

### PARMER COUNTY IMPLEMENT

## Contract Awarded For New Implement House

The new Parmer County Implement building will be built somewhere on U. S. Highway 60, although the exact site is not known as yet. Contract was awarded to Stout Steel Builders of Tulla and Ama-

Granville McFarland, owner of Parmer County Implement Company, has awarded the contract for a new building to house the city's International - Harvester and Oldsmobile dealership.

rilho, a division of MESCO (Metal Structures Corporation, Dallas).

The building will be of colored steel, and will measure 70 feet by 140 feet. This will include a 40 by 60 foot showroom. The basic color of the building will be pale gray with a white roof and white trim. It will have a plate glass front.

"It will take about 60 days to complete the building from the time we start, unless we have setbacks due to weather," said Thurman Gill, MESCO representative, who was in Friona for the signing of the contract.

Parmer County Implement Company was originated by McFarland 20 years ago. The company has occupied the same location on Fifth Street in Friona for the duration of the 20 years. Before McFarland took over the company, the I-Dealer in Friona was Buchanan and Morris.

SECTION I

If you think all city council meetings are dull and uninteresting, you are mistaken. The barbs flew fast and furious for a while during the meeting Monday night. Those of you who were not present missed a good show.

A group of citizens -- a whole street full of them in fact -- appeared before the council to protest the present 'B' zone classification of one of the lots in Lakeside edition and to request that the lot be returned to the previous 'A' zone class.

If you haven't seen a mayor raked across the coals, you missed your opportunity. But, he took the criticism with the amiability customary to the holder of an elective office. You see, during the course of events, the mayor was accused of being at the bottom of the zone change which allowed him to construct multiple dwellings in the middle of a single family dwelling area.

He -- and the rest of the council -- was accused of changing the zone from 'A' to 'B' without rendering notice to adjoining property holders as they believed to be the legal procedure.

As a matter of public interest, any such change in zoning is supposed to be preceded by adequate public notice usually in the community newspaper and was the procedure followed in this controversial case. In fact, Mr. Ellis and I checked the paper files and found that in addition to the regular insertion of the legal notice, a short story concerning the change appeared on page one prior to the zone hearing.

I would like to remind you that zone hearings are supposed to be open to all interested parties and that city council meetings are open to all residents of the city. In fact, residents should attend council meetings whenever possible and see just how their city government works.

At the risk of having head severed from body, I must say that in this case, if the residents had been aware of the implications of the change and had bothered to protest the change, the hot little scene would not have been necessary at the meeting last Monday.

I have said many times in the past that the predominate feeling toward government is 'let the other fellow take care of it for me' until something happens to hit them personally or in the pocketbook -- and what is more personal than the family pocketbook.

I know that a lot of you read what I said and gave it little more thought, but, I believe there are a number of residents of Friona now who will keep better informed in the future and will be more inclined to step out and take preventative action rather than wait until corrective action is necessary.

The council members are your representatives in city government just as senators and congressmen are your representatives in state and national government. Unless you make your wishes known to them, they will follow the dictates of their own judgment which may not coincide with the wishes of the people.

Better to wake up late than to sleep forever.

---TH---  
SPECIAL TO DOG OWNERS! . . . and to Miss Linda Outland and Miss Mary Margaret Sheehan.

There is a dog poisoner on the loose.

There have been times when I would have been glad to see a dog die -- and at times, even the owner of a dog -- but not as a result of poison.

Anyone who has the feeling of compassion common to human beings would become sick at the stomach at the sight of a dog dying by poison. I saw such a thing happen once and hope I am not subjected to such a sight again.

If I found it necessary to kill a dog, or any other animal, I can think of many ways better than poison -- shooting, hammer in the head or drowning as a few. Poison, especially strychnine, is extremely slow

### FEBRUARY 26

## Tickets Ready For Chamber Banquet

Tickets went on sale this week for the annual banquet of the Friona Chamber of Commerce and Agriculture, to be held Tuesday, February 26.

The Chamber landed a top-notch speaker for their banquet in Charles Lavis, director of agriculture development for Holly Sugar Corporation, which is building an \$18 million sugar plant near Hereford.

Lavis, a graduate of Michigan State University, has spent his entire adult life in the study of sugar beets. He was with the experiment station at Michigan State before going to work with the Holly company.

The Holly official was director of California operations for Holly Sugar before returning to the Colorado Springs, Colorado headquarters with his present position.

### No Accidents In City For Month

The City of Friona completed an accident-free month in January, according to Ben Moorman, Chief of Police.

"I would like to congratulate the residents of Friona for their driving record for the first month of 1963," Moorman said.

He stated that it was the first time in over three years for the city to record a month with no traffic accidents.

## Friona Will Elect Three Aldermen In City Election

Three aldermen will be elected in the City Election Tuesday, April 2. The election was called at the monthly City Council meeting Monday in Friona.

Councilmen whose terms are expiring this year are Bill Nichols, Kenneth Williams and Wright Williams. The holdover members of the council will be Ralph Taylor, Mayor R. L. Fleming and Glenn Reeve.

Appointed as presiding judge was Nelson Welch, George M. Baker was appointed judge. Mrs. Rose Lange and Mrs. Ira Holt were appointed clerks.

In other business, the council re-appointed the five members of the City Planning and Zoning Commission. The members of the commission are Joe Douglas, Sloan Osborn, Oscar Baxter, O. J. Beene and C. L. Lil-

### ZONING REQUEST

## Residents Add Spice To Council Meeting

The regular monthly meeting of the Friona City Council was spiced somewhat Monday by the appearance of a dozen or so residents of the Lakeside Addition, bearing a petition asking for re-zoning of a lot in their addition.

The petition asked for re-zoning lot 10 of block three in the addition to "A" zone from its present "B" status. The lot is one of four lots which were changed from "A" to "B" zone by the city in 1960. Duplex apartments are built on two of the other lots.

Virginia Jennings, spokesman for the group, said it was the feeling of neighbors to the lot in question that the parking situation along their street was becoming highly congested, and also that multiple dwellings

reduced the property value of adjacent lots.

The council heard the citizens' arguments, and referred their petition to the city Planning and Zoning Commission, which must make a recommendation on the matter to the City Council before action may be taken.

### Soil Builders Have Birthday

Soil Builders in Friona are observing their first anniversary this week, according to Ken Harrison, manager.

Harrison invites area farmers to come visit the firm, specializing in dry phosphate fertilizer, about all their fertilizer needs.

NEW BUILDING PLANS . . . Granville McFarland, right, owner of Parmer County Implement Company, and Thurman Gill, of Metal Structures Corporation (MESCO), display a

drawing of the proposed new building for the company, which is to be built in the near future.

## Squaws Are Champs; Chiefs Giant-Killers

While the Friona High School Squaws were putting frosting on their District 3-AA championship Tuesday night the Chiefs turned giant-killer, re-

cording a historic win over the Bobcats, who had clinched the district title.

The Chiefs turned in a 36-34 upset, which blemished Dimmitt's otherwise spotless district record. The Squaws made their district record 7-1 and their season mark 20-6 with a convincing 63-51 win over the Bobbies, the only team to beat them in district play.

For the second straight game, a standing room only crowd watched the games in the Friona gym.

The Chiefs' win, coming on the heels of a rare win over Tulla, was the first over the Bobcats in several years. Friona, which had a batch of hard luck throughout the season, losing close games many times, ended up with three impressive wins, and took third place in district with a 4-4 record.

Friona led almost all the way in the boys' game. S. D. Balze, Chief scoring leader with 15 points, got the home team a

2-0 lead with the game's first basket. He hit four more points before the first quarter ended, with Friona on top, 11-5.

Balze once again opened

scoring with a field goal and a free throw to give Friona a nine-point lead at 14-5. Both teams had trouble scoring during the

(Continued on Page 2)

### AT AMARILLO

## FHS To Tangle With Stratford

Having wrapped up their regular season schedule with a 20-6 record for the year and 7-1 in district play, the Friona High School Squaws have scheduled practice games while awaiting their bi-district game and foe, yet to be determined.

The Squaws will have a warm-up game Saturday night in Amarillo Tascosa gym against the Stratford girls, who according to reports have lost just one

game this year. The Chiefs also will meet Stratford. First game begins at 7 p.m.

District 4-AA, which will provide Friona's bi-district foe, still has three more playing dates. Post is currently leading that district with a 5-0 record. The Post girls have games left February 8 at Sunday (non-district), February 12 at Slaton and February 19 at Frenship. The game against Slaton should determine the district winner, according to Friona coach Baker Duggins. "This unusually long layoff before the bi-district game is a new experience. It could be both beneficial and harmful," Duggins said.

Other games have been scheduled for the Squaws in the next couple of weeks. The Wayland College Queen Bees will come here for a return game Thursday, February 14. The Happy girls will play here Tuesday, February 19. Cotton Center's girls will provide opposition here Friday, February 22.

Friona will go to Happy for a game February 26. All of the teams scheduled are district champions. It now appears that the bi-district game will be played on March 4 or 5.

Duggins explained that District 3-AA got an early start because it was the consensus of district coaches that should tie for the championship result they would prefer time for two games out of three playoff rather than a single game. Under Texas Interscholastic Rules, teams cannot play more than two regularly-scheduled games per week (excluding tournaments), so the extra time was allowed.

### Auxiliary Meets

#### At Hospital

The Parmer County Community Hospital Auxiliary will meet Thursday, February 14 at the hospital.

The meeting will begin at 3 p.m., according to Mrs. Paul Spring, spokesman for the group.

### DRIVE UNDERWAY

## Today Is Coffee Day For March Of Dimes

Friona establishments which serve coffee will have a "coffee day" for the March of Dimes today, with all proceeds from coffee served going into the city's MOD fund.

The Friona school system also is helping the drive, which has been instrumental in securing the preventative vaccines against polio which we have today.

Junior high and elementary school students will be given envelopes which they will take home for contributions. The high school, under the sponsorship of the student-faculty congress, is planning a cake auction as a fund-raising drive.

To round out the city's dimes drive, members of the Friona Jaycee wives plan to canvass the city in a "Mothers' March," tentatively set for next Thursday.

Those businesses who are cooperating in the coffee day all day today include Aztec Drive - Inn, BI-Wize Drug,

Earl's Cafe, Hughes Barbecue Stand, Golden Spread Restaurant, T&R Snack Bar and Villa Cafe.

### Permits High For January

Building permits for the City of Friona totaled \$94,450 for January, according to City Manager Arley L. (Jake) Outland. This compared to a total of \$12,800 for January of last year, which went on to be a new record year for construction for Friona.

City records showed that eight permits were issued, six for new residences to total \$94,200 and two for additions-alterations at \$250,000.

For the same month in 1962, only three permits were issued on three ready-built houses which were moved in, at an estimated construction cost of \$12,800.

corners of 12th Street and Jackson and 13th Street and Jackson, following a petition by property owners.

