

### LET'S PUT A . . .

This car was driven by Antonio Cruz of Bovina in the crash last Saturday. Cruz and his passenger, Benny Arizmendez, are hospitalized in serious condition.

## An Editorial Let's Widen "60"

It's high time Parmer County began to push for a four-lane highway for U. S. Highway 60 through the county. In the past seven and one-half months there have been three head-on collisions on the highway between Friona and Farwell.

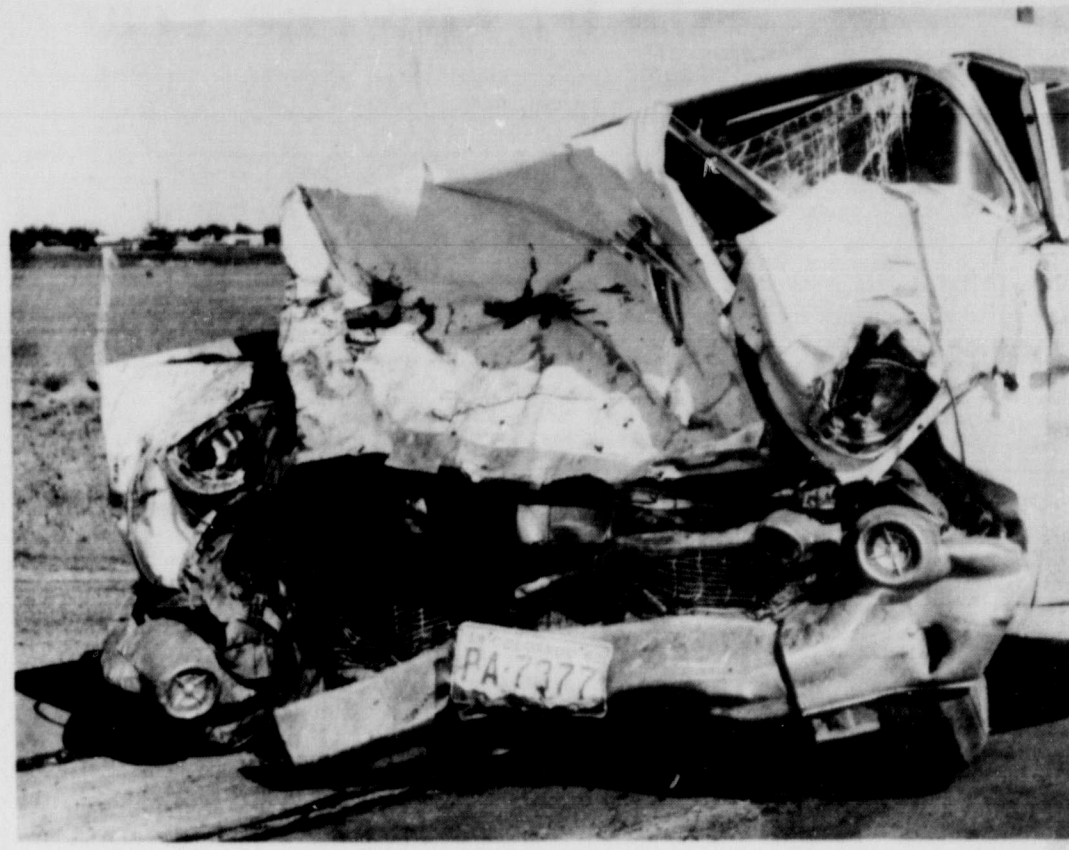

As a result of the crashes, four lives have been lost, and at present, three persons are lying seriously injured in Parmer County Community Hospital in Friona, as a result of the latest crash.

"Some traffic maps show Highway 60 to be as well travelled as U. S. Highway 84 (southeast from Farwell toward Lubbock)," said County Judge Loyde Brewer. Brewer pointed out that he drives the distance from Friona to Farwell on Highway 60 every day, and it appears to him that traffic is getting heavier all the time.

"And the longer they wait to widen the road, the more development will occur on the right-of-way, making it harder and more expensive to purchase right-of-way as we go along," Brewer adds.

We're calling on the State Highway Department to help Parmer County do its share to curb needless slaughters on a well-used traffic artery.

"We were sorry to have been without an agent for so long, but (Continued on Page 2)

### . . . STOP TO THIS

Mrs. John V. Felps of Colorado was critically injured in the above automobile, in a two-car head-on crash outside of Bovina last Saturday.

## New HD Agent Begins Job In Parmer County

Parmer County's new Home Demonstration Agent says her new position was sort of a "homecoming."

Although she has never actually lived in Parmer County, Cricket B. Taylor's family ranches north of Clovis, N.M., as early as 1926, and according to Mrs. Taylor "This area has

always seemed like home to me."

Mrs. Taylor comes to Parmer County from Mitchell County (Colorado City), where she was Home Demonstration Agent for four years. She began her new job on Monday.

She has spent her entire career in the field of home economics. For six and one-half years, Mrs. Taylor was home economist for the Farmers Electrical Cooperative in Clovis.

After serving as home demonstration agent at Raton, N.M., she spent two years with the New Mexico State Department of Education, as state director of the school lunch programs.

A graduate of Abilene Christian College, Mrs. Taylor later was a dietician at the college. She has also done special work at Texas Women's University in Denton.

While all of her home economics work has not been under the sponsorship of the U.S. Department of Agriculture, Mrs. Taylor is none-the-less well acquainted with USDA. She spent several years with the Farmers Home Administration. There are several areas of home economics, Mrs. Taylor points out, and adds, smilingly "I've been connected with almost all of them."

She was born near O'Donnell in Lynn County ("on a cotton farm") and attended high school at Tahoka. After graduation from college, Mrs. Taylor taught school a year at Bellview in Curry County.

Her husband, W. C. Taylor, is a retired yard foreman with Santa Fe Railway. The Taylors are at home at 609 7th Street in Farwell.

"I think I'll like Parmer County fine. It seems to be well organized for home demonstration purposes," she says.

The county has been without a home demonstration agent for the past six and one-half months, since the resignation of Etie Musil, who is now a full-time homemaker in Parmer County as Mrs. Pete Jesko.

## Allen Named Chairman Of Hospital Fund Drive

Charles Allen, vice president of Friona State Bank, was named this week as chairman for the Parmer County Community Hospital fund drive.

The hospital hopes to add 10 additional private rooms in time for the rush period next winter, at a cost of around \$63,000.

Allen was appointed chairman of the drive at a special meeting of the hospital's board of directors Tuesday night. The

board is to meet again in the near future to attempt to map out plans for starting the drive.

It was originally thought that the drive would begin immediately, but hail and excess rain on farmland has crops in a situation at present where the directors think it may be best to wait a while.

"We will formulate our plans, and be ready to kickoff the drive at an opportune time," Allen

said.

In addition to the new rooms, the hospital will need to make necessary additions for the kitchen, which would cost about another \$10,000.

The proposed new rooms would be approximately 12 by 14 feet with baths. Railings will be installed which would enable the rooms to be easily converted into semi-private rooms, thus giving the addition a maximum

capacity of 20 additional beds in rush periods.

Hospital officials discussed the proposed addition at a meeting April 27, at which the conditions under certain conditions were presented.

H. E. Barnett, administrator for the hospital, pointed out at that time that during the peak months of January and February, the hospital was filled almost constantly, with every possible space used to house patients.

## Summer Reading Club Off To A Good Start

Thirty-three students had enrolled in the vacation reading program sponsored by Modern Study Club as of Tuesday, according to a club spokesman.

"More children may register on a Tuesday or Saturday between the hours of 9 and 11 a.m.," said Mrs. J. G. McFarland, library committee chairman for the club.

Pre-school age youngsters are invited to attend the story hour at 9:45 a.m., under the supervision of Mrs. W. L. Stewart.

The reading club is headquartered at the Friona Federated Women's Clubhouse.

Children who read at least 12 books on their reading level between June 15 and August 31 will be issued a certificate

from the Texas State Library, co-sponsor of the program.

The library now includes the 150 volumes on loan from the Texas State Library for the summer, plus more than 60 volumes donated by local citizens. Those with books to give are asked to bring them to a member of the library committee, the Friona Star office or the Ethridge-Spring Insurance Agency.

Mrs. McFarland states that there is a great need for more books for students of the first five grades. Paper back as well as cloth-bound books will be accepted.

The first book donation in memoriam has been placed with the library. Richard M. Nixon's 460-page volume entitled "Six Crises" was given in memory of F. W. Reeve. The book deals with the Hiss Case, the Fund Speech of the 1952 campaign. President Eisenhower's heart attack, Caracas, the "Kitchen Clash" with Khrushchev, and the campaign of 1960.

The committee is referring to the project as "our little acorn of a library," and is laying groundwork for a permanent public library for Friona.

The reading program is free of charge to anyone who fills out a membership card. Two books may be checked out at one time, with a one-week limit on each book. Books may be re-checked, although overdue books will be fined at a rate of 10 cents per week.

Books lost or torn will have to be paid for. Teachers will be notified of the children's accomplishments when school starts next fall.

## Rash Of Break-Ins Reported In County

Several break-ins have been reported in Parmer County the past few days by Sheriff Charles Lovelace.

Big T Pump Company in Friona was broken into over the weekend. Tools and equipment valued at \$800 were taken. Burglars gained entrance by breaking a window in the building.

Clara's Cafe in Farwell was looted Saturday night. Burglars broke a glass in a back door. Contents were taken from a cigarette machine and juke box. Also, an adding machine valued at \$100 was stolen. Several cigars were also taken, and the burglars left a "trail of cigars" from the back door, according to Lovelace.

The Travis Dyer farm, on U. S. Highway 60 between Friona and Bovina, was also a burglary victim last week. Officers said a radio-record player combination with a stereophonic speaker was taken. Entrance was gained by breaking a picture window.

The Arthur Kent home, five miles southeast of Bovina, was looted recently while the family was away from home. A man's western suit and wrist watch were taken. Burglars ripped a screen off a window and broke it to enter the house. Lovelace said no arrests have been made in any of the break-ins, although officers have some go-d leads.

## Two Arrested At Farwell

Two men were arrested Saturday night in Farwell by Sheriff's officers, were fined in county court and released.

Bill Alexander, 51, of Edmondson, was charged with driving while intoxicated. He was fined \$100 plus court costs.

Timothy Morris, 49, of Farwell, was charged with disturbing the peace and carrying firearms. He was released after paying a \$44.50 fine.

## None Injured In Smashup

### City Woman's Brother Killed

Kenneth Harrison of Gainesville, a state highway patrolman who was shot to death by a man he had arrested last week, was a brother of Mrs. T. E. Wood of Friona.

Mrs. Wood and her two sons, Noyle of Friona and Billy of Cotton Center; another brother, A. E. Harrison of Clovis; and a nephew, Ted Harrison of Muleshoe attended the funeral services in Gainesville.

## None Injured In Smashup

Luther Metcalf and Carroll Lee Bennett were involved in a two-car accident at the intersection of West Fifth Street and Woodland Avenue Monday.

