

FROM A YEAR AGO

County Bank Deposits Decrease 3.6 Per Cent

Deposits at three Parmer County banks were 3.6 per cent below the total for the corresponding period a year ago, according to quarterly statements published by the banks this week.

Deposits at Farwell, Friona and Bovina totalled \$12,590,318.34 on June 29, as compared

to \$13,058,553.94 on June 30 of 1962, a decrease of \$468,235.60.

Most bank officials in the county indicated that the deposit total was pretty good, considering the recently completed wheat harvest in the county, the slimmest from an income standpoint in several years. Mid-year deposit figures

were naturally down from the first quarter's total of \$14,827,095.85, which was an all-time record for the county.

The First National Bank of Bovina, center of the area which

was hardest hit by hail damage to wheat, showed the largest decline in deposits, both by percentage and actual total.

Deposits on June 29 at the (Continued on Page 2)

Board Hires Four Teachers

The Friona School Board voted to offer teaching contracts to three individuals during its regular monthly meeting Monday night, which would reduce to six the number of teachers needed by the school system to make its roster complete for the 1963-64 school term.

A fourth teacher had already been hired. Mrs. David Eddington, who has a year's teaching experience in Wyoming, plus five years of experience as a home demonstration agent, will be the new high school home economics teacher. She replaces Sandra Meek, previously offered a contract, who accepted a position elsewhere.

Those offered contracts on Monday included Claude Spears, who taught the past four years at Claude and has 13 years of teaching experience. Spears will be the high school science instructor.

E. L. McNeal of Byars, Oklahoma, who has taught a year in the Gadsden School District, New Mexico, will be the junior high school science instructor. Mary Hodges, who receives her degree this summer from East

Central State College in Ada, Oklahoma, was offered a contract to teach fourth grade. "We hope to fill our remaining vacancies in a short time. We have several vacancies," said Superintendent of Schools Alton Farr.

In other business, the board accepted the resignations of Ethyl Binger as first grade teacher, and Carolyn Kite, who has been grade school music teacher. Superintendent Farr gave his monthly report on the school budget, and activity fund. All June bills were approved for payment.

School tax collector Dan Ethridge reported that delinquent tax collections for the month of June stood at \$289.66.

Friona Deposits Drop Slightly

Deposits at Friona State Bank were down a fraction of a percentage point at the mid-year call, as compared to the same time a year ago. A statement issued by the bank this year revealed that deposits at Friona totalled \$5,506,747.62 as of June 29.

This figure was just \$42,408.84 less than the total of \$5,549,156.46 which was on deposit on June 30, 1962. This year's total, despite coming on the heels of a poor wheat crop, is only eight-tenths of one per cent below last year's statement, which was the highest on record at the bank for a July statement.

"We're not at all disappointed with our business, all things considered," said Frank A.

Spring, president of the bank. "We had only about 25 per cent of our normal wheat crop this year," Spring said.

He added that the main reason that deposits had remained high so far this year was the exceptionally good crops farmers harvested last fall.

"Our maize crop is looking good, so farmers have a chance to recover somewhat from their wheat losses, although cotton will be down considerably," Spring added.

While deposits were down slightly, total assets at the bank were up by \$34,810.05 over the total for the same statement a year ago. Total assets stood at \$5,986,876.16 on June 29 of this year, compared to \$5,952,066.11 a year ago.

Tractor Pins Youth; Has No Broken Bones

A 19-year-old farm worker miraculously escaped serious injury Tuesday after spending

30 or 40 minutes pinned beneath a tractor which turned over in an irrigation ditch.

Victor Godines, 19, escaped with no broken bones although being pinned under the right rear wheel of a tractor he was driving on the Noyle Wood farm.

Godines had been pulling a tandem disk when the plow got into a ditch. He got a chain, and backed the tractor up, hoping to hook onto the plow, when the huge machine flipped over and pinned him in the ditch. "At first we tried to jack the tractor up, but decided it was too risky," said Wood. "If the tractor had moved, it would have slid farther on him, and that might have been tragic," he said.

Wood then called for a winch truck at Parmer County Implement Company, and asked for an ambulance, both of which were rushed to the scene. Godines, meanwhile, was experiencing severe pain.

The winch truck lifted the tractor safely off the injured young man, and he was rushed to Parmer County Community Hospital, where X-Rays showed that he had no broken bones.

Godines was pinned under the concave portion of the wheel, which may have prevented further injury. One foot and ankle were out from under the wheel. It rested mainly on his legs and chest. "He's probably lucky to be alive, much less having no broken bones," said Wood.

He added that (Wood) had suffered a severe sprained ankle about a week ago when he stepped from this same tractor. "This might be a good time to sell the tractor, that is, if anyone would have it," Wood joked.

Two Released On \$2500 Bond

Steve Styles and Roger Dets were released on \$2,500 bond at Parmer County courthouse last week.

Frank Crump has been indicted on a charge of removal of mortgaged property.

Jim Allen, charged with drunkenness, paid a \$27.50 fine in Judge Thornton's justice of the peace court.

CARS IN CRASH . . . The pictures above show the automobiles involved in the crash Sunday at Clay's Corner which killed a Muleshoe youth, Jimmy Farrell Chandler. The top photo shows Chandler's car, which was overturned. The bottom picture shows the car driven by Orville Harris of Portales, N. M.

ON HIGHWAY 214

Muleshoe Youth Is County Wreck Fatality

A young man from Muleshoe who was employed by D. B. Ivy of the Lazbuddie community became Parmer County's second traffic fatality of the year in a two-car crash Sunday at Clay's

Corner. Jimmy Farrell Chandler, 20, who was traveling south on State Highway 214, was killed instantly when his 1960 model automobile struck one driven by

Orville J. Harris, 53, of Portales, N.M. Harris, a Portales businessman, had attended church services in Hart, and was traveling west on Farm Road 145. He was taken to Green Memorial Hospital in Muleshoe, where doctors said he had head and neck injuries as well as face lacerations.

The impact of the crash flipped Chandler's car, and he was pinned between the door post of the car and a highway sign post.

The fatal crash came just four miles from the spot where the county's first rural fatality was recorded in May.

Chandler, a native of Oklahoma, had lived in Muleshoe three years. Survivors include his parents, Mr. and Mrs. Noah Chandler of Sentinel, Okla., four brothers, Don, Clarmon and J. L., all of Muleshoe, a brother, Bobby, who is in the U. S. Army, and his grandmother, Laura Chandler of Muleshoe.

Petit Jury Named; To Convene Monday

The names of 35 petit jurors for the July term of district court in Parmer County were released early this week. The jurors are to report Monday, July 15, 1:30 p.m.

Listed are G. L. Cranfill, E. H. Childs, Raymond Milner, Mrs. L. F. Bruns, Tommy Paine, Hoyt Eubanks, D. C. Her-ring, Elvin Johnston, Otho Whitefield, Davis Gully, C. V. Potts, John Hand, Mrs. Troy Armstrong, Marvin Huguley, Bill Dollar, T. P. Griffith, Ralph Broyles, W. H. Long, T. L. Bur-

leson Jr., James Robinson, Fred Curtis, Elmo Dean, Alfred Moody and Wesley Barnes.

Also J. D. Kirkpatrick, Mrs. C. R. Brandon Jr., Claude Miller, Ben Foster Jr., Reardon Wenner, Dewitt Precure, J. L. Ray, Eddie R. Hutto, Harold Hawkins, Fern Barnett, Ewell Mitchell, Durwood Bell, Mrs. J. T. Hammonds, L. B. Ham-bright, Russell O'Brian, T. L. Gleason, Frank Hunt, Mrs. Joe B. Douglas, Jim Roy Daniels, C. C. Mathews Jr., Ira B. Wim-berley, J. L. Ivy, Gilbert Schue-ler and Riley Goodnough.

NEW OFFICE . . . Friona's newest office building, being built by Bill Sheehan for the Sheehan-Yarborough law office, is taking on a "finished" aspect as outside work nears completion.

SUMMER PASTIME . . . Jerald Reed, son of Mr. and Mrs. Leo Reed of Friona displays his "buggy" which he devised from lumber scraps and wheels. Fellow about to get a free ride is James Ray Stevick, son of Mr. and Mrs. Glen Stevick.

School Opening Is September 2

Superintendent of Schools Alton Farr reminded parents of school-age students that Friona schools will begin the fall term on Monday, September 2, which is Labor Day.

"I know that some parents are still planning vacations, and might like to keep in mind the date for the opening of school," Farr said.

County Deposits --

(Continued from Page 1)

Bovina bank were \$1,508,340.24, which were \$278,817.85 less than the \$1,787,158.09 at the same time a year ago. Another reason for Bovina's drop was due to the switch in the county depository from the Bovina bank to Friona State Bank since the June statement of 1962. The county's deposit, which rotates in the three banks, is approximately \$400,000.

The next-largest decrease, although having the most deposits at the present, was by Security State Bank of Farwell. Deposits on June 29 totalled \$5,575,230.48, which was \$147,008.91 below last June's total of \$5,722,239.39.

