them what styles are in and what are out and they are aware of subtleties their parents would never notice.  
The young teen-ager, who has acquired a startling sense of fashion despite his occasional unkempt look, rarely needs more than one suit for school. With it he should have at least one tweed jacket or blazer and a short golf- or ski-type outer jacket.  
No offbeat clothes. They will quickly be discarded when he sees they are not in. And there should be provision to pick up a few things at school -- such as whatever fad happens to be the campus rage -- so everyone can look alike by the time school is over.  
One of the experts in the teen-age field is Charles Stead, buyer for the University Shop at Brooks Brothers, who reports the 13- and 14-year-olds "are among the most conservative and conformist consumers--our real 'traditionalists.'"  
The end result is a casual but correct natural look made up of soft tweeds, classic blazers and colors ranging from

## Mary Gruhlkey Becomes Bride Of Buford Carter

Miss Mary Gruhlkey of Adrian and Buford Carter of Vega exchanged wedding vows Saturday, August 18. Rev. J. R. Manning, pastor of Adrian First Baptist Church, read the double ring ceremony in the home of the bride's parents, Mr. and Mrs. R. M. Gruhlkey.

Parents of the groom are Mr. and Mrs. Clark K. Carter of Dumas, formerly of Friona. Judy Carter, Dumas, sister of the groom, presented traditional wedding music and accompanied Judith Reddell of Amarillo, soloist, as she sang several selections.

Miss Billie Gruhlkey, sister of the bride, was maid of honor. Candles were lighted by Miss Gale Gruhlkey, also sister of the bride.

Pete Carter of Dalhart was his brother's best man. The bride, escorted to the altar and given in marriage by her father, wore a ballerina

length gown of silk faced peau de sole trimmed in lace, fashioned with long tapered sleeves, fitted bodice and bell shaped skirt.

Her veil of imported illusion was attached to a crown of seed pearls and her bouquet was of white roses and stephanotis. Mrs. Carter, a graduate of Adrian High School and West Texas State College, taught in Dumas schools last year. Her husband, a 1957 graduate of Friona High School, farms near Vega.

After a wedding trip to Ruidoso, Mr. and Mrs. Carter will be at home in Vega.

## Frionans Make Weekend Tour

Mrs. Lucy Welch, Mrs. Hattie Snead, Geneva Floyd and Janet Snead left Friona Thursday afternoon for a weekend tour of northeastern New Mexico.

After spending the night at Tucumcari, the group took a train trip to French. Then went to the Welch cabin at Cowles. Before returning home Monday the group went to Red River, Eagle Nest, Taos, and Santa Fe.

## Daughter Born To D. Wallers

Mr. and Mrs. Donnie Waller became parents of a baby girl at Parmer County Community Hospital Tuesday, August 14. She weighed 6 lbs. 8 3/4 ozs. and was named Nickie Shawn. She has a brother, Smokey. Grandparents are Mr. and Mrs. Bill Lebow of Morton and Mr. and Mrs. R. M. Waller, also of Morton.

## White Family Tours Colorado

Mr. and Mrs. E. S. White Sr. and children, Lois and Richard, spent last week sightseeing in Colorado. Some of the points of interest the group visited were the Royal Gorge, Grand Lake and several mountain peaks near Leadville and Milner Pass.

Other places they visited were Fall River Pass, Estes Park and Bear Lake. At Fall River Pass the road was closed due to snow a few hours following the White's visit. Rain and low temperatures hampered the fishing.

## Hellmans To Live Here

Mr. and Mrs. A. J. Hellman are at home here following their recent marriage in Clovis.

Mrs. Hellman, formerly Joan Elder, has been residing in Truth or Consequences the past several years. He is the local Santa Fe agent.

## Girl Born To Buths

Mr. and Mrs. Bill Buth became parents of a baby girl at Parmer County Community Hospital at 4:55 p.m. August 23. She weighed 6 lbs. 14 ozs. and was named Elizabeth Faye.

Elizabeth Faye is the first daughter of the couple, who have a son, Leslie Joe. Grandparents are Mr. and Mrs. Bill Schwab of Friona and Mr. and Mrs. Bill Buth of Bentonville, Arkansas.

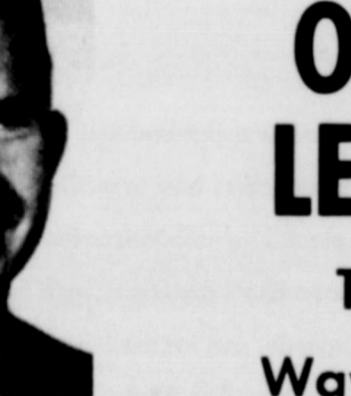

## It's A Girl For Carrolls

Julie Lynn Carroll was born Thursday, August 16 at Parmer County Community Hospital. Her parents are Mr. and Mrs. Velden Carroll. She weighed 7 lbs. 13 1/2 ozs. and is the first girl for the couple. She has two brothers, Terry and Bobby.

Grandparents are Mr. and Mrs. J. T. Carroll of Friona and Dr. and Mrs. L. A. Cramer of Fort Worth. Great-grandparents are R. C. Carroll of Oxford, Miss., Rev. R. B. Cramer of Albion, New York and Mrs. Louise Cramer of Columbus, Ohio.

Mrs. June Hamilton of Dumas spent Tuesday night with her parents, Mr. and Mrs. E. S. White Sr. and her two daughters, Dianne and Terri, who had been visiting their grandparents, returned to Dumas with her Wednesday.

## SHOWERS AHEAD—Here's a budget item for back-to-school wardrobes: a raincoat made from gaily printed cotton feed or flour bags! Clear plastic is added for waterproofing. Instructions available from the National Cotton Council, Bag Dept., P. O. Box 9906, Memphis 12, Tennessee.

# Of Interest To THE WOMEN

Mrs. Carrol Day has announced the engagement and approaching marriage of her daughter, Geraldene, to Robert K. Sumrall of Amarillo, son of Mrs. Lula Sumrall of Fort Stockton. Wedding vows for the couple will be read in a home ceremony October 21. Invitations are not being mailed locally, but friends are invited to attend.

## Arthur Drakes Have Visitors

Recent visitors in the home of Mr. and Mrs. Arthur Drake and daughters, Betty and Peggy, have been Mr. and Mrs. Dell Dodge of Denver and Mr. and Mrs. Frank Green of Cleveland, Ohio. The Dodges are Mrs. Drake's parents and the Greens are her uncle and aunt.

Sunday the Drakes, Dodges and Greens were accompanied to Levelland by Mrs. A. O. Drake and Mr. and Mrs. Earl Drake and Bobby, where they visited in the home of Mr. and Mrs. Jerry Brown. Mrs. Brown is the former Erma Lou Drake.

## Sanders Family Returns Sunday

Mr. and Mrs. John D. Sanders and David were weekend visitors in the home of Mr. and Mrs. S. B. McSwain and Mrs. Ted Sanders and daughter, Audrey Kaye at Plainview.

Mrs. Ted Sanders, daughter-in-law of the couple, and Audrey Kaye plan to join their husband and father at Mountain Home, Idaho before school opens.

Tommy Jay, another son, who has been attending summer school at Wayland College, returned to Friona with his parents and will be here until the fall session begins at Wayland.

## Tip For Zest in Outdoor Cooking

When a man dons an apron and decides to try his hand at barbecuing, he is likely to produce some very special food, and to do it with a great deal of flair. A favorite trick is the use of wine and herbs to season the meat. Letting the meat stand in a well-seasoned marinade will give it great depth of flavor. There's also another advantage; the mild acid in the wine helps to tenderize it.

To apply the sauce as a baste during cooking, tie some sprigs of fresh herbs together—thyme, marjoram, oregano and rosemary are good—to use as a brush. A dry red or white wine, such as a Burgundy or Sauterne from California, is ideal for this purpose. It enhances the meal, too, when it is served as the accompanying beverage.