Metcalf, driving a 1962 model pick-up truck, was attempting to make a left turn onto Woodland. Bennett, driving a 1962 model sedan, was heading west on Fifth Street. Neither was injured.

Bennett's car struck the right front of the pickup. There was approximately \$400 total damage to the vehicles. Metcalf was given a ticket for failure to yield right of way to oncoming traffic.

## New Bank Employee Announced

Gary Brown, 23, recent graduate of Oklahoma State University, began duties this week at Friona State Bank as agricultural representative.

Brown received his degree in Agricultural Education at OSU. While in college, he was a member of the Collegiate FFA, Dairy Science Club, Poultry Science Club, and was employed by the Agronomy Department at the college the past two years.

He was on the dean's honor roll at OSU the past year. A native of Agra, Oklahoma, a farming community in the central part of the state, Brown is a brother to Mrs. Bill Nichols, former Friona resident. He is married, and he and his wife, Barbara Jean, are living at the Clyde Hays farm, one-half mile south of Black. The Browns are members of the Methodist Church.

Frank Spring, president of Friona State Bank, in announcing his association with the bank, said "We're happy to have Brown with us at the bank, and invite everyone to become acquainted with him."

NEW AGENT . . . Cricket B. Taylor. Parmer County's new home demonstration agent, began her duties Monday in Farwell.

NEW EMPLOYEE . . . Gary Brown, left, is the new agricultural representative for Friona State Bank. Brown is shown talking with Hollis Horton during his first day at the bank Tuesday.

**E.W. Talbot Buried Here**

Everet Walter Talbot, long time resident of this area, died in Hereford Thursday, June 6, following a long illness.

Funeral services for Talbot were conducted from Union Congregational Church at 2 p.m. Friday, June 7 with Rev. Hudson Phillips Jr., pastor officiating.

Survivors include his wife, Vivian, and one daughter Eddi Uri Luttrell of Wheeler and several grandchildren. Pallbearers were Carl Maurer, Calvin Talley, Fern Barnett, John Burrow, Orval Blake and Herbert Day.

**Friona Rain Totals 11.67 For The Year**

The area's rainfall total, which is the only thing growing unmolested, was hiked considerably the past week, as rains continued on about an every other day basis.

In Friona, another 2.62 inches of rain fell during the past week, bringing the total rainfall for June to 6.97 inches, and for the year to 11.67 inches, with the bulk, 11 inches, falling during May and June. Tuesday night's shower dropped 1.13 inches on Friona.

**City Golf Meet Begins Saturday**

The second annual City Golf Tournament will begin this weekend (weather permitting), and will conclude the following weekend, June 29-30. John Renner, winner of the first tournament a year ago, will defend his championship.

Club pro Joe Coronado announced that match play will determine the championship. The first nine holes will be the qualifying round. Non-members as well as members are invited to participate. The qualifying round will be played Saturday morning.

"Anyone who can swing a club is welcome to come out," Coronado said. He also pointed out that non-members will not be charged a green fee above the entry fee, which everyone will

pay. Prizes of either trophies or merchandise will be awarded. The number of participants in the qualifying round will determine the number of flights. Match play will begin after the first nine holes. An 18-hole match will be played on each of the four days of the tournament.

Coronado stated that greens were still in good shape despite flooding from Frío Draw due to recent rains. The main damage which has been suffered by the course is the washing out of the crossings.

"The crossings have been washed out five times in the past two weeks. I guess we're going to have to put in concrete crossings," Coronado said.

**FB Offers Assistance To Fire Departments**

The Parmer County Farm Bureau is participating in a program to assist local volunteer fire departments in fire protection and fire prevention in rural areas, according to Harry Hamilton of Friona, president.

The local FB leader said the Farm Bureau will help defray the expenses for sending a limited number of volunteer firemen to a Fireman's Training School to be held July 21-26 at Texas A&M College. The Farm Bureau will pay \$45 of the \$50 registration fee for local

volunteer fire departments to attend the school which furnishes up-to-date information on fire protection and fire prevention as well as fire fighting techniques. The \$50 registration fee also covers lodging and meals, he explained.

The Farm Bureau will also pay any local organized fire department for answering calls outside of the city limits to fight fires involving the property of Farm Bureau members carrying fire insurance with the Farm Bureau insurance company, he said. The amount of payment will be \$75 per call.

The county president said local fire departments are being urged to cooperate in the plan to reduce fire losses in

rural areas of the county. Any volunteer fire department that will agree to serve rural areas will be eligible to submit an applicant for the fire training school. But the total number of persons that can attend is limited, and only one applicant for each fire department can be accepted, he said.

**Attends Meeting**

City manager Arley L. (Jake) Outland attended the annual convention of the Texas City Managers Association in Corpus Christi this week.

The Outlands were to be gone all week. The City Manager is to be back in his office this coming Monday.

TILT-UP CONCRETE

# Unique Construction Is Used For Taylor Building

Taylor and Sons Blacksmith Shop in Friona is pioneering with a new type of construction -- at least for this area -- in the erection of its new building at Eighth and Euclid in Friona.

The building is being constructed of concrete -- not blocks, as might be the conventional method, but of large concrete slabs which are pre-fabricated and then "tilted up", where they are anchored by steel.

There are many apparent advantages to the new type of structure. With no forming lumber used, it is both cheaper, and will be almost completely fire-proof, since little or no wood will be used in the building.

The owners have been told that their fire insurance will be in for a reduction when they move into the new building. "A

welding shop has a lot of fire hazards, so, when insurance people tell us we'll have a safe building, it must really be so," said Ruben Taylor.

Also, being concrete exterior, the building won't rust, or rot, and there will be very little maintenance. Then, too, the structure should be quite a bit stouter than the average building, and therefore able to stand more wind pressure.

"The recent wind storms haven't fazed the building, and it isn't even anchored yet," said L. D. Taylor.

Concrete work for the new building is being done by Lewellen Brothers. Construction by tilt-up concrete isn't new, according to Delton Lewellen. "In fact, it goes back as far as 1906," he says.

But the Taylor building is the first to be constructed in Par-

mer County by this method. The tilt-up process makes for more labor, although less material is required.

The concrete slabs are ten and a half feet high, four inches thick, and vary in width, although 11 feet is the average. Each slab weighs in the neighborhood of 5,000 pounds.

Two three-quarter inch steel rods reinforce each slab, running lengthwise through the con-

crete, and will tie onto the roof, which will be of steel. There is also a three-eighths inch steel bar every foot square.

The roof, then, will be a rather solid part of the building too. As someone remarked, the only way the roof could ever blow off would be for it to take the whole building along.

Being in the welding business, the Taylors are doing a lot of the work themselves, which will

CHECKING ANGLES . . . Delton Lewellen, center, checks a portion of wall at building he is constructing of pre-fabricated concrete for Taylor and Sons. On the left is Ruben Taylor, and L. D. Taylor is at right.

be another moneysaver on the construction of their new plant.

The new building will have about 5,500 square feet of space, which will be more than three times the space of the old Taylor shop.

The Taylors plan to tear the old building down when the new one is completed, and (carrying out the concrete theme all the way) will construct a concrete parking area in its place.

Taylor and Sons have been in the blacksmith trade in Friona since 1945.

UP SHE GOES . . . A section of the wall at Taylor and Sons new blacksmith shop is hoisted in place and about to be anchored.

ANOTHER SECTION . . . A concrete section of wall is moved to its proper position, and will be set in place, anchored with concrete and steel.

When you have heard two eyewitnesses relate the details of the same automobile accident you commence to worry some about history.

Teacher: "Johnnie, did you want to leave the room?"  
Johnnie: "Say, teacher, you don't think I'm standing here hitch-hiking, do yuh?"

**Visitor Honored In Loflin Home**

Marion Hysell of Fresno, Calif., a brother whom Mrs. J. A. Loflin had not seen in ten years, was guest of honor at a family dinner in the Loflin home Father's Day.

Others present included Mr. and Mrs. C. F. Loflin, J. A. Loflin and Larry, Mr. and Mrs. Sam Jones, Mr. and Mrs. Alvin Askins, Mr. and Mrs. Jerry Loflin.

Also Mrs. Eldon McCormick, Eldon and Kirk, Bovina, Delbert Ensminger, Hereford; Mrs. Juan Eskew and Gary, Pleasant Hill, New Mex.; Mr. and Mrs. Don Marler, Jan and Joanie, Hereford; Mr. and Mrs. Eddie Meil, Jill and Bart, Stinnett.

Also Mr. and Mrs. Hugh Randall, Ken and Shellie, Oklahoma City; Russell Loflin and Mrs. Blain McVickers and Davey, Springfield, Colo.; Mrs. Don Krein, Donell and Kristie, Walsh, Colo.; and Mrs. Marlon Hysell and Sheila, Fresno, Calif.

The afternoon was spent visiting and playing games.

**Judy Taylor Honored With Bridal Shower**

A bridal shower in the educational building of First Baptist Church Saturday afternoon was a courtesy for Judy Taylor, who will become the bride of Dennis J. Bennett Sunday, July 7.

Hostesses were Mesdames Leonard Coffey, Earl Drake, John D. Sanders, Ray White, James B. Collier, Dalton Caffey, W. D. Buske, Paul Daniel, Wallace Rogers, Ray E. Castleberry, Ross Terry, Lloyd Prewett and A. L. Black.

The serving table was centered with a bridal arrangement of white glads, yellow mums and yellow and white Shasta daisies interspersed with greenery and white satin bows and topped with a white lace umbrella with yellow satin ribbon streamers. Punch and cookies were served.

Those attending and sending gifts were Mesdames Martell LeVeque, Tommie Parker, Claude Osborn, James Procter, John Burrow, Wesley Foster, John Luther Shelton, Alvin

Glasscock, Curtis Murphree and Louis Baxter.

Also Mesdames Weldon Stringer, L. W. Loanman, Fay Reeve, Bill Baxter, C. W. Dixon, Mae Magness, J. P. Sims, Ralph Shelton, O. J. Latham, Ralph Smith, George Brock, Leon Hart, Milburn Bennett, Jim McLean, Hank Outland, Raymond Fleming, Don Reeve, Darlene Ivy, Dean Bingham, Dean Awtrey and Marion Fite.

Also Mesdames J. E. Knight, Jim Greeson, Jim Maynard, J. C. Claborn, Walter Cunningham, C. W. Tannahill, Hop Lewis, E. H. Lewis, Dan Lewis, Sam Williams, Charles Bainum, Dan Lacowell, L. B. McClain, Spencer Hough, Jack Moseley, Charles Allen, T. I. Burleson, Wesley Hardesty, Wayne Stark and Roy Clements.

Also Mesdames John Bingham, Mildred Chandler, Bill Kent, Truett Pool, Fred Dennis, Carl Maurer, Frank Truitt, Wright Williams, A. W. Wood, Ernest Osborn, Charles Russell, Ray Landrum, J. L. Ray, Herbert Day, Roy Slagle, Lynn Don Hughes, Virgil Jordan, Bee Westbrook, Bert Shackelford, Oscar Baxter, Cayson Jones, O. B. Moyer, E. E. Taylor, Glenn Taylor and Clayton Taylor.

