LISTEN TO LUKE

Announcement is made this week of the closing of two local cafes. This leaves two in Sanderson - Admiral's Steak House and Oasis Restaurant - available for local and traveling eaters. There is also rumor of another cafe opening where the Rancho Grande formerly was, just east of the Double T Grocery.

Times certainly change. We can recall when there was a Jimmy's Steak House, the Kerr Hotel Cafe, the Club Cafe - all "downtown", and even before that there was the Buff Cafe, Van Noy Restaurant (the Beanery), Breedings Restaurant, and Hamburger Dan's - all "downtown" and several cafes in the Latin-American section where good Mexican food was not a specialty but an "only".

We continue to get comments from local residents and readers commending us on the approach we are trying to get something done at the local dump ground. We appreciate the remarks that people make to us, but we are not running those things and all remarks should be addressed to where they would do the most good. The county owns the dump ground and it is used by precinct 1 users mainly as a refuse disposal area.

There is a small fee that is attached to the water bills each month for the pick-up of garbage from local residents. The fee - in our opinion - is far less than the cost in trouble and time involved in the individual hauling of trash and the county employees responsible have their instructions for dumping of the trash in some systematic order. Anyone who is not having their trash picked up is asked to call our precinct 1 commissioner if they would like for the local crews to begin pickup of the trash. The men who are on the truck doing this job are responsible to the commissioner and should not be expected to take the responsibility on themselves of negotiating for the pick-up service.

In our mention of the various fund drives that were going on or expected locally, we forgot to mention the project of the band boosters who were having their annual chili supper Thursday night of this week. This is one of the main fund-raising ventures of that organization, the others being the printing of the birthday calendar and the spring concert by the band.

All of these projects are worthwhile, each one helping to promote an activity that has prime importance to someone. But each one must be considered by the many who are contacted for helping all of them.

And an outstanding responsibility for all of us always is the responsibility to support our church and their various agencies of benevolent support.

There is a good likelihood that Sanderson will have a dentist to be here on Fridays and Saturdays every other week. There was a man here last weekend looking over the town, asking about a possible office space, etc., for just such a venture.

Lions To Help Local Projects

The Sanderson Lions Club will have an all-out drive the week of Feb. 7-14 to sell light bulbs to local residents, according to Ruel Adams, president of the local club. Half of the proceeds will go to finance the all-sports banquet and half will be given to the Eagle Boosters field house project.

The light bulbs will be sold in handy packages of 4 100-watt, 2 75-watt, and 2 60-watt bulbs for \$2.09 including the tax.

The entire membership of the Lions Club has been organized to supply friends and neighbors with light bulbs delivered to their door, Adams stated, and asked for the support of local residents in their efforts to aid the two local projects.

Rev. and Mrs. Melvin Walker of Carlsbad, N.M., arrived Monday to visit friends for a few days.

Gas Well Assured In Terrell Field

Gas discoveries were assured in Terrell and Reeves Counties; tests continued at a Ward strike and a confirmation was indicated to a Ward field.

An Ellenburger gas discovery was assured in Terrell County with the flowing of 85 barrels of load water to pits in an unreported time, plus gas at the rate of 2.7 million cubic feet daily at Roden Oil Co., Midland, No. 1-59 Mitchell, in 59-1-CCSDE RGNG, 25 miles northeast of Sanderson, 6 1/2 miles northwest of the one-well KM (Ellenburger gas) field and five miles west-northwest of the one-well Little Canyon (10,000-ft. Strawn gas) field.

Flow was through a 1/2 inch choke and perforations at 18,440-42 feet, which had been acidized with 20,000 gallons.

Testing continued with 175 barrels of load remaining to recover.

Operator was preparing to move off rotary. Earlier operator perforated at 17,930-347 ft. but was unable to acidize with 20,000 gallons.

It was drilled to 18,600 feet, where 5 1/2-inch casing was set. It flowed gas at the rate of 4 million cubic feet daily on a test at 17,900-18,501 feet; and at the rate of 750,000 cubic feet daily on a test at 17,930-18,347 feet.

Chili Supper Slated Tonight

The annual chili supper given by the Band Boosters will be tonight at the St. James Hall. Serving will begin at 5:00 p.m. and last for two hours.

Tickets have been on sale in recent weeks and the funds realized from the project will go toward paying the necessary expenses incident to sending the band to Lamesa to the annual band festival.

The patronage of the public will be appreciated and tickets will be available at the door.

L. R. Gant of Fort Worth sent us the picture of Sanderson taken from the top of the mountain southeast of town. In the original picture, some differences noted are the route of the old highway going west, no steel water storage tank, the round-house, etc. The old Boozier store is about where the post office is now. The vacant lot behind McKnight Motor Co. is the football field. The Cottage Bar building is still there, and other changes visible. The picture was taken after 1930.

White Cites Record In Bid For 4th Term

Congressman Richard C. White of the 16th District of Texas today announced his candidacy for a fourth term as U. S. Representative from this far West Texas area.

Congressman White cited a solid list of accomplishments during three consecutive terms in the House and a firm foothold on the tough Congressional seniority ladder as prime considerations for his return to Washington.

"During the five years I have represented the 16th District of Texas, I have been able successfully to author and sponsor many bills for the direct benefit of my district, and upon completion of my present term I will have six valuable years of service in a legislative body which is deeply committed to a seniority system," White said.

The Congressman said he had pressed for committee assignments which would allow him to do the most good for his district. His first assignment was on the Interior and Insular Affairs Committee, and then he added the Post Office and Civil Service Committee.

One year ago, he resigned his seat on the Interior and Insular Affairs Committee to gain a chair on the powerful House Armed Services Committee which he describes as extremely valuable to the district.

Track Field Work Is Begun

Work has started on the construction of a track field north of the football field on property recently purchased by the Terrell County Independent School District. The project is one of the Eagle Boosters steps to better the facilities at the property and also includes plans for a field house - dressing rooms, showers, and coaches' offices.

It is hoped to have the field ready for practice this spring when track season starts in the next few weeks. Coach Willie Meyers is to be the track coach.

County equipment is being used to level the ground and clear brush, etc., from the site of the track field.

He comes, if he does, with the recommendation of a dentist that many people here know, and his coming could be a boon to local residents for routine dental work. We know as well as the next person, that a toothache cannot always wait two weeks for treatment. But many dental problems can. And probably more of us would have check-ups more often if there was a dentist here regularly to whom we could go just for our routine and regular dentistry. His coming here would save us teeth and miles probably.

Mrs. E. E. Farley and daughter, Miss Beverly Farley, and Raymond Farley, her brother-in-law, attended the twenty-fifth wedding anniversary celebration for their nephew and wife, Mr. and Mrs. L. L. (Red) Nutter in Big Lake on Saturday, January 24. Due to an accident that happened to Mr. Nutter while on the job early this month, and his hospitalization, Mrs. Nutter greeted the guests at the long-planned event. The couple's son-in-law and daughter, Mr. and Mrs. Don Beach, of Smyer hosted the affair.

THE BELT IN YOUR UNIROYAL TIRES

What it is

As its name implies, the belt is a band of cord material (2 ply) extending from shoulder to shoulder under the tread and over the body plies.

How it works

The belt plies are stiffer than the body plies. Because of this, they stiffen the tread. Hold it flat against the road. Keep it from compressing under the weight of the car and thus restrain its tendency to squirm and scuff off tread rubber. This is how the belt makes all that difference in mileage, handling, control and ride.