Bob Anderson, vice president of the Farwell bank, credited last fall's excellent crops with playing a major role in keeping the deposit figure fairly stable. "Also, some of our wheat wasn't too bad. A strip north of Farwell made some pretty good wheat," he said.

Deposits at Friona State Bank, thanks perhaps in part to the addition of the county's deposit, were less than one per cent below last June's total, which was an all-time high for June 30 at the bank.

Friona deposits totalled \$5,506,757.62 on June 29, which was just \$42,408.84 less than the previous year's statement of \$5,549,156.46. Frank Spring, president of Friona State Bank, agreed with Anderson that last fall's good crops were the major reason for deposits holding, since the wheat crop around Friona was considerably below normal.

Total assets at the three banks made a better comparison, totalling \$13,893,947.68 on June 29. They were led by Farwell's \$6,131,822.56, some \$100,000 below last year. Friona's \$5,986,876.16 was actually an increase in that department. Bovina recorded \$1,775,248.96 in assets.

DIRTWORK . . . Highway department workers were busy this week moving tons of dirt which had washed next to State Highway 214 south of Friona during recent rains. They said they had moved over 200 loads of dirt by Tuesday.

Wandering Deer Visit Friona Farms

Three deer paid a visit to the Friona area Tuesday. Roscoe Parr first noticed the deer, making his first round while plowing Tuesday morning.

"I saw them off to my left about 75 yards, but I wasn't sure what it was. As I drew closer, the tractor scared them, and they began to run away. Then I could tell they were deer," said Parr.

Parr said he watched them for about a round and a half, calling his son, Roscoe, Jr., to make a round with him. As the deer left the Parr farm, the younger Parr drove to the Tom Lowellen farm, where the deer were headed.

He and Delton Lowellen watched the trip for several minutes. Lowellen called Bill Ellis, editor of the Star, who came out and snapped pictures of the deer before they finally crossed U. S. Highway 60 and continued their southeastward journey.

Both Parr and Lowellen theorized that the deer came from the "breaks" maybe 50 or 60 miles from Friona. The trio consisted of a buck and two does.

Star Lites --

(Continued from Page 1)

Willie, said "I should have pulled the ball. No use hitting one straight-away with Mays out there. You couldn't ever hit it far enough."

Musial has been talking of retiring from baseball for several years. When he does, there will be mixed emotions throughout the sports world, and even in my family.

For, while I'm a Musial fan, my wife isn't. At least, she says that Stan is her biggest competition with me. I admit that the first thing I do when opening the morning newspaper each morning is to see how Musial did in the previous day's game.

According to Carol, if he didn't get a hit, I'm a pretty grouchy individual around the breakfast table. On the other hand, if he did, I start my day in a happy mood.

Final Swim Classes Set

The final date for enrollment for swimming lessons at Friona Dive-Inn swimming pool this summer will be Wednesday, July 17, according to Baker Duggins, instructor.

The final series of swimming classes will begin Monday, July 22. Registration will begin at 9 a.m. Wednesday, July 17. Classes will be offered to beginners and advanced beginners, as well as junior and senior lifesaving for all ages. The class consists of 15 lessons, given five days per week for three weeks.

Duggins said 70 swimmers were in his current classes. There were 74 in the first class.

Highway 214 south of Friona during recent rains. They said they had moved over 200 loads of dirt by Tuesday.

He didn't insure his car through an independent agent

Without professional insurance advice, he bought the minimum coverage. Later, he had an accident—his fault. To satisfy the judgment against him, he had to sell everything he owned. Even that wasn't enough!

Could this happen to you? Hardly—if you buy your car, home, or business insurance through an independent insurance agent. He analyzes your needs . . . then suggests the kinds and amounts of insurance best for you. If you have a claim—or there's a claim against you—he is there to help you.

As your local independent agents we can give you the facts on worry-free insurance. Call us any time.

The hardest part about parking a Corvair is finding a nickel

That may be a slight overstatement, but such jauntiness comes easily when you're a Corvair owner.

And you can usually back it up—as easily as you can back up a Corvair. You'll find yourself doing that occasionally, if only to adjust the brakes—they're self-adjusting. That's all there is to it, and that's a good example of how delightfully easy Corvair is to own, drive and maintain.

But since we began by talking about driving, let's stick with that awhile. A large factor in the fun of driving a Corvair is the location of its engine in

the rear. Why the rear? It gives Corvair extra traction on any road surface. It provides a nearly flat floor for more useable interior space. Best of all, it produces steering so light, so responsive, you wonder why no other American-made car thought of it.

Corvair's engine is also air cooled, we might add, which means there's no anti-freeze or water for you to add. Ever.

All that pleasure from something so practical almost makes you think Corvair is unique among American cars. Which isn't surprising, because it is!

Herring Only Unbeaten On Last-Ditch Win

Herring Implement Company reigns as the only unbeaten team in Friona summer baseball and continues to lead the Pony League standings with a 5-0 record.

Herring topped Parmer County Implement Company, 14-10 in a game Saturday, having to come from behind in the bottom of the seventh inning to turn the trick.

Parmer County Implement was leading, 10-9, going into the seventh inning, but Herring scored five times. After Glenn Goggans scored the tying run, Danny Baize hit a bases-loaded home run, his third homer of the game, to give Herring the win.

Hub Grain moved into second place with a 14-8 win over Chester - Fleming Gin in a makeup game Saturday. Ted Renner was the winning pitcher, and Bobby Jordan took the loss.

Tuesday night, Hub Grain made its record 3-2 with an

8-4 win over the ginners in a regularly-scheduled game. The teams were tied, 2-2 from the third inning until the fifth. Hub scored once in the fifth, three in the sixth on a home run by Jackie Claborn, and two more in the seventh for the win. Scott Cummings pitched the win, and Don Ready was the loser.

SLIDES SAFE . . . Gary Renner slides home safely with the tying run against Nazareth last Friday, as the Nazareth catcher decided to get out of the way when the throw came in wide.

TWO LEADERS FALL

No Unbeatens Left In Pee Wee League

Only one team remained unbeaten in Friona's summer baseball program after Tuesday night's games. Herring Implement, leading the Pony League with a 5-0 record, is the only perfect-record team left.

A week ago, there were two unbeaten teams in the Pee Wee League, Parmer County Pump's BJ Bees and Ethridge-Spring Agency, but both fell by the wayside.

The BJ Bees handed Ethridge-Spring its first loss on Saturday, 4-2. Gary Pope limited the losers to just two hits.

The BJ Bees collected three hits off losing pitcher Bryan Hall.

Tuesday night, Bainum Butane made its second win of the season a big one by knocking the BJ Bees from the unbeaten list, 2-1. Bill Bailey pitched a one-hitter for the winners. Johnny Bandy collected the losers' only hit in the third inning.

The BJ Bees scored in the first, aided by a base on balls, to take a 1-0 lead, but Bainum scored single runs in the second and fourth to take the win. Gary Pope was the loser.

WINNING RUN . . . Floyd Reeve crosses home plate with the winning run against Nazareth last Friday, as Gerber, the visiting catcher stands helplessly. The run gave Friona an 8-7 win.

Junior Tourney Shaping Up

Plans are underway for a junior golf tournament in Friona August 20-21.

"We plan to have four flights for the boys and one for girls," says Joe Coronado, golf pro. The boys' divisions would be in age groups nine and 10; 11 and 12, 13 and 14, and 15 through 17. The girls flight would be all ages.

IRRIGATION LEAGUE

Friona Nine Finishes Strong ; Eyes Playoffs

Friona closed out the regular season in the Irrigation League last night at Tulia, and now awaits the league playoffs.

The team made its season record 16-2, and won its 12th and 13th straight games on Friday and Sunday, rallying for an 8-7 win against Nazareth here Friday, and then strengthening its hold on first place with a

6-1 win at Silverton Sunday.

Friona scored four runs in the first inning against Nazareth, as Neal Floyd doubled, Darrell Read singled, and Jimmy Collier homered, for a 4-0 lead. But Nazareth came back for a 7-4 lead, helped considerably by four Friona errors.

Friona rallied for a pair of runs in the seventh, on singles

by Read, Collier and David Patterson, then scored the tying run in the eighth on a single by Gary Renner, who scored on pitcher S. D. Baize's sacrifice fly. The home team pulled out the win in the bottom half of the ninth, when Patterson reached base on a throwing error, Floyd Reeve, his runner, moved to third on wild pitches, and scored on Floyd's single to left. Baize went all the way, and had to pitch out of trouble in the latter innings.

The team beat Silverton Sunday as Read limited the losers to four hits and Friona played errorless baseball. The team took a 2-0 lead in the second on two errors, a hit batter and a fielder's choice.

Friona picked up single runs in the third and fifth, then scored two more to clinch the win in the seventh on singles by Baize, Read and John Renner.

WHAT IS IT? . . . A young snake, caught on the Claude Weir farm recently, has all the markings of a poisonous coral snake, with bright red, yellow and purple bands. According to the Texas Game and Fish Commission's description in a recent publication, however, the species is a "milk snake."

