Lites
by Bill Ellis

Saturday is election day in Friona and Texas. But the main characters in the election will not be people, but proposed amendments to the Texas Constitution.

Chief among the amendments will be the proposal to repeal the poll tax as a prerequisite to voting. This issue has been debated with some interest in the past several months, and should serve to bring out several hundred thousand voters to vote in an otherwise uninteresting off-year election.

In last year's state primary elections, both the Democratic and Republican primaries carried a referendum concerning the proposed amendment. At that time, the voters in both primaries favored abolishing the poll tax by a slight majority. However, some claimed that the wording on the referendum was misleading, so that some weren't sure how they were voting.

State Representative Bill Clayton of Springlake is one of the people who have come out in favor of keeping the poll tax. Clayton's summary of all four proposed amendments, including the poll tax issue, appears in the Farm and Home supplement this week. He presents arguments for both sides of each question.

Clayton has done a commendable job of summarizing the amendments, and qualified voters would do well to read his comments on each one before going to the polls Saturday. It might save some embarrassment after you get there.

Clayton argues that repeal of the poll tax would result in the registration of hundreds of thousands of potential voters who can be controlled.

"The poll tax prohibits the purchase of votes by corrupt candidates and political machines and helps preserve the purity of the ballot box," Clayton says.

Clayton points out that \$1 of the poll tax goes to public schools, and 50 cents goes into the state's general revenue fund. The other 25 cents, which is optional, is used by the county.

The danger in repealing the poll tax, Clayton says, is that it leaves the fate of voter registration in the hands of the legislature.

A future legislature could weaken the requirements for voting, or allow registration to be so near the election date as to invite problems, which the founders of the poll tax sought to end.

For his other reasons for opposing the repeal of the poll tax, see the story in this issue in the Star.

Thanks to those of you who have given us some football records prior to 1949 that we requested. We received records of scores for the 1940 and 1944 seasons. We would still ask that you check old school momentoes, to see if we can help us out.

We believe we have finally pinpointed the last time Friona beat Dimmitt, prior to this year's 20-0 win. It appears to have been in the fall of 1944, when Friona won, 30-0. We originally thought it was 1945, but evidently the score that year was Dimmitt 7, Friona 6.

Now we're wondering when, if ever, a Friona team last won as many as eight games in a season. Best records we've uncovered so far have been 7-2 in 1951 and 1952, and 7-3 in 1940. Perhaps some of you can help us on this.

Some have asked who we will "root" for in this week's game, since we grew up in Muleshoe and graduated at Muleshoe High School. We're assuring everyone that since we now live in Friona, our loyalty will stick with the Chiefs.

We remember a couple of times when we were at Muleshoe that we thought the Mules wouldn't have any trouble with the Chiefs. One of the games (1958) ended in a tie, and another (1959), was won by Friona. Maybe the Chiefs can "slip up" on them again this year.

Ho, e the home town fans follow the Chiefs to Muleshoe as they did to Dimmitt. That will

(Continued on Page 2)

HEADED FOR THE FINISH . . . The maize harvest in the Friona area is rapidly winding up. One local elevator man guessed that 80 per cent of the grain is cut. Most farmers, such as this field belonging to Ellis Tatum, are experiencing average to better than average yields.

"ETHRIDGE" ADDITION

City Annexes 14 Acres; Paving Contract Given

The Friona City Council approved an ordinance to annex the first installment of Staley Addition Number Three, awarded the contract for paving some 12 city blocks, and purchased a new patrol car for the city in a busy session Monday night.

The Council's action increased Friona's city limits by some 14 acres and six city blocks. The addition, owned by Dan and Eufaula Ethridge, will provide approximately 36 lots for residential building, des-

perately needed by the city. The new city property is an extension of Seventh Street and runs from Etta Avenue to U.S. Highway 60 on the west opposite the new Parmer County Implement location.

Contract for paving the approximately six blocks in the new addition, plus six blocks in the Drake Addition was awarded to L. A. Purcell Construction Company, Lubbock, on the low bid of \$37,484.80. Work is to begin in the next 30 days.

In connection with the new

addition, contract for installing water and sewer lines in this area was awarded to Vaughan Construction Company of Shallowater, on the bid of \$7,986.45.

In addition to the paving project, residents of a full block in the city have signed their intentions to pave Ninth Street between Virginia and Jackson Avenues. The consulting city engineer, M. R. (Red) Smith, Lubbock, stated that he figured the contractor would pave other blocks or "leave out" spots in the city, where residents wish

paving, but encouraged all interested in paving to contact the city office immediately.

The council's first item of business was approval of the annual audit of the city's books, and payment of the \$600 fee to Glover, Graham and Brown of Friona.

Also passed was a resolution of ways in Blocks 1, 10 and 11 of the Drake Addition.

The new police patrol car for the city was purchased from Dimmitt Motor Company, Chevrolet dealer, on a low bid of \$1495. The city may also apply for a return of \$209.25 in federal taxes on this purchase.

Waterworks equipment consisting of 250 pieces of brass goods was purchased from Western Industrial Supply Company on a bid of \$509.

The council authorized payment of \$4,776.30 to McWayne Cast Iron Pipe Company for a load of pipe. Also authorized was payment of \$157.80 to Glen Stevick for digging 1052 feet of ditch.

A motion was approved to notify S. S. Prichard of his violation of city codes in allowing his old furniture building to remain next to the new grocery store building being constructed, and to allow him 30 days to remove said building from the property.

The city manager was given authority to proceed with bid solicitation for cleaning, renovating and painting of the old water tower and ground storage tank.

Water Superintendent Clyde Fields gave a report on a convention of the American Waterworks Association, which he attended last month.

A letter was read from the Acheson, Topeka and Santa Fe

(Continued on Page 2)

Man Dies First Day On Job

Ray Headley, 50, a Lubbock resident 13 years, died of a heart attack Wednesday in Friona, less than two hours after he began his first day of work for Friona Plumbing and Heating Co.

Headley, a master plumber, arrived in Friona Tuesday, was employed by the local firm, and began his job at 7 a. m. Wednesday. The attack came at 8:55 that morning, while he was working at Mrs. Pearl Hand's residence.

Dr. Paul Spring of Parmer County Community Hospital pronounced Headley dead at the scene.

(Continued on Page 2)

AT MULESHOE TOMORROW

Chiefs, Mules Tangle In "Showdown" Duel

The 1963 football season will reach its crest as far as the Friona Chiefs team are concerned at Muleshoe Friday at 7:30 p.m., when the surprising Chiefs square off with the powerful Mules in a showdown for the District 3-AA championship.

Both teams would still have a game to play, but a win for either would assure a share of the district title for that team.

It will be far different circumstances surrounding the game between the two teams than was the case in Friona a year ago. Last year, the Mules were primed for the district

championship, and Friona entered the contest with an 0-8 record.

Muleshoe has hopes of duplicating their march to the district title all right, but this time the team that will line up against the Mules Friday night has an equal opportunity of taking the district crown, and has made a complete about-face, sporting a spotless 8-0 record and a lot more fire.

The Mules, meanwhile, have compiled a 3-5 record. They dropped their first five games, but have come on strong to win their last three. Muleshoe's opposition has no doubt been

stronger than Friona's in non-district play, but the feeling is that they will be given quite a bit more of a challenge than last year's Friona team which fell, 42-0 in the game here.

The Chiefs will have their work cut out for them. The Mules have returned a lot of players who led Muleshoe to a 4-0 district record last year, and played tough Denver City to the hilt before losing 29-0 in bi-district.

Quarterback Kenny Heathington is one of the players singled out by Friona Coach Don Light as a constant threat. Currently earning his third letter at the position, Heathington executes the Mule split-T offense well, and is a good ball-carrier.

Fullback Dan Smith is another player who will bear watching. The 185-pound junior ran 85 yards for a touchdown last week as the Mules downed Olton, 21-13.

"They have a terrific running attack -- a real well-balanced team. And when they need to, they can pass."

So far in district, the Mules haven't needed to pass. They have gained only 10 yards by passing in district play, and didn't even throw the ball against Olton. The Mules gave up 106 yards rushing to Morton, and only 79 to Olton, but the Mustangs gained 100 yards passing against Muleshoe.

Should the Mules have to resort to passing, it would give Friona's spotless pass defense record a test. In two district games to date, Friona hasn't allowed a pass to be completed. Dimmitt failed in 12 passing

exception of three and one half years I spent in the service, and I know the politics of the county and state well enough to represent you with honor and results before any court, commission or committee in the state.

"In the four years I was commissioner, I was able to secure 23 miles of paving for this precinct. Before that time, seven miles was paved, and since that time, six miles have been allotted and paved.

"I know the operation and repair of road machinery well enough that I will not spend your tax dollars for unnecessary machinery and repairs.

"I would appreciate your support in the coming Democratic primary."

(Continued on Page 2)

FOR FRIONA Month's Building Establishes Mark

Building permits issued in Friona during the month of October boosted the city's construction past the previous all-time record established last year, with still two months to go in the calendar year.

October's permits also very likely established an all-time record for one month, with 15 permits issued for a total estimated construction cost of \$169,225.

Leading the way were four new residences at an estimated cost of \$74,500; two new church buildings at \$50,000, a telephone exchange building worth \$32,000, a residence addition for \$4,000 and six additions or alterations totalling \$8,775.

"It was the largest single month for building permits since I have been city manager," stated A. L. (Jake) Outland.

Last year's total construction estimate in the city was \$725,624. Largest month of the year was also October, and it came close to this year's total for the month, at \$160,439.

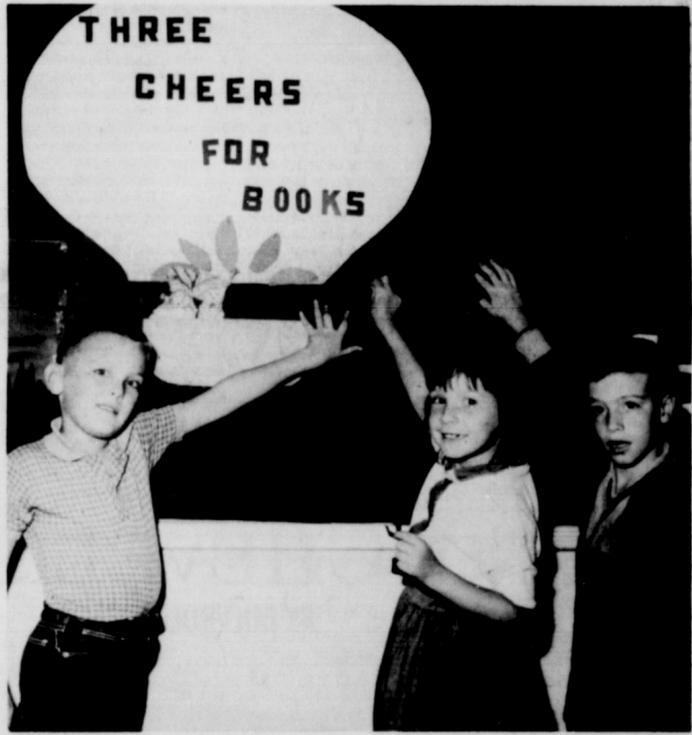

With almost two full months to go, chances of Friona's building of reaching the million-dollar mark are good. Only one other month has topped the \$100,000 mark this year. That was August, which rang up a total of \$102,050.

Otherwise, the monthly totals for the year are January -- \$94,450; February -- \$21,000; March -- \$59,500; April -- \$53,300; May -- \$61,850; June -- \$49,500; July -- \$96,450; August -- \$102,050; September -- \$98,200, and October -- \$169,225.

FRIONA, TEXAS THURSDAY, NOVEMBER 7, 1963 TEN CENTS

SET FOR PARENTS . . . These second grade students are preparing their blackboard for open house next week, when parents are invited to visit the school. From the left are David Renner, son of Mr. and Mrs. Ancel Renner, Carolyn Crostler, daughter of Mr. and Mrs. Don Crostler, and Danny Thomas, son of Mr. and Mrs. Fred Thomas. The students are in Mrs. Otho Whitefield's room.

NEXT TUESDAY, THURSDAY

Lower Grades Welcome Parents To Open House

American Education Week will be observed in Friona next week, with school visitation

programs scheduled by the first four grades. Grade school principal J. T.

Gee explained that the open house would be held during American Education Week rather than Public Schools Week next spring for the lower four grades.

"It is our thought that by having the visitation day earlier in the year that it might help the parents to better understand what is expected of the child, and therefore help the child do better work and make faster progress," Gee stated.

Open house will be held during school hours, allowing parents to visit while school is in session, just as they have during Public Schools Week in the past.

On Tuesday, November 12, parents of first and third grade parents will be hosted. First grade parents are to visit the school from 9 to 10:30 a.m. that day. Parents of third grade students are to visit from 10:30 to 11:15.

Second and fourth grades will host their parents on Thursday, November 14. Parents of second graders will visit from 9 to 10:30 a.m. Thursday. Fourth grade parents are to visit from 9:45 to 10:45 Thursday.

One departure from the previous open house customs is that

Moseley To Seek A Full Term

Hugh Moseley, who was recently appointed by the Parmer County Commissioner's Court to fill out the unexpired term as county tax assessor-collector, this week announced his candidacy for election to a full term in the office, subject to the Democratic primary next May 2.

Other county officials who have announced for re-election include Charles Lovelace, sheriff and Hursel Harding, county attorney. In precinct one, Tom Lewellen has announced for re-election as commissioner, and Forrest Osborn also has announced.

In making his announcement, Moseley said: "I take this means of announcing my candidacy for the office of Parmer County tax assessor-collector subject to the will of the voters in the Democratic Primary May 2.

"In announcing my candidacy I wish to thank you, the voters, for the past favors and if elected pledge myself to fulfill the duties of this office to the best of my ability.

"I will sincerely appreciate your support."

Hugh Moseley

BOARD HEARS REPORT

School Study Is Conducted Here

The Friona Independent School Board, meeting in special session Tuesday night, heard a report from two representatives of the Texas Education Agency, Austin, on suggestions for improvement to the local school system.

The men, who came at invitation of the local board, made several suggestions, and are to submit a written report to the board, more details of which will be made known in the near future. The board will further discuss the findings of the study in its regular meeting next Monday, J. A. Anderson, chief consultant for school plants with the TEA, and C. Lyman Ellis, consulting school architect, stated that their findings were presented as "constructive suggestions." "In Texas, we believe in local autonomy for the schools," they said.

The men complimented the board and its predecessors for providing good physical plants to date.

"Especially are you to be commended for having this school site in the Staley addition, because you're going to need to use that very soon," Anderson stated.

Ministerial Alliance Names New Leaders

In a meeting of the Friona Ministerial Alliance held Saturday in the Parmer County Community Hospital, Rev. Bill Burton, Pastor of the First Baptist Church, was elected President for the coming year.

Rev. Russell McAnally of the Friona Methodist Church was elected Secretary-Treasurer.

In the meeting it was decided to have the Annual Thanksgiving Service in the local Methodist Church, Wednesday night, November 27 at 7:30 p.m.

Rev. Audye Wiley of the Calvary Baptist Church, will bring the message, and Bill Spencer will direct the music.

It was also voted to conduct a City-Wide Census on Sunday afternoon, February 2, 1964. The President will direct the Census.

Rev. Wiley was elected Director of the Volunteer Chaplains Program at our local hospital. Each Minister takes a week serving as Chaplain.

Those attending were: Rev. Joe Garcia, Mexican Mission;

Polling Place Is Announced

Voting will be conducted at the regular voting places for Saturday's general election.

At Friona, it's at the City Hall, Black -- Black Community Center; Lakeview -- Otho Whitefield residence; Lazbuddie -- High School Auditorium; Rhea -- Parish Hall; Oklahoma Lane -- Community Center and Farwell -- Courthouse.

Polls will be open from 7 a.m. until 7 p.m.

Early Mailing Is Recommended

Postmaster Martha Clements urges all persons interested in mailing packages to overseas addresses in time for them to reach their destinations by Christmas to mail them early.

Deadline for packages sent regular mail is November 20 and by air mail is December 10. Unless these deadlines are met, packages will not be delivered until after the Christmas holidays.

Water Department--Six new services were made and three old ones reactivated to bring the total active services to 921 as of October 31.

A small dresser-coupling leak occurred in a four-inch main at the intersection of 11th and Euclid Streets on October 14. A small street cut was necessary for repairs. Installation of 1052 feet of six-inch water main began October 29 to complete the main loop at the west end of Staley Addition.

Sewer Department--An estimated 250,000 gallons of tank water was flushed into the sewer system clean-outs over a five day period October 16-22. This is part of the annual system maintenance program.

There were five service stoppages corrected and four sewer main blockages cleared during the period. Five new service taps were made to bring the total to 839 active services as of October 31.

Fire Department--There were only three fire calls made during the month. Two of these inside the city limits for estimated damage of \$8,500. This to fire and smoke damage in the basement of Claborn's Funeral Home. The fire call outside was at John Terry's for no loss.

Regular drills were held Nov. 3 and 17. The first period was devoted to pumper practice and reloading of hoses; the second to care and cleaning of equipment and repairs to the Chief's new car and emergency vehicle.

