## LISTEN TO LUKE

By Albert ---

The rains that we have had recently hopefully would do us more good than just provide additional weeds and grass in the ranches - it would settle some of the pollen that seems to have hit many a pretty hard lick.

No one can properly appreciate the benefits of settled pollen more than one who suffers from allergy-connected ailments.

And invariable with the seasonal changes come shifts in the pollen - or something - to make for a very disagreeable time of it.

The rains that fell Saturday were very nice locally - over half an inch - but we understand some country north of Dryden had a deluge in a short time.

If three inches of rain in 30 minutes can be called a deluge, that's what fell!

And according to a very reliable source!

The fall work is going on over most of the area and in some cases the rain interferes and in some it doesn't.

We're trying to get our business arranged to have two seasons of work a year and find out how many ranchmen fuss at us for mentioning something like this! Our other publications will only be routine, like their fixing water gaps, repairing windmills, etc.

And speaking of repairing windmills, etc., it is our understanding that the submersible pump and electricity business is taking a lot of work out of the windmill repair end of the ranch business.

It's odd how things like that are slow to catch on for one reason or another. It was the same thing with us in the change from our previous method of publishing a newspaper to the present way. And now we wonder why we were so foolish to put it off so long, and why do other publishers do the same?

We sometimes think that we can't afford something, and it is often the gospel truth, but we sometimes can't afford not to make a change, even if we can't afford to!

---  
This follows, but it really is unrelated: have you noticed the fact that the Great Society programs of giving and buying and promising everything are not taking hold in popularity as was the case only four years ago.

Have we really begun to realize that money, good will, and popularity are not commodities to be swapped and tossed to and fro for the whims of politicians?

---  
And during the act of wondering, now that the minority group of black people have gotten into so many TV commercials - and it doesn't bother us at all - when are the Eskimos, the Australian aborigines, and the Afghanistans going to be represented in the soap and cigarette ads? We want to see all of the minority groups have an equal representation.

Miss Julie Copper of Odessa was a weekend visitor in the home of Rev. and Mrs. Raymond Sanders.

## Eagles Lose To Shorthorns 48-0 Friday; To Play In Grandfalls This Week

The Sanderson Eagles bowed to the Class AA Marfa Shorthorns here last Friday night by a 49-0 score.

A wet field, resulting from a shower which fell just before game time had little effect on the outcome of the game, according to Coach Carroll Eggeston.

Marfa jumped out to an early lead with 16 points in the first period, the first touchdown being made in the first four minutes of play.

Glen Jimenez, stellar back-

fielder for the Shorthorns, went into the end zone for the first score from the 5-yard line and Orlando Ontiveris ran the two extra points in. Just minutes later, the situation reversed by Ontiveris scoring and Jimenez making the extra points.

During the second period, the Shorthorns made an extra two points by trapping Bill Littleton, Eagle quarterback, behind the goal line for the safety.

Two subsequent Marfa scores were both about 40 yards each, and there were 2-point and 1-point conversions, bringing the score at half-time to 33-0.

In the third period, a 60-yard scamper by Ontiveris and conversion by Jimenez; and a 99-yard run by Ontiveris in the fourth period and a place-kick ended the scoring for the visitors.

The Eagles will go to Grandfalls next Friday night to meet closer competition.

In other games by teams in the same district with Sanderson, Iraan lost to Wink 6-14; Rankin fought McCamey to a scoreless tie; and Van Horn beat Balmorhea 33-0. Socorro lost to Albuquerque 6-33.

Mr. and Mrs. David Glass of Sterling City were visitors with his sister, Mrs. Ervin Grigsby, and Mr. Grigsby, last weekend.

Mrs. C. T. Wrinkle has returned home after attending the state meeting of the Texas Home Demonstration Association in McAllen September 16 through 20. She was accompanied by Mrs. Erwin Schuster of Iraan, the ladies serving as delegates from the Pecos County Council.

## Federal Budget Cut Expected To Hit Local Watershed Flood Control Project

According to information received in the local Soil Conservation Service office last week, the expected announcement of the cut of \$6-billion in federal outlays during the fiscal 1969 by President Lyndon Johnson as directed by the Tax Surcharge and Expenditure Act, are expected to have effect on the local flood control project.

Besides an expected cut in SCS personnel, the cut would also limit letting any new contracts for construction of watershed projects under PL 566.

It also probably would affect letting any new contracts under the Great Plains Conservation Program, according to the information received.

The newsletter continued to state that as the budget squeeze continues to take effect, the prospects for substantial progress with watershed projects grow dimmer. Last month only one watershed was approved for operations under P. L. 566, the Watershed Protection and Flood Prevention Act.

