

Schedule Of Events Finalized For Maize Days

Porter Roberts, general chairman of Friona's 1963 Maize Days celebration, this week announced the complete schedule for the festive week.

Beginning Monday and continuing all week, the Lone Star Amusement Company will stage rides in the City Park. The company will set up its rides on Sunday, so as to be in operation on Monday. Lone Star plans to bring two new rides to town this year, bringing 10 rides instead of eight as it did last year.

On Thursday, the first major feature of Maize Days will be unreeled, the Queen contest, beginning at 8 p. m. at the high school auditorium. Admission of 50 cents and \$1 will be charged.

Friday, things begin happening thick and fast, beginning at

6:30 a. m. with a pancake breakfast sponsored by the Rainbow Girls. The breakfast will be held at the Congregational Church basement.

At 10:30 a. m., the Maize Days Parade will be held on Main Street. Three divisions are judged in the parade: schools, clubs and commercial floats. Organizations, businesses and school classes or groups are invited to enter floats.

At noon Friday, the Chamber of Commerce and Agriculture will sponsor a luncheon at the school cafeteria. Turkey and dressing will be on the menu, and tickets are \$1.50 for adults and \$1 for children under 12.

The Kids Contests will be held on the football field beginning at 3 p. m., with entrants to report to the press box at 1:30. Groups will enter in five divisions, boys and girls ages 4-6;

boys ages 7-10 and 11-14, girls ages 7-10 and 11-14.

Also beginning at 3 p. m., the tractor rodeo and tub-setting contest will begin on the vacant lots across the street west of the football field.

Friday's activities will come to a close when the Friona Chiefs host the Sudan Hornets in a home game at 8 p. m.

Saturday will again see a full schedule. At 7:30 a. m., Benger Air Park will host its annual fly-in breakfast, with flying enthusiasts from throughout the area expected to take part.

At 9 a. m. at the airport, a special skydiving exhibition will be given.

The beard-growing contest will be judged at 11:30 a. m. Saturday in front of the City Park. The Progressive Study

Club will hold its drawing for the "money doll." The Antique Club will stage a harmonica contest.

At noon, the free barbecue will be served at the park, with members of the Friona Volunteer Fire Department helping with the serving. At 3 p. m. Saturday, the Friona Junior Chamber of Commerce will sponsor a donkey baseball game at Reeve Field. At 5 p. m. the last official feature of the celebration will be a drawing sponsored by the Fire Department, featuring a used pickup as prize.

Both Saturday and Sunday, the Friona Antique Club will hold an antique display and contest in the City Park. Household goods, horsedrawn vehicles, and motor vehicles 30 years old or older are eligible to be entered.

WHISKERED WORKER . . . Glenn Reeve, Jr., puts finishing touches on one of the many decorations which currently are bedecking Friona streets and businesses. The decorations were put up on Monday by members of the Friona Volunteer Fire Department.

FRIONA, TEXAS THURSDAY, SEPTEMBER 5, 1963 TEN CENTS

THE FRIONA STAR

VOLUME 41, NUMBER 40 10 PAGES SECTION 1

DEADLINE FRIDAY

Nineteen Enter Queen Contest

Nineteen entrants have been received in Friona's annual Maize Days Queen Contest, which will be held next Thursday. Deadline for entering contestants is Friday, September 5.

The contest is open to girls who are residents of Farmer County, are between the ages of 16 and 18, and who are high school students in Farmer County this fall. Sponsoring organizations must mail an entry fee to the Friona Chamber of Commerce and Agriculture, Box 905, Friona.

As of Wednesday morning, the following entrants had been received: (sponsors names in parenthesis):

Sheryl Long (Hub Grain); Carolyn Herring (Farwell Feed Lots); Marla Lynn Massie (Friona Lions); Nergis Yazgan (Hurst's Variety); Karen Osborn (Modern Study Club); Rose Ann Greeson (Dive-Inn Swimming Pool); Joyce Rodgers (Progressive Study Club); Also Merylene Massie (Hurst's Department Store); Janelle Daniel (Hub Home Demon-

stration Club); Lois Moyer (Friona State Bank); Nan Lillard (Claborn Funeral Home); Cathy Bailey (Black Grain Company); Jeannie Taylor (Friona Home Demonstration Club).

Also Dianne Taylor (Friona Brake and Wheel); Barbara Lloyd (Friona Star); Elizabeth Drager (Bovina Wheat Growers); Diana Taylor (Bl-Wize Drug); Ann Prewett (Taylor Barber and Beauty Shops); Cheryl Neill (Foster's).

The girls will begin their evening next Thursday with a buffet supper at Friona Country Club, beginning at 5:30 p. m. At the buffet, the judges will get a chance to meet the girls, and judging will begin at this time.

All entrants are to meet at the home of Mrs. Bill Baxter, one of the committee members for the queen contest, today at 4 p. m. The meeting will allow the girls to receive instructions which will benefit them during the contest. The Baxter residence is 1105 West Fifth Street.

Winners in the queen's contest will receive cash prizes of \$50 (first), \$30 (second) and \$20 (third). All entrants will receive a charm as a token of the occasion.

Johnny Linn, manager of Radio Station KDHN in Dimmitt, will be the master of ceremonies for the contest. Linn, formerly with Station KGNC, is remembered best as "Uncle Jay."

This year for the first time, an admission charge will be made for the contest, which is the first big attraction during Friona's Maize Days celebration. Admission will be 50 cents for children and \$1 for adults.

The queen will be featured on a float during next Friday's Maize Days parade, beginning at 10:30 a. m. She will reign over the remainder of the celebration, and for the first time, will be a member of the panel of judges for the beard-growing contest, which will be held at 11:30 a. m., prior to the free barbecue in the city park.

VIOLATORS BEWARE . . . Members of the Friona Jaycees are out to enforce the "no-shave" rule during Maize Days, by placing violators in jail in the City Park. Here, Joe Reeve and Robbie Osborn are trying the jail out with two fellow members, Ronald Smiley and C. H. Veazey.

Jaycees To Enforce Beard Or Permit Rule

Friona Junior Chamber of Commerce members will begin enforcing the shave permit or beard rule in Friona this weekend, according to Robbie Osborn, chairman of the beard-growing contest.

The Jaycees have moved the portable jail onto the City Park lawn, and will begin in earnest to enforce the rules on Saturday. They will continue their "police action" during the following week, which has been designated as "Maize Days."

Men caught downtown during this period who don't have either a beard or a shave permit will be obliged to take a turn in the jail.

The Jaycees will help the Lions Club, who sponsors sale of the permits, by having them available whenever anyone is "arrested." They point out that violators may be caught any number of times during the celebration and the jail treatment will be in order if they haven't purchased their permit.

Osborn encourages all who have grown a beard to take part in the contest. "Those who participate in the contest will be able to lead the chow lines during the free barbecue," he pointed out. Also, they will receive a free pass to the donkey baseball game.

Judges for the beard-growing contest, which will be held at 11:30 a. m. Saturday, September 14, will be mayor Raymond Fleming, Chamber of Commerce and Agriculture president Woody Fleming, and the Maize Days Queen, who will be selected Thursday, September 12.

Prizes of \$7.50, \$5 and \$2 will be awarded the top beards. Osborn says that length, style and so forth will all be considered together—the judges will merely select the three beards they consider the best of the lot.

SELL-OUT EXPECTED

Rivals Chiefs And Steers Open Season Here Friday

Football takes the spotlight in Friona for 1963 beginning at 8 p. m. tomorrow when old-time rival Farwell comes to town to open the season against the Chiefs at Chieftain Field. A capacity crowd is expected.

For Friona, it will be a revitalized eleven that takes the field, once again in an effort to snap a mounting losing streak which currently stands at 27 straight games and 33 of the last 34 games.

It will be a tough chore to snap the streak in the opener, since Farwell brings virtually the same team to town which downed Friona, 39-0 in last year's season opener at Farwell. The Steers have 13 returning lettermen, seven returning starters from last year's team, and are highly regarded in class A circles.

"I hope people don't place too much emphasis on this first game. Sure, if we could win it, our morale would be boosted 100 per cent. But there are nine games following that one. Don't get me wrong, we're going out Friday with every intention of winning," remarked Coach Don Light this week.

The Chiefs scrimmaged Springlake last Friday, and were able to score once, to the Wolverines' twice. Springlake is rated to fight it out with Farwell in their district.

Light stated that several aspects of the scrimmage disappointed him, but that other things were pleasing. Inability to move the ball was the main problem, and pass defense also concerned him. He indicated that drills this week were encouraging.

"We looked better Tuesday

than we have all year. Our offense seemed to be working perfectly. We neglected most of our defensive drill to keep working on offense, we were doing so well," he said.

Light announced a tentative starting lineup for Friday's game, with several positions not definite. On the line, it will be Larry Buckley at left end, S. D. Balze or Glen Herring at right end, Dale Milner and Mickey Wilson at tackle, Numan Loafman and Bobby Sims at guard and either Ronald Awtry or Joey Taylor at center.

Gary Renner will start at quarterback, Milton Hargus will be at right half, Everett Gee at fullback and either Tommy Baxter or Doug Dodd at left half. The Chiefs will not be lacking for game experience, as all of these players are returnees. The team lost only four seniors from last year's team.

The Chiefs will be at full strength, with the exception of sophomore tackle Eugene Weatherly. The 234-pounder has been advised not to play this year, but may try to see a back specialist to see if his trouble can be corrected.

Farwell will be led by 200-pound quarterback Leon Lovelace, who has been an all-

district performer every year he has played. The "last of the Lovelaces" will be gunning to close out with a successful senior year.

Lovelace heads up what may be one of the best backfields in Farwell's history. Returning starters include Danny Lindop and Jerry Fields at halfback and fullback Jerry Herrington, Roy Donaldson and Danny Huffaker are crowding Lindop and Herrington.

Coach Dempsey Alexander will round out his starting lineup with the following linemen: Jerry Childs at left end; Gilbert Dale at right tackle, Johnny Atkinson at left guard, Ronnie Henson at center, Darrell Crook or Alan Busbice at right guard, Ronnie Ussery or Bill Quickell at right tackle and Butch Ford or Joe White at right end.

Alexander has hopes that his team will better last year's 3-6-1 record.

"It should be a good game. I look for the two teams to be within two or three touchdowns. Friona should win four or five games this season. I just hope they don't get too hostile in the first one," Alexander says.

He pointed out that the game might "mean more" to the Friona team than to the Steers. "They are laying for us, we

know, it's just like a homecoming game to Friona. It's getting that way for us all down the line," he pointed out.

The Farwell coach explained that Seagraves, whom the Steers face in their third game, are the third-ranked class A team in the state. "We could win nine or 10 games, or lose the same number, just as easily," he concluded.

Boosters Name Two Directors For Club

The Friona Booster Club elected two directors at its meeting Monday night, to meet with the three club officers when special action is needed by the club. Ralph Roden and Kenneth Watkins were named directors.

The club is purchasing a new Kodak movie camera to film Friona's football games this fall, and will have the new camera in time for Friday's season opener with Farwell.