Also Mesdames T. A. Williams, Bill Satche, Dorothy Hough, Charles Myers, Charles Bass, Jerry Rogers, John Wright, Jarrell Wright, Eugene Ellis, Bill Burton, Ralph Foden, Clyde Hays, Gerald Daniel, K. E. Deaton, Calvin Talley, Charlie Turner, Lee Renner, Elroy Wilson, Joe Douglas and Mike Ellis.

Also Mesdames Loyde Brewer, A. H. Boatman, John Bengner, Orval Blake, Lawrence Black, L. B. Blake, I. V. Day, D. C. Herring, Joe Talley, Bill Sheehan, Bud Milligan, Ed Duke, W. J. LaFavers, Jerry Loflin, Clyde Weatherly and W. S. Crow.

Also Mesdames Lucy Stokes, Claude Blackburn, Meryle Massie, L. A. Winnington, Arthur Stokes, Glen Williams, U. S. Akens, Mack Bainum, Dean Blackburn, Glenn Stovick, Doyce Barnett, George Treider, Lloyd Mingus, Cordie Potts and N. E. Wood.

Also Mesdames O. L. Rankin, Estis Bass, J. R. Braxton, A. W. Anthony Jr., C. A. Myers Sr., Bill Hannold, G. B. Buske, Scott Weir, Kenneth Watkins, Arthur Drake, George Taylor, James Buckley, Danny Smith, Bill Flippin, L. R. Dilger, Kenyth Cass and B. E. Sanders. Also Jo Phillips, LaVoyce Burrow, Sharon Reeve, JoLynda Stokes, Donna Blackburn, Ann Prewett, Linda Castleberry and Pat Foster.

**Sally Hough Graduates From Nursing School**

Sally Hough, daughter of Mrs. Dorothy Hough of Friona and a 1960 graduate of Friona High School, was one of fifteen women who received diplomas during graduation exercises for the senior class at Northwest Texas Hospital School of Nursing in Amarillo recently.

Ceremonies were held at First Presbyterian Church. Class members were presented by Mrs. Eunice King, director of the school of nursing. Diplomas were presented by J. Leo Southern, chairman of the board of managers.

Miss Hough is employed by Northwest Texas Hospital.

SALLY HOUGH

**Mrs. Dwight O'Brian Honored With Shower**

A bridal shower in the home of Mrs. Herschel Johnson recently was a courtesy for Mrs. Dwight O'Brian, who was Miss

Gayle White before her marriage.

Other hostesses were Mesdames H. C. Wells, Giles Cobb, M. B. Buchanan, Bill Buchanan, Ellis Tatum and Cordie Potts. Refreshments of cookies and punch were served from a table covered with a white cloth and centered with a floral arrangement.

About forty persons signed the guest register.

**J.T. Gees Host Faith Class Party**

Mr. and Mrs. J. T. Gee were hosts at a party for the Faith Sunday School class of Friona Methodist Church in their home Thursday evening. Following a game session refreshments of home made ice cream and cookies were served.

Those attending were Adelle Smith, Don Clements and Messrs. and Mesdames J. W. Baxter II, Loyd Chesher, Mike Ellis, Fannie Castleberry, Robbie Osborn, Weldon Fairchild, Jerry Brown, Wesley Barnett, Jerry Loflin, Jerry London and the host couple.

**Jimette McLean Youth Director**

Miss Jimette McLean, daughter of Mr. and Mrs. Jim McLean of Friona, has accepted a position as youth director of Hart Methodist Church during the summer months. She began her duties June 1 and will return to McMurry College at Abilene for the fall semester.

Jimette is a 1962 graduate of Friona High School and will be a sophomore at McMurry this fall. She is a religious education major.

**Linda Gay Gibson Weds Carl Osborn**

In a formal ceremony at Friona Methodist Church at 2 p.m. Saturday, June 8 Linda Gay Gibson, daughter of Mr. and Mrs. Tom Gibson, became the bride of Carl Osborn, son of Mr. and Mrs. Forrest Osborn.

Rev. Russell McAnally, pastor, read the double ring ceremony before an arrangement of greenery flanked by baskets of white glads.

Mrs. Hank Outland, soloist, presented "Whither Thou Goest," and "Dearly Beloved." She was accompanied by Karen Osborn at the piano.

Carol Scales was maid of honor, Teddy Osborn served as his brother's best man.

The bride, given in marriage by her father, wore a white dress of lace over net and satin. The fitted bodice was embroidered with sequins and seed pearls. Rosettes of lace enhanced the back. She wore matching mitts and a corsage of carnation florettes centered with an orchid and surrounded with white satin ribbon.

The serving table for the reception in Fellowship Hall

was covered with a white cloth and centered with a floral arrangement. Mrs. Vern Nazworth, Amarillo, sister of the bride, and Sally Wilkerson, Girls Town, sister of the groom, served cake and punch.

Guests were registered by Mrs. Thomas G. Gibson, sister-in-law of the bride.

After a wedding trip Mr. and Mrs. Osborn are at home in Friona. He is employed by Parmer County Farm Supply.

Mr. and Mrs. Don Campbell and children, Jeannie and Kenneth, have been recent visitors in the homes of Mrs. Campbell's grandmother, Mrs. J. B. McFarland, and other relatives and friends. Mrs. Campbell is the former Yvonne McFarland. The family lives at Westerville, Ohio.

**WHO AM I?**

- I'm a Poly-Vinyl plastic roof coating.
- I'm a Texan, I'm 9 years old and may look short to ya'll, but Man! I'm long on service and protection.
- I'm made — sold — applied by Texans.
- I'm FHA approved in the Dallas - Ft. Worth area and will be approved here soon. Also approved by the public housing administration for a five state area.
- I've been tested and recommended by the Southwestern Laboratories in Ft. Worth from 5 degrees to 140 degrees.
- I came to Amarillo last August and cover over 100 Amarillo roofs — ask the man who has me.
- MY DUTIES—I lock on gravel—I seal roofs against leaks—I reflect 80% of the sun's rays, reduce attic temperatures 20%, lower cooling cost 50%.
- I am white or pastel colors, I have asbestos fibers and am fire retardant.
- No need to tear off your old roof or add a new roof—Just spray with Sno Man at a cost of much less than new roofs.
- I can be applied over and over if hail damage occurs without much added weight on your roof. In fact, only 18 pounds per square 100 ft.
- I can be applied to any roof or wall surface, tar, asphalt, masonry, shingles, wood, metal, tile, gravel, asbestos shingles, concrete block, brick or stucco.
- I am guaranteed to your satisfaction. My applicator is bonded and insured.
- I'm made by C. H. Drager Co., Dallas, Texas.
- I'll be happy to give free estimates.
- I'm sold by the Sno-Man Co., 3319 West 6th, DR 4-8089, Amarillo, Texas.
- I'm applied by C. G. Cheadle, DR 4-8089, 3513 West 8th, Amarillo, Texas.

Bye,  
**SNO MAN**

**20 MULE TEAM BIND WEED KILLERS DO MUCH MORE FOR A LOT LESS**

**NEW LIQUID TRITAC-D\***

Is your lowest cost weed killer for noxious perennial weeds such as: field bindweed, Canada thistle, leafy spurge, bur ragweed, Russian knapweed, etc. Why? Because only 4 to 8 gallons will effectively treat an entire acre of non-cropped land. TRITAC-D contains the added weed killing ingredient 2, 4-D, thus offering you triple killing action: 1. effective deep-root destruction, 2. quick foliage top kill, 3. prevents seeds from developing. TRITAC-D is nonselective, yet safe to handle for easy spray application. Available in 1, 5 and 30 gallon containers.

**DRY GRANULAR BENZABOR\***

Is the most effective, nonselective weed killer to use where spray equipment or water are not available. Or where accuracy of rate of application is essential on small scattered patches of these same noxious weeds. Reason: You apply BENZABOR in its dry granular form—straight from sack to soil. The handy PCB Spreader lets you treat up to 1/4 of an acre of non-cropped land in 10 minutes. It also controls a wide range of woody vines and shrubs. And it is non-poisonous, noncorrosive and nonflammable when used as directed.

### Hardestys Have Visitors

Visitors in the home of Mr. and Mrs. Wesley Hardesty Sunday were Mr. and Mrs. Gene Johnson, Dawna Kay and Carl Lee of Amarillo; Mr. and Mrs. James Smith and Anita, Fluvanna; Mr. and Mrs. Charles Hough and Doris Ann and Mr. and Mrs. Leon Coffey, Roger and Janice Lee, all of Friona.

Jana Sue Robertson, Grand Prairie is spending the summer in the Hardesty home and Carl Lee Johnson stayed for a visit.

Mr. and Mrs. Manfred Wham of Marlow, Okla. were weekend visitors in the homes of Mr. and Mrs. Aubrey Rhodes and Miss Viola Leonard.

The U. S. natural gas industry has a capital investment of \$1 billion in "empty" space. This is far from an empty investment, however. The "empty" space involved consists of the underground storage areas in which natural gas is "banked" for use in periods of peak demand.

### Hadley Family Has Annual Get Together

Seventy six members of the F. H. Hadley family met at the Hub Community Center Sunday for the annual Hadley reunion. Guest of honor was F. H. Hadley, who observed his 94th birthday in October.

Those attending from out-of-town were Mr. and Mrs. C. B. Hanson and Pam, Athen; Mr. and Mrs. Raymond Hadley and granddaughter and Mr. and Mrs. Ray White and children, Amarillo; Mr. and Mrs. Aubrey Cannon and sons, Lubbock; Mr. and Mrs. Johnny Hadley and children, Mr. and Mrs. Richard Hadley and Mrs. J. H. Lee, Borger.

Also Mr. and Mrs. Bill Hadley and children and Mr. and Mrs. Donald Hadley and Teri Lynn, Stinnett; Mr. and Mrs. L. D. Cannon and Mrs. Mavis Gaddy and Donny, Muleshoe; and Mr. and Mrs. Windle Sikes and Ralph of Bovina.

Local residents present were Mr. and Mrs. A. H. Hadley, Mr. and Mrs. Gib Trigg, Carl Hadley, Mr. and Mrs. Albert Cannon and children, Mr. and

Mrs. James Pope and children, Mr. and Mrs. Alfred Beavers, Mr. and Mrs. Harold Bails and Jeanette.

Also Mr. and Mrs. Donn Tims and sons, Mr. and Mrs. Roy Lee Hadley and daughters; and Mr. and Mrs. Leo Bails and children.

### Surprise Party In Westbrook Home

A surprise housewarming Tuesday morning honored Mrs. Bee Westbrook in her new home in the Drake addition. After the gift presentation refreshments of coffee, punch and cookies were served.

Those attending were Mesdames Lucy Lewis, Mary Bell Westbrook and Diane, Mary Franks, Porter Johnson, Patsy Talley, Katharine Parr, Inez Sherley, Laverna Brock, Ruth Busby, E. H. Lewis, Camille Laceywell, W. E. Smith, Corda Battey, Annis Turner, T. E. Wood, Lois Dennis and Noyle Wood.