Spring Named Member Of Bankers Committee

Frank A. Spring, president of Friona State Bank, is in Minneapolis today for a meeting of the Agriculture Committee of the Independent Bankers Association, to which he was appointed recently. "I hope to find out what people from various agriculture areas in the nation are doing," Spring said. The announcement was made by S. E. Babington, IBA president and president, Brookhaven Bank and Trust Company.

you to our services. If you are seeking Christ, you will find Him here; If you are sorrowing, you may be comforted; if troubled, the peace of God will be found to calm your soul; if discouraged, you may find companionship in the love of fellow-Christians.

We are a New Testament church in a modern world, having no creed but Christ, no book but the Bible; simple yet well-ordered services, and we want you to know our welcome is sincere as we invite you to "come with us and we will do thee good."

There is nothing as important in this community as Jesus Christ and His services. You owe Him your good influence and faithfulness. Let us all fall in love anew with the Christ of Calvary and catch anew the true vision of Christianity, for by so doing we will save ourselves and those we influence.

It is our constant resolve to be a true church after the New Testament pattern. To be sound in teaching, upright in character, devotional in worship, aggressive in work, sacrificial in spirit, and friendly in our meetings. We welcome in our meetings. We welcome in our meetings. We welcome in our meetings.

come to church sunday

Send us bigger and better rattlesnakes

"Once upon a time there was a family of wayward members of a church. Members and deacons and the pastor had visited them to try to get them back to church, but no avail. Then one day while out in the pasture, a large rattlesnake bit a son John, and he became very ill. The doctor said, "About all you can do is pray." The father called the preacher and asked for prayer. This was the preacher's prayer: "O wise and righteous Father, we thank Thee that in Thy wisdom Thou has sent this rattlesnake to bite John in order to bring him to his senses. He has not been inside the church house for years, and it is doubtful that in all that time he has felt the need of prayer. Now we trust that this will be a valuable lesson to him, and that it will lead him to genuine repentance. And now, O Father, wilt Thou send another snake to bite Sam, and another one to bite Jim, and a BIG ONE to bite the old man. We have been doing everything we know for years to restore them, but to no avail. It seems that all our combined efforts would not do what this snake has done. We thus conclude that the only thing left that will do this family any good is more rattlesnakes. So, Lord, send us bigger and better rattlesnakes. We Pray in Jesus' name, Amen." I hope the rattlesnakes don't get you unless the Lord sends them. I hope you will get back into the Lord's work without a disaster.

AT MONDAY MEETING

Council Approves Final Payment On New Tower

The Friona City Council approved payments totalling \$10,469.53 for the balance due on the new city water tower at its regular monthly meeting Monday night.

The Council paid the final of three installments to Chicago Bridge and Iron Company, totalling \$7,398.60, and authorized the payment of engineering fees to the city engineer of \$3,070.93.

In other business, the council authorized payment of \$603,133

for engineering fees on the sealcoating of twenty blocks of pavement in the city earlier this year.

City Manager Arley L. (Jake) Outland was authorized to seek bids for approximately 2500 feet of six-inch water main for extensions in the Staley and Drake additions, and approximately 1050 feet of two and one quarter pipe for service lines. For the main pipe, it was suggested that bids be sought both on cast iron and concrete as-

bestos pipe.

The council accepted the preliminary reading of proposed ordinance number 357, which would protect the city from undue expenses arising out of the new state annexation laws.

Dr. Lee Cranfill was appointed as new city health officer, upon the recommendation of Dr. George Anderson, who submitted a letter of resignation, due to his moving from Friona.

The Litter Maid contract was

discussed by the council. It was brought out that the company has failed to reach a working agreement to keep the boxes emptied, as per contracts with city merchants.

The council discussed the need for improvements on State Highway 214 leading south from the city, and talked of proposed changes in the road.

In his monthly summary of activities, Outland reported:

Administrative -- Work continued on the compilation of the

current tax roll.

A notice was received on June 22 from Friona State Bank, informing that interest in the amount of \$100 had been paid to the Improvement-Contingency Fund.

There were eight transfers of City property reported by the County Clerk's office during the month. There were 10 Purchase and 87 Work Orders processed during the Month.

There were only three building permits issued. Two for new residences with an estimated cost of \$44,500 and one used residence move-in for an estimated cost of \$5,000 for a total estimate of \$49,500 for the month.

Water Department -- Records show that 12,574,300 gallons of water were pumped and 7,389,000 gallons accounted for in sales to indicate an efficiency of only 58 per cent in the distribution system. This low percentage can be attributed to the high percentage last month and the offsetting of the overlapping reading period. Daily usage amounted to 419,140 gallons per day which is relatively low for this time of year. Rainfall during the month amounted to 7.07 inches and fell over nine different days. Rainfall for the first six months of the year amounted to 11.77 inches.

Electrical connections were made and electro-rustproofing installation completed at the north water tower on June 28. Repair of the main was made and the new tower put into service on June 12.

During the process of filling the new tower, the west plant ground storage reservoir was emptied of water and cleaned of sand and silt. Approximately 15 cu. yds. of sand were removed which is the accumulation from the time the well and reservoir were put into service in early 1961. This work was completed on June 18.

Approximately three cubic yards of washed gravel were packed into the well casing of well No. 5 at the west plant on June 28.

A water main connection was completed at the west end of Staley Addition on June 26 to furnish water for the Eric Rushing contract west of city limits.

There were two new service taps made and one old inactivated to make a total of 898 active services as of June 30, 1963.

Sewer Department -- Records show that approximately 3,588,312 gallons of sewage were pumped during the month to make an average of 119,610 gallons per day. There were 772 Kilowatts of electricity used at the facility.

Semi-annual sewage samples were sent to Austin for analysis on June 10. Two days weed-burning and four days mowing were utilized at the sewage plant in effort to control the weeds.

Fire Department -- Only two fire calls were made during the month. Both were outside the city limits for a total estimated loss of \$5,030.00. Regular drills were held on June 6 and 20. Pumper practice and reloading of hose occupied the first period while truck practice and scheduling of future activities occupied the second period.

A representative of the State Board of Insurance visited the department on June 20. The department was found to be in excellent condition and all trucks passed the pumping requirements. His principal recommendation was that a night dispatcher be provided to act in emergencies that occur after hours.

Police Department -- There were 31 arrests made during the month, 23 for traffic violations; 2 contributing to delinquency of a minor; 2 minors consuming alcohol; 2 run-aways and 2 vagrancies. There was one report of motor vehicle theft, cleared, and two thefts of lawn mowers and one vehicle still carried active.

Five accidents were investigated with no injuries nor hospitalization.

Park-Cemetery Department -- The park was mowed twice during the Month. There were two interments at the cemetery, E. W. Talbot on June 7 and Spanish Baby Galaban on June 19.

Street Department -- Approximately ten days were utilized in alley gradings due to so much rain during the month. Six days were spent in spreading gravel on the recently seal-coated streets and sweeping of gravel to the centers of the streets.

A blow-out on the maintainer

HAPPY WANDERERS . . . Here are the three deer which were snapped on the Tom Lowellen place Tuesday morning while grazing in an alfalfa field.

necessitated the purchase and installation of two new tires on June 24.

Sanitation Department -- The new trash truck arrived on June 9 was serviced on the 10th and put into trash pick-up on the 11th. The services of Mr. Done Stone, Bovins, were pro-

cured to paint the signs on the truck. The truck operates very satisfactorily and the dump-trip-time has been cut in half due to the large cubage of the loader.

Three days were utilized with the dump truck hauling limbs and brush cuttings.

5000 pounds of BHC dust (enough for summers' supply) was purchased on 14th and the first mosquito dusting was made on 20th.

Andy Hensley, former employee of the sanitation department, was reemployed on June 10.

Increase sorghum yields with
Monsanto Anhydrous Ammonia
from
Friona Consumers
Ph. 2121 Or 9071

Grain sorghum residue is low in nitrogen. Decomposition is slow if no nitrogen is added. That's why farmers in this area have been applying Monsanto Anhydrous Ammonia to their soil. Because anhydrous ammonia is a liquid when under pressure, you don't have to wait for granules to dissolve. Monsanto Anhydrous Ammonia starts right to work. You get more nitrogen (82.2%) per pound than from any other carrier. No money spent on bags or bagging costs—not to mention the handling problem. Applicator tanks are filled quickly. And Monsanto Anhydrous Ammonia resists leaching . . . remains "locked" in the soil to work when your crops need it most. Improves moisture efficiency even during drought periods. Just watch your check strip . . . you can see for yourself. Let us help you build your fertilizer program around Monsanto Anhydrous Ammonia for top sorghum yields.

ALL-STARS LISTED

Janet To Be In Fast Company For Game

Baker Duggins, who will be the defensive coach for the annual North-South girls all-star basketball game at Plainview Saturday, July 20, this week announced the players on the "North" squad, which includes Friona's Janet Buckley.