"A concerted effort was made during the month to get all taxes for 1962 paid," City Manager Arley L. (Jake) Outland told the commission in his monthly summary of activities for the city. Outland's report said that \$65,320.27 of the tax roll of \$66,704.51 was collected, or 97.9 per cent.

The third and fourth weeks in January were devoted to the

### March Of Dimes Continues Fight Against Dread Diseases

January of 1963 marked the twenty-fifth anniversary of the March of Dimes. During its past twenty-five years of service to humanity, the March of Dimes has contributed significantly to the victory over polio.

The National Foundation has now turned its efforts to other fields. In line with its past work, it is concentrating again on cripples of mankind in the areas of birth defects and arthritis. The agency estimates that 250,000 infants are born with significant birth defects each year in the United States and at least 42,000 children are among the 1,000,000 Americans suffering from arthritis or rheumatic diseases.

The March of Dimes is furnishing the inspiration for further work by the National Foundation of the March of Dimes.

Also in its work, the National Foundation of the March of Dimes is working on continued care for polio victims. It has under construction the Salk Institute for Biological Studies in San Diego, California. At this institute, the scientists will seek new knowledge which may have a bearing on a host of human ills from the common cold to cancer.

No one questions the contribution that this organization has made to society or of its continuing good work. Those who contribute to these efforts may rest assured that their contributions are being used to give a better life for others.

#### Election--

(Continued from Page 1)  
 within residences appeared to be more severe than last year, however.

Eight new water service connections were made during January, bringing the total number of services to 883. A four-inch water main separated in the center of the street north of the Post Office January 21, believed to be due to the cold and con-

traction of the ground.

Annual water samples for analysis were forwarded January 7 and the reports received January 12 indicate that monthly bacteria checks continue to be satisfactory. Friona was host to the regional water-sewer meeting January 10.

Ten fire calls were made during January, only four within the city limits. Damage inside the city limits amounted

to just \$25.

The police department reported 28 arrests during January, 16 for traffic violations, 10 for vagrancy and an airman absent without leave from Cannon Air Force Base. The police riot gun was utilized in the destruction of two stray dogs which reportedly became vicious in the east part of town.

The city continues to receive complaints about large roaming

### Mailbag

Dear Sir:

I am writing you in regard of the death of my dog on February 3, 1963. On Feb. 2nd, and 4th there were two other dogs killed. I'm writing this because they were not killed like most dogs, but they were poisoned as likewise 5 other dogs before them.

We do not know who has been doing it, but Mr. Ralph Roden says that it has the effects of strychnine, or which he has sold none in a long time.

I think that this is one of the cruellest, meanest, low-down things that can be done to a dumb animal.

Besides killing my dog and my girlfriend's dog, they have broken our hearts. I feel it is alright to poison dogs that have no home or owner and are generally causing trouble, but to purposely kill dogs which have owners and especially with children who love them, one must be half insane.

I just want you to say something or put a notice in the newspaper advising all dog owners to keep their dogs on chains or fenced in to keep this from happening to their dogs. I would be satisfied if you did this.

Thank you very much for your time and trouble.

Sincerely,  
 Linda L. Outland  
 Age 14  
 Mary Margaret Sheehan  
 Age 13

#### Castin--

(Continued from Page 1)  
 and torturous.

But that is not the main concern in poisoning dogs in a city. There is always the high risk of having some small child swallow the poisoned bait and die the death intended for the dog.

A letter from Miss Outland and Miss Sheehan is printed in this issue and I must say that I agree with them wholeheartedly. If you don't want your dog poisoned, keep him on your property until the culprit is found or stops his operations.

If anything is poisoned on your property and the person responsible is located, he can be in serious trouble.

--TH--

dogs that upset trash barrels and litter the alleys and the city in general. Dog owners are warned to keep their dogs in check.

### Squaws

(Continued from Page 1)

second period, and Friona went to halftime leading by six, 18-12.

Baskets by Danny Murphree, Larry Buckley and Baize gave Friona its longest lead in the game, 26-16, with 2:35 to play in the third quarter. But the Chiefs couldn't score again in the period, and Dimmitt cut the margin to five, 26-21, as it ended.

Dimmitt kept trimming the lead, and finally took their first lead of the game with four minutes to play, 30-28. But Max Reeve, who played a whale of a defensive game, tied the count with a crisp shot.

Dimmitt had two more leads, at 32-31 and 34-33, but both times Baize popped the nets with jump shots to send Friona back ahead. The final time was with just 45 seconds to play. Dimmitt missed several shots in the last minute, and had a basket nullified at the buzzer by a "travelling" penalty.

Baize captured scoring honors with 15 points. Murphree had 11. Reeve was cited by Coach Vernon Scott for his defensive contribution. "Max is the most under-rated player on our team. People don't realize what a boost he's given us, although he hasn't scored many points this year," Scott said. He had several key rebounds in the latter stages of the game Tuesday.

The Squaws were headed just one time in avenging their only district loss. They rode the hot shooting of Tito Jennings and Charlotte Nettles to the easy win.

Nettles opened the scoring and Jennings added two baskets for an early 6-1 lead. Dimmitt tied the count at 7-7, and went ahead at 9-8, their only lead of the game. Baskets by Jennings and free shots by Nettles gave Friona a 15-10 quarter lead.

Jennings and Nettles practically took turns scoring in the second quarter, as the Squaws built up a 10-point lead, 31-21. Dimmitt was able to cut the margin to nine at halftime, 36-27.

Friona got its 10-point lead back on scores by Jennings and Janet Buckley, who had a low-scoring game by her standards with six points. The score was 48-36 going into the fourth quarter.

All three starting forwards hit points, to push the margin up to 16 points with 4:30 to play, and Coach Baker Duggins began to clear his bench. Rose Ann Greeson's pair of free throws with 3:30 left provided Friona with its longest lead of the night, 61-43.

Jennings took scoring honors

### FOR BOY SCOUTS

## Wayne Cason Named For Governor Report

Matt Brown, District Explorer Chairman for the Tierra Blanca District of the Llano Estacado Council, Boy Scouts of America today announced the selection Wayne Cason, son of Mr. and Mrs. Hayden Cason of Friona as one of the Council's delegates to make the Annual Report of Region nine to the Governor at Austin on February 9.

Wayne is a member of Explorer Post 56 of Friona. The Post is sponsored by the Lions Club. Elvie Jennings is the Post Advisor. Each year the councils of the state of Texas make an annual report to the Governor on the state of Scouting in their areas.

Llano Estacado has ranked as the number two council in Region Nine for the past two years. Region Nine covers the states of Texas, Oklahoma, New Mexico and parts of Arizona and Arkansas.

There are 24 Scout Councils in the State of Texas and 36 in all in the Region. The Llano Estacado covers nine counties in the Panhandle of Texas and has over 7,000-boy membership. During the past year it has shown a 9.7 per cent increase in Membership.

Five Explorers from the Council will take part in the report to the Governor. Wayne will represent the Tierra Blanca and Randall Districts of the Council. There are seven Districts in the Council. B. J. Lewis, District Executive of the Dal-

ham - Hartley - Sherman District will accompany the delegates to Austin. They will have lunch with the Governor on Saturday and also make their individual reports on Saturday. That night an Explorer Ball will be held in the Driskill Hotel in Austin.

The delegation will leave from Amarillo on Thursday afternoon and return on Sunday.

### Scouts Slate Car Wash

Members of Explorer Scout Post 56 will sponsor a car wash Saturday.

The scouts can be contacted at the Humble service station for free pick up and delivery. Charge will be \$2 per car, according to Mike McKee, president of the troop.

"Well I'll be dog-goned."

Our restrooms are always spic and span. We'll appreciate your telling us when you find them otherwise. Tell your master that, Fido.

### MR. LINCOLN SIGNS A BILL

Among the least well known of our 16th President's deeds is his signing of the National Currency Act in 1863. Yet it is truly important.

The Act provided not only for a much-needed national currency but also for national banks, to take their place alongside the existing state-chartered banks.

Under this dual banking system, the role of commercial banks in the Nation's life has become increasingly greater.

1963 is the Centennial of the National Currency Act. Our bank is proud to join in the observance of this significant anniversary.

100TH ANNIVERSARY OF THE NATIONAL CURRENCY ACT AND THE DUAL BANKING SYSTEM

OUR BANK WILL NOT TRANSACT BUSINESS ON LINCOLN'S BIRTHDAY, TUESDAY, FEBRUARY 12.

## CHEVROLET TRUCK QUALITY

### You can see the difference wherever you look

If you believe various makes of trucks are pretty much alike, you aren't doing justice to your pocket-book. There are differences.

A Chevrolet truck welcomes comparison. Look at the little things on it—latches, hinges, stitching in the upholstery. Notice how strong the tailgate is, the rubber encased chains that keep it from sagging.

The body floor is made of select wood to eliminate the rust problem and give you better footing. The lower

side panels are double-walled; you might dent the inside but it won't show through.

Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense?

If you are going to need a new truck this year, you should look at the quality Chevrolet has to offer. May we bring over a new '63 so you can examine it?

#### 2 NEW 6-CYLINDER ENGINES

New High Torque 230-cu.-in. Six is lighter but more powerful than its predecessor. It is standard in Series C10 through C60 models.

## Commissioners Approve Officials' Salaries

Salaries for all the county officials were approved at a meeting of the Parmer County Commissioners Court January 28 in Farwell.

In other business, the court appointed a jury of view for two petitions of Richard Sims, et al. The jury will consist of Clyde Hays, Dick Rockey, A. G. Schlabs, Otey Hinds and Roy Euler.

The commissioners approved the payment of rent for an office for the Friona Justice of the Peace at the Friona American Legion Hall.

The following were designated as official locations for Justice of the Peace courts in Parmer County: Precinct 1 - Courthouse, Farwell; Precinct 2 - American Legion Hall, Friona; Precinct 3 - City Hall, Bovina.

The following salaries were approved to be paid by the county:

Mrs. Bessie Webb announces the engagement and approaching marriage of her daughter, Mary Joyce, to John Skes Jr., son of Mr. and Mrs. John Skes. The couple plan an early spring wedding in the home of his parents.

### Ten Members Attend Mary Dorcas Meeting

Ten members of the Mary Dorcas Sunday School class of the First Baptist Church met Saturday afternoon in the home of Mrs. J. B. McFarland. The hostess read the fourteenth chapter of John.

Prayer was directed by Mrs. W. E. Smith. Following Bible study refreshments of cake, ice cream, tea and coffee were served by Mrs. McFarland. Those present were Mesdames Rosa Anderson, Florence Buske, George M. Baker, W. E. Smith, W. M. White, Otis Massey, Julia Lloyd, Florence Day, and Leona Wolf.

### Men's Club Meets Thursday

Rhea Lutheran Men's Club met Thursday for their regular business session and topic discussion. Melvin Sachs reported on the zone executive board meeting held at Pampa recently.

