LISTEN TO LUKE

By Albert---
If not this week, then within the next week or two, the complete and detailed information about the plans of the school board in the renovating and remodeling of the school system will be told.

The reason that the information has not been released yet is because the board has been in consultation with bonding agents and financial advisers to help to figure out what can be paid for that is within the needs.

From what we understand, it is no trouble to figure out what the needs are; and the list of wants is even simpler. But figuring out how to pay for what is needed is something else.

The valuations are taking a decrease this year, we are told, due to a decrease in the production of natural gas. The number of drilling rigs in the county is certainly lower than it has been and the number of crews now doing exploration work in the county has reduced to zero.

With the slow-up of drilling, and the consequential slow-up of interest, it's more difficult to sell oil companies who hold dry leases on the idea of continuing to pay higher prices for those leases.

There is a lot to this business of county and school financing and as we have always contended the oil and gas companies sometimes produce a dry hole when it comes to financing projects within a county. They are not, as some have assumed, in the business to build schools, etc. in counties where they operate.

When we get all of the information about the proposed plans of the school and the reasons for them asking for a bond issue of some amount, we will pass the information on to you. From the number of board meetings that we know about, no one can say there has been no planning in the project.

Friends of Mr. and Mrs. W. W. Sudduth and of her sister, Mrs. Fleeter Eason, who died Saturday after several days of unconsciousness, brain surgery, hospitalization, and the death of her daughter --- all the result of an automobile accident in Fort Stockton several weeks ago, are informed that there is a fund originated in Fort Stockton to help defray expenses incurred in connection with the tragedy. Either Fort Stockton Bank, Mrs. Ted McCollom, or Mrs. John H. Lewis of that city is receiving contributions for that cause.

We heard this week that the reason the country was so dry was due to the extra hour of daylight caused by the change to daylight saving time.

SECOND DPT INNOCULATION AVAILABLE SATURDAY

Dr. Jeff M. Flowers has announced that the second in the series of DPT inoculations will be available Saturday from 9 to 5. All who have taken the first of the series or who have not had the series or booster in the past three years are urged to get this inoculation.

Mrs. Carlos Dunn, County Judge R. S. Wilkinson, and Librarian Mrs. M. E. Hope are shown examining some of the 250 books received last weekend from the Texas State Library. The books are valued between \$1,000 and \$1,200. The books were sent through efforts of Mrs. Marie Schultz, Director of Field Services Division, and Mrs. Rosa T. Shamblin, field consultant, Texas State Library. Mrs. Dunn is president of the Friends of the Library organization in Sanderson.

Candelario Barron Dies Saturday After Short Illness

Funeral services were held on Monday afternoon at St. James Catholic Church for Candelario R. Barron, 74, who died in a Fort Stockton hospital Saturday morning after a short illness. Rev. Daniel Dierschke officiated at the rites and burial was in Santa Rita Cemetery.

Born in Del Rio, Mr. Barron came to Sanderson with his parents when about two years old and had resided here since that time. For many years he was employed on the ranch of the late Mr. and Mrs. W. A. Banner and later was an employee of Terrell County in Sanderson. He was making plans to move to Fort Stockton and was working on his house there when he became ill and was hospitalized for two weeks.

He was married to Basilia Salas April 10, 1937.

Besides his widow, he is survived by five sons, Juan, Candelario Jr., Celestino, and Manuel Barron of Sanderson, and Eugenio of Pecos, three brothers, Domingo Barron of Houston, Francisco Barron of Sanderson, and Florencio Barron of Ozona; three sisters, Theresa Martinez of Houston, Andrea Martinez of Austin, and Mrs. Emilia Olivares of San Antonio; also seven grandchildren.

Mrs. Josie Henderson, 80, of Brownwood, died Saturday, April 29, and was buried in Midland Thursday of last week. She is a sister of Mrs. Roy Connor. Other survivors include four daughters, three other sisters and three brothers.

Mr. and Mrs. S. C. Harrell and her mother, Mrs. John Neal, returned home Saturday from El Paso where they had visited with the Harrells' daughter, Mrs. W. P. Pendleton, and family for several days.

Registration of Pre-Schoolers To Be On May 19

J. E. Spann, principal of the elementary school, has asked that all pre-schoolers register on May 19 at 3:00 p. m.

A birth certificate, evidence of small pox immunization, and some adult should accompany each child, Spann stated.

The registration is for all the students who will be in the first grade next year, even though some may have already registered for the non-English speaking classes to begin soon after school is out in May.

Work was started this week on the Trans-Terrell Medical Center building, with O. T. Sudduth as the contractor.

The building will be on the lot west of the First Methodist Church.

Building Program of School Noted For \$500,000.00 Bond Issue Vote

Details of the building and renovating program of the Terrell County Independent School District were released Monday of this week after receiving information from the architects and financial advisers.

The notice of the election is carried in other columns of The Times.

The proposed bond issue is for \$500,000.00 and includes the with the construction of a new junior high school building:

Building, \$227,360; heating for high school, \$50,600; furniture and equipment, \$20,000; test holes, \$2,000; financial advisor's fee, \$5,000; architect's fee, \$21,927; land, \$20,000.

Also included in the expense for the new building will be a part of \$48,613, included in the bond issue for landscaping, removal of old buildings, play grounds, general renovation and improvement.

Cub Pack Meets On April 25th

The monthly Pack meeting of the Cub Scouts was on Tuesday, April 25, in the Fellowship Hall of the Methodist Church.