Police Department--There were 22 arrests made during the month; 13 for traffic violations; 1 traffic warrant; six for drunkenness; and two for vagrancy investigation. There were nine man-nights of jail occupancy with food costs amounting to \$4.08.

There were five auto accidents investigated, with one injury-hospitalization. Two acts of vandalism, one of which has been cleared. One stolen vehicle was recovered and two reported thefts still active.

A manifold gasket blew on the patrol car and one day of service was lost on October 24.

Street Department -- Five street lights were installed along Grand Avenue between 5th and 11th streets and one light in the alley behind the bank-drug store during the 1st week of October.

Three days were utilized in street patchings and six days in street sweepings during the period.

Sanitation Department--Regular runs were made daily throughout the month. However, a small drive bearing in the power take-off mechanism wore out on 17th and had to be replaced. Only three hours of down-time was lost as the replacement was made in the city maintenance shop.

Fans Invited To Pep Rally

Friona fans are invited to attend the school pep rally at 2:45 p. m. Friday at the Gymnasium.

A downtown parade honored the team members yesterday at noon.

Chiefs--

(Continued from Page 1)

efforts, and Morton didn't complete any of three attempts.

Early season losses by Muleshoe were to Littlefield, 26-8, Seagraves, 8-6, Tulia, 25-6, Clovis, 21-6 and Hereford, 13-0. In addition to beating Olton 21-13 and Morton 24-0 at Morton, Muleshoe blanked Stanton of 7-AA, 27-0.

Friona will be in good shape for the game barring further complications. Jim Snead, who played last Friday although being hospitalized a couple of days with an arm infection, was sent back to the hospital again this week.

Mickey Wilson won his starting job at tackle back from Ray Braxton. Tommy Baxter, who started against Morton in place of Milton Hargus last week and scored Friona's only touchdown, is having a neck-and-neck battle with Hargus for the position this week.

Otherwise, the lineup will be the same as it was last week.

City--

(Continued from Page 1)

Railway, stating that the material for the crossbar which the city has requested for South Main has been unavailable, but that the crossbars will be constructed "in the near future."

"The completion of posting the water ledger and the receipt of collections both water and taxes made the administrative activities heavier than usual throughout the month of October," City Manager A. L. (Jake) Outland said in his monthly summary of activities to the council.

Otherwise under the administrative heading, it was reported that Mrs. Virginia Parson, water clerk, has tendered her resignation from employment with the city effective November 30.

Other monthly reports, by department, included:

Open House--

POLL TAX ISSUE:

Clayton Tells Reasons For Opposing Repeal

Rep. Bill Clayton of Springlake was one of 27 members of the House of Representatives who voted against submitting the Constitutional amendment to repeal the poll tax to the voters. Clayton gives the following reasons for opposing the repeal of the poll tax:

1. Repeal of the poll tax as a prerequisite to voting prevents ignorant, corrupt and disinterested citizens from voting, but the low fee levied (\$1.75 less than the price of six packs of

Cigarettes) does not prevent any citizen who really wants to exercise his rights and fulfill his obligations to his state and nation from taking a stand at the ballot box.

Repeal of the poll tax would result in the registration of hundreds of thousands of potential voters who can be controlled. Chances for fraud in elections would be multiplied manifold—a detriment to good government. The poll tax prohibits the purchase of votes by

corrupt candidates and political machines and helps preserve the purity of the ballot box. If the poll tax is repealed the voter would not even be required to read or write the English language.

In 1960, Texas had 5,531,000 inhabitants over 21, and 40 percent of that number voted in the general election. The state of Ohio with a comparable 5,839,000 inhabitants over 21 and no poll tax had a 38 percent voting record at the same election. Apparently, the poll tax as a prerequisite for voting has not resulted in decreased voter interest in Texas.

The question of having to pay to vote carries no weight because if the poll tax is repealed we only substitute 25 cents for \$1.75 so you still pay to vote. It is possible that if the Federal Constitution is amended the 25 cent registration fee might be declared a tax and would then be unconstitutional.

However if the amendment to the Constitution of the United States abolishing payment of the poll tax as a prerequisite to voting for federal officials is ratified, the anticipatory voter-registration law passed by the 58th Legislature still provides for registration and voting for candidates to federal offices. This will not create confusion as some might lead you to believe.

Abolition of payment of the poll tax could result in depriving the public schools of Texas between 1.5 to 2 million dollars annually. \$1.00 of the poll tax goes to public schools and 50 cents goes to the State general revenue fund with the remaining 25 cents staying in the county. Loss of this revenue would result in other taxes.

Repeal of the poll tax would remove registration of voters from the Constitution and place it in the hands of the Legislature. Any future Legislature could weaken requirements for

voting or allow registration so near to election dates as to invite problems the reform elements sought to end in 1902.

It took a long time and hard struggle to get a statewide system of voter registration in Texas and it was not achieved until it was written into the Constitution in mandatory form. The poll tax receipt is a badge, both to the responsible citizen and the qualified elector. The kind of people we elect to public office is only as good as the voters themselves. To repeal the poll tax would not upgrade the caliber of the voter but would have the opposite effect—then it can be assumed that the caliber of people we elect to public office will be reduced.

If the poll tax is repealed, Rep. Clayton predicts the following things to happen in the next ten years to our state government:

2. Personal or Corporate State income tax, maybe both.
3. A stronger civil rights measure than is pushed by the Federal Government.
4. Liquor by the drink.
5. Pari-mutuel gambling.
6. Enact a State wage and hour Law.
7. Repeal of the 1963 registration Act.

Mailbag

Dear Editor:

To keep the poll tax is the way I will vote on November 9. Elections in which only qualified voters can do the voting is the surest way to elect states' rights conservatives to office. Isn't it logical to think that the left wing, and liberals want the poll tax repealed in order to make it easier to elect the left wing, liberal candidates to office. Without the poll tax, won't the bloc voters -- who vote as they are told -- be herded to the polls like cattle to market?

Also, Texas and the schools will lose around four million dollars if the poll tax is repealed.

Vote to keep the poll tax.

(Name on file)

Visit Parents

Treva Rolon of Lubbock was a weekend visitor in the home of her parents, Mr. and Mrs. Albert G. Rolon.

Both the Democratic process and our State Government can best be defended if you will join hands in voting AGAINST the repeal of the poll tax Saturday Nov. 9th.

Bill Clayton

WELCOME TO FRIONA

Introducing Mr. Delbert Ingersoll and his son Jim. Delbert and Jim came to Friona from Pryor, Oklahoma. Delbert is employed by the Friona Plumbing and Heating Co. Jim is now a sophomore at Friona High School. Delbert says, "We sure like West Texas, especially the low humidity. We have been in Friona since late summer and like it fine."

Halloween Party At Hub Community Center

A group of young people were guests of Mr. and Mrs. Darell Thompson, Mr. and Mrs. Kirby Williams, Mr. and Mrs. Burk Hand, Mr. and Mrs. Johnny Miller, Mr. and Mrs. Larry Fairchild, Mr. and Mrs. Johnny Hand and Mr. and Mrs. David Grimsley at a Halloween party in Hub Community Center Sunday evening, October 27.

Johnston, Billy Marshall, James Calaway, Kay McBroom, Joyce Marshall, Kay Embree, Ted Renner, Carolyn Hamilton and Bob Welch.

Son Born To Don Springs

Mr. and Mrs. Don Spring of Weatherford, Okla. became parents of a baby boy October 30, at 10:45 a.m. at Southwestern Memorial Hospital. He weighed 6 lbs. 9 1/2 ozs. and was named Don Paul Jr.

He has two sisters, Alicia Gail, 3 and Pamela Joy, 1. Grandparents are Mr. and Mrs. Edward Spring and Mr. and Mrs. Elmo Dean, all of the Rhea Community, Mrs. F. L. Spring, Friona, and Mrs. Floyd Schlenker, also of the Rhea Community, are great-grandmothers.

Frionans Attend Birthday Party

Mr. and Mrs. C. W. Dixon and Mr. and Mrs. Ray M. Landrum were in Lubbock Sunday for a surprise birthday party for J. A. Hodges, brother-in-law of Mrs. Dixon and uncle of Mrs. Landrum.

Michael Crawford Born at Tahoka

Mr. and Mrs. Herman Crawford of Tahoka became parents of a baby boy October 23. He weighed 8 lbs. 12 ozs.

He is the first child for the couple. Grandparents are Mr. and Mrs. Clyde Fields, Friona, and Mr. and Mrs. H. W. Crawford, Tahoka.

A. G. Kothe, Friona, is the maternal great-grandfather. Mrs. Crawford is the former Donna Fields.

Of Interest To THE WOMEN

GUEST OF HONOR—Janet Snead, left, was guest of honor at a linen coffee in the home of Mrs. Nelson Welch, right, Tuesday morning. Miss Snead, who will become the bride of Clyde Woodard November 23, is looking at one of the gifts she received. Coffee and assorted breads were served.

Halls Host Barn Party

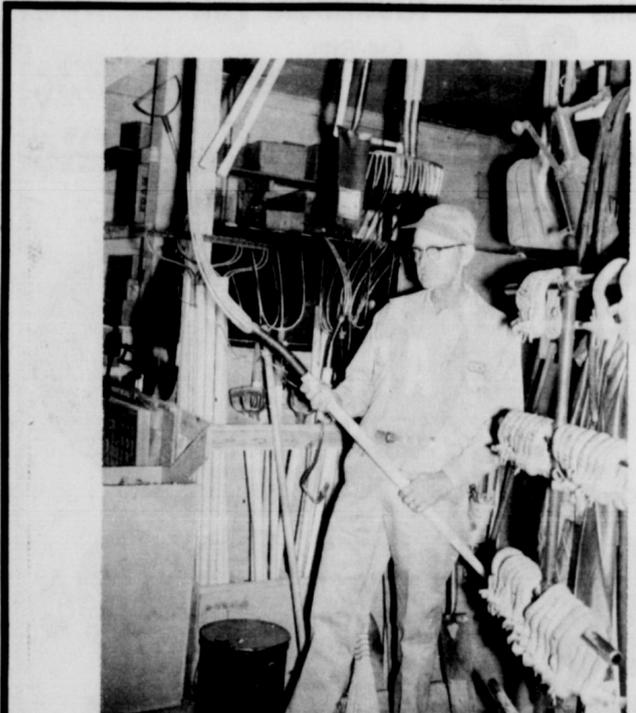

Mr. and Mrs. Paul Hall were hosts at a Barn Party on their farm northwest of town Thursday evening. They were assisted by Mr. and Mrs. Forter McGee, Mr. and Mrs. Tom Pruett, Mr. and Mrs. Danny Bainum and Mr. and Mrs. Flake Barber.

Pupils of the fourth and sixth grades were invited guests and about 75 attended. Games were played and refreshments of sandwiches, cold drinks, chips and popcorn balls were served.

Mrs. Davis Sea Speaker

Guest speaker at the annual Federation Tea in Fellowship Hall of Friona Methodist Church will be Mrs. Bill Davis, O'Donnell, president of Caprock District Texas Federated Women's Clubs.

Members of Progressive Study Club will serve as hostesses. Other clubs participating in the event will be Friona Woman's Club and Modern Study Club. Purpose of the meeting is to strengthen ties of federated clubs. Mrs. Davis has chosen to speak on the subject, "Federation."

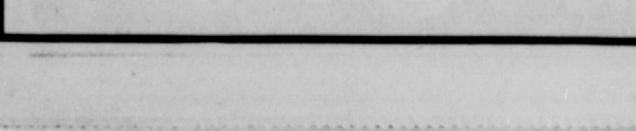

Sam Say, "We Have A Big Selection Of Forks, Spades, Shovels And Other Tools.

Lazbuddie YWA Installs Officers

The Young Woman's Auxiliary of the Lazbuddie Baptist Church met Thursday, October 31, 1963, in the Ronnie Briggs home. The purpose of the meeting was to install officers.

Members attending were Janette Slayton, Debbie Bullock, Peggy Carrell, Wynell Barnes, Bobby Jo Jones, and Cynthia Harvey.

Sponsors present were Adelle Treider, Lillian Morris, Evelline Winters, Rosemary Briggs and Mildred Redwine.

Five Attend Board Meeting

Five Friona women attended an all day board meeting of the Caprock District Federated Women's Clubs at Morton recently. Presidents of Friona Woman's Club, Modern Study Club and Progressive Club were in the group.

Those attending were Mesdames C. W. Dixon, Wesley Foster, Sloan H. Osborn, Walter R. Riethmayer and Wesley Hardesty.

Bob Sanders Honored At WT

Bob Sanders, son of Mr. and Mrs. B. E. Sanders and 1961 graduate of Friona High School, was initiated into Alpha Chi, national honorary fraternity, Sunday, October 27.

Formal initiation was in the Fine Arts Building on the West Texas State University campus at Canyon. Membership in this fraternity is limited to the top 10% of the junior and senior classes.

Sanders, who is a junior, is a speech major.

Recent Visitors In The Home Of Mr. and Mrs. Virgil Widmer

and children have been Airman First Class and Mrs. George C. Bell, who have recently returned from a three year stay in Spain.

Mrs. Bell and Mrs. Widmer are sisters. The Bell home is in Portales.

Lieutenant Pressley N. O'Bannon

was in charge of the Marines who raised the American flag over the Barbary fortress at Derne, Tripoli in 1805. This was the first time the American flag was flown over an "Old World" fort or on the continent of Africa.

FRIONA On The Move

Mr. and Mrs. Calvin Martin moved recently from 1306 Euclid to their newly constructed home at 1306 Columbia in the Drake addition. Upon completion of a re-decorating job by the Martins, Mr. and Mrs. Jim Stell will move to 1306 Euclid.

A three way move was completed when Weldon Fairchild reported for duty with the United States Air Force. Mrs. Fairchild and Mark are with her parents, Mr. and Mrs. A. S. Grubbs, who live southeast of town. Mrs. Dess Fallwell, who spent several months in Arkansas, moved back into her home on East Seventh.

Mr. and Mrs. Henry G. White, moved from Mrs. Fallwell's home into their house, which was vacated when the Fairchild family moved.

The Ben McDonalds moved into Matelli LeVeque's house on West Sixth. He is the new operator of Western Auto Store.

W. P. Hunt moved from 710 Grand; Smitty Clark moved to 603 West Seventh and Earl Dunn moved from 911 Grand.

Educational Council Sponsors Meeting

Dr. Hugh Pennal, Amarillo, will be guest speaker at an organizational meeting of parents at 3 p.m. Sunday afternoon in the High School Auditorium. This meeting, which is being sponsored by the Community Educational Council, has been planned for an introductory meeting for study of local problems.

Letters of invitation have been mailed to all parents of youth from the sixth grade through the senior class.

WMU Bible Study In Dixon Home

Sixteen persons were present for the Women's Missionary Union of First Baptist Church Bible study Tuesday afternoon in the home of Mrs. C. W. Dixon.

Mrs. Roy V. Miller Sr. taught a lesson from "The Harmony of the Gospels."

A social hour followed the study. Refreshments of coffee and cake were served.

Those present, besides the hostess and teacher were: Mesdames L. R. Dilger, Wesley Hardesty, Bill Burton, Johnny Mars, O. B. Moyer, Jim Maynard, Joe Talley and T. E. Wood.

Also Mesdames Charlie Turner, Spencer Hough, Charles Hough, L. C. Roots III, Clyde Tims, Ralph Taylor and Lee Renner.

Girl Scout Notes

On October 21 the Girl Scouts of Troop 93 had a wieners roast at their secret hideout. They left the Sixth Street Church of Christ at 4:10 p.m.

Each girl brought part of the food. As the charcoal burned into coals the girls finished cleaning up the hideout and found places to eat.

After eating, the side was cleared and the girls returned to their meeting place.

There were eighteen Girl Scouts and three leaders present. The leaders were Sue Rector, Geneva Riethmayer and Nergis Yazgan, the foreign exchange student from Turkey.

On October 28 this group met and discussed the national and Girl Scout symbols. They also discussed the new badges they plan to start work on. There were sixteen present. The leaders were Sue Rector and Nergis Yazgan.

On November 2 this troop has a bicycle hike. They rode their bikes out to Watson Whaley's irrigation pond. Each girl took a canteen, a knife, a first aid kit and a sack lunch. An item for the first aid kit was contributed by each troop member.

When they got to the pond, they ate their lunches, then made bird coverages to attract pheasants, quails and doves. Grains of maize and corn were placed in these spots so the birds can find food in bad weather. They then returned to their hideout using the proper rules for riding bicycles.

When they got to the hideout they made individual fires which were for a challenge in fire-making on this damp day. They also toasted marshmallows. After clearing the site, they returned to the church annex.

There were nine girls present. Adults on this outing were Mrs. Flake Barber and Mrs. Bob Riethmayer. The hike lasted from 1:30 to 5 p.m.

Kay Riethmayer, Reporter

Girl Scout Troop 238 met at the American Legion Hall Monday afternoon. Then went in a group to City Park to encourage a group of Brownies to plan activities of enjoyment for their troop.

Refreshments of smores and punch were served. Gloria Brown, Reporter.