Coach Don Light told the group that the new camera would be a vital addition to the athletic department. "Filming is a vital part of our program—we grade the players by the films,"

Light said.

A project has been undertaken by the club, to help finance the purchase of the new camera. Portraits of each member of the 1963 Chieftain team are being prepared, which are to be placed on posters to be sold to Friona merchants, at \$10 each.

The club voted to allow the \$10 charge on the Chieftain pictures to include a regular membership in the club, which ordinarily sells for \$5.

The boosters voted to give the old fieldhouse a new coat of paint, with the project to begin at 5 p. m. today. The coaches and Superintendent of Schools (Continued on Page 2)

Week's Rainfall Figures Vary

The City of Friona measured .49 inches of rainfall during the past week, ranging from .05 on August 29 to .28 on August 31. August's total stood at 2.28, making the total for the year at the end of the month read 17.21 inches, after receiving practically none during the first quarter of the year.

Rainfall varied on farmland, with some farmers east and southeast of Friona apparently benefitting more than others.

Temperatures during the past week were as follows:

Date	High	Low
August 29	93	64
August 30	75	62
August 31	71	63
September 1	80	62
September 2	87	62
September 3	85	62
September 4	87	60

1963 CHIEFTAINS . . . Friona's football squad, which lined up for the photograph this week, is 48 men strong. In the back row are Lonnie Ellis, Eldon Long, Ray Braxton, Travis Graves, Jesse Shirley, Tommie Sherley, Joe Mabry and Tim Herring. Second row—Coach Bob Owen, Larry Johnson, Larry Buckley, Eugene Weatherly, Darrell Collier, Bobby Sims, Glen Herring, Jerry Parker, Jacky Clark. Third row—Coach C. W. Dukes, Eric Rushing, Greg Jarrell, Wayne Jones, Scott Cummings, Don Collier, Doyle Mabry, Dale Milner, George

Rushing, Neal Lyles. Fourth row—Coach Don Light, Milton Hargus, Gary Renner, Danny Murphee, Jim Snead, Jerry Cass, Tex Phipps, Jackie Stowers, Danny Black. Front row—David Carson, S. D. Balze, Everett Gee, Tommy Baxter, Bob Welch, Ronald Awtry, Newman Loafman, Mickey Wilson and Doug Dodd. Not present for the picture were Ronnie Brookfield and Dennis Howell. Managers are Ronnie Reed, Bobby Perkins and David Perkins.

Staff Photo

Enrollment Is 1200 In Friona Schools

Friona Schools reported a new record enrollment of exactly 1200 students as school began for the 1963-64 term this week. Although the figure was about 50 short of what school officials had expected to enroll, it was 20 more than last September first's record enrollment of 1180.

"We feel that the number will increase still," said Superintendent of Schools Alton Farr. He said that the enrollment figure might jump during the second week of school next week, or again it might wait until later in the fall.

The largest increase came in the lower eight grades, which reported 896 students from the total, compared to 879 a year ago, an increase of 17. High school tallied 304 students this year, three more than the 301 which enrolled last year.

The first grade is once again the largest grade in the school, although it isn't as large as last year. A total of 141 first-graders have enrolled, which is 16 less than last year's figure. However, sizeable increases were noted in the second, fourth and ninth grades, to more than offset the difference.

The sophomore class is the largest class in high school, with 89 members. There are 80 freshmen, 75 juniors and 60 seniors. The high school seniors held a pre-registration last Friday, which facilitated things considerably for Monday's first day of school.

Enrollment by grades was as follows: first—141; second—132; third—104; fourth—113; fifth—104; sixth—109; seventh—98; eighth—95; ninth—80; tenth—89; eleventh—75; twelfth—60.

THIS IS THE TOUGHEST OPPONENT THEY'LL MEET ALL SEASON!

Boosters --

(Continued from Page 1)

Alton Farr were elected as a board to discuss needs of the athletic department, and to report back to the club.

Members of the American Legion were invited to continue their practice of raising the flag prior to each of the Chiefs' home games this season.

Coach Light reported to the group on the progress of the

team, discussing in particular the scrimmage session against Springlake.

Light explained that he was disappointed that the team didn't move the ball better than it did, but was pleased that the team did display some plays which gained good yardage.

"Our pursuit wasn't too good, and our pass defense lagged, but we were pleased that we forced them to resort to passes to score both times," he said. Light explained to the group

about his "challenge" system used for the linemen each Monday, in which a member of a lower team can challenge a player ahead of him with the prospects of replacing him that week.

"We've found this to be a real morale-booster to players on the entire team in the past," Light said.

House rejects bid to cut U. N. funds.

WELCOME TO FRIONA

Mr. and Mrs. Bailey Clements are new residents of Friona. Both are teachers in the Friona school system, Bailey teaches the sixth grade, as well as fifth and sixth grade physical education, and his wife Carol, teaches language-arts in the seventh grade. The newcomers are also newly-weds, having been married since August 3. Both graduated this past May at North Texas State University. They also attended Henderson County Junior College in Athens, where they became acquainted. Carol is a native of Athens, while Bailey calls Pampa home. They are members of the First Baptist Church, and reside at 706 W. 10th Street.

"All the world's a stage and men and women are merely players," is a quotation from Shakespeare, who probably never even heard of maize as a grain . . . much less of Friona's Maize Days as a celebration. However, the stage is just about set for another exciting presentation.

Evidence of much interest in the beard growing contest is in evidence any where Frionans get together these days. Sunday morning Irving West, who has made a good showing in every previous contest, was observed going to church looking much like a shaggy dog.

As the firemen put up the decorations Monday morning several of them looked like a member of some tribe of bearded men. A person just couldn't drive through town without observing many signs of

the upcoming event.

Plans are being made for concession stands in City Park to be operated by various organizations. Members of the Progressive Study Club have Miss Money displayed in her regular location and are selling tickets for ten cents each. She will be given away at noon Saturday.

Porter Roberts, Chamber of Commerce manager and general Maize Days chairman, reports acceptance of several out-of-town organizations for spots in the parade.

Several persons and organizations have planned floats for the parade and window displays.

A large number of young ladies have been entered in the Queen's contest and Uncle Jay has accepted an invitation to emcee this event. In all probability the winner of this con-

Freshman Schedule

An eight-game freshman football schedule has been announced by Coach Don Light, beginning with a game at Farwell next Thursday, September 12.

The team will play Farwell twice, Springlake twice and Tulla twice. In addition, it will have single games against Gattis Junior High School and Dimmitt's freshman team.

The complete schedule is as follows:

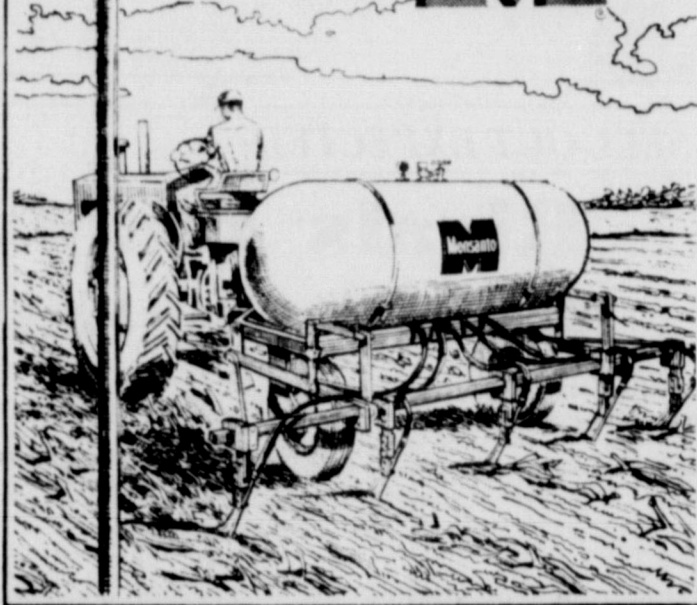

Date	Team	Location	Time
Sept. 12	Farwell, t		7:30
Sept. 21	Gattis, Clovis	11 a.m.	
Oct. 3	Dimmitt, t		6 p.m.
Oct. 10	Springlake, h		6 p.m.
Oct. 24	Farwell, h		7:30
Oct. 31	Springlake, t		6 p.m.
Nov. 7	Tulla, h		7:30
Nov. 14	Tulla, t		7:30

Decompose sorghum residue fast with Monsanto Anhydrous Ammonia from

RHEA GRAIN AND FERTILIZER INC.

Phone Friona 2701 Or Parmer 3196

An application of anhydrous ammonia breaks down sorghum residue fast. No waiting for granules to dissolve — no money spent on bags or bagging. Monsanto Anhydrous Ammonia goes right to work. So if you have some land in sorghum, remember you can get those fields in shape fast with Monsanto Anhydrous Ammonia.

In & Around --

(Continued from Page 2)
test will be a former listener of Uncle Jay's when he read the comic pages of Amarillo Daily News each Sunday morning over KGNC a few years ago. Everything will be ready by the first of next week. You all come!

Another thing that seems to be annual is the need for Girl Scout leaders. While visiting with Olive Massie early this week I learned that more adults are needed to assist with activities under the plan which is being inaugurated.

No special talent is needed except that of enjoying working with girls. Anyone interested in assisting with Girl Scout activities in any way is asked to contact Mrs. Massie. Her telephone number is Parmer 3431.

Probably the most asked question in the bobby sox set this week is "Who is your teacher?" All of our school friends are busy and excited about new teachers, new subjects and things in general.

It is always amusing to hear elementary school boys and girls discussing their teachers. Most conversations begin with questions and progress into heated discussions about which teacher is the "most." Before very many days of

school each student feels sure his teacher is the very best one.

A former Star editor, Vernon Stewart, and his wife, Karen, were Friona visitors this past weekend. Vernon is now

employed by the American at Stamford. He and his wife and little daughter, Misti, visited the Walter Cunninghams here and the Dolph Motens at Bovina.

Walter Smith

Young Democrats Set Organizational Date

A Young Democrats Club for Parmer County was discussed this week, and an organizational meeting scheduled for the Hub Community Center next Monday night beginning at 8 p.m.

Some 15 prospective members discussed forming the club following a meeting of the Parmer County Farmers Union Monday night. Leading the discussion was Jerry Rankin, who is a state committeeman for Lubbock County's Young Democrats organization.

Those between the ages of 16 and 35 are particularly invited to attend next Monday's meeting. Clayton Ray Graef of the Lazbuddie community was elected temporary chairman of the group.

Leon Smith, Jr., president of the Parmer County Farmers Union, expressed hope that anyone interested would attend next week's meeting.

At the regular meeting of the Parmer County FU, the group was addressed by State

Farmers Union president Jay Naman. An ice cream supper was enjoyed by those attending.

John Nazworth Gets Award

Army Specialist Four John O. Nazworth, son of Mr. and Mrs. William J. Nazworth, Friona, qualified as expert in firing the M-14 rifle in Germany early this month.

Specialist Nazworth, a records supervisor in Service Battery of the 37th Artillery's 3d Howitzer Battalion in Germany, entered the Army in October 1959. He arrived overseas in February 1961.

