LISTEN TO LUKE

By Albert ---
 There is something that we have either overlooked in the papers or not heard on the news casts, or the facts have not been told, but it has us wondering and worrying.
 Why are all of the precautions being made to protect all of the Democratic Convention delegates? I mean - what is the threat?
 There are literally thousands of policemen and troops that have gone to Chicago and other thousands that are at ready at some nearby airbase to be taken if there is trouble pending.
 And this makes us wonder in another vein!
 Is this what our nation has come to? Is this the Great Society that was promised? Or is this just the Democratic Party, and if so why?
 If our nation's leaders are selected at conventions that must be held under police protection of this kind, then have we had the proper leadership in the past?
 If threats have been made to disturb the convention or the delegates, this then - if they were seriously made - was a violation of the law and they should have been so charged.
 There seems to have been a breakdown in our upholding of our laws that has to be the fault of the present administration.
 As we have said before - permissiveness just leads to trouble.

 A good business has been enjoyed throughout most of the summer by those local businesses that deal directly with the travelers. Now that school is starting over most of the nation, there may be a period of time here when we seem to have - and we may have a recession from what was a "normal" summer business.

 We found out, as did many other readers of an area daily, that everything you read in a newspaper is not true.
 The Terrell County Chamber of Commerce has inquiries daily about deer hunting in this area, and if what we read was true then the Chamber of Commerce and the ranchmen and the hunters would be very busy, indeed.
 One of the projects of the C of C is to help ranchmen of the area who sell deer hunting leases get hunters. What we read was that the blacktail season in the Trans-Pecos was from November 30 through December 31.
 It should be, and we verified it with David Cook, Nov. 30 to December 15.

 Vandals cut several screens at the home of R. B. Mussey in an apparent effort to get into the house recently. Mr. Mussey discovered the damaged screens last weekend.
 This is the first reported case of vandalism to us in several weeks.

 Mr. and Mrs. Seth Davenport of Uvalde visited her parents, Mr. and Mrs. J. D. Nichols, Friday, leaving Saturday for the train trip to Mazatlan, Mexico. They plan to return to Sanderson Labor Day.

 He is survived by his widow, Mrs. Marjorie Wilson; a son, Marion Wilson of Lake Whitney; two daughters, Mrs. J. T. Herring of Minerva and Miss Carolyn Wilson of El Paso; his parents, Mr. and Mrs. H. G. Wilson, of Ennis; also two brothers, five sisters, and three grandchildren.

Parking tickets for all local games are \$5.00 per season and last year's space holders have until September 6 to claim that space. All parking spaces at the field will sell "first come" after that date, according to Supt. Ken McAllister.

The picture below was taken in the 1910 era in front of the depot in Sanderson. The second from the left is Joe Stirman, a half-brother of Bud Stirman; the fourth from the left is J. C. Stansell, agent; 7th from the left is S. C. Bodkin, yardmaster and former father-in-law of H. E. Fletcher. The 6th man is Fritz Burling, and at the far right is Daniel Wooten. It is also interesting to notice the lantern hanging over the baggage cart, the derbies of some of the men, and the fact that the two trains shown on the board at the left are marked up "on time". The picture was loaned to us by Mrs. Noel Stirman of Denver.

Here's the expert.

She's your telephone service representative. To many telephone users, she is the phone company. She answers questions, provides personal number booklets, directories and duplicate bills. She helps you get new phones installed. As a service representative, she has to be something of a lady executive, a bit of a diplomat and an expert in phone service. And she is. She was hired from a select group of applicants and put through an extensive training program. And she attends regular meetings to discuss customer service. Next time you need help on a telephone problem, just call the telephone business office. Your service representative will take it from there.