### WINE MARINADE AND BASTE

- (Makes about 2 1/2 cups)
- 2 cups California red or white dinner wine
  - 1/2 cup wine vinegar
  - 1 medium onion, grated
  - 1 clove garlic, crushed
  - 1 tablespoon Worcestershire sauce
  - 1 tablespoon mustard, dry or prepared
  - 2 whole cloves
  - 1 bay leaf
  - 1 tablespoon mixed dry herbs (rosemary, oregano, etc.)
  - 1 teaspoon garlic salt
  - 1 tablespoon soy sauce

Combine all ingredients. Pour over meat in a glass or porcelain container; refrigerate for a few hours or overnight, depending on type and cut of meat. For steaks, pot roasts, Swiss steaks, venison or other game, strain and use marinade as part of the cooking liquid.

Note: To use this same mixture as a basting sauce, strain and remove whole seasonings. Add 1/2 cup cooking oil. For a sweet-type baste, add 1/4 cup brown sugar or honey.

Low-slung and spirited, Ford's all-new compact Falcon Futura convertible leads off Detroit's 1963 parade of new car models. Designed with a sports car flair, the car offers luxury-car interior appointments, an electrically operated power top and a complete range of performance options. Wire wheel covers, bucket seats and a floor mounted, 4-speed transmission are a few of the many options available.

This newest addition to Ford's industry leading compact line—more than a million Falcons have already been produced—will be introduced in dealer showrooms Friday, September 28.

## Party Honors Miss Holcomb

A going away party in the home of Mr. and Mrs. Glen Stevick Monday evening honored Phyllis Holcomb, who is moving to Amarillo soon. Guests assembled in time for an outdoor supper in the backyard and later went to a movie.

Gifts were presented to the honoree. Those present were Sandy Beene, Lyndia Chandler, Frieda Floyd, Phyllis Holcomb, Lanore Jackson, Lorene Jackson, Judy Phipps, Janet Stevick, Janet Rushing, Monte Sue Welch and Darlene Wilson.

After attending the show, the group returned to the Stevick home for a slumber party. Breakfast was served Tuesday morning by Mrs. Stevick and her daughter, Janet.

## Attend Service At Shallowater

Several local families attended the annual homecoming services at the Shallowater Baptist Church last Sunday.

Those attending Sunday School and church from Friona were Mr. and Mrs. Leroy Johnson and family, Mr. and Mrs. Dale Westbrook and family, and Mr. and Mrs. Bee Westbrook.

An afternoon program honored former pastors and members of the church. Leroy Johnson gave the benediction.

## MARRIAGE LICENSES

August 18—Clayton Porterfield, Clovis, N.M., and Jimmie Cecilie Ivy, Fort Worth.

August 21—George Gonzales Huereca, Portales, N.M., and Rita Florentina Garcia, Portales.

August 24—Lee Dennis Jesko, Route 3, Muleshoe, and Brenda Iris Collier, Friona.

## Janice Coffey Born Sunday

Janice Lea is the name Mr. and Mrs. Leon Coffey chose for the baby girl born to them Sunday, August 19 at 1:48 p.m. at Parmer County Community Hospital. She weighed 7 lbs. 13/4 ozs.

She has a brother, Roger. Her grandparents are Mr. and Mrs. Wesley Hardesty of Friona and Mrs. J. L. Coffey of Melrose, N. Mex. is the great-grandmother.

Sunday visitors in the Coffey home were Mrs. E. E. Coffey and Donna of Lubbock; Mrs. J. L. Coffey and Mr. and Mrs. Leroy Coffey and Beth and Mrs. Ida Griffin of Melrose.

Mr. and Mrs. James Robinson of Muleshoe are announcing the engagement and approaching marriage of their daughter, Glenda, to Derrell Jennings, son of Mr. and Mrs. Joe Bates Jennings, also of Muleshoe.

Friends and relatives are invited to attend the September 9 wedding at the Lazzbuddie Church of Christ, 3:30 p.m. and the ensuing reception at the Methodist Church fellowship hall.

Kay Struve is visiting in the home of Mr. and Mrs. Joe Brown and daughters at Tulsa, Oklahoma.

Mr. and Mrs. A. R. McCown of Erick, Oklahoma were Monday night guests in the home of Mr. and Mrs. Glenn Floyd. The McCowns are Mrs. Floyd's parents.

## An OPEN LETTER To Billy Wayne Clayton

J. FRANK FORD JR.

Dear Bill:

There are many issues facing us which affect the future of our state and our nation. I believe it is our responsibility as candidates to make ourselves available for a joint discussion of these issues in each community of the district with each meeting open to all questions from the audience. In expressing my desire to do this, I leave the selection of times and places to you.

One question I would like to ask you: Do you or do you not concur in the resolution passed by the county conventions of the Democratic Party to support the current national administration? Although you supported it in 1960, you have told Republicans in this campaign that you would probably have supported Cox against Don Yarborough and that you would like to clarify your position concerning this apparent inconsistency.

Sincerely,  
Frank Ford

# Jan Welch Tells About Trip To World's Fair

(Editor's note: The following is the seventh in a series of articles written by local persons attending the World's Fair in Seattle. Those attending the fair who would like to write an account but have not been contacted are asked to call the Star at 2291. This week's article was written by Jan Welch, who will be a seventh-grader at Friona this year.)

**BY JAN WELCH**  
The D. C. Herring family, W. D. Buske and family and ourselves, the Louis Welch family, planned a trip to the World's Fair. We decided to meet in Seattle on the 11th of August. Each family took a different route, and we thought it was quite a coincidence that we all arrived in Seattle between 2 and 2:30 p.m. August 11. We were really glad to see some people from home.

The closer we got to Seattle the more excited we became. Then we got our first glimpse of the bright orange Space Needle and our dreams had come true.

We found the motel, and there the Monorail was, running right over the street in front of our motel! It took 95 seconds for us to get to the fair. It was a smooth ride—like an elevator running sideways.

The first afternoon we got acquainted with the fair grounds and rode just about all 20 rides in the Gay Way. There were so many fascinating rides we didn't know where to begin.

Some of the rides we enjoyed were the Wild Mouse, the 95-foot ferris wheel, Cake Walk (which was a kind of balancing act), the Kotor (which is an European ride—a room whirling around and around and suddenly the floor drops and there you are hanging on the wall).

That night we rode the cable car—it carried us 60 feet above the fair. We could see the spraying fountain and its changing colors. The buildings were extra pretty at night because they were lighted. The Science Building,

which cost the United States 9-1/2 million dollars, is the most beautiful building on the fair grounds.

The next day we spend seeing the exhibits. We especially enjoyed the foreign exhibits and seeing people from other nations in their native costumes. We liked the Japanese building the best. They had built a miniature island showing the Japanese way of living.

Other interesting things we did were seeing ourselves on TV, seeing a house cleaned by pushing some buttons, a telephone where you could see the person you were talking to on a small screen.

When the telephone didn't answer, it used to mean nobody was home. Now it probably means you aren't synchronizing with the commercial.

We also heard our heart beat, saw the moon through a telescope, and saw a lot of plant and animal life.

The men enjoyed taking a helicopter ride, and the women enjoyed a fashion show put on by the Vogue Magazine. The models walked on a circular ramp over water.

We enjoyed the water show and also the Berlin Circus, which was mostly done on high wires with nothing but atmosphere underneath.

The Food Circus was full of tempting foods of all kinds. The foreign food displays were very interesting. The Paul Bunyan Cake was located in the center of the Food Circus. It was 30 feet high and can you imagine putting 18,000 eggs in a cake?

J. A. Loflin

## Church Chuckles by CARTWRIGHT

"Owing to my position I've decided not to take sides on the issue of air-conditioning our auditorium."

AT THE FAIR . . . Gay, Holly and Jan Welch, children of the Louis Welches, are shown under the Monorail at the World's Fair.

## Friona State Bank Begins New Service

A new service to Friona residents was instigated recently by the Friona State Bank. The bank completed arrangements to become a Federal Depository for withholding tax paid by local employers.

Under the new setup, customers may deposit their withholding tax in the new account at Friona State Bank, rather than sending it to the Federal Reserve Bank in Dallas.

"We think it's an added convenience to our customers," said Frank Spring, president of the bank.

Friona State Bank already had a "Treasury Tax and Loan"

account, and by having that, it was just necessary to make application and meet requirements of proof collateral for money which the bank will keep for the Federal Reserve Bank, Spring explained.