In the program as a whole, there are now 2,715 applications for assistance, of which 1,427 have been authorized for planning and 836 approved for operations.

## Good Rains Fall Over This Area During Past Week

Good rains have fallen over this area during the past several days. Some ranchers have reported up to three inches of rain since Saturday of last week.

Locally, there was about .4-inch fell last Saturday and Monday morning about .3-inch fell in town and another .2-inch that afternoon. Only .1-inch was reported at the Texas Highway Department maintenance station all day Monday and Ervin Grigsby reported only .19-inch in his official gauge Monday.

While the rains were scattered, it has been reported that they were general in their coverage during the past several days.

Draws north of Sanderson and Dryden were reported running Monday night after some areas received two inches of rainfall.

Mrs. Herbert Brown left Monday morning with her mother-in-law, Mrs. A. D. Brown, to take her to San Antonio to visit her sister, Mrs. Laura Wallace, who is ill in a nursing home there.

# Fifth Proposal Seeks Hike In Legislators' Pay

AMENDMENT NO. 5 (Authorizing an annual salary for members of the legislature in an amount not to exceed \$8,400 per year and extending the per diem allowance to 140 days of the Regular Session.)

This proposed amendment to Section 24, Article III, would effect three changes in constitutional provisions relating to (1) legislative salaries - which would be increased from \$4,800 to \$8,400 per year; (2) legislative per diem - which would remain at the present rate of \$12, but would be paid for the full 140-day maximum of a regular session instead of being cut off after the first 120 days; and (3) mileage allowance in going to and returning from the seat of government - which would permit one round trip per month at \$2.50 for every 25 miles traveled, instead of one round trip for the entire session. The present stipulation that no member is entitled to mileage for an extra session called within one day following adjournment of the regular or a called session remains unchanged in the proposed amendment.

### BACKGROUND

Before the Constitution of 1876 was adopted, earlier constitutions permitted the legislature, by law, to increase or diminish the compensation of members, except that no increase could become effective during the session at which the increase was made. But the original Constitution of 1876 limited the per diem allowance to \$5 and, to further discourage long sessions, it provided that this allowance should be reduced to \$2 after the first 60 days.

In 1930 an amendment was adopted which increased the per diem allowance to \$10 for the first 120 days of a session, and a reduced allowance of \$5 for any succeeding days beyond that period. Another amendment in 1954 increased the per diem allowance to \$25 for the first 120 days and no per diem allowance thereafter, should the session extend beyond the 120-day maximum.

The innovation of the annual salary was adopted by the electorate in 1960. In this latest amendment to Section 24, Article III, an annual salary not to exceed \$4,800, plus per diem of \$12 for 120 days of the regular session and 30 days of each special session, was authorized. A proposed amendment to increase the per diem to \$20 and extend payment over the full 140 days allowed for a regular session and the full 30 days of a special session was defeated by the voters in 1965.

### ARGUMENTS FOR

1. The legislator can no longer be considered a part-time official because redistricting has given him more constituents to serve and his legislative work necessarily includes many hours spent on standing and special interim committees which meet between sessions. Consequently, little time is left to devote to his private business or profession. The \$4,800 pre-inflation, annual stipend now provided under the Constitution is scarcely adequate to accommodate present - day costs of living. In the same way, the 120-day cutoff period for payment of the small \$12 per diem allowance even though expenses continue throughout the full session of 140 days places an additional hardship on legislators. In view of personal maintenance costs, the imposition of a time limit on a \$12 per diem allowance is unrealistic. It is unlikely that any legislator would attempt to extend the

length of session and remain away from his home in order to collect an allowance of \$12 per day.

2. In order to keep a finger on the pulse of constituents, it is essential that members of the legislature visit their home districts during a legislative session. The one round trip allowed at a minimal 10¢ per mile, or \$2.50 for every 25 miles traveled, makes it necessary for the legislator to finance personally the remaining trips he must make to his home district.

### AGAINST

1. An \$8,400 annual salary, amounting to \$700 per month, would be payment for what might be called part-time job and is far in excess of the full-time salary drawn by the average Texan. In addition, the proposed amendment

## Culture Club Has First Meeting Of New Club Year

The Sanderson Culture Club met in the home of Mrs. A. D. Brown Thursday afternoon with Mrs. E. H. Jessup as co-hostess.

