LISTEN TO LUKE

Albert—
We've been hearing a lot of
lately about "freedoms" and
are prompted to offer this
question: "What is freedom?"

And our answer:
Freedom is the absence of co-
ercion, necessity, or restraint in
the choice of action.

Notice the word "choice" in
the definition.

We have freedom of choice
in so many things in life. But
freedom does not give us the
opportunity to make the wrong
choice without subsequent con-
sequences. Because we have
consequence with each choice
that we make.

Because of our nature, we
desire this freedom to make a
choice, but because of our na-
ture, we must have a deterrent
to help us to try to make the
right choice. Else we suffer the
consequences.

For example: We have the
freedom to decide whether or
not we will work. The conse-
quences of our choice are plain
enough. If we make money by
our work, we have the choice
of doing what we will with our
money, and certainly the con-
sequences are plain enough in
this case, too.

There is no law on earth or
in heaven that gives us "free-
dom" to disobey laws under any
name, or by any name, without
making us liable for the conse-
quences. And this applies to all
of all races and creeds.

We have freedom under laws,
but we have no freedom from
the laws.

When our state, our nation,
or our churches offer sanctity
to any individual, group, or
person who is violating the laws
of this nation then they, more
than anyone else, foster lawless-
ness.

Our laws give us liberty to
pursue our pursuits without fear of
punishment by that law, while it
prohibits certain other practices
for fear of punishment under
the law, but there should be no
freedom from the law!

The choice is, and we hope
it will continue to be ours. But there
is a consequence to any deci-
sion.

We have had so many nice
things said to us by so many
people about our new pa-
per, its size, appearance, etc. We
appreciate all of them so very
much, and you are so kind to
write them.

Some complained of the type
being smaller and more diffi-
cult to read. Really, it isn't. It
is only a very slight amount
more closely spaced vertically,
and is seventy-second of an inch
wide.

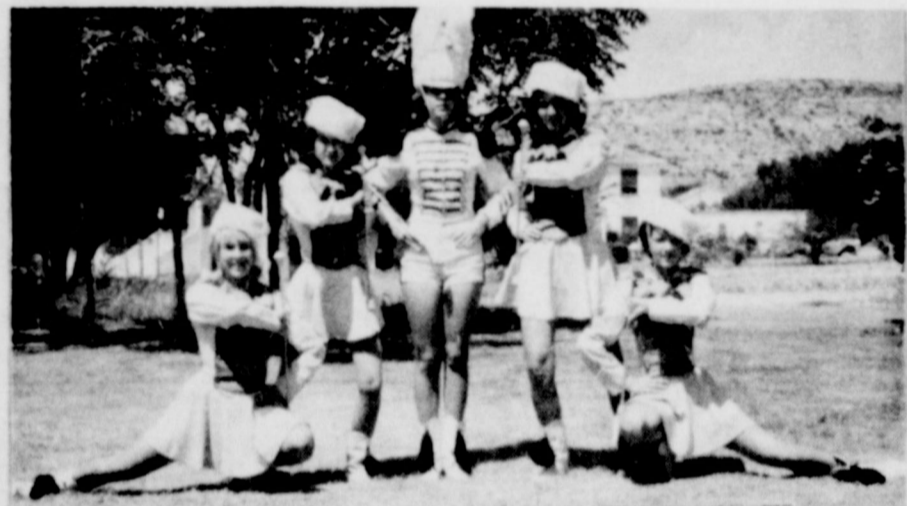

We have had very few re-
marks about the addition of the
new mast-head on the new oil
field; or of the new oil
field on the right of the mast-
head. We can't let those things
be unnoticed.

There are some things that
you can do with offset printing
that you can't do with our pre-
vious method of publication —
putting diesel trains on
the mast-heads is one of them. It is
a very simple chore now, but
it would have been costly and dif-
ficult by the former method.

That's why we didn't have a

Enrollment In Local Schools Reaches 616

Enrollment in the Terrell County schools reached 616 last week after preliminary figures of 600 were disclosed by Supt. Ken McAllister.

The elementary figures climbed from 287 to 296; junior high the new high school figure is 167, an increase of eight.

This total figure is 33 more scholastics than were registered at the beginning of school last year.

Dove Hunters Find Swarms Of Game Birds

Dove hunting in Terrell County and in adjoining counties has been reported as excellent this year. Hunters state that there is a bountiful supply of the game birds over all this section of the state.