The topic study on "Communism" was directed by Pastor E. A. Binger. Members of the group engaged in a dartball session.

Pastor Binger served refreshments. Others present were Melvin Sachs, Joe Allen, Raymond Schueler, Curtis Zeechang, Herbert Schueler, Leeland Gustin, Edgar Diers, Herman Schueler, Christ Drager, Franklin Bauer and Walter Schueler.

### Three Initiated Into Rebekahs

Formal initiation of three new members was conducted at the Monday evening meeting of Friona Rebekahs at Oddfellows Hall. They were Rex and Grace Cowart and O. T. Patterson.

Reports were made of 41 sick visits and 14 cards being sent.

A salad supper was served to 26 members and eight guests.

## Of Interest To THE WOMEN

### Buffalo, Daniel Exchange Wedding Vows

Miss Joan Buffalo, daughter of Mr. and Mrs. John B. Buffalo, 1035 South Hadden Street, El Reno, Oklahoma, and Gerald Wayne Daniel, son of Mr. and Mrs. Paul Daniel, Route 1, Friona, exchanged

wedding vows recently.

The double ring ceremony was read by Dr. W. F. Staton at First Baptist Church in El Reno before an arch covered with jade and flanked by lighted candles and baskets of white gladioli.

Organist was Mrs. W. F. Staton, with Bill Green of Clinton as vocalist.

Miss Janell Daniel, sister of the groom, was maid of honor. Her cocktail length dress of vermilion red peau de soie was styled with a fitted bodice with a bateau neckline and cap sleeves.

The belled skirt was highlighted with a petal drape and a sweetheart bow accented the waistline. Her headpiece was a vermilion sweetheart bow. She carried a white fur muff with red carnations and white streamers.

Miss Kay Callahan and Miss Rosemary Jimerson were the bridesmaids. Candlelighters were DeDe Bryant and Denise Stevenson. These attendants wore dresses identical to the one worn by the maid of honor and wristlets of red carnations.

Bobby Daniel, Friona, was his brother's best man. Ushers were Steve Jimerson and Bill Lee.

The bride was escorted to the altar and given in marriage by her father. She wore a gown of magnolia white silk peau de soie fashioned with a sculptured bodice, sleeves that tapered to points over her wrists and a cameo neckline, traced with tiny seed pearls, highlighted the bodice and reached deep into the bouffant skirt.

Her wind swept chapel train was accented with a Dior bow. The bride's tiered illusion veil cascaded from a coronet of Swedish crystals and pearls. She carried a cascade of white roses and lilies of the valley.

The bride's mother wore a champagne beige lace dress with matching accessories and the bridegroom's mother wore a gold silk dress with matching accessories. Their corsages were of brown orchids.

A reception was held in the church parlor, where the bride's table was covered with white satin drape cloth and centered with white carnations and silver candelabra.

Miss Jeanne Stacy presided at the punch bowl and the cake was served by Miss Cathie Shaw and Miss Marilyn Dunn. Guests were registered by Miss Paula Brooks Vance.

For traveling Mrs. Daniel chose a white suit with champagne accessories and a brown orchid corsage.

Mr. and Mrs. Daniel are at

home in Amarillo. He is a student at West Texas State College, Canyon.

Out of town guests at the wedding included Mr. and Mrs. Jerrell Harrison and Janet Carlisle, Ark.; Mrs. Althea Lavigne and Mrs. Bessie King, Little Rock, Ark.; Mrs. Kathryn Mills, North Little Rock; Mr. and Mrs. P. L. Helms, Littlefield, Texas; Mr. and Mrs. B. B. Irwin, Fort Worth and Mr. and Mrs. Emerson Frazier, Kansas City, Kansas.

Courtesies for Mrs. Daniel included a bridal shower in Fellowship Hall of First Baptist Church here January 19. Hostesses were Mesdames Gilbert Wenner, Leroy Johnson, Granville England, Roy V. Miller Sr., A. L. Black, W. D. Buske, Leonard Coffey, Eugene Ellis, Earl Drake, Ralph Taylor, Jack Shirley and Marshall Elder.

### Jo Ann Altman Feted With Bridal Shower

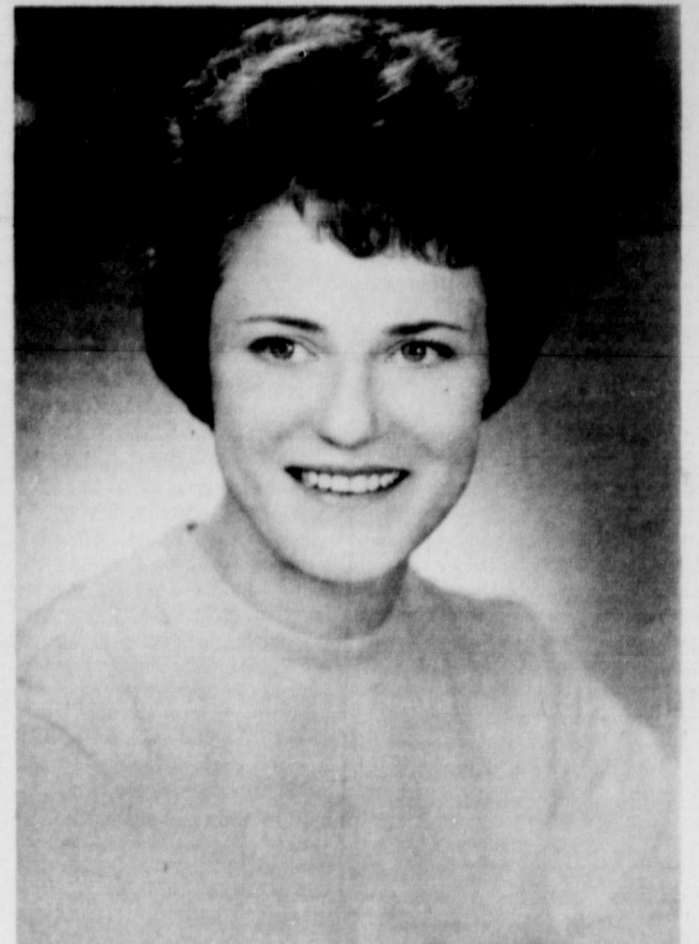

A bridal shower in Fellowship Hall of First Baptist Church Thursday afternoon from 3 to 5 honored Jo Ann Altman, who will become the bride of Ray Beard February 8.

Hostesses were Mesdames Lee Jesko, Ross Terry, Joe Talley, N. E. Wood, Lester Dean, James B. Collier, John Wright, I. V. Day, Bud Reed, Paul Daniel, Bill Turner and Allen Stewart.

Those attending and sending gifts were Mesdames Bill McGlothlin, Nora Welch, Jerry Loflin, Clyde Weatherly, Charles Allen, Doyce Barnett, Leon Coffey, Leonard Coffey, Ray Landrum, John Burrow and LaVoyce, C. S. Crow, Bill Nunn, Ralph Taylor, Mae Magness, J. C. McLean, Roy V. Miller Sr., Ray Castleberry and Mike Ellis.

Also Mesdames Joe Douglas, Dan Lewis, J. R. Braxton, Rosco Ivie, J. C. Kelly, Danny Smith, U. S. Akens, T. I. Burleson, W. S. Crow, Gordon Massey, Jimmy Buckley, Granville England, J. L. Stowers, Russel O'Brian, Frank Truitt, Jim Greeson, Dale Smith, J. E. Knight, Clyde Sherrieb, Dee Taylor, Jay Claborn, Pat Busby, Bill Sheehan, Fred Dennis and John L. Ray.

Also Mesdames Bill Burton, Calvin Talley, Ironia Tucker, C. A. Turner, A. L. Black, Estis Bass, Neal Fuiks, Sam Williams, Grover Goggins, Dale Westbrook, Ernest England, Newman Jarrell Sr., Dan Laceywell, O. F. Lange, Joe Tongate, Tommie Parker, Les Gibson.

Mr. and Mrs. Miles Robbins of Blunt, South Dakota, have announced the engagement and approaching marriage of their daughter, Phyllis Ann, to James McDaniel, son of Mr. and Mrs. Stuart McDaniel, also of Blunt. Miss Robbins attended Northern State Teachers College at Aberdeen, South Dakota, and is a former employee of Governor Herseth, The Game Fish and Parks and State Democratic Headquarters in Pierre. Her fiancé is attending Black Hills Teachers College at Spearfish, South Dakota, and will receive his B. S. degree in business administration this spring. Miss Robbins, a former Friona resident, is the granddaughter of Mr. and Mrs. J. W. Baxter of this city.

### Recent Bride Honored With Shower Saturday

Mrs. George Wayne Terry, the former Linda Gilreath, was honored with a bridal shower in Fellowship Hall of First Baptist Church from 3 to 5 p.m. Saturday.

Hostesses were Mesdames J. B. Buske, J. E. Knight, O. B. Moyer, Lewis Smith, Sam Williams, U. S. Akens, Hop Lewis Jr., Baker Duggins, Ralph Taylor, John Wright, Glenn Harrelson and Jean K. Anthony.

Refreshments of cake, hot spiced tea and nuts were served from a table covered with a white cloth. Decorations carried out the sweetheart theme and the centerpiece was a heart shaped arrangement of red and white carnations.

Background music was furnished by Lois Ann Moyer at the piano. Guests were registered by Mrs. Baker Duggins and Mrs. Dale Smith served. A white carnation corsage was presented to the guest of honor and her mother, Mrs. Boyd Gilreath, and mother-in-law,

Mrs. Ross Terry, were presented corsages of red carnations.

Those attending and sending gifts were Mesdames Dale Smith, Monroe White, Wilbur Dean Moore, Kenneth Houlette, M. S. Weir, Elroy Wilson, Jim McLean and Luellen, Fred White, Ralph Smith, L. W. Loafman, Guy Latta, Boyd Gilreath, Ross Terry and Jeanne and Frances Hilley.

Also Mesdames Kenneth Watkins, John Terry, Frank Griffith, Hoyt Smith, Joe Talley, Bert Shackelford, Floyd Brookfield, Ernest Anthony, Jarrell Wright, Gordon Massey, Eugene Ellis, Roy Slagle, Eric Rushing, Cayson Jones, Earl Drake, Clyde Sherrieb, Joe Johnson, Paul Daniel, G. B. Buske, Philip Weatherly and Don Max Vars.

Also Mesdames John C. Miller, Dale Williams, Glen Williams, Mildred Chandler and Lyndia, L. B. McClain, Tommie Parker, Bud Reed, Pat Busby, Earl Graham, Roy V. Miller Sr., Clyde Weatherly, Dean Blackburn, Noyle Wood, E. E. Taylor, T. A. Williams, L. R. White, Roland Haingroves, J. T. Gee, Owen Houston, Fred A. Baker Jr., Rudella Cady and Frank Truitt.