During the business meeting Mrs. H. E. Ezelle presented the budget and it was approved with two amendments: this year \$20 will be given to the public library, no contributions will be made to the school libraries, also \$6 will be contributed to the fund for emergency stickers to be used in the telephone directories.

grants a longer period during which the \$12-per diem allowance would be paid, thus adding still further to the expense of state government operations at a time when state finances are already overburdened in meeting the constantly expanding needs of

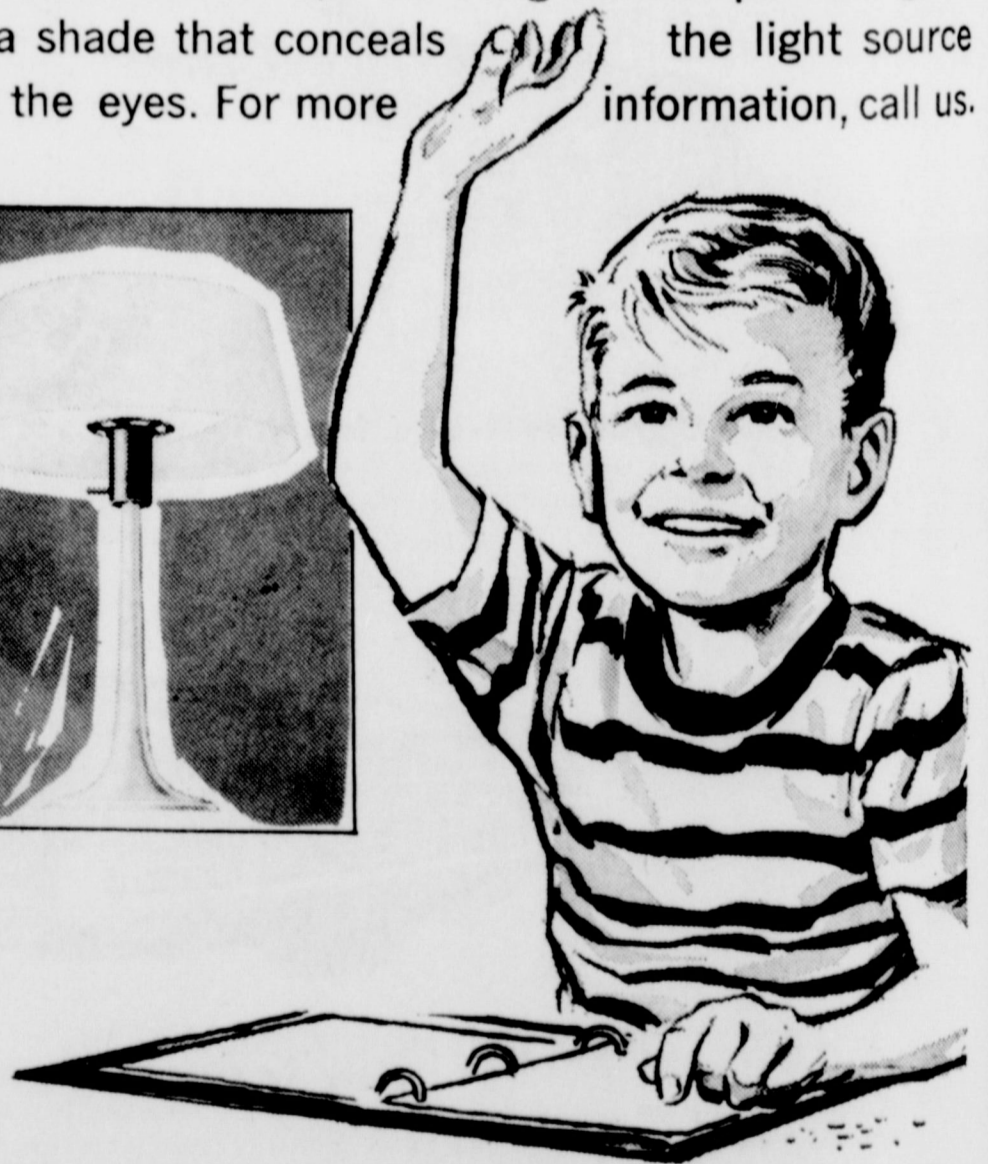

a growing population.

2. It is not necessary for legislators to return to their home districts every month, which the proposed increase in travel authorization would encourage. Adequate office allowances are provided, without constitutional limitation,

whereby members can be in constant touch by telephone or telegraph with their constituents, without cost to themselves. If members are forced by financial pressure to stay on the job in Austin, sessions might be shorter and more productive.