Miss Buckley will be in some fast company on the forward end of the court with such stars as Sue Janes and Elaine Stokes of Sundown; Cheryl Culwell, Tulla; Linda Ice, Glen Rose; Shirley Oles, Claude; Pam Aldridge, Jim Ned; and Drinda Dearing, Brewer (Fort Worth).

The North's defense will consist of the following team members: Anita (Butch) Starker, Happy; Kay Clark, Slidell; Linda Gayle Thomas, Brock; Carol Correll, Duncanville; Bobbie Gregory, Roosevelt; Debbie Rountree, Hamlin; Peggy Davis,

Abernathy; and Kathy Jaresh, Dorchester.

"We're familiar with most of the offensive girls, and know they are top notch, I'm sure the defensive squad is equally as good -- I'm just not as well acquainted with those girls," Duggins said. He pointed out that the only member of the defensive squad whom he had met in game action was the Starker girl from Happy. "If she's any indication, then it's a good defensive group," he added.

In addition to helping coach the North squad for the seventh annual girls basketball classic, Duggins will also present a lecture during the clinic which runs Friday and Saturday. Duggins' topic will be "Driving for the Basket."

Miss Buckley will report to Plainview on Thursday, July 18, for her first workout with the

all-stars. She has been working out in the local gym during the past two weeks. There will be four regular workouts for the all-stars at Plainview.

While in Plainview, the girls will be guests of the Plainview Chamber of Commerce, and will be guests of the Wayland College Flying Queens for a basketball demonstration.

The game will be at 8 p.m. Saturday, July 20.

"Another thing I've been meaning to speak to you about... I don't like the way you pronounce OUR last name!"

TOURNEY SET

Friona Country Club will hold a Scotch foursome tournament Sunday, Golf pro Joe Coronado invites those who plan to participate to sign up by Saturday, or call him no later than Sunday morning.

Drillers Maintain Intermediate Lead

Friona Drilling and Brookfield Drilling remained tied for the lead in Friona's Intermediate League, each scoring wins

during the past week, and Friona State Bank strengthened its hold on third place with two wins during the week.

The bank scored a 14-1 win over Friona Star-Hurst Stores on July 4, making plenty of fireworks with 10 hits. Johnny Barker and Randy Schwab teamed up to hurl a one-hitter at Star-Hurst, Schwab pitched the first two innings and Barker the last two. Joe Coronado took the loss.

Brookfield had to eke out a 12-11 win over McCaslin Lumber the same day, to keep in a tie for the lead. The winners had 12 hits, McCaslin had eight hits. The losers scored five runs in the top of the fifth to close the gap, but never were able to take the lead.

Larry Graves was the winning pitcher, relieved by Ramey Beene and Jim Peace. Isadora Cordova went the distance for McCaslin.

On Monday, Friona Drilling handed Reeve Chevrolet an 11-3 loss to again tie up the standings. The drillers used nine hits and seven walks for its runs. Reeve had seven hits and collected six walks. Mitch Terry was the winner and Jim Schlenker the loser. Friona Drilling scored five runs in the bottom of the fourth inning to ice the victory.

Also on Monday, Friona State Bank edged McCaslin Lumber, 7-5. Although outhit 7-6, the bank overcame a 3-2 McCaslin lead in the second inning with a pair of runs, and were never headed after that.

Watering Lawn Sometimes Detrimental

Shallow watering encourages growth of grass roots near the soil surface. This, in turn, makes your lawn increasingly dependent on surface moisture. Should you then forget to water, your lawn will be more susceptible to drought than if you had not watered.

Hand sprinkling may wash off the dust and make the grass green for a few hours, but it

can do permanent damage to grasses while encouraging shallow-rooted crab grass.

Never water the lawn unless you can apply enough to wet the soil to a depth of at least six inches. To do this requires more water than you may think. The actual amount depends on soil texture. Clay soils and those high in organic matter require

more water per application than do sandy soils. On the other hand, soils which require more water to wet them do not require watering as frequently.

Wanda Ready Feted With Bridal Shower

A bridal shower in Fellowship Hall of Friona Methodist Church from 3 to 5 p.m. Tuesday was a courtesy for Wanda Ready, who will become the bride of Joe Reeve Thursday.

Hostesses were Mesdames Leonard Coffey, Clifford Crow, Ed White, Bill Nunn, Otho Whitefield, E. H. Bradshaw, J. E. Knight, L. A. Milligan, Carl Maurer, George Treider, Lura Bradley and Wes Long.

The serving table was covered with a white lace cloth over purple and centered with a floral arrangement which was presented to the honoree. Guests were registered by Mary Knight, Andrea Milligan and Martha Knight served punch and cookies.

Those attending and sending

gifts were Mesdames Glenn Reeve Sr., J. P. Ready, Mae Holder, Lillian McLellan, Kenyth Cass, Don Reeve, Glenn Reeve Jr., Dwight O'Brian, F. W. Reeve, Bert Shackelford, Pearl McClain and William Beene.

Also Mesdames Robert H. Osborn, Fay Reeve, Esther O'Rear, James Buckley, R. L. Fleming, C. W. Dixon, Edward White, Gene Wright, Pearl Kinsley, Oscar Baxter, Sam Williams, Charles Allen, L. R. White, Ernest Osborn, Frank Truitt, O. C. Jones, Harry Hamilton and Truett Bagwell.

Also Mesdames G. B. Buake, Kenneth O'Brian, Roy Slagle, Tulon White, Sloan Osborn, W. S. Ingram, Ralph Taylor, Cayson Jones, W. L. Edelman, J. D. Sanders, Frank A. Spring, Earl Drake, Fred Barker Jr., Aubrey Rhodes, Tom O'Brian, Andy Hurst Jr. and Charlie Balnum.

Also Mesdames O. L. Rankin, John Burrow, Jim Guinn, H. L. Outland, Alton Farr, Walter Cunningham, Wesley Foster, Howard Mayfield, Dalton Caffey, C. L. Vestal, Mike Ellis, Calla Sparkman, Deon Awtrey, Marion Fite, Jim Johnston, George Jones, Jim McLean, M. M. Elder, Neal Fuks and Bill Turner.

Also Mesdames Flake Barber, Roy G. Clements, Guy Latta, Forrest Osborn, Joe Talley, Russel O'Brian, Allen Stewart,

W. S. Crow, Joy Carlson, Ray Dean Fleming, Bill Flippin, W. M. Massie, Wright Williams, D. C. Herring and Buck Fallwell.

Also Mesdames Loyde Brewer, Grover Goggans, Mamie Guyer, Charles Lovelace, Melinda Schlenker, Elmo Dean and Billy Sifford.

Also Max Reeve, Joe Ayers, Janet Buckley, Andrea Milligan, Mary Knight, Annette Jennings, Martha Knight, Dianne Jennings, Jimette McLean, LaVoyce Burrow, Cynthia Guinn, Judy Taylor, Joy Morton, Jeanne Taylor, Willene Baxter, Karen Osborn, Karen O'Brian, Marce Lynn Massie, Carolyn Herring, Merylene Massie, Lola Goodwine, Sandra Beene and Mary Reeve.

Robin Taylor Honored With Party

Robin Kay Taylor, who was observing her seventh birthday, was honored with a party in the home of her parents, Mr. and Mrs. L. D. Taylor, Friday afternoon.

Following a game session birthday cake, ice cream and punch were served. Favors were whistles.

Guests were Mrs. J. L. Brooks, Hereford, grandmother of the honoree, Renee and Paula Taylor, Cindy Campbell, Margie Stewart, Paula Dean and Kimberly Taylor.

Courtesies July Honor Bride Elect

Mrs. Flake Barber honored Wanda Ready, bride-elect of Joe Reeve, with a kitchen shower in her home recently. Sandwiches, chips, cold drinks and candy were served.

Others present were Willene Baxter, June Phillips, Sandra Hoover, Sharon Reeve, Kay Johnson, Patti Jones, Cynthia Guinn, Merylene Massie, Carolin Guinn, Marce Lynn Massie, Mary Ann Roberts, Eve Braunschweiger, Janet Buckley, Kay Burleson, Mrs. Glenn Reeve Sr. and Mrs. J. P. Ready.

A lingerie shower in the Troy Ray home from 3 to 5 p.m. Tuesday was also a courtesy for Miss Ready. Hostesses were Carol Ray, Sharon Reeve, LaVoyce Burrow, Andrea Milligan, Iva Ben Parr, Eve Braunschweiger and Mrs. Glendel Jones.

Refreshments of chips, dips, party sandwiches, cookies and cold drinks were served. Those present were Mesdames J. P. Ready, Glenn E. Reeve Sr., J. E. Knight, Don Reeve and Glenn E. Reeve Jr. Also Diana Taylor, Mary Ann Roberts, Dianne Taylor, Cynthia Guinn, Sandra Hoover, Barbara Fallwell, Mary Knight, Willene Baxter, Martha Knight, Kay Johnson and Karen Osborn.