Also Mrs. Irene Wiley, Pat Barker, Mrs. M. A. Black and Dennis Robards.

### Lams Visit In Schlenker Home

Mr. and Mrs. Wilford Lam and son, Freddie, arrived here Monday evening for a brief visit in the home of Mrs. Madeline Schlenker in the Rhea Community. Mrs. Lam, the former Madeline Chang, is a 1958 graduate of Friona High School.

Lam, a recent graduate of the University of California at Berkeley, Calif., has been employed in the research department of Marathon Oil Company in Denver, Colorado, where the couple will make their home.

### Church Holds Family Night

Immanuel Lutheran Church of Rhea held its regular monthly Family Night meeting at Parish Hall recently. Members met at 4 p.m. for visiting and lunch. Game sessions, directed by Mrs. Raymond Schueler and Mrs. Chris Drager, for all ages followed the lunch. A brief group singing closed the meeting.

The Men's Club will sponsor the February Family Sunday.

Mrs. Don Max Vars of Lubbock spent last week visiting in the home of her parents, Mr. and Mrs. G. B. Buske.

With moderating temperatures coffee cup conversation has suddenly changed from frozen water pipes to planting spring crops and gardens. Seed catalogs have never been more attractive and much time is being spent comparing varieties of flowers, shrubs, vegetables and other items which will be growing soon.

One Frionan, who is currently in the Deep South, called in recently to inquire about our weather. Jerry Houston, whose parents are Mr. and Mrs. T. L. Houston Sr., told his parents by way of long distance telephone that it was snowing in Memphis, Tenn.

Jerry's rating is currently E-3 Constructionman. He is serving in the United States Navy.

Plans are being made for the annual Mother's March to benefit the March of Dimes. All residents of Friona are asked to make plans to contribute to this worthwhile project so that they will be ready to respond to the call for assistance.

Seems like the regular spring sedge of chicken pox came earlier than usual this year. A number of school age children in the lower grades and some pre-school age children have had the disease. A few cases of mumps have been reported as have a few cases of measles.

After these disease germs keep alive from one season to another is a mystery to me, but they never seem to die.

After having lived on a farm southwest of town several years, Mr. and Mrs. W. B. Fulham are becoming city dwellers. They purchased the Joe Talley home in the extreme western part of town. The Talley's have moved into a new home and the Fulhams are in the process of moving.

Friends of Madeline and Catherine Chang will be interested in knowing that Madeline and her husband, Wilford Lam, and young son, Freddie,

are moving from Berkley, Calif. to Denver, Colo. The Chang sisters, who made their home with Mrs. Malinda Schlenker of the Rhea Community, graduated from Friona High School in 1958. These two young ladies, whose home was in Hong Kong, made a lot of friends during their stay here.

There was a lot of discussion up and down the street Monday about the last time Friona's high school boys won a basketball game from Tulsa. That is, before Friday evening. Everyone knew and was pleased that the local team beat Tulsa and feel sure they could beat just about any team in the Panhandle now.

If anyone who reads this knows the answer to the above, let us know and we will inform our readers.

Don't know how long the pictures in the hall of Friona High School of foreign exchange students have been there, but I hadn't noticed them until this week. I think it is a fine idea to have them there and in years to come ex-students will enjoy seeing Ann, Eve, Carlos and possibly others.

At the present time a lot of emphasis is being placed upon the importance of high school students increasing their knowledge of science and math. And, I'm sure this is a step in the right direction, but let's not overdo this aspect of education.

With the world becoming smaller and smaller, shouldn't everyone consider concentrating on learning at least one foreign language and more if possible. Persons who are able to converse in several languages will not only have a better understanding of the English language, but will be able to better understand people of other nationalities.

Those of us who have children in junior high or high school might be acting wisely by encouraging them to enroll in a foreign language class as soon as possible.

### Carr Speaker At Farwell

Farwell's Chamber of Commerce banquet is scheduled for Thursday, February 14, featuring Waggoner Carr, state Attorney-General, as its speaker. The banquet will be held at the Farwell School Cafeteria. Tickets should be purchased by Tuesday, February 12. States Hurshel Harding, president of

January 26 -- Danny Hoyt Smith, Friona, and Adabeth Akens, Friona.

### Eleven Bowlers Finish Course

Eleven women completed a bowling school at Friona Lanes last week. The first session was taught by Edith Green, Amarillo, and the others were instructed by Joy Hall, included in the course was a daily film.

Upon completion of the course Mildred Richards was top scorer in one game and also in a three game series. She bowled 164 for high game and 370 for high three game series. Letha London received a pair of bowling shoes in a lucky lady drawing.

Those enrolled were Mildred Richards, Letha London, Mary Redearn, Barbara Williams, Lilly May Baxter, Clara Renner, Ruby Stone, Mildred Welch, Imogene Cox, Ann Carthel and Annis Turner.

NEW COUNTY BARN . . . This is the new storage barn built by the county for storage of its equipment. It was completed recently.

### Workshop Conducted At PTA Meeting

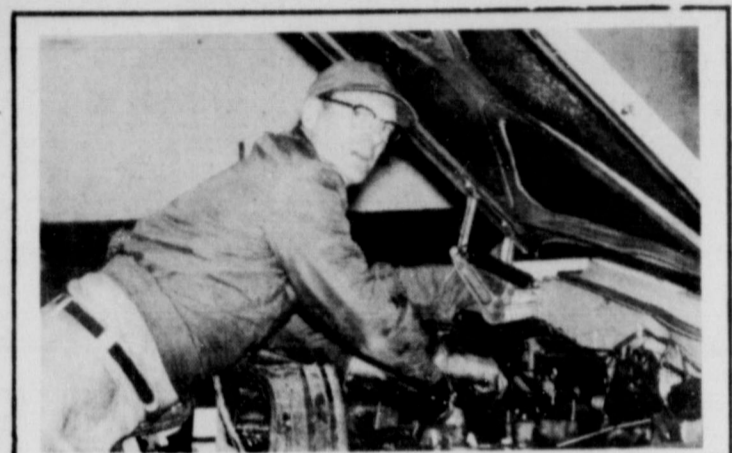

Mrs. Ralph Price directed a workshop at the Thursday evening meeting of Parent-Teacher Association in the school cafeteria. Four discussion groups were formed with a leader for each group.

After questions were asked, answers were written on paper and handed in. Questions asked included:

- (1) Why is education a fundamental element in a democracy?
- (2) In what way does our educational program contribute to development of good citizenship?

- (3) How does your home contribute to the development of good citizenship?
- (4) What are some necessities of good citizenship?
- (5) How can PTA within its guiding principles and objectives contribute to strengthening the American way of life?

Mayor and Mrs. Raymond Fleming returned late last week after spending a week sight-seeing in South Texas. They also visited friends and relatives at Laredo, Corpus Christi, Orange and Clairemont.

### ASK ME ABOUT MY BUSINESS

### County Court Fines Stowers

Gaylord Stowers, 19, of Bovina, was found guilty of negligent homicide in the first degree in county court last week, and was fined \$150 by County Judge Loyde Brewer.

Stowers was the driver of an automobile in which Johnny Dopp, another Bovina young man, was killed December 9 east of Farwell.

Wipe leaves of house plants with a small piece of cotton dampened with a drop of mineral oil and a little water.

## Farming Is A Hazardous Business

The farmer is a good business man. He has money in the bank, owns a good piece of land and has a costly set of machinery. He has thousands of dollars invested in his home and in his farm buildings. There is no doubt of it! The farmer of today has a LOT to lose! Here are just a few examples of the complete PROTECTION offered in our FARM LIABILITY POLICY:

#### PUBLIC LIABILITY --

**Bodily injury:** Pays legal liability up to policy limits for bodily injury to the public.

**Property damage:** Pays legal liability up to policy limits for damage or injury to property of others.

#### EMPLOYER'S LIABILITY --

**Employees:** Pays legal liability up to policy limits for injury or death of any employee working for the farmer.

**Exchange Labor:** Pays legal liability up to policy limits for injury or death to any person in the exchange of labor.

#### MEDICAL PAYMENTS --

**Pays medical bills,** including funeral expenses, up to policy limits, caused by accident to guests on the farm regardless of legal liability.

**Pays medical bills,** including funeral expenses, up to policy limits, resulting from accident to family members named in policy.

#### LIVESTOCK KILLED --

**Pays for animals** killed by collision on public highway or railway right of way.

**VOLUNTARY PROPERTY DAMAGE --** Pays for physical damage to property of others up to policy limits, regardless of legal liability.

**Chiefs Take "Sweet" Win Over Tulia By Hitting Free Throws**

You couldn't tell if the real contest was between the Friona Chiefs and Tulia Hornets or between the referees as to who could call the most fouls, but in the end, it all worked out as one of the sweetest wins for Friona all year. The Chiefs upset Tulia, 61-58 here last Friday.

The win broke some sort of losing streak which Friona boys had against Tulia, although the length isn't known for sure. Coaches Vernon Scott and Bak-

er Duggins say they are sure the Chiefs had not beaten the Hornets in eight years.

When the final buzzer sounded, referees called a total of 50 fouls, 27 against Tulia and 23 against Friona. They called 43 in the girls' game, for a grand total of 93 for the night.

In the boys' game, Tulia lost four starters before the game was over, and Friona lost two. And, luckily, Friona came up with its best night of the season at the foul line, which turned

out to be the margin of victory. The Chiefs hit a steaming 80 per cent from the foul line. Four players scored in double figures. S.D. Balze turned in one of his finest nights with 17 points, including seven of nine free throw attempts. Jim Snead scored 13 points, 11 from the foul line (14 attempts). Danny Murphree scored 11, including five of six free throws, and Larry Buckley scored 10, eight of nine free throws.

Buckley got the Chiefs out in front with a field goal good for a 2-1 lead. Tulia went ahead, 9-4, but two consecutive baskets by Balze cut the margin to 9-8. Thomas sent Friona ahead at 10-9, and Balze hit four free throws to keep Chiefs within one point of the Hornets, who led after a quarter, 15-14.

Tulia increased its lead to 19-14, but Friona tied the score two minutes deep in the second quarter when Thomas scored on a set shot. The Chiefs then hit a cold spell, and Tulia grabbed a 10-point lead, longest of the night, 34-24. The Chiefs cut it to six at halftime, 35-29.

Friona began a press in the second half, and started to cut into the Tulia lead. Two free throws by Max Reeve cut the margin to three points, 47-44.

The Chiefs, who scored 17 points the last quarter, 13 at the free throw line, then took the lead to stay when Snead canned a free throw for a 50-49 lead with 5:45 to play.

Tulia kept it close, but critical free-throw shooting by Buckley, Balze, Snead and Murphree in the last five minutes kept Friona on top. Murphree's final two shots made it 61-58 with a minute to go, and neither team scored after that.

The win was even more meaningful to Friona, coming on the heels of recent overtime losses by the Chiefs.