Mr. and Mrs. Harold Davis of Lamar, Colo. have been recent visitors in the home of Mr. and Mrs. Larry Martin and children. They are parents of Mrs. Martin.

ROBERT ELLIOTT

Missionary To Be Featured At Local Church

The Rev. Gifford Towle, missionary engaged in rural reconstruction work in Western India, will speak at the Congregational Church November 10 at the 11 o'clock service.

Rev. Towle is accompanied by his wife, who assists him in his work with the Agricultural Extension program in India at the Vadala Vocational School.

The Towles have been in India since 1939, and have had many interesting experiences in their work of trying to bring modern methods of farming to an ancient civilization.

In the Sunday evening service at 7:30, colored slides will be shown and the public is cordially invited to attend both services.

Thirty-Three Attend Party

Thirty three young persons attended a Halloween party in the basement of a vacant house near the home of Mr. and Mrs. Neal Bradshaw in the Lazbuddie community Thursday evening.

Host couples with the Bradshaws were Mr. and Mrs. Roy M. Miller, Mr. and Mrs. Gerald Ramage and Mr. and Mrs. Fred Birch.

Following a game session directed by Mr. and Mrs. Gaither Vandiver, refreshments of hot spiced punch and Spudnuts were served. Halloween decorations were, spoons, goblins, black cats and witches.

Lazbuddie Club Meets Friday

The Lazbuddie Home Demonstration Club met Friday in the home of Mrs. Roy M. Miller. Ten members and two guests, Mrs. Cricket Taylor and Mrs. Marshall Caldwell, were present.

Mrs. Taylor presented a program on food and nutrition and emphasized the importance of well planned meals in our daily diet. She reported that even though our country has an abundance of food, there are many nutritional problems.

Meetings have been changed from the second and fourth Thursdays of each month to the second and fourth Fridays of the month. The next meeting of this organization will be in the home of Mrs. Scotty Windham Friday, November 8.

Ph 5941 FRIONA

The H. C. Wells family and some friends have been experiencing a treat for late October and early November. They are still eating roasting ears. It seems that some late corn was planted for ensilage with no expectation of growing mature corn, but due to the late frost a lot of it has matured enough to make good eating corn.

After looking over the crowd at the Friona-Morton football game Friday night, I wondered if some Frionans who attend Texas Tech fully understood the meaning of "homecoming." It looked as if some local boys and girls gave the word a literal meaning and came home instead of attending homecoming events in Lubbock.

It is always good to see college students home for a weekend and think it is fine that they want to come home even when more glamorous events are in store for them somewhere else.

Clyde and Georgia Fields are now in the ranks of "grandparents for the first time" and seem to be enjoying it. They have been to Tahoka to see little Michael Shane Crawford and Grandma Georgia used the old gimmick of the baby having colic as a good excuse for holding him all afternoon.

At different times down through the years the Floyds have had a wide variety of pets and at the present time we have two dogs and one hamster. Susan, our ten year old, is owner of the hamster and thoroughly enjoys it. However, the mother of the family doesn't quite share her feeling. It really is one of the cutest things we've ever had and causes absolutely no confusion. He

is real clean and Susan accepts responsibility of caring for him so he isn't any problem.

Perhaps it is just that I get a "squeamish" feeling every time I touch him because I do enjoy watching him play in his cage.

Little Christy Cunningham, who is two, thinks he is pretty special and enjoys holding him in her hands or petting him. One afternoon she became tired of holding him and said, "I think I will just put him back in his bird cage."

Right now the Star doesn't have a regular correspondent for the Black community nor the Rhea community and we'd like to have one for each of our neighboring communities.

If any resident of either of these two communities is interested in performing a fine community service and at the same time earning some money, we'd be happy to have them come in or call.

For several months a number of civic minded individuals in our community have been studying facts and figures concerning several phases of activity which need to be improved upon.

Careful study has been made of available statistics in this and other communities and it has been definitely shown that dropouts are on the increase and that improvements need to be made in other areas of activities.

All adults who are interested in the future of our community are being invited to attend a meeting in the auditorium Sunday afternoon. Let's all go.

Take advantage of each little opportunity that comes your way, then you will never need to wait for or worry about a big one.

Bufs Wind Up Home Schedule With NMSU

West Texas State University begins preparations this week for its final home appearance of the 1963 season as New Mexico State U. comes into Buffalo Bowl this Saturday afternoon. The Bufs and Aggies will square off at 2 p. m. on November 9.

West Texas broke its three game losing streak over the weekend as the Bufs defeated a game Trinity University team 24-2. This game may not have seemed too important to many of the West Texas followers, but it was a vital contest to the coaching staff and players. The Trinity contest marked the debut of freshman quarterback Greg Klein who was pressed into service when starter David "Hoot" Gibson and alternate Bill Bundy were injured a week ago against University of Arizona.

Klein came through with flying colors. He completed 7 of 10 passes for 77 yards and one score. He directed the Bufs to all of their points and showed a great deal of poise for a rookie quarterback. His ball handling was near perfect, his passes were rifle shots right on target. Much was expected of Greg and he delivered in fine fashion.

Ollie Ross was the scoring star of the contest for West Texas. Ollie scored one marker on a short plunge, booted a 46 yard field goal and kicked all three extra points. His 12 point total in Saturday's contest give

him the team leadership with 38 points for the season. His field goal, as far as limited records reveal at the present time, is a record for West Texas State.

DON'T GET CAUGHT OUT ON A LIMB

INDIANS TOPPLED, 7-6

Eighth Straight Win Was Hard To Come By

For perhaps the first time this year, the Friona Chieftains ran head-on to a team which wanted to win a game just as badly as the Chiefs themselves did or maybe more so and the results almost proved disastrous for Friona.

But the Chiefs proved for the second time this year that they can come from behind, and they did for a 7-6 district win over the giant-sized Morton Indians last Friday, to remain in the thick of the District 3-AA title fight.

The win left Friona tied with Muleshoe for the district lead, both with 2-0 records, and set

the stage for their meeting Friday at Muleshoe. It also gave Friona its eighth-straight win of the year.

For a while Friday, it looked as though Friona's winning streak might be stopped by the determined Morton team.

Things started out badly for the Chiefs from the start. They lost the coin toss—only the second time they have lost the toss all season. Previously, Friona had won the toss (and received the ball on the opening kickoff) in six of the seven games. Five of these times, Friona drove for a touchdown, and in the game where they

lost the toss (Memphis), the Chiefs also scored the first time they had the ball.

Morton was held to one first down after taking the kickoff, but punted to the Friona five-yard line. Friona made three first downs, including a 13-yard pass play, Gary Renner to Tommy Baxter, but lost the ball at the Morton 47 on a fumble.

Morton then became very attached to the ball, and wouldn't give it up until they had marched the 53 yards to the goal for the score. The drive began midway in first quarter, and ate up the remainder of the

period. The score came on the first play of the second quarter. Big Sherrill Griffith scored the TD on a one-yard plunge. Luckily for Friona, the kick for extra point was a bit wide.

Baxter ran the ensuing kickoff back to the 28, and Friona seemed to be headed for a score. Renner picked up 18 yards, passed to Baxter for 14 more, and then Baxter, who started only his second game of the year, ripped off 19 yards to the Morton 14-yard line.

But once again, the Chieftain offense hit a snag. Two running plays gained three yards, and two passes were incomplete, so Morton took over on its 11-yard line.

Friona took the second-half kickoff and again seemed headed for paydirt. Renner picked up 24 yards on a keeper play, and Baxter raced 14 yards to the Morton 17. Three plays advanced the ball to the Morton 10, but on fourth down, Renner was downed behind the line on a passing attempt, and Morton took over on the Indian 15-yard line.

But Friona got a "second chance." A clipping penalty put Morton back to the 10-yard line, and on fourth down from the 24, the Morton punter fumbled the snap, and ended up kicking the ball as it lay on the ground. Friona recovered on the Morton 23.

From there, the Chieftains moved in for their touchdown in just two plays. Renner ran 17 yards to the six, and Baxter circled left end for the other six yards and the TD, Doug Dodd, who has been doing a good job kicking extra points all year, kicked a beauty, and Friona led, 7-6, with 3:02 to play in the third quarter.

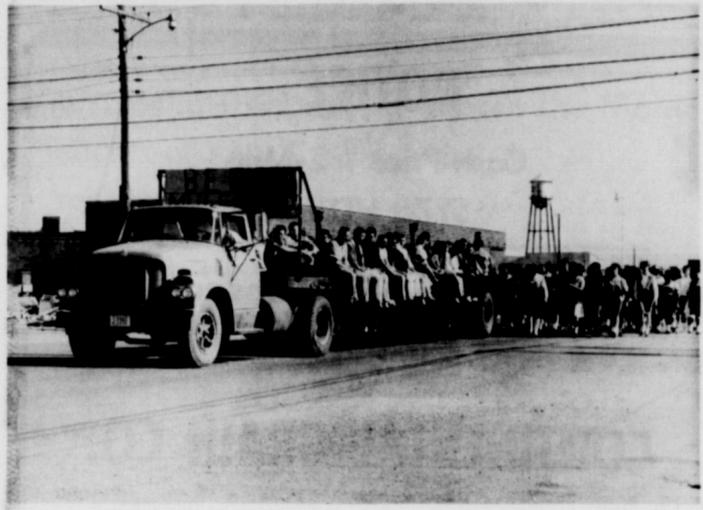

The Chieftains had two drives in the fourth quarter. A 14-yard run by Baxter put the ball on the Morton 24, but a 15-yard penalty pushed the Chiefs back. On fourth down from the Morton 38, Friona elected to kick, and the punt by Everett Gee went into the end zone, bringing the ball out to the 20 and leaving Gee with just 18 yards for his kick, which hurt his 40-yard average for the year.

With 1:46 left in the game, Friona was on the Morton 40 with fourth down and 18 yards to go, and again punted. This time Gee got 20 yards on the kick as it once again rolled over the goal-line.

Morton was put in a hole, however. The Indians tried two passes and then Griffith was caught for an eight-yard loss and Friona took over on the Morton 13-yard line with 30 seconds to play.

After a five-yard penalty against the Indians for being offside, Baxter ran the ball to the Morton 20 as the game ended.

Friona held the Indians to 38 yards the second half after giving up 134 in the first half. The Chieftains' second-half spurt (and good defensive play) enabled them to overtake Morton both in first downs and yardage totals.

BOOSTER PARADE . . . The Friona Chieftains and coaches were feted at noon Wednesday with a parade through Main Street. Members of the student body are shown following the truck loaded with Chieftains.

MAP STRATEGY . . . The three captains of the Friona Chieftains, with two crucial games to go, are mapping strategy to use against Muleshoe and Olton. From the left are Gary Renner, Everett Gee and Mickey Wilson.

7th Footballers Finish Unbeaten

Friona's Seventh Grade football "Braves" completed an unbeaten season at Muleshoe Tuesday night, beating the Junior Mules, 12-0 to post a 6-0 record for the year.

Joe Perez ran 30 yards in the second quarter to get Friona off to a running start, and they led at halftime, 6-0. In the fourth quarter, Johnny Barker tossed a halfback pass to end Danny Carbel on a 25-yard play for a touchdown.

"The passing of Mike Dukes and the receiving of Delvin Brookfield and Barker helped Friona control the ball. The team did a fine job all season long," commented Coach Robert Taylor.

8th Grade Ends 1963 Season

Friona's eighth grade football team ended its football season with a 1-6-1 record, after losing to Muleshoe, 22-0 Tuesday night. Last Thursday, the team had lost to Farwell, 16-6.

At Farwell, the home team took a 16-0 halftime lead, and Ruben DeLeon, fullback, scored in the last quarter to avert the shutout.

DeLeon, who has started in the backfield the past two games, has done a good job in both games, according to coach Tom Jarboe. The coaches complimented the team on its never-say-die play throughout the season, and believe the record isn't indicative of its success.

STAR Sports

RECORD BOOK SHOWS

Friona, Muleshoe First Played Football In 1928

(Editor's note: the following is based on records contained in the booklet "Muleshoe on Parade," a football history of Muleshoe written and published by Star editor Bill Ellis in 1959 while a student at Texas Tech)

Friona went back ahead with a 12-0 win in 1930, but Muleshoe won four in a row before the Chiefs won, 12-6 in 1940 in the second of two games played that year.

The teams didn't meet at all for 17 years, from 1942 through 1957, and when the series was renewed in 1958, Friona tied the Mules, 0-0. Muleshoe went on to tie for their district championship that year.

Although the two school have met in football just five times in the last 21 years, Friona's rivalry with Muleshoe dates all the way back to 1928, when both schools were just "getting started" in the sport.

In the 34 years since their first meeting, a total of 16 games have been played. Friona has won five of the games, Muleshoe 10, and one game, in 1958, ended in a 0-0 tie.

The Chieftains got off to a good start in the rivalry with their neighbors to the south, winning both games of a home-and-home series in 1928. However, Muleshoe bounced back to even the score with a pair of wins in 1929.

The next year, 1959, the Chiefs spoiled Muleshoe's homecoming celebration with a 24-14 win. This is the only non-conference win Friona has scored over a class AA team since they went into the AA classification in 1958.

Muleshoe currently enjoys a three-game winning streak over Friona, starting in 1960. The largest score turned in by the Mules in the series was 47 points in 1961. Their largest margin of victory was 42 points, in a 42-0 win here last year enroute to Muleshoe's first out-

(Friona Score Listed first)

Year	Score	Played at
1928	19-6	Muleshoe
1928	(FHS won)	Friona
1929	0-18	Muleshoe
1929	0-6	Friona
1930	12-0	Friona
1932	7-14	?
1938	7-18	Friona
1939	2-39	Friona
1940	0-19	Friona
1940	12-6	Muleshoe
1941	7-19	Muleshoe
1958	0-0	Friona
1959	24-12	Muleshoe
1960	6-32	Friona
1961	6-47	Muleshoe
1962	0-42	Friona

(Friona has won five, Muleshoe 10. There has been one tie.)

Raiders Play Final Home Game

Texas Tech's Red Raiders conclude their 1963 home football schedule by playing Kansas State University of the Big Eight Conference in Jones Stadium at 2 p.m. Saturday.

Coach J. T. King has seen his youthful Raiders -- including six sophomore starters -- upset the experts by winning three of their first seven games. Despite a 17-3 loss to Rice last week, Texas Tech, with two conference wins to its credit, obviously will finish higher in the SWC race than its 1962 cellar finish.

Although the development of younger players has been one of the pleasing aspects of the campaign, the Raiders have relied heavily also upon their seniors, who will be playing their last game before South Plains fans.

K-State, loser of only one other game that season, hasn't fared as well this year. Coach Doug Weaver's Wildcats defeated Brigham Young in the opener but since have lost to San Jose, Colorado, Missouri, Nebraska, Oklahoma, and Kansas.

MULESHOE 21, OLTON 13

REVIVAL MESSAGE

Friends and Brethren

We would like the co-operation of each and every one of you for the Revival that will be held here in Friona. The Revival will be held in our Baptist Mission; date has been set for Nov. 4-10, 1963.

If you would really like to see the Latin Americans come to Jesus Christ, it's all up to you. Why? some of you may ask. Well, for those of you who are farmers and have Spanish hired hands, you are the ones that can help them come to Christ by letting them take off a little early each day so that they can come hear the word of God.

So each and every one of you Christian farmers should help carry the great news of Salvation. As you know God has Commanded us to do so; Mark 16-15.

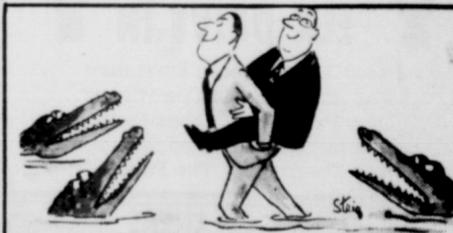

By now most of you have probably heard about the Crusade that's coming for the Latin Americans, so lets all work together and start right here in Friona.

For those of you who are sponsors of the First Baptist Mission, lets do our best so that lost souls can come to Christ.

Thank you very much
Rev. J. M. Garcia

P. S.
My sincere feelings to Bro. Santos Rando who is one of the most faithful Christians in our Mission. Even though he is still very young, he has at his support his mother and 12 brothers.
I would like the prayers for him from each and everyone of you.
Thank-you.

Everyone Welcome-First Baptist Mission
November 4th Thru 10th

An independent agent takes the big worries out of insurance

When your car or home is damaged, will you worry about collecting from the insurance company? Probably not--if your car or home is insured through an independent insurance agent! Insurance companies that sell through independent agents make payments promptly and fairly. And, if there is a disagreement or delay, your independent agent is on your side, ready to help you. An independent agent takes the big worries out of insurance.

Will you have this feeling of security if you buy insurance for your car or home directly from some insurance companies?

For insurance tailored to your needs, call on us. As professional insurance men--independent agents--we're pledged to serve you first!

Mr. and Mrs. H. L. Brown, Oakland, Calif., are visiting in the home of Mr. and Mrs. L. R. Hall, Mrs. Brown and Mrs. Hall are sisters. The Browns are also visiting in the home of Mr. and Mrs. Matt Brown and children of Friona. Mrs. Brown is their daughter.