Party Honors Kathy Anderson

Kathy Anderson, who is moving to Phoenix with her parents, Mr. and Mrs. George M. Anderson, was guest of honor at a party in the Paul Hall home Tuesday afternoon.

Hostesses were Roxanne Hall, Rhonda Ragsdale and Susan Vestal. Following an outdoor game session refreshments were served. The honoree was presented a friendship bracelet as a going away gift.

Others present were Donna Parr, Janet Mingus, Danny Kendrick, David McFarland, Shirley Smith, Mitch Terry, Joe Bill Jones, Richard Dickson, Jerry Shelton and Miles Lillard.

Sally Cooper Born Friday

Word has been received in Friona of the birth of a baby girl to Mr. and Mrs. James Cooper of Alice, Texas. She was born at 10:30 p.m. July 5, weighed 9 lbs., 6 ozs. and was named Sally Louise.

She is the second daughter for the couple, who have a daughter, Jamie, 2.

Maternal grandparents are Mr. and Mrs. W. J. LaFavers, Friona. Mrs. Eva Emerson, the maternal great-grandmother.

United Press International

Put a thin powder puff dipped in talcum in the heel of each shoe. You'll walk lighter and feel fresher all day long.

For an unusual taste in salad dressing, mash one banana into a cup of mayonnaise.

Run one of baby's cotton swabs around the rim of paint cans to remove the excess paint that prevents the top from closing completely.

Store brown sugar in a jar with prunes. The prunes absorb sweetness from the sugar and the sugar takes some of the moisture from the prunes.

Hang clothes out to air and scrub the interior of the closet with a strong baking soda solution. One cup of soda per bucket of hot water to overcome dank midwemy aromas.

A teaspoon of cream of tartar in the wash and rinse water erases rust stains from most clothes.

To make summer "slipcovers," tuck and pin attractive bath towels over sofas and chairs. These are cool to sit on and easy to launder.

A coat of wax on the chrome trim of kitchen chairs and tables keeps them from rusting.

Remove splattered paint from tile with nail polish remover.

Wool should be treated for moth protection — now.

A gasoline bath will bring back the sparkle of rhinestone pins. After the pins have soaked five minutes, rub the jewelry dry with a flannel cloth.

When using a ladder on soft ground, put each leg of the ladder into a one-pound coffee can firmly secured.

After using grits, corn meal or other items poured from a spout, tape the spout with a piece of cellophane tape. The ingredients will stay fresh longer.

Wax wood floors every six to eight months.

Baking soda added to baked beans makes them more digestible.

When boiling old potatoes, use a little milk in the water to keep the spuds from turning dark.

Glit picture frames will have a lovely luster if they are rubbed with a little turpentine.

If your cement or flagstone terrace needs brightening, hose down, sprinkle with dry sal soda concentrated and leave overnight. Next morning wet it again, go over it lightly with a long handled scrub brush and the job's done.

Never leave furs in covers or bags for long periods. They need freely circulating air.

Before refilling salt and pepper shakers give them a good sudsy washing. Use a toothpick to loosen any seasoning clogging the holes.

A ring mold gives a new appearance to familiar meat loaf. Fill the center with rice or potatoes which have been cooked in tomato juice.

Mr. And Mrs. Dennis J. Bennett

Morning Ceremony Unites Judy Taylor, D. Bennett

In a 11:45 a.m. ceremony at First Baptist Church Sunday Judy Taylor, daughter of Mr. and Mrs. Ralph Taylor, became the bride of Dennis J. Bennett, son of Mrs. Jack Dooley, Baltimore, Md.

The double ring vows were read by Rev. Bill Burton, pastor, before the altar which was decorated with tall white baskets of yellow gladioli, at the close of the morning service, Mrs. Roy V. Miller Sr. played the wedding march, Rev. Burton sang "The Wedding Prayer."

Jeanne Taylor was her sister's only attendant. She wore a yellow disciplined cotton dress designed with a fitted bodice, scoop neckline and full skirt highlighted with an overlay of lace. Her corsage was white carnations and yellow roses and her headpiece was a net circlet attached to three yellow roses.

Mike Taylor, brother of the bride, was ring bearer and Terry Flannagin, Amarillo, was the best man.

The bride, who was escorted to the altar and given in marriage by her father, wore a street length dress of white silk organza re-embroidered with white satin over taffeta. The fitted bodice was designed with a scoop neckline which dipped to form a v in the back. Her scalloped veil of tulle enhanced with teardrop sequins and seed pearls fell from a hat of white peau de soie. She carried a bouquet of yellow roses with yellow satin streamers tied

Mrs. Jess Smith, Roscoe, spent several days last week visiting in the home of Mr. and Mrs. Jimmy Smith and sons, Steve and Randall. She is Jimmy's mother.

in love knots atop a white Bible, which was a family heirloom. She carried out the tradition of something old, something new, by wearing a blue garter and a penny, minted in the year of her birth, in her shoe.

Mrs. Taylor, mother of the bride, wore a pink silk dress with matching hat and corsage of American Beauty roses. Her accessories were tapestry. Mrs. E. E. Taylor, grandmother of the bride, wore a beige lace dress with bone colored accessories and a corsage of yellow gladioli.

Mrs. Bennett is a 1961 graduate of Friona High School and a student at Northwest Texas Hospital School of Nursing at Amarillo. Her husband is serving in the United States Air Force and has been serving overseas. He will return to Germany to complete his tour of overseas duty which will end in April.

A family dinner was served at noon in Fellowship Hall of the church. Mrs. A. L. Black and daughter, Kitty, arranged the table and assisted with serving. A three tiered wedding cake centered the head table and was served with punch as the dessert course.

Out-of-town guests for the ceremony and dinner were Mr. and Mrs. Harry McCarty, Sally and George, Carlsbad; Mr. and Mrs. Dan Lewis, Danny and Barry and Mrs. J. C. Kelly, Clovis; Mr. and Mrs. Bill Sachse and Melissa, Amarillo; Mr. and Mrs. Wallace Rogers, Bovina.

Also Mrs. Terry Flannagin, Mary Trexler, Kathy Toma, Bea Cruse, Mr. and Mrs. Gerald Daniel, and Mr. and Mrs. Buddy Squyres, Amarillo; Mr. and Mrs. Charles Bass, Denver and Keith Taylor, Fort Collins, Colorado.

I, Charles E. Allen, of the above-named bank, do solemnly swear that this report of condition is true and correct, to the best of my knowledge and belief.

Charles E. Allen

Correct-Attest:
S. H. Osborn
J. G. McFarland
Frank A. Spring
(Directors)

State of Texas, County of Parmer, as:
Sworn to and subscribed before me this 8th day of July, 1963, and I hereby certify that I am not an officer or director of this bank.
My commission expires June 1, 1965.

Iola R. Nelson, Notary Public

Crip, a cat who must have more than one life and may even have the nine cats are supposed to have, caused quite a commotion in the Granville McFarland neighborhood Sunday morning and could have been cited for causing several persons to be late for Sunday School.

When the cat first joined itself to the McFarland family it lost a battle with a group of dogs and carried an injured leg for a long time. Later it lost the claws off its front feet the same way and was unable to get around for awhile.

Without the assistance of John and David, Crip wouldn't have been around long enough to get into more trouble, but they protected him and he finally became physically strong enough to climb a tree and here is where he got into more trouble.

The tree he chose to climb was too tall for the McFarland brothers to reach with a ladder and too weak for them to climb. They tried to coax Crip to descend alone and he made a brave effort but couldn't get down without front claws so was stranded.

John nor David could think of a way to assist Crip and just couldn't bear the thought of having him stay in the tree until he starved.

Think this was where they enlisted the help of their mother, who had been busily occupied with the usual Sunday morning chores and getting the family off to Sunday School on time. Irene suggested that they contact the Friona Volunteer Fire Department and ask for assistance.

Other members of the McFarland family were very puzzled upon seeing the hook and ladder crew in the yard, but due to the absence of any siren, were not unduly alarmed.

Within a few minutes after the Fire Department learned of Crip's plight, he had been rescued and everyone had to rush to make it to Bible classes on time.

Now the McFarlands are wondering what this venturesome cat will get into next.

Members of the Modern Study Club are pleased with progress being made by their library project. A lot of interest has been shown and many books have been read.

Anyone who hasn't yet visited the library is invited to do so. Membership in the library isn't restricted to membership in the club. Any resident of Friona or the surrounding area may

visit the library and check out books.

Temporary location of the library is in the Federated Club House and it is being kept open from nine to eleven each Tuesday morning and Saturday morning.

Changes are being made almost daily in the faculty of Friona schools for the 1963-64 school year. One of our favorite first grade teachers, Mrs. Ethel Bengler, is retiring. She is one of the most dedicated teachers the Floyds have ever had the privilege of knowing.

We first became acquainted with Mrs. Bengler when Geneva started to school and learned to appreciate her very much that year. Later, when Frieda started to school, she was also in Mrs. Bengler's first grade class and our appreciation of this fine teacher was increased.