Tulia outscored the Chiefs from the field, 36-26, but Friona connected on 35 free throws of 44 attempts to only 22 of 38 attempts by Tulia.

Friona

SIXTH LOSS FOR SQUAWS

Squaws' Superiority Over Tullia Ends With One-Point Loss Here

Proof that a good team is hard to beat every time you play them came when the Friona Squaws dropped a 56-55 decision to the Tullia girls in a game here last Friday. Friona had beaten the Hornets three previous times this season, the last time being a one-point victory on Tullia's court.

As it turned out, a prolonged cold spell by the Squaws in the second quarter cost them the lead, and eventually the game, which was only their sixth loss of the season against 19 wins. The Squaws had a 32-25 lead with well over two minutes to play in the first half, and weren't able to score before the half ended, which found Tullia with a three-point lead by that time, 35-32.

Fouls hurt Friona considerably, as Kay Burleson, starting guard, played less than one-half of the game. Two guards were lost by fouls.

Friona grabbed the lead in the first quarter when Charlotte Nettles sank a free throw for a 1-0 advantage. All three starting forwards contributed to the scoring, and Friona wasn't headed in the first quarter, leading 15-13 at the buzzer.

Three straight baskets by Tito Jennings shot Friona into a 21-15 lead, and after Nettles scored a free throw, a hook shot by Jennings gave Friona a 24-16 lead, longest lead by either team in the game, with 5:30 to play in the first half.

But Friona cooled off, and Tullia took advantage to pull up. They pecked away at the lead, finally tied the score at 32-32 all with 30 seconds left in the half, then took the three point halftime lead.

Friona remained cold as the second half started. Nettles finally broke the scoring drought with a set shot with 5:40 to play in the third quarter. But that didn't get the Squaws moving. Tullia continued to hold a four and five-point lead, and it took two free throws by Jennings to cut the margin to three, 47-44, at the end of three quarters.

Tullia began stalling tactics as the fourth quarter opened. The Hornets opened up a six-point lead, 54-48, with 3:30 left to play but the game out of reach. The Squaws, who had scored five points in the final minute of play to win the last game between the two at Tullia, almost provided a "sequel" to the story.

Tullia went cold, and Nettles sank three free throws and Jennings got a basket to cut the lead to 54-53 with 1:30 to play. Then the Hornets took a 56-53 lead, only to have Jennings close the gap to 56-55 with a minute to play.

Friona got the ball with 30 seconds to play. They weren't able to work the ball into scoring position, lost control momentarily, then gained it back with 10 seconds left, calling time. This time they got the shot, but it bounced in and out at the buzzer, giving Tullia the win.

The Hornets have lost only four games this season, three of them to Friona.

If the two teams meet again this season, it would have to be at the regional tournament, since they play bi-district games against different districts.

THE BOX SCORE

	FG	FT	TP
Buckley	5	1	11
Nettles	4	10	18
Jennings	9	8	26
Tullia	13	22	12
Friona	15	17	12

SCRAMBLE FOR BALL . . . Janet Buckley, center, and two Tullia girls go after the ball in last Friday's battle in Friona, won by Tullia, 56-55.

City Enjoys Early Spring

Friona's winter suddenly turned into a spring-like season during the past week, with temperatures in the low and middle 70s almost every day.

February rang in with a high temperature February 1 of 76 degrees, also high for the week. The low was a 20-degree reading January 30.

The city continued in its drought, however, with no precipitation during the week. Only .08 inches of moisture has been recorded in Friona since December 2. The last moisture of any significance was December 1, when .41 inches of moisture was recorded.

LHS Wins Ribbons At Fort Worth

Lazbuddie students brought back several ribbons from the Fort Worth Junior Fat Stock Show last week. Jimmy Dale Seaton had the bread champion Hampshire, an entry which was first place in the lightweight division.

Charlotte Seaton had the first place heavyweight Hampshire and first place heavyweight Duroc, as well as the second place mediumweight Hampshire. Her entries were fifth and 12th in the light Hampshire division.

Gary Eubanks won seventh and 12th place in light Berkshires, and fourth and 13th in light Hampshires, along with 15th in medium Hampshires.

Theresa Seaton showed the fifth-place heavyweight Duroc and the 16th place light Hampshire. Bobby Gleason had the second place light Poland China, Kenneth McGehee was 12th and Buddy Embry 13th in the same class.

Seventh Boys Win District

The Friona seventh grade basketball team won the district championship, ending its season with a 24-16 win at Dimmitt Monday. Delbert Davis scored 12 points and 21 rebounds, and Larry Graves scored eight.

The eighth grade boys closed out their season with a 24-20 loss at Dimmitt. Danny Baze scored nine points and Bobby Jordan had eight. The eighth graders ended with a 10-6 season record and second-place tie with Muleshoe in district.

Knowledge is one thing that doesn't become second hand when used.

February 5	75	31

IT'S NOT TOO LATE - YET!

A sick man, at the end of a misspent life, asked a Christian minister: "Do you think that a deathbed repentance does away with a whole life of sin?" "No," answered the pastor, "But Calvary does."

The death of Christ on Calvary does away with every sin - our original sin, the sins of our childhood, the sins of our youth, the sins of our adult years, and the sins of our old age - "The Blood of Jesus Christ, God's Son, cleanseth us from all sin."

It's not a question of being late or being early, of being more guilty or less guilty, of being old or young; it is merely a question of accepting or rejecting the abundant and complete pardon which is ours through the limitless love of the Son of God.

The thief on the cross was late - very late - but not too late. If you have not yet made your peace with God through faith in Jesus Christ, then be assured; It's not too late - yet!

We stand ready to help you with any of your spiritual problems.

Seventh, Eighth Grade Girls End Good Seasons

The Friona eighth grade girls took the District 3-AA title with an 8-0 record and 14-1 for the season. Springlake was the only team to beat them. The girls had a 9-0 record last year as seventh graders.

In the final game of the season, the eighth grade girls took 48-17 win over Dimmitt, with Sue Rodgers scoring 14 points, Cindy Ingram scored 13 and Lou Cochran 12. The girls hit 54 per cent of their field goals. Judy Shirley led rebounders with seven.

Sue Rodgers led the scoring for the season with a 14-point average per game. Cindy Ingram had a 10.4 average. The team averaged 34 per cent for its field goals for the year and 40 per cent of its free throws.

Martha Martin and Judy Shirley tied in the rebound department and Glenda Mingus was third. The team averaged 37.7 points per game, to their opponents' 17.

The seventh grade girls closed out their season with a 32-5 win over Dimmitt. Kay Milner's 16 points led Friona. Belinda Mabry scored nine, and Sharon Awtrey had seven. Linda Stone had eight rebounds.

The seventh graders ended with an 8-4 record, 7-1 in district, good for at least a tie in district.

Linda Stone averaged nine rebounds per game for the season to lead the team. Kathy Cook averaged seven, Kay Milner was the scoring leader with an eight-point average. Belinda Mabry averaged seven and Sharon Awtrey four.

Their only district loss was to Muleshoe, 19-12, averaging 24 points per game for the season. The team hit 33 per cent of its free throws for the year, and 25 per cent of its field goals.

Coach Gaylon Woodard is pictured holding the second place trophy won by his freshman boys at a tournament in Dimmitt recently. Team members are: (standing) Scott Cummings, Bobby Sims, Ray Braxton, Eugene Weatherly, Jesse Shirley, Tim Herring, Travis Graves, (kneeling) Lonnie Ellis, Eldon Long, Coach Woodard, Joe Mabry and Tommy Sherley.

Something To Think About

6th. Street Church of Christ  
Box 515 -- Friona, Texas

Man has sinned against God. Man is unable to formulate any plan or conduct any campaign which can force God to justify him, or to merit salvation. The will of God determines what man must do in order to be justified in God's sight. Faith is an essential part of God's plan for man's reconciliation (Heb. 11:6). God does teach that man is justified by faith. But he who puts the word "only" after that statement does so without the authority of God. James, speaking as the Holy Spirit directed him, gives us a very comprehensible view of God's will in this matter. "Faith alone is dead; it must be made perfect through the works, or obedience, of faith. (James 2:14-26) This obedience of faith IS NOT of such a nature that it merits or deserves justification as wages for work done, but IT IS of such a nature that God has not promised justification to those who refuse the obedience of faith. The obedience of faith is simply a manifestation of faith, and when faith is expressed in an act it is no less faith than when it is expressed in words, an act of speech. Please notice; "By faith the walls of Jericho fell down. AFTER they had compassed about seven days." (Heb. 11:30) God prescribed the conditions which they had to meet, and which it took some effort to fulfill, and when by faith they OBEYED the walls fell. A "Partial View" concerning faith and words is most dangerous.

SAMPLING MUD PUZZLES

One young man was being ridiculed by his worldly-wise companions because he refused to go along with them to a place of questionable character. "How do you know it's a bad place?" they asked; "You've never been there!"

The young man gave the pointed reply: "I don't have to fall into every mudpuddle to see if it is dirty."

There are some things in life concerning which we had better not have any firsthand knowledge; some things concerning which we need have no experience. We need not fall into every mud puddle to see if it is dirty.

How do we stand on this score? Have we been sampling mud puddles? Then, let's not deceive ourselves-there's mud on your record. Isaiah 64:6. Psalm 51.

There is only one cleansing power in all the world that can remove the guilty stains from our soiled garments. The Bible tells us: "The blood of Jesus Christ, God's Son, cleanseth us from all sin."

# Mrs. Huddleston Returns Home, Under Observation In Friona

Mrs. Jack Huddleston is undergoing diagnostic mental tests in Parmer County Community Hospital this week, and is under observation at the Friona hospital.

Mrs. Huddleston, 35, disappeared mysteriously from her farm home 15 miles west of Friona last Friday, but returned home Sunday night. Mrs.

Huddleston apparently had been in Amarillo, and saw a story about her disappearance in a newspaper, and caught a bus home.

Her personal physician, Dr. George M. Anderson, said "Mrs. Huddleston definitely is suffering from a mental disorder. Her recent actions have been entirely beyond her con-

trol, and do not constitute a social or family problem. She is definitely sick."

Dr. Anderson said he expected the tests to tell whether her trouble was organic or psychiatric. He said this type of diagnosis usually took quite a bit of time, and it would probably be at least a week before anything concrete was known.

The Parmer County woman left home Friday in the family car with \$11 in her purse, according to her husband, without a word to anyone. She was missing from home in a similar instance in December.

A few days before her disappearance, Mrs. Huddleston had been admitted to the hospital with a gastro-intestinal infection. "This is considered a good indication for doing a spinal tap," Dr. Anderson said.

It was decided that Mrs. Huddleston should spend a few days resting at home before the tests were resumed, but she left home Friday undetected.

"Mrs. Huddleston acted upon compulsions beyond her control. She is not responsible for her actions in the past three

months no more than a person with appendicitis is responsible for the pain in his side," said Dr. Anderson.