The 34-year-old soldier is a 1948 graduate of Friona High School.

Stubborn, hardened grease spots on the stove can be erased with dry sal soda applied with a damp sponge.

Missionary To Speak Sunday

H. W. Fite Jr., one of the 1725 Foreign Missionaries of the Southern Baptist Convention will speak and show slides of his work in Brazil Sunday night at 7 o'clock at Calvary Baptist Church. Fite is a special Mission appointment, since he is one of the few Agriculture Missionaries.
Mr. and Mrs. Fite and children are now residing at Crosbyton, where the Fites were reared. They are personal friends of Calvary pastor, Audye Wiley, who lived at Crosbyton when they did. "It is a rare and special privilege to have them visit Friona and Calvary Baptist Church," Rev. Wiley said. "Everyone is invited and encouraged to attend," he added.

"The Crisis Of Life"
Joshua 3:16

Our life is built up of acts, every one of them important. They, made by our character, react on our character, and made it. And in the sense that it contributes to an enduring result in character, no act is little. But there are times specially solemn in our life, when the road which invite us diverge at a large angle, and there are such that each step we take on the one, makes return to the other difficult. And if a man is made by his ordinary acts, much more is he made by his crisis acts.

Israel needed crisis virtue; and happily, they had it; at least, a sufficient amount of faith to let them venture, to make them obedient to faithful leaders, and united in their purpose to obey the guidance of their God.

Pastor Of First Baptist Church, COL.,
Rev. I. S. Ansley.

Longhorns Set For Opening Game Friday

Coach Charley Walton announced the following starting lineup for the Lazbuddie Longhorns in their season opener at home against Wilson Friday:

At left end, Hoppy Jennings, left tackle Lewis Seaton, left guard Johnny Mitchell, center Gary Eubanks, left guard either H. W. Moore or Theron Vaughn, right tackle Freddy Embry, right end Max Holt.

In the backfield, Kenneth McGehee will start at quarterback. Mac Brown will be left half, Johnny Mabry will be at full, and right half will be man-

ned Lloyd Bradshaw.

On defense, Richard Gordon will play defensive right end, and Darrell Mason will play defensive right tackle.

"We were well satisfied with our scrimmage against Nazareth last Saturday. We scored three times and allowed none," said Coach.

Brown showed up well on offense. The defense was the bright spot of the scrimmage, Walton said.

"The spirit is holding strong, but after three weeks of workouts, the boys are needing a game," he concluded.

1963 LONGHORNS . . . Here is the 1963 edition of the Lazbuddie Longhorn team. In the back row, left to right are Coach Charley Walton, Gary Eubanks, Lewis Seaton, Kenneth McGehee, Hoppy Jennings, Theron Vaughn, Buddy Embry, Johnny Mabry, Lloyd Bradshaw, H. W. Moore, Gary Mac Brown, and Coach Bobby Robbins. Second row--Pete Espinosa, manager, Richard Gordon, D. H. Foster, Johnny Mitchell, Ricardo Flores, Mack Holt, David Nelson, Billy Jones, Mike Hinkson, Leon Watson, Charles Ramage and Max Eubanks, manager. Front row--Loy Rigner, manager; James Koelzer, Alfred Steinbock, Craig Schumann, Gary Coker, Gary Matthews, Royce Barnes, Timmy Foster, David Wimberley, Sammy Harlan and Danny Miller.

Lazbuddie School Has New Record Enrollment

Some 390 students had enrolled at Lazbuddie schools as the second week of school.

Fuller.

The number attending school the first week of school was an increase of 30 over last year's opening enrollment of 360, and represented a new enrollment record for Lazbuddie for the first of the year. This year's figure was an increase of 8.3 per cent over last year's opening enrollment.

The largest class is the first grade, where 54 students are enrolled. There were 294 students in grade school, and 93 in high school as the week started.

"You normally expect the enrollment to increase during the first week of September, so we shouldn't have any trouble hitting the 400 mark," Fuller said.

He added that he expected the enrollment figure to remain fairly constant during the year, since there were few transient pupils in the school.

Diplomas Awarded To Three Students

Principal Raymond Cook presented diplomas to three young men, who were members of the senior class of 1963, but who failed to qualify for graduation at the end of the spring semester.

They were Davey Thompson, son of Mr. and Mrs. Dave Thompson, Fred Ferguson, whose parents are Mr. and Mrs. V. M. Ferguson, and Neal Parson, son of Mr. and Mrs. Tommy Parson.

Correspondence courses were completed by Thompson and Ferguson and Parson attended summer school at Clovis. Ferguson is employed at Plains Hardware, Parson is employed by Johnson's Corner Grocery and Thompson plans to enroll at South Plains Junior College at Levelland.

Mrs. Ronald Gene Kinsey

Haws-Kinsey Vows Announced Recently

Mr. and Mrs. Leonard A. Haws of 1516 Westchester Drive, Clovis, formerly of Friona, have announced the wedding of their daughter, Margie Ellen, to Ronald Gene Kinsey of Raton, N. Mex. His parents are Mr. and Mrs. Henry Kinsey of Vega.

Wedding vows for the couple were read at The Wedding House in Raton at 7:30 p.m. August 8 by Rev. Eastman. Attendees were Mr. and Mrs. Tony Reale, Raton.

Mrs. Kinsey, a graduate of Friona High School and West Texas State University, Canyon, has done graduate work at University of Colorado at Boulder. She has taught at Fred-

ricksburg, Canyon, Lovington and Muleshoe.

Her husband, a graduate of Vega High School is a former West Texas State student. She plans to teach health and physical education in the Muleshoe schools this term. The couple is presently at home in Muleshoe.

Of Interest To THE WOMEN

Bridal Shower Fetes Mrs. Bill Taylor

Mrs. H. C. Nelson of Dimmitt, district deputy, presented the program at the Monday evening meeting of Friona Rebekah Lodge #308 at Oddfellows Hall. She and her husband were special guests.

State President Ellen Kristz-

Girl Scout Troop Camps Overnight

Nine members of Girl Scout Troop 268 met at Friona Federated Club House at 5:30 p.m. Thursday with bicycles, bedrolls and sack lunches and rode in a group to a grove of trees on the Watson Whaley farm north of town for an overnight camp.

Mrs. Watson Whaley, troop leader, and Mrs. W. M. Massie directed the camp. Upon reaching the camp site, the scouts staked claims and had a nature observation.

Nergis Yazgan, Friona's foreign exchange student, was a special guest. After a song session around a campfire, Miss Yazgan explained many Turkish customs and directed two games popular in her native country.

After breakfast Friday morning the group was divided into three patrols and went hiking. About 9:30 a.m. the scouts bicycled back to the club house.

Girl Scouts participating in the event were Regina Duke, Cindy Campbell, Jayn Massie, Susie Spring, Susan Spring, Amy Sue Renner, Linda Perkins, Patsy McVey and Nancy Scales.

Martins Have Dinner Guests

Sunday dinner guests in the home of Mr. and Mrs. Calvin Martin were Mr. and Mrs. Charley Baxter and son, Kenny, of Clovis and F. S. Truitt.

Also Mr. and Mrs. Louis Baxter, Lynn and Steve, and Mr. and Mrs. Clarence Martin and children.

Jay Lee Widner Born In Hereford

Mr. and Mrs. Leroy Widner of Amarillo became parents of a baby boy at Deaf Smith County Hospital in Hereford August 14. He was named Jay Lee and weighed seven pounds one ounce.

Mr. and Mrs. Charlie Wise, Friona, are paternal grandparents and Mr. and Mrs. Grady Morton, Hereford are maternal grandparents.

SMITH FAMILY MEETS-These seven members of the Smith family and a number of other relatives had an all day gathering Sunday. The reunion began with a basket dinner at noon. They are Dee Smith, Glen Smith, A. L. Smith, Greer Smith, Emma Cassidy, Mae Reeves and Iva Barefield.

Smith Family Reunion Held In Friona Sunday

A large number of members of the Smith family met at Friona Federated Club House for an all day family reunion Sunday. A basket dinner was served at noon and the afternoon was spent visiting and playing games.

Brothers and sisters present included Dee Smith, Nashville, Ark.; Glen Smith, Lubbock; A. L. Smith, Fresno, Calif.; Greer Smith, Nashville, Ark.; Emma Cassidy, Farwell; Mae Reeves, Plainview, Texas, and Iva Barefield, Cutaque.

Those signing the guest register were Mr. and Mrs. C. A. Cassidy and Beverly, Far-

well; Mr. and Mrs. Phil Cassidy, Monty and Belinda, Bovins; Mr. and Mrs. Doyle Cummings, Scott, Terri, Kirk and Lisa, Friona; Mr. and Mrs. A. L. Smith, Fresno, Calif.

Also Mr. and Mrs. Glen T. Smith, Glen Jr. and Peggy, Lubbock; Greer Smith and Pat, Nashville, Ark.; Mr. and Mrs. T. J. Reeves, Plainview, Texas; Mr. and Mrs. James Barefield, Cutaque, Texas; Boyd Turley, Nashville, Ark.; and Mr. Irene Purcell, Dublin, Texas.

Also Mr. and Mrs. Clark Purcell, Grand Prairie, Tex-

as; Mrs. Gladys Fertsch and Paula, San Angelo; Mr. and Mrs. Chester Smith, Aspermont; Mr. and Mrs. Bill Conner, Amarillo; Mrs. Wayne Richards, Gary and Chester, Abilene; Mr. and Mrs. Bud Bailey, Sharon, Charlene and Jeanette, Cutaque.

Also Mrs. Woodrow Kessinger, Grenola, Kansas; Mr. and Mrs. John Bingham and Rhonda, Amarillo; Mr. and Mrs. Jesse Rivers, Chuck and Rick, Amarillo and Mr. and Mrs. Alex Reeves, Charles, Jimmy, David and Stephen, Kress; Mr. and Mrs. Wafford Hawkins, Lubbock.

Also Mr. and Mrs. Bob Smith Jr., Nashville, Ark., Mrs. Mary Canney, Tom and Rick, Tehochapi, Calif., Tommy Bennett, Kress, Mr. and Mrs. Joe Purcell, Grand Prairie, Texas, and Mr. and Mrs. Wafford Hawkins, Lubbock.

Mrs. C.A. Guinn Honored Saturday

Mrs. C. A. Guinn, who observed a birthday Saturday, was honored with a surprise party in her home. A group of friends called on Mrs. Guinn, showered her with gifts, then served iced tea and birthday cake.

Those attending and sending gifts were Mesdames Elmer Euler, Della Osborn, Charlie Rauh, J. P. Wilson, Giles Cobb, Ralph Durstine, Lura Bradley, Charlie Turner and Henry N. White.

Also Mr. and Mrs. Bill Taylor, Mr. and Mrs. Dean Blackburn and Hal, Carolin Guinn, Mrs. Jack Anderson, Mrs. J. R. Southard, Mrs. Pete Hollis and Mrs. Kermit Deaton.

