LISTEN TO LUKE

Sorry we can't remember where we read it, so we could give proper credit, but we read the other day where one commentator noted that there was no danger in Russia bombing Washington — there are too many of their own kind there!

We are and always should be eternally grateful to those people who are devoting their time and efforts in keeping the people of this nation informed as to the goings-on in federal government activities and world politics.

Right now there are many responsible people who are trying their best to persuade the Senate one way or another in the idea of ratification of the test-ban treaty with Russia. These men, in our humble opinion, are all sincere men, honest in their opinions, and tried and true citizens of this country, yet they are widely divided in their opinions of what to do about the treaty. These men are well versed in information about testing the bomb, world politics, etc., yet they disagree.

That makes it very difficult for us to form an opinion on the subject.

Extreme rightists have been screaming their heads off for several years in opposition to some of the policies of our state department as well as some of the activities at home, claiming that these things were leading us into precarious positions with our sworn enemies, the Communists. We have been assured all the time that such manipulations are not furthering the Communist efforts, but rather will put us in a stronger position.

And all the while this has been going on, we have continued to lose ground, lose followers, lose friends, lose allies, lose face, lose men, lose money, and lose freedom. We are beginning to have some doubts about things.

From Free China to Cuba, from Yalta to the test ban treaty, we have been duped, hoodwinked, cheated, deceived, lied-to, and so on down the list, while all the time the Communists are gaining and we are losing and paying.

We kinda lean toward the opposition of the test-ban treaty.

There are some doubts beginning to arise in our minds about some things.

Now we remember — it was Tom Anderson, writing in Farm and Ranch magazine who made the observation in the first paragraph above — and wound up his editorial with the story about the man who suspected the fidelity of his wife and purposefully re-

turned home last week from Phoenix, Ariz., where they had attended the wedding of their niece, Miss Jerry Shield, Mrs. Leola Hill, who had been visiting her daughter and family there for several weeks, accompanied them home. They plan to go to Bryan this weekend to attend the wedding of another niece, Miss Virginia McClain.

Mr. and Mrs. L. G. Hinkle went to Kermit Friday for their son, Glen Bob, who had been visiting with his grandparents for two weeks.

Mr. and Mrs. C. C. Mitchell visited in Van Horn last Sunday with Rev. and Mrs. John W. Byrd and their son-in-law and daughter, Mr. and Mrs. H. E. Schroegler, and two daughters of Santa Fe, N.M. Mr. Schroegler is Mrs. Mitchell's brother.

Mr. and Mrs. John Silverthorne and son, Johnny, of Dallas arrived Sunday for a week's visit on the ranch with her parents, Mr. and Mrs. Hugh Rose.

Mr. and Mrs. John Harrison visited in Del Rio for several days last week and attended the Clipper Club dance there Saturday evening.

Mrs. Miller Stroup and her daughter, Miss Rosie Stroup, were in Odessa Tuesday for Miss Stroup to make plans to attend a business college in that city. She will enroll on September 9.

Mrs. Florine Freeman with her son, David Freeman Jr., his wife and daughter, all of Pecos, visited here with her parents, Mr. and Mrs. B. L. Van Cleave, last weekend.

Mr. and Mrs. Will J. Murrh and boys are visiting in Fort Worth with her parents, Mr. and Mrs. Claude Gibson.

Buddy Miller returned to his home in San Antonio Sunday after visiting with his grandparents, Mr. and Mrs. W. R. Stumberg.

Mr. and Mrs. Weldon Cox were business visitors in San Angelo Wednesday.

Alpine will play here on September 13 to open the season.

A THOUGHT FOR LABOR DAY

"Doing for people what they can and ought to do for themselves is a dangerous experiment. In the last analysis, the welfare of the workers depends upon their own initiative."

"Whatever is done under the guise of philanthropy or social morality which in any way lessens initiative is the greatest crime that can be committed against the toilers."

"Let so-called busybodies and professional 'public morals experts', in their fads, reflect upon the perils they rashly invite under the pretense of social welfare."

It may surprise you to learn that those words were spoken by the late Samuel Gompers, generally regarded as having been the father of the organized labor movement in this country.

We do not know of a more statesmanlike Labor Day message.

Plea Out For Volunteer Workers For Local Museum

A plea has gone out for volunteer workers for the Terrell County Museum which was a project of the Explorer Scouts until the group voted to turn it over to the Terrell County Historical Survey Committee.