### Friona Group Attends Annual Church Camp

The annual camp sponsored by area United Pentecostal churches was held last week in

Births registered with Justice of the Peace Walter Lovelless in Friona include the following:

June 9 -- John Timothy Kelley, eight pound son of Mr. and Mrs. Homer Glenn Kelly, Texico, N.M.  
 June 12 -- Dave Dawkins, Jr., five pound, 14 ounce son of Mr. and Mrs. Dave Dawkins, Bovina.  
 June 12 -- Michael Kent Finch, eight pound, 10 ounce son of Mr. and Mrs. Harold Woodrow Finch, Jr., Hereford.

Amarillo. Barbara Baber, Karen Hughes and Patsy Rule attended the week long session.

Others from Friona who attend sessions were Rev. and Mrs. Frank Baber, Mr. and Mrs. Dan Hunt, Mrs. Elaine Massey, Mrs. Joe Johnson, Mrs. P. W. Hughes, Mrs. Sam Rule, Richard Perkins and Marcela Massey.

### H.D. Club Meets In Lust Home

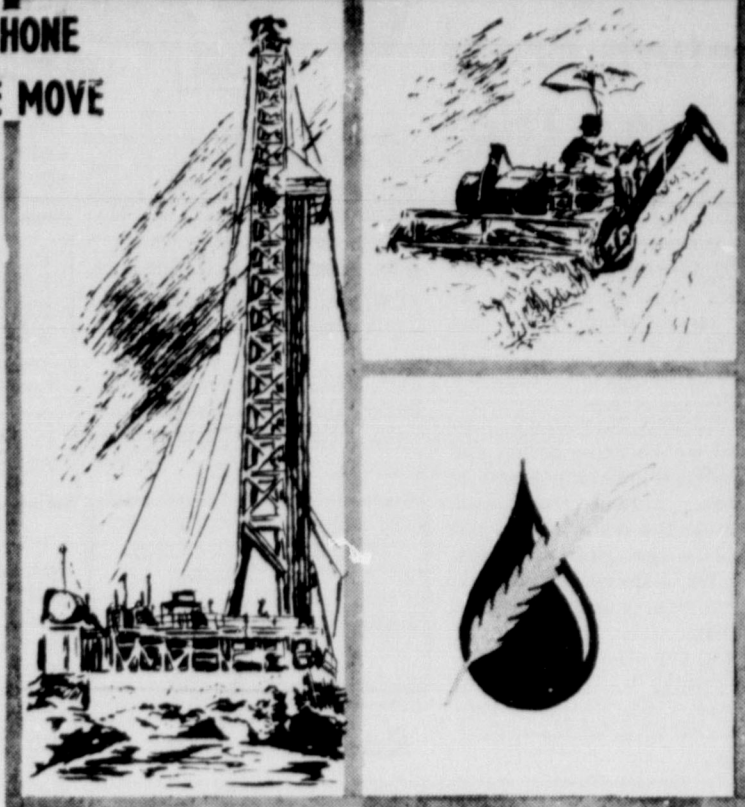

The Lazbuddie Home Demonstration Club met Thursday afternoon in the home of Mrs. Glenn Lust. Ten members were present. Mrs. Demp Foster directed the program on weight control and figure improvement.

Title of the program was "Project You." Group exercises were directed by Mrs. C. A. Weir following the record "Harper's Bazaar's secret formula for a beautiful new you." Next meeting of the organization will be June 27 in the home of Mrs. Everett McBroome. The program will be on cake decorating.

Mr. and Mrs. Charles Kirk of Lubbock, former Friona residents, were weekend visitors in the homes of Mrs. Kirk's parents, Mr. and Mrs. Lester Dean, and other relatives.

Visitors in the home of Mr. and Mrs. Sloan H. Osborn this week are three of their grandchildren, Burt, Bill and Shelly Osborn. Parents of the children, Dr. and Mrs. Charles Osborn, are moving from Houston to Fort Worth.

### GENERAL TELEPHONE TOWNS ON THE MOVE

### How Community Spirit Built Perryton

Population figures more than double 30 new industries added all since 1950! That is the miraculous record of Perryton in the Texas Panhandle wheat growing area.

When oil was discovered in the early 50's, an aggressive, long-range program was launched by the Chamber of Commerce. An 84-acre industrial tract was secured and plotted; its streets were paved and a railroad spur was built.

So successful was this community development that today a second industrial tract has been acquired and plot-

ted Perryton, former population 4417, is now known as The Oil Center of the Anadarko Basin, with 9400 citizens. It is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

**Something To Think About**  
6th. Street Church of Christ  
Box 515 -- Friona, Texas

SO YOU ARE SATISFIED!  
The New Testament enjoins a responsibility upon every Christian to meet together. The Hebrew Christians, perhaps because of fear, or maybe indifference were neglecting this important matter and thus the writer of the Hebrew Letter pointedly warned them. "We ought to see how each of us may best arouse others to love and active goodness, not staying away from our meetings, as some do, but rather encouraging one another, all the more because you see the Day drawing near." (New English Translation) There is not an item of worship that one cannot do alone at home, or in the field, or somewhere else. But God's plan calls for Christians to come together to worship. Even though a Christian can sing at home, he can pray at home, he can commune with Christ at home, he can study the Scriptures at home, he can give some of his earned salary at home he still has failed to fulfill the demand that he come together with other Christians. There is a powerful importance attached to the assembly of Christians. So much so that we dare not forsake it else we incur the wrath of God upon us. Read Hebrews 10:26-27.

**come to church sunday**

There are many times in life when a person becomes discouraged and down-hearted, illness, financial reversal, misunderstandings, failures, and many other reasons cause this feeling of downcast. In Japan there are many suicides, and they perhaps hold the record for the most suicides of any nation. Many of these come in the ages of between 17 - 25. What is the cause of this critical despair, what is the solution? When an individual is self-reliant and self-dependant and feels no need for a power greater than himself, he is all right until things begin to collapse around him. And adversity will come to all of us. Now when this happens, to whom may he turn? He knows of no source of help, he finds himself in a completely frustrating and despairing state. Some say, "What advantage is there in becoming a Christian? Christians suffer and have troubles just like others." True, but a person who believes in God and puts their trust in Him has a source of strength and help and comfort which the unbeliever does not know. A Christian will say, "I believe God is in control, and that these things happen for a purpose, and that His will is best for me and I will seek to fit into God's will whatever it is." The scripture says, "For we know that all things work together for good to them that love the Lord, to them who are called according to His purpose." Rom. 8:28 . Don't try to "go it alone," put your trust in the Lord and He will lift you up.

# Leaders Clash Friday In Irrigation League

The leaders in the Irrigation Baseball League, Silverton and Friona, will clash at 8 p.m. Friday at Reeve Field in Friona.

It will be the third meeting between the two teams. The first meeting of the teams this year found Silverton winning, 2-0.

Friona evened the score on Memorial day, winning, 4-2. Silverton leads the league with an 8-1 record, followed

closely by Friona with a 9-2 mark. Friona has been victorious in its last six games, including a forfeit win over Muleshoe on June 9.

In the team's last two outings, Friona beat Umberger, 9-3, and shut out Nazareth on the four-hit pitching of Darrell Read, 4-0.

Read was one of the hitting stars in the win at Umberger. He collected three hits, including two doubles and a home run,

driving in three runs. His homer with a man on in the third gave Friona a 4-0 lead at the time.

In the sixth inning, Friona erupted for four more runs, on a home run by Jimmy Collier, a single by David Patterson, singles by Gary Fenner and S. D. Baize, and two bases on balls.

Friona scored all of its runs in the fourth inning against Nazareth, as Read didn't allow a runner past second base. In the fourth, Baize singled, Read tripled him home, three walks forced in another run, and Gary Snead's single plated two more.

Friona will be at home again Sunday, hosting Tulla, which is the only other team to hold a win over Friona this year.

## LITTLE LEAGUE

### Drillers Maintain League Leadership

Brookfield Drilling and Friona Drilling remained unbeaten in the Intermediate League baseball race during the past week, and are tied with 3-0 records.

Friona Drilling plastered Star-Hurst, 21-1 in a game called after four innings by the 10-run rule. Don Fortenberry was the winning pitcher, and Bobby Darty was the loser.

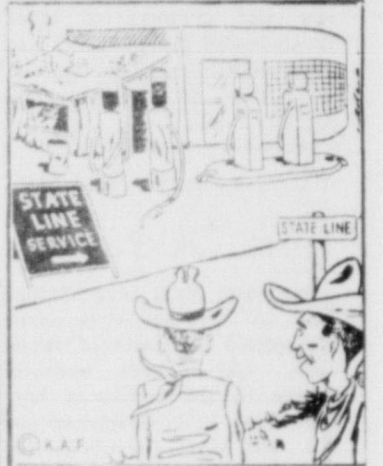

The Drillers scored 13 runs in the third inning. Hurst's only run came in the third inning on a double by Danny Kendrick and Darty's single.

Brookfield shut out Reeve Chevrolet, 7-0, as Jim Peace pitched a two-hitter, striking out eight.

Last Thursday in the Intermediate League, McCaslin Lumber downed Friona State Bank in a slugfest, 14-13. Billy Ross Procter was the winning pitcher, and Randall Schwab took the loss.

Farmer County Implement won its first game in Pony League play Saturday, beating Chester-Fleming, 11-4. The winners scored four runs in the third and fifth innings. Lenton Noyes was the winning hurler, and Bobby Jordan the loser.

In a Pee-Wee League make-up game Tuesday, the BJ Bees won their second game without a loss, 11-2 over Bainum Butane. Gary Pope pitched the win, and Richard Shirley hurled for Bainum.

# Herbicide Hearing Scheduled Monday

A public hearing will be held Monday at 2 p.m. in the county courtroom in Farwell, to determine whether or not the Farmer County Commissioner's Court should repeal the "Herbicide law" for Farmer County.

The law, which was enacted in 1956, makes it mandatory that a permit be obtained for the use of herbicides, and that the user be liable for any damage which might occur.

In the case of commercial aviation sprayers, a bond must be posted naming the sprayer liable for any crop damage due to herbicide drift.

Several persons feel that the law is a hindrance to county farmers due to crop conditions this year, according to officials.

Persistent rain such as the county has experienced the past several weeks have left many fields infested with weeds, but the farmers are unable to cultivate the crops due to wetness of the fields.

Some feel as though the herbicide law is hurting farmers this year, since it is prohibitive for aerial sprayers to use herbicides, and with the field conditions, they could be a life-saver, as far as weeds are concerned.

The law was originally enacted to protect cotton farmers and growers of other broad-leaved plants, which had experienced some damage due to drifting of herbicides, especially 2-4-D.

Many people contend that better herbicides are now on the market, which do not drift as 2-4-D does. Some say the new chemicals make the law obsolete.