The opening ceremony was by Mrs. Robert Hunn's den. The members of Den 4 presented the skit "Dinner on the Rocks". The members of Den 1 displayed the things which they had made for their various projects.

Further announcement will be made of the Pack meeting for May which will be on Tuesday, May 30.

Mrs. Ruth Adams returned home last week from Alpine after being hospitalized for several days following a fall at her home in which her forearm was fractured.

EXPLANATION OF BOND ISSUE TO BE MAY 18 FOR PUBLIC

A public meeting in the high school auditorium will be at 7:30 on May 18, Thursday night of next week. The purpose of the meeting will be to explain to the public all of the details of the proposed bond issue to seek the support of the voters in the school expansion program which consists mainly of a new junior high school building.

Questions and answers will be available following the detailed explanation.

The balance of the bond issue of \$50,000 which is for renovations includes: \$6,500, lights at football field; plumbing at elementary school, \$500; furniture and equipment at high school, \$10,000; dressing rooms, present gym, \$40,500; renovate high school, \$41,000; renovate band hall, \$6,000.

It was pointed out that the school now owns two lots on the northwest corner of the block to the east of the school block and plans are, if possible, to purchase two lots on the southwest corner of the same block, which would be east of the tennis courts, and four more lots east of those presently owned, which would be the four lots across the street from the St. James rectory. It has also been advised, and it is planned to get Second Street closed between Pine and Hackberry, if possible, to eliminate the hazard of automobile traffic between the two play grounds. It is also planned to convert the entire south end of the school property into play ground area.

The picture below was taken just a few minutes after the one published last week, according to Mrs. John L. Newton, who sent both pictures. And only 45 minutes from the start of the blaze, the building was a pile of ashes, she said. A cooking school had just closed the day before and 17 electric ranges had been sold. One of the engines was repaired and put into operation sans protection of roof or walls and there was no electric power until this could be accomplished.

College and university undergraduates classified II-S were urged to take action before the end of the spring semester to get their registrars to send their class standings for the 1966-67 year to their local boards as soon as these standings are available.

Failure to do this could result in a student being re-classified I-A next fall, according to information received this week.

Come to Church Sunday

Mercy

"Oh give thanks to the Lord of lords; for his mercy endureth forever."
— Psalm 136:3

In ancient times, when kings and rulers could declare execution for any subject at the slightest whim or hint of displeasure, a merciful "master" was often fabled in legend and song.

The mercy of the one "master of the universe" is well known but, perhaps, in these modern times often forgotten. We forget to be appreciative for our freedoms and our good fortune. We pursue life and the good things of life so diligently that we fail to say "thanks" to the God who makes all things possible.

Give thanks, through prayer, to the Lord whose mercy and goodness endureth forever.

THE FAMILY LAWYER

"All For Mother"

Feeling death near, a man took sheets of paper and scrawled three words: "All for mother."
No doubt, in his own mind, this message covered everything—clearly and concisely. But there was one catch. The "mother" he meant was not his own mother at all, but his wife—the mother of his children.
The mixup was finally straightened out in court proceedings after the man's death. But the case illustrates how mercurial is meaning—how risky it is for a person to dash off a "simple" do-it-yourself will with serene confidence that, after he is gone, his words will be clear to everybody.

Of course, the law's main goal is to carry out the intentions of the deceased. But just what were his intentions? With alarming frequency, bickering relatives can read the same words and come up with different meanings.

Consider a few "simple" expressions that have led to courtroom battles:

"money"—Does this include funds in a bank account? (One court said yes, if it is a checking account; another court said no, if it is a savings account.)

"furniture"—Does this include everything useful in the house? (One court said it included linens; another court said it did not include books.)

"household effects"—Does this include more than furniture? Less? (One court said a stamp collection was covered; another court said jewelry and clothing were not.)

"contents"—Does this include everything physically within? (A court held that the "contents" of a house included the steel safe in the basement but not the stocks and bonds inside the safe.)

In each of these cases the court had to examine the surrounding circumstances, not just the bare words of the will, to clear up the ambiguity.

This procedure is not easy and not quick. It may breed bitterness in the family, cause legal complications, and—to everyone's chagrin—delay the distribution of the estate. All too often, wills composed in haste must be litigated at leisure.

Now, therefore, our God, we thank thee, and praise thy glorious name.— (Chron. 29:13).

In the stream of life, we have access to all the life of God. We are one with the life of God. This life flows in and through us. As we accept God's life as the life of our bodies, it is also expressed in every atom, in every part, and we are healed and made whole. God's substance flows through us as plenty to meet our every need. As we affirm that the substance of God fills our affairs, it enriches and prospers all that we touch.

Drive the cost of living down, without giving up all this.

Chevrolet's room, ride and price. When *Automotive News* made its annual roominess study, Chevrolet got the most points. It's roomier inside, they reported, than any other American car. The ride is Full Coil suspension smooth. And Chevrolet hardtops and convertibles are still the lowest priced full-size cars of this kind you can buy. **Chevelle's quick size.** It's quick to climb, quick to turn. Other mid-size cars might be like Chevelle, true. But they're not as low priced. And they're not made by Chevrolet with Body by Fisher, GM-developed energy-absorbing steering column, inner fenders and Full Coil suspension. **Camaro's road-hugging stance.** At its price, Camaro is the only sportster to give you wide-stance design. It rides steadier, clings to curves better,

hugs the road closer. It's the roomiest car you can buy. Plus, you get a bigger standard engine.