WELCOME TO FRIONA

Dr. and Mrs. J. L. Humphrey and Dodie Lynn moved to Friona recently from Austin. Dr. Humphrey is the new physician on the Parmer County Community Hospital staff. A native of Brownwood, Dr. Humphrey got his medical training at the University of Texas Medical School at Galveston. He did his college work at the University of New Mexico in Albuquerque, N.M. His wife, Lou, is also a native of Brownwood. Dodie Lynn is three months of age.

A new owner every thirty seconds!

Going OLDS is the Going Thing!

We could say "nearly 1,700 buyers a day," or "over 10,000 new owners a week!" Fact is, Oldsmobile sales are really soaring! And why not? It was a dollar-saving Olds Dynamic 88, for instance, that swept Class "G" in the 1963 Mobil Economy Run! Add stunning, go-places style . . . sensational Rocket performance. No wonder value-wise people are going Olds at such a fantastic rate. Try a gas-saving 88 . . . at your Dealer's now!

—THERE'S "SOMETHING EXTRA" ABOUT OWNING AN OLDSMOBILE!— SEE YOUR OLDSMOBILE QUALITY DEALER! —

HOSPITAL NOTES

ADMISSIONS
SINCE JULY 3, 1963
S. F. Davis, Sudan, med.; Royce A. Martin, Friona, surg.; Hoyt L. Smith, Friona, acc.; Joyce M. Howard, Farwell, surg.; Mrs. Dalton Caffey, Friona, acc.; Benito Cabarrubia, Hereford, med.; Jim Roy Clements, Friona, med.; Gussie Miller, Friona, med.; Karen Sue Harrison, Friona, med.; Martha Schueler, Friona, med.; Mrs. J. C. Stowers, Bovina, med.; Elmer Sam Euler, Friona, med.; Floyd Gonzales, Friona, med.; Weldon Beardin, Friona, surg.; Oralia Reyes, Friona, med.; Mrs. Ralph Shirley, Friona, surg.; Mrs. Herschel Johnson, Friona, med.; Mary Jane Chavez, Friona, med.; Victoria Godines, Friona, acc.; Mrs. Hoyt Smith, Friona, med.; Vernon Dean Kirby, Muleshoe, med.

DISMISSALS:
Mrs. Lonnie Dement and baby boy, Mrs. Virgil Phipps and baby girl, Mrs. Robert Hale, Mrs. T. C. Gardner, S. F. Davis, Francisco Gallegos, Hoyt Smith, Maria Rodriguez, Raymond Fleming, Mrs. Johnny Wilson, Benito Cabarrubia, Mrs. Doyle Wasson and baby boy, D. M. McGuire, Beulah Whaley, Mrs. Ronnie Howard, Doyle Barnard, Mrs. J. C. Stowers, Stephen Lyon, Jim Roy Clements, Weldon Beardin, Floyd Gonzales, Mrs. Walter Schueler, Karen Harrison, Paul Strickland, and Oralia Reyes.

Special taxes on motorists accounted for more than 26 per cent of all tax revenues collected by state governments during fiscal 1962, according to recent figures.

HIT-RUN CAR . . . This car, driven by Ramon Sungla of Bovina, was involved in a hit-and-run accident near Black last Saturday.

INVESTIGATING ACCIDENT . . . Carrol Parker, right, Farmer County Highway Patrolman, indicates the spot where two cars collided at Clay's Corner last Sunday, fatally injuring Jimmy Chandler of Muleshoe. Slightly injured in the crash was a Portales, N.M., businessman, Orville Harris.

Scouts Enjoy Camping Trip

Fifteen Friona Boy Scouts returned Saturday from a week's camping trip to Camp Don Harrington. The boys represented troops 6 and 53. Those attending were Joe Bill Jones, J. n Bob Jones, Eddie and Johnny Barker, Roger Fields, Randy Parr, Joe Bob Mann, Kim Buske, Tim Rhodes, Gary Shirley, Don Gibson, Butch Watkins, Galen Brewer, Bill Buchanan and Joel Osborn. The boys left Sunday, June 30 and returned home the following Saturday. Seven adult workers supervised the boys while on their trip. Scoutmaster Pete Hollis and Hayden Cason were at the camp until Tuesday. Alton Farr stayed Tuesday night and Wednesday. Clyde Fields took over Wednesday night and Thursday.

Bill Lyles, scoutmaster of troop 53, was in charge Thursday night and Friday, and Ralph Shirley and Glenn Reeve, Jr. were there Friday and Saturday. "We're especially thankful for all the assistance we had for the trip," stated Hollis. Curtis Murphree donated the use of a truck for the scouts to make the trip there and back. As a result of the classes attended, eight scouts are eligible for star badges, six for second-class and one for first class. Classes were held each day from 8 until 9 a.m. Included in the studies were archery, rifle range, swimming, nature, soil conservation, rope tying, wood chopping, first aid and wood carving.

The Secretary of the Health, Education and Welfare Department last year spent \$3,500 on telegrams urging support for the Administration's College Aid Bill. Just published Committee hearings reveal the telegrams, each 30 inches long, went to every member of Congress. The HEW building is 2 1/2 blocks from the Capitol. --Public Service Company of Colorado.

The AMA was founded in Philadelphia in 1847 by 250 physicians from 22 states to promote the art and science of medicine and the betterment of public health. Today, 116 years later, its 200,000 members are in all parts of the world practicing some 37 medical specialties. Just over 18,000 of these physicians are in government or military service.

Both troops are planning an awards banquet to give the scouts their achievement badges on August 9.

Scales Serving At Cuban Base

Thomas C. Scales, aviation machinist's mate airman, USN, son of Mr. and Mrs. Charles C. Scales of Friona, is serving at the Naval Station, Guantanamo Bay, Cuba. The naval base is a principal supply and reinforcement station for units of the Second Fleet, the major element of American seapower in the Caribbean.

Baptist Baseballers Are League Champs

The Friona First Baptist Church entry in the Royal Ambassador baseball league has won its league championship with a 15-1 record, and is ready for the playoffs. Friona beat Fairlane Baptist of Amarillo last week to close out its league schedule and clinch the championship. In the playoffs, three other Amarillo teams and Friona will vie for the associational championship. Friona, champs of the Palo Duro League, will play South Lawn, runnerup in the Estacado League, in the first round of the playoffs. Avondale Baptist Church, runnersup to Friona, will meet Immanuel Baptist, champs of the Estacado League, in the other first-round series. Winners of the two series will meet for the associational championship and the right to advance to the district playoffs.

Members of Friona's team include Joe Garcia and Ramey Beene, catchers; Don Ready, pitcher; Johnny Barker, pitcher and first base; Eddie Barker, second base; Billy Burton, third base; Glenn Goggans, shortstop and pitcher; Ronnie Altman, left field; Don Fortenberry, centerfield; Joe Murphree, right field; Richard Dickson, outfield; Tommy Mars, outfield; Job Garcia, outfield; Freddy Batley, outfield; Mike Taylor, outfield and Jerry Stephens, outfield. Kenneth Neill is coach of the team. Roy Clements is his assistant. The team is sponsored by the Men's Brotherhood organization of the church. To be eligible to play in the playoffs, each boy must complete a step in his RA church work. Practically all of the boys have met this requirement, according to Rev. Bill Burton, pastor.

ROCKLAND, ME., COURIER-GAZETTE: "May we suggest that homeowners take a bit tougher attitude when it comes to dealing with itinerant salesman, no matter what they are offering. There have been recent instances bordering on outright fraud. No matter how attractive the offer; the special deal; so much off for any one of a multitude of reasons; a most favorable financing proposal; take the time to pick up the telephone and call the Chamber of Commerce. If the salesman is from a legitimate firm which fully intends to carry out the terms of the offer he is making he will welcome your checking his credentials with the Chamber. If not, he will be gone by the time you dial the number."

Farmers Union Backs Bracero Extension

In correspondence to the National Farmers Union's Washington legislative office, and to Senator Ralph Yarborough, Texas Farmers Union is urging support of a one year extension of PL 78 providing for the importation of Mexican nationals for farm employment. Texas Farmers Union views this program as being necessary to prevent severe hardship resulting from labor shortages in many areas of Texas where domestic labor is not available for farm work. Realizing that the "bracero program" is only a temporary solution to emergency conditions, Texas Farmers Union urges that each individual producer take part in an accelerated and continuing project to completely mechanize cotton and those crops presently requiring hand laborers.

Being Old Fashion With Your Spraying- - - Use The New DACAMINE

USE REGULAR SPRAY EQUIPMENT
DACAMINE herbicides are oil-soluble, viscous, brown liquids which do not precipitate or separate during cold weather. They make a sound, stable emulsion for easy spray application. DACAMINE is sprayed exactly as esters, using the same tanks, pumps, nozzles, strainers and pressures. Oil solubility permits use of DACAMINE in oil sprays, when desired.

TESTS SHOW GREATER EFFECTIVENESS
The sure kill of DACAMINE 2,4-D and 2,4,5-T was demonstrated in tests against the deep-rooted, hard to kill perennials. Instead of quick-browning top kill, DACAMINE goes to the roots, the storage parts and reproductive parts of the plant, killing completely. This results in minimum of re-growth.