County Judge Loyde Brewer poses a question for farmers and commercial sprayers: "Is there still a necessity for the law? Is the public sentiment for it or against it? We'd like to know."

## In The Courts

### JP COURT

Cases tried before Judge Walter Loveless in Friona's Justice of the Peace court for the period ending June 18 include the following:

William Hugh Curtis, speeding, 80 miles per hour in a 60 mph zone.

Leonard Eugene Pope, speeding, 75 miles per hour in a 60 mph zone.

Roy Evan Eastep, failed to yield right of way.

Lira Martinez, speeding, 80 miles per hour in a 60 mph zone.

Arthur Charles Splawn, speeding, 80 miles per hour in a 60 mph zone.

Bennett Thomas Smith, no valid inspection sticker.

Robert L. Jackson, unsafe speed.

### CORPORATION COURT

The following cases were tried in Corporation Court before Judge Theima Jones for the period ending June 18:

James R. Fortenberry, improper left turn.

Michael Wilson, driving in a manner and rate of speed likely to endanger lives and property.

Julia Vasquez, no valid driver's license.

Mary Vivian Haines, no driver's license in possession.

Gertrude S. Murphree, double parked on Main Street.

William Douglas Gaines, failure to yield right-of-way.

Henry Gilbert, no driver's license.

Juan Lira Ramos, muffler violation.

Carl P. Fairchild, failure to yield right-of-way.

Ruben Herrera, disturbing the peace.

## Weekend Guests From Oklahoma

Mr. and Mrs. Jess Springfield and Mr. and Mrs. Larry Springfield and Walter of Maysville, Okla., were weekend guests in the homes of Mr. and Mrs. E.E. Sparkman and Mr. and Mrs. Robert Collier and children.

Sunday the Sparkmans, Colliers and Springfields were dinner guests in the home of Mr. and Mrs. James R. Cook, Sharon and Wendell at Amarillo. Other family members present included Mr. and Mrs. Troy Kemp, Sandra and Cregg and Mr. and Mrs. Eldon Sparkman and Ray, all of Lubbock.

MRS. DON CLEMENTS

## Of Interest To THE WOMEN

### Adelle Smith Becomes Bride Of Don Clements

In a candlelight service at First Methodist Church at 7 p.m. Saturday, June 15, Miss Adelle Smith, daughter of Mr. and Mrs. Hoyt Smith, became the bride of Don Clements, son of Mr. and Mrs. Roy Clements. Rev. Hugh Blaylock, pastor of First Methodist Church at Dimmitt, read the double ring ceremony before an arch of greenery interspersed with white glads flanked by five candelabra on either side holding white tapers. A kneeling bench of satin and white aisle cloth completed the setting. Pew decorations were white satin bows centered with glad-toll.

Wedding selections including "I'll Walk Beside You," "Always," "Till," "O Promise Me," "Evening Star," "Traumert," "Oh, Perfect Love," and "Indian Love Call," were presented by Mrs. Danny Smith, sister-in-law of the bride, pianist, and Miss Pat Foster, organist.

Gerald Daniel, Amarillo, sang "One Hand, One Heart," and "The Wedding Prayer." He was accompanied by Pat Foster at the organ.

Miss Dorothy Stanfield, Dallas, was maid of honor. Bridesmaids were Judy and Janet Smith, cousins of the bride, and Suzanne Taylor, cousin of the groom. Linda Smith, sister of the bride, was the junior bridesmaid.

Bridal attendants wore dresses of pale pink embossed cotton. Their scalloped tulle veils were attached to matching pill box hats edged with seed pearls. Their nosegays were of pink roses surrounded by white glad florets

and tied with white satin streamers.

Guests were registered by Mrs. Jim Roy Clements, sister-in-law of the groom, and Mrs. Gary Brooks.

Jim Roy Clements, brother of the groom, was the best man. Groomsmen were Danny Smith, brother of the bride, Robbie Osborn, cousin of the groom, and Ronnie Wood, Mike Smith, another brother of the bride, served as junior groomsmen.

Ushers were Mike Dexter, Houston, Jerry Comanche, and Max Rowe, Oklahoma City. Candelighters were Mike Dexter and Jerry Soper, Max Rowe and Jerry Soper drew the aisle cloth.

Given in marriage by her father, the bride wore an original gown of candlelight silk peau de sole, combined with imported re-embroidered Alecon lace. The empire designed bodice of lace created a wide scalloped edged decollete neckline.

Dainty seed pearls and crystal beads decorated the bodice and elbow length sleeves. The bell shaped skirt was enhanced by a watteru panel with a hand made silk rose and extended into a sweeping cotillion train.

Her elbow length veil of imported silk illusion fell in tiers from a tiny pill box fashioned of pure silk peau de sole and re-embroidered lace sprinkled with seed pearls.

Her bridal bouquet was a cascade arrangement of roses, and stephanotis centered with an orchid carried atop a white Bible. Her only jewelry was a single strand of pearls, a gift from the groom.

A reception in Fellowship Hall followed the ceremony. Presiding at the table, which was appointed with crystal and silver were Mrs. Jerry Brown and Mrs. Ronnie Castleberry. Others in the houseparty were Mesdames Ernest Anthony, Jean Anthony, Lewis Smith, Ralph Smith, C. L. Vestal, Herschel Johnson, Bill Bailey, Mack Bainum and Miss Kay Johnson.

For a wedding trip to New Mexico Mrs. Clements wore an egg shell silk shantung suit with matching accessories and the orchid corsage from her bridal bouquet.

Mr. and Mrs. Clements are 1960 graduates of Friona High School. She is a spring graduate of North Texas State University at Denton, where she was a member of Delta Gamma Sorority.

He is attending Texas A & M University at College Station and will continue his studies there this fall. The couple will be at home in Friona during the summer.

Out-of-town guests signing the guest register were: E. W. Rogers, Amarillo, maternal grandfather of the bride, Mr. and Mrs. R. W. Stratford, Amarillo, Mr. and Mrs. O. T. Stanfield, Dallas, Mr. and Mrs. R. H. McFarland and family, Tucumcari, N. Mex., Mr. and Mrs. George Clements, Emory, Texas, paternal grandparents of the groom, Mr. and Mrs.

Mr. and Mrs. Ed Boggess were honored by their children with a reception in observation of their Golden Wedding Anniversary Tuesday evening in their home. Pictured with the

honored couple are their children, Mrs. G. E. Reed, Mrs. Walter R. Riethmayer, Mrs. Irene Sheets, Eugene Boggess and Mrs. Truett Johnson.

### Lazbuddie FHA Girls Attend Training Camp

Members of the Lazbuddie FHA chapter and their sponsor attended the South Plains Officers Training Camp held on Tech campus in Lubbock June 5 and 6. Those making the trip were Marianna Gammon, Marcella Mayfield, Pat Chitwood, Gayla Seaton, Bobby Jo Jones, Linda Monk, Katie Blackstone, Charlotte Seaton and Mrs. Charley Walton, chapter advisor.

Election of officers for the coming year was first on the program. Gayla Seaton was a candidate for the office of treasurer and Pat Chitwood was

a candidate for recording secretary.

Highlight of the meeting was a talent show. Several chapters presented skits or devotionals. The Lazbuddie chapter presented a skit entitled, "What Happens at the Movie Theater Besides the Movie," which was a comedy presentation.

Sectional meetings for each office of the chapter were conducted and ideas were exchanged on different phases of FHA activities.

Approximately 200 girls and sponsors attended the camp.

### Local Couple Honored With Anniversary Reception

Mr. and Mrs. Ed Boggess, who observed their Golden Wedding anniversary Tuesday, June 11, were honored with a reception in their home at 701 Prospect from 8 to 10:30 p.m. Children of the couple were hosts. They are Mrs. G. E. Reed, Mrs. Irene Sheets, Menlo Park, Calif., Eugene Boggess, Mrs. Walter Riethmayer and Mrs. Truett Johnson.

Ed Boggess and Bessie Franklin were married June 11, 1913 in Woodward Oklahoma by Judge Ross Dockerty. The couple moved from Woodward County, Oklahoma to Parmer County in September 1928. A three tiered white colonnade cake with yellow roses and lace scrolls edged in gold and topped with a bride and groom standing before a wedding arch centered the serving table, which was covered with a white net cloth over satin.

Other table decorations included golden wedding bells and rings and miniature Bibles on gold colored ribbon and a white floral arrangement with gold decorations. A crystal punch bowl and silver service

completed the table setting. Favors were miniature wedding bells and wedding rings.

Members of the houseparty, besides children and grandchildren of the couple, were Mrs. Leo Haught, Mrs. Violet Lamm and Mr. and Mrs. Charley Shryock, all of Woodward, Okla., sisters and brother-in-law of Mrs. Boggess.

Approximately 200 persons signed the guest register. Out of town guests were Mr. and Mrs. Gene Watson and family, Perryton; Mr. and Mrs. Ralph Reed, Tatum, New Mexico; Andrew Moorman, Mr. and Mrs. Arthur Moorman and Mr. and Mrs. Dick Martin, Clovis.

### Bridal Shower Fetes Mrs. Carl Osborn

Mrs. Carl Osborn, who was Linda Gibson before her recent marriage, was guest of honor at a bridal shower at Fellowship Hall of Friona Methodist Church Friday morning.

Hostesses were Carol and Shirley Scales and Mesdames Kenyth Cass, Arthur Drake, Ralph Shelton, A. W. Anthony, Dorothy Hough, Estis Bass, Doyle Cummings, Hazel Kendrick, H. R. Cocanougher, Ed White, Clyde Weatherly, Fred Dennis, C. B. Eddins Jr. and I. V. Day.

A yellow floral arrangement centered the serving table from which punch and cookies were served. Crystal and silver appointments were used.

Those attending and sending gifts were Mesdames Hank Outland, Wallace Young, A. A. Crow, Charles Doak, Roy Slagle, R. W. P. Rr, Charles Rauh, Frank Osborn, Loyde Brewer, Gary Goetz, Thomas Lewellen, George Jones, Boyde Jones, Mack Bainum, Henry White, Fay Reeve and J. T. Gee.

Also Mesdames Ernest Anthony, J. K. Anthony, J. L. Shaffer, Thomas G. Gibson, Howard Ford, Jerry Brown, Russell McAnally, Joe Lewellen, Delton Lewellen, A. W. Anthony Jr., W. B. Norwood, Guy Latta, J. H. Boyle, Oscar Baxter, Dick Rockey, Will Osborn, James McLean and Otis Massey.

Also Mesdames Jack Moseley, Raymond Jones, W. S. Ingram, Claude Osborn, David Moseley, L. B. McClain, Dan Ethridge, D. C. Herring, C. W. Wright Sam Williams, J. B. McFarland, Frank A. Spring, Billie Johnson, Lillian Clark, Sloan Osborn, Bill Sheeham, Roy Clements and Jack Anderson.