Baby Girl Born To Danny Smiths

The baby girl born to Mr. and Mrs. Danny Smith at Parmer County Community Hospital at 1:30 a.m. Monday was named Dana Beth. She weighed 7 lbs. 9 ozs.

Her grandparents are Mr. and Mrs. Hoyt Smith and Mr. and Mrs. U. S. Akens, all of Friona, Mr. and Mrs. J. L. Smith, Route 2, Friona, and E. W. Rogers, Amarillo, are Dana Beth's great-grandparents.

Hardy Mays Have Visitors Recently

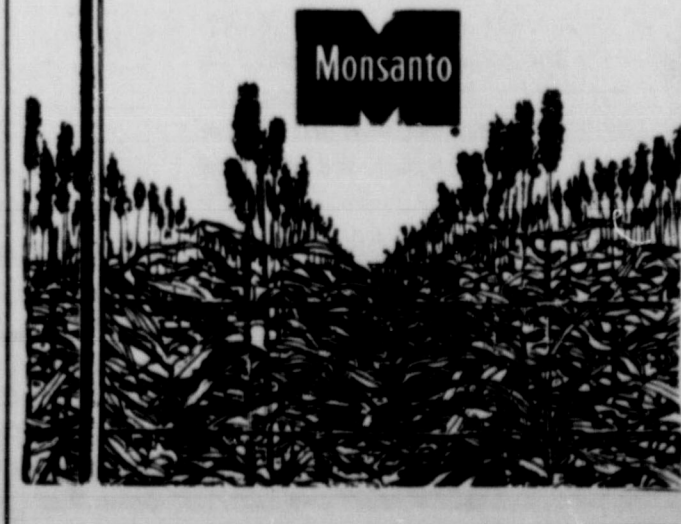

Mr. and Mrs. Eldo May and sons, Arnold and Douglas, of Rush Springs, Okla., spend the weekend visiting in the home of Mr. and Mrs. Hardy May. The men are brothers.

Guests in the May home this week are Mr. and Mrs. Lewis Shott and sons, Ronnie and Ricky, of Ontario, Calif. The Shotts are also visiting in the home of Mr. and Mrs. Newman Jarrell Sr. and Mr. and Mrs. Newman Jarrell Jr. and family.

Increase sorghum yields with Monsanto Anhydrous Ammonia from RHEA GRAIN AND FERTILIZER INC.

Phone Friona 2701 Or Parmer 3196

Grain sorghum residue is low in nitrogen. That's why farmers in this area have been applying Monsanto Anhydrous Ammonia to their soil. Monsanto Anhydrous Ammonia starts right to work. You get more nitrogen (82.2%) per pound than from any other carrier. No money spent on bags or bagging. Monsanto Anhydrous Ammonia resists leaching... remains in the soil, goes to work when your sorghum needs it most. Improves moisture efficiency even during drought periods. Just watch your check strip. Let us give you a cost estimate on your next sorghum crop.

Cordie Potts Family Hosts Family Gathering

Mr. and Mrs. Cordie Potts and sons, Larry and Jay, were hosts at a family gathering in their home in the Rhea community Sunday afternoon.

Those present were Mrs. Amelia Rankin, Fun and Flora Hfu, Claremont, Calif; Mr. and Mrs. Kendall Schlenker, Julie, Cindy and Kenyon, Plainfield, N. J.; Mr. and Mrs. Bob Keller, Paul, Cindy and Tim, Sacramento, Calif.

Also Mr. and Mrs. Melvin Tischler, Kay, Kelly, David and Patricia, Anton; Mr. and Mrs. J. F. Schlenker, Johnny Ray and Patsy, Portales; Mr. and Mrs. N. W. Peyton and Beth Ellen, Texico; Mr. and Mrs. Max Neelley and Gwei, Clovis.

Also Mrs. J. A. Guyer and Mrs. Charlie Lovelace, Leon and Brenda, Farwell; Mrs. Mabelle Hartwell, Mr. and Mrs. Louis Welch, Holly and Lynn; Mr. and Mrs. Carl Schlenker, James, Floyd and Carleen; Mrs. F. T. Schlenker and Mrs. Elmo Dean.

Also Mr. and Mrs. Billy Stiford, Kenny and David; Mr. and Mrs. Dewayne Ridley and Jo and Mr. and Mrs. Joe Mann, Joe Bob, Carla and Joy.

Mrs. Wesley Foster accompanied Mesdames Nolan Froehner, Sam Gilbreath and Buster Cooper of Dimmitt to Santa Fe on a sightseeing trip last week.

FOOTSAVING EDUCATION

by James E. Edwards

Foot Care For Children

If you are a mother of an infant you are having regular check ups for it; be sure to include his feet, because from childhood to maturity ones feet are changing. One foot contains one-fourth of all the bones in the body (26 bones, 33 joints) all of which in infancy are soft and pliable. Ill fitting shoes or socks that are too short even in babyhood causes foot damage.

Continued neglect of your child's feet needs can produce many illnesses, the most common is poor posture, fatigue, irritability, persistent nervousness. Even the enjoyment of the most simple pleasures of walking and running cannot be enjoyed.

Your child's life time foot health and comfort, unless he is born with some defect, is actually up to you.

Next week, - for your information we will present the first principle.

Hargrove-Williams Deliver First Milo

Parmer County's 1963 grain sorghum harvest has begun. The first loads of milo were received at the Farwell Sherley-Anderson - Pitman elevator Monday afternoon. They were delivered by Elmer Hargrove and Don Williams from their farm eight miles south of town.

"This is the earliest by ten days of any grain we have ever received, I believe," said Johnie Williams Monday afternoon as the trucks were rolling into the elevator he manages.

The farmer partnership was paid a bonus of \$25 for the first load of grain for the year. The grain was cutting out approximately 6,000 pounds per acre, according to Williams, and tested 17 per cent moisture.

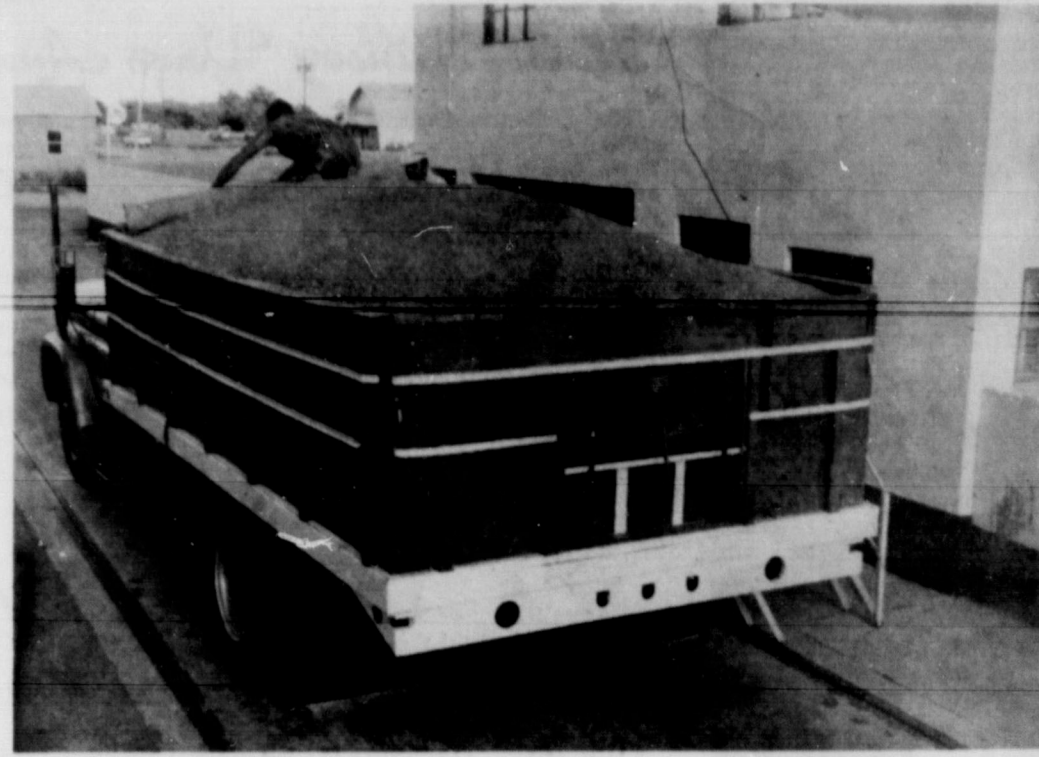

The variety was Steckly Genetic Giant 106, a hybrid.

This will be the beginning of another huge grain sorghum crop for all of the irrigated High Plains, although much of the harvest will be delayed until after frost (if it occurs at

the normal date of around October 20).

There have been some hot and dry spells during the growing season for this year's crop, after a wet and cold spring that got the crop off to a slow start.

All in all, it has been a pretty good year for grain sorghum, compared to a poor one for the cotton crop. Typically, the High Plains farmer will find himself with a good grain crop or a good cotton crop, but seldom does he benefit from bumper crops of both.

FIRST LOAD OF GRAIN in Parmer County for 1963 was delivered in Farwell Monday by Elmer Hargrove and Don Williams, who farm eight miles south of Farwell. The first load came a good two weeks earlier than last year's first.

Farmers Union Meets Monday

The annual meeting of the Farmer County Farmers Union will be held Monday night at the Hub Community Center, according to Leon Smith, Jr., president.

Jay Naman, state president of Farmers Union, will be served. The meeting will begin at 8 p.m.

About 3.4 million farmers in the U. S. manage 165 million acres of timberland.

Screwworm Cases Down; Critical Stage Upcoming

The number of screwworm infestations being detected in the Southwest has dropped to the lowest levels since spring, screwworm eradication officials have announced.

Texas livestock producers, who have been reporting an average of 100 infestations each week during the summer, detected only 13 cases during each of the past two weeks. New Mexico has also experienced a decrease.

At the same time that the native fly population has been declining, sterile fly production

at the Mission "fly factory" is reaching new highs. More than 132 millions flies were reared, sexually sterilized and distributed by airplane in the Southwest last week. Eradication officials expect to bring production up to an average of 135 million flies per week.

The action taken by livestockmen during the next few weeks could well determine whether they will experience the usual build-up of screwworms which follows the arrival of cool, wet weather in the fall, said Dr. S. C. Gartman, U. S. Department of Agriculture veterinarian.

Dr. Gartman, Federal co-director of the eradication program, pointed out that if producers prevent infestations from developing now while the native fly population is low, the danger of a fall build-up will be lessened.

He recommends that producers check their livestock at least twice a week and treat wounds with preventive smears and sprays. Samples should be collected from worm-infested wounds and sent to the Mission laboratory for positive identification. The wound should then be carefully treated to kill all remaining larvae, Dr. Gartman said.

Federal Crop Insurance Has Record Amount Of Protection

With the 1963 crop year well under way, a record total of more than \$470 million of farm crop production investments is protected by Federal Crop Insurance, the U. S. Department of Agriculture announced today.

"Although the sales period for citrus in Florida and oranges and raisins in California has not yet ended, this \$470 million of protection is already the highest in the 25-year history of Federal Crop Insurance," reported Manager John N. Luft of the Federal Crop Insurance Corporation.