TESTS SHOW SAFETY OF DACAMINE
DACAMINE has been proved non-volatile by all the accepted test procedures for volatility. Near susceptible crops, DACAMINE was used at a purposely high rate, 7 times the normal rate. Not one case of crop damage was reported. Tests in all areas show DACAMINE to be as safe as water soluble amines.

SAFE AS AMINES with greater punch
■ Higher percent of kill
■ Essentially odorless
■ Better storage stability
■ Gives broader weed and brush control than water-soluble amines

POWERFUL AS ESTERS with these pluses
■ Non-volatile
■ May be used nearer to susceptible plant species
■ Surer kill on many perennials
■ Superior control of many species of weeds and brush

THE HIGH PLAINS FARM AND HOME

A SUPPLEMENT TO PARMER COUNTY NEWSPAPERS

THURSDAY, JULY 11, 1963

'Tater Time

The potato harvest began in Parmer County last week. In these pictures, the beginning of the harvest near Friona is depicted. At the top left, a worker on the M.A. Black farm north of Friona sacks up the newly-dug potatoes. Successive pictures show Kenneth Neill, manager of Friona Growers and Shippers, admiring some of this year's potatoes with Onesimo Perez, shed foreman. Other pictures show workers emptying a truckload of potatoes into the washing mechanism, the potatoes being separated according to size and grade, sacked into 100-pound sacks, and finally, loaded into the waiting refrigerated boxcar, which will carry Parmer County potatoes to national markets.

Extension Service Issues New Insect Control Guide

Two new insect control guides released by the Texas Agricultural Extension Service deal with vegetable and field crop pests. They are MP-359, "Texas Guide for Controlling Insects on Grain and Forage Crops," and L-255, "Texas Guide for Controlling Insects on Vegetable Crops."

The first publication points out that both ground and air-plane application may be effectively used for controlling insects on field crops. Though some insects are hard to control, the use of recommended pesticides can be a profitable measure.

The bulletin discusses the treatment of seed prior to planting to protect them from such insects as the southern corn rootworm, wireworms and seed maggots. Small grain, rice, grass, alfalfa, and vetch insects are also considered. Several tables give insecticide recommendations for the various pests discussed.

L-255 emphasizes that vegetable insect control is largely a matter of prevention. It says that control measures should begin before insects appear in damaging numbers. The publication covers methods of application, cautions to use with

insecticides, and restrictions on the use of certain chemicals. It also has a section on the control of the corn earworm and the sweet potato weevil.

In addition to tables giving the recommended insecticides and their rates, there is a special section for home gardeners. It deals with some of the problems that are encountered by individuals who garden in their backyards.

For more information about controlling insects on vegetables, grain and forage crops, see your county agricultural agent or write the Agricultural Information Office, College Station, and ask for MP-359 and L-255.

MAKING PLANS for the 4-H Club Workshop which was held Monday are Martha and Mary Coffey with County Home Demonstration Agent, Cricket Taylor. The girls, daughters of Mr. and Mrs. Claude Coffey, are members of the Farwell 4-H Club.

County 4-H Girls To Hold Dress Revue

Parmer County's 4-H Club dress revue will be held in Farwell at the homemaking cottage of Farwell High School Thursday, July 18, at 2 p.m.

eligible to participate. Construction of the garment will be judged in the morning

beginning at 10 a.m. All garments and record books must be in the FHS homemaking department by 9:45 a.m. Thursday.

A senior girl and a junior girl will be chosen to represent Parmer County in the district dress revue in Amarillo July 26.

There will be two divisions in the revue, for juniors and seniors. Any 4-H Club girl enrolled during the current year in a clothing project worked under the supervision of a trained adult leader will be

Grapefruit Flavor Is Research Topic

What causes some grapefruit to be bitter while some is sweet? The answer to this question will be sought in research to be conducted at the University of Oklahoma Research Institute.

The work, which will seek to determine the changes that take place in a grapefruit as it matures, is being done under a contract with the USDA's Agricultural Research Service. It is part of efforts by the service to find new uses and new markets for agricultural products.

The bitterness of grapefruit, particularly in early-season fruit, is believed to be the reason for decreased consumption of the food. The Oklahoma scientists will try to reveal the

chemistry of naringin and other grapefruit constituents that cause the bitterness by analyzing samples of fruit picked at intervals throughout the growing season.

The appearance, accumulation and disappearance of the bitter compounds in the fruit will also be studied. Experiments will be conducted to determine if these compounds decrease as the fruit grows and ripens or whether they are diluted or converted to less bitter or non-bitter compounds.

The information gained in the research is expected to help ARS scientists devise practical and more accurate methods of controlling or eliminating bitterness from processed grapefruit products.

SAVE FOOD VALUE IN FRUITS AND VEGETABLES -- The season for canning and freezing food is now in full swing with fresh vegetables and fruits on the plentiful list. Vegetables and fruits are important in the diet for general good health, but if most of the nutrients are lost by using the wrong methods in preparation and processing, then we will have a filler, not a nutritious food for good health.

Limp, wilted vegetables lose one-third or more of their nutritive food value through a process of oxidation. That old slogan, "One hour from the garden to the can," still holds true whether you are conserving by freezing or canning. Gather only what can be processed in a short time.

ONE-STEP METHOD MAKES CANNING EASIER -- The latest method for canning vegetables is a one-step cold-pack method. Directions are simple . . . As an example, take snap beans. Begin by washing all pint or quart jars in hot soapy water and rinse well. It is not necessary to sterilize jars since the pressure canner must be used (Continued on next page)

New Process May Give Cotton A Needed Boost

Old King Cotton, Texas' major farm crop, may get a much needed shot in the arm from experiments aimed at "fluffing it up a little!"

For years, the cotton usage has been sagging downward from the competition of synthetic fibers. As new "miracle fibers" were developed in laboratories, cotton was pushed further aside.

Now comes a project to make cotton knit goods more nearly like wool -- without the scratch! The goal is to give cotton knit clothing like sweaters and undergarments more bulk, warmth and dimensional stability. A scientific breakthrough which would fluff up the cotton thread and make it stay that way regardless of cleaning processes could widen markets for cotton -- particularly on winter-wear clothing.

The advent of wash and wear cotton clothing a few years ago

proved to be a good stimulant for the cotton market. Scientists had succeeded in "stabilizing" the cotton thread with finishing agents to give the cloth its wash-wear properties. However, when dimensional stability of cotton was achieved, no increase in bulk or warmth of the material was gained.

Scientists now believe, however, that means of applying the chemicals can be developed that will also increase the bulk and warmth of cotton fabric. Ordinarily, fabrics treated with wash-wear chemicals are passed through squeeze rolls to remove excess treating solution, the high-pressure squeezing at present reduces the bulkiness of the fabric.

The task now is to find new processing methods that will

impregnate fabrics with the proper amount of chemicals, fluff up the fabric to increase its bulk and warmth, and stabilize the fabric in its bulky state. The end result would be a fabric much like wool, with many new uses opening up for cotton in the winter garment trade.

Clemson Agricultural College in South Carolina is in charge of the cotton research program in cooperation with the United States Department of Agriculture. The eyes of Texas cotton growers and market men will be on the South Carolina research laboratory for the next year or so. If the experiments are successful, King Cotton may recapture much of its clothing trade volume that has been lost in recent years.

Cotton Congress Features Research

Cotton research projects including several to be discussed in Dallas July 12 hold the key to the future of the industry, American Cotton Congress chairman Burriss C. Jackson said.

The Dallas session of the Cotton Congress in the Statler-Hilton Hotel will feature reports on new developments in research and marketing. The meeting opens at 9:30 a.m. in the Embassy Ballroom.

If cotton is to prosper, Jackson said, markets must be developed to expand utilization. At the same time, research must produce ways to reduce production costs in order for cotton to be competitive with world competition and synthetics. Two other Congress sessions including one on July 18 at Midland center on production practices.

The first speaker on the Dallas program will keynote a growing problem facing the cotton business. J. E. Kyser with the Graniteville Co., Augusta, Ga., will discuss reasons cotton mills are replacing cotton

with man made fibers.

Other topics will feature recent advances in utilization research; the use of color as an element of quality evaluation; instrumentation for determining fiber length; and use of a pilot plant in ginning research. A panel from four Texas colleges and universities will report on Cotton Research Committee of Texas activities.

At Home --

In canning all non-acid vegetables.

Use only fresh, young, tender beans. The bean should just be beginning to form in the pod. Wash thoroughly, trim ends and cut into one-inch pieces.

Thus far there is nothing different from the old method of canning snap beans. Now you will note that the fill is different. Pack raw beans tightly into clean jars to one-half inch space at the top of the jar. Add one-half teaspoon salt to pints and one teaspoon to quarts.

Close jar with two-piece lid and place it in the pressure canner. Exhaust canner for 10 minutes, close petcock and process at 10 pounds pressure -- pint jars 20 minutes, quart jars 25 minutes. Remove canner from heat, let pressure return to zero and remove the jars.