Gerald Darton was a weekend guest in the home of Don Watson. They are both students at West Texas State University, Canyon and appeared in the ROTC half-time drill at Post Friday evening.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Mr. and Mrs. Don McDonald and children visited Mr. and Mrs. Edwin Menefee of Friona Sunday.

Mr. and Mrs. Raymond Lester and children were Sunday guests of her parents, Mr. and Mrs. Claud Blackburn.

Mr. and Mrs. Leon Smith Sr., and Toni were Sunday dinner guests in the J. V. Bouldin home near Hub.

Guests in the home of Mr. and Mrs. Clyde Monk after church Sunday evening were Mr. and Mrs. Jess Pendergrass, Mr. and Mrs. N. R. Iley and Mr. and Mrs. J. B. Wright of Lazbuddie and Mr. and Mrs. John St. Clair of Muleshoe and Mr. and Mrs. Claud Hendricks of the Pleasant Valley community. Following a session of "42", sandwiches and coffee were served.

Birthdays this week

go to Glendale King, Eva Dean Ivy, W. P. Morgan, M. A. Barton, Connie Sue Stroud, David Harding, Tamra Jennings and Royce Barnes.

Jerald Foster was injured in a collision in Pampa Wednesday evening of last week. Following emergency treatment in a Pampa hospital he was dismissed and is recuperating at home. He is a 1963 graduate of Lazbuddie High School and has been attending West Texas State University at Canyon.

Mr. and Mrs. Frank Hinkson entertained the MYF of Lazbuddie Methodist Church with a Halloween party in their home Thursday evening. Fifteen members were present for a game session and refreshments were served.

The Joe Jesko and Glen Lust homes were broken into Friday evening. Clothing, jewelry, electric appliances, luggage, a radio and a television set and other items were reported to be missing.

The C. W. Bradshaws entertained the young people of the community with a Halloween party in a vacant house near their home Thursday evening.

Sponsors for the party were Mr. and Mrs. Gailther Vandiver, Mr. and Mrs. C. W. Bradshaw, Mr. and Mrs. Fred Burch, Mr. and Mrs. Roy M. Miller, Mrs. Don Schumann and Mrs. James Mabry. Students of Lazbuddie High School turned the house into a "haunted house" and games were played in the basement.

Those attending were Linda Monk, Susan Pendergrass, Terri Sue Mabry, Katie Blackstone, Cynthia Harvey, Carrol Miller, Charles Ramage, Joyce Hudson, Jennie Steinbock, Craig Schumann, Marianna Gammon, D. H. Foster, Theron Vaughn Jr., Sherry Robinson and Donna Precure.

Also Lloyd Bradshaw, Gary Coker, Beverly Crawford, Kenneth McGehee, Danny Miller, Teenie Alvarez, Timmie Foster, Mack Holt, Johnny Beth Ivy, Kathy Wilson, Buster Steinbock, Kirby Burch, Lyndon Foster, Royce Barnes, Terry Parham, Larry Vaughn, Kelly Mims and Johnny Mabry.

Refreshments of Spudnuts and punch were served following a game session, directed by Mr. and Mrs. Vandiver.

The Goal Of The Christlike Life
 1. Thess. 5:23

Christlike character is the goal of the man who has been regenerated - That which he is seeking is not simply a passport to heaven; it is a character conformed to the will of God. This results from a transformation by the renewing of the mind. Peter on one occasion said to Jesus, "What shall we have?" That is a question which men are always asking. It therefore is not strange that the question arises so often on the threshold of the religious life. Religion promises much. But we must be careful not to suppose that these gains are in the form of gold coins or fertile acres or worldly honors. A Christian's treasures are largely within his soul. They take the form of riches of character.

Pastor. First Colored Baptist Church,
 Rev. I.S. Ansley.

Squaws To Be Featured In Basketball Clinic

Featured event of the seventh annual Hutcherson Flying Queen Basketball Clinic this Saturday at Wayland Baptist College, Plainview, will be exhibition games between girls' basketball teams from Claude and Morton; Friona and Roosevelt; and Spearman and Floydada.

Plans are almost completed for the clinic which is scheduled to get underway at 9 a.m.

Saturday, Nov. 9 in the Plainview High School Gymnasium. Twenty-six teams from Texas and Oklahoma have pre-registered for the one-day clinic which in years past has come to be a coaching highlight of the season.

This year's clinic will feature a unique program consisting of short periods of demonstration by players and coaches attending the clinic. The Hutcherson Flying Queens, six-times National Women's AAU champions, and Wayland's freshman team, the Queen Bees will be used for demonstration of basketball fundamentals and ball-handling. The Queens will also give a scrimmage.

Holt's Sporting Goods, Lubbock, will sponsor a coaches' luncheon at 12:30 p.m. in Plainview's Congress Inn. The three exhibition games will start at 4 p.m. and will be free to all coaches and players registered for the clinic. Other persons will pay \$1 for the slate of games.

Junior Play Features Story Of A Tomboy

Bobbette (Bobby) Braddock, a tomboy from the word "go" leads her family and friends a merry chase in "The Magic Touch," to be presented by the Friona High School junior class Saturday, November 16.

She plays football with the "Dirty Dozen," and hunts with her father. All of this horrifies her mother, who believes in climbing the social ladder and impressing the socialites.

Both parents want their daughter to be natural, but each is pulling in a different direction. Her friends just want her to be Bobby. And Bobby (played by Carol Struve) -- well, just plan to see the production for yourself.

Reserved seats are \$1 and general admission tickets are 75 cents. Any member of the junior class may be contacted for tickets.

There's no limit to the height a man can attain by remaining on the level.

WATCH OUT, MA . . . Bobby Braddock, played by Carol Struve, draws a bead on her "mother," Julia Dennis, Bobby's "father," Charles Fields, doesn't seem to notice the goings-on either. The scene is from the junior play, "The Magic Touch."

SEASON RACE TIED First Time Charmed For Contest Entrant

A contestant making her first entry of the season who the weekly prize of \$5, and the race for two tickets to the Cotton bowl football game was all tied up as a result of last week's Friona Star football contest.

Mrs. Dale Williams, making her first entry in the contest, turned in a blank with 10 correct games to run away with first prize money in the weekly contest. No other contestant got that many right last week.

Meanwhile, two contestants, Kenneth Watkins and Clarence Monroe emerged all tied up for the lead in the race for grand prize of two Cotton Bowl tickets and \$55 expense money, with two weeks to go in the contest.

Contest promoter John Getz, advertising manager for the Star, announced that in the case of a tie after the final week, the entrant correctly picking Friona as winner or loser

throughout the season would get the grand prize. In case of a further tie, the tiebreaker scores would be tabulated to determine the winner.

This was the case last year, when C. H. Veazey and Waymon Wilkins tied on total score, but Veazey was judged grand prize winner on the basis of having the lowest tie-breaker margin.

Second place money of \$8 last week went to John Baca of Route 1, who had nine correct games, as did third-prize winner, Robert Ivy, also of Route 1. Baca missed the tie-breaker 22 points, guessing 21-14, and Ivy was 28 points off, going 34-7.

Behind the two leaders in the contest, who have a score of 67, come C. H. Veazey at 65, Martell LeVoque and Jimmy Maynard at 64, Mrs. Maynard Agee, Dennis Howell and Mrs. Kenneth Watkins, 63, Karen Agee, Maynard Agee and Mack Ragsdale, 62.

PERFECT PAPER . . . Mrs. Dale Williams checks her entry blank to assure herself that she got all 10 games right in her very first entry in the contest, good for first place last week.

"Something we have suspected for a long time has been verified at last. The use of the term 'senior citizen' as applied to retired elderly persons is 'loathed' by every one of a number of retirees recently interviewed by a Los Angeles research firm. The terms 'old' and 'elderly' are perfectly good words, and, with the backing of the Goodkin Research Corporation, it would seem the person who successfully has navigated a large number of years cannot abide the condescending appellation foisted on them by 'modern-minded' younger folks who seem to have no concept of how fulfilling it can be to reach a ripe, old age." -- Grants Pass, Oregon, Courier.

Don't Be In The Dark . . . About The Many Benefits of Your Credit Union

- A DEMOCRATIC ORGANIZATION run by the people you elect to your Board of Directors.
- PROFITS are returned to you because you are part-owner when you have shares on deposit.
- PERSONAL ATTENTION given to you because you are dealing with your fellow members.
- INSURANCE BENEFITS (if you are insurable) for your family in the event something happens to you. In most cases, your designated survivor will receive double the amount of your shares (up to \$2,000) and any existing loan will be automatically paid off.
- JOINT ACCOUNTS provide accessibility for your family. And, you can have more than one share account. In fact, each member of your family can have an account with you as a joint owner.
- LOW INTEREST RATES when you borrow money. You will never pay more than 1 1/2% per month on your unpaid loan balance.
- BIG DIVIDENDS on your deposited shares. You get a big return on the money you have invested in your credit union. The Board of Directors declared a 4 1/2% dividend on your investment for 1963.
- Every One Within A 22 Mile Radius of Friona Post Office is eligible for membership.

Changes Made By 'Horns In Preparation For Hart

Coach Charlie Walton of Lazbuddie High School says he will shake up the Longhorn starting lineup this week in an effort to get a better performance from his team.

"I've got to do something. We have just quit playing," Walton said this week following his team's 33-6 loss to Bovina last week.

Walton said he planned to start three sophomores, with the possibility of five starting against Hart in the game Friday night. Sophomores Hoppy Jennings will start at quarterback, H. W. Moore at end, and guard

Johnny Mitchell, a regular starter, at guard.

Other sophomores who might rate a starting assignment are guard James Koelzer and end Mack Holt.

With Jennings calling the signals, regular quarterback Kenneth McGehee will move to fullback. The Longhorns lost starting backfield member Lloyd Bradshaw prior to the Bovina game, and had to start a freshman in his place, Alfred Steinbock, credited with a good performance.

Bradshaw came up with a chipped shoulder, and probably will be out for the remainder of the season. About Hart, which is unbeaten in district play, Walton said, "I don't know if we can stay on the same field with them or not. However, you never know what's going to take place."

Lazbuddie scored first against Bovina. The Longhorns

took the opening kickoff and marched for a score. McGehee plunged the final yard to give the home team a 6-0 lead. His 35-yard run highlighted the TD drive.

However, Dennis Johnston scored twice for Bovina in the first quarter, and end Phillip Lloyd once, to give the Mustangs a 19-6 halftime lead. Ronnie Taylor scored on a play early in the final quarter for Bovina, and Tally Kelso added the final eight points.

Lazbuddie's B-team, which beat Amherst 20-8 last Saturday morning, goes to Amherst for a return game at 10 a.m. this Saturday. They have a game at Farwell November 14.

"We're real pleased with our B-team's progress. They have played five games and have a 2-3 record. They lost to Sudan the first time we played, 40-6, but came back to beat them later, 12-6," Walton said.

NOW ON DISPLAY

MINNEAPOLIS

MOLINE

TWO-WAY SPINNER PLOW

This 3-furrow Moline Moldboard Plow with its two sets of hydraulically rotated bottoms can answer many of your plowing problems. Now, with just a simple movement of a hydraulic lever, you can use both sets of bottoms alternately to turn all furrows in the same direction. You eliminate dead furrows, back ridges and non-plowing time easier than ever before. And the Moline Spinner Plow is a real boon to soil conservation practices! Use it to work irrigated fields to a smooth, level condition for maximum water control . . . for contour plowing where it is beneficial to turn all furrows uphill to help retain water and reduce soil erosion. You'll be pleased, too, with the efficient, trouble-free performance of the new hydraulically operated pivoting mechanism. It functions off of any single or double acting 3 1/2" diameter or larger remote hydraulic cylinder with an 8 inch stroke. And you'll profit by the low maintenance expense built into every inch of the durable, give-and-take-it Moline Two-Way Spinner Plow. See it in action on your farm soon.

Rehearsals Underway For Talent Show November 21

Rehearsals are in progress for the Friona Classroom Teachers Association's talent show, to be held Thursday, November 21, at the Friona High School Auditorium.

Eleven committees have been appointed, and are beginning to function, according to Mrs. Troy Ray, one of the directors. Other directors are Mrs. H. E. Barnett and Wayland Ethridge. Assistants are Mrs. Roy V. Miller, Mrs. Bill Beene, Mrs. Aubrey Rhodes, Tommy Paris, Benny Pryor and Maurine Dunn.

The committees are composed of:

Ticket -- Mal Manchee, chairman, Bailey Clements, Joe Evans. **Publicity** -- Robert Taylor, Mrs. Benny Pryor and Joy Morton.

Scenes and props -- Kenneth Pearson, Lionel Young, Skipper McNeal, Claude Spears, Mrs. Loyde Brewer, Mrs. Tommy Paris, Mrs. Tommy Barkley, Mrs. Skipper McNeal, Mrs.

Harvey Neal, Mrs. J. D. Sanders, Mrs. Wes Long, Mrs. Newman Jarrell, Jr., and Mrs. Travis Harrell.

Costume -- Mrs. Frank Truitt, chairman, Mrs. L. B. McClain, Mrs. O. J. Beene, Mrs. Otho Whitefield, Mrs. R. L. Bates, Mrs. Bailey Clements, Mrs. Dalton Caffey, Mrs. David Eddington, Mabel Jones, and Mrs. George Treider.

Lighting -- Wayne Hodgson, chairman, Phillip Bates and Mrs. H. K. (Pudge) Kendrick. **Curtain** -- Jo Phillips, chairman, and Mrs. Tommy Paris. **Telephone** -- Jo Phillips, Mrs. T. E. Lovett, and Mrs. O. J. Beene.

Music -- Mrs. Raymond Cook and Pat Foster, chairmen, Maurine Dunn, Mrs. David McVey, Mrs. Grady Dodd, Continuity -- Mrs. Aubrey Rhodes, chairman, Mrs. James Hamilton, Ruth Carter. **Printing** -- Wayland Ethridge, chairman, Don Light, C. W. Dukes, Bob

Owen. **Public Relations** -- Dorothy Rowlett, chairman; Lois Miller, Claude Witten, Mrs. T. E. Lovett, and David McVey.

Tickets, at \$1 for adults and 50 cents, are to go on sale in the near future.

Preliminary plans call for entertainment in four musical classifications: Southern and Dixieland, Western and Mountain, Popular and Show, and Folk and Ballad. Numbers will be presented in solos, duets, trios, quartets and group singing.

First Frost October 31

First frost of the season was registered the night of October 31 in Friona. Subsequent frosts came on the nights of the first and fourth of November.

Low temperature for the season was recorded November 1, when the mercury skidded to 32 the night before.

Rainfall measured on November 1 was .43 inches. Another .07 in drizzle was measured November 3.

Temperatures for the week, as compiled by the City of Friona, were as follows:

Oct. 31	82	52
Oct. 1	60	32
Nov. 2	54	33
Nov. 3	61	37
Nov. 4	68	42
Nov. 5	69	38
Nov. 6	71	33

Club Member Gary Snead Is

Gary Glyn Snead of Friona was recently accepted as a member of Sub T-16 Social Club at Abilene Christian College.

A sophomore math major, Snead has been active in intramurals at ACC.

The 1962 graduate of Friona High School is the son of Mr. and Mrs. R. E. Snead of Friona.

There are a lot of good ways to become a failure, but never taking a chance is the most successful.

GETTING MUSIC READY . . . Mrs. Troy Ray, left, and Mrs. Roy Miller are shown going over some of the music for the Classroom Teachers' talent show, to be presented November 21.

Fashions From Sheets

Women will wear anything, provided it's stylish, colorful, comfortable, and different. Take sheets, for example. They've turned so fashionable that women are stitching them up into elegant-looking lounge-wear and hostess outfits.

DON'T PAMPER YOUR WIFE

Let Her Winterproof the Porch with FLEX-O-GLASS This Year

Any little lady can enclose a porch or breezeway with Warp's FLEX-O-GLASS. It's so easy! Just cut with shears and tack over screens. Makes a warm, sunlit room, flooded with healthful Ultraviolet rays, where the children can play all winter long—or use as an extra Store-room. Genuine, crystal-clear FLEX-O-GLASS lasts for years at a fraction of the cost of glass. Only 87¢ a sq. yd. at your local hdwre. or lmbr. dealer.

HOSTESS PJ'S—Cotton percale sheets and pillowcases have turned so fashionable that women are wearing them. These hostess pajamas were made from a fitted sheet and pillowcase in Lady Fefferell's Daisy Dream design.

gives you perfect fit

Are your legs too thin for most nylons?
Need more room at the top...more length?
Do you need a size 8 short, 10½ short, 11½ medium, 11½ long? Hanes has everything from "slim leg" styles to extra long and extra stretch tops to fit you exactly...in beautiful seamless sheers \$1.50 to \$1.65

Johnsons Tells Prize Winners

Winners in Johnson Food Market's door prizes during their grand opening were announced this week.

Joel Landrum won a stainless steel set. The turkey was won by Don McMahan, and C. L. Lillard was awarded a ham.

Winners of baskets of groceries were E. B. Kelly, El-

mer Euler, Joe Coronado, Ray Landrum, Marie Correa, Don McMahan, Clifford Buckner, Charles Fields, Wayne Hodgson and Francis Phillips.

