LISTEN TO LUKE

By Albert----
The letter printed below could make proud the hearts of all who have helped in any way to inspire the writer. People of Sanderson, Sanderson, Texas

Dear Friends:
I wish I could find words that would adequately express my appreciation to the wonderful people of your community for the many kindnesses they have extended to our home and our children. Clothing and toys are items which are always in demand in a children's home and you have helped us consistently in these areas. Another of your gifts which has aroused an unusual amount of interest and excitement among our boys and girls was the Gandy milk carton tops. The kids tell me they should go to the "Bid and Buy" program on television and try to buy bicycles with our money. To them, a bicycle is the greatest mode of transportation ever devised, and goodness knows we have plenty of sidewalks and concrete to ride on.

Our campus is like a beehive after school is out and on weekends, with youngsters playing and working all over the place. School will be out in a few weeks and then activities will really step up. We will soon be opening our swimming pool, the boys will be in the League baseball, the girls in softball leagues - life will be hectic and we'll all be busy, but that's the way we live.

To have fine people like you thinking of us and helping us is a wonderful thing. It makes our work so much easier knowing others are concerned and apparently feel that we are doing a good job. Allow me to thank you from the hearts of 146 young hearts for your continued generosity.

Sincerely,
Fred Conradt

I noticed an ad in the Fort Worth Pioneer last week from the institution of that city and I am reprinting the message in this ad because we like what it says: "Do discounts cover the cost of getting there? Do they really save money shopping at our home business community? When you consider the time, oil, tires, depreciation, repairs, parking, investment in time and money - do the so-called 'big city discounts' really cover the cost of getting there?"

Unless you enjoy the congestion and frustration of off-ramps, diamond-leaf and one-way directional interchanges, we suggest you save your tension, time and money. Shop at home.

Do we wonder if the Fort Worth businesses would endorse the message for Terrell County residents?

Congratulations especially to Rosa Linda Valles, who has been our part-time typist

All-Sports Banquet Staged Monday By Lions Club

The Sanderson Lions Club staged their annual All-Sports Banquet Monday night with approximately 150 attending.

Three rows of tables were in front of the elevated speakers' table in St. James Hall to accommodate the large crowd of students and adults. The speakers' table displayed various trophies won in athletic endeavors during the year and the other tables were decorated with layouts of the various athletic courts on which the students participated. Athletic uniforms were displayed around the hall, and on the walls were silhouettes of athletes.

The meal consisted of tomato juice cocktail, lamb, sweet potatoes, vegetable salad, green beans, iced tea, hot rolls, ice cream, and cake.

Susan McSparran gave the invocation.

Ken McAllister served as the master of ceremonies and introduced C. B. Card, president of the Lions Club, who gave the welcome. The response was by Christine Downie, president of the student council.

A medley of three songs: "Up With People", "I Have To Go Away", and "God Bless America", was sung by "The Silhouettes" - Virginia Hardgrave, who also played guitar accompaniment.

The Vacation Bible School of the Presbyterian, Methodist, and Baptist Churches in 1937 included those pictured below: Betty Ann Peavy, Joyce Cox, Nancy Peavy, Peggy Robertson, Margaret Newton in the front row; Harriet Pierce, Pattie Robertson, Betty Sue Yeate, Vivian McKnight, Melvin Newton, Bill House on the second row; and Mrs. Schroeder, Miss Lewellyn, and Mrs. Newman on the back row in front of the old Methodist Church in the same location as the present church building. The picture was loaned by Mrs. W. H. Savage.

Maverick's hot! Any questions?

Measure it any way you like. By the crowds. The news stories. The sales. Few cars have caused a sensation like Maverick or broken so many records. Every day more and more people are asking questions about it. Here are the answers.

Q. Why did you build the Maverick?

A. We think of Maverick as another one of Ford Motor Company's answers to the gold drain. Now Americans who want small car economy don't have to send their U.S. dollars overseas.