Every businessman pays money to the Federal Government for withholding taxes. Under the local account, when that amount reaches \$100, they may bring that amount to the bank for deposit in the special Federal Account.

A fellow wouldn't mind loaning his lawn mower if the borrower wouldn't take it out of the yard.

One of our favorite foods was the Danish waffle. It was a crisp waffle with powdered sugar, strawberries, and whipped cream piled high on top.

We waited in line only 35 minutes before we took our ride to the top of the Space Needle. We were lucky because the day before the elevator stuck for an

hour and 30 minutes. Needless to say, the view was terrific.

We noticed the people working at the fair grounds were very helpful and friendly. Most of them were college students. The fair grounds were just especially pretty because they were always neat and clean.

The next day we went to Van-

cover Island on the boat Princess Priscilla. We were on the water for eight hours with 1600 other sight-seers. When we got back to the motel that night we were a bunch of tired Texans ready to start home.

This trip is one that all of us will enjoy thinking about for a long time.

### Don't Guess Soil Test

#### Song of The Lazy Fertilizer

--Oma Bonzerakin

I knowed that if I'd persevere  
My time for vacatin' 'ud finally get here.  
And that I'd get to go somewhere and stay  
Where I wouldn't hafta do nothin' all day.

Just rest and eat and sleep and play  
Like I'd just been elected king for a day.  
But no such luck, I'll have you know.  
The kids said campin' was all the go.  
And I agreed like a stupid lout  
And said, O. K., boys, we'll just camp out.

We made our camp by a mountain brook.  
Then tried to build us a fire to cook.  
But the fire went out in a cloud of smoke,  
And, I thought, "Boy! This campin's a joke."

When out of the tent came a mournful moan.  
I think she said, "I wish I was home.  
There's rocks in my bed and smoke in my eyes,  
And, if I don't get snake bit, I'll be surprised."

But we stuck it out till the mornin' sun.  
Then grabbed our stuff and home we run.  
I just found out I'm no pioneer  
And if you don't mind, next time I'll just stay here.

## MINNEAPOLIS Moline

### R6

### End Wheel Double-Run Grain Drills

The new lightweight champ—maximum brawn with minimum weight. Bigger hopper means fewer stops. Lower, for easy loading.

Here is a combination of everything that's newest and best in modern planting equipment. The new Moline R6 series is designed for today's vastly enlarged farms, for tractor speeds, and for the best in modern farming practice. The R6 drill shown here, carried on rubber tired wheels, gives you more of everything you want today—precision accuracy, exact control of drilling depth, a perfectly formed ridge—and, most important, the precisely controlled seeding rate made possible by the Minneapolis-Moline double-run feed. See this machine at your Moline dealer's now, and discover how to put in any crop—wheat, oats, rye, flax, beans—in less time, with less cost, and at lower cost per acre.

# MAURER MACHINERY

FRIONA

**JACKIE CLARK HURT**

**Chiefs Show Spirit In Scrimmage**

REGULARS RETURN . . . The six returning starters for the Friona Chiefs are shown above during workouts. They are (front, left to right), Glenn Herring, Max Reeve and Dwight Bates, and (back, left to right) Tommy Baxter, Gary Renner and Everett Gee. The Chiefs will be out to rack up a win this season, after tasting defeat in all ten games last year.

The Friona Chiefs football squad scrimmaged Springlake Tuesday night in the first chance for coaches to size them up against opposition.

The Chief coaches were "pretty well pleased" with the team's showing, even though they were outscored by the Springlake team, 4-2.

Jackie Clark, sophomore defensive end, broke a bone in his left ankle during the scrimmage, and will miss most of the season, or six to eight weeks. "Clark was doing a great job until he hurt himself," said Coach Kenneth Miller. "We sure hate to lose him."

"The entire team showed a lot

of hustle," he added, indicating that the team was long on spirit, if it was short on experience and weight.

**Benefits**  
NEW YORK (UPI)—Insurance company health benefit payments in the first three months of 1962 totaled \$947 million, compared with \$854 million in the first three months of last year, according to the Health Insurance News.

Termites cannot digest the wood they consume. This is done by tiny one-celled animals which live inside the insect.

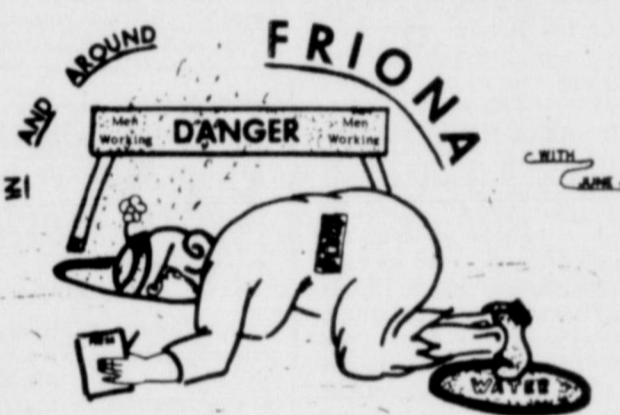

By 1965, there will be 36 million teen-agers in the U.S. population, compared with about 31 million in 1960.

**And That's Only Part-Time**  
S. LOUIS (UPI)—Jack Bettag, part-time crop duster pilot, has logged more than 7,700 hours of insect-killing. He has survived 11 crackups since his first job in Mississippi in 1947. In one day in 1953, Bettag crop-dusted 1,450 acres of cotton.

"Golf, golf, golf!" wailed the wife as her husband, started for the door with his clubs. "I really believe I would drop dead if you spent one Sunday at home."  
"Now, dear," he answered, "there's no use talking like that. You know you can't bribe me."

Another change has been made in the Friona Star-Plains Publishers organization. Due to the resignation of Ella Faye Holcomb, it was necessary to do some shifting in order to fill the vacancy and in the shuffle I moved back to the society desk after an absence of about 2 1/2 years.

Mrs. Holcomb, who has been doing a fine job, resigned and has accepted a position in the woman's department of the Amarillo News-Globe-Times. Even though her absence will be keenly felt, all of us wish her the best of everything in her new home and job.

remarked, "If we had someone to do the chores, we would go to Iowa."

Later that day as she was on her way to Friona, she met a couple in a wagon with two small children. After stopping them she asked if they were looking for work and learned that they were.

Within a few days the Woodall family had been instructed on the various jobs to be done and the Drake family was on its way to Iowa for a month. Since that time the two families have been friends but have seldom visited one another.

Mr. and Mrs. Isaac now live in Durant but were visiting relatives in Canyon and Mrs. Drake thoroughly enjoyed her visit with them.

Dean and Woody Hall, former Friona residents, have moved from Arizona to California. Seems that they are just gradually drifting westward. First they moved to El Paso, then Arizona and now to Carlsbad, California.

## Friona Methodist Church Begins Revival Sunday

The "late summer" revival for the Friona Methodist Church will begin Sunday, and run through Sunday of the following week, September 11.

Speaker for the revival will be Dr. Woodrow Adcock, of Abilene, who is in his second year as Superintendent of the Abilene District of Methodist Churches.

Leading the music for the revival will be Don Lewis, son of Mr. and Mrs. Henry Lewis of Friona. Lewis will be home on vacation. He has been attending Columbia University in New York.

Rev. Russell McAnally, pastor of the church, pointed out that the public is invited to attend the services. Sunday services will be at 11 a.m. and 7 p.m. Weekday services will be at 10 a.m. and 8 p.m.

"Dr. Adcock is one of the outstanding speakers of the Northwest Texas Conference, and we are fortunate in having him as our revivalist," said Rev. McAnally. "We're also happy to have Lewis, a hometown product, to lead our song services," he continued.

Dr. Adcock received his BA and Doctor of Divinity degrees from McMurry College, Abilene, and his B.D. degree from Perkins School of Theology, SMU. He served Valley View and White-wright Methodist Churches before enlisting as chaplain in the Armed Forces in Europe. Since

then, Dr. Adcock has served churches in Vera, Hale Center, Snyder and Pampa, where he remained seven years.

He and Mrs. Adcock visited eleven countries of Europe and the Holy Land in 1952.