CLASSIC—A perennial favorite of the well-dressed male is the trenchcoat, shown here in durably water-repellent cotton gabardine. Fashioned with a full belt and epaulets, it has a cape back and handsome cotton plaid lining. By Alligator.

School Menu

November 11-15, 1963

MONDAY—Barbecued Wieners, potatoes, green beans, lettuce & tomato salad, cherry gobbler, hot rolls & butter, milk.

TUESDAY—Hamburger steak, corn, English peas, cabbage & apple salad, peach halves, hot rolls & butter, milk.

WEDNESDAY—Pinto beans, cheese sticks, onions, apricot cobbler, corn bread-bread & butter, chocolate milk.

THURSDAY—Fried chicken, potatoes & gravy, buttered carrots, jello fruit salad, coconut cake, hot rolls & butter, milk.

FRIDAY—Soup & chili, pickles, catsup, cookies, milk.

FIRST FREEZE

The Parmer County area's first frost of the fall season occurred last Thursday night, and the first killing freeze followed on Friday night, November 1.

The cold snap which moved in on a brisk north wind last weekend was the first touch of winter that has been in evidence since a prolonged "Indian summer"

set in early in September. The mild, dry weather had an extremely beneficial effect on area crops, especially cotton, and most, though not all, farmers were ready for the first killing frost when it finally arrived.

The normal freeze date for this part of the High Plains is around October 18. Had it not been for the

generosity of Mother Nature, the area cotton crop would have been reduced approximately one-third to one-half of what it now appears it will turn out.

Also, the mild fall has made it possible for a large part -- over one-half -- of the grain sorghum crop to be harvested before frost, setting a new record in that respect.

On The Farm In Parmer County

By DERYL COKER
County Agent

Have you ever given any thought to how much your wheat pasture or stalk pasture is worth? Well I heard an announcement on the radio this week, that people wanted pasture and was willing to pay

\$5.00 per head per month. There is always some risk when feeding, grazing or handling stock but in most part some money can be made utilizing your pasture, where prices for livestock

remain constant.

Below is a chart that may be of help to a person thinking of grazing wheat. These figures of course can vary from year to year, but at least they can be used as a guide.

Returns from Grazing Cattle on Wheat
400# Stocker Calf Costs and Gross Selling Price for Different Rates of Gain and Price

Purchase and Selling Price \$	(120-day Grazing Period)									
	25.00	24.00	23.00	22.00	21.00	20.00	19.00	18.00	17.50	17.00
Total Costs* \$130.58	126.50	122.42	118.34	114.26	110.18	106.10	102.02	97.94	95.90	
Gross at 120 days										
@ .75# per day \$127.40	122.50	117.60	112.70	108.80	102.90	98.00	93.10	88.20	85.75	
Gross at 120 days										
@ 1 1/2# per day \$135.20	130.00	124.80	119.60	114.40	109.20	104.00	98.80	93.60	91.00	
Gross at 120 days @ 1.25#										
per day \$143.00	137.50	132.00	126.50	121.50	115.50	110.00	104.50	99.00	96.25	
Gross at 120 days @										
1.5# per day \$150.80	145.00	139.20	133.40	127.60	121.80	116.00	110.20	104.40	101.50	

*Purchase cost plus variable cost items (see budget at lower left)

Explanation: In this budget the interest on operating capital for the 400# steer is figured on \$92. In the table the interest charge of \$2.15 was used throughout the cost range. The same method was used in considering selling charges, counting \$2.75 for the average expense for all weight of steers.

Amount of gain: .75 lb. daily equals 90#; 1 lb. daily equals 120#; 1.25 lb. daily equals 150 lb. 1.5 lb. daily equals 180#

How to Use the Table:

A. To find the approximate total cost of each steer, move along line 1 to the column indicating the price paid per cwt.

B. Then, to get the expected gross selling price select line, 2, 3, 4, or 5 depending on the rate of gain expected over the grazing period.

C. The difference between total costs and gross selling price will indicate the approximate net return to labor and management.

Example Budget

Calf, 400# @ \$23.00	\$92.00
Pasture rent, 4 mo. @ 3.00	12.00
Interest, 1/3 year @ 7%	2.15
Cake 50# @ 3.20	1.60
Grass hay, 5 bales @ .60	3.00
Veterinary	1.00
Hauling expense	2.00
Selling charges	2.75
Death loss, 2% of orig. cost	1.84
	\$118.34

Hinn Variety May Change View

Parmer County farmers, and others across the High Plains, may well be taking another look at soybeans when they learn of the new variety being introduced by the High Plains Research Foundation at Halfway.

The new variety, called Hinn, is designed to overcome some of the problems that have restricted significant soybean production on the Plains in the past.

Bedford Forrest, representative of the station, said last week when visiting this area, "I sure think farmers around here will want to look into growing some of these soybeans."

He pointed out that soybeans would fit well into a crop rotation program that is made practical with layout acreage under the crop allotment systems, and that soybeans are a legume, a soil-building crop. Soybeans as a national commodity are increasing in importance each year, and markets for the beans are expanding rapidly. Prices have been satisfactory and, more important, they have been stable.

But High Plains farmers have had problems raising soybeans under irrigated conditions. One of the biggest problems has been that of shattering. The harvest time is very critical, and often a good crop of soybeans has been left on the

ground after the pods burst before harvesting was accomplished.

Much progress in this area has been made, according to Forrest.

The Foundation, under the direction of Dr. Earl H. Collister, has bred the first soybean for West Texas. This bean, designated the name Hinn, is expected to revolutionize soybean farming in West Texas.

The Hinn soybean is a full-season soybean yielding from five to 10 bushels per acre more than the other varieties currently being grown in West Texas. The beans are about 1/3 larger than Hill and Lee, the two beans previously grown in this area.

Production of the Hinn bean has been under the supervision of Barry Love, associate agronomist at the Foundation. Barry states that he feels the Hinn bean will be a producer that farmers can use to increase their farm income. Along with

the other qualities of the Hinn bean, a high degree of shatter resistance is indicated as well as a high degree of tolerance for lodging. In the comparison with other varieties in regard to these qualities, the Hinn bean by far outshines all other varieties.

The Hinn soybean fruits higher off the ground than other varieties in such a manner that nearly all of the beans on each plant may be harvested. The eye of the Hinn soybean is light in color which food processors say give desirable flavor in food products.

Soybean farming gives not only a good yield in income to the farmer, but also due to the

rooting system, leaves the land in very good shape for successive crops.

The Hinn soybean, with its high yield productivity and income to the farmer, is believed to be one of the best soybeans ever developed.

If farmers in the area would like to receive more information on the Hinn soybean, they may contact Love, at the High Plains Research Foundation, P. O. Box 1267, Plainview.

Farwell Farmer's Corn Outstanding

While most High Plains irrigation farmers are measuring off their 1963 grain sorghum yields by the thousands of pounds, a Farwell farmer, Frank Seale, is doing the same thing with corn this year.

He has completed the harvest of 74 acres of white corn that produced 497,660 pounds, or an average of over 6,700 pounds per acre. That compares favorably with a very good yield of grain sorghum.

Seale, who farms three miles northeast of town, has grown the special crop before, but this was his best effort. "This is the best corn-growing year I have ever had," he says.

Seale consigned his crop to Golden West Seed Company in Golden, Colo., at \$2.40 per hundred. The corn will be milled and used in the manufacture of tortillas for the Spanish American trade.

The farmer wasn't the only one who was impressed with this year's crop. Joe Benda, custom harvest operator from Drummond, Okla., declares Seale's corn is the best he has ever picked.

The corn is Agrow's No. 105 white, and was planted in early April at the rate of 12 pounds per acre. Approximately 100 pounds of anhydrous ammonia was applied pre-plant, and 150 pounds of 16-48-0 was also applied before planting.

To this fertilizer was added 60 pounds of anhydrous in the irrigation water during the

growing season. Seale irrigated "four or five times" after one pre-plant watering.

"Water requirements for corn are about the same as for milo," says Seale.

Fortunately, the weather cooperated as the crop matured, and cornborers, which usually cause considerable lodging, were no problem this year. The harvest conditions were ideal and the corn averaged about 14% moisture—very low.

The picking and shelling operation was so efficient, in fact, that Seale does not plan to pick up fallen ears from the field with hand labor—a practice common in previous years.

Nearly 18 million citizens are classed as Older Americans, says Reagan Brown, Extension sociologist. The group, he adds, has probably been more closely studied during the past 15 years than any other segment of our population. The findings are being used to initiate and strengthen programs dealing with their welfare, he said.

A new insect control technique -- destruction of the males -- has been used by USDA scientists to eradicate the oriental fruit fly on an isolated island in the Pacific Ocean. The entomologists used a strong attractant to lure the male flies to an insecticide that killed them, and thus destroyed the species on the island. The technique has possibilities for use on other insects including the dreaded pink bollworm.

Beautiful weather made for ideal harvest conditions as the picker-sheller rumbled down through the field making a clean sweep of two rows at a time. The corn was dry—around 14% moisture.

"It's the best corn I've ever picked," is what Joe Benda, custom harvest operator, says of the corn he picked and shelled on the farm of Frank Seale. Here the hopper is emptied into a waiting truck.

Farm Bureau Picks Officers

Directors of Farmer County Farm Bureau met at the Golden Spread Restaurant in Friona for breakfast Monday morning at seven o'clock.

Following breakfast, they went to the Farm Bureau office for their monthly meeting. Plans had been made to go on to Lubbock to attend the meeting featuring USDA Secretary Orville Freeman. However, since the meeting was cancelled, the men went back to their farms to harvest milo.

John Henderson, county director from Black, was elected vice president, and Jim Dixon, northwest of Friona, was elected secretary treasurer. They replaced Frank Hinkson of Lazbuddie and Vernon Symcox of Oklahoma Lane, respectively. Hinkson continues to serve as a director for another year. Symcox was replaced as director by Don Gerles, also of Oklahoma Lane.

Plans were made for attendance at the State Farm Bureau convention in Fort Worth November 11-13, at the Hotel Texas. Planning to attend at the time of the meeting were H. P. Hamilton, president, who will go Nov. 6 to serve on the state resolutions committee prior to the convention. Also, Frank Hinkson, Jim Dixon, Gilbert Kaltwasser and Vernon Symcox.

The county organization is entitled to six voting delegates, including the president, as determined by membership as of October 31. Farmer County had 550 members as of that date, an increase of ten over the 1962 membership.

Hinkson, who served as membership chairman the past year, reported that Texas Farm Bureau is anticipating close to 90,000 members for the year. More than 86,000 had been transmitted several days ago. Membership a year ago was 84,842.

HOUSEHOLD HINTS

First sprinkle salt on a rust mark on fabric. Then squeeze on lemon juice. Spread the garment in the sun to dry.

To get the most nutrition from cooked vegetables, cook them in as little water as possible. Cook them rapidly and take them off the heat as soon as they're tender. Serve promptly.

To clean the hard-to-reach stem of a percolator, use a cotton swab. The swab will slide easily into the stem and do a thorough job of collecting coffee residue.

Sugar Supply Expected To Keep Prices Stable

The present world sugar shortage and consequent world price strength will probably continue well into next year, it was reported today by Dennis O'Rourke, President of Holly Sugar Corporation in a quarterly letter to stockholders.

Pointing out that world sugar production continues to lag behind growing world demand, the head of the nation's second largest beet sugar company said that one effect had been a recent increase in raw sugar prices for a level of about \$6.50 a hundred pounds in September to more than \$10 as of October 25.

However, he added, forward price commitments made before the new price increases, and extending into early 1964, would mean that most sugar marketed in "normal beet-marketing areas will move at prices somewhat below recent prices for raw cane sugar and materially below current quotations for refined cane sugar."

Influence of a general world sugar shortage began to be evidenced by higher prices late in 1962 and a peak price was reached in this country last May, it was stated. Prices thereafter declined, due in large part to government action designed to assure ample sugar supplies for U. S. consumers; and by September, 1963, price levels were only a little above a comparable period in 1962, but now have risen substantially again.

Hopes earlier this year that new sugar crops would be substantially greater than world output in the previous year failed to materialize, O'Rourke stated. The European beet crop is now reported to be only slightly larger than the disappointingly small crops of the previous two years.

Cuban production, already cut almost in half under the Castro regime, was further reduced this year by Hurricane Flora.

O'Rourke also expressed the hope that governmental authorities would soon take action consistent with the national Sugar Act to assure adequate 1964 supplies for the United States.

The Holly president said this year's sugar beet crop in areas served by the Corporation's processing plants currently is expected to be from 12 to 15 per cent larger than a year ago. Tonnage, he indicated, is up, with some decline in sugar content.

He reported that construction of Holly's new plant at Hereford is progressing on schedule with the target date for completion still being late summer of 1964.

Stockholders were advised by O'Rourke that, barring adverse developments, Holly Sugar Corporation could expect earnings this fiscal year ending next March 31 to be better than last.

The most recent dividend was 40 cents per share of common stock, payable November 1, 1963, to stockholders of record September 30, 1963. The previous dividend had been 35 cents per share.

Concern that the so-called Bracero program, under which Mexican farm workers are made available to supplement inadequate domestic farm labor during certain seasons and for work in many crops, including sugar beets, was voiced by the president in the stockholders' letter.

Whether or not the program, provided for in Public Law 78, would be extended was before the Congress as the letter to stockholders was written, and action was expected soon.

It is generally agreed in the beet sugar industry, O'Rourke reported, that, if the Bracero program is not continued, production of a number of crops, including sugar beets, will probably decline until such time as an alternative to the use of Mexican workers can be developed.

"A decline in domestic sugar production such as would ensue from the lack of labor would be especially unfortunate at a time when world supplies are shorter than they have been for many years and when all other governmental actions have been aimed at increasing domestic production. Failure of the Congress to extend the Bracero program would indeed be contradictory," O'Rourke said.

November is Turkey Time and Thanksgiving time. Turkey has undergone a change too along with other time saving food for modern homemakers.

Boneless turkey rolls have been on the market for some time now and in some parts of the country have taken on the shape of a whole turkey, with the light meat and dark meat tied separately. The dark meat is placed so that it resembles the turkey's legs and thighs. The cost is higher per pound but then there is no waste and really worth the cost.

Freezing Nuts - with a record crop of pecans, walnuts and almonds, homemakers would do well to consider some for the months ahead.

Tree nuts are especially easy to freeze. Just be sure the nut meats are clean as possible. Freezing neither kills bacteria nor removes dirt.

Frozen food Specialist recommend this easy method:

Wash nuts quickly and drain. When dry, crack the shells and remove the meats. Pack nut meats tightly in frozen containers or poly-ethylene bags. Store at 0 degrees F. --- for no longer than one year.

Fire-Retardant Paint Being Developed

A new fire-retardant outside paint is being developed by the U. S. Department of Agriculture.

The new paint looks like ordinary paint and can be applied with brush or roller, says the USDA. But the paint's reaction to fire is entirely different.

When exposed to flame, the paint develops a thick, carbon-containing layer that acts as a fire-retardant, insulating barrier.

The experimental formulations contain oil derived from tung nuts, an important crop in the Gulf Coast region, the Department says. Research that led to the discovery is being continued at the Southern Utilization Research Laboratory at New Orleans.

The scientists are now seeking formulations that will require less paint for effective protection and still possess other properties desired in paints. No paint formulation or samples will be available for industrial testing until this work is completed, says the Department.

FOR KAFFEKLATCH

For a quick kaffeeklatch cake special try this. Add 1/4 cup of uncooked chopped prunes, 1/2 teaspoon of grated orange rind, 1 egg and 1/2 cup of milk to a package (10 1/2 ounces) of coffee cake mix. Mix and bake as the label directs. Cut and serve warm. Serves 8.

One of the practical tailwater-saving systems in Farmer County is this Hinch centrifugal pump on the J. B. Taylor farm near Friona. With a 550-gallon per minute capacity, the pump costs 18 cents an hour to operate.

ACCORDING TO SURVEY

Big Benefits Seen In Recovery System

By CLAUDETTE McINNIS

Lubbock, Tex.--The High Plains Underground Water Conservation District has worked with a number of irrigation farmers in Farmer County for the past six months collecting data concerning the recirculation of irrigation tailwater. In this water management project, the Water District has collected data on the amount of water salvaged, pumping cost and irrigation methods.

The most important benefit of a tailwater return system is the water salvaged. Records covering a six month period on four tailwater return systems show an average of 65 acre feet of irrigation tailwater recovered per system. There are nine wells contributing tailwater to these installations which would be an average of 29 acre feet of irrigation tailwater recovered per contributing well.

Economists have estimated that an acre foot of water when applied for irrigation will in-

crease the yields above dryland yields approximately \$40. Therefore, the average of 65 acre feet of irrigation tailwater recovered would have a gross value of \$2,560 per system.

The average pumping cost for fuel, both butane and electricity, on a recovery system is \$1.90 per acre foot of water. Compare this to the \$3.20 fuel cost per acre foot of water for the contributing irrigation wells. The

difference in cost per acre foot of water for pumping is \$2.30. This would mean a saving of \$84.50 in fuel cost alone on the 65 acre feet of water salvaged.