# THE RIGHT ANSWERS COME EASIER WITH THE RIGHT STUDY LIGHT

Better grades result when students have a bright outlook on homework. Poor lighting may cause eyestrain which lessens a student's ability to concentrate. For proper study lighting your children need a table lamp tall enough to spread light evenly over the entire work area. It should have a 150-watt bulb, a diffusing bowl to prevent glare and a shade that conceals the light source from the eyes. For more information, call us.

The 7th graders lost 18-0 in their first outing and the 8th graders won their game 20-6.

Santiago Flores made one of the touchdowns for the juniors and Juan Saenz, an end, made the other two, one on a pass from Flores, and the other on an end-around run.

Some of the 8th graders played on the 7th grade team due to the difference in size and some of the 7th graders played with the 8th graders because of the lack of a sufficient number of boys.

Those who made the trip and played included:

Darrell Cooke, James Davis, Rosendo dela Cerda, Dale Harrell, Larry Hernandez, Johnny Hodgkins, Robert Kline, Maurio Lopez, Bill Mott, Jake Murrah, Martin Petty, Kevin Phillips, Juan Saenz, Kenneth Sanders, Bobby Spence, David Valles, Floyd Watson, and Ismael Yanez, 7th graders; and

Ikey Billings, Jesse Calzada, James Cash, Roy Cole, Nelson Cooke, Santiago Flores, Juan Garcia, Danny Garza, Kendrick Harrell, Skipper Harris, Dennis Haynes, Juan Lomas, Curtis Schrader, and Mark Richmond, 8th graders.

Norman Gladson and Lawrence Barber are the coaches.

Miss Jody Tronson, daughter of Mr. and Mrs. J. F. Tronson, Del Rio, former residents, has enrolled in the University of Texas Medical Branch in Galveston where she is majoring in nursing.

### Young People Off To Schools

With the opening of the 1968-69 school term at San Angelo College this week, the last college to open, there is a noticeable absence of young people from the community.

Sul Ross College in Alpine probably has the largest number of students from Terrell County. Carol Johnson, Mrs. J. A. Mansfield, John Ayers, Billy Golden, Mrs. J. L. Whistler, Gilbert Valles Jr., Pablo Ochoa Jr. and Miss Pixie Mansfield are continuing their studies there with Carlos Garza and Amelia Escamilla enrolling for their freshman year.

Joe Brown, Reymario Marquez, Steve Hope, Monty Harquez, are at Uvalde Junior College for their freshman year. Other students there are Alton Yearly Jr., Roy Deaton Jr., Robert Calzada, Mike Robbins.

Miss Karol Phillips is in a beauty school in Del Rio.

Miss Ida Casillas is in an Odessa business college.

Lloyd Goldwire is attending Peacock Military Academy in San Antonio.

(Ed Note: In preparing this list we may have omitted some local young person. If so, it was unintentional and we will be glad to include them in a list next week if we have their name and school).

Mrs. W.H. Dishman returned home last week from a Fort Stockton hospital and is recuperating satisfactorily from a recent illness.

A classic automobile that won't be upstaged even by a beautiful girl is Ford's 1969 LTD. This four-door hardtop leads off with a unique full-width recessed grille. The lower, longer car with a wider stance displays all-new design from front to rear.

#### ROTARY INTERNATIONAL DIST. GOVERNOR VISITS

District Governor John McDonough of San Antonio made his official visit to the local Rotary Club last week, holding a conference with the members Tuesday evening and meeting with the club at their luncheon Wednesday.

Mrs. McDonough accompanied her husband on the trip.

**Chevrolet introduces 1969.**

**Caprice. Match this, you other 69's!**

There is no joy in the land of our competitors today. But let us ask you this.

Should we have made Caprice shorter instead of the longest Chevrolet ever built? Or adorned it with flashy nicknacks to make it look less expensive?

Just because competition doesn't, should we not have offered you washers to clean your headlights,

new variable-ratio power steering, liquid tire chain you can apply to your rear wheels at the touch of a button?

Should we have given you less power, instead of the largest standard V8 in its field?

Some people think so.

Our competitors.

'69 Caprice Coupe

**Camaro. Who needs to say "announcing" or "new".** The Hugger.

And just look how it all hangs together. No gingerbread anywhere.

We've improved the interior, too. Quieted the ride. Made the Astro Ventilation ventilate better.

The power range is very impressive.

'69 Camaro SS Sport Coupe, plus RS equipment

Standard V8 is 210 hp. SS engines available up to 325 hp. For added SS appeal: sport striping; power disc brakes; wide oval, road-hugging tires.

Your Chevrolet dealer offers this advice: Go on, you other sportsters. Gnash your gears and look tough.

Maybe it will help.