Jimmy Mabry, 1958 graduate of Friona High School and son of Mr. and Mrs. James D. Mabry of Lazbuddie will receive a bachelor's degree in agronomy. He plans to enroll as a graduate student at Kansas State University at Manhattan, Kansas for the fall term.

Clifford Gary Crow, son of Mr. and Mrs. Clifford Crow of Friona, and a former student of Friona school, will be awarded a bachelor's degree in accounting and has been employed by a Fort Worth accounting firm.

Also one sister, eleven grandchildren and five great-grandchildren.

Burial was in Silverton Cemetery.

Mrs. Brown, mother of Mrs. Robert McJimsey of Friona, died at the home of another daughter, Mrs. J. D. Nance, near Silverton August 18.

Also surviving her are her husband, three other daughters, Mrs. J. L. Self, Silverton, Mrs. Clayton Wood, Dell City and

Funeral services for Mrs. U. D. Brown, 63, were conducted in the Church of Christ at Silverton Monday, August 20. Earl Cantwell, Rock Creek minister, and Richard Williams, Snyder minister were officiating ministers.

## Enrolment Hits 360 As Lazbuddie Schools Open

A total of 360 students enrolled as Lazbuddie schools began classes this week, according to Superintendent of Schools James G. Ward.

This number was about 20 to 25 more students than registered at the school by the end of the first month last year, it was reported.

Of the total, some 90 were in high school, and 270 in the elementary grades.

"We're running out of room in our small classrooms," said Ward.

## Local Men To Graduate

Among the more than 500 candidates for degrees at summer commencement at Texas Tech Saturday will be two Friona men.

Jimmy Mabry, 1958 graduate of Friona High School and son of Mr. and Mrs. James D. Mabry of Lazbuddie will receive a bachelor's degree in agronomy. He plans to enroll as a graduate student at Kansas State University at Manhattan, Kansas for the fall term.

Clifford Gary Crow, son of Mr. and Mrs. Clifford Crow of Friona, and a former student of Friona school, will be awarded a bachelor's degree in accounting and has been employed by a Fort Worth accounting firm.

## Parmer's Bond Sales Reported

Bond sales in Parmer County totaled \$731 during July according to Frank Spring, Chairman of the county Savings Bonds Committee.

Total sales during the first 7 months of 1962 were \$80,095 which represents 89 per cent of the 1962 sales goal.

Texas July Savings Bond sales of \$12,516,786 were the highest monthly sales since March. Total sales for the state during the first 7 months of the year were \$89,237,662. This figure represents 54.1 per cent of the state sales goal.

"I was happy to note the sales increase in Texas during July and feel confident that this is a direct result of the outstanding support given to the Freedom Bond Drive by bond volunteers, newspapers, radio and TV stations, organizations, and others. The Texas Bond Committee salutes these groups for their patriotic support of the Bond Program," Chairman Spring said.

Rita Collier spent the weekend visiting in the home of Mr. and Mrs. Eldon Sparkman and son at Littlefield.

HITTING THE BOOKS . . . Part of the record enrollment at Lazbuddie was caught in this open-day picture in a girls' study period.

## Booster Club Meets Monday

A meeting of the Friona Booster Club is scheduled for Monday, September 3, according to John Renner, club president. The meeting will begin at 8 p. m. in the School Cafeteria.

on how the membership drive for the 1962-63 school term is coming along. Ball point pens with the 1962 Chieftain football schedule will be distributed to members for selling to the public.

heard from Coach Kenneth Miller on how the 1962 Chieftain team is coming along.

The Boosters recently authorized the coach to purchase training table for the new field house, as well as sideline marking equipment for the football field.

The club will hear reports A progress report will be

## Something To Think About

6th. Street Church of Christ  
Box 515 -- Friona, Texas

Just don't want to talk about it. This is a questionable attitude for two reasons; In the first place it is inconsistent. We are glad to promote and defend the things that really mean something to us and when we won't talk about our religion - when we won't even defend it, there is a little reason to even profess it. In the second place, there is substantial evidence that a great many people are afraid to examine their religion by the standards of God's Holy Word. They are afraid that something might actually be scripturally wrong with what they have been taught all of their lives and rather than take this chance, they just refuse to discuss the matter. They don't want to be disturbed! It's so much easier to drift along and not even think about the dangers that lie ahead. The man who has this problem, needs to be disturbed. He needs to be disturbed to the point that he will do something now to make things right with his God. His soul is too precious and eternity is too long to treat with indifference a matter of such great importance.

DR. ADCOCK

DON LEWIS

## Robbie Welch Gets Degree

Robbie Welch, daughter of Mr. and Mrs. Eugene Boggess of Friona, received the B. S. Ed. degree in elementary education in commencement exercises last Friday at Abilene Christian College.

Mrs. Welch, a 1959 graduate of Friona High School, was a member of the Ko Jo Kai social club while at ACC.

## Copley To Be At Eglin AFB

Second Lieutenant Don W. Copley of Muleshoe, Tex., is being reassigned to Eglin AFB, Fla., following his graduation from the United States Air Force technical training course for communications officers here at Keesler AFB, Miss.

Lieutenant Copley received training in the operation, maintenance and management of radio, teletype and cryptographic communications equipment and systems.

The lieutenant, who holds a B. S. degree from A&M College of Texas, is the son of Mr. and Mrs. Alexander W. Copley of Muleshoe.

He is married to the former Patsy R. Anthony of Friona, Tex. Lieutenant Copley entered the service in February 1961.

## City Lady's Kin Buried Recently

Funeral services for Mrs. U. D. Brown, 63, were conducted in the Church of Christ at Silverton Monday, August 20. Earl Cantwell, Rock Creek minister, and Richard Williams, Snyder minister were officiating ministers.

Mrs. Brown, mother of Mrs. Robert McJimsey of Friona, died at the home of another daughter, Mrs. J. D. Nance, near Silverton August 18.

Also surviving her are her husband, three other daughters, Mrs. J. L. Self, Silverton, Mrs. Clayton Wood, Dell City and

# come to church Sunday

What Really Counts?

The last will and testament of Patrick Henry was closed with these words: "There is one thing more I wish I could give you. It is the religion of our Lord Jesus Christ. With It, if you had nothing else, you could be happy. Without it, though you had everything else, you could not be happy."

The Christian religion is the one supreme essential of human life. He who has not found peace with God through faith in Jesus Christ is of all men most miserable, no matter what may be the size of his bank account and no matter how high his rung on the social ladder.

And by the same token, he who has found full and free forgiveness for all his sins through faith in Christ's atonement has found the supreme assurance and satisfaction of life - no matter how little he may have of this life's goods and no matter which side of the tracks he may live on.

As William Penn once said, "The true end of life is to know the life that never ends." That is the life that is lived by faith in Jesus Christ. Have you found that life?

Hubert Reeves  
Education Director  
First Baptist Church

### Editorial: THE COST OF CHANGE

Every deviation from an old practice or way involves a certain amount of cost to the persons making the change.

The only fact which should be considered before making a change is whether or not the benefits will be worth the cost of breaking away from the old practice or system.

This is the case with the proposal for a change in the names of streets in Friona.

City Manager Jake Outland describes the change as affecting current records of county, city, school utilities and companies holding city securities and bonds.

Although the actual change of street names would be fairly simple to accomplish, according to City Manager Jake Outland, the change would work a major change, and possibly, a hardship on the city, county, school utilities, and a number of other companies and institutions because of the necessity of changing their records of city holdings.

All tax property and mortgage records would have to be changed to show the new street names. It is estimated that the change in names of streets following a north-south line in Friona would necessitate changes in the city records which would cost in the neighborhood of \$500 for labor.

Similar changes in the records of other institutions and businesses would be required also.

The question which must be decided by the people of Friona is whether the change of street names so that they follow a pattern which would enable residents, if not total strangers, to locate a given address would be worth the cost of making the change.

At present, a good number long-time residents are unable to even tell the street on which some of their close friends live. (But they have no trouble in finding the location.) Few strangers or new residents are able to receive any directions involving the use of Avenue names and still be able to find the location without additional directions.