Mrs. Jim Kerr is coordinator for the survey committee and Lem Railsback is curator for the museum. Since the museum is open from 10:00 a.m. to noon and 1:00 p.m. to 7:00 p.m. daily, four shifts of two hours each are needed each day. It will not be necessary for anyone to conduct visitors through the museum, although they may do so, but it is necessary for someone to be in the building when the museum is open.

Anyone interested in volunteering to help out on the project is requested to contact Mrs. Kerr or Mr. Railsback.

Explorers Meet On 'Museum' Project

Billy McSparran, incoming president of the Explorer Scouts, called the meeting to order when they met in regular session on August 15.

The main item of business was the future of the Terrell County Museum. Since one of the post's goals was the establishment of the museum, the project was considered a success. In order to maintain and keep the museum open in the future, since difficulty has been experienced in providing adequate manpower for the operation of the museum, the members voted to ask the Terrell County Historical Survey Committee to accept the full responsibility of the administration of the museum.

The Post members also expressed themselves as ready and willing to give help in any way for the maintenance of the physical part of the museum.

The Lions Club Scout committee members were guests of the Post. W. L. LeFleur, who was also present, is institutional representative.

The husbands and children of the club members and additional guests, numbering about 65, attended the meeting on the slab by the Legion Hall.

Austin — Gov. John Connally's Committee on Education Beyond the High School has its eye on tuition-free colleges and "super universities."

Also being looked upon with favor are Texas junior colleges and vocational schools. Committee is searching for a way to meet educational needs in the next decade.

Task is made difficult by the need for 900,000 new junior and senior college graduates by 1974.

The prediction, called "conservative" by committee member Gifford Johnson, Dallas industrial leader, includes 456,000 four year college graduates, and 440,000 graduates of two-year schools.

Right now the total enrollment in 19 of the state's four-year colleges and 34 private senior colleges totals 175,000. Junior college enrollment in 35 state jun-

ior colleges and 10 private schools is 37,200.

If these students all were to graduate, they would produce about half the number of graduates needed in the next four years. But Johnson said the problem is — many won't graduate. There is a big drop-out problem in colleges and an even bigger drop-out problem in the grades below college level.

Johnson stated that only 34 per cent of the students enrolled in the third grade in 1963 graduated from high school in 1963.

What to do about the drop-out problem, which Governor Connally has called "one of the most critical problems of the decade"? Both Johnson and committeeman Tom Sealy of Midland, as well as other members of the committee which is composed of some of the state's most powerful citizens, recommended more and better counseling through all the high school years and college.

"If students aren't encouraged to stay in high school and perform well there, they don't have a chance," Johnson said.

His concept of free colleges and state universities which would admit only the top 15 per cent of high school graduates brought a lot of favorable comment from the committee. But Chairman H. B. Zachry of San Antonio warned all that this was just the preliminary to a preliminary report. Final report to Gov. Connally is not due until August of 1964.

Poll Tax Campaign On
 Governor Connally will kick off the League of Women Voters' campaign for repeal of the poll tax with a speech on September 9 — the day the women launch a two-month drive for repeal of the tax.

November 9 is the date voters will decide whether to strike the poll tax requirement for voting from the state constitution.
 Vice President Lyndon B. Johnson, Sen. Ralph Yarborough, Sen. John Tower, congressmen and state legislators are being invited to the September 9 meeting in Austin.

Youth

Austin was stacked full of high school leaders as Atty. Gen. Waggoner Carr held a conference on youth.

The 1,140 young people who attended were told how to prevent juvenile crime and school drop-outs. It is up to them to put the ideas into effect through high school organizations.

Basically, the solution is in finding things for junior high and high school students to do. Recreation for those who only need to keep occupied and jobs for those who need to help their families at 14 or 15 were the major prescriptions.

Carr hoped the conference had set some brushfires in the civic consciousness of high school leaders to burn out the pockets of trouble for many thousands of Texas young people.

Stewart-Freeman Wedding Rites Recited Tuesday

In a candlelight ceremony on Tuesday evening at 7:00 in the First Presbyterian Church, Miss Nancy Freeman and Tilden Stewart were united in marriage. Wilbur LaFleur, minister of the Church of Christ, used the double-ring ceremony and directed the exchange of wedding vows.

The altar was decorated in white pompoms and miniature chrysanthemums arranged in tall floor baskets. The candles were lighted by Don Ratliff and W. A. Lancaster who also served as ushers.

Mrs. R. S. Wilkinson, organist, played traditional wedding music.

The bride, escorted to the altar by J. D. McDaniel, wore a street-length dress of white satin with jacket of Toulouse lace. Her shoulder-length veil of illusion cascaded from a tiara of seed pearls. She carried a bouquet of feathered white carnations.

