LISTEN TO LUKE

We had the following handed to us last week. We thought it interesting and worthy of reproduction. Credit is given the Bellville Times.

"On a cold blustery morning in January, a young man took the oath of office as chief executive of his nation. He was 43 years of age. Standing at his side was his predecessor, a highly respected general of the armies who just 15 years before had been in command of his country's forces when the Germans were defeated. The new executive celebrated his ascension to office by sponsoring a party that lasted until 3:00 a.m. The chief executive owed his position to a small minority.

"As soon as he took office, the chief executive began to harass big business firms of his nation by threats. Later ignoring the legislative bodies of his country, he sought to regulate by executive order.

"Constitutional government was being replaced by executive decree.

"In order to satisfy the demands of his minority, the chief executive condoned mob violence and endorsed street demonstrations which inevitably resulted in mass arrests. The government courts invariably ruled in favor of the mobs and their leaders who were released for further use in later unlawful activities.

"Encouraged by his success, the chief executive introduced legislation favoring his minority group. Each piece of legislation was introduced with a background of mob violence and the threat of vast street demonstrations, accompanied by singing and civil disobedience.

"This chief executive established a direct communication with the Russian dictatorship and actively supported the non-aggression pact with his nation's enemies to the east — the Russians. "Who was this man? Think! "The year was 1932, the general was von Hindenberg, and the chief executive was Adolph Hitler."

We have read recently where in several places the parents are getting together to write a code of ethics for all their children.

And we see that some of the young people are rebelling. And we don't much blame them. To us, the action shows a lack of responsibility on the part of the parents, and their unwillingness to stand up to their own offspring in disciplinary matters or in matters of conduct and behavior.

The trend seems to be to find something that will be acceptable to all and when the youngun comes in and says he wants to "because everybody else is" that's reason enough! Of course, we are of a generation of warped personalities, of frustration personified, and all that sort of thing, and our generation is fast disappearing. But it might be well for us to remember a few things.

First, when papa — and it was not "the old man" — decided that one of the boys or girls could or couldn't do something, it was not after he had gone to the neighbor to find out what he was going to let his child do. And the only compromising we ever knew of was when he decided whether to use a belt, a harness line, or a switch, and the decision was usually based on what was the handiest! And if we happened to be with neighbor kids when we were all in on something, we took our punishment from the papa of the boy who caught us, then, and in the same way!

And which one of us didn't respect our parents for that kind

Alcoholism Rate High

Educating the public on alcoholism and trying to give aid to alcoholics is a very difficult job. But it is one to which the six-member Texas Commission on Alcoholism and its director, Macon W. Freeman, are devoted.

It is estimated that there are close to 6,000,000 alcoholics in the U.S. with some 300,000 of these in Texas.

Freeman says the alcoholic tries to hide himself. His family and friends try to shield him. Together they succeed so well that most people think he's buried on skid row.

"About three per cent are on skid row. But more than 90 per cent are your neighbors," said Freeman. "They have good jobs. But they are disturbed and their families are disturbed."

He said that for every 100,000 alcoholics who are rehabilitated, another 250,000 get sick. Ministers, doctors, nurses, social workers, Alcoholics Anonymous and

just plain interested citizens are working just that much harder to combat the disease. He said an estimated 50 to 75 per cent of "identified" alcoholics can be cured.

Texas Commission on Alcoholism works for education and rehabilitation through cooperation with other state agencies, and with some 30 community councils on alcoholism.

Texas Is Aviation Minded Texas provides more airports for civilian aircraft than any other state.

A recent survey shows that Texas has 621 civilian and joint-use airports. California, which follows second, has 505.

However, California leads in the number of aircraft - 12,073 - while Texas' civilian aircraft total is 7,325.

Aviation is the subject of a lot of talk among state agencies.

Texas Industrial Commission added a licensed pilot to its community coordination staff.

Parks Pull Visitors

Texas' 46 parks drew 7,200,000 visitors during the 1962-63 fiscal year. That's an all-time high, according to J. Weldon Watson, executive director of the Parks and Wildlife Department.

Of 2,200,000 autos checked, 112,932 were from out of state.

McKenzie Park near Lubbock attracted the most visitors, with 1,800,000, closely followed by Garner Park at Uvalde with more than 1,000,000, and Huntsville with 614,335.