A name change from the present hodge-podge mixture of names to an orderly system (such as Ave. A, B, C.) would certainly be a great improvement over the present system. Such a change could also prove advantageous in the future as the city continues to grow and reaches the stage where residents are not acquainted with everyone in town.

And if the names are to be changed at all, now is the time to do so before street signs are purchased. The cost now will be much smaller than in some later year after the city has doubled in size—especially is the mixture of names without order is continued through new additions.

But no change will be made and street signs will be ordered with the present names unless the residents indicate a change is supported by sufficiently to warrant consideration.

Whether for or against the change of street names, The Star asks all residents to make known their wishes by calling the mayor, R. L. Fleming, or one of the council members, or by writing the city manager or The Star.

When using whipped cream on pies or puddings, top with a sprinkling of ground cinnamon or nutmeg.

A good mulch for the home garden solves several gardening problems— weeds, cracking of heavy clay soils, heat damage to plants and the need for watering.

A swinging, three-rod kitchen towel holder in a boy's closet makes a good rack for trousers.

To defrost frozen foods quickly, place them in a pan before your electric fan. A fan also can speed up the refrigerator defrosting.

To remove lipstick stains on shirts or handkerchiefs rub with butter held in wax paper, then rub with dry absorbent cotton and wash with soap and water.

### Rifle Revival

ROGERS, Ark. (UPI)—Daisy Manufacturing Co. says it will revive the idea of putting the propellant charge inside the bullet for a new line of .22 and .177 calibre rifles it is planning. With no cartridge behind the bullet, the gun need have no ejection mechanism. Tried a hundred years ago, the method was abandoned because the bullet couldn't hold enough powder. But Daisy says it has a new secret propellant.

### Star Pans Tan, Shuns The Sun

HOLLYWOOD (UPI)—Arlene Dahl, one of Hollywood's most glamorous stars, warns the nation's bathing beauties to stay in the shade and forget about getting a tan.

A stunning tan may snare boy friends, but gals pay a high price for them, she said.

"I used to envy people who got a tan until I went to see a dermatologist and he said the sun ages women faster than anything else," Miss Dahl claimed.

"He told me that women who stay out of the direct sunlight have the skin of a teen-ager when they're 50 years old," she added.

Some of the skins of Hollywood's sun-tanned women appall Miss Dahl, a fair-skinned redhead.

"I see these women and they look like alligator skin," she said. "I like alligator skin, but only for purses and shoes."

"Sun dries out skin and brings premature wrinkles and the damage can't be repaired. Some put oil on their face and that's like cooking your skin in a frying pan," she continued.

Miss Dahl said some of the world's beautiful women get along with a minimum of sunlight. As proof she mentions such lily white skins as those of Grace Kelly, Gina Lollobrigida and durable Mae West.

It's not easy to argue the subject with Miss Dahl.

### Season's Opener

NEW YORK (UPI)—A 90-minute color special, "The Tea-house of the August Moon," will open the 12th season of Hallmark Hall of Fame television drama Oct. 26 on NBC-TV. The comedy, which won both the Pulitzer Prize for drama and the New York Drama Critics' Circle Award, will star three members of the original cast—John Forsythe, David Wayne and Paul Ford.

### Garbage Train

RACINE, Wis. (UPI)—The average family with two children discards about 3,800 pounds of garbage and trash a year — 3,000 pounds a year more than in 1950.

Researchers at a firm making garbage disposers (In-Sink-Erator Co.) report food wastes make up an average 25 per cent of the family refuse. The rest, trash, includes cans, cartons, old newspapers, broken toys and unmendable socks.

### See?

NEW YORK (UPI)—Now the dame fashion who hates repeating attire can wear a different pair of sunglasses each day of the year without wearing the same pair twice. In fact—she can wear two different sets of solar spectacles every day! The National Notion Association says manufacturers and importers of sunglasses provide more than 1,000 different styles for the American market!

LANDMARK COMES DOWN . . . The old Methodist Church building, one of the city's landmarks, was torn down this week to get ready for a new educational building which the church will build. The old structure was erected in 1924.

**In And Around--**

(Continued from page 3)

merce brochure, you should secure one and take a good look at it. A lot of time and effort went into production of the brochure and it is one that all of us can be proud of.

The front cover of this brochure was reproduced in the latest edition of Texas on Parade.

A lot of readers will probably be interested in knowing that Dave and Shirley McPeayolds are moving back to West Texas. At the present time they are in the process of moving to Stratford, where Dave will be connected with the Stratford Star. Looks like he just can't keep off a Star staff.

And, guess what the name of his column will be? Mack's Tracks, of course. It begins to look as if his tracks automatically take him to the Texas Panhandle.

Just now saw Newt Gore drive down the street. A few months ago he moved to East Texas after having been a resident of this area for a number of years. He could be looking for a place to locate, or, he could be just visiting his son, Lewis, and his family.

Some Friona students who are home for a few days before re-entering college are Mikie Welch, daughter of the Nelson Welches; Pat Foster, whose parents are the Wesley Fosters; Tommy Jay Sanders, son of Mr. and Mrs. John D. Sanders and Jon Mack Roden. In the very near future a

lot of young Frionans will be going away to college and we want to know about every one of them. Cooperation of our readers will be greatly appreciated in the project of making a report on the matter.

Several Frionans are beginning their careers as teachers this fall. Robbie Boggess Welch will be teaching in Abilene, Jan Edelman will teach English in Albuquerque High School, Luellen McLean will teach in Wichita Falls, Ted Sanders and his wife will both teach in Idaho and there are probably others I don't know about.

One thing that never changes is our sincere desire to report all news of the community and to make the Friona Star serve the community in the best possible way.

If there's a news item in your neighborhood, call 2291.

PRACTICE STARTS . . . Members of the Friona Chiefs' football squad, which had their first contact work Wednesday, are shown in that morning workout, hitting for all it's worth.

**Smile Of The Week**

VISITOR IN COUNTY JAIL: "What terrible crime has this man committed?"

WARDEN: "Why he didn't commit any crime at all. He was going down the street a few days ago and saw one man shoot another, and he is held as a material witness."

VISITOR: "And where is the man who committed the murder?"

WARDEN: "Oh, he's out on bail."

It's a short step from law-breaker to life-taker.

**CANNING TIPS**

Before reusing a jar, run a finger around the edge of the glass to detect tiny cracks or nicks which might prevent a perfect seal. Such jars should be labeled or otherwise marked as imperfect and may then be used for such tasks as storing birdseed bought in quantity for winter feeding of song birds.

Begin to count processing time as soon as the water in the water-bath canner comes to a full, rolling boil.

When preparing vegetables for canning, clean and otherwise make ready only enough to fill the number of jars that will go into your canner. Allowing vegetables to soak in water while one load of jars is processing causes them to lose food value.

"Head space" at the top of each jar of food allows the liquid inside the jar to expand during processing.

New rubbers should be used each time you fill a jar. Old ones have deteriorated from previous use because of the high temperature needed for processing, so may not give a perfect seal. Don't take a chance on spoilage.

Raw foods will shrink during processing so may be packed into the jars tighter than foods which were previously cooked.

**FRIONA WOMANS CITY ASSOCIATION**

Important Announcement

The association will meet Sept. 9th, Tuesday nite at 7:30 p. m. at the Lanes. All ladies are urged and begged to attend this meeting.

Following this meeting all ladies interested in a Tuesday nite league are requested to remain to discuss and form the league.

GENE POPE announces JOY HALLS Association with the Lanes. All old or new bowlers desiring lessons can see Joy at the Lanes during the day time. Joy is a capable instructor.

We urge all new bowlers who are interested in league play to contact Joy or Bob Reithmeier City Sec., we hope to start all leagues week of Sept. 10th.

Blue Pin Bowling on Wed.'s also your bowling card will still be honored at the Lanes.

## FRIONA

GEORGE W. JONES Friona Chamber of Commerce "Man of the Year," and Henry Lewis, salesman of Herring Implement Co., examine one of Farmer County's high producing sorghum fields. As technology advances in sorghum production, there is greater need for finding domestic and foreign markets for this crop. The Grain Sorghum Producers Association has done much to cope with this problem and will continue their efforts through support of farmers throughout Farmer County.