Acres and number of crops protected by Federal Crop Insurance has risen sharply this year. Over 420,000 crops on 13 million acres are now insured against production cost losses from natural hazards, Mr. Luft said. This is 57,000 crops and nearly 3.5 million acres above the 1962 crop year.

The \$470 million of protection represents a 30 per cent increase over the 1962 figure of \$358 million. This is the second straight year of better than 30 per cent increase in farm production expense protection, a total of \$200 million increase in the two years since the Crop Insurance service changed from an experimental to an action program of the U. S. Department of Agriculture.

"As Crop Insurance expands by its legislative limit of 100 counties and three new crops a year," Mr. Luft said, "and as improved management, program training, and information practices begin to take effect, we expect to increase this basic protection to a billion dollars within the next five years."

Federal Crop Insurance, now

protecting farmers in 1,096 counties in 38 States, will make its service available in 100 more counties for the 1964 crop year. Names of these counties and the crop programs offered are now being announced. In counties where winter wheat is grown, Crop Insurance salesman are now taking applications, Mr. Luft stated.

Federal Crop Insurance is a voluntary, self-help service offering the farmer protection of his crop investment against loss from all natural hazards to most of the 20 crops on which the insurance is available. Some specialty crops -- such as citrus, raisins, cherries and peaches -- are insured only against loss from particular causes such as freeze and wind damage. The service operates like any other insurance plan, with farmers paying yearly premiums based on local crop production and loss history and with payments for loss being paid from this premium fund.

"This means," explained Mr. Luft, "that the premium payment of a Kansas wheat farmer who had a good crop went to help pay for the crop investment lost by a Florida citrus grower whose grove was damaged by freeze. In other years, the procedure may be reversed, with money from citrus premiums going to a drought-stricken area in Kansas.

"This is a cooperative program," Mr. Luft said, "which

helps growers take a business-like approach to the problem of protecting their capital investments, their credit and their community economic strength. When crop damage hits an area, it hurts everyone for miles around - merchants, equipment dealers, bankers - every business and profession feels the loss. There are ghost towns in this country caused by area-wide crop losses from drought and other natural hazards.

SCD Tour Set Next Thursday

The annual Farmer County Soil Conservation District farm tour will be held next Thursday, beginning at 1 p.m. at the Hub Community Center. Following the tour, the SCD's outstanding "Conservation Farmer of the Year" will be announced.

This year, there will be just a single tour, as opposed to separate tours in various parts of the county, as has been the custom in recent years.

Friena State Bank will furnish refreshments for those attending the tour. Transportation for the tour will be provided by the Soil Conservation Service.

From Hub, the tour will go east to Eddie Joe Hall's farm, where Hall's curved rows for water conservation will be featured. The group will see Billy John Thorn's "cool season" pastures, and the farm-sized feedlot at C. W. Tannahill's farm.

At the A. L. Black farm, the group will see newly-seeded

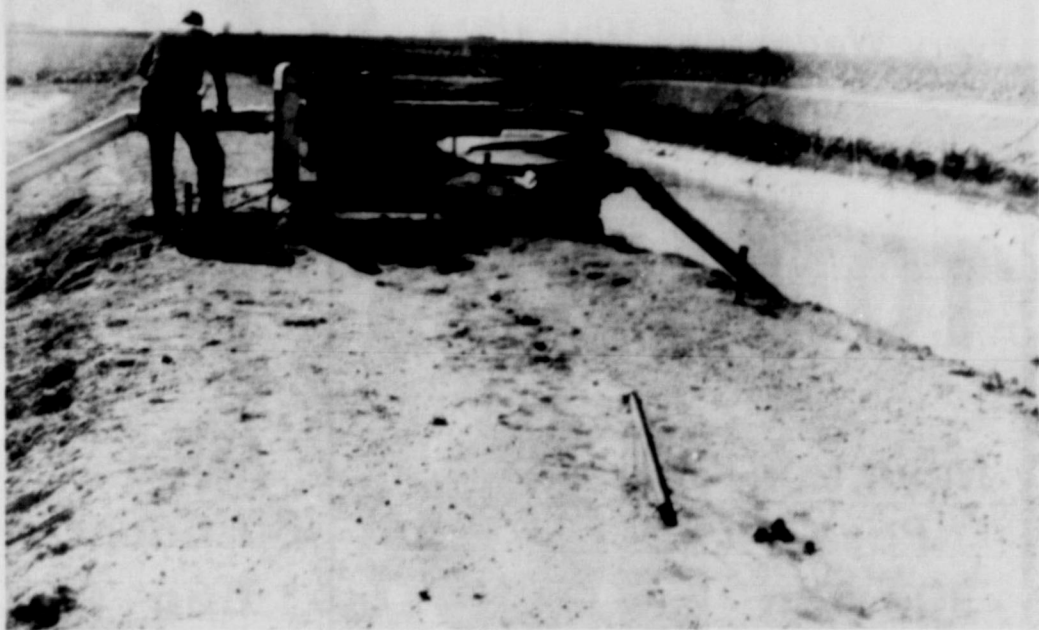

alfalfa, as well as an experimental plot of sugar beets. The Eugene Boggess farm will provide a display of graded borders, as will that of Bob Jones.

A tailwater recovery system will be featured at the J. B. Taylor farm. Gilbert Wenner's Bermudagrass pasture will be seen, as will the grassed waterway at Billy Baxter's farm.

The tour is expected to be finished by 4 p.m. The group will return to the community center for refreshments, and the announcement of the outstanding farmer winner.

WEEDS ARE ROBBERS

Weeds steal nutrients from right under the roots of our cultivated crops. For example, one ragweed plant in a cornfield uses as much moisture as three corn stalks, and a wild mustard weed will take as much nitrogen and phosphorus from the soil as two oat plants and as much water as four oat plants.

TAILWATER RECOVERY SYSTEM such as this one on the J. B. Taylor farm will be featured on the annual Soil Conservation District tour next Thursday, which will originate at the Hub Community Center. SCS PHOTO

Texas Gains On Corn Belt In Fed Cattle Production

Although the Corn Belt still ranks first in the production of

fed cattle, this region is rapidly losing its monopoly in the cattle feeding business, says Ed Uvacek, livestock marketing specialist, Texas Agricultural Extension Service.

In the early 1930's the Corn Belt accounted for 83 per cent of all cattle on feed, but in 1963 only 7.9 million head, or 67 per cent of the feed cattle were from these states. The western states now report over five times as many cattle and calves on feed as they did 30 years ago, says Uvacek.

Texas is not the least of the competitors for a part of this cattle feeding business, says Uvacek. The state will feed three times as many cattle and calves in 1963 as it did in 1958. This means that more than 850 thousand head should be marketed from Texas feedlots this year, he says.

The increased production of feed grain, a stronger demand for fed beef, and good supplies

of feeder calves has stimulated cattle feeding in Texas says the specialist.

In 1958 Texas ranked as the 13th most important cattle-feeding state in the U. S. while in 1963 the state was the 6th most important feeding state. This increase came mainly because of the added number of large feedlots, says Uvacek. About 88 per cent of the cattle and calves on feed were in these lots, which have capacities of 1,000 head and more. In 1956 there were only 63 such lots in the state and now 203 are operating.

Uvacek points out that last year Texas produced 463 million pounds of fed beef and consumed 329 million pounds, making the state a surplus beef producer.

Panhandle Sets Antelope Harvest

Antelope counts west of Dalhart and in five other north Panhandle antelope counties totaled 3,072 head this year.

In order to keep populations well balanced, biologists are recommending the harvest of 350 bucks and 194 does on Panhandle ranches between September 28 - October 1, both days inclusive.

Landowners will receive permits based on the number of surplus antelope present on their property, to be disposed of at the landowner's discretion.

ALLAN H. WHITE, JR.

White Resigns HPUWCD Post

The High Plains Underground Water Conservation District has recently announced the resignation of Allan H. White, Jr.

White, long-time editor of "The Cross Section," the District's monthly publication, and Director of Education, has resigned to accept a position with the Federal Land Bank of Texas. For almost 10 years, he has been a member of the Water District staff.

White, a native of Amherst, is married to the former Helen Heathman of Littlefield. They have two sons and will continue to reside at 4407 - 45th Street in Lubbock.

Coker

By DERYL COKER
County Agent

It will soon be wheat sowing time, and to date there has been very few soil samples submitted.

Practices that you should use in growing a crop, offer the best pay, or in some instances the only pay, when they are found in proper combination with irrigation, crop history, variety, soil type, planting date, weather and other factors often cause more change in response to a practice, than variation from

changing the practice itself. In other words, a chain is just as strong as its weakest link, so don't let fertilizer be your weak link.

Here is the Dee Brown demonstration on wheat. Note that where Phosphorus was not applied, yields fell off sharply. If you study this demonstration you can see that a balanced fertilizer ratio is very important.

FERTILIZER RESULT DEMONSTRATION ON WHEAT CONDUCTED BY: DEE BROWN and Southwestern Great Plains Field Station at Bushland

1. Variety - Concho
2. Fertilizer applied - Sept. 28, preplant
3. Date and rate of seeding - October 2 - 90 pounds per acre
4. Soil type - Amarillo fine sandy loam
5. Irrigation - preplant, plus 3 during growing season
6. Crop history - 1958 millet, no fertilizer, 1959 sesame 70# N/A - 1960 wheat, 100# N/A
7. Remarks - Nitrogen and phosphorus were figured at 10¢ per unit for simplification. Wheat was figured at \$1.75 per bu. Extra harvest cost 10¢ per bu. and extra hauling cost 5¢ per bu.

At Home In Parmer County
By CRICKET B. TAYLOR
County HD Agent

This is the time of year for picnics, patio parties, and outdoor cookery and there are so many wonderful foods to enjoy such as melons, fresh tomatoes and many other vegetables to be used in salads.

The main dish is always important for a picnic or outdoor meal. A quick, easy way to prepare the main dish for a cookout meal is to cook on skewers "Shish-Kabobs" are

delicious and different. The young members of the family love doing this.

There are many possibilities, for instance you may have all meat on the skewer or alternate the meat cubes with a combination of vegetables such as tomato wedges, chunks of carrots, pieces of green pepper and onions.

A basic "Shish-Kabob" is made of boneless meat, cut in one and one-half or two-inch cubes. Beef, lamb, or ham or pork may be used.

With lamb or veal, use the shoulder or leg; with beef, use the round, chuck or rump. Allow one-half to three-quarters pound per person.

Prepare meat by simply brushing with lemon juice and olive oil or marinate from two hours to two days in the following: 1 part lemon juice to three parts olive oil seasoned with crushed garlic, salt and pepper and if you wish, add some thyme, oregano, bay leaf or cummin.

Now string cubes on your skewers -- If you like the meat rare, push the cubes closely together. For all-round crispness, separate the chunks on the skewer. Broil over coals. This takes 10-16 minutes, depending on how well done you want the food.

This can be a new experience in food fare for all members of the family.