Also Mesdames R. B. Walden, Allen Stewart, Scott Weir, Olaf Rankin, David Bender, Meryle Massie, Paul Spring,

Also Mr. and Mrs. Otto Riethmayer, Lamesa; Mr. and Mrs. M. B. McKinney, Dimmitt; Mrs. Vivian Major, Mrs. Joun H. Patton, Mrs. Myrtle Witherspoon, Mrs. Juanita Heggshy, Mrs. W. C. Hromas and Mrs. O. H. Culpepper all of Hereford.

### Rehearsal Dinner Honors Couple

Linda Gibson and Carl Osborn were guests of honor at a rehearsal supper recently in the home of Mr. and Mrs. Tom Lewellen. Other host couples were Messers and Mesdames Delton Lewellen, Joe Lewellen, Gary Goetz and T. A. Kelley.

The table was covered with a yellow cloth and centered with a floral arrangement of white pom pom mums interspersed with yellow baby breath and topped with a miniature bride and groom. Place cards were whimsical bridal couples.

Present, besides the honored couple and host couples, were Mr. and Mrs. Tom Gibson, Mr. and Mrs. Henry Outland, Mr. and Mrs. W. D. Skipworth, Mr. and Mrs. Henry White, Mr. and Mrs. Forrest Osborn and Mrs. Russell McAnally.

Also Karen Osborn, Sarah Fallwell, Jimmy Skipworth, Sally Wilkerson, Kenneth Ford and Teddy Osborn.

Mr. and Mrs. Jerry Maynard and children of Stratford were weekend visitors in the home of Mr. and Mrs. Jim Maynard. The Jerry Maynards are former Friona residents.

COUNTY HIT HARD

# Weather Taking Toll On County's Crop Prospects

The freakish weather which has plagued area farmers the past couple of months is expected to take quite a toll on Farmer County's farm income for 1963.

Row crop farmers have been planting and re-planting since May and before, and some still do not have a stand of cotton or grain sorghum.

The rain and hail also is hampering wheat harvest, which will be the lightest in the county for the past several years.

County Agent Deryl Coker said this week he would estimate that 25 to 30 per cent of the county's wheat was lost to recent hail damage. In addition, he said that from 15 to 20 per cent of the normal harvest was lost due to the hard freezes last winter.

If Coker's estimates hold true, up to 50 per cent of the normal wheat harvest may be lost this year.

On Monday of this week, Coker said that he would guess that at least one-third of the county's 50,000 allotted acres of cotton would not be planted to cotton, due to hail, flooding and blowing and the lateness of the season.

"This estimate may be low, due to recent rain -- we may lose up to half of our cotton acres this year," Coker said. Some farmers are planting cotton acreage with soybeans, castor beans and other oil-seed crops.

Grain sorghum, due to its later planting possibilities, is in a little better shape than cotton, for the most part.

But, as the county agent reminded, it is getting late for any crop to be planted.

Adjusters from Lubbock representing the Federal Crop Insurance Corporation reported Farmer County has experienced severe crop damage the past three weeks.

"Farmer County has been hit

harder than any other county on the plains," said Ben A. Jordan, state Crop Insurance Director. Jordan pointed out that 327 farmers in Farmer County are carrying \$1,625,000 in crop insurance through FCIC. This was the first year for the all-risk insurance to be available to county farmers.

All county agriculturists are keeping a hopeful eye skyward, and the wonder of it all is that the hope is for the rain to stop. And, as Coker said, if the county can get perfect growing weather for the rest of the summer, and is lucky enough to get a good fall, farmers could still have some good harvests.

MAKING THE FIRST run with a flame cultivator on the R. J. Renner, Jr. farm southwest of Friona last week was Lloyd Rector, left, who with his brother Floyd purchased the new cultivating rig recently.

# THE HIGH PLAINS FARM AND HOME

## 1964 Wheat Program Reviewed By USDA

The wheat program for 1964 under provisions of existing law are reviewed by the U. S. Department of Agriculture in response to questions that have arisen since the referendum of May 21.

Price support will be available to producers who plant within the acreage allotments which have been established for the 1964 wheat crop. Allotments were announced in April. The

national average support price will be 50 percent of parity. (The present parity price is \$2.51 per bushel.) There will be no marketing quota penalties for planting in excess of acreage allotments. However, the statute provides that producers who overplant their allotment will receive "history" credit only in the amount of their allotments.

Farmers who have Conserva-

tion Reserve contracts agreed to plant within their farm acreage allotments, and this means that the 1964 Conservation Reserve payment for the farm is dependent on compliance with the wheat acreage allotment.

Wheat that was grown in excess of marketing quotas in the past will be subject to the original penalty provisions until July 1, 1964. After that date, stored excess wheat may be released without penalty. The amount of such wheat in storage of farms and in warehouses is estimated at 45 million bushels. This could be increased from the 1963 crop, which is subject to marketing quotas, and excess wheat from this crop may be stored by the producer to avoid payment of the penalty. On the other hand, underplanting or underproduction of 1963-crop wheat could result in the early release of excess wheat that had been stored from previous crops to avoid payment of penalty.

Other items of interest to growers in administration of

the 1964 wheat program without marketing quotas include:

---ASC county committees will hear all appeals of 1964 farm wheat acreage allotments. Farmers have 15 days from the date of the county committee decision to appeal to the ASC State Committee if they do not agree with the county committee decision.

---Hearings on appeals of farm normal yields will not be scheduled because the yield figures will not be applicable for 1964. Where producers wish to furnish proven yield data, such data will be filed in the county office with other records of that farm.

## Limestone Underestimated By Most Texas Farmers

The application of limestone to acid soils has more varied advantages than you will hear for a particular soap on a soap commercial, yet Texas farmers are applying only a tenth of the amount they could profitably use, points out W. F. Bennett, extension soil chemist.

Beneficial effects from adding limestone to acid soil probably have been known for as long as those of any other present-day soil management practice, the chemist adds, but the

amount used continues to lag. The areas of Texas where lime applications are most needed are the East Texas Timberlands and the eastern portion of the Coast Prairie, Bennett said.

The soil specialist points out that soil testing is the best method for determining limestone needs. A soil test will give the level of soil acidity, organic matter content, and the calcium level of a soil, all of which influence limestone need, he says.

## Texas "Fly Factory" Is Being Expanded

The fight to eradicate the bothersome screwworm from the Southwest is receiving increased momentum as the plant in which sexually-sterile screwworm flies are reared is being modified to facilitate production of more than 130 million flies per week.

Officials of the Southwest Screwworm Eradication Program announced that the increase in sterile flies should

be available by mid-July. The additional flies will be used to combat isolated screwworm outbreaks outside of the area where the insect can normally survive winter temperatures, as well as to eliminate native flies in the southern parts of Texas and New Mexico which comprise the overwintering area.

No increase in building space is required in order to expand

production, officials stated. Some modifications of existing equipment are necessary and an increase in personnel and cost of production and distribution is expected.

The plant near Mission was completed in June 1962 and was designed to produce an average of 50 million flies per week with a top production 75 million. As a result of experimentation that developed many improvements in fly-rearing techniques, more than 100 million flies have been produced each week for several months with little change in original plant and equipment.

The announcement that the "fly factory" is to be modified comes at a time when Southwestern farmers and ranchers are experiencing less than 10 percent as many screwworm infestations as last year. Since January 1, 1963, about 1,200 screwworm cases have been reported in the eradication area composed of Texas, New Mexico, Oklahoma, Arkansas and Louisiana. In contrast with more than 9,500 cases reported for the same period in 1962. Despite the marked decrease in infestations, officials have warned that livestock producers cannot afford to relax their vigilance. Stockmen should continue to look for wounds infested with larvae and immediately report infestations by collecting larvae samples from wounds

and sending them to the Mission laboratory or taking them to the local county agent.

## First Flame Cultivation Tours Conducted This Week

The United States were founded on the principle of self help through the idea of private enterprise. This is the idea behind the two flame cultivation field tours that will be held in the Rio Grande Valley by the High Plains Research Foundation in cooperation with local industries and business firms.

The first flame cultivation field tour was held on June 18 at the Russell Plantation which is located south of Harlingen. The other flame cultivation field

tour is to be held at Donna, Texas, on Thursday, June 20 from 2:30 to 5 p.m. on the Jim Steidinger farm. Persons from the High Plains Research Foundation and local representatives from business and industry will conduct visitors on a walking tour through the research plots. The purpose of the research work on flame cultivation at these two sites is to determine the feasibility of using flame cultivation as a means of weed control in the area.

The research program with flame cultivation came about when several of the local leaders for industry and business called on the High Plains Research Foundation at Halfway, and asked the Foundation to conduct a full time year-round program in the Valley. The present research program is

being supported entirely by the LP Gas industry, butane dealers and several business firms throughout the Valley.

Don Staggs, who is laboratory assistant in flame cultivation research at the Foundation, resides in Harlingen, and is conducting the flame cultivation research program. The Rio Grande Valley program is coordinated and directed by the Foundation in its flame cultivation research program over the state of Texas.

Research information already obtained indicates that flame cultivation can reduce the cost of producing crops by means of reducing the hand labor costs of weed control. Flame cultivation is a completely mechanical means of weed control.

In connection with June Dairy Month, dairymen throughout Texas and the nation are holding open-house. Events ranging from milk drinking contests to dairy farm tours are designed to acquaint the public with the dairy industry and with the nutritious food, milk.

## SIDE-DRESS

WITH THE FULL MIGHT OF NITROGEN

It's now or never for this year's cotton and grain crops. The nitrogen needed for an abundant, high quality harvest should be applied before the 12th week of growth or before the plant begins to boot or bloom. Anhydrous ammonia supplies this nitrogen in the largest quantity by volume and in the most usable form. We recommend and sell Shamrock Nitromite because we know it to be a fine brand of anhydrous ammonia, 82.2% nitrogen.

# Soybean Test Plots Put Near Muleshoe

Ten varieties and strains of soybeans were planted Friday June 14 on the Harold and Oscar Allison's farm east of Muleshoe in the Pleasant Valley Community. The beans were supplied by the High Plains Research Foundation and were planted by the Allisons with Barry Love and Paul M. Belcher of the High Plains Foundation staff.

The two-acre research area is located on highway 70 just east of the Oscar Allison home. Seven experimental strains which were the highest in the Foundation's breeding program were planted along with the recently approved Hinn variety. These eight will be compared with the Lee and Hill varieties on this farm centered soybean research.

Each strain and variety are planted in four different plots, making a total of forty plots in the two-acre area. The purpose of the research test is to find the varieties or strains that will have the highest yield, will stand and not shatter. Soybeans are sensitive to the daylight hours and a different variety must be found for farm areas 50 to 100 miles north to south. The soybeans will be pro-

duced from rabbit infestation with a protective fence. Rabbits seem to prefer seedling soybeans over all other foods. This farm-centered research project is the realization of a plan the foundation staff, board of trustees and foundation supporters have had since its organization in 1956.