# SCS Announces Schedules For Remaining Soil Tours

Final plans for the last two series of four tours were announced this week by Bob Crozier, Work Unit Conservationist for Farmer County.

The tours, under the sponsorship of the Soil Conservation Service, began Monday of this week with a tour of the Farwell-

Oklahoma Lane area. The second tour Thursday was to concentrate on the Lazbuddie area.

The third tour is scheduled for Friday in the Bovina-Rhea vicinity. The tour will leave Bovina High School at 2 p.m. Friday. Farms to be visited, with the things to be featured include: Jack McCracken, ir-

rigated grass; Norvell Strawn, systemic insecticide on cotton; Olan Elliott, lake pump; and Tom Caldwell, conservation cropping system.

The final tour in the series is scheduled for Wednesday, September 5, in the Friona-Black area. The tour will leave the SCS office in Friona at 1:30

p.m.

Farms to be visited on the final tour, and their practices emphasized, are M. A. Black, water conservation practices; and George Warner, irrigated grasses for seed production and pasture.

The annual event will wind up with the annual banquet Saturday, September 8, sponsored by the SCS, at which the "Conservation Farmer of the Year" will be named.

Crozier said the number of people turning out for the first tour Monday in the Farwell-Oklahoma Lane area was a bit disappointing, numbering only 15 to 20 persons.

"We expect the number to increase for these latter tours, however," Crozier said.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

John Henderson, Frank Hinkson, Ernest Kube and Harry Hamilton attended the Policy Development Training meeting in Lubbock on August 22. Purpose of the meeting was to get ideas for improving member participation in local policy development of Farmer Bureau ideas. Henderson is chairman of the resolutions committee. Hinkson is a member of the resolutions committee. Kube is a director and Hamilton is president of Farmer County Farm Bureau.

If most farmers or farmer's wives knew just a little bit of what the three ladies of Balley County reported about the labor situation in Texas, we are inclined to believe there would be a lot of interest and action going on.

Mrs. Morris McKillip, Mrs. Jack Schuster and Mrs. W. E. Kittrell reported on their experiences in meeting with Texas Employment officials and members of the legislative labor council. This, of course, brought them in contact with members of the CIO and other union people who are very instrumental in making farm labor scarce and less dependable.

If you are one of those trusting individuals who believes that TEC and your legislators are carefully working in your interest regarding farm labor, you are in for a rude awakening, according to these informed ladies.

(Continued on next page)

# THE HIGH PLAINS FARM AND HOME

## Farm Bureau Committee Hears Santa Fe Official

Farmer County Farm Bureau Weed Committee members met Monday night to review progress of bindweed eradication work in the county. Meeting with the group was Ronald Mock, Santa Fe Railroad maintenance engineer. Mock reported that he has received the complete map covering right-of-way within the county, and that he and his crew are in the area treating plots now. Mock also gave a report on the amount of chemical used in this work since 1960.

The railroad has spent \$1386.50 for chemical alone, which was applied with railroad labor. 1,000 pounds was applied in 1960, 750 pounds in 1961 and 1200

pounds in 1962. This amount of chemical treats 14.75 acres of bindweed, ASC Office Manager, Prentice Mills reported that about twice as many farmers are taking advantage of ASC assistance programs in treating farm land bindweed this year. This, he said is a fortunate situation, because plots can be kept to small enough size for hand poisoning instead of doing it by the acre, which becomes very expensive.

State Highway Maintenance Supervisor, Lloyd Killough and his crews have treated several miles of bindweed this year, and the plots are becoming fewer and smaller each year, so that this will become a routine small plot project until eradication has been completed.

County Commissioners have cooperated with farmers inter-

ested in treating bindweed on county road right of ways adjoining their farms by furnishing the chemical free of cost to the farmer who also treats, at his own expense, bindweed on his adjoining acreage.

J. T. Jones, chairman of the weed committee and a farmer south of Bovina, expressed appreciation to everyone who has worked the last several years in the bindweed eradication program which has made Farmer County one of those rare counties with very few large plots of bindweed and puts it in a position to become completely clear of them.

Attending the meeting were: Jones, Mock, Calvin Meissner, Herman Gerles, Deryl Coker, Mills, Jack Patterson, Roy Crawford, and Raymond Euler.

## WITH THE COUNTY AGENT

DERYL COKER

In driving around over the county I noticed a great deal of cotton is still being watered. According to the Experiment Station results, watering cotton in September has always netted less clear money per acre than cotton that has not been watered past September 1, August 20 has been the best cut-off date and has made more money than any other time.

It always seems to me that cotton had to suffer some in September in order to make a high yield.

Also in checking fields I am still finding bollworms and it would be advisable for farmers to continue to check for bollworms for at least 2 weeks or until the temperature drops to below 50 degrees at night.

Each year the selection of a proper variety of wheat for this area is an important consideration for the producer. Even though one variety will not possess all the desirable characteristics, consideration should be given to the following points in selecting a variety.

1. Maturity date.
2. Stiffness of straw.
3. Yielding capacity.
4. Disease resistance.
5. Winter hardiness.
6. Milling quality.

Early maturing varieties are desirable as a means of evading diseases during growth and losses due to adverse weather conditions during harvest. Short, strong strawed varieties will resist lodging and the subsequent loss in yields. Some varieties have an inherent capacity for higher yields than others. Also, varieties are adapted to some areas and not to others—thus giving different field yields. No commercial variety adapted to Texas is resistant to all diseases. However, some have greater resistance to the more common diseases. Because of

the wide range in climatic conditions in Texas, winter hardiness is an important consideration. The market demand is for wheat with good baking quality. Different varieties as well as cultural practices influence the baking quality of wheats measured by the sedimentation test and other quality measurements.

If the recommended varieties have not been grown and tested want to plan several variety demonstrations for your county. These demonstrations provide valuable information for you and your producers. If you plant a variety demonstration I would like to work with you on it.

Below are the varieties that the A & M College recommends and ones that are acceptable.

Recommended: Tascosa, Bissin, Kaw, Aztec and Ponca. Acceptable: Crocket, Comanche, Concho and Imp, Triumph.

## Winner Named In State 4-H "Business Program"

Roger Gregory, an enterprising Cottle County 4-H boy who likes to study agribusiness, today was named the first state winner in the 4-H Town and Country Business Program, Unit 2-Marketing.

The state 4-H Club office announcement said Roger would receive a wrist watch. The program is sponsored by Tex-Best Turkeys, Inc., Plains Cotton Cooperative Association, Growers Marketing Association, Mid-West Cooperative Oil Mill, and Cen-Tex Cooperative Oil Mill and is supervised in the counties by the county extension agents with assistance from local 4-H adult leaders, the 4-H office said.

Purpose of the program is to give 4-H members an understanding of business as it operates in the marketing field through firms associated with agriculture; give youth an appreciation of the structure and problems of agricultural marketing and associate them with marketing leaders on all levels and aid interested youth in exploring employment opportunities in the marketing field.

Participants in the program studied many of the facets of agricultural marketing including transportation, processing, packaging, wholesale and retail sales, standards and grades as they apply to agricultural products.

## Tips Given Homemakers On Shopping For Mixers

Gregory is the son of Mr. and Mrs. Deward Gregory, Dumont Route, Paducah. He is a member of the Goodwin High and Junior Leaders Club and is completing his sixth year as a 4-H member. He was a member of the county's district winning rifle team in 1961 and county winner, senior division, in 1962 in the tractor program.

County Agent L. M. McCarroll has supervised Roger's successful demonstrations which have included sheep, beef cattle, swine and field crops, in addition to his agribusiness studies.

### Farm Bureau--

In other words, the time has come (and not lately) that farmers are going to have to take an active interest in this, another important affair of theirs. As a matter of fact, the Texas Employment Commission is operating under the direction of federal, not state regulations.

We hope you will have an opportunity to hear these ladies at another date, since not many were present at the meeting in Bovina last week.

Farm Bureau Directors will meet Monday night, September 3 in the Friona Office. You are welcome to attend if you have any ideas at all that you would like to have considered by your Farm Bureau, the strongest voluntary farm organization, and the only one with representation in every state of the union and Puerto Rico.