## Seaton Duroc Is Champion At Amarillo

Charlotte Seaton of Lazbuddie, who recently showed the grand champion barrow at the Hereford Junior Livestock Show, showed the champion Duroc at the Amarillo Junior Livestock Show recently.

Miss Seaton's middleweight Duroc was first in its class, and went on to win champion of the breed. She also had the fourth place heavyweight Poland China, and fourth place light Poland.

Theresa Seaton had a ninth place heavyweight Duroc and a seventh place lightweight Hampshire.

Darrell Mason entered the fifth place Crossbred lamb, the tenth place Southdown lamb, and the eighth place Hampshire lightweight barrow.

Ricky Seaton's Crossbred lamb placed 12th in its class.

LAZBUDDIE LONGHORNS . . . The 1962-63 Lazbuddie High School squad, which finishes its season this week, is composed of (back row, left to right) Theron Vaughn, Gerald Foster, Glendale King, Mac Brown, Coach Carol Step, Johnny Mabry,

Terry Darling, Joe Byron Jennings, and Johnny Mitchell. In the front are Ronald Ashford, Gary Coker, Craig Schumann, D. H. Foster, Kelly Mirams, Sammy Harlan, James Koelzer, Charles Ramage and David Winberly.

## Accuracy Hit In Tax Returns

Review of early-filed Federal tax returns in the Dallas District reveals that some taxpayers are failing to fill in all required data, Director Ellis Campbell said today.

Campbell said individual and business taxpayers particularly should carry forward to proper lines on the face of the return data from any attached schedules.

Director Campbell said it is important that returns filed this year be accurate and complete. Internal Revenue is turning to electronic computers to maintain taxpayer accounts. For this system to function beneficially for the Government and for tax-

payers, manual editing of defective returns must be reduced to a minimum, he said.

Campbell also called attention to the legal requirement effective this year that taxpayers enter their tax account identifying numbers on returns. For the individual, this is his Social Security number, or a similar number assigned for tax purposes. Director Campbell said his office will supply application forms for any persons still needing numbers. This also applies to business taxpayers, who must enter their Employer Identification Number on their returns.

## Dan "Hoss" Blocker Is Texan of Year

Dan Blocker, a really "big" man, will be the recipient of the Texas Press Association's 1963 "Texan-of-the-Year" award.

Announcement of his selection has been made by George Baker, president of the newspaper association and publisher of the Fort Stockton Pioneer.

The presentation to Dan Blocker, 300-pound co-star of the NBC-TV show Bonanza, will be made at TPA's Mid-Winter Meeting at the El Tropikano Hotel in San Antonio on Saturday evening, January 26.

Blocker, known on TV as Hoss Cartwright, was born in Bowie County, Texas, on December 10, 1929. He grew up in the Texas Panhandle and received his education in Texas.

Weighing 14 pounds at birth, he pulled the scales to 105 pounds by the time he entered grade school. He became known among his friends as "The Big'n". At age 10 he worked alongside grown men at grain elevators and could whip any of the local toughs, regardless of

their age. Despite his extraordinary strength, Dan Blocker had other ideas than pushing his weight around as a strong man. When 12 years old he enrolled in the Texas Military Institute at San Antonio. At that time he weighed 200 pounds and stood six feet tall.

From the military institute he went to Hardin-Simmons University at Abilene for a semester, then to Sul Ross State College at Alpine, on a football scholarship, to major in physical education.

He changed his major to drama before he was graduated in 1950.

From Alpine he went to Boston for summer stock. Then,

as did most young men of his time, Dan Blocker received greetings from The President and went overseas for a whirl at Korea.

When he finished his army hitch, he came home with the stripes of a first sergeant, to further impress Dolpha Parker, his collegesweetheart. They were married on August 25, 1952. They now have four children, twin girls and two boys.

Blocker returned to Sul Ross shortly after his marriage to work on his master's degree. He left classes for one year to teach in the high school at Sonora. Upon receiving his Master's degree in drama and English, he taught school at

**Texan Of Year--**

(Continued from page 5)

Carlsbad, New Mexico.

In 1956, he went to Los Angeles for graduate work at UCLA. Almost immediately he was chosen for a feature role in a Gunsmoke episode, where he made more money in four days than in a month of teaching.

Since that time his rise to stardom has been rapid. He has played in many significant TV roles and today has top billing with Bonanza.

The Texas Press Association, on behalf of its 76 member dailies and 432 weeklies, has presented "Top Texan" awards on two previous occasions. In 1961 the honor went to Paul Richards of baseball fame, a native of Waxahachie, who at the time was manager of the top-ranking Baltimore Orioles. Last year the "Texan of the Year" award went to Van Cliburn, world renowned pianist from Kilgore, Texas.

Selection of the Texan of the Year is made from nominations by Texas editors and publishers. Nominees must be well known Texans, outside the field of politics, now residing beyond the borders of the state, but bringing fame to the state by outstanding accomplishments in their chosen fields of endeavor.

DAN BLOCKER

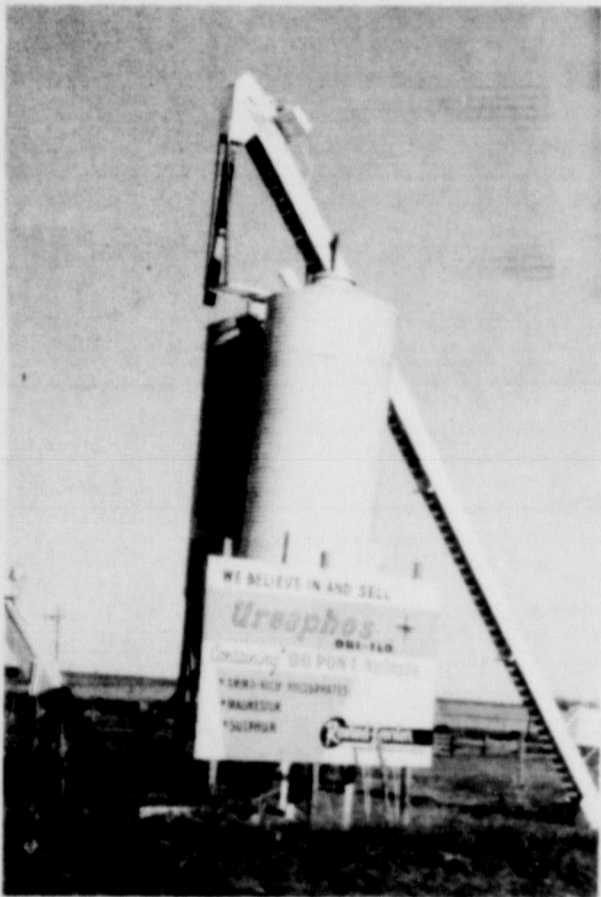

According to Newsweek, space industry business will exceed \$5 billion this fiscal year, and will provide half-a-million jobs. Of the federal government's space budget of \$5.5 billion, 85 per cent will go to 500 prime contractors and some 8,000 subcontractors. Universities, non-profit institutions, and government facilities will get the remaining 15 per cent. In addition, private firms are expected to spend \$500 million on space research and development.

The median money income of families in the United States was \$5,700 in 1961, the last year for which the official figures are available. This marked a 2 per cent gain over the preceding year. That, however, was offset, by half, by a 1 per cent rise in consumer prices.

POWER MOWERS injured some 75,000 persons this past summer, and rotary models did most of the damage. About three of every four accidents resulted from contact with blades--the rest from flying objects.

# Running Water Draw Program Takes A Giant Stride

Completion of first stage in the watershed was assured recent agreement as the first step to- ward creation of a chain of dams by when Lamb and Castro Counties signed co-sponsorship and lakes up and down the water agreements with the Running Water Draw Watershed authority, shed from Curry County, New Mexico, through Farmer, Cas- and cities involved into joint- Counties in Texas,

F. F. Calhoun, Chairman of Hale County Soil Conservation Board, and Chairman of Running Water Draw Watershed Project Steering Committee, stated Saturday that the forward thinking responsible action of all officials and interested citizens in the various counties was a big jump in the right direction for control of flood waters, soil erosion, and the conservation of water, and for creation in the future of recreational areas from all of which unborn generations will benefit. Calhoun also stated that costs of such a project is a complex matter related to the various benefits involved from the creation of such a project spread out over a very long period of years -- possibly as long as a hundred years -- and would involve Federal, State, and Conservation aid as well as other interested and benefited organizations such as Wild Life Refuges and recreational areas. The Steering Committee of the project is composed of one member from each county Soil Conservation District, one representative from each commissioners Court, and one representative from each city signing co-sponsorship agreements. From the Soil Conservation Districts representatives are Leon Marks, Clovis, New Mexico; A. L. Black, Friars; Wade Mills, Nazareth; H. A. Hysinger, Olton; Woody Boston, Kress; and F. F. Calhoun, Plainview. Other members of the Steering Committee will be named by the counties and cities this week preparatory to a committee meeting to be held in the near future to continue work on the project. Members of the committee expressed their appreciation for the efforts on the part of all county and city officials and interested

citizens spread out over the 480,000 acres of the Watershed. One member stated that the actual benefits to this immense area would literally stagger the imagination when full realization and comprehension is possible.

## FOOTSAVING EDUCATION

by James E. Edwards

### Do Men Have As Much Trouble With Their Feet As Women Do?

More Cartoonists would have us believe that only women are dumb enough or vain enough to crowd their feet into tight shoes but that is because most cartoonists are men and for men to poke fun at men is not good entertainment for men.

Women love to shop and they are good at it. They learned from their mothers at a very early age. Little boys don't like to shop and most men hate it. Once the clerk takes their shoes off they are in misery until they get a new pair on and get out of the store. Any pair will do and usually does.

JOHN GAMMON, back row center, was elected chairman of the Board of Directors of the High Plains Undergruound Water Conservation District for 1963. The complete board is composed of (front, left to right) J. R. Belt, Lockney, and Henry (Chick) Schmidly, Levelland, vice chairman. In the back are Russell Bean, Lubbock, secretary-treasurer, Gammon, and Earl Holt, Hereford.

## Gammon Elected Chairman Of Water District Board

Three area men have been sworn-in as members of the five-man board of directors of the High Plains Undergruound Water Conservation District. During luncheon ceremonies this week in Lubbock, the honorable Howard C. Davidson, Judge of the 99th District Court in Lubbock, administered the

oath-of-office to Russell Bean of Lubbock, John Gammon of Lazbuddie and Earl Holt of Hereford. Each was recently elected by residents of the district to serve a two-year term of office on the board.

Luncheon ceremonies were presided over by T. L. Sparkman, Jr., of Hereford, who along with Elmer Blankenship of Wilson, retired from the board with the qualifying of the newly-elected men.

During a business meeting following the swearing-in ceremonies, Gammon was elected to serve as chairman of the board during 1963. Henry "Chick" Schmidly of Levelland was elected vice-chairman and Bean was elected to serve as secretary-treasurer. J. R. Belt, Jr. of Lockney is the fifth member of the water district board.