Once a farmer begins using a tailwater return system he commences to find many side benefits. Probably one of the most advantageous of these is that by using the return system he can control the application of water.

ATMI Not Against Tare Allowances

LUBBOCK -- There have recently been some mistakenly interpreted articles in the press regarding refusal of the A.T.M.I. cotton committee to change Southern Mill Rules to add 4 pounds to the tare to bales wrapped in the all-cotton bagging being sold under the 1963 U.S.D.A. cotton bagging program.

It is true that the A.T.M.I. did refuse to change the rules, because their committee felt it was a small program of only about 40,000 bales, and that it would involve a complicated operation requiring several months and numerous organizations to do so. Unfortunately this action was interpreted and widely circulated that this meant A.T.M.I. was against the bagging program and was recommending against the tare allowance. This is completely false, and A.T.M.I. made no such announcement.

The U.S.D.A. has announced some time ago that since the cotton bagging weighs 8 pounds, the additional 4 pounds is being allowed in the cotton loan program. This was printed in the

Federal Register of June 12, 1963.

In the past the vast majority of cotton mills have cooperated in cotton bagging programs and have made appropriate tare allowances to do their part in improvement of the cotton package and the expanded use of cotton, and it is firmly believed they will do so in this program. Since only about 40,000 bales may be so covered, by the time the bales are distributed in the loan, in exports, and to domestic mills, the odds of any one mill receiving more than a handful of such cotton covered bales is most remote. Since the re-sale value of the cotton bagging to the rag trade is about three times that of used jute bagging, monetary loss to any mill will be infinitesimal, if any.

We are therefore asking cooperation of the trade and mills to make this allowance in cotton purchasing, and to help spread the correct information. Most individual mill buyers will cooperate willingly if they know that A.T.M.I. is not opposing the allowance.

FASHIONETTES

Slim and trim are the watchwords for men's trousers and slacks. Spring's pants will be slightly shorter and combine with high-rise and boot stylings in shoes.

Big, massive, important-looking rings are "in." The Jewelry Industry Council says the trend to chunky, even high-domed rings is for men as well as women.

Clip and save this fashionette that never goes out of style: the birthstone rundown -- December, turquoise and zircon; January, garnet; February, amethyst; March, aquamarine or bloodstone; April, diamond; May, emerald; June, pearl or alexandrite; July, ruby or star ruby; August, peridot or sardonyx; September, sapphire or star sapphire; October, opal or tourmaline; November, topaz.

Leather and suede items, fashion's latest status symbols, turn up in every category for the woman who shops at Abercrombie and Fitch, outfitter to the sportsman -- and man. The store's safari cloth is a suede cotton, showerproof fabric.

Spring suit silhouettes for men include the conventional, contemporary and natural. Conventional, the most popular three-buttoner, is losing a button. The two-button jacket's coming back.

Boll Weevils Brought To Plains--On Purpose!

To get an answer to the question of whether or not boll weevils can survive on the High Plains, the Texas Agricultural Experiment Station at Lubbock has placed some 50,000 weevils in cages both above and below the Caprock in the area where infestations were heaviest in 1963.

W. L. Owens, entomologist at the Lubbock Station, is in

charge of the research project. He has placed approximately 50,000 boll weevils in 148 cages at seven locations along the eastern edge of the High Plains as well as at locations below the Caprock, but not far removed from cotton growing on the High Plains.

The cages, above the Caprock, were placed in well established field plantings of sorghum alnum, on soil bankland,

a likely area for winter hibernation. Installations below the Caprock were made in shinnery oak since such cover seemed to offer ideal conditions for winter survival of the weevil, Owens explained. The cage locations above the Caprock were made in the area where boll weevil infestations were heaviest in 1963, or from 10 miles west of Post in Garza County to the Crosby-Floyd

county line. Owens said the boll weevils were collected locally for all except one cage at each location. Weevils from the College Station area were used in the one cage to determine whether those on the High Plains are of a more hardy strain. The collections and installations were made from October 14-25 with 81 cages above the Caprock and 67 below it. Owens said cooperation from personnel of the Plant Pest Control and Entomology Research Divisions, Agricultural Research Service, U. S. Department of Agriculture, the Texas Department of Agriculture, county agents and vocational agriculture classes aided greatly in getting the project moving.

Owens explained that the specially built cages will be checked for survival during the spring and early summer to determine winter survival at the different locations and under different types of cover. These records, Owens said, will be augmented with trash examinations to be made at various locations during the winter and early spring. The results of the research will be made available as soon as possible after the tests have been completed, he said.

Most people would succeed in small things if they were not troubled by great ambitions. --Longfellow

Farm Complexity Promotes Agricultural Economics

There is a saying going around now that the farmer must not only be a producer of food and fiber but also a market analyst, salesman and business man.

The state, national and international situation demands those last three characteristics and has had considerable influence on the phenomenal growth of the Texas A&M University Department of Agricultural Economics.

More and more agricultural students today recognize that raising a crop is one thing; processing, distributing and selling it is something else. This is why the agricultural economics field is attracting more students, as shown in figures compiled by Dr. T. R. Timm, head of the department at Texas A&M.

"We may well have, judging from available information, the largest single senior class in agricultural economics in the United States with 70 students," he pointed out. "Furthermore, we have the biggest department of its kind in the state, and among the largest in the nation."

Ten years ago, the department had 50 undergraduates and 10 students in graduate work. This fall, 180 undergraduates and 50 graduates are in the department, Timm said. In the graduate category this year, about half are studying toward master of science degrees, while the other half is working on doctorates. A decade ago, most graduates were interested only in a masters.

In 1954, most of the department's graduate students were Texans. Today they are from Florida, Georgia, Kansas, Tennessee, Arizona, Illinois and New Jersey. They also are attracted from foreign countries like Argentina, Costa Rica, Mexico, Philippines, Formosa, Pakistan and India.

Some of the undergraduate students, Timm noted, hail from Washington, Illinois, Colorado, Louisiana and Arizona. "This wide representation

from other states and countries, I think, is a measure of the department's worth and reputation," he said.

The same trend has been underway with the department's professional staff members, Timm added. Ten years ago, there were 13. Now there are 53 members, and most of the teachers are researchers, as well.

He said department staff members recognize that Texas agriculture has much at stake in world trade. A third of the nation's cotton is produced in Texas, for example, and much of the fiber goes into world trade channels.

"For this reason, we encourage our staff to accept foreign assignments from time to time so they can learn the world trade situation first hand," Timm explained. "Thirteen of our men have been on foreign assignments, and at present we have members in Syria and Tunisia. Arrangements are being made to send men to Pakistan and Argentina."

Two department members, he emphasized, made an extensive study of the European Common Market last year. Why this sudden surge in the department growth? Timm has a ready answer for that one. "The department's expansion reflects importance of the national and international sit-

uation's impact on Texas agriculture. And the department emphasizes this impact in its instruction of students," he said.

Specifically, Timm gave these reasons:

(1) There is a growing appreciation of the fact that the farmer must be a capable business man as well as a technical man.

(2) An increasing degree of vertical and horizontal integration. More phases of an industry are being absorbed by one operator or company.

(3) Farm co-operatives are rising in number.

(4) More competition with agriculture in other states and nations.

(5) Government's role in agriculture is expanding. The A&M agricultural economics department teaches a course in farm policy.

(6) Understanding the consumer. The department offers a course in consumer economics. Timm said agricultural economics graduates are eagerly sought by business and industry. Department records show starting salaries at \$5,200-\$5,800 for department graduates, with one young man attracting a salary of \$7,200.

He said many of the outstanding graduates of five years ago are making \$9,000 to \$10,000 per year.

FOOTSAVING EDUCATION

You say children should go barefoot--the Doctor said our boy should wear his orthopedic shoes all the time.

There is no contradiction. In this column I am discussing only normal feet. This is the reason it is called foot saving rather than foot correction. The comparison I like to make is that drug stores sell ice cream to well people and medicines to sick ones.

Quite often we encounter parents whose first child wore corrective type shoes with excellent results so they want to put No. 2, 3, and 4 in the same kind even though the doctor has found their feet to be perfectly normal. The poor kids get castor oil when they could be having ice cream.

When a doctor says that a child should not go barefoot or should not wear sandals he means that this particular child needs the support of corrective type shoes. If you are the parent of such a child, please don't tell other mothers that Dr. So-and-so does not approve of going barefoot or wearing sandals. It deprives too many children of ice cream.

All-Risk Crop Insurance Carried By 12,000 Farmers

Crop damage claims in Texas may exceed \$3 1/4 million on cotton, wheat and grain sorghum for the 1963 crop year. This is the estimate of Ben A. Jordan, Jr., state director for the U. S. Department of Agriculture's Federal Crop Insurance program. It is expected that 3,712 farmers will be paid this amount in the 45 counties where all-risk crop insurance is offered for losses due to drought, hail and excessive moisture.

Currently, almost 12,000 Texas farmers are carrying more than \$30 million in Federal Crop Insurance protection, Jordan said.

The Federal Crop Insurance Corporation is an agency of the U. S. Department of Agriculture. The payments it makes do not come from tax funds, Jordan says, but from insurance premiums paid by farmers. Nationally, 97% out of every dollar paid in premiums has been returned to farmers in the form of indemnity payments.

Federal Crop Insurance is designated to protect the farmer's high investments in growing crops against all unavoidable crop losses, such as drought, excessive moisture, hail, insects, plant disease, etc., Jordan said.

Tax Assessor And Collector Parmer County, Texas

Amendment No. 1 -- S. J. R. No. 1

(Abolishing Poll Tax as Requirement for Voting and Authorizing the Legislature to Provide for Voter Registration)

This proposed amendment to Sections 2 and 4 of Article VI of the Constitution removes the payment of a poll tax as a prerequisite to voting and gives the Legislature authority to require each voter to register before offering to vote.

BACKGROUND

In 1962, Texas was one of only five states -- the other four included Alabama, Arkansas, Mississippi, and Virginia -- which required payment of a poll tax as a prerequisite for voting.

There have been spasmodic attempts to abolish the poll tax as a prerequisite to voting in Texas almost since its inception.

Next serious consideration of poll tax payment as a requirement for voting came in 1962, when a referendum proposition for abolishing payment of the poll tax for voting eligibility was submitted to voters by both the Democratic and Republican parties in their primaries.

Earlier, the 57th Legislature showed concern for the entire Texas election system when it created an Election Law Study Committee through passage of S.C.R. No. 30 during the Regular Session in 1961.

The proposal to abolish the poll tax was among the many revisions of the Texas Election Code which were considered by the Committee.

On August 27, 1962, the House of Representatives of the Congress adopted Senate Joint Resolution No. 29, proposing an amendment to the United States Constitution to abrogate payment of a poll tax as a condition for voting for federal offices.

The proposed amendment to the United States Constitution reads as follows:

Section 1. The right of citizens of the United States to vote in any primary or other election for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

Sec. 2. The Congress shall have power to enforce this article by appropriate legislation.

Thus the Election Law Study Committee reconsidered its earlier decision not to recommend enactment of a registration law to the 58th Legislature in view of the possibility that the proposed amendment to the United States Constitution could be ratified by the required number of states before the 1964 elections.

Senate Bill 132, the voter registration law enacted by the 58th Legislature, incorporated each of the recommendations of the Election Law Study Committee except that which would have required registration of all voters without any exemptions.

The voter registration law further provides --

1. 25¢ registration fee.

2. Eliminates agents in applying for registration, except that husband, wife, father, mother, son, or daughter may act as agent.

3. Adds provisions permitting persons to vote on poll tax receipts and exemption certificates, as well as on registration certificates, during the first voting year after the registration law goes into effect.

4. Permits persons to obtain poll tax receipts without payment of the tax, for use in voting for federal offices, during the period of 30 days after the amendment to the U. S. Constitution takes effect.

5. False registration or false statement of information in registering is punishable by not less than one year or not more than three years in State prison.

6. There is no provision that a person must speak or write the English language.

7. There is no provision requiring a minimum of education or intelligence.

The voter registration law, for the most part, can become effective and operative as a law only upon the condition that a constitutional amendment abolishing payment of the poll tax as a prerequisite for voting and authorizing enactment of a general registration law -- becomes a part of the Constitution of Texas.

However, the 58th Legislature assured the Texas electorate that there could be no disfranchisement in voting for federal officials because of a conflict between the United States and the Texas Constitutions on the point of payment of the poll tax.

In Section 7 of the voter registration law, provision is made to remove the requirement for payment of a poll tax as a prerequisite to voting "for United States Senator, for United States Representative, or for President and Vice-President of the United States, in any general, special or primary election."

Such provision to become operative as law if the amendment to the Constitution of the United States proposed by Senate Joint Resolution No. 29 of the 87th Congress is adopted before the Texas Constitution is amended to abolish payment of the poll tax as a prerequisite for voting.

ARGUMENTS FOR:

1. Texas is one of only five states in the nation which makes payment of a poll tax prerequisite to voting.

2. In the Southern States requiring payment of the poll tax, inhabitants over 21 voting in the general election in 1960 ranged from a low of 14 per cent in Alabama to a high of 40 per cent in Texas.

3. Citizens in the depressed or low-income areas of Texas are disfranchised by imposition of the poll tax as a prerequisite to voting.

4. The ease with which block voting has been accomplished in Texas under the poll tax system refutes the argument of poll tax proponents that it helps preserve the purity of the ballot box.

Abolition of the poll tax system would result in election reform by giving all citizens the free opportunity to exercise uninfluenced choice at the ballot box.

"BE INFORMED -- KEEP INFORMED"

A BACKGROUND AND SUMMARY OF THE FOUR CONSTITUTIONAL AMENDMENTS TO BE VOTED ON NOVEMBER 9, 1963, GIVING ARGUMENTS FOR AND AGAINST

FROM: STATE REPRESENTATIVE 91st. DISTRICT

"YOUR CHOICE IN STATE GOVERNMENT"

BILL CLAYTON

election reform by giving all citizens the free opportunity to exercise uninfluenced choice at the ballot box.

5. The amendment to the United States Constitution now making the rounds of the states in the course of ratification abolishes the poll tax as a prerequisite to voting in elections for federal offices.

AGAINST:

1. Payment of the poll tax as a prerequisite to voting prevents ignorant, corrupt and disinterested citizens from voting, but the low fee levied does not prevent any citizen who really wants to exercise his rights and fulfill his obligations to his state and nation from taking a stand at the ballot box.

2. The poll tax inhibits the purchase of votes by corrupt candidates and political machines and helps preserve the purity of the ballot box.

3. Abolition of payment of the poll tax as a prerequisite to voting could result in depriving the public schools of Texas of more than \$1.5 million in revenues annually, since Section 3 of Article VII of the Constitution of Texas allocates \$1.00 of every poll tax paid to the free schools.

4. In 1960, Texas had 5,531,000 inhabitants over 21, and 40 per cent of that number voted in the general election.

5. In Texas, the poll tax substitutes for a voter registration system, with the list of poll taxpayers constituting the official list of qualified voters.

6. Should the amendment to the Constitution of the United States abolishing payment of the poll tax as a prerequisite to voting for federal officials be ratified, the anticipatory voter-registration law passed by the 58th Legislature still provides for registration and voting for candidates to federal offices.

Amendment No. 2 -- S. J. R. No. 21

(Permitting Increased Financial Assistance to Needy Aged, Needy Blind, Needy Children, and Permanently and Totally Disabled, and Authorizing the Legislature to Establish Residence Requirements for Eligibility of Recipients)

This proposed amendment affects Sections 51-a and 51-b-1 of Article III of the Constitution relating to assistance for the aged, blind and children, and assistance payments to the permanently and totally disabled, respectively.

1. The amendment combines provisions for all four classes of recipients -- aged, blind, children, and permanently and totally disabled -- under one numbered designation, Section 51-a of Article III.

2. It removes the present \$25 limitation on state funds which may be expended on individual recipients of aid for the aged and substitutes a maximum not to exceed the amount that "is matchable out of federal funds."

3. It eliminates the present \$20 limitation on state funds which may be expended on individual recipients of aid for the permanently and totally disabled and substitutes the amount that "is matchable out of federal funds."

4. It establishes a ceiling of \$60 million, instead of the present \$54.5 million, on total amount of state funds which may be expended for assistance payments to all four classes of recipients each year.

5. It gives the Legislature authority to prescribe residence requirements for eligibility of needy aged, needy blind, needy children, and the permanently and totally disabled.

BACKGROUND

1. The public welfare provisions of the Texas Constitution originated during the depression years, and amendments to them have been proposed and adopted almost as regularly as the Congress has changed terms whereby the states may become eligible for available federal funds.

Prior to 1935, aid to persons in indigent and disabled circumstances was held by most Texas citizens to be the concern of local governmental units rather than the responsibility of the central state government.

Anticipating passage by the Federal Congress of the Social Security Act of 1935, the Texas Legislature proposed amendment of the Texas Constitution by the addition of a new Section 51-b to Article III, which initiated the policy of providing aid payments to certain classes of citizens to be made partially from federal funds and partially from current revenue of the state.