Garner Park was first in campers with 172,683. Huntsville had 93,310 and Inks Lake 38,311. Parks with more than 25,000 campers included Lake Brownwood, Palo Duro Canyon, Possum Kingdom, and Tyler.

Study Colleges

Commission on Higher Education points to the need for top physical facilities, sound undergraduate programs and weeding out of course duplications at new Angelo (San Angelo) and Pan-American (Edinburg) State Colleges.

Commission approved graduate programs at The University of Texas Graduate School of Biomedical Sciences at Houston. But it declined to take any action on a second request for two new doctorate programs at Texas A&M.

Meanwhile, the Governor's Committee on Education Beyond the High School, which is studying college needs, received a setback. Its executive director, Dr. A. B. Martin, resigned due to ill health.

Insurance Rulings

Insurance companies were given until October 28 to submit recommended credit insurance rules after Atty. Gen. Waggoner Carr released an opinion bearing on the \$15,000,000-a-year industry.

State Board of Insurance also announced businessmen will pay lower rates for workmen's compensation insurance coverage. Rate for manufacturing workers will be 3.7 less; for the contracting industry 0.5 less; for the oil industry 2.4 less; and for all others 2.4 less.

Study Book Protests

State Textbook Committee recommended 116 books for public school use after studying written and oral protests against five on economics and three on world geography.

"What we want are books that will tell the students we want

small government, not big government for sound economics," said one witness.

Chairman John W. McFarland, Houston, said some of the objections indicated a lack of understanding of the maturity and thinking level of present-day high school seniors.

CHOOSE EITHER OR BOTH TEXAS 65 PLANS

The Texas 65 Basic Plan is designed for protection against limited hospital and surgical expenses that so frequently occur in the years past 65. It starts paying from the moment expenses begin.

Texas 65 Basic Plan (Premium only \$9.00 a month)

SERVICE	ELIGIBLE EXPENSES for each Benefit Period
Hospital Board and Room Charges	Up to \$12 per day for 31 days
Hospital Charges for Services and Supplies (received while room and board benefits are payable)	You pay the first \$25 — after that, Texas 65 pays up to \$125.
Doctors Visits (while room and board benefits are payable)	Up to \$5 a day the first 2 days, \$3 a day for next 13 days
Surgery and Radioactive Therapy	Up to \$200 according to Surgical Schedule
Anesthetist Service	Up to 10% of surgical benefit

*A Benefit Period will begin when you are admitted to the hospital and will end when you have subsequently spent 90 days free of confinement. A new Benefit Period will begin the next time you are admitted to the hospital after a previous Benefit Period has ended.

EXPENSES NOT COVERED UNDER TEXAS 65 PLANS

If you were confined in a hospital or convalescent nursing home on November 1, 1963, or at any time during the 31 days prior to that date, your coverage will become effective on the first of the month following 31 days free of such confinement.

The Plans do not pay expenses for conditions for which you received treatment or diagnosis during the 90 days before your insurance became effective: (a) incurred during the first 6 months of your coverage, or (b) incurred during a continuing period of hospital or nursing home confinement which commenced during the first 6 months of coverage.

Other expenses not payable under Texas 65 Plans are for: injuries and diseases covered by Workman's Compensation; care for mental and nervous conditions outside a hospital; dental care; eye examinations and glasses; hearing aids; diseases or injuries arising out of any war; services and supplies furnished by any government; those which you would have no legal obligation to pay if you did not have insurance. Benefits under Texas 65 Plans are subject to reduction if you have benefits under other hospital, surgical or medical plans, so that the total benefits will not exceed the actual amounts charged.

Texas 65 Major Medical Plan provides broad benefits beyond basic coverage to give vital protection against the potentially disastrous expenses of prolonged illness and serious accident.

Pays up to \$5,000 during any calendar year and lifetime benefits up to \$10,000

of love and discipline? Maybe here's an answer to that: — The manner and tone of a person's speaking of his father or mother now greatly differs in the age of the person doing the speaking. The amount of respect shown older people is directly related to the age of the person.

We are glad to clarify a statement in last week's paper about the Commissioner's Court's action in regard to payment of ambulance fees. They voted to pay mileage for ambulance runs to accidents and emergencies on the highway when it was impossible to collect the fees for such services. It was not intended to indicate they would pay for any or all bills for services of any kind that were uncollectable. We're still expected to pay for our use of the ambulance.