This one-step method can also be used for canning fresh lima beans, carrots, cream style corn, whole kernel corn, black-eye peas and summer squash.

For further information check with your home demonstration agent.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

For the first time in thirteen years, there was less than a quorum of Farm Bureau Directors at the regular meeting last week, if our memory serves us correctly. Consequently, a meeting was called for Monday night of this week, to take of current business.

Farmers have probably never been busier than they are now in this area, trying to salvage what is left of crops following the period of heavy rains and consequent heavy weed infestation. But things could be and have been much worse, and we expect farmers to come through with flying colors by the end of the season.

Representative John Dowdy, (D.-Tex.) writes, "It is strange that the court finds a way to ban the Bible from public schools, but can find no way to ban pornography and obscene literature. In its opinions, the court claims it is censorship to ban obscenity; but that Bible reading can be banned as interfering with religious freedom."

With increasing bi-partisan support in the House and Senate, it appears that Farm Bureau's Legislative program, Wheat and Feed Grains Act of 1963 has a good chance of passing, according to Charles Schuman, AFBF President. The administration has not indicated that this is true, but time will tell. It has been a long time since a farm bill of any kind has had as much strong support as this one has.

We have noticed a few plots of blooming bindweed over the county, primarily along roads. We hope that if they are adjoining your farm, you will report them to the highway or county department, and treat any plots extending to your farm land.

We want to remind you again to file for state and federal tax refunds on non-highway used gasolines.

CONSIDER THIS: My son, forget not my law; but let thine heart keep my commandments; For length of days, and long life, and peace, shall they add to thee. Proverbs 3:1-2.

Swordfish, including marlins, are the fastest fish in the sea. They have been timed at 58 miles an hour.

Cool Foods Top "Plentiful" List For Month Of July

Foods just right for serving during hot weather will be in plentiful supply during July, reports the Texas Agricultural Extension Service.

What is more refreshing than iced watermelon, fresh peaches or cold turkey?

These summertime favorites for beating the heat and keeping your energy high are on the U. S. Department of Agriculture's July plentiful foods list for this area.

In addition, the full bounty of summer's abundance of fresh vegetables -- tomatoes, corn, beans, beets and lettuce just to name a few of the most plentiful -- will overflow your market.

Ice cream, cottage cheese, milk and other dairy foods continue plentiful as milk production continues near the spring peak.

Peanut butter and vegetable fats and oils also are plentiful

this July, says the Agricultural Marketing Service -- the USDA agency which checks local, regional and national food stocks before compiling the list.

GEHL

MIXES BEST!

The Gehl Mix-All gives you the best feed-making possible because it thoroughly and more uniformly grinds each ingredient. Just as you can't mix marbles with baseballs, neither can a mixer uniformly mix ingredients of greatly varying sizes.

Gehl's hammermill is the secret of the Mix-All's uniform grinding. The big 507 square inch grinding surface gives high capacity grinding because ingredients are sent through the screen without milling around in the chamber. This means ingredients aren't reduced to fines by the hammers before they go through the screen.

The Gehl hammermill features 66 thin, steel hammers . . . more than other farm mills. They cut . . . not pound . . . each ingredient to just the right size for fast, uniform mixing.

Tests by a leading micro-ingredient manufacturer conclusively proved that the Gehl Mix-All delivers excellent uniformity of feed mixtures with constant percentages of the micro-ingredient from samples taken at all stages of unloading.

In the tests, only 3 ounces of the micro-ingredient contained in a pound of premix were added to 1000 pounds of ground ear corn, 700 pounds of oats and 300 pounds of hay making a total of 2000 pounds. Four samples shown on the graph at the left were taken at the beginning of unloading, at 700 pounds, 1500 pounds and the last feed. Proof positive shows that the Gehl Mix-All delivered feed with a uniformity variation of only .00031 of one per cent.

Booklet Explains Seasonal Variations In Cattle Prices

A knowledge of the seasonal variation in cattle prices is one of the best tools the farmer or ranchman can use to plan a profitable operation.

The chief reason for this seasonal price fluctuation is the change in the number of cattle marketed during different periods of the year, says L-599, "Seasonal Changes in Cattle Prices." Different numbers of cattle are marketed at different seasons due to weather conditions, breeding dates, range conditions and produc-

tion costs, the publication explains. In Texas, as in most of the nation, calves are usually dropped in the spring months and are weaned and sold in the fall months. Therefore, the lowest prices are received in the fall when marketings are greatest and the highest prices in the spring when marketings are at their lowest. The publication points out that the price of higher grading feeder cattle does not vary as much from season to season as that of the lower grades.

Prices noted in the leaflet are the five year averages paid at the Fort Worth Stockyards from 1958 to 1962. The cattle marketed were grouped into four main groups for comparison. They are slaughter steers and heifers, slaughter calves, feeder and stocker steers and feeder and stocker calves. The demand for feeder animals remains strong throughout the year while stocker cattle, to be placed on pasture and ranges, are in more demand in the spring, the leaflet says.

The slaughter calf trade, unique to Texas and a few other areas, has increased recently due to our growing population. These animals were originally grass fat or well finished weaned calves, but today more and more calves are being fed for the slaughter calf market, according to the publication. The market for slaughter calves varies more than any other class of cattle and therefore should be watched closely, it adds. For more information on the

seasonal variation in cattle prices see your county agricultural agent or write the Agricultural Information Office, College Station, Texas.

On The Farm In Parmer County

By DERYL COKER
County Agent

No doubt all of us have heard of the sorghum midge and what it can do to a good grain sorghum crop.

A recent survey has just been completed by Entomologists at Texas Tech and the Experiment Station at Lubbock, and the survey indicates that a serious midge infestation in late planted grain sorghum is possible this season. Whether or not Parmer County will be affected remains to be seen, but all farmers should be on the lookout for midge at the time the heads begin to emerge from the boot.

The adult midge is a small, fragile, orange colored, gnat-like insect about 1/12 inch in length. The majority of midge complete their life cycle in 14 to 16 days. The first generation of the midge usually develops in seed heads of Johnson grass and/or other grasses. The newly-emerged adults may fly several miles to fields of grain sorghum at the time seed-heads begin to emerge from the boot. The female midge lives for only one or two days, and the male lives for a shorter period. The adults mate and the females begin laying eggs soon after emergence. The female lays 50 to 250 eggs. Eggs are deposited in the spikelets soon after the heads appear from the boot. Injury to sorghum grain is caused by the larva which feeds on the internal content of the seed.

Midge emerged from the first Johnson grass head samples taken on June 10. From June 10 to date, midge have been found in Lubbock, Garza, Dawson, Hockley, Crosby, Terry, Lynn, Lamb, Hale, Gaines, Floyd, and Dickens counties. Midge emergence has been noted from several host plants including Johnson grass, Sudan grass, Sorghum alnum and White Tridens. Based upon present findings, all indications are that midge over-wintered in this area.

Timing of insecticide applications is the most important factor in midge control. Chemical control is aimed at the destruction of the adult midge before egg laying begins. Treatment should be made as soon as 90 per cent of the heads have emerged from the boot, but never later than three days after emergence. There is currently no accurate means of predicting an infestation of midge. Previous work has shown that it is usually not profitable to apply chemical control after the midge are found within the sorghum field to be treated. The following in-

THANKS to U. S. disaffection with Red Cuba, Florida is fast becoming the leading sugar cane state, harvesting 139,000 acres in 1962, more than double the 1961 total.

secticides are recommended for midge control:

- (1) Endrin (1.6 lbs/gal) 11/4 pint per acre. Do not apply within 35 days of harvest. Apply only once each season.
- (2) Toxaphene (6 lbs/gal) 1/3 to 1/2 gal per acre. Apply only once after heads have formed. Do not apply over 1/3 gal per acre within 28 days of harvest or over 1/2 gallon within 40 days of harvest. Dairy animals or animals being finished for slaughter should not be pastured in toxaphene treated fields. Do not ensile treated forage.
- (3) Sevin (80 per cent WP) 1 1/4 to 2 1/2 lbs per acre. Sevin may be applied to forage sorghum without limitation. Allow 21 days between last application and harvest of sorghum grain.

BIG AND BRAUNY

The International 660 Diesel And the #48 Wing type Disc Harrow

With 82.93 horsepower on the pto, 74.3 hp* at the draw-bar, the International 660 Diesel deals a knockout punch to your biggest, toughest jobs. It would be seldom that any of your field work would be big enough to say "no" to this mighty six-cylinder power.

Pulling the 21ft, 4900 Lb #48 Disc Harrow

Here's the kind of capacity that makes short work out of big jobs and lets you use the power your large tractors were made to deliver. Twenty-one feet of cutting, churning action digs in to thoroughly work your soil even in toughest, trashiest conditions. And, you'll work with the precise control and ease of handling you're used to with much smaller disk harrows. Dual wheels carry the harrow high for transport, let you pinpoint working depth from hub-deep to just scratch-ing the surface.