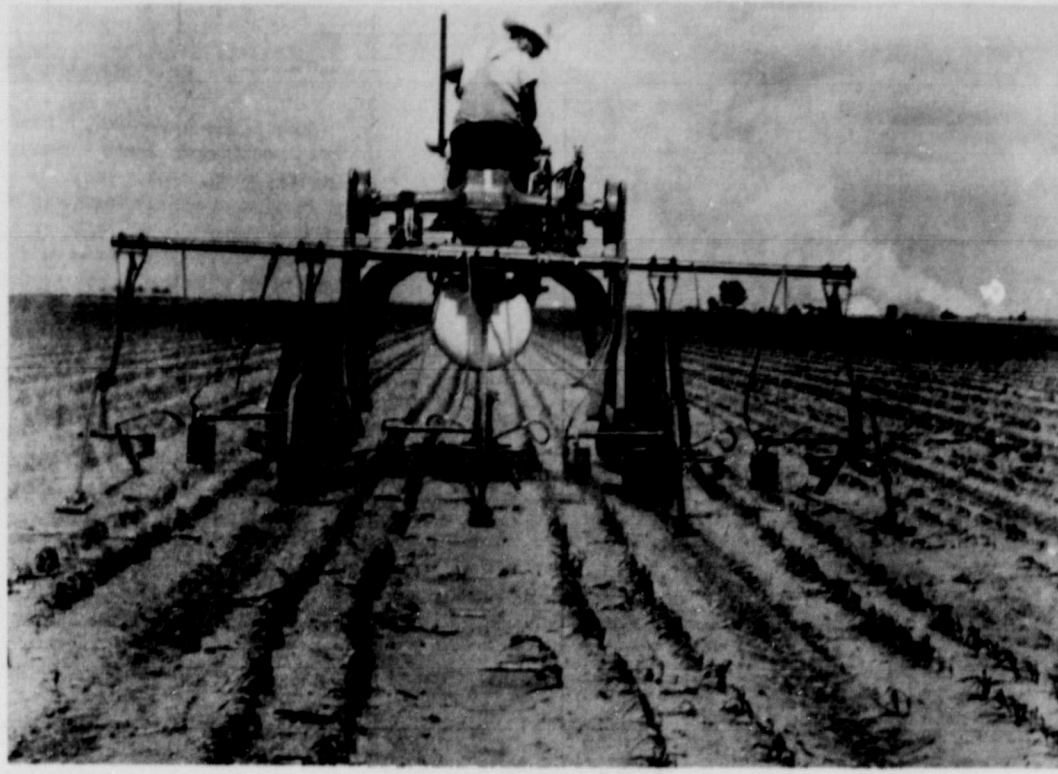

## Soybean Support Price Estimated

The support price for soybeans grown this year will be at least \$2.25, according to the Farmer County Agricultural Stabilization and Conservation (ASC) office. "We've had several people to ask us, and while we have had no official notification, we feel as though the \$2.25 figure would be a minimum," says Prentice Mills, office manager. Many farmers are planting soybeans on hauled out wheat and cotton acreage.

## 1964 F-G Bill Is Described

The 1964 feed-grain program is expected to be an extension of the 1963 program, states Prentice Mills of the Farmer County ASCS. "The Secretary of Agriculture says the price supports won't be reduced from 1963 levels, and the diverted acreage is expected to remain about the same," Mills said.

The United States uses 250 billion gallons of water a day.

LLOYD RECTOR is shown on his new flame cultivator rig, flaming a maize field south of Friona. With fields too muddy for conventional cultivators, Rector may find the flame cultivator a lifesaver this year.

# New Finance Plan Announced For Irrigation Equipment

A plan for financing irrigation systems has been announced by Johns-Manville and C.I.T. Corporation, the nation's largest industrial financing firm.

Available through Johns-Manville distributors, this new financing plan is designed to meet the specific needs of customers who buy and use irrigation equipment. These include owners of farms, ranches, groves, golf courses, nurseries and any other growers requiring irrigation equipment.

Under the plan, according to George Wahl, general sales manager, irrigation pipe, for Johns-Manville, equipment such as pumps, engines, fittings, sprinkler heads, as well as Johns-Manville irrigation pipe can be financed. The plan also provides for the purchaser to include the cost of the installation, he said.

"The purchaser makes a downpayment (a minimum of 25 per cent) to the Johns-Manville distributor when purchasing irrigation equipment and Johns-Manville pipe," Mr. Wahl said. "The remaining balance is financed by C.I.T. Corporation." The plan, he added, provides for payments payable in equal monthly, quarterly, semi-annual or annual installments for a maximum period of 60 months. If required, the due date of the first installment can be established at any time up to 30 days on the monthly schedule to

360 days on the annual schedule. He pointed out this flexibility allows the purchaser to gear his payment schedule to coincide with the crop season or periods of peak income.

"We recognize that proper financing is an integral part

of modern day business," said Mr. Wahl. "So, to better serve the needs of our customers and to help them conserve their working capital, J-M and C.I.T. Corporation have developed this financing plan which is simple, yet flexible."

# The HAPPY HOMEMAKER

BY JUNE FLOYD

There just isn't a project in a homemaker's schedule that brings more satisfaction than cookie making. A well rounded recipe collection should contain a wide variety of cookie recipes.

Whether you want to make pretty cookies for a special occasion or just plain cookies for nibbling, you will have just the recipe you need if you file the following.

### LONE RANGER COOKIES

- 1 cup butter
- 1 cup sugar
- 1 cup brown sugar
- 2 unbeatens eggs
- 2 cups sifted flour
- 1 teaspoon soda
- 1/2 teaspoon salt
- 1/2 teaspoon baking powder
- 2 cups PettiJohns
- 1 cup pecans
- 1 cup coconut
- 1 package chocolate chips (8 ozs.)

Cream white sugar, brown sugar, butter and eggs. Sift together flour, soda, salt and baking powder and add to first mixture. Mix thoroughly then add PettiJohns, pecans, coconut and chocolate chips.

Batter will be very stiff and dry. Drop by teaspoonfuls onto ungreased cookie sheet. Pat down with tines of a fork. Bake at 250 degrees for ten to twelve minutes. Yield four to five dozen medium sized cookies.

### SAND TARTS

- 1 cup butter
- 1/2 cup powdered sugar
- 2 teaspoons vanilla
- 1 tablespoon water
- 2 cups sifted flour
- 1/2 cup pecans

Cream butter, powdered sugar, vanilla and water. Add sifted

### HERSHEY DAINITIES

- 1 cup Crisco
- 1 cup white sugar
- 1/2 cup brown sugar
- 2 eggs
- 3 cups flour
- 1 teaspoon salt
- 1 teaspoon soda
- 1 cup chocolate chips
- 1 teaspoon vanilla
- 1/2 cup nuts

Cream Crisco, white sugar, brown sugar and well beaten eggs. Sift together flour, salt and soda and mix with creamed mixture. Add vanilla and mix thoroughly. Add chocolate chips and nuts. Drop on ungreased cookie sheet and bake ten to twelve minutes at 375 degrees.

### SOFT CREAM JUMBLES

- 1/2 cup oleo
- 1 cup sugar
- 1 egg
- 2 cups flour
- 1/2 teaspoon soda
- 1/2 teaspoon salt
- 1/2 cup sour milk
- 1 teaspoon vanilla

Mix oleo and sugar well then beat in egg. Sift flour, soda and salt and add to creamed mixture alternately with milk and vanilla.

Drop by teaspoonfuls about 2" apart on lightly greased baking sheet. Sprinkle with sugar and cinnamon. Bake 12 to 15 minutes in 400 degree oven.

### GINGER COOKIES

- 3/4 cup shortening
- 1 cup sugar
- 1 egg
- 1/4 cup light corn syrup
- 2 cups flour
- 1/4 teaspoon salt
- 2 teaspoons soda

(Continued on next page)

# American Cotton Congress Meets In Dallas July 12

A close study of cotton industry problems and research advancement sets the stage for a special session of the American Cotton Congress in Dallas July 12 according to chairman Burris C. Jackson of Hillsboro, Jackson and R. L. Horton, Dallas, who is in charge of the program, announced the agenda for the Cotton Congress research session. The one day meeting is expected to draw

several hundred technologists and research men as well as cotton producers.

Leading authorities on cotton research will discuss subjects ranging from instrument and color evaluation of fiber and development of glandless cottonseed to reasons why mills are replacing cotton with man made fiber. A special panel report is scheduled on activities of the Cotton Research Committee of Texas.

Speakers will be J. B. Kysler of Augusta, Ga.; Dr. C. H. Fisher, director of the USDA southern utilization research division at New Orleans; Harvin R. Smith, Department of Agri-

culture specialist in standards and testing, Washington, D.C.; Glen Witts, Dallas; State Senator George Moffett; Garlon Harper, director of research for the National Cottonseed Products Association, Dallas; and Vernon P. Moore, engineer in charge for the ginning research laboratory at Stoneville, Miss.

Chairman Jackson said a third Cotton Congress field session will be held in Midland on July 18 featuring production of cotton. The first of four 1963 meetings is scheduled for June 21 at the Ferguson farm of the Texas Prison System in Central Texas.

## NEWS FROM THE

### FARM BUREAU

BY RAYMOND EULER

An organization many farmers may not know about is the Texas Agricultural Marketing and Development Association. This is an affiliate of Texas Farm Bureau serving members in finding markets for their products.

Presently, it is operating in the field of vegetables and fruits. This organization is also affiliated with the American Agricultural Marketing Association, which works with all American farmers wishing to avail themselves of the services provided to make sales in foreign markets.

The foreign office is located at Rotterdam, Holland. A Michigan farmer sold over \$200,000 worth of onions through the Farm Bureau Marketing Organization. Texas farmers sold over a million dollars worth of carrots in England and Europe through their organization.

Other farm products will be served through these organizations as soon as possible. Farm organizations can do a much more efficient job in this field than government groups, and this method of disposing of farm products should continue to expand.

We believe that most farmers will agree that Farm Bureau has a good farm program before the congress when they become familiar with the provisions incorporated in them. The primary provision of the cotton bill would force the secretary of agriculture to do what was supposed to do under the cotton act of 1958; that is, increase acreage in lieu of increasing supports on cotton when sales begin to equal production.

The wheat and feed grains bill would try to provide equitable prices for wheat and feed grains without putting them in competition with each other on the feed market. This is important to all producers of these commodities. We have the full text of the bills in the office, and we also have brief outlines of the bills. We hope you will come in and look them over.

Remember to file on your state gas tax refund on non-road used gasoline soon. Also, keep in mind the federal tax claim which should be filed anytime after July 1 through September.

CONSIDER THIS: Righteous lips are the delight of Kings; and they love him that speaketh right. Proverbs 16:13.

# WITH THE COUNTY AGENT

DERYL COKER

Wheat harvest time is here for some of us and it won't be long until you will be plowing, or disposing of your stubble in some manner.

As a whole we have a sorry wheat crop this year, and we won't have the straw we normally have, so let's don't burn it.

A great deal of work has been done on stubble mulching, by our agronomists and here are some of their findings.

The practice of stubble-mulch farming developed primarily for wind and water erosion control has been very effective for this purpose, particularly when used in combination with other vegetative treatments.