"GLUING" windshields and rear windows into autos instead of glazing with strips of rubber and sealant promises the industry annual savings of millions of dollars, the manufacturers say. In the method, used previously to fasten building windows, a thin bead of polysulphide adhesive is run along the edge of the glass which is then pressed to the metal frame. Setting takes 10 days.

# Weather Damage To Wheat May Be Light

Parmer County's wheat crop, which some observers feared might have been damaged extensively by the extremely cold weather a few weeks ago, may not be as badly damaged as was first believed.

This was the opinion of this week of Parmer County Agricultural Agent, Deryl Coker. "Apparently, the wheat may come out all right," Coker said. "The main thing we need is some moisture," he added.

Coker said that the wheat countywide has been able to develop a good root system during the dry spell, which was one advantage you could attribute to the dry weather.

The county agent revealed that some cases of the Brown Wheat Mite have been reported in Parmer County, although it apparently hasn't become widespread as yet. He advised farmers to check their wheat periodically to see if the insect has infested their field.

The simplest way to check, according to Coker, is to take a piece of white paper and shake the wheat out on it. Any mites would then be easier to locate.

Best time for making the test, the county agent recommends, is early in the morning or late of an afternoon.

The actual damage the wheat may have received from "frost-

bite" due to the cold weather may not be known for sure for several weeks.

"The plants may stool out more than usual--you can't tell, we might still have one of our best years for wheat," Coker said.

COUNTY AGENT Deryl Coker makes a test in a Parmer County wheat field to see if he can find any evidences of Brown Wheat Mite.

# Stockmen Pledge To Keep Screwworm Program Alive

An overflow crowd of key Texas farm and ranch leaders, meeting in Austin on January 23, enthusiastically approved the continuance of the Southwest Screwworm Eradication Program and readied plans to raise the remaining \$1 million needed to insure the continuation of the project.

C. G. Scruggs, president, Southwest Animal Health Research Foundation, got a thunderous 'yes' when he asked the group if they wanted the project continued.

Nearly 600 representatives from over 175 Texas counties agreed to go back to the individual farmers and ranchers who helped start the program less than a year ago and ask them to raise the balance of their \$3 million goal. The group included the chairmen of county animal health committees, extension service workers, vocational agriculture teachers, and representatives of several agricultural and livestock associations.

# Parmer County Among Leaders For Fertilizer

During the past October and November more and more farmers climbed aboard the "hand-wagon" and had their soil sampled, according to William F. Bennett, soil chemist, of the Texas Agricultural Extension Service.

High counties for the two month period were Ellis with 197, Bell with 168 and Travis with 162, Bennett says. Hockley, Calhoun and Kaufman counties all submitted over 100 samples each, he adds.

The annual fertilizer tonnage report shows that Texas farmers used 944,901 tons of fertilizer in 1961-62 as compared to 766,055 tons in 1960-61, the chemist says. The High Plains and Trans-Pecos areas continued to be the heaviest users applying 30 percent of the state total. East Texas, North Central Texas and the Coastal Prairie followed in decreasing order. Hale, Harris, Hidalgo and Deaf Smith Counties all used over 20,000 tons while Lubbock, Lamb, Wharton, Dallas, Jefferson and Parmer rounded out the top 10 counties in fertilizer usage.

Bennett says that all this means more soil sampling especially for spring crop planting and advises farmers to make their samples early to insure prompt return of the report. He also encourages taking good samples and using a soil sampling information sheet.

# It's Official: County's Ginnings Top 80,000

Parmer County received official confirmation this week that its 1962 cotton crop topped 80,000 bales, highest in its cotton-producing history.

Figures released by the United States Department of Census on ginnings showed that Parmer County gins had ginned a total of 80,292 bales of cotton as of January 15. This figure compares to the total of 80,525 bales which Parmer County Newspapers derived at in a survey January 2, based on figures and estimates given by the individual ginners.

At the corresponding time a year ago, a total of 56,996 bales had been ginned from the total of 60,029.

In neighboring Bailey County, a new record was also set, as 112,087 bales were reported as of January 15. Last year's crop in Bailey County, 101,000 bales, was the former record, being the first time its crop topped the 100,000-bale mark.

Bailey County has over 100,000 allotted acres, although much of its crop is dryland. In Parmer County, where only 49,000 acres were allotted in 1962, most of the crop is irrigated. Parmer County's yield will figure close to a bale and two-thirds per acre.

Castro County reported 70,726 bales ginned, compared to 62,184 the same time a year ago.

# USDA Announces List Of February Plentiful Foods

Though short in days, February will be packed with a full measure of plentiful foods, as designated by the U. S. Department of Agriculture for local markets.

It's a pleasant assortment of nine highly menuable items, says the Texas Agricultural Extension Service.

Logically enough, red tart cherries head the list. They're a "must" for Washington's birthday and Valentine's Day cherry pies. They're convenient to use and always economical. Supplies are heavy.

Sweet potatoes are a special feature plentiful in this area. Colorful sweet potato dishes, from mainfare to dessert, make this an ideal food for grey February days. Growers in some production areas, including East Texas, find themselves with almost twice as many sweet potatoes on hand as normal. Consumers will do well to take advantage of the abundance.

Other February plentiful foods include eggs, winter pears, carrots, potatoes, canned corn, peanuts and peanut products, and dry peas and beans of several varieties.

# County Grain Producers Meet Tuesday At Bovina

Grain producers from throughout the county will meet in Bovina School Cafeteria at 7:30 p.m. Tuesday February 12, 1963 to hear reports of and give direction to Farmer County Grain Sorghum Producers Association.

A. W. (Dub) Anthony Jr. President of the county organization says the meeting is the principal annual affair of the group and is designed to report to supporting members, the activities conducted in their interest during the past year and to seek direction for the coming year's program which will be taken to the area-wide Association directors' meeting scheduled for March 13 in Amarillo.

Prentice L. Mills, County A-S, C. S. office manager, will outline the provisions of the 1963 Feed Grain Program as applied to Farmer County. Producers with individual questions as to how the program will apply on their farms will have an opportunity to obtain specialized information.

Sam Thomas, Agriculture Development Director of Southwestern Public Service Company of Amarillo and Vice Chairman of the Agriculture and Livestock Committee of the West Texas Chamber of Commerce, promises to challenge area farmers with his discussion of production and utilization of grain sorghum in the area economy. Thomas is widely recognized for his leadership in livestock feeding promotion activities throughout the area.

other groups which farmers themselves do not have total control of, yet which affect their income.

Anthony pointed out that the highlight of the session should be when local farmers themselves voice their views as to what they want the Association to work for in their interest during the coming months in developing the 1964 feed grain legislative programs. This open discussion will be followed by an election of officers of the County group and the naming of directors to the area-wide Association.

Also scheduled for to appear on the program is Deryl Coker, County Agricultural Agent.

Current officers of the Farmer County GSPA, besides Anthony are Bruce Parr, vice president; Tom Caldwell, secretary-treasurer and Gabe Anderson, Jr., elevator representative.

## WITH THE COUNTY AGENT

DERYL COKER

If you think your wheat crop could run low on plant food, especially nitrogen, it should be top dressed between now and March 1.

Top dressing is considered a good practice if there is enough phosphorus present in the soil. A chain is just as strong as the weakest link, and the same thing applies to making a good wheat crop.

Wheat that has been grazed will use about 40 or 50 pounds more nitrogen than wheat that has not been grazed.

If you are in doubt, why don't you have your soil tested to determine the level of plant food available in the soil for the plants use.

Top dressing nitrogen is a pretty good method because nitrogen will move with water. In other words irrigation water will move the nitrogen down to the root system.

Phosphorus, however, does not move with water, so it remains approximately where it is put. Since phosphorus has this characteristic, it should always be applied before planting in the fall. Phosphorus will also tie up with the calcium in the soil, and our soil is high in calcium,

so the best way to apply phosphorus is to band it in before planting. When it is in a concentrated band it won't tie up with the Calcium so bad.

Most soils are high in potash, so we don't worry about it too much.

The advantage of waiting until spring to top dress with nitrogen is two-fold. First the response in grain yield is usually a little better from spring top-dressed wheat. The second advantage is it gives the farmer more time to determine the prospect of a wheat crop, especially on dry land.

Certainly we in Farmer County want to make the greatest return from farming, but let's get our soil tested and take some of the guess work out of farming. We have plenty of soil testing boxes available in our office just for the asking.

# Care Urged In Pruning Shrubs

NEWS FROM THE FARM BUREAU  
BY RAYMOND EULER

Don't cut back damaged shrubs that have been defoliated or had their leaves browned by the recent record-breaking low temperatures, advises J. J. Franklin, extension landscape horticulturist. Chances are good, he adds, that only the leaves were damaged. However, he doesn't rule out the possibility of damage to twigs, main branches or even the roots of the less hardy species or varieties.

An immediate examination of the trunks may reveal heavy damage for splitting often occurs. A finger-nail test on young twigs may reveal no fresh tissue beneath the bark and this indicates damage, he says. It is easier to evaluate winter damage in the spring, after new growth starts, he adds, but even then weakened branches often put out new growth which later dies.

Corrective pruning can begin as soon as it can be assumed that new growth is lacking or will remain very sparse. Cut out the dead or weak wood well below the damaged area, leaving only strong growth, Franklin advises. Do this, he adds, after growth has started in the spring.

The best treatment, in addition to proper pruning for winter-sick shrubs, is to keep them well-watered and fed moderately, he says. A mulch of leaf mold, peatmoss or other

organic material will insure better plant health. Loosen the soil to a depth of half an inch and then apply a two-inch layer of mulch over the soil covering an area slightly beyond the branch spread of the shrub, Franklin advises.

Shrubs which show no new growth within two months after spring growth starts can be considered completely dead and those which are extremely weak at the end of the first summer after the freeze damage should be replaced, he says.

When pruning broken limbs of trees or large shrubs, more

care is required to promote healing and prevent decay, the specialist says. Stubs should not be left and all pruning cuts should be made flush with trunks. Wounds of more than two inches in diameter should be treated with wound dressing or tree paint, he says. The treated areas should be checked periodically and recoated once or twice a year.

Finally, he suggests that a copy of B-977, "Modern Pruning Methods" be obtained from the county extension office and studied before the pruning job is started.

## Bulletin Tells Difference In Steak, Cattle Prices

The difference between the price of steak and the price the producer gets for his cattle is due to marketing costs, according to a new publication of the Texas Agricultural Extension Service.

"From Steer to Steak," L-582, states that these marketing costs include all the costs of processing and distribution required to convert the live animal to the salable product. It says these costs can be divided into three groups; marketing livestock, slaughter-wholesaling and retailing.

The costs involved in the marketing process begin when the animal is sold by the producer. The cost of transportation, sale or handling of the steer must be included in these expenses, the bulletin explains.