Hunting this year, as always, has been best around tanks, but water troughs and header tanks are said to be yielding a good number of birds to the accurate shooter.

Information received from the Texas Parks and Wildlife Commission state that the daily bag limit for mourning doves is 12 with a possession limit of 24.

Mr. and Mrs. Dudley Harrison spent the Labor Day weekend in Del Rio with his parents, Mr. and Mrs. John Harrison.

Coleman Priest Named Diocesan Administrator

Very Rev. Leo J. Bujnowski, pastor of Sacred Heart Catholic Church of Coleman and one of the diocesan consultants for the San Angelo Catholic Diocese, was elected Friday as administrator for the San Angelo Diocese which includes Sanderson.

At a special meeting of the six diocesan consultants in the chancery office in San Angelo, the Coleman priest was chosen to replace temporarily Most Rev. Thomas J. Drury, who was transferred as bishop of the San Angelo Diocese to the Corpus Christi Diocese. He was installed as bishop in that city Wednesday of last week.

In addition to managing the business of the San Angelo diocese, Father Bujnowski will continue "for the time being" his work as pastor of the Coleman church.

Troop 5 Girl Scouts Begin Meetings Thursday

Troop 5 Girl Scouts will begin their regular meeting Thursday of this week at 4:15 at the Masonic Hall.

Mrs. H. M. Petty and Mrs. Ray Clifford, urge all members of the troop to be present.

Mrs. Ruth Geasin accompanied her son, George Geasin, of Fort Stockton to San Angelo on a business trip and she also visited with Mrs. Eva Harrell.

Sanderson Eagles To Face Mighty Alpine Bucks

The Sanderson Eagles will host the mighty Class AA Alpine Bucks this weekend in the first home game of the season.

Alpine is said to have one of the strongest teams in Class AA football in the state and are ranked by some to be the strongest.

The Eagles are picking up Travis Harkins again this week after a week's absence to have his back checked. It was stated that reports from physicians gave Harkins a clean bill and declared his back to be free of any accident-prone malformation.

The Eagles will face big odds in the game this week, probably their strongest opponents of the season, but being on home territory will give the fans a good show of their ability.

The game will get under way at 8:00 p.m. at Eagle Field.

The tri-captains for the Eagle squad this year are Bobby Allen, Bill Adams, and Milton Hope, all seniors, according to Coach Clay Barrow, who presented the boys at the pep rally last week.

Supper Tonight To Benefit Local Fire Department

Two items have been added to the menu for the benefit supper to be Thursday (tonight) at the Little League field. The supper, being served by the Sanderson Lions Club, will benefit the Sanderson Fire Department.

Serving will be from 5:30 to 7:30 and the cost will be \$1.25 for adults and \$75c for students.

Stewed prunes and potatoes have been added to barbecued goat, sun-of-a-gun stew, beans, onions, and camp bread.

There will be western entertainment and bingo following the supper.

Youths Charged After Lamp Theft

Two young men driving a car registered in California and pulling a rental trailer were arrested in Alpine and returned to Sanderson and charged with theft of a pole lamp from the Western Hills Motel Saturday.

Sheriff Bill C. Cooksey learned later of their being wanted in Florida on a felony theft charge and they are being held for officers from that state.

The young men are reported to have had evidence of their having stayed in a certain motel in Florida and some items in their possession, a portable television set, bed clothes, etc., induced Sheriff Cooksey to contact the motel to see if they had missed such items from their rooms.

They are also reported to have several rings and watches and efforts will be made to find the owner of those items, Sheriff Cooksey stated.

Ben Causey, SP freight engineer, has moved to El Paso.

Marfa Gains Easy Victory Over Eagles

The Class AA Marfa Short horns took a commanding victory over the Sanderson Eagles Friday night of last week in that city. It was the opening game of the season for both teams.

Marfa made their first score in less than four minutes of the first quarter when Ronnie Webb went over from the five-yard line for the score. Eddie Hernandez added the conversion.

In the first period Webb flipped a pass to Tony Lujan who took it on the Sanderson 20 and went into the end zone for the second Marfa touchdown. Hernandez kicked the second extra point.

In the second quarter Webb plunged in again from the five and the extra point try failed.