Q. Why did you call it Maverick?

A. You know what a maverick is. A maverick breaks the rules. A maverick is different. Maverick plugs the big gap between the compacts and the imports. It has a wheelbase eight inches shorter than a '69 Falcon, eight and one-half inches longer than a VW 1500. Nothing else like it.

Q. Why did you make it this size?

A. Maverick pinches pennies, not people. We gave Maverick more leg room. More shoulder room. More luggage room. Good example: the front seat of a Maverick offers you nine inches more shoulder room than the front seat of the leading economy import and its trunk can handle all the luggage for a family of four, including a set of golf clubs.

Q. What do I get for the price?

A. You get your money's worth. A complete, built-for-Americans kind of car. Room. Hot styling. Color-keyed interiors. Even the heater is included. Some economy car interiors are about as luxurious as a park bench. Not Maverick's. You get plush seats. Cloth and vinyl upholstery with unique tartan plaid cloth inserts. You also get safety features like smart pull-out door handles. Strong safety door locks. Two-speed electric wipers. Safety belts. Head restraints. Plus conveniences like armrests, coat hooks, lighted heater controls... important little things that add so much to your driving comfort.

Q. What about options?

A. You can get 'em if you want 'em. You can order integral air conditioning. (It's built in, not hung on.) Other options include 3-speed automatic or low-cost semiautomatic transmission, and a hefty 200 CID Six. But lots of people won't put an extra cent into this car. Because it's all there. A complete car all ready to drive home.

Q. What kind of gas mileage can I get?

A. That depends on you as well as the car. You can get as much as 25 or 26 miles per gallon—if you have an educated toe and the right road conditions. If you have a lead foot, or do a lot of city driving, you will

get a lot less. In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg.

Q. What kind of power does Maverick have?

A. Maverick's Six lets loose 105 galloping horses. That's 52 more than you get in the 4-cylinder VW 1500. Maverick can cover 417 feet in ten seconds from a standing start. That means you can get up to highway speed in a hurry. When you enter a 70 mph turnpike, you won't feel like a retired bookkeeper thrust into the middle of a pro football game.

Q. If it has an eight inch longer wheelbase than the leading import, does it still handle and park easily?

A. Maverick can U-turn in a tighter circle (35.6 feet) than the leading economy import (36.0 feet). Maverick can slant through traffic like a hallback. It can turn on a dime and give you nine cents change. If you've been driving any other American car, you'll find Maverick's neat size adds up to 5 1/2 feet to any parking space.

Q. Can Detroit really build a small economy car that's tough and long lasting?

A. It's not easy, but we did it. Maverick's unitized body construction makes it light, strong and durable. It's welded like a battleship. Rustproofing compound goes into deep crevices that never see the light of day. Then all that strength is covered with four coats of paint for lasting beauty. Result: one tough little car that's put together to stay together. (The service schedule in the Maverick owner's manual goes up to 108,000 miles or nine years; that ought to tell you something about its rugged durability.)

Q. How about parts and service?

A. Maverick is designed to be unusually easy to service. You're dealing with made-in-America parts and 6,000 easy-to-find Ford Dealers. Fast repairs and easy replacements mean extra savings in both time and money.

Q. Is Maverick really easier and less expensive to maintain than an economy import?

A. Definitely. Maverick oil changes come only every 6,000 miles and chassis lubrication once every 36,000 miles. The leading economy import recommends oil changes every 3,000 miles (twice as often as Maverick) and chassis lubrication every 6,000 miles (six times as often as Maverick!). Those are

just a few examples of the many ways Maverick lessens inconvenience and lowers operating cost.

Q. Can I do my own maintenance work?

A. Yes, if you have an average amount of mechanical ability. The Maverick owner's manual contains 24 pages of detailed diagrams and easy-to-follow instructions for routine maintenance jobs you can do yourself, if you wish. You'll find it easy to change spark plugs, replace ignition points... plus many other do-it-yourself repairs and replacements.

