LISTEN TO LUKE

By Albert---

It is appalling to us and to a lot of other people, the fact of the riots that continue to break out in various cities of the east and north.

The fact that some stir of emotions can cause people to lose all sense of values is also appalling.

This is the area of the nation where a few years ago, the people were carrying banners for the Negro in the south, saying the people in the south should follow the example of the people in the north in their relations with minority groups, particularly the Negro.

We have never been in a riot or where a riot was. We have never seen the passions of so many rise to such heights. And we hope we don't.

We would hazard a guess that if anyone knows the answer to quelling or preventing an outbreak of that kind, their voice would be welcome in lots of places.

We know that it is costing a lot of lives, a lot of heartache, a lot of anxiety, a lot of money, and a lot of property.

And we don't know that we have a surplus of any of them.

It's about a month before the opening of school, and it seems such a short time since school was out.

We have seen some of the students working out at this or that athletic endeavor in preparation for the coming year, some have been working on instruments for the band, some in twirling and cheerleading schools. And some have been going to school this summer to make up some work in academics.

We would not belittle any of the extra-curricular activities, but we would like to see the zeal that is applied to activities other than academics be applied there.

The intense desire to be able to drive, for example, motivates a student to get up at a time that otherwise is considered too early for man or beast, to take drivers' ed. Or to diligently give up a morning in bed for a workout in the gym to better one's chances of making the basketball team this year.

But homework, which would dip into the time allotted for driving during the afternoons of school or devoting as much extra time to study as one would to keeping physically fit for the coming "whatever" season, is too much study.

We need to raise the desire for knowledge that has a carry-over value inestimable, to the degree that students have been inspired to want to "put out" for those things that merely go on because the school exists.

What is the value of a good sound high school education?

Terrell County Name Is Taken Into Viet Fight

The tank landing ship USS Terrell County has been in action near the demilitarized zone in Viet Nam recently, according to word released by the Commander of the Amphibious Force of the United States Pacific Fleet, with headquarters in San Diego, Calif. The USS Terrell County was commissioned during World War II and has seen action since that time.

Following is the story sent by CAFUSPF concerning the action.

Aboard USS Tripoli Off South Vietnam, July 11 -- Flight deck crews, medical teams and boat coxswains continued to work around the clock aboard the Navy's Seventh Fleet Amphibious Force ships to keep fleet Marines engaged in a fierce battle ashore supplied.

As operations "Bear Claw" and "Beaver Track" moved into the seventh and eighth days respectively six miles south of the DeMilitarized Zone, night and day helicopter operations continued from the amphibious assault ships USS Tripoli and USS Okinawa in evacuating the wounded from the field and keeping the embattled troops supplied.

Prior to the medical teams moving to casualty collection stations in the field yesterday, they treated more than 200 casualties in the two amphibious assault ship's medical spaces. The teams put in nearly 48 straight hours working with the wounded through the last two days. Lt. Cmdr. Ronald Bouterie, of New Orleans, the doctor who heads the surgical team on Tripoli, said that none of the doctors or corpsmen felt they could do enough.

Flight deck crews on the Tripoli and Okinawa pumped tons of fuel into Marine helicopters to keep them shuttling between the carriers and the shore. Hot meals, fresh fruit and juices along with ammunition and other supplies were delivered to the Marines.

The Okinawa is serving as the flagship for Capt. P. S. McManus of San Diego, commander of the amphibious task group in Bear Claw.

"We're trying to give them everything they ask for," said Capt. J. L. Lowentrou of Coronado, Calif., the task groups commander for Beaver Track. Speaking of the task group's crews he said, "They are tired, but they are doing their duty without complaining and doing a magnificent job of it."

Meanwhile assault boat coxswains kept moving more troops and supplies up the Qua Viet to the Song Bo Dieu River to Dong Ha. Close by the mouth of the Qua Viet the amphibious transport docks USS Ogden and USS Duluth, the landing ships dock USS Monticello and USS Hermitage, the attack cargo ship USS Seminole and the tank landing ship USS Terrell County, cruised as boat havens for the small craft.

The amphibious flagship USS Eldorado stood by off shore providing communications support.

Eight days ago battle weary leathernecks from the 2nd Battalion, 3rd Marines jumped into the battle south of the DMZ just two days after finishing an amphibious landing 17 miles south of Da Nang. In seven days of fighting in Beaver Track the fleet Marines have accounted for 148 enemy killed.

SP Plans Air Freight Service

Southern Pacific Company said today that it plans to inaugurate a domestic and international air freight forwarding business designed to bring the advantages of air freight to shippers in thousands of communities where it is not now readily available.

The San Francisco-based transportation company, already one of the most widely diversified, has filed incorporation papers for a new subsidiary, Southern Pacific Air Freight, Inc., to carry out the plan, and is asking the CAB for authority to put it into operation.

SP's president, B. F. Biaggini, said his company plans to use the truck fleet of its motor carrier subsidiaries to pick up air shipments in numerous communities they now serve in twelve states, take them to airports, and turn consolidated shipments over to existing air carriers. At destination airports, trucks would pick up the shipments for delivery. The entire transaction would be handled under a single charge.

At cities not now served by Southern Pacific, both American and foreign, SPAF would provide arrangements to handle the pick-up and delivery of air freight shipments.

Miracles

"And the prayer of faith will save the sick man and the Lord will raise him up; and if he has committed sins, he will be forgiven."
— James 5:15

We have no right to beg, demand, or ask miracles. We cannot turn to God in a moment of sorrow or deprivation and believe that suddenly things will be "right" again.

We should have faith, faith in the goodness of God and in the belief that each individual has an eternal purpose and an ultimate destiny.

There is for no man the guarantee of an easy life or an age without sorrow. But there is the promise of comfort and strength; it is found in prayer and faith.