Glenn Jimenez took over the scoring for Marfa in the second half, scoring from six yards out in the third period and returning an Eagle punt 55 yards for another touchdown in the final frame.

Sanderson's only threat at scoring was in the fourth period and was cut short by a fumble.

The statistics for the game were:

	Marfa	Sanderson
First downs	20	11
Net yards rushing	276	118
Net yards passing	91	0
Passes Attempted	13	4
Passes completed	5	1

Marfa's scores by quarters were: 14 - 6 - 7 - 6.

Work on Big Hill Nears Completion

Work on the construction job on US 285 on "Big Hill," 10 miles northwest of Sanderson, is nearing completion with the completion of the cut through the top of the hill. The crushed rock for the base is being spread on the north side of the hill.

The crest of the hill is several feet lower than the old crest and there are straight approaches to the crest from both sides.

Near the bottom of the hill on the north side, there is an access turn-off to the Downie Ranch gate.

TS&GRA Plans Del Rio Meeting September 17, 18

The Texas Sheep and Goat Raisers' Association will have its fall quarterly meeting in Del Rio Friday and Saturday, September 17 and 18. Gaylord Hankins of Rocksprings, president, said this session is for directors, members, and the general public.

Probably uppermost in stockmen's discussions will be the current sheep scabies situation in Texas. After years of freedom from scabies, Texas recently experienced an outbreak in a Uvalde County feedlot. Investigations are underway to determine its source.

The current status of the National Wool Act, recently passed by the House but still pending in the Senate, will be reviewed. Possible extension of the minimum wage law to cover farm and ranch workers will be discussed, along with tax problems. A newly-formed Miss Wool of Texas committee will have its first meeting. The beautiful new Miss Wool, Janice Archer of Austin, will be present. Committee chairman is Howard Derrick of Eldorado, second vice-president of TS&GRA.

Opening day's committee meetings start at 2:00 p.m. A buffet supper and entertainment are scheduled at 8:00 p.m. in Ciudad Acuna, just across the Rio Grande from Del Rio. General session begins at 9:15 a.m. the final day.

Registration will be at the Hotel Roswell, beginning at 9:00 a.m. opening day.

"SMALL BUSINESS"

By C. WILSON HARDER

One of the unfortunate aspects of this era of mass hoopla is the hold a slogan can exert on the public, without deep knowledge of what is involved.

An example is the recently passed Federal aid to education bill. Most people do not want to be viewed as opposed to education, and it was on this basis that the Federal bureaucracy that has long sought to get into the educational system more deeply, depended.

C. W. Harder

The nation's independent business proprietors, voting through the National Federation of Independent Business, supported a bill that was presented by Rep. William Dorn of South Carolina that would have forced the Federal government to turn back to each state 5% of the tax collections from that state to be used for education.

This was opposed by the Washington bureaucrats on the grounds that it would not be fair to the less prosperous states as their 5% of the Federal taxes paid by their residents would not equal that received from such a plan by the healthier states. Of course, the real issue here was who would control the money.

But despite all the pious protestations against the alleged inequities, it is interesting to note how this matter was handled in the bill finally passed.

The bill provides that out of

the funds Washington will give more money to a school district in which the majority of the parents have incomes of \$2,000 per year or less, than to "more favored" districts.

Somehow in the bureaucratic mind, there is confusion as to the source of school taxes.

Individual incomes and assessed valuation of property have very little in common. In an area where there is a highly valued oil wells, other mineral resources, or where there is located some heavily assessed utility installations, the local population may be largely low income workers, or even hordes on relief.

But this does not alter the fact that the schools are supported by the taxes paid the highly valued property.

On the other hand, there are many suburban areas in the nation where the residents earn twice as much, but the districts are entirely devoid of any highly assessed property.

The children of these families will now be discriminated against in the allocation of these Federal funds, while children living in districts of high property valuations but low family incomes will have thrown at them more educational money than they knew what to do with.

During the war the men in service had a standard expressed "SNAFU" which translated "situation normal, all fouled up." And it seems that anytime anything needs to be fouled up, all that is necessary is to get Washington bureaucrats in the act. They are experts in that field.