Well-anchored ample residues reduce wind velocity and drag of the soil surface and wind erosion is kept to a minimum.

The finer the residues the greater the protection given to the soil.

Upright residue shelters soil from wind better than flat residue. Tall stubble is more effective than an equal weight of short residue.

Mulch of crop residues protects soil surface from impact of falling raindrops.

Surface soil does not seal rapidly under stubble mulching. This results in greater infiltration and less runoff.

To date little promise has been shown for materially increasing moisture supplies for crop growth and production.

Residue mulches decrease rate of evaporation from immediate soil surface only as long as soil surface remains wet.

When rains or frequent stubble mulching can be expected to improve moisture storage, by reducing evaporation and subsequently increasing depth of water penetration and storage.

If there are long intervals between rains, the cumulative moisture loss from mulched soils will temporarily lay behind that of bare soil, but the moisture content in the total profile of both soils will soon reach about the same level.

Stubble mulching improves moisture conditions for germinating seeds and aids seedling emergence by reducing rate of surface frying and crusting of some soils.

In the drier areas of the Great Plains, wheat yields with stubble mulching are equal to or slightly greater than those obtained with conventional plowing or one-waying.

There is a definite correlation between increased crop yields under stubble mulching and lower than average rainfall throughout the dry farming areas of the west.

# Research Underway For Midge Control

Getting under way this week is research leading toward control of the midge - a pesky little microscopic orange insect which did millions of dollars of damage last year to Texas grain sorghum.

Ernesto L. Montoya, a research entomologist with Texas A&M College arrived in the High Plains to initiate the study. The program is being implemented by a \$5,000 emergency grant to Texas A&M College from the Agricultural Research Service of the U. S. Department of Agriculture which was requested by the Grain Sorghum Producers Association. Members of the Panhandle Grain and Feed Dealers Association have joined with the producer group in assuring continuation of the research as long as needed to obtain information on adequate midge control measures.

Montoya is a graduate of New Mexico State University and is currently working toward a master's degree in entomology at Texas A&M. The midge ecology and control study which is under the general supervision of Dr. J. C. Gaines, head of the Department of Entomology, will serve as part of the requirements for Montoya's advanced degree.

C. E. Fisher, Superintendent of Agricultural Experiment Station #8 at Lubbock, and Elbert Harp, President of the Grain Sorghum Producers Association in making the joint announcement of the initiating of the new research program which will be headquartered at the #8 Station, praised the study

as being a step forward in keeping grain sorghum the strong force it is in the High Plains economy.

The midge has been known to inhabit Texas for over 60 years but its first real heavy economic damage was in 1962 where in many areas 20% to 50% of the grain sorghum crop was lost to the pest. Until now the only available control measure has been early planting of grain sorghum. In bad weather years, such as this one, this cannot be a sure means of control. The entomologist emphasized that all segments of the Texas A&M College System of Research and Extension will be mobilized to assure complete information on identifying, studying and controlling the midge if it should occur this year.

PART OF THE equipment to be used in a new midge-control research project initiated at the Texas Agricultural Experiment Station #8 at Lubbock this week. Looking over the emergence cage with Ernesto Montoya, the new research entomologist, is Elbert Harp, Abernathy, GSPA president, Montoya, and Bill Nelson, executive vice president of GSPA, Amarillo.

# Stamps On Meat Mean Protection

--The purple and red ink stamps placed on meat by federal, state, and municipal meat inspectors and graders are familiar to everyone but few know what the marks really mean. They are the seals of approval placed on meat as assurance of its quality and wholesomeness by meat inspecting and grading agencies in Texas.

A new publication of the Texas Agricultural Extension Service, L-585, "Meat Inspection and Grading in Texas" attempts to explain the history, purposes and methods of meat inspection and grading in the state. It tells of the early legislation which laid the foundation for meat inspection and grading and explains the three levels of inspection in the state.

The publication points out that the bulk of the meat slaughtered in the country is examined by federal inspectors. This includes all meat transported in interstate commerce. However, meat that is not inspected by the Federal government does not necessarily reach the con-

sumer's table without being examined. The Texas State Department of Health now has a meat inspection program in which 24 Texas meat plants participate. In addition some 12 cities have local ordinances requiring meat packers in their municipalities to inspect meat under the state rules and regulations.

A much smaller part of the meat slaughtered in the state is

federally graded. But, since grade is a good standard to use in the selling of meat, the livestock industry relies heavily on grades in meat trading. In addition to federal grades, many packing plants sell meat with their own grade and brand name affixed to it.

Meat grading has changed many times to meet the demands of changing consumer desires and the latest adjustment is the dual grading system for beef

offered to packing plants on a voluntary basis since last year. The system adds to the old quality grade the newly devised yield grade for beef carcasses.

The leaflet assures that Texas consumers may have confidence in the meat they buy inspected and graded under federal, state and local regulations. For a copy of L-585, see your county agent or write the Agricultural Information Office, College Station, Texas.

# National Forests Boomed As Attractions

-- If you like the great outdoors, a vacation in one of more of the National Forests might be in order. In preparation for what the Forest Service expects to be their best year ever, camping facilities have been improved to take care of an estimated 125 million visitors with 37 million using camping and picnic areas during the summer.

The U. S. Department of Agriculture has announced that 9,700 new camp and picnic units have been built and 10,000 old ones repaired during the past year. The USDA said most of the visitors are expected between Memorial Day and Labor Day. Much of the work such as

construction of tables and benches and fireplace grates was done during the winter months. Grounds were cleared last fall and this spring.

A developed campground site provides fireplaces, tent space, table and benches, and automobile parking spurs, with water and toilets to be shared by several units. Basic provisions to be brought by the camper include tents, bedrolls, cooking utensils and food.

Most campers prefer to use the developed sites, although camping in the 181 million acre National Forests is quite unrestricted. Those willing to carry food and equipment can camp

most anywhere, the USDA said. Information regarding National Forest roads, trails, camp and picnic grounds, etc., is available from National Forest Supervisors. A list of the field offices is available from the Forest Service, U. S. Department of Agriculture, Washington, D.C.

# Castorbeans Are Boosted As A New Cash Possibility

Some Texas farmers who are looking for a new cash crop may try castorbeans this year.

The demand for additional oil from the crop is good but a word of caution is advised; do not grow a castorbean crop unless you have a marketing contract

with a processor. Castorbean production is an integrated industry. Farmers grow the crop under contract with castor oil processors who agree to pay a definite price at harvest. They also give specific information on growing the crop and usually help make arrangements to harvest it.

In 1962, Texas farmers accounted for three-fifths of the castorbean output. In the nation as a whole, 235,000 acres of castorbeans were grown, producing 34 million pounds of beans compared with 37 million in 1961. Over 90 percent of the beans were grown under irrigation.

The average yield per acre in 1962 was 1,434 pounds compared with 1,029 pounds a year earlier. The record year was 1958 when the average was 1,765 pounds per acre.

Yields last year varied from 1,855 pounds per acre in some parts of Texas to 757 pounds in New Mexico.

The 1962 castorbean crop should yield 16 million pounds of oil, 12 percent of our annual requirement of 130 million pounds. This means that in 1963, about 88 percent of our oil needs will have to be met with imports. Paints, varnishes, resins and plastics account for roughly three-fifths of domestic use. So castorbeans generally have a good future on the market. WARNING--Castorbeans are poisonous and should not be eaten by humans or livestock.

# Dairy Business Is Tied To Country's Progress

June is the month which honors nature's most nearly perfect food, milk. And it is a time when there is an abundance of the health giving food, says Shannon Carpenter, area dairy specialist with the Texas Agricultural Extension Service.

The story of dairying in this country is closely tied to our progress. The settlers at Jamestown and later pioneers depended on the dairy cow for much nourishment just as we do today in all fifty of our states.

The dairy cow is a marvelous machine that takes grain and grass and makes it into the milk we enjoy. Milk not only gives energy but is an excellent way to curb the appetites of weight watchers, says the specialist.

Housewives get a bargain in dairy products. The food nutrients that they furnish for about 20 cents would cost 43 cents if supplied by other sources. The dairy products consumed by the average family

contains about 23-26 percent of the calories, 40-45 percent of the protein, 75-84 percent of the calcium, and 35-39 percent of the vitamin A they need.

Dairying is well adapted to Texas because of its many rolling hills, shade trees, good water supply, and ideal soil and

climate for the production of dairy feed. Its many good pastures are one of the essentials of dairy production, says Carpenter.

The dairy industry is the only agricultural endeavor that is carried on in every state and thus forms one of the mainstays of the nation's agriculture. Dairying brings a regular pay check to the community and dairy dollars flow into all channels of trade, says Carpenter.

The specialist urges you to use more dairy products, especially during June Dairy Month. He reminds that you never outgrow your need for milk, nature's most nearly perfect food.

## Happy Homemaker --

1 teaspoon cinnamon  
1 teaspoon cloves  
1 teaspoon ginger  
Cream shortening and sugar. Add egg and mix thoroughly. Add syrup and beat again. Measure 2 cups sifted flour in sifter then add salt, soda, cinnamon, cloves and ginger and mix well. Drop in small balls on greased cookie sheet and mash flat with fork. Bake in 350 degree oven 12 to 15 minutes.

## COCOROONS

3 egg whites  
1/4 teaspoon salt  
1 1/2 cups sugar  
2 teaspoons vanilla  
3 cups cornflakes  
1 cup chopped pecans  
2 cups coconut or more (enough to thicken mixture enough that it will stick together)  
Make egg whites, salt, sugar and vanilla into stiff meringue. Add other ingredients. Drop by balls on baking sheet and bake about ten minutes in 350 degree oven. Yield: about six dozen. Continued next week.

# \$45,000 Ear-Tagged For Cotton Research

The Research Committee of Plains Cotton Growers Association, Inc. has recommended approval of \$45,250 to be spent from PCG funds in support of cotton production research on the High Plains of Texas. The recommendations will now go to the PCG Finance Committee for final consideration at its next meeting, expected to be held during the week of June 17th. Actual disposition of funds will be announced after that meeting of the Finance Committee.

The amount recommended for approval by the committee was from a total of \$74,519 in requested in support grants by five research groups in the area. Submitting requests to PCG for funds were Texas Technological College, Lubbock; High Plains Research Foundation, Halfway; Southwestern Great Plains Field Station, Bushland; Texas Agricultural Experiment Substation at Lubbock, and the Spur Substation of TAES. A breakdown of which groups were recommended to receive the funds and in what amounts was not revealed.

Committee Chairman Don L. Jones, of Lubbock, states that each request was considered individually in the light of what it would do to benefit High Plains cotton producers. "This is the farmers' money," he said, "and it is up to us to get the most out of every dollar spent."

at attendance at the meeting besides Jones were committee members Jerry Cooper of Plainview; Ben Dopson, Lamesa; Edd C. McLeroy, Dimmitt; Victor Herring of Brownfield, and members of the PCG staff.

Cotton's need for moisture has been found to be greatest during the fruiting period. Shedding in cotton also results from lack of soil moisture.