The amendment was adopted by the electorate and in 1937, Sections 51-c and 51-d were added authorizing grants to the needy blind and needy children, respectively, Sections 51-b, 51-c and 51-d were consolidated in 1945 by an amendment designated Section 51-a, which in effect repealed the old Section 51-a.

The original limit of \$35 million per year as the amount that could be spent out of state funds for public assistance to needy aged, needy blind, and needy children was set by this amendment.

In 1954 this limit was again increased in 1962 to the present \$52 million plus an additional \$2.5 million for the permanently and totally disabled.

A further addition to the state's welfare program came in 1958 with adoption by the electorate of Subsection 51-a-1 of Section 51, Article III, which gave the Legislature power to authorize direct or vendor payments in the form of direct public assistance to and on behalf of needy recipients of old age assistance, aid to the blind, aid to dependent children, or aid to the permanently and totally disabled.

2. The proposed amendment authorizes an increase in the amount of money the state may appropriate to the four state programs -- old age assistance, aid to the blind, aid to dependent children, and aid to the permanently and totally disabled -- to a maximum of \$60 million.

Under the Texas Old Age Assistance Program, monthly financial allowances are granted to needy persons over 65 years

of age. Approximately \$144 million in payments, nearly \$42 million from state funds and approximately \$102 million from federal funds was expended during the state's 1961-1962 fiscal year.

The Texas Aid to the Blind Program provides monthly allowances to persons 21 years of age and older who are blind. Under this program, the national average monthly payment was \$74.57 in 1961.

The Texas Aid to the Permanently and Totally Disabled Program provides monthly grants to persons between the ages of 18 and 65 who are permanently and totally disabled.

ARGUMENTS FOR:

1. By combining Sections 51-a and 51-b-1 into one Section 51-a, this amendment brings all four categories of recipients of public assistance -- the aged, blind, children, and permanently and totally disabled -- under one amendment.

2. By eliminating constitutional ceilings on individual assistance grants for the aged and the permanently and totally disabled, the amendment obviates tedious and costly amendment of the Texas Constitution every time the cost-of-living index rises and the Federal Government amends the Social Security Act to increase federal funds available to the states for assistance programs.

3. By increasing the total amount of state funds which may be expended for assistance payments to all four classes of recipients each year from the present \$54.5 million to \$60 million, the amendment assures the Texas recipient that he will not be disqualified from receiving the maximum amount permitted under the federal program simply because the State of Texas cannot bring its state fund limitation to meet federal standards.

4. By giving the Legislature authority to prescribe residence requirements for recipients, the amendment anticipates congressional action at an early date resulting from pressure throughout the United States to lower residence requirements for the nation's mobile population.

AGAINST:

1. Substitution of an amount that "is matchable out of federal funds" for the present ceilings established by the Constitution on state funds which may be expended on individual recipients of aid for the aged, \$25, and aid for the permanently and totally disabled, \$20, opens the door to greater expenditures for public assistance as often as the Legislature meets.

2. The maximum not to exceed the amount that is "matchable out of federal funds" which is substituted in the amendment for the present dollar limitations may be subject to court interpretation.

3. The large over-all expenditure of state funds which this amendment would authorize would add only a few dollars a month to the income of individual recipients.

Amendment No. 3 -- S. J. R. No. 26

(Authorizing Each Political Subdivision in Jefferson County to Establish a Retirement, Disability and Death Compensation Fund for Appointive Officers and Employees of Such Subdivision)

1. This proposed amendment, designated Subsection (c) of Section 62, Article XVI, applies only to political subdivisions of Jefferson County. It authorizes each political subdivision in Jefferson County to provide for and administer a Retirement, Disability and Death Compensation Fund for appointed officers and employees or, in the alternative, provides that such political subdivisions, upon authorization by majority vote of the qualified voters of the subdivision, may elect to join the County Retirement System of Jefferson County.

2. The amount which can be contributed by the political subdivision to the Fund is restricted by the amendment to 7 1/2 per cent of the amount of compensation which each employee is paid by the political subdivision, instead of the 5 per cent restriction now placed upon county contributions to the County Retirement Fund by Subsection (b) of Section 62, Article XVI.

3. Investment of funds provided through the program is restricted by the amendment to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by an agency of the United States Government.

4. Recipients of benefits from the Fund lose eligibility for any other pension retirement fund or direct aid from the state unless the Fund contributed by the political subdivision is released to the State of Texas as a condition to receiving other pension aid.

BACKGROUND

1. The first public employee retirement programs in Texas were established by cities operating under authority of their charters, and it was not until 1936 that the first state public employee retirement program was authorized.

Then in 1944, Article III, Section 51-e, authorizing municipalities to establish retirement programs, and Article III, Section 51-f, authorizing establishment of a state-wide retirement system for municipalities, were adopted.

2. Two recent attempts to bring elective officers of the county or precinct into a retirement, disability and death benefits program have been turned down by the Texas electorate.

3. The first such proposal (S. J. R. No. 6), for the amendment of Subsection (b) of Section 62, Article XVI, was defeated in November, 1958.

4. A second proposal (S. J. R. No. 6), for the amendment of Subsection (b) of Section 62, Article XVI, was defeated in November, 1962.

voted upon by the Texas electorate on November 9, 1963, in that provision was made in them to include elective as well as appointive officials.

ARGUMENTS FOR:

1. This amendment applies only to political subdivisions of Jefferson County, and the people of that county should have the privilege of establishing the type of retirement system of systems for their public employees which they desire.

2. The restriction upon investment of retirement funds to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by any agency of the United States Government guarantees the safe investment of these public moneys.

AGAINST:

1. There are 254 counties in Texas, all with precincts and many with various other types of political subdivisions such as water districts, etc.

2. The limitation imposed upon investment of retirement funds to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by any agency of the United States Government, lowers the interest potential on the investment and could further weaken the already shaky financial base of retirement programs established at the local level.

3. The 2 1/2 per cent increase in the amount which can be contributed by the political subdivision to the Fund, allowed under the amendment by restricting such contributions to 7 1/2 per cent of the amount of compensation which each employee is paid by the political subdivision instead of the 5 per cent restriction contained in Subsection (b) of Section 62, Article XVI, might endanger the retirement program with small membership.

Amendment No. 4 -- S. J. R. No. 16

(Authorizing an Increase of \$150 Million, to a Total of \$350 Million, in Bonds or Obligations that May Be Issued by the Veterans' Land Board)

This proposed amendment to Section 49-b, Article III, of the Constitution of Texas increases the total amount of obligations or bonds that may be issued by the Veterans' Land Board to a maximum of \$350 million.

BACKGROUND

Dating to the period following the Revolutionary War, the Federal Government began the practice of reimbursing veterans of military service with land.

Following World War II, it was the consensus of lawmakers that the average veteran could not acquire land through the regular channels of borrowing, and since the public domain for land grants had long since been exhausted creation of a liberal credit program by the state to supplant the land bounties of earlier days was deemed the answer.

The present Veterans' Land Program was the result: 1. A Constitutional Amendment was adopted in 1946 creating a Veterans' Land Board, composed of the Attorney General, the Commissioner of the General Land Office, and the Governor.

2. On November 13, 1951, another amendment to Section 49-b, Article III, was adopted by the electorate to increase the fund by an additional \$75 million, for a total of \$100 million.

3. Again in 1956, an additional \$100 million was authorized, making an over-all total of \$200 million, the present limit.

4. The increase to \$350 million, proposed by the present amendment, results from the greatest activity in the program to date.

5. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

ARGUMENTS FOR:

1. The Veterans' Land Program is one of the greatest stimulants to the Texas economy provided by the State of Texas. In addition to rewarding the veteran and showing the appreciation of Texas citizens for his wartime service, the program provides additional business activity for lawyers, abstract companies, and real estate concerns, thus multiplying many times the dollar value of funds invested.

2. The program costs the taxpayers nothing; in fact, the current one per cent difference in interest paid on the bonds and that received from the veteran on his loan puts the program on the credit side of the state's profit and loss ledger.

3. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

4. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

5. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

6. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

7. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

8. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

9. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program.

SECTION 1

Yep, you're going to have to plunk down \$1.75 again in January in order to vote in Texas next year. That's what the majority decided in last week's election.

We had decided that public sentiment for keeping the poll tax had changed from last year's referendum, but we thought it might have been a closer vote than it was.

When you consider that the only people who were eligible to decide the issue were the ones who thought enough of their voting privilege to pay the poll tax last January for a really off year, 1963, it's not too surprising that the tax stayed in.

It was just one of those cases where Texans preferred to remain individualists. While some states ridicule the poll tax (some of these probably have a state income tax), Texans said to them: "It's worked for 60 years, so why change it?"

Just because we were part of a small minority wasn't deemed a good enough reason to change the law. That's rugged individualism.

Friona High School had a group of busy boys the other day. First, there was football practice. Then some of the boys hustled over to practice for the district FFA leadership contest to be held this weekend. Afterwards, part of this bunch hurried to the junior play rehearsals. The play will be presented Saturday.

Somehow or other, in between activities, I suppose the boys found time for supper and lessons. I'd like for them to tell me their secret. Sometimes on Tuesdays and Wednesdays I develop just such a schedule.

Speaking of the FFA leadership contests, David McVey and Benny Pryor will have six teams primed for the annual onslaught on leadership contests by Friona FFA members.

Last year the boys won more banners than you could count on both hands, including the school's sixth first-place banner in the state FFA leadership contest.

McVey said he was told at the state contest last year that Friona has won more state banners than any other school in Texas. He pointed out that grade school principal J. T. Gee, when he was chapter advisor, had teams winning first-place in the state finals in 1950, 1951 and 1957. His teams also won a second in 1953 and a third in 1954.

Since then, Friona has taken first place at state in 1962 (two banners) and 1963, and had a third in 1961 and a second last year.

McVey points out that when he was at Anton, his teams often clashed with Gee's in the area contest. One had to lose, so this cut down on the number of state banners won by both.

They're going to have to build more walls to display the banners pretty soon. The Ag department has two rooms with the four walls pretty well covered with the awards. We think this speaks pretty well for the Vocational Agriculture Department and its leadership.

Think the success of the Chieftain football team hasn't had several effects? Baker Duggins says he believes it has even helped the girls coming out for basketball this year.

The Squaws played an exhibition game at the Flying Queens' clinic in Plainview last Saturday, and Duggins was able to watch his players under game conditions.

"I think they have a lot more poise than they usually have this time of year. It usually takes a month or so to develop their confidence," he says.

Duggins added that for one thing, from a coaching standpoint it was more fun to be at the clinic, having a winning football team to talk about. "Friona is being regarded higher," he said.

Tullis, Muleshoe and Canyon schools will go into class AAA

(Continued on Page 2)

OLD SMOKEY? . . . It's a mountain, all right, but a mountain of grain piled at West Friona Grain Company. The new Friona

elevator joined the older grain dealers in having to dump tons of maize on the ground.

DADS TO BE HONORED

Chieftains Wind Up Successful Year Friday

The Friona Chiefs will close out their best football season in modern history (if not best ever) tomorrow night when they host Olton at Chieftain Stadium. Gametime is 7:30 p.m.

The game has been designated "Dad's Night," and fathers of the players will be honored in pre-game ceremonies, starting about 7:10 p.m.

The Chiefs, with a chance for a 9-1 season record, could nail down second place in district by beating the Mustangs, and should Dimmitt upset Muleshoe, could still tie for the district championship.

The best either Friona or Olton can hope for is a tie for the title, and in any event Mule-

shoe would represent the district in the playoffs, since the Mules beat both teams. So the game will be one of prestige for both the Mustangs and Chiefs.

For Friona it will mark one last chance to avenge a 1962

beating. However, the 25-8 win by Olton in the final game last year was the closest district game the Chieftains had.

Friona has already topped the win mark for any season in the last 19 years at FHS, and the Chieftains will be trying to leave next year's team something to shoot at.

Coch Don Light's squad, win or lose, has already won eight more games than the team won either of the past two years, replacing a 27-game losing streak with an eight-game winning streak to begin the 1963 season.

This season will mark the first winning record at Friona since the 1958 team finished with a 6-3-1 mark, and the most wins in one season since the 1951 and 1952 teams had identical 7-2 records.

For the second straight week, Friona will be facing a tough opponent. The Mustangs grabbed a 13-0 lead against Muleshoe before bowing, 21-13, and had another possible touchdown nullified. They are the only district team which has scored against the Mules.

HOSPITAL FUND

Drive Chairman Predicts Victory

Charles Allen, fund drive chairman for the Parmer County Community Hospital, said this week that with the grain sorghum harvest out of the way, he believed that the drive team members could be "re-

charged," and was confident of reaching the goal established at \$50,000.

"It's going to take some gifts of \$100 and \$500, not just those of \$5 and \$10, though," Allen pointed out.

Currently, the drive stands at around \$13,000.

Allen reminded the residents of Friona of what an asset the hospital was to the city. "It has quite a staff of employees—which produces a good payroll, and when people come in to the hospital, they usually do other business in town," he said. "People want and expect good hospital facilities, just as they want good schools and churches, Allen said.

NOW TWO WEEKS

Christmas Holidays Changed For School

The Christmas holidays at Friona High School were extended to two full weeks at the regular meeting of the Friona School Board Monday night.

As it now stands, school will dismiss on Friday, December 20, and resume classes on Monday, January 6, 1964. Originally, the school had planned one full week plus New Year's Day as the holiday schedule.

This will necessarily extend the school year from May 22 to May 29, 1964, the board pointed out. This will allow a total of 177 teaching days, with 175 being required, allowing two extra days in case of extreme bad weather or other circum-

stances not known about at present.

It was reported that tax collections for the month of October totalled \$58,049.60.

The Friona school cafeteria workers' salaries were raised from \$6.50 per day to \$7 per day.

Ed Young, representing the accounting firm of Glover, Graham and Brown, presented a report on the audit of the school's books for the 1962-63 school year. His report was approved by the board.

Superintendent of Schools Alton Farr gave his monthly financial reports on the various school funds.

Friona Lanes Won't Be Closed - Hicks

Announcement was made this week by J. E. (Ed) Hicks of Friona that he is in the process of selling his bowling alley, Friona Lanes, and that the business will not be closed November 15 as had previously been announced.

"I am very pleased to say that I have been successful in effecting a sale of the business and that a bowling alley will be maintained in Friona," he said. "The people of this area have been wonderful to me and many have expressed concern that I planned to close Friona Lanes, so I am especially happy that something has been worked out to prevent this."

The sale is not final as yet, Hicks said, and he will maintain ownership and operation of the business until December 1, at which time the business is scheduled to change hands.

An announcement of the new ownership, together with the management arrangement, will be made in The Star soon, according to Hicks.

WATKINS, MONROE

Pair Tied In Contest With One Week Left

Kenneth Watkins and Clarence Monroe go into the last week of the Friona Star's football contest all tied up in the race for two tickets to the Cotton Bowl game January 1 and \$55 expense money.

Both Watkins and Monroe are tied with 74 correct games after 10 weeks, and have a four-game lead over the third-place contestant.

In case a tie develops in the race for the contest's grand prize, the tie-breaker games will be checked on all entry blanks of the tie-parties for the whole season. The one who correctly picked the tie-breaker game from a won-lost standpoint will be declared the winner. If contestants are still tied, the total point spread on the tie-breaker games will be added, with the contestant having the lowest score being the winner.

In last week's contest, four entrants tied for first place, missing the score by 14 points. These were Monroe, Raymond Milner, Mrs. Mike Ellis and Mrs. B. C. Hartwick. Other contestants correctly picking seven games were Jarrell Wright, Neel Lyles, Dale Wil-

liams, Eugene Ellis, Buford C. Hartwick, Pamela Hartwick, Maynard Agee, Watkins, and Karen Agee. The first four divided all three places of prize money, and were awarded \$2,500 each.

In the race for grand prize in the contest, C. H. Veazey remains in third place, with a score of 74. Three members of the Agee family—Maynard, Mildred and Karen, are tied with scores of 69.

Ellis Infant Buried Friday

Graveside rites for Michael Brent Ellis, infant son of Mr. and Mrs. Mike Ellis, were conducted at Friona cemetery at 10:30 a.m. Friday. Rev. Russell McAnally, pastor of Friona Methodist Church, was officiating minister.

The baby, who was stillborn at 2:00 p.m. Thursday at Parmer County Community Hospital weighed 7 lbs. He was the first child for the couple.

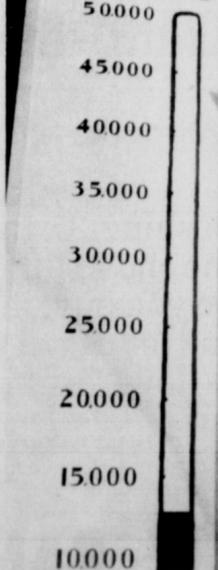

Survivors, besides the parents, are Mr. and Mrs. Joe B. Douglas and Mr. and Mrs. Eugene Ellis, grandparents, all of Friona; Mrs. Sarah Vernon, Friona, Mr. and Mrs. Albert Ellis, Lubbock, and Mr. and Mrs. Marion B. Fite Sr., Wildorado, great-grandparents.

Burial was in Friona cemetery under direction of Claiborn Funeral Home.