CONSIDER THIS: Better is a dry morsel, and quietness therewith, than a house full of sacrifices with strife, Proverbs 17:1

If you are shopping for a mixer, list your needs and wants, then check these convenience features, suggests Wanda Barkley, Extension Service home management specialist.

Controls and speeds--both right and left handed people find control switches on top easier to use than those on the side. Is the speed range adequate for all mixing jobs, and does the speed control increase or decrease smoothly as you change the speed control?

Stability with light weight -- the mixer should be wide and heavy enough at the base so as not to be easily knocked over, yet as light in weight as possible for portability.

Power head--should be firmly fastened to the stand, yet easy to remove and attach if designed for use as a portable unit. The motor should have a radio-interference eliminator.

Reserve power--should be enough to handle heavy batters, with a motor built to last. The motor should have a sealed-in lubrication for cleanliness and convenience.

Beaters--should be easy to insert and remove. Automatic ejectors save the messy job of pulling out beaters coated with batter.

Attachments--that are easy to insert and remove.

Blades--that are easy to clean. Smooth blades are more

easily cleaned than ridged ones.

Beaters and bowls--that are designed to feed the food into the beaters with the least manual aid. Most mixers are designed with the bowl off center in relation to the beaters so the action of the beaters on the mixture makes the bowl revolve unless the moisture is thin.

Safety features--look for beaters which rotate away from each other at the point nearest you. They are best because they push objects away, rather than draw them into the beaters.

## How to Duck The Food Quacks

UNIVERSITY PARK, Pa. (UPI)—Food quacks prey on people to the tune of \$500 million a year says Louise W. Hamilton, extension nutrition specialist of the Pennsylvania State University.

Miss Hamilton contends the way to combat dishonest food peddlers is to consult a family doctor, a dietitian, or a home economics advisor for nutritional advice.

She pointed out that many food quacks try to scare people into buying their products, and warns of salesmen who claim that disease is due to improper diet or depleted soil, that chemical fertilizers are harmful to plants and that some foods are wonder foods.

### LEGAL NOTICE

Notice is hereby given that a public hearing on the proposed 1963 Farmer County Budget will be held September 10, 1962, at 2 p.m. in the county courtroom in the courthouse in Farwell, Texas, by the Farmer County Commissioners Court. The public is invited.

(Published in the High Plains Farm & Home Supplement August 29 and September 5, 1962.)

ONE-FOURTH of Farmer County's grain sorghum production this year will be sold in foreign markets, according to Grain Sorghum Producers officials, D. C. McWhorter, manager of the Black Grain Company, and Johnny Mars, farmer of that community, discuss the foreign market expansion since promotion efforts by the Grain Sorghum Producers Association began in 1957.

## Sixty 4-H Club Members Enter Books In Contest

Sixty 4-H Club members of Farmer County entered their record books in the County Achievement Awards Program. Record books were judged in the county and then five record books of senior 4-H members were sent to be judged at district, there competing with other senior 4-H Club members in District I. If a record book should win in district, it will be sent on to state for judging. State winners will attend the National 4-H Club Congress in Chicago.

The county 4-H Club winners eligible for district judging are: Bruce Billingsley--Beautification of Home Grounds, Reba Lesley--Achievement, and Richard Chitwood--National 4-H Club Conference. Also entered are Katie Blackstone--Home Economics and Viane Lesley--Clothing. Viane's record book won first in the county over three other senior girls in the Clothing Awards Program, therefore going on for district competition.

Junior and senior record books were entered in eleven awards programs: Achievement--Peggy Lesly and Reba Lesly; Clothing--Mary Coffey, Karene Milner, Kathryn Gober, Sharon Martensen, Kathy Coker, Shirley Schueler, Viane Lesly, Patrice Broyles, Marsha Schumann, Charlotte Davis, Judy Koelzer, Sherri Tannahill, Patricia Tannahill, Shelia Vaughan, and Debbie Burch; Home Economics--Katie Blackstone, Janis Billingsley, Vicky Kaltwasser, Ann Blackstone, and Cheryl Ramage; Foods-Nutrition--Risa Howell, Darla Howell, Janie Watkins, Cheryl Kaltwasser, Tina Rundle, Nedda Foster, Janice Miller, and Debra Garner.

Also: Beef--Joe Bill Jones, Jim Bob Jones, Wayne Schueler, Darrel Schueler, Curtis Drager, Jay Potts, and Danny Schueler; Field Crops--Dale Schueler, Roger Martensen, Dwayne Bauer, Bobby Redwine, and Danny Miller, Jimmy and Johnny Broyles; Swine--Floyd Schlenker, James Schlenker, Bobby Gleason, and Gary Coker; Grain Sorghum--Raymond Drager, John Gully, Charles Ramage, James Gully, Kirby Burch and Larry Davis.

Others include Gardening--Dale Blackstone; Beautification of Home Grounds--Bruce Billingsley; Public Speaking--Jill Mimms; and National 4-H Club Conference--Richard Chitwood, Joan and Mike Ward entered their records books, too.

**TODAY'S HOME**

CHICAGO (UPI)—Back to school means young eyes used to summer's non-academic pursuits must adjust to long hours of study.

It's a not-so-startling fact that one in every 500 school children has defective eyesight. And students of all ages are spending more time over their books, frequently as many as five hours a day in home study.

To prevent eye strain and fatigue, and to make those hours of study more comfortable and profitable, the student needs a proper study environment.

He needs a permanent, level work surface, either a flat top desk or a table. The Illuminating Engineers Society recommended a desk or table measuring 24 by 46 inches.

A drop-shelf desk does not provide sufficient study space, and makes it necessary to use a floor lamp which is harder to place properly than other models.

The Society recommends that the surface of the desk be light in color and non-glossy. A dark study surface contrasts too radically with the lighted book or paperwork. If you have only a dark surface to work with, a linoleum cover or pastel blotter will help protect the eyes.

The student's eye level should be at least 14 inches above the top of the desk. If you don't have an adjustable chair, cushions piled to the proper height will do just as well.

The desk should be placed flat against the wall, or in a corner, so light is increased by reflection from the wall or walls.

The wall in front of the study area should be light in color and dull in finish. A light-colored tackboard or pegboard will provide a pleasant resting place for the eyes.

If, for reasons of decorating, the desk must be centered in the room or placed at right angles to the wall, additional light can come from a ceiling fixture. A 200-watt bulb in the ceiling fixture will make up for lack of reflected light.

Be sure to avoid placing the desk in front of a window. For students of any age, the outdoors is a distraction better done without.

**"We're glad daddy bought us a dishwasher," say Mrs. Kenneth Ware and daughter, Carrie, 208 EAST 21st LITTLEFIELD, TEXAS**

Mrs. Ware's experience is most interesting—and enlightening. She had heard tales about dishwashers—untrue tales, of course, but how was she to know. Well, despite her objections at the time, her husband had a dishwasher installed in her new home. She says, "Now, I'm sure glad he did. I'll admit that I was completely misinformed, as I understood each dish had to be hand-washed first—this simply is not true. My electric dishwasher does the complete washing job for me."

# The HAPPY HOMEMAKER

BY JUNE FLOYD

With the coming of cooler weather all of us are going to be looking forward to baking more cakes, hot breads, doughnuts and other pastries. Soon the evenings will seem longer and everyone needs something to nibble on while watching television, studying or playing games.

Recipes for two cakes that every homemaker will want to try are being printed this week. One is a layer cake and the other is a loaf cake.

**BUTTERMILK CAKE**  
1 cup shortening (1/2 cup butter, 1/2 cup shortening)  
2 cups sugar  
4 eggs  
2 cups flour  
1 1/2 teaspoon soda  
1/2 teaspoon salt  
1 cup buttermilk  
1 teaspoon vanilla  
1/2 teaspoon almond extract  
3/4 cup chopped nuts  
Cream shortening and sugar, add eggs, sift dry ingredients. Add with milk to mixture. Put in greased pan. Bake at 325 degrees for 1 1/4 hours in two layers.