HOT WEATHER VS. OVERWEIGHT
Those extra pounds may add up to more discomfort during this hot weather. Some carefully planning now plus lots of will power will lighten the load a bit.

"A safe way to reduce is not an easy way, and an easy way is not a safe way." This may be well worth remembering.

Many factors play a part as to whether a person should reduce and how fast one should lose weight. It is generally agreed by best authorities that normal weight loss should not exceed two pounds per week. This may seem slow, but the most effective weight reduction diets are low in calories, and low carbohydrates (sugar and starches).

A variety and balance of essential foods is still needed by the body. It is really easier for a person to stay on a reducing diet which includes a variety of foods as well as foods familiar to the individual. Calories DO count. Some foods are lower in calories than others, but remember one can eat more calories than their body can burn up, even when eating low-calorie foods too.

Weight control workshops have proven to be a very good method to help the overweight, the right way. There are some things that one can do best alone while for others it can best be done in a group. If further information is needed, come by the Home Demonstration Agent's office for information.

Remember that the thirtieth of September is the last date for filing for refund of the four cents per gallon on farm used gasoline for a full year. Check your state tax invoices while you're at it.

CONSIDER THIS: The horse is prepared against the day of battle; but safety is of the Lord, Proverbs 21:31

Choose From This Selection Of IHC Combines. Be Ready For The Maize Harvest. Be Sure Of Your Crop With A Combine You Can Depend On To Do The Job.

Parmer County Implement Co.
FRIONA PH. 2201

Progress is being made on Johnson's Corner Grocery's new home even though the building, which is just across the street west of Friona Star-Plains Publishers, had an accident last week. A large portion of the north side of the building has been re-built and work is being done on the roof. Some new equipment is being installed at the Coin Operated laundry in the Schueler building. From looking at the equipment on Farmer County Implement Company's new lot a person would think it would be easier to take inventory by acres than by items. Their new building is one of the most attractive additions Friona has had in a long time.

The Ansel Renners are planning another move. This time they plan to stay awhile after having moved several times in the last year or so. Recently the Renners purchased Mrs. Janice Patton's house in the east part of town and will soon be moving from a farm north of town.

Picked this up from Cheer Magazine. Hope you enjoy it. "Most people think of relaxation entirely in physical terms. But relaxation really begins with the mind first. Thoughts of worry, hurry, fear, tighten us up. So-called 'brilliant people' are usually keyed up and run through life like race horses.

Often, too, they create conflict and friction between people in their anxiety by being humble, not brilliant. Humility brings people together in an atmosphere of harmony and peace. Humble people are usually far deeper than those who try to dazzle us with their mental brilliance.

Humble minds are not in constant turmoil; they are relaxed. A certain Jewish Rabbi who lived in the twelfth century once said, "Humility is the mean between arrogance and self-abasement."

In spite of the fact that most Farmer County cotton needs two more months of hot weather, fall is definitely on its way. Outcome of the 1963 cotton crop will depend upon the frost date, so let's all get busy and pull for a late one.

Early each morning a large group of young men meet at Chieftain field for practice then again in the evening lights of the field are visible for miles and announce that a lot of work is being done toward building a fine football team.

Sounds from the band hall several evenings a week indicate that spectators at the State Fair of Texas will be in for

a treat when Friona High School's marching band puts in its appearance in the Cotton Bowl city this fall.

Teachers are busy making lesson plans, buying new materials and doing other odd jobs getting ready for the beginning of school next week. Mothers are just as busy making new dresses, getting birth certificates, taking children for medical and dental check-ups and making other necessary preparations.

College students are home for a last minute visit with families and friends before re-enrolling and things are really beginning to hum as school years plans are being made. Local merchants, farmers, business and professional men, homemakers, office employees and just about everyone else in the vicinity are busy with plans for Maize Days.

All the above activities indicate that fall is definitely here and everyone is busy, but that's just the way we like it.

Although each of us is very busy, let's not get too busy to make our new teachers and other residents feel welcome in our town and community nor to lend a helping hand to anyone less fortunate than ourselves.

Friona's friendly residents are what makes the community what it is, so we need to make certain we do not overlook any opportunity to keep it that way.

The first and worst fraud is to cheat yourself.

Baxters Visit In Colorado

Mr. and Mrs. J. W. Baxter are visiting in the home of Mr. and Mrs. Roy Baxter and family at Rye, Colo. They were taken to Rye by Mr. and Mrs. Joe Baxter of Farwell.

The Joe Baxters were accompanied home by their sons, Guy and Victor, who had been visiting their grandparents, the Roy Baxters.

Mr. and Mrs. Jim Guinn are spending this week in Fayetteville, Ark.

Mrs. Pete Hollis visited relatives in Fayetteville, Ark., last week. She was accompanied home by Mrs. Dess Fallwell, who has been visiting in the home of Mr. and Mrs. Ardean Fallwell several months.

Mrs. Juanita Wright and daughter, Janice, spent the weekend in the home of Rev. and Mrs. Gordon Wright and daughter, Janna, in Lubbock.

Karron Knight Becomes Bride Of Cleatus Rhodes

Mr. and Mrs. Cleatus Rhodes

Miss Karron Lavelle Knight became the bride of Cleatus Eugene Rhodes at noon Sunday at First Baptist Church, Rev. Bill Burton, pastor, read the double ring ceremony before an arrangement of greenery flanked by baskets of orchid gladioli.

Parents of the couple are Mr. and Mrs. Bob Knight and Mr. and Mrs. C. E. Rhodes, all of Friona.

Mrs. Percy Parsons, Olton, aunt of the bride, was matron of honor. She wore an orchid dress with black accessories and a corsage of red roses. Wayne Rhodes, brother of the groom, was best man and Dale Parsons, cousin of the bride, was ring bearer.

The bride, given in marriage by her father, wore a street length dress of white peau de soie. The fitted bodice featured a scoop neckline and was highlighted by tiny covered-but-

tons cascading from the scoop neckline to the end of the tapered waistline.

She wore a gold bracelet, worn by her maternal grandmother, Mrs. J. O. Aday, Muleshoe, at her wedding more than 40 years ago. Her wedding ensemble was new and she wore a blue garter. She also wore a penny, minted in the year of her birth, in her shoe and carried a white orchid bouquet atop a white Bible.

Immediately following the ceremony lunch was served for members of the wedding party, a few close friends, and members of the families of the bridal couple.

Out-of-town guests were Mr. and Mrs. J. O. Aday, Muleshoe; Mr. and Mrs. Percy Parsons and Dale, Olton; Mr. and Mrs. Gaylon Rhodes, Stratford; Mr. and Mrs. R. Q. Whatley and Tommy, Mrs. Maude Neal Knight, Mrs. Benny Pena and children and Patricia Tucker, Muleshoe.

Also Mr. and Mrs. Chester Reynolds and Billie, Canyon; Mr. and Mrs. Bill Crenshaw; Lubbock and David Dee and Bob Bales, Plainview.

First Son Born To Local Couple

Mr. and Mrs. Joel R. Gates became parents of a baby boy at 2:15 a.m. Wednesday at Parmer County Community Hospital. He weighed 6 lbs. 5 ozs. and was named Joel R. Gates Jr.

The father is an employee of Parmer County Pump Company.

Don Williams Born Tuesday

Mr. and Mrs. Paul B. Williams became parents of a baby boy at 6:40 a.m. Tuesday. He weighed 8 lbs. 8 ozs. and was named Don Clemet.

He is the fourth child for the couple. Williams is employed by Maurer Machinery.

Library Meeting Set For Saturday

Final meeting of the summer library program sponsored by Modern Study Club will be from 9:00 a.m. to 10:00 a.m. Saturday September 7. At this time all books checked out are to be returned.

Members of the library committee feel that the project was a success from several standpoints and are working on a plan for an enlarged project. Announcement of opening days will be made later in the Star.

Buskes Have Visitors

Recent guests in the home of Mr. and Mrs. G. B. Buske and Kim have been Mr. and Mrs. Andy Edmondson and daughter, Susan, from Bryan, and Mr. and Mrs. Don Max Vars and Mayla Dawn, Lubbock.

Mr. and Mrs. Rick Styles, Mike and Scott, who are in the process of moving from Lubbock back to Albuquerque, will be here about ten days.

Miss Money Makes Annual Appearance

Again this year the Progressive Study Club is sponsoring a "money doll" project at the Maize Days Celebration. The doll is dressed in 25 one-dollar bills and tickets of ten cents each are now on sale.

Proceeds from the doll tickets will go to help purchase an internal defibrillator for the Parmer County Community Hospital.

Miss Money is on display in the show window at the bank and tickets may be purchased from Progressive Study Club Members. Tickets will also be on sale in the park on Sept. 14, the final day of the Maize Days Celebration. On that day at 12:00 noon the drawing for the doll will be held.

Linda Jo Castleberry Weds Robert Whitson

Miss Linda Jo Castleberry, daughter of Mr. and Mrs. Ray E. Castleberry, and Robert Edd Whitson of Spearman, exchanged wedding vows at 6 p.m. Friday, August 30 in First Baptist Church, Rev. Audye Wiley, pastor of Calvary Baptist Church, read the double ring ceremony.

Parents of the bridegroom are Mr. and Mrs. Jack Whitson, Spearman.

Altar decorations were white gladioli entwined around a wedding ring, spiral candelabra with votive candle cups and baskets of white gladioli banded with greenery. Aisles were marked with votive cups and greenery.

Traditional wedding music was presented by Mrs. Roy V. Miller Sr. at the organ. She also accompanied Suzanne Taylor, soloist, as she sang "Hill" and "Wedding Prayer."

Mrs. Jerry Rankin was matron of honor, Pamela Roden was maid of honor and bridesmaids were Mrs. Lee Jesko, Francis Whitson, Spearman, sister of the bridegroom and Marsha Bristow, Stanton.

Bridal attendants wore identical dresses of open blue silk organza fashioned with low necklines, cap sleeves and fabric bows accenting the waistlines. The skirts were bell shaped and their matching bow head pieces held circular veils of maline.

Connie Wiley was the flower girl. She wore a dress designed similar to those worn by other bridal attendants with a headband of white flowers.

The bridesmaids carried bouquets of long stemmed red roses and the honor attendants carried cascade arrangements of white gladioli and red roses.

The bride, escorted to the altar and given in marriage by her father, wore a formal wedding gown of peau de sole fashioned with a scoop neckline and elbow length sleeves. The bodice was accented by bugle beads and seed pearl embroidery above the semi-controlled skirt with the back fullness falling into a chapel sweep.

Her bouffant veil of French illusion was attached to a crown of seed pearls. Her bouquet was a white Cattleya orchid surrounded by stephanotis.

Tom Whitson, brother of the bridegroom was best man, Groomsman were Dean Horton, Lancaster; Bill Edwards, Fort Worth; Don Stringer, Clovis; Bill Barkely and Fred Groves, Spearman.

Jimmy Castleberry, and Ronnie Castleberry, brothers of the bride, and W. J. Hill, Amarillo, were ushers.