Miss Mary Duncan was the maid of honor. She wore a dress of blue brocaded taffeta and carried a bouquet of white feathered carnations.

Lloyd Stewart of Junction was his brother's best man.

The ladies of the Presbyterian Church were hostesses at the reception in Fellowship Hall following the wedding.

Proper Light Keeps Minds Bright

Check now to be sure your children have **GOOD STUDY LIGHTING**

Lighting specialists and educators emphasize the importance of proper lighting for home study—to prevent eyestrain and fatigue, make homework easier and study hours more productive. For the study area in your home, select a good table lamp which has a diffusing bowl to soften the light and prevent glare. The shade should conceal the light source from the eyes and spread light evenly over the entire work surface. Use at least 150 watts of light. Help your young students enjoy better light for better learning.

Congressman ED FOREMAN Reports

Democrats or Republicans Maybe; Conservatives, Definitely

It may be difficult to determine whether West Texans are Democrats or Republicans, but it's not hard to see that they are definitely conservative in their thinking. Recently, with the help of hundreds of volunteer citizens, I mailed out approximately 100,000 questionnaires to the folks of West Texas inviting them to advise me of their feelings concerning some of the major issues facing the Congress. Also, most of the newspapers published my questionnaire, and several clubs reproduced and distributed it. I fully realize that the simplicity of the questions hardly befitted the complexity of the issues, and therefore, I invited the people, if they wished, to attach a letter setting forth their reasoning on any of their answers and discussing any other issues not mentioned in the questionnaire.

The response was tremendous! 21,651 questionnaires were returned and over 5,000 of them had additional comments and suggestions attached. The answers pointed up the people's vital concern and dissatisfaction with our national situation and their overwhelming desire for responsible, conservative government. The questions submitted, and the answers returned, are as follows:

1. Do you believe that taxes should be cut without a cut in federal spending? Yes 63 per cent; No 33.7 per cent.

2. Do you believe deficit financing is good for our national economy? 44 per cent Yes; No 55.6 per cent.

3. Do you favor the proposal to provide federal aid for Urban Mass Transportation? Yes, 6.0 per cent; No, 94.0 per cent.

4. Do you favor the proposals to give federal aid to education at all grade levels? Yes, 13.0 per cent; No, 87.0 per cent.

5. Do you favor the Administration's federal aid for "Medicare" proposal? Yes, 12.3 per cent; No, 87.7 per cent.

6. Are you satisfied with the way the Administration is handling the problem in Cuba? Yes 92 per cent; No 9.8 per cent.

7. Do you believe there should be large reductions in our foreign aid expenditures? Yes 91.1 per cent; No 8.9 per cent.

8. Do you favor continued federal control and regulations of Agriculture? Yes 11.3 per cent; No, 88.7 per cent.

9. Should the Guadalupe Peak Area be removed as a source of state tax income and made a National Park? Yes 24.6 per cent; No 75.4 per cent.

10. Should the federal government be responsible for removing the Salt Cedars along the Pecos River? Yes 8.8 per cent; No 91.2 per cent.

Of the 100 people answering "yes" to a final question, "Do you own property along the Pecos River?", 74 opposed federal government eradication of the salt cedar bushes, even though it was on their own land, and 26 favored the federal aid program.

It is a pleasure, indeed, for a conservative Republican to have an opportunity of representing this kind of folks in the U. S. House of Representatives!

Mr. and Mrs. Malcom Bolinger and children returned home last week from their vacation trip of three weeks to visit relatives and friends in Colorado, and then in El Paso, Pecos, San Angelo, Fort Worth, and Oglesby.

turned to his home immediately after leaving. He saw a man approach the front door, receive a warm invitation to enter from the dear wife. Through the window he observed them enjoying a martini and endeared conversation together, and then a retreat into another part of the house and careful attention to their secrecy. The suspicious husband, after observing this, scratched his head and said: "If I only knew for sure!"

We publicly offer our commendation to the people of Terrell County for their attention to the welfare of the county in the taking of the typhoid vaccine last Sunday afternoon. One has no way of knowing how much good was done by the inoculations. But we do know that little harm was done.

There were over 800 recipients of the vaccine Sunday and there will be two more inoculations on the next two Sundays to complete the series for immunization.

At this writing Wednesday afternoon, there was only the one case of typhoid reported, though there were rumors of additional cases in town - but unfounded. Any new cases that are reported to the county health officer will be released for the information.