**BUTTERMILK FILLING**  
2 1/2 cups white sugar  
1 cup buttermilk  
1/2 teaspoon soda  
1/2 cup butter  
1 teaspoon vanilla  
Combine ingredients and cook until mixture coats spoon. Beat with mixer. If it is too hard, add water and cool a little longer.

**FRUIT COCKTAIL CAKE**  
1 1/2 cups white sugar  
2 cups fruit cocktail (small can plus liquid)

2 eggs  
1/2 teaspoon salt  
2 cups flour (not cake flour)  
2 teaspoons soda  
Combine all ingredients. Pour into 9 x 13 pan which has been greased and floured and sprinkle top with 1/2 cup coconut and 1/4 cup brown sugar. Bake slowly (300 degrees) about 45 minutes.

**ICING**  
1/2 cup canned milk  
1 stick oleo  
1/2 cup pecans, chopped  
1/2 teaspoon vanilla  
Mix milk and oleo. Bring to boil. Cook 2 minutes. Remove from heat. Add nuts and vanilla. Spread on cake while it is still warm.

Next time you wish you had time to make some hot rolls, try this recipe for --

**QUICK BUTTERMILK ROLLS**  
3/4 cup very warm buttermilk  
1/2 cup unseasoned mashed potatoes  
2 tablespoons sugar  
1 teaspoon salt  
1 package dry yeast  
6 tablespoons soft shortening  
2 to 2 1/2 cups flour  
Mix together the very warm buttermilk, mashed potatoes, sugar and salt. Sprinkle yeast into mixture and allow to dissolve. Add soft shortening and flour and mix well. Knead on lightly floured board.

Shape rolls and place in greased baking pan. Let rise until double, then bake at 400 degrees from 15 to 20 minutes. Yield: about 1 1/2 dozen rolls.

## Scientists Fighting Goatheads Through Use Of Weevil-Enemy

Biological control of puncture vine (goat head) with imported weevils is being studied by scientists at the U. S. Big Spring Field Station. First release at the Experiment Station was made August 2, 1962, as a cooperative federal-state effort with Mr. Robert Hawks, USDA, bringing the weevils by airplane from California, with Dr. Allen Wiese, weed control specialist, and Norris Daniels, entomologist, Texas Agricultural Experiment Station, Bushland, Texas, and Dr. Earl Burnett and Dr. James Box, U. S. Big Spring Field Station, collaborating.

Farmers agree that the common "goat head sticker" (puncture vine) is a costly enemy in terms of added cultivation. The puncture vine is not unknown to the urbanite's lawn, either. There are few mothers in the

area who have not pulled a "goat head sticker" out of her child's foot.

Dr. G. W. Anglet of the U. S. Department of Agriculture had been in India prior to 1956 exploring for parasites of the oriental fruit fly when he noted the rarity of puncture vine in India and made extensive observations on two species of weevils he found attacking it. His test and additional research established the safety in introducing a stem-boring weevil and a seed-boring weevil. These insects were shown to be entirely incapable of breeding on any plants other than puncture vine and possibly one of its very close relatives. Government officials then approved introduction of these insects. Puncture vine weevils were first introduced into California in 1961.

The greatest hazard facing these small beneficial insects is the passing of the winter period, much of it in the absence of its host plant. During this time, weevils hide out in sheltered spots, but they may move about considerably, dispersing widely from the areas where liberations are made.

## Nice Picnic Table Can Be Built For A Modest Cost

You can have that needed picnic table and for a reasonable figure. A small outlay for the needed materials and a few hours of enjoyable "do-it-yourself" labor can put a picnic table in your backyard, says Bill Smith, extension forester.

For an attractive, strong table that will give a lifetime of service, Smith suggests that preservative treated Southern yellow pine lumber be used. The best

buy, he points out, is lumber pressure treated with pentachlorophenol, often referred to as "penta."

Many lumber yards and wood treating firms can furnish pressure treated lumber on request. If the table is to be painted, your request should specify that the material be treated with Penta-WR, explains the forester. However, if painting is unimportant and natural wood beauty desired, fuel oil can be used as the carrier, he adds.

If pressure treated Southern yellow pine lumber is not available, the useful life of the table can be lengthened by soaking the material in a penta fuel oil solu-

tion, says Smith. If painting is desired, Penta-WR must be used as the preservative. Some advantage would be gained, he adds, even by simple brush applications of the preservative. Penta is available in either the ready-to-use or concentrate from most lumber yards, hardware stores, paint shops, mail order houses, or other sources.

Plans for constructing picnic tables are available from the offices of county extension agents. Request a copy of L-215, "Let's Build a Picnic Table." You will be surprised, concludes Smith, how simple the building job will be and how little the finished product will cost.

### SHORT AND SWEET

How's your memory?

Remember when everyone wore hats? — and English bulldogs wore turtle-neck sweaters? . . . Why did Ma dress us boys in those hats that looked like they belonged to sailors—but had long ribbons? Weren't those the days when anybody who bought on the installment plan was a suspicious character? . . .

**Is the depot still there—** where the Hartford train stopped once a day? . . . Where's Mike, the butcher who always threw in a free hunk of liver? . . . Is Constable Callahan, who didn't arrest anybody for three years, still on the job? . . .

Remember when the tax on a \$4,000 income was a penny? . . . When the clock on the courthouse told different time on three sides, and didn't work on the other? . . . Dad had congress shoes? . . . Remember the lazy days when the butter was soft all summer and Grandma boiled the milk before anyone could drink it? . . .

**Does the drugstore still give a free bowl of goldfish with a dollar purchase? . . . Is the town radical—the one who quoted Voltaire — still hanging around the post-office? . . . Remember the two town celebrities? The woman who got second prize for her jams at the Iowa State Fair—and the man who once lived in Chicago? . . .**

**Are there still sleigh-rides?** Toys made of sturdy cast iron? Wonderfully cold icater in buckets? Churches in white and ministers in black? Farmers with circus passes? And dogs getting left overs instead of dogfood? And band concerts? And ice cream straight from the freezer on the Fourth? Remember?

## HD Agent's Notes

BY MISS ETTIE MUSIL

Summer vacations have come to an end, especially for the many boys and girls of school age. I know you and they are busy getting their clothes in order for the fall and winter months ahead.

This takes much good management on your part to choose colors and designs of clothes just right for each of your boys and girls. High fashion doesn't always look attractive on every figure type. To be really becoming your clothes must have lines designed to flatter your figure.

When buying shirts and trousers for the boys or dresses, skirts, and blouses for the girls, your choice before buying becomes automatic. You look for clothes as other boys and girls are wearing. Also, you consider what kind of care it will require to keep them looking like new. Then you always consider what you can pay and what you want to buy.

Buy only by actual try-ons. Children of all ages have different figure types making it difficult to choose sizes according to ages. When your boy or girl tries on the garment, check the fit by having him or her reach, stretch, bend arms, and raise arms. If comfortable in all positions the garment should wear longer and be a garment that is worn frequently. Garments that are too large or too small may end up at the back of the closet. These unpopular garments are still part of your clothing dollar.

Also, look for colors that are becoming to their eyes, skin, and hair. If your son's or daughter's complexion is ruddy avoid green. Bright yellow makes a sallow complexion noticeable. Blue colors are usually a favorite of blue-eyed people. However, a bright blue makes blue eyes appear dull. Try a slightly dull blue for a better appearance. Many other bright colors can make eyes appear dull. Try on the garment or drape fabric around their neck in choosing the best color. Then notice the color effect on the hair, eyes, and skin.

Do add interest to the wardrobe with a few bright colors. Sometimes brightly colored accessories as scarves, belts for the fall, or buttons may be the interest needed.

Always check the hang tags or labels of all skirts, dresses, blouses, or blouses. They should tell you the fabric content, color or fastness, shrinkage, and the care of the garment. Ask for fabrics that are sanforized and will not shrink more than two percent. Fabrics should have been vat-dyed so that they will fade less or none.

Yes, there are many items that you consider in buying ready made school clothes. For more information let me know or come by the office in the Courthouse for these free bulletins: "Buying School Dresses," "Colors For You," "Accessories Around The Clock," "For Clues to Clothing Care," "Wardrobe Dollars and Sense," and "Your Best Lines".