HOSPITAL DRIVE FUND

NEEDS TO CLIMB . . . Charles Allen, chairman of the Hospital Fund Drive, indicates the goal established for the drive as shown on the "thermometer" located in the City Park. The drive has a long way to go to reach the goal, but Allen is confident that the goal will be raised.

HERE'S THE PLAN . . . Bobby Braddock (Carol Struve) goes over strategy with members of the "Dirty Dozen" football team in a scene from the Junior Play, "The Magic Touch." Left to right are Larry Buckley, Carol, Joey Taylor and Dennis Howell. They recommend that you see the play Saturday night at 7:30, high school auditorium.

Amendment No. 1 -- S. J. R. No. 1

(Abolishing Poll Tax as Requirement for Voting and Authorizing the Legislature to Provide for Voter Registration)

This proposed amendment to Sections 2 and 4 of Article VI of the Constitution removes the payment of a poll tax as a prerequisite to voting and gives the Legislature authority to require each voter to register before offering to vote.

BACKGROUND

In 1962, Texas was one of only five states -- the other four included Alabama, Arkansas, Mississippi, and Virginia -- which required payment of a poll tax as a prerequisite for voting.

There have been spasmodic attempts to abolish the poll tax as a prerequisite to voting in Texas almost since its inception.

Next serious consideration of poll tax payment as a requirement for voting came in 1962, when a referendum proposition for abolishing payment of the poll tax for voting eligibility was submitted to voters by both the Democratic and Republican parties in their primaries.

Earlier, the 57th Legislature showed concern for the entire Texas election system when it created an Election Law Study Committee through passage of S.C.R. No. 30 during the Regular Session in 1961.

The proposal to abolish the poll tax was among the many revisions of the Texas Election Code which were considered by the Committee. The Committee decided not to include a recommendation for enactment of a voter registration law supplanting the poll tax.

On August 27, 1962, the House of Representatives of the Congress adopted Senate Joint Resolution No. 29, proposing an amendment to the United States Constitution to abrogate payment of a poll tax as a condition for voting for federal offices.

The proposed amendment to the United States Constitution reads as follows:

Section 1. The right of citizens of the United States to vote in any primary or other election for President or Vice President, or for Senator or Representative in Congress, shall not be denied or abridged by the United States or any State by reason of failure to pay any poll tax or other tax.

Thus the Election Law Study Committee reconsidered its earlier decision not to recommend enactment of a registration law to the 58th Legislature in view of the possibility that the proposed amendment to the United States Constitution could be ratified by the required number of states before the 1964 elections.

Senate Bill 132, the voter registration law enacted by the 58th Legislature, incorporated each of the recommendations of the Election Law Study Committee except that which would have required registration of all voters without any exemptions.

1. 25¢ registration fee.

2. Eliminates agents in applying for registration, except that husband, wife, father, mother, son, or daughter may act as agent.

3. Adds provisions permitting persons to vote on poll tax receipts and exemption certificates, as well as on registration certificates, during the first voting year after the registration law goes into effect.

4. Permits persons to obtain poll tax receipts without payment of the tax, for use in voting for federal offices, during the period of 30 days after the amendment to the U. S. Constitution takes effect.

5. False registration or false statement of information in registering is punishable by not less than one year or not more than three years in State prison.

6. There is no provision that a person must speak or write the English language.

7. There is no provision requiring a minimum of education or intelligence.

The voter registration law, for the most part, can become effective and operative as a law only "upon the condition that a constitutional amendment abolishing payment of the poll tax as a prerequisite for voting and authorizing enactment of a general registration law -- becomes a part of the Constitution of Texas."

ARGUMENTS FOR:

1. Texas is one of only five states in the nation which makes payment of a poll tax prerequisite to voting. To some Texas citizens, payment of the poll tax means deprivation for their families.

2. In the Southern States requiring payment of the poll tax, inhabitants over 21 voting in the general election in 1960 ranged from a low of 14 per cent in Alabama to a high of 40 per cent in Texas.

3. Citizens in the depressed or low-income areas of Texas are disfranchised by imposition of the poll tax as a prerequisite to voting.

4. The ease with which block voting has been accomplished in Texas under the poll tax system refutes the argument of poll tax proponents that it helps preserve the purity of the ballot box.

"BE INFORMED - - KEEP INFORMED"

A BACKGROUND AND SUMMARY OF THE FOUR CONSTITUTIONAL AMENDMENTS TO BE VOTED ON NOVEMBER 9, 1963, GIVING ARGUMENTS FOR AND AGAINST

FROM: STATE REPRESENTATIVE 91st. DISTRICT "YOUR CHOICE IN STATE GOVERNMENT"

BILL CLAYTON

election reform by giving all citizens the free opportunity to exercise uninfluenced choice at the ballot box.

5. The amendment to the United States Constitution now making the rounds of the states in the course of ratification abolishes the poll tax as a prerequisite to voting in elections for federal offices.

AGAINST:

1. Payment of the poll tax as a prerequisite to voting prevents ignorant, corrupt and disinterested citizens from voting.

2. The poll tax inhibits the purchase of votes by corrupt candidates and political machines and helps preserve the purity of the ballot box.

3. Abolition of payment of the poll tax as a prerequisite to voting could result in depriving the public schools of Texas of more than \$1.5 million in revenues annually, since Section 3 of Article VII of the Constitution of Texas allocates \$1.00 of every poll tax paid to the free schools.

4. In 1960, Texas had 5,531,000 inhabitants over 21, and 40 per cent of that number voted in the general election. The State of Ohio with a comparable 5,839,000 inhabitants over 21 and no poll tax had a 38 per cent voting record at the same election.

5. In Texas, the poll tax substitutes for a voter registration system, with the list of poll taxpayers constituting the official list of qualified voters.

6. Should the amendment to the Constitution of the United States abolishing payment of the poll tax as a prerequisite to voting for federal officials be ratified, the anticipatory voter-registration law passed by the 58th Legislature still provides for registration and voting for candidates to federal offices.

Amendment No. 2 -- S. J. R. No. 21

(Permitting Increased Financial Assistance to Needy Aged, Needy Blind, Needy Children, and Permanently and Totally Disabled, and Authorizing the Legislature to Establish Residence Requirements for Eligibility of Recipients)

This proposed amendment affects Sections 51-a and 51-b-1 of Article III of the Constitution relating to assistance for the aged, blind and children and assistance payments to the permanently and totally disabled, respectively.

1. The amendment combines provisions for all four classes of recipients -- aged, blind, children, and permanently and totally disabled -- under one numbered designation, Section 51-a of Article III.

2. It removes the present \$25 limitation on state funds which may be expended on individual recipients of aid for the aged and substitutes a maximum not to exceed the amount that "is matchable out of federal funds."

3. It eliminates the present \$20 limitation on state funds which may be expended on individual recipients of aid for the permanently and totally disabled and substitutes the amount that "is matchable out of federal funds."

4. It establishes a ceiling of \$60 million, instead of the present \$54.5 million, on total amount of state funds which may be expended for assistance payments to all four classes of recipients each year.

5. It gives the Legislature authority to prescribe residence requirements for eligibility of needy aged, needy blind, needy children, and the permanently and totally disabled.

BACKGROUND

1. The public welfare provisions of the Texas Constitution originated during the depression years, and amendments to them have been proposed and adopted almost as regularly as the Congress has changed terms whereby the states may become eligible for available federal funds.

Prior to 1933, aid to persons in indigent and disabled circumstances was held by most Texas citizens to be the concern of local governmental units rather than the responsibility of the central state government.

Anticipating passage by the Federal Congress of the Social Security Act of 1935, the Texas Legislature proposed amendment of the Texas Constitution by the addition of a new Section 51-b to Article III, which initiated the policy of providing aid payments to certain classes of citizens to be made partially from federal funds and partially from current revenue of the state.

1. A further addition to the state's welfare program came in 1958 with adoption by the electorate of Subsection 51-a-1 of Section 51, Article III, which gave the Legislature power to authorize direct or vendor payments in the form of direct public assistance to and on behalf of needy recipients of old age assistance, aid to the blind, aid to dependent children, or aid to the permanently and totally disabled.

2. The proposed amendment authorizes an increase in the amount of money the state may appropriate to the four state programs -- old age assistance, aid to the blind, aid to dependent children, and aid to the permanently and totally disabled -- to a maximum of \$60 million.

Under the Texas Old Age Assistance Program, monthly financial allowances are granted to needy persons over 65 years

of age. Approximately \$144 million in payments, nearly \$42 million from state funds and approximately \$102 million from federal funds was expended during the state's 1961-1962 fiscal year.

The Texas Aid to the Blind Program provides monthly allowances to persons 21 years of age and older who are blind. Under this program, the national average monthly payment was \$74.57 in 1961.

The Texas Aid to the Permanently and Totally Disabled Program provides monthly grants to persons between the ages of 18 and 65 who are permanently and totally disabled.

ARGUMENTS FOR:

1. By combining Sections 51-a and 51-b-1 into one Section 51-a, this amendment brings all four categories of recipients of public assistance -- the aged, blind, children, and permanently and totally disabled -- under one amendment.

2. By eliminating constitutional ceilings on individual assistance grants for the aged and the permanently and totally disabled, the amendment obviates tedious and costly amendment of the Texas Constitution every time the cost-of-living index rises and the Federal Government amends the Social Security Act to increase federal funds available to the states for assistance programs.

3. By increasing the total amount of state funds which may be expended for assistance payments to all four classes of recipients each year from the present \$54.5 million to \$60 million, the amendment assures the Texas recipient that he will not be disqualified from receiving the maximum amount permitted under the federal program simply because the State of Texas cannot bring its state fund limitation to meet federal standards.

4. By giving the Legislature authority to prescribe residence requirements for recipients, the amendment anticipates congressional action at an early date resulting from pressure throughout the United States to lower residence requirements for the nation's mobile population.

AGAINST:

1. Substitution of an amount that "is matchable out of federal funds" for the present ceilings established by the Constitution on state funds which may be expended on individual recipients of aid for the aged, blind, children, and permanently and totally disabled, opens the door to greater expenditures for public assistance as often as the Legislature meets.

2. The maximum not to exceed the amount that "is matchable out of federal funds" which is substituted in the amendment for the present dollar limitations may be subject to court interpretation. What is meant by "matchable"?

3. The large over-all expenditure of state funds which this amendment would authorize would add only a few dollars a month to the income of individual recipients.

Amendment No. 3 -- S. J. R. No. 26

(Authorizing Each Political Subdivision in Jefferson County to Establish a Retirement, Disability and Death Compensation Fund for Appointive Officers and Employees of Such Subdivision)

1. This proposed amendment, designated Subsection (c) of Section 62, Article XVI, applies only to political subdivisions of Jefferson County. It authorizes each political subdivision in Jefferson County to provide for and administer a Retirement, Disability and Death Compensation Fund for appointed officers and employees or, in the alternative, provides that such political subdivisions, upon authorization by majority vote of the qualified voters of the subdivision, may elect to join the County Retirement System of Jefferson County.

2. The amount which can be contributed by the political subdivision to the Fund is restricted by the amendment to 7 1/2 per cent of the amount of compensation which each employee is paid by the political subdivision, instead of the 5 per cent restriction now placed upon county contributions to the County Retirement Fund by Subsection (b) of Section 62, Article XVI.

3. Investment of funds provided through the program is restricted by the amendment to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by an agency of the United States Government.

4. Recipients of benefits from the Fund lose eligibility for any other pension retirement fund or direct aid from the state unless the Fund contributed by the political subdivision is released to the State of Texas as a condition to receiving other pension aid.

BACKGROUND

1. The first public employee retirement programs in Texas were established by cities operating under authority of their charters, and it was not until 1936 that the first state public employee retirement program was authorized.

Two recent attempts to bring elective officers of the county or precinct into a retirement, disability and death benefits program have been turned down by the Texas electorate. The first such proposal (S. J. R. No. 6), for the amendment of Subsection (b) of Section 62, Article XVI, was defeated in November, 1958.

voted upon by the Texas electorate on November 9, 1963, in that provision was made in them to include elective as well as appointive officials. Also, the proposed Amendment No. 3 is applicable to Jefferson County only and is designed to authorize "all political subdivisions of Jefferson County, Texas, to provide retirement, disability, and death benefits for all appointive officers and employees of all political subdivisions within Jefferson County . . ."

ARGUMENTS FOR:

1. This amendment applies only to political subdivisions of Jefferson County, and the people of that county should have the privilege of establishing the type of retirement system of systems for their public employees which they desire.

2. The restriction upon investment of retirement funds to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by any agency of the United States Government guarantees the safe investment of these public moneys.

AGAINST:

1. There are 254 counties in Texas, all with precincts and many with various other types of political subdivisions such as water districts, etc. Should Amendment No. 3 be adopted, each session of the Legislature may find additional counties seeking constitutional authority to set up retirement, disability and death benefit systems for the officers and employees of these separate units of government.

2. The limitation imposed upon investment of retirement funds to bonds of the United States, the State of Texas, or counties or cities of the state, or bonds issued by any agency of the United States Government, lowers the interest potential on the investment and could further weaken the already shaky financial base of retirement programs established at the local level.

3. The 2 1/2 per cent increase in the amount which can be contributed by the political subdivision to the Fund, allowed under the amendment by restricting such contributions to 7 1/2 per cent of the amount of compensation which each employee is paid by the political subdivision instead of the 5 per cent restriction contained in Subsection (b) of Section 62, Article XVI, might endanger the retirement program with small membership. The increased benefits allowed would be difficult to sustain with contributions of the small program.

Amendment No. 4 -- S. J. R. No. 16

(Authorizing an Increase of \$150 Million, to a Total of \$350 Million, in Bonds or Obligations that May Be Issued by the Veterans' Land Board)

This proposed amendment to Section 49-b, Article III, of the Constitution of Texas increases the total amount of obligations or bonds that may be issued by the Veterans' Land Board to a maximum of \$350 million. It also increases from 3 1/2 per cent to 4 1/2 per cent the maximum rate or rates of interest of all the bonds issued and sold in any installment.

BACKGROUND

Dating to the period following the Revolutionary War, the Federal Government began the practice of reimbursing veterans of military service with land. The Texas Republic adopted the custom and reserved a part of its public domain for its soldiers.

Confederate soldiers were ineligible for pensions granted by the Federal Government following the Civil War, and Texas provided lands for its Confederate veterans in compensation. Following World War II, it was the consensus of lawmakers that the average veteran could not acquire land through the regular channels of borrowing, and since the public domain for land grants had long since been exhausted creation of a liberal credit program by the state to supplant the land bounties of earlier days was deemed the answer.

1. A Constitutional Amendment was adopted in 1946 creating a Veterans' Land Board, composed of the Attorney General, the Commissioner of the General Land Office, and the Governor. The Legislature was given authority to provide \$25 million in bonds to create a fund to be used by the Board in the purchase of lands for resale to veterans of World War II.

2. On November 13, 1951, another amendment to Section 49-b, Article III, was adopted by the electorate to increase the fund by an additional \$75 million, for a total of \$100 million. Sufficient applications had been received for loans from the original bond issue that it was clear the fund would be exhausted by January, 1952.

3. Again in 1956, an additional \$100 million was authorized, making an over-all total of \$200 million, the present limit.

4. The increase to \$350 million, proposed by the present amendment, results from the greatest activity in the program to date. More loans were closed in 1962 than ever before, approximately 500 per month. Nevertheless, some one million Texas veterans have not yet participated in the program, and the only funds now available are the limited amounts resulting from the revolving feature of the program.

ARGUMENTS FOR:

1. The Veterans' Land Program is one of the greatest stimulants to the Texas economy provided by the State of Texas. In addition to rewarding the veteran and showing the appreciation of Texas citizens for his wartime service, the program provides additional business activity for lawyers, abstract companies, and real estate concerns, thus multiplying many times the dollar value of funds invested.

2. The program costs the taxpayers nothing; in fact, the current one per cent difference in interest paid on the bonds and that received from the veteran on his loan puts the program on the credit side of the state's profit and loss ledger.

3. The program is now functioning with maximum efficiency. More than 500 loans were processed each month last year, but approximately one million veterans in Texas have not participated in the program. It would be unfair to permit the Veterans' Land Program to die before all Texas veterans of World War II and the Korean conflict are at least given the opportunity to apply for benefits already obtained by many of their comrades in arms.

AGAINST:

1. The State of Texas has been in the loan business long enough. The Veterans' Land Program is unfair to private enterprise, and is another turn on the road to socialism.

2. The Texas Constitution has made the Veterans' Land Fund available to veterans in service from September 16, 1940 through March 31, 1955, thereby including Korean veterans. It would seem that all veterans seriously interested in agriculture and desiring to purchase land under the program have had time to make application for funds during the more than eight-year period since the Korean truce.

3. The recurrent increase in maximum funds available under the Veterans' Land Program since its inception should be brought to a halt. If this latest proposal to increase amounts to \$350 million is adopted, then the demand will be great, at the end of another two years when the 59th Legislature convenes, for a broadening of the program and an additional bond limit. Texans are fighting in Viet Nam; there is unrest in South Korea. Has Texas gone into the farm loan business on a permanent basis?