Q. Can a small car be safe? And how safe is safe?

A. This small car incorporates the latest advances in engineering. Maverick's brakes are as big as a standard compact's—designed to stop cars weighing hundreds of pounds more. Maverick gives you weight... power... stability. Designed for American driving conditions.

Q. How does Maverick ride?

A. Here's where Maverick's longer, wider stance really pays off. You get a smoother, quieter ride. Maverick's tight, strong, unitized body helps eliminate squeaks and rattles. Special insulation blocks out road noise. The people who brought you a Ford that was quieter than a Rolls-Royce now bring you a small car that doesn't sound like a power mower.

Q. Is there an advantage in the fact that Maverick is really a 1970 car?

A. Slower depreciation is one money-in-the-bank advantage. Maverick's 1970 model design means it keeps its trade-in value higher, longer. (Maverick is built to be a good investment from the minute you buy it to the minute you sell it.)

Better come take a look at this one. You'll find it where the action is... right in there with other great Ford values like specially equipped Ford Galaxie 500's... Fairlanes... Mustangs and Falcons.

You'll find them at your Ford Dealer's... the place you've got to go to see what's going on.

For an authentic 1/25 scale model of the new Ford Maverick, send \$1.00 to Maverick, P.O. Box 5397, Department N-50, Detroit, Michigan 48211. (Offer ends July 31, 1969.)

Retire From Kerr's After 40 Years

Santiago (Chago) Zepeda took his retirement on Saturday, April 5, after being employed at the Kerr Mercantile store for the past forty years.

His parents, the late Mr. and Mrs. Juan Zepeda Sr., brought him from Mexico where he was born to Sanderson when he was four months old and he has made his home here practically all of his life. His first job with the store was in 1929 when he went to work in the lumber yard and the next year he became the deliveryman, when groceries were delivered to local customers, using a pick-up. After the delivering of groceries was discontinued several years ago, he worked in the grocery section as a clerk and in the meat department.

For the past 20 years, Mr. Zepeda has also been the janitor at the Sanderson State Bank performing his duties after work hours and he is continuing to hold that job. He stated that the thing which he has missed most since retiring was his contact with people, the many persons he served while on his job.

Mr. and Mrs. Zepeda have a son, Jimmy Zepeda of Hobbs, N. M., and a daughter, Mrs. Eleno Marquez of Sanderson, also two grandchildren.

Stockton C of C invites County To participate in Meet

Residents of Terrell Co. have been invited to participate in an aggressive campaign to develop international trade between Mexico and the Trans-Pecos area of West Texas.

The project is being spearheaded by the Economic Development Division of the Fort Stockton Chamber of Commerce.

The current efforts involve a survey to determine the feasibility and potentials for increased trade - both import and export.

"This is not a promotion, but a sincere effort to develop a strong economic base in the Trans-Pecos," according to the Fort Stockton

Chamber Manager, Don Stafford. Fort Stockton business leaders are asking that Sanderson businessmen participate in (1) determining what there is in the Trans-Pecos area that might have an export market in Mexico; and (2) determining the needs in the Trans-Pecos area that might be supplied with imports from Mexico.

The United States Department of Commerce has pledged its full cooperation in arranging for interviews with Mexican Businessmen and top business advisors with the United States Embassy in Mexico.

"Before we can make definite plans for a trip, however, we must compile a comprehensive list of potential trade items," Stafford said. "As soon as we come up with a list of products with possible market in

Mexico, the Commerce Department will check out each item to determine the market demand and legality in exporting to Mexico." Items currently being sold in Mexico through international trade include tools, both new and used machinery, transport equipment, chemicals, pharmaceuticals, manufactured goods, minerals, fuels,

eggs, canned foods, frozen foods, lubricants, blooded livestock, meat, butane, dairy products, and hundreds of others.