The next phase of marketing is slaughtering the animal and wholesaling the carcass. A U.S. Choice grade animal will yield about 59 pounds of carcass beef from every 100 pounds of live weight. Thus the value of the live animal, the publication says.

The final step in marketing beef is retailing and of the 59 pounds of carcass beef left 12 more is lost in trimming and cutting the meat into retail cuts. This leaves only 47 pounds of the original 100 pounds of live animal and this is not all steak. The retail price for this meat must be at least twice the live steer price to pay for the weight loss and doesn't include the

costs involved in marketing, the bulletin says.

All steer is not steak and when marketing costs are added it is easily seen why the price we pay for steak must be considerably higher than the price the producer gets for his product, the bulletin explains.

## February 10 Is Deadline For Seedling Orders

County Agent Deryl Coker reminded county landowners this week that the deadline for ordering windbreak planting stock trees for the spring of 1963 is February 10.

A variety of seedlings may be obtained from the Texas Forest Service, at \$1.50 per hundred. Coker explained that a minimum of 100 trees must be ordered.

Species of trees available include Austrian pine, black locust, black walnut, catalpa, Chinese elm, cottonwood, loblolly pine, mulberry, osage orange, ponderosa pine, red cedar, rosa multiflora, slash pine, sycamore, Russian olive, euonymus and buffalobery.

"I wish every farmer in Farmer County would consider ordering these seedlings," said Coker. "They not only are valuable for windbreak purposes, but they will dress up our tree-less terrain immensely," he added.

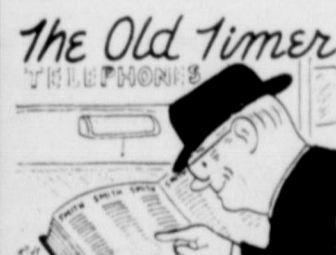

## Bench Leveling Proved Helpful

Does bench leveling of irrigated land with two and three percent slope pay? James C. Vaillant, associate water engineer at the High Plains Research Foundation, says it does. In Research Report No. 55 issued in January 1963, it is shown that three year results on both cotton and Grain Sorghum planting on benched land paid off in comparison with sloping land at the Foundation.

The returns from bench-leveling are three-fold. They are (1) increased yield; (2) decreased water usage; and (3) saving valuable soil from eroding while building up soil fertility.

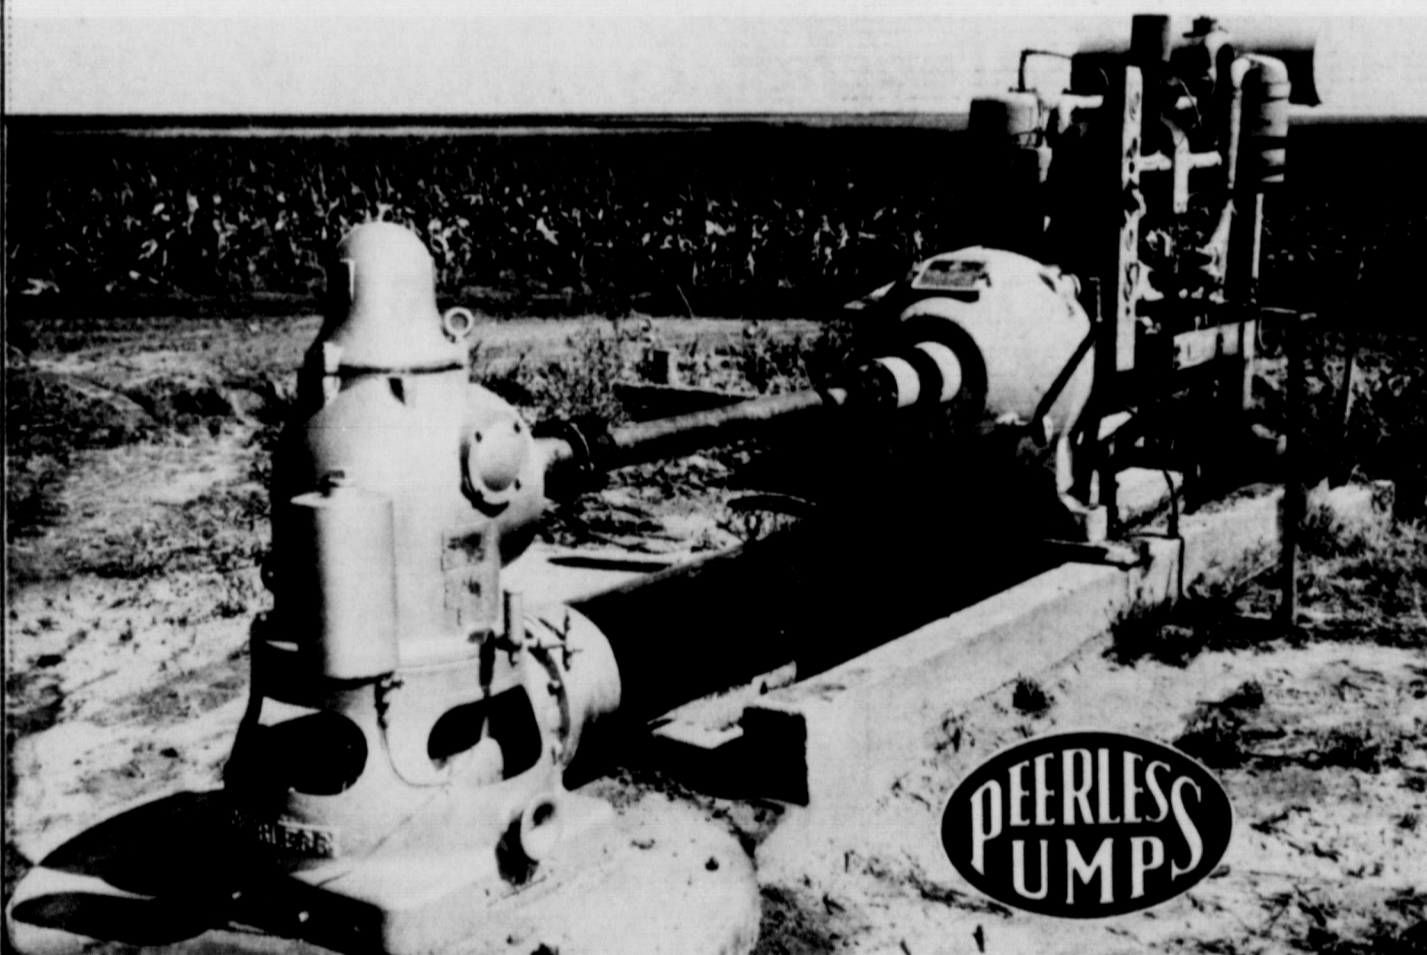

The difficulties of early bench leveling were that the benches were frequently not of uniform width for equipment use, point rows were numerous and border maintenance was difficult. The benches at the Foundation were constructed parallel so that four-row equipment could be used and point rows could be eliminated. A new bench border maintainer, used for the first time in 1962, apparently solves the problem of border maintenance and border weed control. The use of these modern methods has paid for the cost of constructing and maintaining benches and farm profits have increased over a period of years.

The three year average profit in grain sorghum on benches over sloping land was \$22.69 per acre. On cotton the three year average was \$21.39 per acre. Capital loss from soil erosion on sloping land is far greater than many realize.

## Before You Buy-- An Irrigation Pump SEE PEERLESS For These Advantages

1. WORLD'S LARGEST SELLING DEEPWELL TURBINE PUMP.
2. HIGHEST EFFICIENCY- Save as much as \$2.00 per day on fuel cost
3. PEERLESS BOWLS are Bitreous enamelled, double seals and double bearings for longer life and higher efficiency.
4. COMPLETE WELL SERVICE- Turnkey jobs with advantage of high speed baller.
5. TERMS AVAILABLE on complete installations or major repair.
6. PRICES ARE COMPETITIVE. Check with us! You may be surprised!

# Insulation Recommended As Aid To Heating Homes

Frigid weather always brings out the long underwear, and people should think about putting long underwear, in the form of insulation, in their houses, says W. S. Allen, extension agricultural engineer.

Allen, housing and building specialist, says that such insulation will contribute much to the comfort of their home. Almost all building materials have some insulation properties, but some are better than others, he adds. A good insulation material retards the flow of heat, is resistant to decay, fire proof, and does not harbor insects and rodents.

Metal foil will help retard the flow of certain kinds of heat and act as an insulation barrier. It is commonly used to reduce the effect of heat radiation and as a vapor barrier, according to the specialist. The use of a vapor barrier is very important, especially where extremely cold winters are common, or there is a great deal of moisture in the warm air inside a building, he adds. The barrier is normally placed on the warm side of the insulation to reduce the possibility of condensation in or on the insulation material.

# May 15 Cited As Best Date For Planting Grain Sorghum

Research information coming out of experiments conducted on date-of-planting grain sorghum at the High Plains Research Foundation indicates that May 15 is the best planting date. Hybrids planted on May 15 have produced higher yields with less damage from the sorghum midge and birds than hybrids planted earlier or later.

The June 5 and June 25 fields were watered three times for a total of 12.68 inches. Bird damage on the plots of the first two dates of planting was heavy because there was no source of food for birds in the area. This amount of damage would not occur in large fields so can be discounted.

The midge infestation started a week earlier than the 1961 season with greater damage than 1962. The June 25 planting received the largest midge damage in 1962 as it did in 1961. The May 15 planting had fewer plots damaged by either birds or midge and produced the highest yields. The late maturing hybrids produced the best yields which were also highest for the entire test.

A Grain Sorghum Date of Planting test was initiated in 1961. The purpose of this test was to determine the effects of planting dates on yields of early, medium and late maturing varieties of grain sorghum. Despite the early planting damage from birds, and the late planting by midge, the results clearly demonstrate some of the advantages and disadvantages of the various planting dates.

## Cold Weather Can Bring Wear For Tractor Engines

Light work and cold weather can take a heavy toll in the form of excessive engine wear on the farm tractor, says Henry O'Neal, extension agricultural engineer. Farm tractors are designed with a large cooling capacity to prevent overheating during hot weather and under heavy loads. This capacity will prevent the tractor from reaching an optimum operating temperature in cold weather under light loads unless shutters or curtains are used over the front of the radiator, he adds.

Cylinder wear at an operating temperature of 40 degrees F. can be as much as 27 times greater than at 180 degrees F., O'Neal explains. Carbon dioxide and water, as combustion products, combine to form a corrosive acid on cylinder walls which removes the protective oil film and corrodes the cylinder walls, he says. Minimum operating temperatures of 140 degrees F. under full load and 160 degrees F. under part load are required to maintain cylinder wall temperatures high enough to prevent the condensation of water in the cylinders. When operating temperatures are kept above these levels, the water remains in a gaseous state and is expelled with the exhaust.