Guests at the reception in Fellowship Hall were registered by Mrs. Ronnie Castleberry. The serving table was covered with a white tulle cloth over satin draped at corners with blue bows and centered with an arrangement of white carnations and blue pom poms centered in candelabra with votive cups.

Mrs. Jimmy Castleberry and Mrs. Ronnie Castleberry served. They were assisted by Mary Ann Boggess, Betty Drake, Mrs. Ralph Roden, Mrs. Bill Baxter, Mrs. James Collier, Mrs. H. T. Magness, Mrs. Curtis Murphee and Mrs. Johnny Mars.

Out-of-town guests signing the register were Timmie Groves, Marilyn Schubert, Mrs. Archa Morse, Mr. and Mrs. Cecil Crawford, Mr. and Mrs. Mike Crawford and Bill Whitson, Spearman; Mrs. Don Stringer, Clovis; Mrs. Betty Caille, Houston, Bill Knight, Levelland.

For a wedding trip to Red River Mrs. Whitson chose a suit of navy silk with black accessories.

Mr. and Mrs. Whitson will be at home at 3205 33rd, Street, Lubbock. She is a graduate of Friona High School and is a sophomore home economics major at Texas Tech, where she is a member of Gamma Phi Beta and Alpha Lambda Delta.

He is a graduate of Spearman High School and is a senior range management major at Texas Tech. He is a member of Sigma Chi.

Courtesies shown Mrs. Whitson include a wedding shower at Spearman, a wedding shower at Friona; a lingerie shower in

Mrs. Robert E. Whitson

the home of Mrs. Jerry Rankin; a kitchen shower at the home of Pam Roden and a brunch in the home of Mrs. Ronnie Castleberry.

The rehearsal dinner was held at the Golden Spread Restaurant in Friona.

Plans have been completed for re-organization of the Ladies Thursday Morning League at Friona Lanes Thursday, September 5 at 9 a.m. Mrs. Steve Messenger invites any woman in the area who desires to participate in activities of this league to attend the meeting.

Former members are especially urged to be present by Mrs. Messenger. Late registrations can be made through Thursday, September 12.

Of Interest To THE WOMEN

Lullaby Shower Fetes Mrs. Donnie Renner

A lullaby shower in the home of Mrs. Bill Schwab recently was a courtesy for Mrs. Donnie Renner. Hostesses with Mrs. Schwab were Mesdames John S. Thompson, Darel Thompson,

Gerald Shavor, Fred Dennis and M. T. Camp.

Those attending and sending gifts were Mesdames John Renner, Johnnie Martinez and daughter, Jerry Renner and J. C. Newton, all of Canyon; Orin McBroom, Happy; Vernon Cozart, Cisco, Texas; Rudolph Renner, Shattuck, Okla.

Also Miss Denise Bender, College Place, Wash.; and Mesdames Karl Bender, H. H. Wels, Tony Miller, Tom Lewellen,

Gary Goetz, Delton Lewellen and daughters, Dee Taylor, Herbert Garth, Claude Edelman, Bill Buth, Leona Wolfe and Dennis Babb.

Mr. and Mrs. Elwin Hartman returned early this week after vacationing at Eagle's Nest, Red River and other points of interest in Northern New Mexico.

Kitchen Shower Honors Bride

Miss Linda Jo Castleberry, who became the bride of Robert Edd Whitson Friday evening, was guest of honor at a kitchen shower in the home of Mr. and Mrs. Ralph Roden recently with Pamela Sue Roden as hostess.

A white lace table cloth over blue satin was used on the serving table which was centered with a flower watering can decorated with blue and white net with ribbon streamers flowing out from the spout to numerous kitchen gadgets.

Those attending were Jimette McLean, Kitty Black, Betty Drake, Mikie Welch, Jeanne Taylor, Mrs. Ronnie Castleberry, Mrs. Bill Baxter, Mrs. Bill Hannold, Mrs. Jon Mack Roden, Mrs. Gib Boatman, Mrs. Robbie Osborn and Mrs. James B. Collier.

Also Mrs. Ralph Taylor, Mrs. Ralph Roden, Mrs. Ray E. Castleberry, Mrs. Jimmy Castleberry and Mrs. Lee Jesko and Angela.

POINTING OUT THE HINGE on the Parr Portable Corrals is Ira Parr, who, along with his dad, Bruce, devised the hinge for their corrals. The Parrs hope to patent the corrals, and plan to build them commercially.

THE HIGH PLAINS FARM AND HOME

PARR PORTABLE CORRALS- ANOTHER COUNTY "FIRST"

The Parr Portable Corrals are going on display this week. Their builders hope that they will open up an entirely new concept in providing corrals for pen-fed cattle.

Bruce and Ira Parr developed the new type of panels last winter and spring, and recently decided that they would put them on the market.

"They were born out of necessity. We needed some pens, and couldn't buy what we wanted, so ended up building them" Bruce says.

Parr points out that the hinge on the individual panels is the key to the new concept. Developed by himself and his son Ira, the hinges are so constructed that any end of any panel may be fastened to any union of any two other panels.

"It is possible to connect as many as six panels at any one union," Ira pointed out.

The Parrs state that their portable fencing is more economical than permanent type fencing. "We figure that we can

construct fences for \$2 to \$3 per foot, depending on the type of fence that is needed," Bruce says.

Bruce and Ira Parr hope to patent their achievement. They have employed a patent attorney to make a search to determine if such a panel-type corral is currently being constructed. So far, they apparently have the inside track.

"A couple of companies in Kansas are constructing pens, but apparently they are not like ours," Bruce said.

Framework for the panels is standard one and one-quarter inch pipe. The framework around the gates is one and one-half inch pipe. The covering is either four inch by four inch four gauge or six by six inch six gauge galvanized mesh. The pens are as effective as permanent pens, and no posts or stakes are required, the Parrs emphasize.

This weekend, they plan to exhibit their corrals in the Curry County Fair in Clovis, N.M. They will also show the corrals at the New Mexico State Fair in Albuquerque, the Tri-State Fair in Amarillo, the "Field Day" at the High Plains Research Foundation at Halfway, and plan to have a display in Friona's Maize Day parade.

The strength of the corrals is increased by their being hooked together. "But they are strong

enough to begin with," Parr said.

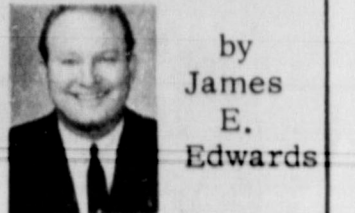

Parr said that one of the determining factors in their decision to build the corrals commercially was that material used in their construction had to be purchased in car-load lots in order to build them reasonably. "By getting the material at mill prices, we feel that we will be able to turn out the corrals at reasonable prices. We think we can have it where a cattle owner could set up pens, feeders and all for around \$15 per head, where as many as 100 cattle are considered."

It was stated that the portable pens might be the answer for small cattle feeders who are not sure how much they want to put into the enterprise, because the system can be added to, taken down, re-sold, or whatever the owner desires. Also, they may be easy to finance.

Another aspect of the portable pens is that they make cleaning a simple matter. The individual panels may be removed for easier cleaning, or the entire corral may be moved. "If a man puts up a permanent corral,

TIMBER NEEDS CITED
Although small farm forests account for one-third of the nation's total commercial forest land, the productivity of this land is far below its potential, says the USDA. This is blamed on substandard stocking after cutting, the fact that owners don't have adequate protection from fire, insects and other losses, and the lack of proper management to produce timber efficiently.

FOOTSAVING EDUCATION

by James E. Edwards

Foot Care For Children #3

Principle #1
Do not encourage your child to walk before he is ready. When his muscles balance and confidence have developed sufficiently, he will stand and walk of his own accord. Remember the saying - One must crawl before he walks.

Principle #2

To prevent the possibility of flat feet, place a thick, soft pad in the bottom of the play pen. This will cause the toes to make grasping movements, thus raising the arches and strengthening the feet. Never permit your child to stand for a long time on a hard flat surface such as linoleum because, to maintain balance he will spread his feet apart, thus depressing his arches.
Cont'd next week.

At Home In Farmer County

By CRICKET B. TAYLOR
County HD Agent

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Have you counted your blessings lately? Everything seldom seems perfect to any of us, but when we stop long enough to take stock of our situation as citizens of America, particularly the United States, we cannot help but be overwhelmed by the freedom and opportunity we enjoy in comparison to any other place on earth. Some of these blessings may even cause us to be lax in our appreciation of the circumstances that made them possible.

You can still, just barely, if you are not too influential an individual, openly oppose and expose movements such as the following:

"Victor Reuther has been identified as the author of a memorandum to the Attorney General dated December 19, 1961 entitled 'Radical Right in America Today.' The purpose of the program is to give direction to a program to destroy all who still believe in the Constitution of the United States of America and who openly fight Communism.

"1. Muzzle the military and stop the recall to active duty of Conservatives such as General James Van Fleet by having the Secretary of Defense issue orders against speeches or articles opposing Communism.
"2. Stop listening pro-Communist organizations exclusively as subversive on the annual Attorney General's list and add the names of conservative organizations so that the list would not be 'top sided'. This would cause the membership of the conservative organizations to drop out as they would not want to be associated with 'subversive' organizations on the Attorney General's list. This would then bring about the end of the organization.

"3. Stop the flow of funds to the conservative organizations by having the Internal Revenue Service investigate all tax-exempt conservative religious and educational organizations and find some pretext for removing tax-exemption.

"4. Use the power of the Federal Communications Commission to investigate radio and television stations carrying conservative programs and see if such stations are violating FCC regulations.
"5. Curb the activities of J. Edgar Hoover who exaggerates the domestic Communist menace at every turn and contributes to the public's frame of mind". Hoover was charged in the memo with 'fifteen years of overstating a problem'.

"The first four points above have been put into action. You

should know that Farm Bureau is on the list and that one Texas County Farm Bureau has been investigated and found to owe thousands of dollars in back taxes and penalties."

The above quote is from "Facts For You", prepared and published by Texas Farm Bureau under the direction of Bill Wedemeyer, Director of Research and Education.

Whether you love, hate, or don't care about Farm Bureau, we hope you will read and re-read the above five points of action that apparently are being activated. See what is happening, then prayerfully write your congressman to let him know you are deeply concerned.

Farm Bureau has always actively and openly opposed Communism both locally and nationally. We are sure that if it is forced to dissolve, it will dissolve opposing Communism. We know the membership and leadership locally and statewide well enough personally to be sure of this. We are sure the same permeates the leadership and membership nationally, as well. How do you stand as an individual American Citizen?
CONSIDER THIS: How much better it is to get wisdom than gold and to get understanding rather to be chosen than silver. Prov. 16:16

COSTLY POUNDS

The last few pounds that go on the beef animal are the most costly for the producer. As cattle become more highly finished, the daily gain decreases and the feed required per pound of gain increases.

VIRUSES WELL FED?

Some poultrymen believe that the stress of modern high density housing makes poultry more susceptible to disease. But others say that it is equally possible that the changes in environment have provided better nutrition, not only for chickens, but also for previously harmless viruses.

Do you have a laundry problem?