BRAHMAN NOT COWED BY POPCORN

READY FOR SALTY STATE FAIR — At last year's State Fair of Texas, this Brahman found something better than a saltlick; a hole with some salt, but the salt was on popcorn. Undaunted and un-cowed, the Brahman won — everybody knows that eating popcorn is part of "going to the fair." The 1965 State Fair of Texas will run October 9 through 24 in Dallas, with the internationally significant Pan-American Livestock Exposition the major attraction of the first nine days. The Pan-American will feature the Premier Angus Show of the Americas, along with excellent shows of Hereford, Brahman, Brangus, Charolais, Santa Gertrudis and Shorthorn cattle. During the exposition, a superior dairy show also will be presented, with the Regional Holstein Show, State Jersey Show, and shows for Ayrshire, Brown Swiss and Guernsey cattle. In addition, there will be shows for purebred swine, sheep and goats.

THE FAMILY LAWYER

Relatives in Your Home

When Betty's aging mother-in-law moved into the household, no one said a word about money. For the next four years, Betty dutifully performed the various tasks thus added to her chores—including some nursing care. After the older woman died, Betty, backed by her husband, put in a claim against the estate for services rendered.

But another son, fearing a cut in his share, raised an objection. "Mother never promised to pay for Betty's services," he argued in a court test.

"Not in so many words," conceded Betty. "But a promise should be presumed because of all the extra work I did for her."

However, the court, finding no adequate evidence of a promise-to-pay, denied her claim. And that is the usual rule. The law will not

most cases, the issue arises only after the relative is dead—forever beyond questioning. The claimant might be trying to collect merely as an afterthought, with no prior understanding at all.

Besides, the law is reluctant to find financial motives within the family circle. In one case, a man kept detailed records of his mother-in-law's periodic visits during the last few years of her life. When she died, he presented an itemized bill for his hospitality.

But the court dismissed his claim with this comment:

"It would be a crime against nature and humanity to give to all the courtesies, favors, and visits that are exchanged between parents and children the mercenary quality of dollars and cents."

presume, without good reason, that a relative who has joined the household intends to pay for his care.

Of course, special circumstances may convince the court in a particular case that payment was indeed intended. Suppose, for instance, that the services were especially onerous. Or that the relative was especially wealthy. Or that the relationship was a distant one. Or that the extra work prevented the claimant from earning money elsewhere. Such facts would argue that, even though nothing was said, payment—sooner or later—was taken for granted.

But by and large, the courts are wary of these claims. After all, in

A breeze to prepare, this chilled and sparkling flavor-combination of Chinese vegetables, pineapple juice and mayonnaise is guest-proof, too. It can be kept for hours in the refrigerator and served at your convenience. The recipe may be doubled to serve twelve, if desired.

Tropical Crab Salad

- 1 cup thin diagonally sliced celery
- 1/4 cup light cream or unsweetened pineapple juice
- 2 cups real mayonnaise
- 1/3 cup chopped scallions
- 2 teaspoons curry powder
- Salad greens

Cook rice according to directions on package, substituting unsweetened pineapple juice for water. Toss with crab meat, Chinese vegetables, water chestnuts and celery. New SS Law Changes Noted

The new increase in the social security benefit amount and how it will affect area people who get monthly benefits was discussed this week by H. P. Thomas, manager of the Odessa District office.

First, the monthly rate was increased 7 per cent for most people, effective January 1965, Thomas said. About the middle of September, people will get an extra check. The check will be for the difference between the new and old benefit rates for January through August. Early in October the monthly check for September in the new amount will be received. There is no need for anyone to get in touch with the district office in order to get his benefits increased. This is done automatically.

The minimum rate for workers who start getting benefits when they are 65 or older was increased from \$40 to \$44 per month. The maximum monthly payment for those now getting benefits was increased from \$127 to \$135.90.

Since the minimum increase was \$4 a month, those people whose benefit was between \$41 and \$56 a month actually are getting more than a 7 per cent increase. Those now getting benefits of \$57 or more a month will receive a 7 per cent increase.

The changes made in the law will permit workers who retire in the future with average earnings of \$550 a month (equivalent to \$6,600 a year) to get \$168 a month, but this amount will not be payable for some years.

As the worker's rate increases because of the new \$6,600 wage base, so the maximum amount payable to a family will increase to as much as \$368 a month.

Another change made provides for the automatic refiguring of a worker's benefit if he works after he has become eligible for benefits and has additional covered earnings which may increase his benefit.