Laundering has long been the most dreaded chore in the home, however it has been greatly simplified in the past fifteen years by the use of automatic equipment, and the many new easy-care fabrics. While this has been a wonderful time and energy-saver for homemakers, it has brought on other problems. It all boils down to the fact that even with our wonderful automatic equipment, Mrs. Homemaker still has to be smarter than the equipment to get good end results.

Have you heard this question: "How can homemakers get their husband's wash and wear shirts really clean?"

Well, it's like this -- we can't have our cake and eat it too. Laundry procedures which preserve wash and wear are not the best for good laundry. Do we want white laundry or do we want wrinkle-free? You may have been led to believe you can have both, but that is not so.

Warm to cool water is recommended because it minimizes wrinkling and preserves the wash and wear finish, but it is a recognized fact that hot water is necessary to get the garment clean. To dislodge some oils and dirt, water of 140 to 160 degrees is needed, and this will not preserve the wash and wear finish. You, Mrs. Homemaker will need to make the decision.

Another thing, many water tanks do not deliver 140 to 160 degree water for machines and this may be worth looking into. Clothes are not as clean as you want.

Don't get "carried away" with the idea, though, that the hotter the water, the better, because water above 160 degrees can also create problems, according to the best authorities in the laundry field.

Sometimes the agent gets this question: "Why do clothes turn yellow when dried in an automatic dryer?"

The answer to this is that any yellowing that occurs in drying is a direct result of improper washing. It is directly related to laundering practices involved, rather than the dryer.

One of the most common causes of yellowing is the build-up of suds and residue from over-sudsing. A good way to correct this is to use one-half to three fourths cup of a non-precipitating water softener such as Calgon or White King to each load in 140 to 160 degree water and agitate for a few minutes, and let it go through the entire cycle (do not use any detergent or soap for this.) This procedure is called "stripping" the clothes. After this, decide on a detergent and use it as recommended on the package. (Measure--don't guess). The detergent package directions are usually adequate for the majority of washing machines. There are some unusual conditions that can cause problems such as very hard water, heavy soil, or large capacity of some machines, which require greater amounts of detergent.

Only low-sudsing detergents are recommended for front-loading machines. It is impossible to get a sufficient concentration of high-sudsing detergent without generating too many suds.

In top-loading machine washers, suds do not create so much soil removal problems; however they can create mechanical problems in machines.

If you have laundry questions, come by the Home Demonstration Agent's office in the Court House in Farwell, or write, or call, for information on your laundry problem. Telephone 481-3619.

"We feel good...living in our Total Electric Gold Medallion Home"
SAY THE
FLETCHER SIMS FAMILY
OF CANYON, TEXAS

Mr. Sims points out the simple control on the electric air purifier which automatically rejects pollen, dust and other irritants, giving the Sims family clean, fresh air throughout the home.

"Allergy had been a problem with our family before we had our all-electric home, but we've noticed a marked improvement in the three years we've lived here," says Mr. Sims. "We've taken full advantage of our electric heat pump and the electric air purifier to maintain dust-free air inside our home," continues Mr. Sims.

Mrs. Sims finds her electric kitchen to be the favorite part of her home because of the ease with which she can prepare the family meals.

County Gins Lauded For CPI Work

ELLIS TATUM, right, is presented a certificate from Cotton Producers Institute by Lowell Richardson, Tatum received the award as president of the Board of Friona Farmers Co-op Gin.

Three Farmer County Gins have been recognized as leading the county in cooperation with the Cotton Producers Institute.

The gins cooperated by collecting \$1 per bale from customers interested in supporting the CPI.

The three leading gins were Chester and Fleming Gin of Friona, with 91 per cent cooperation among its customers; Friona Farmers Co-op Gin, 89 per cent; and Oklahoma Lane Gin, 81 per cent.

"We certainly appreciate the cooperation we received from all the Farmer County gins,"

said Lowell Richardson, staff members of the National Cotton Council, who presented the gin owners certificates on behalf of the Cotton Producers Institute.

Aimed at increasing cotton markets and profits through stepped-up research and promotion, the institute is being supported by growers across the Cotton Belt.

Under Institute research grants, leading researchers are seeking answers to help cut cotton production costs and improve quality and to produce new and better cotton products.

Its aggressive promotion campaign is aimed at selling consumers on the advantage of buying and using products made from cotton.

Wording on the certificates points out that they were issued "in recognition of meritorious service to cotton growers for outstanding cooperation with the Cotton Producers Institute by collection on a voluntary basis \$1 per bale from all customers interested in doing their share on a self-help basis to help assure a prosperous future for the American cotton farmer."

RECEIVING AWARDS from the Cotton Producers Institute are Troy Christian, left, of the Oklahoma Lane Gin, and Earl Chester, right, of Chester and Fleming Gin, Friona. Making the presentation is Lowell Richardson, on behalf of the High Plains Steering Committee of the National Cotton Council.

Exhibitors Given Tips On Care Of Show Animals

With fairs and other livestock shows just around the corner, exhibitors should begin getting their animals ready for the big events, say A. M. Meekma and J. W. Davis, dairy specialists, Texas Agricultural Extension Service.

Of first importance is training the animals to lead and respond to the halter, state the specialists. Nothing distracts in the show ring as much as an animal that does not handle properly, they emphasize.

The hair coat should receive early attention because it may take several weeks to remove the dead hair. This can be done by frequent brushing and vigorous rubbing with the palms will help to establish a lustrous hair coat.

Any clipping of the animal that is needed should be done well ahead of fair time but final trimming may be done a few days before the show, explain the specialists. Hooves should be trimmed to a normal length with the inside toe a fraction of an inch shorter than the outside.

Since condition of the animal is very important, pasture alone should not be relied on to fit the dairy heifer. Good quality roughage should be fed along with enough grain to keep the animal in good condition but not overfat, say Meekma and Davis.

QUALITY CHEKED
DAIRY PRODUCTS

In No-Wax--No-Leak Plastic-Coated Cartons
CLARDY CAMPBELL Quality Cheked DAIRY PRODUCTS

CHARLES MYERS, JR. of Friona is shown about to release one of the 120 pheasants which were bought by Friona farmers for release in the area last week. A total of 500 pheasants were released in the county and eventually 1800 are planned for release.

Cotton Moisture Is Good Quality Meter

At present the only reliable method of checking the quality of cotton on the farm or at the ginning point is grade and staple length. But according to Beverly G. Reeves, cotton ginning and mechanization specialist, Texas A&M University, the cotton moisture meter can be used as a good indicator of quality on seed cotton.

This device makes it possible to determine the proper time for harvesting and the way to conduct the ginning operation to preserve cotton quality, the specialist adds. The moisture

content of the cotton fiber when harvested, while in storage prior to ginning, and during ginning is definitely correlated with spinning quality.

The fiber strength, the length uniformity of the fibers, and the amount of tangled fibers or neps in the cotton affect its spinning quality, and the fiber moisture level in turn affects these. Research has shown that cotton harvested at moisture levels

above 8 percent is difficult to dry for proper ginning and that cotton with excess moisture tends to deteriorate in storage prior to ginning, says Reeves.

Cotton moisture level is also affected by the amount of trash in the harvested fiber. When trashy cotton is stored for long periods, moisture moves from the trash into the cotton, explains the specialist. Therefore, dry, careful harvesting is

needed to produce quality cotton and a moisture meter can help achieve this, he adds.

Reeves recommends that you buy a moisture meter if your operations justify it or have the cotton moisture content checked at the gin, but take advantage of this aid to quality cotton production.

"Household Hint -- When everything else fails, read the instructions." -- B. J. Dahl, Chewelah (Wash.) Independent.

Agricultural Team Leaves For Europe

A four-man team of state agriculturalists will leave for the European Economic Commission headquarters at Brussels this week for conferences on embargos against Texas and U. S. export commodities, Governor John Connally announced.

Dr. Tyrus Timm, chairman of the Department of Agricultural Economics at Texas A&M, will head the study committee composed of Dr. Wayland Bennett, associate dean of agriculture at Texas Tech, Agriculture Commissioner John C. White

and Senator Culp Krueger of El Campo.

Governor Connally has asked that special attention be given the problem of high tariffs recently imposed against poultry by the common market countries. The \$15 million annual broiler production in Texas is currently in a depressed state because of the tariff. Texas also exports several millions of dollars worth of cotton, rice, beef and grains to the six-member nations.

The group will leave Washington August 30 and return about September 12. Conferences have been arranged by the State Department and U. S. Department of Agriculture with the highest officials in the Common Market.

As a member of the Resolutions Committee of the Southern Governors Conference, Connally endorsed and supported a resolution by Governor Sanders of Georgia deploring the action of Common Market countries in imposing a high tariff on importation of poultry.

Weatherly Appointed Grain Seeding Time Is Near

Clyde W. Weatherly of Friona, has been appointed a member of the three-man Farmer County Farmers Home Administration Committee, the agency's County Supervisor, Billy R. Boling, has announced. The appointment is for three years and began on July 1.

Weatherly succeeds W. D. Buske, whose three-year term expired this year. The other two members serving with Weatherly are Harold Carpenter of Oklahoma Lane and Teddy Treider of Lazbuddie.

The local Farmers Home Administration county committee reviews applications by farmers and other rural families for six different types of agricultural, housing, and water loans made in Farmer County. In addition, the committee advises with the county supervisor regarding the adapting of na-

tional loan policies of local conditions.

During the past fiscal year ending June 30, a total of \$628,760 in Farmers Home Administration loans were made through the agency's local office. Each loan is accompanied to the extent necessary by technical farm and financial management assistance.

Weatherly moved to Farmer County from East Texas about 12 years ago. He is operating 1200 acres of irrigated land, growing wheat, grain sorghum, and cotton. In addition, he runs 100 Angus cattle.

County Supervisor Boling says that Weatherly's practical farming experience will enable him to make a real contribution to the county committee's actions when they review applications.

For additional information about winter grain mite control, contact your local county agent.

New Market Is Seen For Cotton

The use of cotton in the manufacture of flexible laminated plastics offers a good possibility for expansion of the fibers industrial market, says the U.S. Department of Agriculture.

In the making of plastic laminates, cotton fabrics are incorporated as a surface material or as a textile backing for plastic film, sheets, or foam. Vinyl-coated cotton fabrics are widely used in furniture and automobile upholstery, and in wall coverings. Also, new types of laminates with plastic foams may create an even larger market for cotton in the clothing industry, says the Department.

At present, strong, rigid high pressure laminates are the main type made with cotton, but this use offers little promise of expanding the demand for cot-

ton. Low pressure, flexible laminate production does not now use large amounts of cotton and this is the area which scientists see as one of possible expansion.

The USDA's Economic Research Service says three things are needed to help cotton increase its share of the flexible laminate market. First, cotton cloth must be free of field trash and excess sizing for good lamination; cotton must have improved finishes such as one to increase the fabric's moisture resistance; and it needs new and more acceptable cloth construction for use in laminates.

If these problems can be solved, cotton should gain a bigger share of the market for flexible laminated plastic production, says the USDA.
